The process by which Particle and Particle units move between Wave and Particle is called PARTICLE PHASING. Through repeated cycles of Particle Phasing, matter units "Electron" through "Proton" and "Neutron" are created.

Connectedness is the form of Particle. Units called PRIMAL SUBSTANCE of which the cosmos is structured. Particle Phasing is the perpetual PRIMAL ACT of reciprocal fission and fusion through which Primal Substance is brought into manifestation.

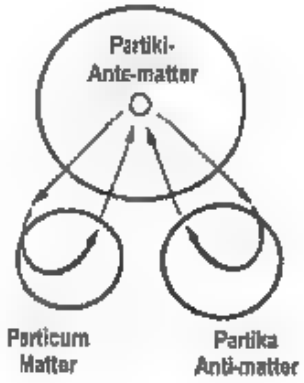
The Holographic Template

PRIMAL SUBSTANCE

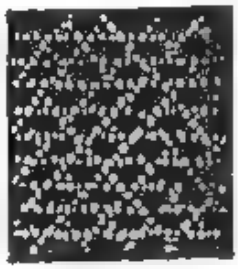
Units of Consciousness, Morphogenetic Fields and Scalar Grids

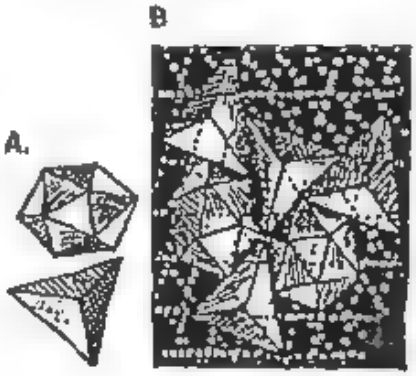
1 *Partiki, Partika and Particum* Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/fusion generators.



3 Partiki units continue to group or accrete upon the Partiki Grids forming **A. *Keylons*** – crystallizations of "frozen light" (stand scalar wave patterns and fixed points of tonal frequency), and **B. *Keylon Codes*** – complex groupings of Keylons, which together form a crystalline template of light spectra, sound frequency and electro-magnetism that is the morphogenetic field Crystal Body – the Blueprint upon which matter and identity will manifest.

2. *Partiki Grids* The fabric of morphogenetic field structure. Partiki units group to form interwoven Strands, then Grids of electro-tonal substance, out of which morphogenetic fields are fashioned. Out of a Unified Field of Partiki units, Partiki Grids form to create the frequency bands that make up dimensional fields and then to form individuated morphogenetic fields.





The **Morphogenetic Field** is made of interwoven Partiki Grids. The electro-tonal units of consciousness out of which Partiki Grids form create standing wave patterns – **scalar wave grids**, which hold the form of consciousness within dimensionalized manifestation. Morphogenetic Fields are thus **Scalar Grids** that form in specific ordered interrelationship. Partiki Grids form upon the core *geometrical-mathematical* structure of the **Kathara Grid**, and so the **Kathara Grid** represents the *core Scalar Field* upon which form manifests.

Morphogenetic Fields govern the form of matter manifestation and evolution of biology and consciousness. Morphogenetic Field mechanics thus hold the key to mastery of physical reality and Bio-Spiritual Evolution.

THE STRUCTURE OF DIMENSIONS

Frequency Bands and Sub-Frequency Bands, Vibration-Oscillation-Particle Spin, Harmonics of Manifestation and Matter Density Levels.

The Hologram of manifest reality is a complex system of interwoven energy constructs all built upon **dimensionalized sets of scalar grids** – or fields of standing wave points – that form the **base laws of energy** upon which manifest reality functions.

The physical portions of the human body represent ***wave strata*** that exist within specific relationships to the embodied consciousness. **The embodied consciousness itself is *regulated by the intrinsic behavior of the wave strata* in which it is ensconced.** The wave strata of seemingly physical forms appear to *human detection* in the form of *particles, sub-particles and wave bands* that group to form the 3-dimensionally manifest hologram of human life.

The **behavior of dimensionalized wave strata** is an intrinsic element within the function of ***human anatomy*** and provides the *very context* within which human existence and evolution take place. When we come to understand ourselves as **vibrating quantities of conscious energy**, existing within a state of **vibrational co-resonance with all things**, which are themselves *vibrating quantities of conscious energy*, we can begin to understand the **fundamental structures** upon which the human condition is built.

*The human body is a **construct of conscious energy**, a living* morphogenetic field existing within the greater living morphogenetic constructs of the species, planetary, galactic, universal and cosmic morphogenetic structure. We are simply an element of sentient consciousness within a larger structure of sentient consciousness, a part of the **Unified Field of Consciousness** that IS the living identity of the cosmos. Our physicality emerges through the **perceptual lens of dimensionalization**, which provides us with the seeming manifestation of **particles, atoms, molecules** and the **physical systems** built upon them.

If we expect to **heal ourselves** of the manifest conditions that cause suffering within the Body-Mind-Spirit system, we must first understand the nature of health, the "way things are suppose to work" when they are *functioning properly*. To understand the intrinsic **imprint and impetus for health**, in the human organism, a basic understanding of the *contents of its parts* is in order. That understanding begins with *identifying the basic reality structures within which we reside and how we exist in relationship to these structures*.

Our understanding of *health* begins with *identifying the context of existence*, the *Unified Field of Consciousness-Energy* of which we are all a part. **A simple *identification of the structures of the Unified Field* will work wonders in assisting us to understand ourselves, and through this understanding we become more empowered to foster a healthful and more joyous living experience.** To better understand ourselves we must return to the core of our intrinsic nature, the **dimensionalized fields of consciousness** within which we reside and out of which the substance of our SELVES is composed.

The following characteristics inherent to the manifestation of the human hologram are a place to begin our journey of self-understanding.

Characteristics of the Hologram

PRIMAL ORDER

SCALAR WAVES Points of standing waves, composed of quantities of conscious energy that emanate out of fixed units of vibration (Partiki Units) which form the morphogenetic field templates upon and through which consciousness dimensionalizes itself to experience the hologram of manifest reality. Created through Partiki Phasing (internal fission/fusion "flash on / flash off")

MORPHOGENETIC FIELDS The templates of consciousness, light, sound and scalar standing-wave grids which serve as the structured blueprints upon which our consciousness manifests into dimensionalization, through which the holographic projections of space-time-matter and identity individuation can be experienced

DIMENSIONS *Morphogenetic Field Scalar Grids composed of interwoven layers of scalar waves, which serve to direct the flow of consciousness into multiple patterns of refraction through which the hologram of matter density, linear time and objectification of reality can be experienced* Dimensions are specific structures of consciousness composed of Partiki units with differing vibratory-oscillation rates, which exist in precise relationship to each other and govern the intrinsic laws of function within the observable manifest worlds. The process of dimensionalization occurs through the wholeness of consciousness *compartmentalizing itself into various ordered sections having diversity of vibratory-oscillation*, through which the wholeness of consciousness may experience itself in an endless variety of forms. Each dimension represents a full frequency band.

FREQUENCY BANDS Synchronized, cyclic, repeated sequences of "flashing on and off" of scalar-wave points within the dimensional scalar grids, which gives the appearance of manifest movement of wave spectra within a dimensional system. **Sub-frequency Bands** are shorter segments of the longer "flashing and off" sequence of the full Frequency Band. The frequency of dimensional levels and the particles within them is determined by the vibratory-oscillation rate of the Partiki units that make up the scalar-wave grid. Frequency is the form consciousness takes on while ensconced within the framework of dimensionalization. Frequency is the vibrating-oscillating wave spectra of which matter particles and dimensionalized consciousness are composed

VIBRATION-OSCILLATION Vibration is the condition of **internal movement**, or ***holding of energy, within*** units of consciousness (Partiki) and the particles built upon them. Vibration is determined by the ***quantity of energy held within*** **Partiki units**. **Oscillation** is the condition of **external movement**, or ***expending of energy, from*** Partiki units and the particles built upon them.

The vibratory-oscillation rate of particles represents the *rate at which the scalar standing-waves "flash off and on"* within the morphogenetic field template. Vibration is the *internal measure of energy quantity* held within Partiki units and exists within direct proportion to the *oscillation rate*, or *external measure of energy quantity expended*, exhibited by Partiki and the particles built upon them

The vibratory-oscillation rate represents the ratio between energy contraction (vibration) and energy expansion (oscillation), which sets the rhythm of particle pulsation that governs the formation of wave spectra within dimensionalization. The vibratory-oscillation rate of Partiki units determines the frequency (cyclic pattern of scalar waves "flashing off and on") of wave spectra within the various levels of the dimensionalized morphogenetic field. **The relationship of vibrational-oscillation between wave spectra determines the matter density levels particles will exhibit within the dimensional scale**

The human anatomy is a 15-dimensional morphogenetic field scalar grid structure, composed of wave spectra with varying degrees of matter density characteristic to the dimensional band with which each level of the anatomy is stationed. The PRIMAL ORDER of Manifestation Templates represents the core mathematical and geometrical relationships of energy that consciousness relies on in order to enter the holographically projected experience of external space, time and matter. All manifest forms, including the HUMAN BODY and PSYCHE are built upon a Manifestation Template that begins with the Primal Order of Dimensionalization, through which the consciousness anchors itself into the Time Cycles of the Universal Manifestation Template Time Matrix to begin the sequential process of evolution through time.

Understanding the PRIMAL ORDER OF DIMENSIONAL STRUCTURE as it pertains to the human organism allows for comprehension of the greater causal framework through which personal healing must occur. Such comprehension of the core causal structure of manifestation enables one to work cooperatively with, rather than in resistance to, the natural Universal Laws of Manifestation, progressively restoring the NATURAL HARMONIC ORDER of well-being and DIVINE RIGHT FORM, through which the Indelible Organic Imprint for Health can be progressively restored.

Dimensional Structure

A Dimension represents a full Frequency Band, or repeating, cyclic sequence of "flashing on and off" scalar-wave points within a morphogenetic field. The morphogenetic field scalar grid structure of dimensions takes the form of sets of 15-Dimensional Matrices. The 15 Dimensions are grouped into sets of 3 Dimensions each, forming 5 sets of 3-dimensional reality fields called HARMONIC UNIVERSES. The 15-Dimensions composing the 5 Harmonic Universes together represent the TIME MATRIX system.

Each dimension of frequency is composed of 12 Sub-Frequency Bands, or shorter cycle of "flashing on and off" or scalar-wave points, which exist as part of the longer cycle of the full Dimensional Frequency Band. The Particle in each dimension have a specific rate of vibratory-oscillation (contraction and expansion of energy), which determines the Angular Rotation of Particle Spin (angular axis upon which particles will spin). There is a 90-degree shift of angular rotation of particle spin between each dimensional frequency band and a 45-degree reverse shift between Harmonic Universes (set of 3 dimensions' frequency bands.

Particles having varying vibratory-oscillation rates and angles of spin allow multiple dimensional reality fields to co-exist within the same space while remaining perceptually invisible to each other. The relationships between wave-shifts within the dimensional frequency bands create the holographic refraction of light, sound and scalar waves, that allows consciousness to perceive the illusion of matter solidity, space, time and externalization of reality while it is interconnected within the structures of dimensional vibration.

PARTIO PHASING, HARMONICS OF MANIFESTATION AND MATTER DENSITY

Partid Phasing - Scalar Standing - Wave Nesting. The internal expansion - fission, "flashing on" and contraction - fusion, "flashing off" of scalar standing-wave units made of Partid units. Partid Phasing governs the mechanics of matter manifestation within the Dimensionalized Frequency Bands of the Time Matrix. Through Partid Phasing, HARMONICS of Manifestation and varying levels of matter density are created.

Each of the 9 Harmonic Universes, moving upward in the 15-Dimensional Scale, have progressively less dense state of perceivable matter. As you go up the Dimensional Scale, each Dimension has a progressively faster rate of Partid Phasing with its corresponding higher frequency, faster oscillation, lower vibration, shorter wave length, greater expansion and less matter density. These conditions represent the stages of perceivable matter density consciousness will experience as the focus of attention expands progressively upward/outward into the higher Dimensions of the Dimensional Scale through the process of evolution (accretion of frequency from the Unified Field into the personal morphogenetic field.

As consciousness progressively expands back into the 15-Dimensional structure of its original morphogenetic field, matter density perception will change from perceivable Gross Matter physical density, to Semi-etheric Matter density, to Etheric Matter density, to Pre-matter liquid light density and to its original Anti-matter scalar wave form omni density consciousness. As the morphogenetic field expands, through drawing to more frequencies of consciousness, the perceivable matter density of the body and external reality field progressively lessens.

UNIVERSAL AND PLANETARY KATHARA

Kathara Level-1: 12-Tree, Kathara Level-2: Crystals,
Kathara Level-3: Diodic Points, Kathara Centers and Kathara Lines.

The Kathara Grid is the primary mathematical-geometrical organization of units of consciousness upon which Particle units group to form morphogenetic field scalar grids. It is the **CORE** level of scalar standing-wave creation and energetic organization within and behind all dimensionalized systems, and is thus considered to be the **Core of the Holographic Template** upon which the morphogenetic scalar wave blueprint and all other dimensions of form anatomy are built. The Kathara Grid is the causal element within all manifest effects of dimensionalization and consciousness.

The form of the Kathara Grid is reflected in the **Macrocosm and Microcosm of all manifestation**. All forms have at their core the common structure of the Kathara Grid Holographic Template. The Kathara Grids of all forms - universes, galaxies, planets and species - are linked to each other and to the Kathara Grid of the Cosmos through the interwoven Particle scale standing-wave grids of the Kathara Grid Holographic Core. **The Cosmic Kathara Grid represents the scalar field of the Cosmic Unified Field of Consciousness-Energy** through which the Hologram of manifest experience is perpetually created.

Energy cannot be created or destroyed; it only changes form. Energy IS Eternal Consciousness that perpetually changes form by projecting through the structures of the Kathara Grid, while simultaneously remaining always the same - the singular wholeness of the **Cosmic Unified Field of Consciousness-Energy**.

UNIVERSAL AND PLANETARY KATHARA

Kathara Level-1: 12-Tree, Kathara Level-2: Crystals,
Kathara Level-3: Diodic Points, Kathara Centers and Kathara Lines.

The Kathara Grid is the primary mathematical-geometrical organization of units of consciousness upon which Particle units group to form morphogenetic field scalar grids. It is the **CORE** level of scalar standing-wave creation and energetic organization within and behind all dimensionalized systems, and is thus considered to be the **Core of the Holographic Template** upon which the morphogenetic scalar wave blueprint and all other dimensions of form anatomy are built. The Kathara Grid is the causal element within all manifest effects of dimensionalization and consciousness.

The form of the Kathara Grid is reflected in the **Macrocosm and Microcosm of all manifestation**. All forms have at their core the common structure of the Kathara Grid Holographic Template. The Kathara Grids of all forms - universes, galaxies, planets and species - are linked to each other and to the Kathara Grid of the Cosmos through the interwoven Particle scale standing-wave grids of the Kathara Grid Holographic Core. **The Cosmic Kathara Grid represents the scalar field of the Cosmic Unified Field of Consciousness-Energy** through which the Hologram of manifest experience is perpetually created.

Energy cannot be created or destroyed; it only changes form. Energy IS Eternal Consciousness that perpetually changes form by projecting through the structures of the Kathara Grid, while simultaneously remaining always the same - the singular wholeness of the **Cosmic Unified Field of Consciousness-Energy**.

Structure of the Kathara Level-1 12-Tree Grid Core Scalar Template

12 PRIMARY KATHARA CENTERS

Kathara Centers are condensed Scalar Wave points that hold the core electro-tonal geometrical-mathematical program for dimensionalized structure. There are 12 Kathara Centers, each holding the program for one Dimension. The program for Partiki Phasing and Vibration-Oscillation for each Dimensional Frequency Band is set in the corresponding Kathara Center. The Kathara Centers set the template for each Dimension, to ground consciousness within the Holographic experience of manifestation.

15 PRIMARY KATHARA LINES:

Kathara Lines are the primary sequences of Partiki Phasing that transmit the electro-tonal programs held within the Kathara Centers from one Dimension to another, to keep the continual flow of consciousness circulating throughout the 15-Dimensional levels of the Morphogenetic Field. When functioning properly, the Kathara Lines connect each Harmonic and Dimension of consciousness to the other and govern the synchronization of cycles of time within the Dimensional Fields and within the morphogenetic field, DNA and body rhythms of dimensionalized forms. The 3 Vertical Kathara Lines control the operation of the other 12 Kathara Lines. The Central Vertical Kathara Line is the control center for Partiki Phasing rhythms throughout the Kathara Line System.

There are 3 Primary Levels to the structure of the Kathara Grid. Level-1: The Kathara 12-Tree, Level-2: The Crystal Seals and Level-3: The Diodic Points.

Level-1: The 12-Tree holds the first mathematical-geometrical program upon which Kathara Grid Levels 2 and 3 are created, and is composed of the Kathara Centers and Kathara Lines.

Level-2: The Crystal Seals are groups of 3-Dimensional Partil scalar wave composites that regulate the role of Partil Phasing to create the base structures upon which dimensionalization is formed. The flow of Frequency (sequences of scalar standing-wave bandwidths) of Partil Phasing between dimensional bands and Harmonic Universes, the fixed expansion and contraction rates of Partils, the Vibration-Oscillation and the Angular Rotation of Particle spin are all regulated by the Crystal Seals.

Level-3: Diodic/Triodic Points represent concentrated areas of energy that emerge at points where dimensionalized levels of scalar grids cross over and through each other, creating minute vortices of wave spectra that serve as frequency modulation zones (scalar flash-cycle transition points) between Dimensional Frequency Bands. Diodic Point vortices are White Hole vortices that transmit energy into the Particle Universe from their counterpart Triodic Point vortices within the Anti-particle Universe. Through the structure of Dimensionalization each Harmonic Universe and the structures contained there within have, within their morphogenetic fields sets of Diodic and Triodic Points: sets of White and Black Holes: that regulate the flow of consciousness - energy between systems.

The entire cosmic structure is built upon the morphogenetic foundations of interwoven Kathara Grids. Within the structures of forms, such as planets or people, the Kathara Grid is the Core Template of holographic Manifestation and controls the structure and function of all of the other subtle and physical energy systems.

Planetary scalar templates: Planetary Shields: vortices, electro-magnetics, Aetheric and Ley Lines are all governed by the operations of the Kathara Grid. In the human body personal scalar templates: Aura Bodies, Chakras, Axiom and Meridian Lines and the energetic Field Auric Levels, as well as the physical systems, conscious awareness and DNA, are controlled by the personal Kathara Grid. In terms of generating the imprint for Health within the human organism, as well as reclaiming dormant potentials of Immortality, the Kathara Grid is the causal mechanism through which such effects can occur.

Level-3 The Crystal Seals are groups of 3-Dimensional Particle wave composites that regulate the rate of Earth Rotation under the laws governing wave interference. Several hundred of these primary populations of wave standing wave Seeding agents of Earth Passing between Dimensional Levels and Harmonic Universes, the basic operation and connection rules of Particle, the Vibration Oscillation and the Angular Rotation of particle spheres all regulated by the Crystal Seals.

Planetary Star Crystal Seals

In the Planetary Katharu Grids, the 15 Primary Star Crystal Seals exist between each planetary Vortex or Chakra on the Central Katharu Line or Central Planetary Axis. The Star Crystal Seals serve as "Frequency Seals" that open or close the flow of wave spectra and frequency bands from one Harmonic Universe to another, by regulating and modulating the sequences of Particle Passing and Vibration Oscillation rates of Particle and wave-like Dimensional scalar wave grid of the morphogenetic field. They control the opening and closing of the Central Vertical Katharu Line and Central Body Current, through which particles are phase-locked into their respective dimensional placements and wave-like cycle orientations. Opening of the star Crystal Seals releases the planetary particles and wave-lines from their dimensional placeholders, opening inter-harmonic Star Gates, wave-spectra vortices, within the star mass particulate transmutation and wave conformers and through bending the inter-harmonic wave spectra of the planetary morphogenetic field. The Planetary Star Crystal Seals control the opening and closing of the 3 Vertical Katharu Lines and Vertical Star Gate passageways of the Level-1: 12-True Katharu Grid within the planetary body.

The systems of Interwoven Manifestation Templates within the 6 Vector Density levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the UNIVERSAL TEMPLAR COMPLEX. The Luminescion Template of the Human body, illustrated and explained upon this Planet Order site, manifests through a personal INTERNAL TEMPLAR COMPLEX of interwoven 15-Dimensional Luminescion Templates.

- Universal, Galactic and Planetary Protective Templates of the Universal Temple Complex are called Scalar SHIELDS. Shields are sets of 3-Dimensional Scalar Grids upon which the 3 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct 3 Primary Flash Line Sequences or Radial Pulsing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Temple Complex of the human body is also organized with sets of 3-Dimensional Personal Scalar Shields, through which the matter form and 3 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the intrinsic dynamics of synchronistic Partial Phasing, each 4-Dimensional Scalar Shield manifests a 4-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN that creates the energetic framework within which the externalized manifest experience can take place. Within the Universal Temple Complex, these 4-Dimensional Domains form 3 separate yet interwoven Reality Fields or Harmonic Universes, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Fields, Time and Velocity. These Cycles manifest within the Personal Internal Temple Complex, the Spherical Electromagnetic Domains created by synchronistic dimensional Partial Phasing form within the 15 Dimensional Time Matrix of separate, yet interwoven STATIONS OF CONSCIOUSNESS called NOVA BODIES. The 3 Nova Bodies of Human Manifestation Template Anatomy, within the Time Matrix, represent the 5 Subtle Energy Bodies of human bio-energetic field construction, through which human identity experiences series of SIMULTANEOUS INCARNATIONS within various Time Cycles and matrix density levels of the Time Matrix. Human Evolution is the process by which the electromagnetic frequencies and vibrations of consciousness of the 3 Nova Bodies progressively merge and resonate the physical matter form consistent through various Matter Density stages through a process called TRANSMUTATIONAL DIMENSIONAL ASCENSION.

- Each of the 3 Shields within a 15-Dimensional Manifestation Template is structured upon 3 KATHARA CENTERS within the zero Prime Order of the Void. Kathara 12 Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a SIGNET Star Crystal Seal within the 4-Dimensional Scalar Shields. Within the universal, galactic and planetary Temple Complex the Signet Seals operate as Star Gates between the Time Cycles of the 6 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Temple Complex, each Nova Body is structured upon 3 Radial Grids with the embedded Personal Kathara and Each embedded Kathara Cosmic Nerve. Signet Star Crystal Seal within the human anatomy. Through the embedded Personal Kathara Grid, Scalar Shields, Signet Seals and DNA Windows the interwoven aspects of ETERNAL IDENTITY in the 15-Dimensional human consciousness can be activated into conscious awareness. This is the linking of personal consciousness within the various simultaneous cycles of time appearing to be embodied human awareness as REINCARNATIONAL MEMORY.

Shields are sets of 3-Dimensional Scalar Grids upon which the 3 Matter Density Levels of the Universal Manifestation Template manifest. A Shield is composed of the distinct 3 Primary Flash Line Sequences or Radial Pulsing Rhythms, characteristic to the 3 dimensions of which the Shield is composed. The Internal Temple Complex of the human body is also organized with sets of 3-Dimensional Personal Scalar Shields, through which the matter form and 3 Matter Density Levels of the 15-Dimensional human consciousness are projected into manifest experience.

- Through the intrinsic dynamics of synchronistic Partial Phasing, each 4-Dimensional Scalar Shield manifests a 4-DIMENSIONAL SPHERICAL ELECTROMAGNETIC DOMAIN that creates the energetic framework within which the externalized manifest experience can take place. Within the Universal Temple Complex, these 4-Dimensional Domains form 3 separate yet interwoven Reality Fields or Harmonic Universes, each with a different level of Matter Density, rate of Vibrational Oscillation, different Angular Rotation of Fields, Time and Velocity. These Cycles manifest within the Personal Internal Temple Complex, the Spherical Electromagnetic Domains created by synchronistic dimensional Partial Phasing form within the 15 Dimensional Time Matrix of separate, yet interwoven STATIONS OF CONSCIOUSNESS called NOVA BODIES. The 3 Nova Bodies of Human Manifestation Template Anatomy, within the Time Matrix, represent the 5 Subtle Energy Bodies of human bio-energetic field construction, through which human identity experiences series of SIMULTANEOUS INCARNATIONS within various Time Cycles and matrix density levels of the Time Matrix. Human Evolution is the process by which the electromagnetic frequencies and vibrations of consciousness of the 3 Nova Bodies progressively merge and resonate the physical matter form consistent through various Matter Density stages through a process called TRANSMUTATIONAL DIMENSIONAL ASCENSION.

- Each of the 3 Shields within a 15-Dimensional Manifestation Template is structured upon 3 KATHARA CENTERS within the zero Prime Order of the Void. Kathara 12 Tree Grid. Each Kathara Center of the Universal Kathara Grid forms a core point of consolidated frequency called a SIGNET Star Crystal Seal within the 4-Dimensional Scalar Shields. Within the universal, galactic and planetary Temple Complex the Signet Seals operate as Star Gates between the Time Cycles of the 6 Matter Density levels of the 15-Dimensional Time Matrix. Within the Personal Internal Temple Complex, each Nova Body is structured upon 3 Radial Grids with the embedded Personal Kathara and Each embedded Kathara Cosmic Nerve. THE UNIVERSAL TEMPLAR COMPLEX

The systems of Interwoven Manifestation Templates within the 6 Vector Density levels of the 15-Dimensional Universal Kathara Grid are collectively referred to as the UNIVERSAL TEMPLAR COMPLEX. The Luminescion Template of the Human body, illustrated and explained upon this Planet Order site, manifests through a personal INTERNAL TEMPLAR COMPLEX of interwoven 15-Dimensional Luminescion Templates.

- Universal, Galactic and Planetary Protective Templates of the Universal Temple Complex are called Scalar SHIELDS. Shields are sets of 3-Dimensional Scalar Grids upon which the 3 Matter Density Levels of the Universal Manifestation Template manifest. The embodied Manifestation Template of the human form is a microcosmic reflection of the Macrocosmic Universal and Cosmic Manifestation Templates. Both macrocosmic and microcosmic Manifestation Templates share and are interwoven through the same Primal Structures of the Kathara 12-Tree Grids (the 3-Dimensional Scalar Shields and Signet Star and Seed Crystal Seals and the Dodecahedral Polar Black and White Hole Sets of energy vortices that manifest upon the Kathara Grid) human consciousness and biology are directly and infinitely connected to the Universal Template Complex through the Personal Internal Template Complex of the Personal Manifestation Template.

HEALING AND PRIMAL FULFILLMENT

A multifaceted but operational understanding of the intrinsic structure of the embodied Personal Manifestation Template (the Level-1 Personal Kathara 12-Tree Grid, Level-2 Scalar Shields, Toroidal Double and Signet Star and Seed Crystal Seals and the Level-3 Double Polar) and its relationship to the Universal Template Complex, allows the embodied human consciousness the opportunity for progressive participation within the processes of CONSCIOUS EVOLUTION and intentional restoration of the Organic Imprint for Health. All manifest DISEASE originates through distortions in the electromagnetic wave programs of the Kathara Grid, Scalar Shields and Manifestation Templates. To achieve true and lasting healing rather than suppression and transference of disease to other embodied systems, distortions within the personal Manifestation Template need to be realigned from the causal Kathara Grid level through REGENESIS of Primal Order within the Organic Imprint for Health.

Manifestation Template healing therapeutics, based upon the knowledge of the Kathara Grid, simultaneously work to restore the natural intended Primal Order and function of the human body and consciousness while expediting the evolutionary process of merging the stations of identity through time, to facilitate fulfillment of the organic PRIMAL PURPOSE. The Primal Purpose of human evolution is the achievement of Transmultiversal Dimensional Ascension and Co-creative Mastery over the Personal Internal Consciousness and Internal Template Complex within the Holographic Fields of the Time Matrix. Through fulfillment of the Primal Purpose, humanity will regain THE PRIMAL CONDITION of Conscious AT-ONE-ment with the Universe and the Central Source of Creation, or God.

Scalar Waves are standing wave points that emanate out of fixed points of sound (electro-tonal Partiku units), which form the **Scalar Grid morphogenetic templates** that house consciousness in **dimensionalization** for experience of manifest reality. Scalar Grids are created through **Partiki Phasing**.

Partiki Phasing is the process of ***internal fission / expansion and fusion / contraction***, characteristic of **Partiki Units**, through which the units perpetually break apart and replicate through *fission*, then re-merge through *fusion*. Creates a "*flashing on and off*" of **Scalar Wave points**, or **"Flash-line Sequences"** that determine the intrinsic orientation of consciousness within the Scalar Grids composing morphogenetic fields

Dimensions are Scalar Grids of consciousness composed of interwoven layers of Scalar waves with **varying Flash-line Sequences**, or *Frequency Bands*. **Dimensions are Frequency Bands**, or Partiki wave spectra, that exist within specific relationship to each other to form the template of Holographic Reality

Frequency Bands are synchronized, repeating ***Flash-line Sequences of Partiki Phasing*** that give the appearance of manifest movement of wave spectra within a Dimensional Scalar Grid. **Sub-frequency Bands** are *portions* of the *Flash-Line Sequences* that make up the whole Dimensional Band. The Frequency of a Dimensional Band is determined by the **Vibratory-Oscillation** rate of Partiki units that make up the Dimensional Scalar Grids.

Vibration is the "internal movement" or **ENERGY HOLDING** of Partiki units. **Oscillation** is the "external movement" or **ENERGY EXPENDED** by Partiki units. **Vibratory-Oscillation rate is the rate at which Partiki Phasing "flashing on and off" occurs**. Vibration and Oscillation exist in **direct proportion** to each other. As Vibration increases (energy holding), Oscillation decreases (energy expenditure). Faster Flash-line Sequences (higher frequency) *expend* more energy, raise Oscillation and lower Vibration of Scalar Templates. **Higher Oscillation; Slower Vibration creates slower electron movement around nucleus and less perceivable density of matter**

DIMENSIONS AND FREQUENCY

- A **Dimension** is a full Frequency band or **full cycle** of a **Flash-line Sequence**.

- The **Universal Morphogenetic Template** is built upon ***sets of 15 Primary Flash-line Sequences*** that form **15-Dimensional Time Matrices** within which manifestation can be experienced.

- **Dimensions are organized into sets of 3.** (3 full Flash-line Sequences/ 3 Frequency Bands), that create the template through which 3-dimensional manifestation can be experienced. Each set of 3 Dimensions is called a **Harmonic Universe**. There are **5 Harmonic Universes** within a **15-Dimensional Time Matrix**.

- Each Dimension contains **12 Primary Sub-frequency Bands** (partial Flash-line Sequences).

- Partiki in each Dimension have specific set **Partiki Phasing rhythms** giving each Dimension a specific ratio of **Vibration-Oscillation**. Higher Dimensions have Faster Partiki Phasing, are higher frequency and thus have higher oscillation, lower vibration and less particle density

ANGULAR ROTATION OF PARTICLE SPIN

- **Vibratory-Oscillation** rate within a Dimension determines the **Angular Rotation of Particle Spin (ARPS)**, or rotational axis of particles in a Dimension. There is a **90-Degree Shift** in ARPS between each Dimension and a **45-Degree Reverse Shift** in between Harmonic Universes.
- Particles having varying **Vibratory-Oscillation** rates and **ARPS** allow multiple 3-Dimensional Reality Fields to co-exist within the same space while remaining perceptually and experientially invisible to each other.
- The **relationship between wave strata** and **variance in Partiki Phasing, Flash-line Sequences**, within Dimensional Frequency Bands create **Holographic Refraction** of consciousness-energy that allows perception of an externalized, 3-Dimensional **Holographic Illusion** for consciousness focused within the Scalar Grids of the 15-Dimensional Time Matrix.

The Structures of Manifestation and Reclaiming Our Power

IN PART 1 of this program, THE CONTEXT OF HEALING, we explored the hidden foundations of reality structure within which our existence takes place, the context of relativity through and within which healing occurs. We learned that the context of existence can be viewed as taking place within a Unified Field of Energy, and this Energy IS consciousness and Consciousness IS energy. In one dimension we encountered the Particle. Particle and Particulate, the ultra-microscopic units of consciousness in electro-kinetic form, through which the angelic structure of living Morphogenetic Fields are formed. In learning to encounter and work with Energy-Consciousness-Energy, we came to understand that the existence of any form, including that of the human Mind-Heart-Spirit system, is a multi-dimensional construct built on an ordered template of units of 15-Dimensions, through which all conditions of apparent manifestation are created.

Through reviewing the underlying structures of another reality levels of consciousness, the Parallel Scalar Standing-wave Grids that link consciousness into individuated dimensional packages of awareness to allow for experiences of space, time, matter and form, the core Kathara Grid Holographic Template that sets the pattern of dimensional matrix for consciousness to follow into the manifest experience, the mode of Matter Density emerging through the external creation of time-space, and the reality that Dimensions of psychic conscious of energy created through the process of Parallel Phasing. The "wave-beam" Toning on and off of scalar standing-waves composed of units of consciousness, we have already expanded our perceptions of the nature of reality itself. With these simple modalities of knowledge, we have shifted ourselves from perspectives of viewing the reality before us as one of separate manifestations accommodated from our being as a perspective of viewing reality as an intricate system of interwoven consciousness, appearing in the form of standing-wave grids, to which we are intimately and holistically connected.

Suddenly we find that we cannot be "left out" of things; we cannot be on the outside as life passes us by. We have come to be "involved" with what we say, about aspects of the nature of our existence; we are an intrinsic element and force of creative effect within the whole of creation. Through this knowledge we have come to lay the secrets of SELF to rest and from viewing ourselves as world creatures trapped within space-time reality, limited physical body to KNOWING OURSELVES AS THE EXPRESSION OF CONSCIOUS SENTIENT WAVE-STRATA ETERNAL BEINGS ENDOWED WITHIN AN ETERNAL UNIVERSE within which Energy-Consciousness cannot be created or destroyed. It simply changes form perpetually. We have come to perceive ourselves as finite beings of limited power to affect a world that is separate from us, to viewing that we are walking wave-forms within a sea of vibrational wave forms and for the pattern of our daily existence as an intrinsic part of the whole. Above begins to perceive ourselves in terms of the unlimited reality of our nature, rather than define ourselves by the limited boundaries of the manifest illusion before us, we begin to reclaim our power to effect positive changes within the contours of our lives.

Knowledge, KNOWING and the Imprint for Health

Knowledge is an agent of freedom. It is used to foster practical applications of change. Knowledge can also become a perpetual agent of alienation through which we deny ourselves the ability to EXERCISE the experience of living as we seek outside of ourselves the answers that live within. Knowledge is power. It is applied appropriately. It can be an agent that leads one through the door to the WISDOM that exists on the other side. Knowledge alone cannot provide cognitive transition comes through the application of applied knowledge to provide tangible, experiential KNOWING, a knowing derived only through the direct experience of BEING. In Kathara Healing, knowledge is applied as a tool through which one can gain insight into the wisdom of direct experience - from thinking or believing which are knowledge-based characteristics of a mind perceiving itself as finite - to KNOWING, through Direct Cognition of the Experience of BEING, which is a characteristic of consciousness. KNOWING itself as ETERNAL.

In our last lessons on Kathara Healing, we gained knowledge of the Context of Healing and the structure of that which exists within and around us, so that we may become more empowered to serve as a healing force within ourselves and within the collective of the Whole. But this knowledge will only become practical or useful to us if it is applied to foster the direct experience through which the KNOWING may emerge. Then, and only then, will we be changed. Then and only then will we become true agents of healing. Knowledge can help you to understand the nature of health and healing, but only through KNOWING HEALTH through direct experience will you be healed. To KNOW HEALTH we must transcend the ability within ourselves to EXPERIENCE the quality of wholeness that emerges as the Imprint for Health is manifested within its natural body. First we must use knowledge to recognize that the Imprint for Health is there, stepping directly within us, meeting this requirement.

Healing the Causal Core

Fixing symptoms does not restore the Imprint for Health; it simply results from what the causal elements through which pain-health manifested. Removing the symptom without addressing the underlying cause simply sets the stage for its cause to re-manifest itself in new ways. Through new sets of symptoms. Each symptom you remove will give birth to another symptom if the underlying cause is not changed. Kathara Healing addresses the deepest causal factor in manifestation: the Holographic Template Kathara Grid, upon which all conditions come into being. Within the intrinsic structure of the Kathara Grid, the dormant Imprint for Health is stimulated and through knowledge of Kathara and applications of its methods we can reawaken the Imprint for Health within ourselves to progressively move into KNOWING HEALTH through the cognition of Direct Experience.

In Kathara Healing you are provided with the knowledge you need to understand the structures upon which the Imprint for Health is built. From a scientific basis structure, you will be enabled to call the Imprint for Health into awakening. But it is through the APPLICATION OF KATHARA TECHNIQUE that you will EFFECT CHANGE. The technique applications offered in Kathara Healing allow you to "bring the knowledge home" to the core of its existence, the ability to lead you into the direct experience of health-event change.

Knowledge can help you to understand the nature of health and healing, but only through KNOWING HEALTH through direct experience will you be healed. To KNOW HEALTH we must transcend the ability within ourselves to EXPERIENCE the quality of wholeness that emerges as the Imprint for Health is manifested within its natural body. First we must use knowledge to recognize that the Imprint for Health is there, stepping directly within us, meeting this requirement.

Healing the Causal Core

Fixing symptoms does not restore the Imprint for Health; it simply results from what the causal elements through which pain-health manifested. Removing the symptom without addressing the underlying cause simply sets the stage for its cause to re-manifest itself in new ways. Through new sets of symptoms. Each symptom you remove will give birth to another symptom if the underlying cause is not changed. Kathara Healing addresses the deepest causal factor in manifestation: the Holographic Template Kathara Grid, upon which all conditions come into being. Within the intrinsic structure of the Kathara Grid, the dormant Imprint for Health is stimulated and through knowledge of Kathara and applications of its methods we can reawaken the Imprint for Health within ourselves to progressively move into KNOWING HEALTH through the cognition of Direct Experience.

In Kathara Healing you are provided with the knowledge you need to understand the structures upon which the Imprint for Health is built. From a scientific basis structure, you will be enabled to call the Imprint for Health into awakening. But it is through the APPLICATION OF KATHARA TECHNIQUE that you will EFFECT CHANGE. The technique applications offered in Kathara Healing allow you to "bring the knowledge home" to the core of its existence, the ability to lead you into the direct experience of health-event change.

Knowledge, KNOWING and the Imprint for Health

Knowledge is an agent of freedom. It is used to foster practical applications of change. Knowledge can also become a perpetual agent of alienation through which we deny ourselves the ability to EXERCISE the experience of living as we seek outside of ourselves the answers that live within. Knowledge is power. It is applied appropriately. It can be an agent that leads one through the door to the WISDOM that exists on the other side. Knowledge alone cannot provide cognitive transition comes through the application of applied knowledge to provide tangible, experiential KNOWING, a knowing derived only through the direct experience of BEING. In Kathara Healing, knowledge is applied as a tool through which one can gain insight into the wisdom of direct experience - from thinking or believing which are knowledge-based characteristics of a mind perceiving itself as finite - to KNOWING, through Direct Cognition of the Experience of BEING, which is a characteristic of consciousness. KNOWING itself as ETERNAL.

In our last lessons on Kathara Healing, we gained knowledge of the Context of Healing and the structure of that which exists within and around us, so that we may become more empowered to serve as a healing force within ourselves and within the collective of the Whole. But this knowledge will only become practical or useful to us if it is applied to foster the direct experience through which the KNOWING may emerge. Then, and only then, will we be changed. Then and only then will we become true agents of healing. Knowledge can help you to understand the nature of health and healing, but only through KNOWING HEALTH through direct experience will you be healed. To KNOW HEALTH we must transcend the ability within ourselves to EXPERIENCE the quality of wholeness that emerges as the Imprint for Health is manifested within its natural body. Elements of Healing

In Part II, THE ELEMENTS OF HEALING, we will apply the knowledge of the Context of Healing that we acquired in PART I directly to its relevance in terms of the HUMAN BODY. We will now explore Kathara Mechanics as they apply directly to the human system and you will gain the knowledge of your 15-Dimensional Anatomy, through which you may then effectively utilize Kathara Mechanics Techniques to begin your journey into the EXPERIENTIAL REALITY OF HEALING. We will discover the long forgotten potentials of the *Planetary Bio-feed Interface Systems* and how to receive energy for healing directly from the Kathara Grid of the Earth. We will explore the real processes within and behind the experience of growth through time, so that we may finally identify the true causal element intrinsic to the degeneration and death of the body. We will come to understand the functions of the Body-Mind-Spirit System as they are INTENDED to operate, to identify the areas in which malfunction is occurring, so that we may remedy the causal factors to progressively restore the INTENDED INTEGRITY OF THE BODY-MIND-SPIRIT SYSTEM. In PART II, we will reclaim our knowledge of our multidimensional anatomy, and rediscover the buried secrets of awakening the *Imprint for Health*.

MAHARIC SHIELD

The Imprint for Health and the Maharic Shield

Restoration of health within the body is a progressive endeavor that takes time. Portions of the Body-Mind-Spirit System that have been malfunctioning must readjust to a new process of function that will progressively work its way up from the core Kathara Grid Holographic Template into the Bio-energetic Field, Chakra System and DNA, to progressively reset the Imprint for Health within the Body-Mind-Spirit System. The Imprint for Health sleeps soundly now within a portion of the multidimensional anatomy called the *MAHARIC SHIELD*. The Maharic Shield is a buried treasure of REGENERATION and REVITALIZATION of the human organism, as it is the key to restoring the human Kathara Grid back into its original Imprint for Health. The *Imprint for Health* is a tangible construct of energy that is located within the structure of the *Maharic Shield*. In calling these dormant energy systems into activation within the body, one has the opportunity to restructure the causal level of malfunction and to recode the Holographic Template upon which malfunction manifests.

Reciprocal Reflection and the Kathara Grid

All conditions of dis-ease within the Body-Mind-Spirit System share a common core of causality – distortions of the Kathara Grid upon which manifestation is built. All symptoms affect the Body, Mind and Spirit simultaneously. Malfunction in one aspect of being will have its reciprocal reflection in the other aspects of being, as the symptoms emanate from distortion in the Kathara Core, upon which all aspects of being simultaneously manifest.

As we work with restoring integrity to the Holographic Template Kathara Grid, we are thus creating simultaneous restoration through Reciprocal Reflection within the Body, the Mind and the Spirit (the CONSCIOUSNESS that makes up the substance of our multidimensional anatomy and identity).

The Mahanic Shield and Whole-Being-Healing

In activating the Mahanic Shield to regenerate the Imprint for Health, you will have change occurring within multiple levels of being. Your BODY will begin to reflect change as dis-ease-causing distortions are released from the biological imprint, and a higher level of order is re-established within the atomic structure. Your MIND will begin to reflect change as dis-ease-causing distortions in your thoughts, ideas and beliefs are released from the mental body awareness. Your SPIRIT-consciousness will reflect change, as divisions between your embodied awareness and the expanded portions of your multidimensional awareness will begin to dissolve and you will become progressively more able to embody greater states of cognition, creativity and awareness. Kathara Grid recoding through the use of the Mahanic Shield will set in motion the processes of WHOLE BEING HEALING, as the Imprint for Health is progressively reawakened and restored within the Body-Mind-Spirit System. Activation of the Mahanic Shield within the personal Kathara Grid will lay the foundation for progressive, lasting and powerful restoration of the Imprint for Health within your Body-Mind-Spirit System.

Learning to activate the Mahanic Shield to restore the Imprint for Health requires a bit of knowledge regarding Elements of the hidden anatomy of multidimensional being and application of specific energetic mechanics that will directly affect these hidden structures of energy. We will begin PART II with a discussion on the ELEMENTS OF HEALING as they apply to developing the skills required to create the condition of Mahanic Shield activation, through which the Imprint for Health can receive its wake-up call.

Awakening the Personal and Planetary Template Complex Connection

Interwoven Personal and Planetary Kathara Grids

The core Holographic Templates of both the personal and the planetary morphogenetic fields are built upon a Scalar standing-wave Kathara Grid. As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the planet they inhabit, there is a direct energetic connection between the Kathara Grids of the individuals and that of the planetary body. This connection between personal and planetary Kathara Grids is called the *Planetary Bio-feed Interface System®*. PBIS. For thousands of years the planetary Kathara Grid has carried distortions in its natural pattern that has rendered the PBIS primarily inoperable. Kathara distortions in the planetary morphogenetic field blocked the human's innate ability to draw energy for regeneration and revitalization from the planetary morphogenetic field.

When the human Kathara Grid system is working properly, there is a natural sympathetic rapport between the personal and planetary Kathara Grids that keeps the imprint for Health within the human *Mahanic Shield* functioning properly. Due to the distortions of the planetary Kathara Grid, the human Kathara Grid developed reciprocal distortions, which created blockages between the Mahanic Shield imprint for Health and the other functional portions of the human Kathara Grid. The blockages within the human Kathara Grid manifested as distortions within the natural function of the DNA and bodily systems, disarming many of the natural self-regenerative functions organic to human biology, and rendering the human form more susceptible to disease and malfunction of the biological system. As there is a Reciprocal Reflection of patterns between the Body, Mind and Spirit aspects of the human organism, due to their common causal element of the Kathara Grid Holographic Template, distortions within the DNA and physical body function also become reciprocal distortions within the mental body and its perceptual facilities, and within the Spiritual Body, as the Kathara distortions block and distort the organic cycles through which higher dimensional aspects of consciousness would progressively embody within and expand the human form.

Return of the PBIS – Gift of the 21st Century

The secrets of utilizing the PBIS have been passed down within the generations of the Melchizedek human families, who brought these teachings to Earth long ago, kept hidden from public display until a day when the PBIS could once again become operational through evolution and clearing of the planetary Kathara Grid. These teachings are now being returned to the public arena because progress has been made in restoring the integrity of the planetary Kathara Grid system. For the first time in many thousands of years the potentials of healing, held within the PBIS, can be returned to humanity, and the PBIS can now be activated within the personality biology to reawaken the Mahanic Shield and its imprint for Health within the human Kathara System. Reawakening the PBIS and the Mahanic Shield within the human body, allows the personal Kathara Grid to open into the planetary Kathara Grid through which its now-functional Holographic Template of the planetary Kathara can be used to REBET the original imprint of function within the personal Kathara, for accelerated regeneration of the imprint for Health within the human form.

HIEROPHANT SYMBOL CODE

The Hierophant Symbol Code PBIS Trigger

The first application of the PBIS that we will employ in Kathara Healing is utilizing the energies flowing through the planetary Kathara Grid to reawaken the Mahanic Shield within human anatomy. The process of opening the PBIS within the personal morphogenetic field involves using a specific scalar standing-wave-guide GEOMANCY, a consolidated inter-dimensional frequency pattern that triggers release of the frequency seals (Kathara Level-2 Crystal Seals) on the presently dormant 10th, 11th and 12th Chakras, opening the human Bio-energetic Field and Kathara Grid to the Kathara Grid, Bio-energetic Field, Ley Lines and energy Vortices of the planetary morphogenetic field. The wave-guide Geomancy, containing the frequencies to activate the PBIS and the Mahanic Shield, can be directed by human consciousness in the form of a visually created symbol code. This symbol code is called the HIEROPHANT. In TECHNIQUE #2: The Mahanic Seal and the Liquid Light Channel is to be explained in PART III of Section 1 the Hierophant Symbol Code will be used to bring the Mahanic Shield and the PBIS out of dormancy, in order to REBET the Imprint for Health within the operational Holographic Template of the human Kathara Grid.

The Hieroglyphant Symbol Code Scalar Wave Guide for Kathara Reprogramming

Thoughts and images, formed by the mind, represent small morphogenetic fields with minute Kathara Grids that become interwoven into the larger morphogenetic field and Kathara Grid of the human multidimensional anatomy. THOUGHTS ARE THINGS in terms of the bio-energetic reality of the body and the Kathara Grid; thoughts become translations of electro-fractal "digital" instructions within the human bio-energetic field, and directly enhance or detract from the natural function of the electro-fractal programs of the human Kathara Grid. In recognizing the power of thought as the power of creation of scalar standing-wave grids, we can begin to apply that power effectively in regeneration of the Kathara Holographic Template, by directing encoded electro-fractal instructions for awakening the Mahanic Shield into the embodied Kathara Grid. The Hieroglyphant Symbol Code, used in the form of a visualized image, sets a powerful electro-fractal program within the human Kathara Grid, a program that triggers the opening between the human Kathara and the PBIB.

The Hieroglyphant Symbol Code appears in the form of a Pale Silver Merkaba Star, a six-pointed "Star of David" which represents the electro-fractal programs of the 11th and 12th Dimensional aspect of the Universal Kathara Grid. The frequency wave spectra, perceived by the human mind as Pale Silver, represents the electro-fractal program of the Dark Silver primary frequency band of the 11th Dimensional wave spectra, combined with the Pure White primary wave spectra of the 12th Dimensional frequency bands. Using the Hieroglyphant Symbol wave guide to direct frequency and electro-fractal instructions through the Kathara Grid creates a scalar standing-wave pattern of 11th and 12th Dimensional frequency within the personal Kathara Grid, the frequencies in which the original electro-fractal instructions for the Imprint for Health are stored. By awakening the 11th and 12th Dimensional frequencies within the human Kathara Grid and bio-energetic field, all of the lower frequencies within the Kathara electro-fractal program become modulated and recoded into their organic unaltered pattern by the stronger wave influences of the higher 11th and 12th Dimensional frequencies, which contain within themselves the organic imprint for the wave dimensionalized wave spectra of the dimensions that oscillate below them.

The Hieroglyphant Symbol Code Scalar Wave Guide for Kathara Reprogramming

Thoughts and images, formed by the mind, represent small morphogenetic fields with minute Kathara Grids that become interwoven into the larger morphogenetic field and Kathara Grid of the human multidimensional anatomy. THOUGHTS ARE THINGS in terms of the bio-energetic reality of the body and the Kathara Grid; thoughts become translations of electro-fractal "digital" instructions within the human bio-energetic field, and directly enhance or detract from the natural function of the electro-fractal programs of the human Kathara Grid. In recognizing the power of thought as the power of creation of scalar standing-wave grids, we can begin to apply that power effectively in regeneration of the Kathara Holographic Template, by directing encoded electro-fractal instructions for awakening the Mahanic Shield into the embodied Kathara Grid. The Hieroglyphant Symbol Code, used in the form of a visualized image, sets a powerful electro-fractal program within the human Kathara Grid, a program that triggers the opening between the human Kathara and the PBIB.

The Hieroglyphant Symbol Code appears in the form of a Pale Silver Merkaba Star, a six-pointed "Star of David" which represents the electro-fractal programs of the 11th and 12th Dimensional aspect of the Universal Kathara Grid. The frequency wave spectra, perceived by the human mind as Pale Silver, represents the electro-fractal program of the Dark Silver primary frequency band of the 11th Dimensional wave spectra, combined with the Pure White primary wave spectra of the 12th Dimensional frequency bands. Using the Hieroglyphant Symbol wave guide to direct frequency and electro-fractal instructions through the Kathara Grid creates a scalar standing-wave pattern of 11th and 12th Dimensional frequency within the personal Kathara Grid, the frequencies in which the original electro-fractal instructions for the Imprint for Health are stored. By awakening the 11th and 12th Dimensional frequencies within the human Kathara Grid and bio-energetic field, all of the lower frequencies within the Kathara electro-fractal program become modulated and recoded into their organic unaltered pattern by the stronger wave influences of the higher 11th and 12th Dimensional frequencies, which contain within themselves the organic imprint for the wave dimensionalized wave spectra of the dimensions that oscillate below them.

Keys of Kathara Healing Techniques

Through using the Hierophant Symbol Code, we awaken the restorative frequency patterns within the Meharic Shield and the PSIS, beginning the process of regenerating the organic blueprint for Health in the human Holographic Template Kathara Grid. The cumulative effect of using the Hierophant Symbol Code to activate the Meharic Shield and the PSIS will occur upon using the Kathara Resonance provided in Technique #2, whether or not an individual understands the realities of frequency that are taking place throughout this process. Therefore, the complex mechanics of activating the Meharic Shield to reset the blueprint for Health can be reduced to simple instructions for the direction of energy. Through the theory of Kathara Healing, highly creative and complex, the Techniques by which active results are achieved employ simple exercises in Mental Symbol Code Visualization and mental-energy Direction, coupled with the application of simple Kathara-stimulating personal message to specific corresponding body parts. The Techniques of Kathara Healing and regeneration of Kathara Grid integrity are so simple that even a young child can learn to actively employ them, to achieve the desired result of restoring the blueprint for Health.

Frequency Accretion and Growth Through Time

The morphogenetic field of the human body evolves through time via the process of Frequency Accretion. The human morphogenetic field exists within the larger morphogenetic field of the planetary and universal dimensionalized Unified Field of Consciousness-Energy. Through the inherent function of the Kathara Grid and the multi-layered systems of energy built upon it, progressively more frequency and correspondingly more specific form the dimensionalized Unified Field are drawn into the personal morphogenetic field to create progressive expansion of the morphogenetic imprint and its resulting progressive expansion of consciousness and growth of the physical body in time.

Kathara Blockages and Organic Growth Cycles

Blockages and similar areas of distortion within the Kathara Grid impede the natural functions of Frequency Accretion and so distort the intended natural processes of consciousness expansion and growth of the body form in time. When the Kathara Grid is functioning properly, there are certain specific points of time/ time when specific aspects of morphogenetic expansion via Frequency Accretion are intended to occur. The original cycles of growth and expansion inherent to the human form occurred between 1- fetal integration through age 11-12, 2- age 11-12 through age 22, 3- age 22 through age 33 and 4- age 33 through age 44, at which time the human morphogenetic field would reach its full expansion, the DNA would reach its organic 12-strand activation, the identity would expand to hold 12-dimensions of consciousness with embodiment and the organism would have full conscious control of manifesting and de-manifesting its 15-Dimensional anatomy in time. The body forms of the original human imprint are ETERNAL. deterioration and death were not a part of the original imprint for Health within the human Bio-Spiritual makeup. Through understanding, now the process of growth and expansion in time were INTENDED to work, we can also understand the core reason for the manifestation of the SYSTEMS MALFUNCTIONS. the conditions of biological and mental deterioration that lead to the condition of BIOLOGICAL DEATH. a condition that is INORGANIC TO THE ORIGINAL GENETIC IMPRINT OF THE HUMAN FORM.

The First Natural Expansion Cycle

In the original human genetic blueprint, the frequencies and dimensions of consciousness corresponding to the next species of Dimensions 2 and 3 were intended to reside or draw into the morphogenetic field between fetal integration and the age of 11-12. At the age of 11-12 the next species of which the body was composed would take a leap in frequency, beginning the process of expanding the morphogenetic field to hold the higher frequency wave species of Dimensions 4, 5 and 6.

The expansion of the morphogenetic imprint is reflected in the DNA and chemical and hormonal balances within the body, which govern the function of the metabolic rate and the operation of molecular function. The first cycle of morphogenetic expansion into the wave spectrum of Dimensions 4, 5 and 6 represents the process of SOUL INTEGRATION for the embodied identity and begins the natural process of de-densification of matter. By lowering of morphogenetic vibration, raising of oxidation rate and frequency, and shortening of the wave-length of the matter waves that compose the matter form and consciousness. These changes in intrinsic wave characteristics have their reflection within the behavior of atomic structure, as the morphogenetic field wave spectra rises in frequency, the electron spin around the atomic nucleus slows, thereby increasing the electrical nature and reducing the magnetic orientation of atomic function, transmuting the perceivable matter substances of the cells to a less dense state of being. Completion of the Soul Integration process marks the transmutation of Carbon-based Gross-matter density into the Carbon-Silica based Semi-etheric matter density and the expansion of embodied awareness from 3 to 6 Dimensions of consciousness

Crystalline Expansion

This process of progressive morphogenetic field and consciousness expansion and resulting de-densification of biological matter continued throughout the remaining expansion cycles. Age 33 to age 55 marked the activation of the 7th, 8th and 9th Dimensional wave spectra, the process of Over-Soul Integration, expansion into a 9th Dimensional consciousness and transmutation to a Silica-based Etheric matter density biology. Age 33 to 44 marked the activation of the 10th, 11th and 12th Dimensional wave spectra, the process of AVATARIC INTEGRATION, expansion into a 12-Dimensional consciousness and transmutation out of biology into the Crystalline Liquid Light wave form or Pre-matter substance. At this point the identity is considered a full AVATAR and has complete control over manifesting and de-manifesting the Holographic Projection of its desired body/form at time.

THE 4 NATURAL CYCLES OF MORPHOGENETIC FIELD EXPANSION

64

THE 4 CYCLES OF MORPHOGENETIC FIELD EXPANSION REPRESENT THE ORIGINAL ORGANIC PROCESS BY WHICH THE HUMAN ORGANISM WAS INTENDED TO EVOLVE THROUGH TIME.

The Inorganic Condition of Human Illness and Death

The processes of biological and mental deterioration and resulting DEATH of the biological form, which we presently view as FACTS OF LIFE regarding the process of human passage through linear time, ARE NOT ORGANIC CONDITIONS TO THE HUMAN ORGANISM. Other life forms, such as the animal kingdoms, that manifest through morphogenetic fields having less than 12 Kathara centers within their Kathara Grid, cannot undergo the full process of bodily transmutation into Pre-matter substance and cannot fully expand their embodied awareness into 12th Dimensional consciousness. For the animal kingdom, the process of evolution is also Frequency Ascension, but it is achieved through expanding one's body form to its full capacity, then entering the consciousness into a morphogenetic imprint with a bit higher capacity, until eventually the consciousness can access enough frequency to take it into the next level of matter re-densification and consciousness expansion. Death is natural to the organic animal kingdom.

Humans were intended to undergo the full spectrum of morphogenetic expansion and cellular transmutation WITHIN ONE ETERNAL BODY IMAGE, that was built upon a program of full activation of the 12 Kathara Centers of the Kathara Grid. Death is NOT natural for humans.

Kathara Grid Blockages and Molecular Compaction

The process of biological deterioration and progressive movement toward biological Death is the direct result of unnatural BLOCKAGES WITHIN THE KATHARA GRID HOLOGRAPHIC TEMPLATE. Blockages within the Kathara Grid program presently block the process of Frequency Ascension at the beginning of the First Expansion Cycle - as ascension of the 4th, 5th and 6th dimensional frequencies representing the Soul Integration Process is blocked within the Kathara Grid and thus the biological DNA. The incoming frequencies of the Soul-level consciousness push on and CRUSH the morphogenetic field, rather than expand the morphogenetic field into a higher level of frequency hold. When the incoming soul-level frequencies of Soul integration begin to crush the morphogenetic field, a condition called MOLECULAR COMPACTION is created.

MOLECULAR COMPACTION

over exposure to scalar wave spectra and its resulting fragmentation of the morphogenetic field and Kathara Grid - IS THE ONLY TRUE CAUSE OF DIS-EASE AND THE CORE CAUSAL ELEMENT OF THE UNNATURAL DEATH EXPERIENCE

The Maharic Shield and Human Healing

Within the imprint of the MAHARIC SHIELD or human morphogenetic structure is the dormant imprint of the 12th, 11th and 10th Dimensional electromagnetic programs that represent the ORGANIC PROGRAM OF THE KATHARA GRID. Through activation of the Maharic Shield, the scalar standing wave template that corresponds to the Pre-matter Liquid Light fields of Dimensions 10, 11 and 12, blockages within the Kathara Grid Holographic Template, that result in the genetic mutation that causes Molecular Compaction, can be progressively realigned with the original ETERNAL IMPRINT FOR HEALTH. Through the ever increasing application of Kathara Healing Technique to fully regenerate the Imprint for Health and Eternal Life within the 15-Dimensional Levels of human anatomy, working to heal distortions within the Kathara Grid, through MAHARIC INFUSION (running the frequencies and wave spectra of the Maharic Shield through the Kathara Grid, Bio-Energetic System and Body), can create progressively more observable effects in creating and maintaining health and slowing the bodily deterioration process within the normal life span of an individual.

Potentials of Kathara Healing

The true beauty and significance of Kathara Healing is that it can not only do wonders for creating and maintaining higher standards of health within the average human life span, but within the applications of KATHARA MECHANICS lies the promise and potentials of human biological ETERNAL LIFE and fulfilment of SPIRITUAL ACTUALIZATION and evolution to MASTERY through progressive embodiment of and conscious mastery over our 15-Dimensional Anatomy and the creative process of Holographic Projection within the dimensionalised fields of space, time and matter.

Through the ever increasing application of Kathara Healing Technique to fully regenerate the Imprint for Health and Eternal Life within the 15-Dimensional Levels of human anatomy, working to heal distortions within the Kathara Grid, through MAHARIC INFUSION (running the frequencies and wave spectra of the Maharic Shield through the Kathara Grid, Bio-Energetic System and Body), can create progressively more observable effects in creating and maintaining health and slowing the bodily deterioration process within the normal life span of an individual.

Potentials of Kathara Healing

The true beauty and significance of Kathara Healing is that it can not only do wonders for creating and maintaining higher standards of health within the average human life span, but within the applications of KATHARA MECHANICS lies the promise and potentials of human biological ETERNAL LIFE and fulfilment of SPIRITUAL ACTUALIZATION and evolution to MASTERY through progressive embodiment of and conscious mastery over our 15-Dimensional Anatomy and the creative process of Holographic Projection within the dimensionalised fields of space, time and matter.

MOLECULAR COMPACTION

over exposure to scalar wave spectra and its resulting fragmentation of the morphogenetic field and Kathara Grid - IS THE ONLY TRUE CAUSE OF DIS-EASE AND THE CORE CAUSAL ELEMENT OF THE UNNATURAL DEATH EXPERIENCE

The Maharic Shield and Human Healing

Within the imprint of the MAHARIC SHIELD or human morphogenetic structure is the dormant imprint of the 12th, 11th and 10th Dimensional electromagnetic programs that represent the ORGANIC PROGRAM OF THE KATHARA GRID. Through activation of the Maharic Shield, the scalar standing wave template that corresponds to the Pre-matter Liquid Light fields of Dimensions 10, 11 and 12, blockages within the Kathara Grid Holographic Template, that result in the genetic mutation that causes Molecular Compaction, can be progressively realigned with the original ETERNAL IMPRINT FOR HEALTH. The Human Kathara Grid

The Kathara Grid of the human body is the Core Holographic Template upon which the morphogenetic scalar-wave template and all other levels of identity are form are built. It is the "Control Center" for manifestation of the human being.

LEVEL-1 KATHARA 12-TREE GRID

THE KATHARA GRID LEVEL-1: 12-TREE

Level-1 Kathara Grid 12-Tree: The first level of the Kathara Grid sets the pattern for dimensionalization of consciousness through which identity can enter the Time Matrix for the Holographic Experience of manifestation. The Kathara Grid 12-Tree is the first wave spectra composite through which consciousness anchors itself into dimensionality in order to experience manifestation of form. All things within dimensional structure have the Kathara 12- tree activated within their morphogenetic pattern. The 12-tree is composed of 12 Kathara Centers or Kathara Spheres, and 15 Kathara Lines.

KATHARA CENTERS

The Kathara Centers are crystalizations of Particle units that hold composite electro-level energy signatures of each dimensional level. The electro-level programs of the Kathara Centers hold the foundation template upon which the biological DNA will manifest.

KATHARA LINES

The Kathara Lines are sequences of Particle Phasing rhythms (Tuning on and off/fission-fusion sequences) that transfer the dimensionalized electro-level programs of the Kathara Centers between each center, to form the core level of the scalar standing-wave template upon which subsequent levels of the Kathara Grid Bio-energetic System and body will build.

KATHARA HEALING AND THE LEVEL-1 12-TREE GRID

The Kathara Centers and Kathara Lines are used in Kathara Healing to realign and awaken the original 12-Dimensional imprint within the human morphogenetic field, in order to reinstate the original imprint for Health and Bio-Spiritual Mastery within the operational evolutionary blueprint for the Body-Mind-Spirit System of the Human form.

Level-2: Crystal Seals and 15 Primary Chakras

The Crystal Seals are groups of 3-Dimensional Partiki scalar wave composites that regulate the rate of Partiki Phasing to create the base structures upon which dimensionalization is formed. The flow of frequency between dimensional bands and Harmonic Universes the Fractal expansion and contraction forces and friction rates of Partiki, the Vibration-Oscillation Rates of Partiki and the Angular Rotation of Particle Spin are all regulated by the Crystal Seals.

Star Crystal Seals are positioned between the Chakra Centers along the Central Body Current and Seed Crystal Seals are positioned between them and serve as the point of composite frequency out of which the 15 Primary Chakra Center Vortices emerge.

HOWA BODIES AND SHIELDS

9 Dimensionalized Howa Body Shields and 5 Auric Capsules

Howa Bodies are 3-Dimensional, bi-focal scalar standing-wave grids composed of numerous sets of Crystal Seals that form the electro-tonal program upon which the Kathara Grid Level-3: Donadii Points emerge. The Howa Body Grids are called Crystal Shields. The 9 Dimensionalized Howa Bodies are structured as 9 Concentric Spheres of energy that surround and permeate the human body and serve to hold the embodying consciousness into dimensionalized levels through which the Holographic Projection of experienced manifestation can occur. The Howa Bodies form "tissue capsules" of subtle energy around each 3-dimensional Harmonic level of the Bio-energetic Field, within which the 15 Dimensional levels of the Auric Field are stationed.

In Kathara Healing, restoration of the original 4th Harmonic Meharic Shield Imprint for Health is used to realign and clear blockages from the seven Howa Bodies and corresponding Kathara Centers and Kathara Lines, to awaken the Imprint for Health and Spiritual Actualization within the Body-Mind-Spirit System.

5 Arias Hova Bodies, Kathara Grid and Harmonics of Manifestation

Hova Bodies are tri-toroi scalar grids that form spherical energy "tissue capsules" around each 3-dimensional level of the multi-dimensional Reality Web. 15-Dimensional Human Anatomy, there are 5 Dimensionalized Hova Bodies called Arias Hova Bodies. The Arias Hova Bodies form out of electro-toroi programs held within the Kathara Centers of the seven Kathara 12-Tree Grid. The 12th Kathara Center of the Kathara 12-Tree Grid connects to the 12th Kathara Center of the Universal Kathara Grid, just as the 1st Kathara Center in the personal Kathara connects to the 1st Kathara Center in the Planetary Kathara Grid. The 2nd and 11th Kathara Centers, the personal Kathara One and morphogenetic field connect to the planetary and universal morphogenetic fields. When working with the Hova Bodies, we first focus upon the lower four, as these must be functioning properly before the 5th Hova Body and its connection to the Universal Kathara Grid can be activated within the Bio-Energetic Field. Four of the 5 Arias Hova Bodies are directly connected to the Crystal Seals within the human body Central Body Current on a HORIZONTAL PLANE. These first 4 Hova Bodies correspond to each of the 12 Kathara Centers of the personal Kathara 12-Tree Grid. The Hova Bodies represent Harmonics of Manifestation.

Hova Bodies, SIGNETS and SHIELDS

Each Hova Body emanates outward from a set of 3 Kathara Centers and their corresponding Crystal Seals. The core template of the Hova Body is a Triad of Crystalline Spheres that connect directly to the 3 Kathara Centers to which they correspond. This Triad of Crystal Spheres is called a SIGNET. The Signets are the smaller, tuned, consolidated frequency points out of which the Seed Crystal Seals that form the Chakras manifest. The Signets and the smaller Crystal Seal formations that manifest through them create a disc of spinning, horizontal wave spectra that direct the function of Hova Body merger. These outer discs are the outer templates upon which the Hova Bodies manifest and are called SHIELDS.

The Shields and the Signets that direct them are considered to be the core of the seven 2 Crystal Seals Kathara Grid. Each of the 4 Hova Bodies of the first 12 Dimensions forms upon a set of 3 Signets. Each Signet transmits a flash-line (Parti Phasing Sequence) on a different axis, one vertical, one horizontal and one diagonal, forming a 3-plane projection of flash-lines that form the basis of the 3-dimensional Holographic projection.

Kathara Centers and Activating the Signets and Shields

In each set of 9 Signets at least one corresponds to the Central Vertical Kathara Line, the central center of the Level-1 Kathara Grid 12-Tree. The Signets and Shields can therefore be used to direct the function of the Kathara Grid 12-Tree and all its upgrades and the Kathara Centers can be used to trigger activation of the Signets and Shields within the Hova Bodies. When a Signet is activated its corresponding disc or Shield begins to spin. When a certain spin rate of the Shield is reached, it triggers the activation of the next set of Signets in the next Harmonic setting the next Shield to spin. When 3 Shields activate and reach a reciprocal spin rate the torus capsule separating the 2 corresponding Hova Bodies releases and the 2 Hova Bodies merge, which is the process by which Higher Identity Integration occurs. It is also the process by which the Merkaba Vehicle is activated within the Bio-energetic field. When all four Shields activate and spin the body matter is able to transmute out of matter density and into pure wave form which represents Metaharic Avatar Integration for the Identity.

THE 5 HOVA BODY SHIELDS

The Hova Bodies and the Shields

Each Hova Body contains at its core a Shield through which the Hova Body functions are governed. The Nada Hova Body -3 dimensions -2- forms on the TELLURIC SHIELD. Its central center being the 2nd Kathara Center that is composed of 2nd Dimensional Frequencies. The Alpha Hova Body -4 dimensions 4-3-4- forms on the DORADIC SHIELD. Its central center being the CURA or Archetype of the 5th Dimensional Frequencies. The Betcha Hova Body of dimensions 7-8-7 forms on the TEURIC SHIELD. Its central center being the CURA or Monad of the 6th Dimensional Frequencies. The Mahara Hova Body forms on the MAHARIC SHIELD. Its central center being the Mahuma or Avatar Core of the 11th Dimensional Frequencies. The 5th Hova Body, the Raja Hova Body, forms on a set of Signets that correspond to stellar points within the Universal Kathara Grid. Its Shield, the RISHIC SHIELD, rotates on a vertical plane and it comes into activation within the personal morphogenetic field only after the four lower Shields have transmuted the body into Pre-matter Liquid Light within the MAHARIC SHIELD. In terms of healing and advancing evolution of the earthly identity, the first four Shields are of greatest significance.

Hova Bodies, Shields, Signets and Healing

In all healing applications, knowledge of the Shields is of great value, for any manifest condition of disorder will have its first manifestation within the Kathara Grid and the Shields that form upon it. The process of healing, therefore, is the process of restoring the Shields to their proper order so they may activate to build the Merkaba Vehicle through progressive Higher Identity integration. In Kathara Healing we begin with the MAHARIC SHIELD, the Shield that contains the pure form of electro-fossil programs upon which the consciousness first entered matter density through the Pre-matter Liquid Fields of the 4th Harmonic Dimensions 10-11-12. Through activating and progressively drawing in the highest 11th and 12th Dimensional frequencies of the Maharic Shield, distortions in all lower Shields can be more rapidly realigned with their original pattern. When we work with the Kathara Centers of the Level-12 Tree Grid we simultaneously create change within the SIGNETS that direct the function of the SHIELDS, and so we are able to more rapidly facilitate appropriate realignment of the Shields and Hova Bodies. THE CORE OF HEALING IS RESTORING THE HOVA BODIES AND THE SHIELDS UPON WHICH THEY MANIFEST TO THEIR ORIGINAL INTEGRITY OF ORDER.

Shields, Signets and Diodic Points

Through the interaction and interplay of multi-harmonic frequency between the Shields, Signets and Trek Crystal Seals, Kathara Grid Level-3 DIODIC POINTS come into manifestation to fill out the 3-plane, 4-dimensional "armature" of scalar waves and Trek-lines upon which more Particle units will cluster and crystallize to build the particle base for form manifestation. The Diodic Points within the body are morphogenetic field connect-lines to the Shields of the Hova Bodies in areas where the Merkaba and scalar points within the Crystal Seals of the Shields align with and pass through each other. Flash-Lines from one Hova Body Shield crossing through those in other Hova Body Shields form COORDINATE POINTS, or "Gateways" of energy-consciousness transference through which frequency and awareness from one Hova Body and Identity level can cross through into other Hova Bodies and Identity levels. The Coordinate Points, or regularly scheduled points of flash-line intersection form tiny vortices of energy which keep energy and consciousness flowing throughout the multiple dimensional levels of identity and anatomy. The vortices of energy created by the Coordinate Points of flash-line sequences are called DIODIC POINTS and they have a counter reflection within anti-particle manifestation called ANTIDIC POINTS. Diodic and Mirodic Points are sets of White and Black Holes that circulate energy throughout the anatomy.

LEVEL-3 KATHARA GRID DIODIC POINTS

Diodic and Triadic Points

Diodic Triadic Points represent concentrated areas of energy that emerge at points where dimensionalized levels of scalar grids cross over and through each other, creating minute vortices of wave energy that serve as frequency modulation zones (pulsar Hertzian pulses) between Dimensional Frequency Bands. Diodic Point vortices are White Hole vortices that transmit energy into the Particle Universe from their counterpart Triadic Point vortices within the Anti-particle Universe. Through the structure of Dimensionalized Harmonic Universes and the structures contained there within, wave-within-wave holographic fields are of Diodic and Triadic Points - sets of White and Black Holes - that regulate the flow of timeless wave-energy between systems.

Within the biological form and morphogenetic field, Diodic Points are located in physical body regions where inter-dimensional and inter-Harmonic Horizontal and Vertical Kathara Lines intersect to form small vortices of wave-like resonance inter-Harmonic wave-spaces that serve as Gateways of Consciousness between Dimensional Zones of Harmonic Time cycles. They connect physical bodies to their anti-particle counterparts and intersect with the Vertical and Horizontal relationships of wave-spaces within the DNA RNA and Bio-energetic field through sets of White and Black Holes at the center of the biological Harmonic scalar grids.

Diodic Points and 3-Dimensionality

Diodic Points control the Diagonal Kathara Lines - the resultants of Partial Phasing or 'Flash-lines' that run on a diagonal between the Kathara Centers. Whereas the Kathara Level-1 Kathara Lines direct the Vertical flash-line sequences and the Level-2 Crystal Seals control the primary Horizontal flash-lines and their relationships to the Vertical flash-lines, the Diodic Points further regulate the relationships of flash-line sequences through the Kathara Grid - acting as 'switching' centers that connect with the cross-over points of the Vertical and Horizontal flash-lines, making it possible to the sequences passing through allowing a 3-dimensional Harmonic Projection of flash-lines (flash-lines projecting on 3 different angular planes) to build within the nonlinguistic field. The Diodic Points add the third plane of projection to the Kathara Grid, beginning the formation of what will appear as a 3-dimensional 'summary' of flash-points upon which particles will resonate to "fill out" the Holographic Illusion of 3-dimensionality.

Diodic Points and Healing

In Kathara Healing, Diodic Points are used to open the Diagonal Kathara Lines for reprogramming. When Diodic Points become blocked, due to blockages within the Kathara Grid (which appear as 'gaps' or missing sequences of flashes along the flash-lines of Particle Phasing) energy patterns in the Level-3 Kathara Grid, forming disturbances in the morphogenetic field will manifest in the body and bio-field patterns as diseases or dysharmonic conditions. In later applications of Kathara Healing we will learn to identify points of Diodic and Triadic build-up in the body and use primary Kathara awareness applied through these points to realign the natural flash-point sequences and close the Diodic Blockages.

Diodic Points, Signets, Seed Spirits and AXIOM LINES

Each Signet within a Homo Body Shield holds the electro-mind program for one Seed Crystal Soul and one dimensional flash-line sequence. Each Seed Soul program corresponds to one dimensional flash-line program from one Level-1 Kathara Center. Each Seed Crystal Soul holds inside the electro-mind program for one dimensional twisted flash-line projection angle or Single Axis Dimensional flash-line sequence. The single Axis Dimensional flash-line sequences combine to each Seed Crystal Soul as their unified AXIOM LINES.

There are 12 Primary Axiom Lines that correspond to the 12 Kathara Centers in the Personal and Planetary Kathara Grids. There are 12 additional Stellar Axiom Lines that correspond to the 12 Kathara Centers in the Universal Kathara Grid. The Axiom Lines represent single-axis flash-line sequences. Fixed points of conscious electrified sound vibrational units for form shields of sound creating activity that intersects to define the background antenna upon which Kathara Grid Level-3 Diodic Points will emerge.

Axiom A-B Toroid Lines, Diodic-Mystic Vortices, Chakras-DNA-Portals Key Lines & Healing

Each of the 12 Primary Axiom Lines has a reverse rotation within the dimensions of the anti-particle universe. The 12 Primary Axiom Lines governing the Diodic "White Hole" Vortices of the particle universe are called Axi-A-Toroid Lines or "Advanced" Lines. The corresponding reflections of the Axi-A-Toroid Lines in the anti-particle universe, which govern the Diodic "Black Hole" Vortex reflections of the Diodic Points, are called Axi-B-Toroid Lines. In Kathara Healing Technique of the Axi-A-Toroid Lines are activated through realigning the electro-mind programs within the corresponding Kathara Centers. The 12 Primary Axi-A-Toroid Lines of the morphogenetic world grid upon which the Chakra System and foundation DNA organization of the human body will resonate and upon which the Planetary Vortex/Portal System and primary Planetary Ley Lines will energize within the planetary body. Restoring the inspirit for Health within the Axi-A-Toroid Lines and corresponding Kathara Centers will regenerate integrity within the DNA and Chakra Systems of the body and will restore the organic operation of the planetary Vortices-Portals and Ley Lines of the planetary morphogenetic grid.

Restoring the Imprint for Health within the Axi-A-Toroid Lines simultaneously restores integrity to the corresponding Diodic Points and to the Axi-B-Toroid Lines and their Diodic Points. When working with Kathara Techniques that clear the Miasmic Imprint the anti-genetic biologics within the Diodic Points and Seed Spirits are realigned by clearing their Miasmic distortions, which then reestablishes the integrity of the corresponding Axiom A and B Toroid Lines sending a realigned electro-mind program back through the Seed Souls and the Level-1 Kathara Centers. The programs within the Kathara Centers are simultaneously realigned using intention of the frequencies of the Mimetic Shield. The Kathara Center programs the Axiom Lines and the Diodic Points will be progressively realigned to health. If the Kathara Centers are not simultaneously realigned, the various Axiom Line programs will be overridden by the Kathara Centers programs until the optimal alignment and optimal resolution through previous repetition. Clearing the Miasmic Imprint while simultaneously Repatterning the Level Kathara Centers and Kathara Lines via Mimetic Activation is the fastest way to restore the Imprint for Health within the Human Body-Mind-Spirit System and within the natural operations of planetary bio-resonance.

Axiom Lines, Diodic Points, Hova Bodies, Shield and Auric Field Levels

The Single Axis flash-line sequences of the **12 Primary Axiom Lines** cross over and through each other to form CO-ORDINATE PO NTS between the Hova Body Shields, through which the "White Hole" ***Level-3 Diodic Point Vortices*** emerge. **The varying angles of flash-line projection within the Axiom Lines create separate dimensionalized bands of frequency** (separate sets of flash-line sequences) within the Hova Body structure. As there are **3 Signets** and thus **3 Seed Seals** and **3 Axiom Lines** inherent to each **Hova Body Shield**, each Hova Body becomes *dimensionally compartmentalized* into 3 separate yet interrelated sections, each section having inherent sets of Diodic Points. **Each dimensionalized aspect of the Hova Bodies *becomes a Level of the Auric Field* within the bio-energetic system.** There are **12 Inner Layers of the Auric Field**, which correspond to Dimensions **1-12** and to the 12 Primary Kathara Centers, Seed Seals and Axiom Lines of the *first 4 Hova Bodies*. There are **3 Outer Layers of the Auric Field** that correspond to Dimensions and Seed Seals **13-15** to the first 3 Kathara Centers and Axiom Lines of the **Universal Kathara Grid** and to the *5th Hova Body*.

Seed Seals, Axiom Lines, Consolidated Diodic Points, Chakras and Auric Levels

The points in the Kathara Grid where the Single Axis Axiom Lines cross over and through the Central Vertical Kathara Line in the Level-1 Grid and the Horizontal flash-lines of the Seed Crystal Seals form fixed, **consolidated Diodic Points – larger vortices** of energy composed of many smaller Diodic Vortices. **The larger vortex points are called CHAKRAS.** Each Chakra Vortex is formed upon the electro-tonal program of its corresponding Dimensional Frequency Band, Kathara Center, Seed Seal and Axiom Line, and **each chakra corresponds to one Auric Field Level, DNA strand imprint and level of consciousness**. As *3 Signets, Seed Seals* and *Axiom Lines* correspond to each *Hova Body Shield*, **3 Chakras regulate and correspond to each of 5 Hova Bodies, for a total of 15 Primary Chakras. Primary Chakras 1-12** correspond to Kathara Centers 1-12 in the **Personal and Planetary Kathara Grids and Primary Chakras 13-15** correspond to the *first 3 Kathara Centers* and *Axiom Lines* of the Universal Kathara Grid. Chakras 13-5 are considered **Universal Trans-stellar Chakras**.

The *Chakras* regulate *the transduction of flash-line sequences* from the *Dimensionalized Unified Field* and *Diodic Vortices* of the Axiom Lines and Auric Field Levels into the *Hova Body tissue capsules* and *rivulet channels* that connect to the physical, electro-magnetic, chemical and hormonal aspects of the visibly manifest form. Chakras regulate the flow of consciousness-energy between the dimensionalized Auric Field levels of the Hova Bodies, keeping the various multi-dimensional stations of consciousness separate in order to allow for experiential perception of holographic manifestation. Each **Chakra circulates** its Single Axis flash-line sequence along the **angle of projection** carried within its corresponding **Axiom Line**, and this *angle of flash-line projection* determines the **Angular Rotation of Particle Spin (ARPS)** – or the *axis upon which particles rotate* – within each dimensionalized portion of the anatomy. There is a **90-degree shift** in *flash-line angle of projection* from one Chakra and dimensional band to the next, which creates a 90-degree shift in **Angular Rotation of Particle Spin** between each dimensionalized portion of the anatomy. Between each 3-dimensional Hova Body there is also a **45-degree reverse shift** of flash-line projection angle, which creates a 45-degree rather than a 90-degree forward shift of flash-line projections angle between each Hova Body and between each **set of 3 Chakras** (Chakras 1-2-3 * 4-5-6 * 7-8-9 * 10-11-12 * 13-14-15). The precise angles of flash-line projection and ARPS between Chakras create the perceivable 3-dimensional hologram.

Chakras

A Chakra appears within the bio-energetic field as **2 cones or spirals of multi-colored energy that are linked together at the tip** in the **Central Body Current** through the **Seed Crystal Seal** out of which the cones emerged **Chakras 2-6** extend from the Seed Seals outward through the body and Auric Field on a **Horizontal axis** and **Chakras 8 and 9** intersect with *6 and 7* at the *Pineal Gland* on **2 rotating Diagonal axes** running through the head. **Chakras 1 and 7 and 10 and 14** are stacked above and below the body on a **Vertical Axis** aligned with the *Central Body Current* (CBC) and the *Central Vertical Kathara Line* Chakras 1&7 10&12, 11&13 and 14&15 are actually the bottom and top cones of **4 Large Vertical Chakra Spirals**, but are counted as separate chakras **Chakra 15** is a **"roving chakra"**, which travels the course of the **12 Primary Axiom Lines** far out in Level-15 of the Auric Field Each Chakra draws in energy from and transmits energy into the dimensional Unified Field corresponding to the *chakra number* and carries as its dominant perceivable color the hue characteristic to the **primary frequency band wave-length** of its **dimensional affiliation.**

AXI-A-TONAL LINES, THE HARA LEVEL, 6 HARA POINTS AND COMPLEXES

Axiom Lines, Rotating Flash-line Projection and the Human Body

Each Seed crystal Seal within the Signets of the Hova Body Shields hold the electro-tonal program for a Single Axis Axiom Line flash-line projection **The flash-line sequences of each Axiom Line are not *simply stationary* single-line projections of flash-lines, but rather operate as *rotating* single-line projections** Each rotating Single Axis flash-line projection is *synchronized* with the other rotating Single Axis flash-line projections of Axiom Lines from the other Seed Crystal Seals – Through the ***rotational synchronization*** of the Axiom flash-line sequences, the flash-lines of each Axiom Line regularly cross through each other and through the vertical and horizontal flash-line sequences from the Level-1 and Level-2 Kathara Grid The points of *synchronized flash-line crossover* form ***consistent points of intersection*** through which the **Level-3 Diodic Vortices** and **Chakras** manifest Within the human body and Auric Field the **consistent points of flash-line crossover** can be charted in the form of **fixed lines of energy** that run through the body **The charted Axiom Lines within the human body represent series of regularly scheduled flash-line intersection points, created through the synchronized rotation of the Single Axis Axiom flash-line sequences**

Axiom A Lines – "Axi-A-Tonal" Lines in the Human Body

The consistent points of Axiom Line flash-line crossover that form fixed lines of energy within the body can be charted as **Axiom A and B Line** energy flows within the body The Axiom A Lines correspond to the body manifestation in the particle universe, the B Lines to the body double in the anti-particle universe **For Kathara Healing applications, the A Lines – Axi-A-tonal Lines- of the particle body are used for various purposes of facilitating Kathara Center realignment and revitalization of the Body-Mind-Spirit System. Within the body, the Axi-A-Tonal Lines can be charted as Primary Flow Lines** – conduits through which energy-consciousness, in the form of scalar-point flash-line sequences, circulates through the morphogenetic field The fixed flash-line crossover points that form the **charted Axi-A-Tonal Lines** appear in the body as a set of **12 Vertical Flow Lines**, one running from each of 12 Auric Fields Levels, which run through the body within the **Level-2 Crystal Seals Kathara Grid** Each Axi-Atonal Line corresponds to one of the 12 Dimensional Frequency Bands, Kathara Centers, Seed Crystal Seals, Chakras and DNA strand imprints **The 12 Primary Axi-A-Tonal Lines appear to enter and leave the body through the head and feet, with conduits running through the arms, hand and out the finger-tips, and through the legs, feet and out the tips of the toes. Each Axi-A-Tonal Line appears as a colored cord of energy, its hue determined by the wave length characteristic to its corresponding dimensional frequency band.** In charting the positions of the 12 Primary Axi-A-Tonal Lines in the body, **numbering** and **color** are used to denote the *Dimensional correspondences* of each Axi-A-Tonal Line

Axi-A-Tonal Lines 11 & 12 and the "Hara Line"

Axi-A-Tonal Lines 11 and 12, which correspond to the 11th and 12th Dimensions, Kathara Centers, See Seals and Chakras, run vertically through the center of the body along the Kathara Grid Level-1 **Central Vertical Kathara Line**, forming **a *twisted "rope"*** of Dark Silver (D 11) and White (D12) energy that wraps around the Central Vertical Kathara Line Flash-Line Sequence. The **Central Vertical Kathara Line**, which appears as a **thin Silver-gold flash-line energy** running from the 14th Chakra (36" above the head) through the body and into the 13th Chakra at Earth's Core, is imbued with frequencies from **12th, 11th and 8th Dimensions** – the frequencies of White, Dark Silver and Gold.

In *Level-2 Kathara Grid*, the rotating single axis flash-lines of *Axi-A-Tonal Lines 11 and 12 spiral* around the thin Silver-Gold flash-line of the *Central Vertical Kathara Line*, merging into a thin, vertical tri-tonal flash-line of *primarily Gold* hue that becomes the core of the *Central Body Current*. In ancient Eastern Healing Systems, this **thin Gold Vertical Line** is called the "**Hara Line**", and is often considered the foundation of the manifest form. In truth, the **Level-1 Kathara 12-Tree Grid** and the *Signets, Crystal Seals* and *Shields* of **Kathara Level-2** are the deeper foundation upon which the Hara Line manifests.

The *Hara Level* of Kathara Level-2 Crystal Seals Grid

The mechanics of the Crystal Seals in the Level-2 Kathara Grid are complex, but can be employed with relative ease through working with the energetic dynamics of the ***outer levels* of the Level-2 Kathara Grid**, the level in which the *Hara Line* can be viewed using *9th –dimensional Higher Sensory Perception*. We refer to this level of the Level-2 Crystal Seals Grid as the **HARA LEVEL**. The Hara Level is composed of the Hara Line and 6 of the 15 Star Crystal Seals of the Kathara Level-2 Crystal Seals Grid.

The 6 Hara Points (Crystal Seals) apparent from the Hara Level are as follows:

1. The 9th *Silver* Core Star Crystal Seal, called the **HARA CENTER**
2. The 6th *Indigo* (or Blue-Violet) Star Crystal Seal, called the **SOUL STAR**
3. The 12th *White* Star Crystal Seal, called the **GALACTIC STAR**
4. The 3rd *Yellow* Star Crystal Seal, called the **SUN STAR**
5. The 8th *Gold* Star Crystal Seal, called the **EARTH STAR**
6. The 10th *Blue-Black* Star Crystal Seal, called the **EARTH CORE SEAL**

The **6 Hara Points** govern and regulate the function of **Complexes** of *energy synthesization* and *distribution* that control the operations of all primary body systems and bio-energetic field dynamics. In *Kathara Healing Level-2* we will explore mechanics of the Hara Level. In Level-1 Kathara Healing we will simply become familiar with Hara Level as an element of 15-dimensional human anatomy

THE HARA AND THE KUNDALINI

The Silver-gold energies of the Hara Center (9th Star Crystal Seat) are interwoven in the basis of the spins with vital information on the KUNDALINI life-force energies. The Kundalini energies represent the PRIMARY ENERGY CURRENTS through which the ascending consciousness anchors its morphogenetic field within the Fetal Body through the FIRST CELLS of conception. The Hara Center energies interweave at the base of the spins with the frequencies of the first Star Crystal Seat, the RED Star Seat, in the First Cell. When the Hara Center Seat is dormant and activated only by the 3-Dimensional Level, its Pale Silver-gold sequences appear to be encased within a crimson RED sheath of 1st -Dimensional energy, often molding the Hara Center and Hara. Line appear to be RED in color. As the Hara Center comes into activation through progressive release of the 8th Star Crystal Seat, the Gold (5th -Dimensional Solar) & Silver (6th -Dimensional Lunar) sequences of the Hara become the dominant hues, giving the Hara Center and Hara Line the overall Silvery-gold color. With full activation of the Hara Center, the 12th -Dimensional Multiversal Integration, the whole sequences of the Hara Center and Hara Line take on a tri-color spectrum of Pale Silver, Gold and Red-Violet (pale Magenta), as the Kundalini primary life force commences to descend the spine, bathing within the cells of the body. Full activation of the Kundalini energies the 7th -Dimensional Violet, 10th -Dimensional Red, 8th -Dimensional Gold and 9th -Dimensional Silver sequences with the full spectrum White-Silver energies of the 12th Dimensional Monadic Current.

The Hara Center, like all Star Crystal Seats, is one of the primary regulatory elements of the natural Kundalini energies. As the Kundalini energies, in the form of the spirals, are brought out of higher dimensional patterning, through progressive activation of the Star Crystal Seats in the Mother Earth's Crystalline Body grid, the Hara Center progressively reflects these changes by expanding in size and energy-processing capacities and taking on new, higher spectra of the higher dimensional frequencies. The Kundalini energies at the base of the spins are the keys to physical cellular transmutation of the body. Kundalini-energy currents regulate the physical body's position in space-time, keeping the physical body grounded in the planetary time Cycle in which it was conceived, following the multidimensional programs set by the 8th Crystal Seat and the Nothara Grid. The physical representative of these Kundalini energies of the higher dimensions must be brought into embodied activation before the processes of the Internal Temple Complex into motion.

The DNA Template manifests upon the programs set by the Nothara Grid. As the Human Genome and their corresponding Star Crystal Seats, Shield, Kundalini currents, Crystal-Cosmic Mind Fluid-Body, Solar Seed Crystal Seats and Organic Vehicle, formed DNA Strand template and activate progressively during the Angular Rotation of Particle Spin, energy-processing capacities, instinct, orientation and neurological potentials of the body and molecular structure. As these physical changes occur through activation of the Crystal Seats and its spirals energies, the Merkaba Vehicle (electromagnetic counter-rotating electromagnetic fields of star-tetrahedron form) progressively builds within the bio-energetic field, allowing the physical body release from phase lock within its home space-time matrix. Activation of the Hara Center represents one of the stages of this natural transmutational process

The 9th Core Star Crystal Seal, the Hara Center (Tan Tien) and the D-9 Thalamus Complex

The Star and Seed Crystal Seals of the Level-2 Kathara Grid that hold consciousness into the dimensional phase-lock set by the Level-1 Kathara Centers atomic along the Central Vertical Kathara Line and the Central Body Current. From the Hara Level the outer portions of the Level-2 Kathara Grid the 12th 9th and 6th Star Crystal Seals appear as areas of condensed light positioned along the vertical Hara Line.

The 9th Star Crystal Seal, located about 1" below the navel is known as the Core Star Crystal Seal. The point of 8th and 9th dimensional frequency of the Harmonic Over-Soul Matrix (Tauric Shield) that anchors the personal morphogenetic field into that of the Earth and serves as the center of gravity for the soul human body. The Core Star Seal appears from the Hara Level as a 2" ball of Gold (D-9) energy encased in a thin Silvery (D-9) membrane. In Eastern theory, this ball of energy is called the Tan Tien, and is used for direction of bodily and Earth energies in advanced martial arts and healing practices. In Kathara theory, we simply refer to this energy ball as the Hara Center or the 9th Core Star Crystal Seal.

The Hara Center is the point at which the dimensionalizing identity enters the Etheric Matrix of the Body at Harmonic Universe-3. The Hara Center represents the point into which the Over-Soul identity, its Monadic Core, the Solstice Heart Body and human Centers 7, 8 and 9 first anchor within the body. The Hara Center holds the morphogenetic imprint for DNA strands 7, 8 and 9, corresponds to Chakra Centers and Arch-A-Tonal Lines 7, 8 and 9 and is a key point for registering the electro-tonal programs of the Tauric Shield and realigning and activating corresponding DNA strands, Chakras, Arch-A-Tonal Lines and body regions they govern.

The Hara Center is associated with the Thalamus Complex, the chemical transition and regulatory system that governs the 9th -Dimensional interface between consciousness-function areas and the glandular and metabolic operations of the Thymus Complex, Gonads, Lymphatic System and corresponding body systems. Through the 9th Dimensional Thalamic Complex the electrical, atomic, chemical and hormonal relationships between the 10th -Dimensional Stars Complex and the 8th -Dimensional Thymus Complex and its related body systems are governed.

The primary area of dominion of the D-9 Thalamus Complex is Brain Function.

The Radial Complex governs the operations of Heart and Breathing rhythms, the flow of conscious-energy or "Prana" from the higher emotional centers, to physical vitalities, etc. Glandular injury, dysfunction within the processes of internal connection and distribution within the Skeletal and Soft Tissue systems. The Radial Complex is a key center for the direction of healing energies within the Male Horo Body, Galactic Shield and physical body systems.

In advanced applications of healing and manifestation, the Radial Complex is combined with the attributes of the Stars, Thalamus and Thymus Complexes and with the Universal Ray Complex of Harmonics, which links the human body to the planetary, galactic and universal Unified Fields through the 12th and 13th Chakras and 10th Star Grids of Earth, as well as the Planetary Star Seed Template System. Radial, Cosmic, Tetrahedral and Galactic Shields are Ray Complex in form and related Merkaba-Galactic Current for healing and manifestation, once the Domestic and Cosmic Currents have been activated within the body.

The Sun Star represents the point into which the Immortal Identity, the Sonoluminescence-Tetrahedron Core of the Merkaba Body and Kathara Centers 1, 2, and 3 first anchor within the body. The Sun Star holds the morphogenetic imprint for DNA strands 1, 2 and 3, corresponding to Chakra Centers and Soul-Star Lines. Sacred science principles for re-patterning the electromagnetic programs of the Galactic Shield and realigning and activating the corresponding DNA strands, Chakras, Soul-Star Lines and body vehicles are given.

The Sun Star is associated with the Radial Complex, the electrical impulse and chemical translation and regulatory system that governs the 4th-Dimensional interface between the Thymus Complex, Thalamus Complexes and the functions of the physical body systems, through which the electrical, chemical and metabolic operations of the Blood, Cardio-Vascular, Pulmonary and Respiratory Systems are governed. The Radial Complex governs the operations of Heart and Breathing rhythms, the flow of conscious-energy or "Prana" from the higher emotional centers, to physical vitalities, etc. Glandular injury, dysfunction within the processes of internal connection and distribution within the Skeletal and Soft Tissue systems. The Radial Complex is a key center for the direction of healing energies within the Male Horo Body, Galactic Shield and physical body systems.

In advanced applications of healing and manifestation, the Radial Complex is combined with the attributes of the Stars, Thalamus and Thymus Complexes and with the Universal Ray Complex of Harmonics, which links the human body to the planetary, galactic and universal Unified Fields through the 12th and 13th Chakras and 10th Star Grids of Earth, as well as the Planetary Star Seed Template System. The interactions of the 10 Sun Star Crystal Skull Programs, the function of the Radial Complex, can be correlated with those of the 9th Core Star Soul Grid Connected the 9th and 10th Star Crystal Skulls through the 12th and 13th Chakras. Radial, Cosmic, Tetrahedral and Galactic Shields are Ray Complex in form and related Merkaba-Galactic Current for healing and manifestation, once the Domestic and Cosmic Currents have been activated within the body.

The Sun Star and the Radial Complex link the functions of the Alpha and Male Horo Bodies, the Domestic and Telluric Shields and the Soul and Incarnate levels of consciousness and identity within the body and bio-energetic field.

The primary areas of attention of the D-4 Radial Complex are
Cardio-Vascular, Pulmonary and Nutrient Absorption/Conversion Functions.

THE SUN STAR

The 3rd Sun Star Soul and the Radial Complex

Also present, but less distinctly visible along the Horizontal Grid Level 2, is the 3rd Blue Crystal Skull, located just beneath the Heart Center of the 5th Star Soul. Below the Navel and associated with the 2nd and 3rd dimensional perspectives of the Human Merkaba Vehicle (Galactic Shield). The 3rd Blue Soul visible as a subtle pale Yellow-Orange-Red point of diffused light along the Horizontal Grid Level 2, is called the Sun Star Soul. Due to its proximity to the Silver-Gold Heart Center 5th Star Soul, the Sun Star is often considered to be part of the Heart Center, but in deeper Heart-level scanning the distinction between these crystalline structures can be understood. The Sun Star Soul is the point at which the dimensionalizing energies enter the Gross Physical Matter densities of Harmonic Universe. THE GALACTIC STAR

The 12th Galactic Star Seal and the D-13 Stars Complex

The first point of Consciousness Light in Ultra along the Stars and Constellations Star Level-7 in the 12th Blue Crystal Seal, located in the 14th Chakra, 37 above the Head, and associated with the 11th and 12th dimensional Frequencies of the Harmonic 4 Avatar Matrix Multiverse Shield. The 12th Star Seal, visible as a White-Silver point of Light emanating an invested White-Silver-Gold wave of energy at the 14th Chakra, is the White-Silver Star Seal.

The Galactic Star Seal is the point at which the dimensionalizing portal, directly within the Pre-Matter Liquid Light densities of Harmonic 4, the point at which timeline begins its individuation and journey of development, to its more mature or consciously empowered angles. The Galactic Star represents the point into which the Avatar Identity, a Bodiless Form, the Mahora Home Body and Kathara Centers 10, 11 and 12 first anchor within the Bio-energetic Field to begin setting the master seal for the body. The Galactic Star Seal holds the morphogenetic imprint for DNA strand 10, 11 and 12, corresponds to Chakra Centers and Astral Times 10, 11 and 12, and is a key point for re-patterning the electro-luminal programs of the Mahora Shield and realigning and activating the corresponding DNA strands, Chakras, Astral Times and body regions they govern.

The Galactic Star is associated with the Stars Complex, the regulatory system that governs the 10th-Dimensional Interface between the D-9 Thalamus Complex and the D-12 portion of the Rainbow Shield in Harmonic 5. Through the Stars complex the cosmic fields hold the genetic identity of Human-to-Earth Consciousness Collective - the Universal Family of Consciousness translates via electro-luminal constructs into the more individualized matter fields that house the vehicle identity, portals, consciousness, body regions and chakra centers they govern.

The Stars Complex regulates the disbursement of consciousness in individualized form through the three luminal fields of the Time Matrix and governs the each individualized and incarnate member of the Galactic Family, called the Beyond the Time Matrix, to its Avatar identity and Galactic Family of Consciousness in Harmonic 4, through the Universal Family of Consciousness of the Blue Matrix, Harmonic 3, through the Universal Family of Consciousness of the Gold Matrix, Harmonic 2, and the Universal Family of Consciousness of the Silver Matrix, Harmonic 1. The Stars Complex represents the primary facility through which an individual consciousness may be individuated and incarnate in the greater family of consciousness, through which it is directly linked to Source.

The Stars Complex governs, regulates and individualizes the human skin, circulation and cyclic rhythms of electro-luminal projection of consciousness into dimensional fields via the original specialized structures of Kathara Stellar Grid emergence and directs the photonic evolution of families of consciousness through time. Through the operations of the Stars Complex all identity cycles of incarnation and manifestation within the 5 Harmonics of a 10-Dimensional Time Matrix are regulated, which sets the core respiratory rhythms of Partial Phasing, expansion and contraction of consciousness, and vibrational oscillation rates that govern the formation and function of the Thalamus and Thymus Complexes and all aspects of the individualized Kathara Grid, Bio-energetic Field and body systems. The Stars Complex controls the pulse rates and cyclical rhythms of energy between the personal morphogenetic field and that of the Universal Unified Fields, and thus affects all systems of the body and consciousness with a primary emphasis upon the functions of the blood, cerebrospinal circulation and immunological facilities of the body and of the activation of the higher dimensional sense facilities within the extended consciousness.

The Stars Complex links the functions of the Mahora and Rainbow Bodies, the Mahoric and Rainbow Shields and the Avatar and Christ Levels of identity within the activated consciousness.

Primary area of dominion of the D-13 Stars Complex is the Immune System and HSP.

Axi-A-Tonal Line and the Meridians

The Axi-A-Tonal Lines within the body set the primary holographic scalar field upon which the Meridian Lines – or Secondary Flow Lines – of the body, manifest. **The Meridian Lines can be used to access the Axi-A-Tonal Lines and the Axi-A-Tonal Lines can be used to access the flash-line programs of the Kathara Centers and 3 Levels of the Kathara Grid, if the *correspondences* between the *Meridians, Axi-A-Tonal Lines, Kathara Centers and Chakras* are understood.** For centuries the **Meridian Lines** and **Chakras** have been used in subtle-energy healing systems. This knowledge can be applied and the potential results of related healing techniques amplified by employing the correspondences between the Meridian and Chakra systems and the **Axi-A-Tonal Lines** and 3 Levels of the Kathara Grid. Bringing the Kathara Grid into the picture allows for restructuring the **Imprint for Health** within the causal core while *expediting* the healing process by restructuring the various other levels of the bio-energetic anatomy.

In Level-1 Kathara Healing we focus primarily upon **Core Morphogenetic Repatterning** – resetting the electro-tonal programs of the Kathara Grid through the uncorrupted programs of the ***Maharic Shield*** – to set the "*ground*" into which other healing applications can anchor. In later Kathara Healing Levels we will explore technique applications that affect various other levels of the bio-energetic anatomy. **In Level-1 Kathara Healing we strive to create a basic familiarity with the elements of and the interrelationships between the various levels of bio-energetic anatomy.** Through understanding the basic correspondences between the **3 Levels of the Kathara Grid** – the *Kathara Centers* and *Kathara Lines*, the *Hova Bodies*, *Auric Levels*, *Signets*, *Shields*, *Crystal Seals* and *Axiom Lines*, and the *Diodic Points* and *Chakras* – and the other aspects of energetic anatomy, such as the **Meridian Lines** and **DNA**, the healing facilitator is equipped with a knowledge base through which more precise healing facilitation can be applied. Meridian Lines and their applications to Kathara Healing will be explored in later Levels of the Kathara Healing Program.

DNA

The DNA Connection

In this Chapter we have explored the various elements of the 15-Dimensional Anatomy of the human form, from the Kathara Grid holographic scalar template, to the Hova Bodies, Shields, Axiom Lines, Chakra Centers, Auric Field Levels and the Hara Level with its related Complexes of energetic interface. Throughout all of these elements of the multi-dimensional anatomy we have seen how each element interrelates with the others through their *correspondences within the structure of the 15-Dimensional Scale*. The elements of the subtle body anatomy also systematically correspond to the structure and function of the human **DNA**. Through direct interaction with various elements of the subtle body anatomy, the operations of corresponding aspects of the human DNA can be repaired, enhanced and altered to advance applications of healing and to expedite the evolution of human biology and consciousness. In the *Kathara Healing Level-2 program* we will further explore the correspondences between the subtle body anatomy and the DNA and methods by which the DNA can be repaired and activated to a more advanced level through employing the use of Kathara Healing mechanics.

The Silicate Matrix: 12-strand DNA Pattern

The non-human DNA in our bodies is built upon a 12-dimensional structure, each of the 12 strands building up one level of the Primary Crystal Matrix and each one corresponding to one of the 12 dimensional frequency bands within the 12-dimensional scale. The original human DNA is called the Silicate Matrix. The 12-strand double-helix configuration has allowed for the progressive transmutation of Humanoid carbon-based molecular structure, into the Silicon-based structure of Higher Humanoid life. The original DNA code on this same helix within the Carbon-based structure of Higher Humanoid life. The original DNA code on this same helix within the human biology was designed to embody 12 dimensions of translucent consciousness, or to fully embody the Avatar duality here in the Physical Plane of Humanoid. Pre-matter, pure light matter density. The inner core responsible designed to undergo full cellular transmutation through a Harmonic of manifestation and their corresponding matter density levels. When the gene code is working properly, the process of cellular communication is directed by the activated Human consciousness. In historical terms, the process of conscious cellular communication has been referred to as the process of "Ascension" which is Multi-sensual Expansion, the mechanics of which have been hidden within sacred texts dealing with Multiple Realms. The Merkaba Vehicle of consciousness which we are now activating, which is the vehicle that is the ascension as a consequence of simultaneous effect of progressive activation of the Silicate Matrix within the genetic code.

The Silicate Matrix and Subtle Body Anatomy

Just as each Arc-A-Tonal Line of the subtle body anatomy has its correspondence to a Galaxy Cluster Crystal Skull, Arc-A-Tonal Line, Arc Angel Field, and Kingdom on Earth, so too do the DNA strands have their specific affiliations to each dimensional octave of the subtle body anatomy. Each DNA strand constitutes a double-helix atomic-chemical line. Within the geometry Arc-A-Tonal Line there are numerous 12 atomic centers. The Nova Bodies and Strands of subtle body anatomy each correspond to a set of 12 Arc-A-Tonal Lines, each Field Levels and Octaves and thus also correspond to a set of 12 DNA strands. The Polarized Gender Expressions, projection of Ascension Cycles, Sacred Holographic Reality Matrix, Consciousness and Ideologies in the Pleiadian Grid, Nova-Subtle Strands, Arc-A-Tonal Lines and Chakras appear as creations, and manifestation within the DNA. The function of the DNA determines the quantity of Interdimensional Frequency and thus the amount of dimensional consciousness that can actively process through and embody within the physical body system. DNA alterations manifest as alterations of biology and consciousness.

The 12 DNA strands of the Silicate Matrix are sets of double-helix spirals that correspond to each dimensional band through which each dimensional level of the subtle body anatomy is translated into consciousness. Within the range of these genetic matrix constructions. The DNA can be viewed as the primary structure through which subtle energy-consciousness translates into manifest physicality. As each full dimensional band contains 12 primary Bio-Frequency Bands (See Chapter 7 for Dimensional Structure), each of the 12 DNA strands contains 12 primary Seed Codes, or consciousness scalar points, composed of double-helix Base-Line sequences, that correspond to the Bio-Frequency within each dimension. The 12 primary Seed Codes within each DNA strand have an anti-matter counterpart composed of sequences from the Anti-particle system. These particle Seed Codes are also called anti-codes. BASE CODES. The anti-particle codons parts are called ACCELERATION CODES. The Seed Codes of the core DNA strand together are the points of consolidated frequency through which energy-consciousness is drawn in from the Ascension Lattice Matrix to expand the personal consciousness field.

The Silicate Matrix: 12-strand DNA Pattern

The non-human DNA in our bodies is built upon a 12-dimensional structure, each of the 12 strands building up one level of the Primary Crystal Matrix and each one corresponding to one of the 12 dimensional frequency bands within the 12-dimensional scale. The original human DNA is called the Silicate Matrix. The 12-strand double-helix configuration has allowed for the progressive transmutation of Humanoid carbon-based molecular structure, into the Silicon-based structure of Higher Humanoid life. The original DNA code on this same helix within the human biology was designed to embody 12 dimensions of translucent consciousness, or to fully embody the Avatar duality here in the Physical Plane of Humanoid. Pre-matter, pure light matter density. The inner core responsible designed to undergo full cellular transmutation through a Harmonic of manifestation and their corresponding matter density levels. When the gene code is working properly, the process of cellular communication is directed by the activated Human consciousness. In historical terms, the process of conscious cellular communication has been referred to as the process of "Ascension" which is Multi-sensual Expansion, the mechanics of which have been hidden within sacred texts dealing with Multiple Realms. The Merkaba Vehicle of consciousness which we are now activating, which is the vehicle that is the ascension as a consequence of simultaneous effect of progressive activation of the Silicate Matrix within the genetic code.

DNA Fire Codes - Genetic Time Codes

Along with the 12 Base Codons and 12 Acceleration Codes of each DNA Strand Template, there are also 12 Primary DNA Codons, called DNA FIRE CODES, that regulate the relationship between organ biology and the Planetary Time Cycles in which one biology manifests. Science, "Junk DNA" and Evolution

In the contemporary human genetic code, the majority of the DNA strands corresponding to higher dimensional creation and creation science are "inactive" and are not known to code for any protein within the Human Cell and its corresponding elements of the subtle body anatomy. However, the human function, primarily on a 3 to 3.5 DNA activation level, while the Imprint and polymorphisms for strands 4-12 do dominate within the morphogenetic field and within the fingerprints of non-"protein" DNA. Interdisciplinary Science has labeled "Junk DNA"

The portions of the DNA strand that science has presently identified as the "Double Helix" represent only the surface portions of the chemical, elemental and chemical components of the active DNA strands. Science has yet to identify the multidimensional aspects of DNA manifestation and has yet to realize that within the structure of inactive DNA, there are levels of structure and function that direct the operations of the entire genetic system, which are not presently detectable by contemporary scientific techniques. The human DNA imprint will always appear "non-coding" strands, as a 2-strand Double Helix configuration, but what is not understood is that within this Double Helix there are still the progressively more, additional Double Helix strands, which form together and add their operational coding for the active DNA strand. By contemporary standards of categorization, it refers to genes in regulatory sequences that control the expression of nearby genes but do not code for proteins themselves. The human DNA strand not appears to be linear or static but is "stretchingly" arranged in parallel genetic segments of an "unknown" species. As science evolves into comprehension of the multi-dimensional spectrum, the understanding of the true structure and function of DNA will progressively advance.

DNA Kathara Healing and Bio-Spiritual Evolution

One does not have to wait for scientific theology to catch up with a rapidly evolving humanity in order to begin advancing the functions of the DNA. Through the processes of Kathara Healing, we work to clear blockages from the Kathara Grid and to reawaken the "inactive" DNA within the human body, so as to simultaneously directly affecting the operations of the subtle body anatomy. Perception and the Hologram

In earlier texts, we have explained that manifestation is not what is appears to be but rather a Holographic Projection of consciousness through the structure of dimensionalization. Further, that dimensionalization itself is a compartmentalization of consciousness created through units of consciousness (Particle, Particle and Particum) assembling in specific mathematical-geometrical ratios to form scalar grids, interwoven fabrics of fixed points of electro-tonal units that form layers of standing-wave scalar waves that serve to "flesh out" the structure of the Hologram through projection along a vertical, horizontal and diagonal axis. We have explored the Human Grid, the core template of scalar standing-waves upon which consciousness begins its experience of dimensionalization, the structure of the 15-Dimensional Universe construction and how these characteristics of the Hologram relate to forming the structure of 15-Dimensional Human Anatomy, in understanding the basic foundations upon which our perceivable Hologram forms. We begin to better comprehend the nature of reality and of ourselves within it's multi-dimensional reality structure. Through the Holographic Projection of consciousness, within the cosmic Unified Field of Energy-consciousness and its scalar fields of dimensionalization, we perceive the constructions of space, time, matter, externalization of reality and individuation of identity. Within the Hologram of consciousness we perceive as solid and objectified the wave spectra and their inherent energy constructs of that which exists praxially one dimensional band below the present station of our consciousness focus.

In this section, we will explore a bit about the apparatus of perception that allows us to perceive externalization in such a manner, the facilities of energy inherent to the scalar-wave construct of human form, which together work to bring the Hologram into perceivable-manifestation. We will call the constructs of energy formed through scalar organization, which allow for perception of the manifest Hologram, the HUMAN SENSES.

THE HUMAN SENSES ARE THE EXPERIENTIAL RESULT OF ORGANIZATIONS OF WAVE PATTERNS INHERENT TO THE ELECTRO-TONAL PROGRAM AND SCALAR ORGANIZATION OF HUMAN CONSTRUCTION.

What ARE Senses?

Senses are the scalar-wave apparatus, and their seemingly manifest parts, that allow the personal morphogenetic field to synthesize and translate frequency from the dimensional bands of the Unified Field into coherent perceptual and experiential qualities that give embodied consciousness a translation of its relationship to other forms of consciousness within the Unified Field. Senses — or the apparatus which give us the ABILITY TO SENSE — are scalar arrangements inherent in our form that TRANSLATE ENERGY SIGNATURES FROM THE UNIFIED FIELD INTO USABLE DATA OF RELATIONSHIP

Like the true substance of the human body and consciousness, the Unified Field exists as a quantity of dimensionless energy-consciousness in electro-form scalar wave form a compartmentalized field of ENERGY SIGNATURES within which a vast number of consciousness constructs exist. The human organism is one such construct of consciousness and through its inherent form the energy signatures of other scalar forms are translated into perceptual data. The senses are simply energy constructs within the human morphogenetic field that separate and translate energy signatures from the Unified Field into sets of experiential stimuli, through which the contours of the manifest Hologram can be recognized and experienced

The APPARITHI and Perception

The sense facilities are organizations of energy within the morphogenetic field that hold sets of "energy receivers" or magnetic points of cohesion, into which the frequency patterns from the Unified Field are drawn in for translation. Every organism has a different configuration of energy receivers within its morphogenetic makeup and so every organism will have a variation of perception. The morphogenetic energy receivers, or APPARITHI, of an organism's construction serve to draw certain frequency bands into the morphogenetic field for translation and to block out other frequency bands, making them inaccessible for translation. The frequency bands or Rasthrees of Partibi Phasing that are blocked out of the personal morphogenetic field create GAPS OF PERCEPTION of the Unified Field, through which the Holographic Nature of "space between objects" — extension of form and "separation of SELF from the UnZoot" — becomes perceivable to the organism. These qualities of objectification are the result of BLOCKED FLASH-LINE SEQUENCES, portions of the scalar fields of the Unified Field and their inherent sequences of Partibi Phasing, that cannot translate through the personal morphogenetic field due to the arrangement of the APPARITHI within the personal morphogenetic structure

Senses as Scalar-wave Constructs & Expanding our Perception of Perception

If it can be recognized that externalization of experience is a perceptual illusion of consciousness created through selectivity of range within the perceptual field, the true nature of the human sense facilities can be better understood as a pattern of interrelated scalar-wave forms that serve to block out portions of the Unified Field so that other portions may be brought more fully into perceivable view. **When viewing the *physical apparatus* through which the known human senses appear to occur as part of a larger, interwoven system of *scalar construction*, it will be easier to understand that *perception is not a localized phenomenon created by and limited to the identified organs of perception*** The experiential capacities of even the 5 known human senses have a much broader range than what is presently assumed or identifiable through analysis of the manifest sense organs. *If one can understand that perception of manifestation itself is an effect of these greater scalar wave constructs, it will not seem so outrageous to consider the reality and integrity of sensing and perception beyond the range of the presently identified sense facilities.*

ESP, HSP and Evolution

"Extra-sensory perception" is not "EXTRA" at all. It is a *normal attribute* of the *evolving human organism*, as the consciousness ensconced within the *body hologram* continues its *natural expansion* into the greater portions of its evolutionary imprint. Individuals displaying abilities of "Extra-sensory Perception" are not gifted with something *other than what is characteristic to the human form* ***They are simply a bit ahead in the stage of development* of the natural human perceptual capacities. Everyone has dormant potentials for some degree of "ESP"; like all things within the human organism, ESP is regulated by the *function of the DNA* and its naturally intended relationship to the *Kathara Grid and morphogenetic structure*.** Individuals with **fewer distortions and blockages** within the **Kathara Grid** (and the resulting DNA malfunctions such distortions create) will have *greater ease* in calling the dormant perceptual facilities into activation *Individuals who consciously attempt to use the greater perceptual facilities will stimulate a more rapid advancement into reclaiming this stage of evolution, than those who refuse to acknowledge the existence of their greater sensing facilities.* **The greater sense facilities bring the higher dimensional wave spectra and its inherent reality fields into the *perceptual range* of the earthly embodied human consciousness and so the greater sense facilities can be considered the HIGHER SENSES, a term far more accurately describing their orientation than the term *Extra Senses*. "ESP" becomes "HSP" – Higher Sensory Perception – a *natural attribute of experience for the evolving human organism*.**

THE 5 KNOWN SENSES

The 5 Known Senses

In order to understand the nature of the **Higher Senses** it is necessary to understand a bit more about the nature of the **common senses**, or the "*lower senses*" if you will, for the **common senses** are those that are "tuned to" perception of the **lower frequency dimensions. Perception of *Sight, Sound, Touch, Taste* and *Smell* are *experiential effects* of the *scalar-wave constructs* that exist within the NADA HOVA BODY and the TELLURIC SHIELD, the Kathara Grid and morphogenetic field structures that are composed of and stationed within the frequency bands of dimensions 1, 2 and 3, the first Harmonic of manifestation.** The **APPARTHI**, or "***energy receivers***", within the Nada Hova body, have their first imprint within the **Kathara Grid Level-2: Crystal Seals** structure The first pattern for the sense facilities responsible for manifesting the organs or perception of the 5 identified senses exists within the configurations of electro-tonal Partiki units that form the crystalline seals of which the dimensions-2 **Telluric Shield** is constructed. Through the Partiki Phasing flash-line projections of the Telluric Shield the "armature" or 3-dimensional blueprint for the organs of perception is set for manifestation within the body hologram.

The 5 Known Senses and Sound Transduction

The 5 known senses are more intimately related than commonly supposed; ALL represent a form of SOUND TRANSDUCTION – the frequencies, or flash-line sequences, within the 1st, 2nd and 3rd dimensional bands, that form the identifiable wave patterns presently associated with sound waves, are drawn into the Level-2 Kathara Grid Crystal Seals by **Apparthi receivers,** that carry like flash rhythms. Once drawn into the Apparthi receivers, the sound spectrum becomes modulated into different flash-line rhythms and sent into the **Diodic Points of the Level-3 Kathara Grid** Once intersecting with the frequencies within the Diodic Points, the frequencies from the Apparthi are then **divided/ polarized** and projected up and down the Harmonic-1 dimensional scale, **creating a pattern of energy refraction** within the morphogenetic field and physical body apparatus. The polarized frequencies first appear within the **DNA** as part of the core electrical vibration, and then further transmute into **electrical impulse** that manifests as configurations with the **blood chemistry** and within the **Central Nervous System.** These synthesized electrical impulses are further projected through the **scalar-wave grids** that hold the form of the **identified sensory organs**, finally **culminating in the interrelated qualities of perception associated with the identified sensory organs and their 5 known attributes of sensing.**

THE 12 HUMAN SENSES

The Interwoven Senses and the Hova Bodies

As in the case of the Lower Senses, the *Higher Senses* and their experiential manifestations are the product of consciousness interacting with the *dimensionalized scalar organization* of the human morphogenetic anatomy. Whereas the Lower Senses are affiliated with the transduction of sound frequency within the *1st, 2nd and 3rd Dimensions*, through the structures of the *Nada Hova Body* and the *Telluric Shield* of the *first Harmonic*, the Higher Senses are in like fashion associated with the scalar organization of the *Higher Dimensional Hova Bodies* and their corresponding *Shields*.

In truth, all of the sensing facilities organic to the human form comprise interwoven and interrelated systems of *energy refraction* that together create the perceptual experience of *externalization* within the hologram of manifestation. For example, it is not commonly recognized that the sense of smell is in actuality part of the function of the **auditory facility** and thus represents an intrinsic part of the sense of hearing. It is also not commonly understood that the processes associated with **vision** are not only connected to the processes of the brain and Central Nervous System but also with the formation of *crystalline structures* with the plasma of the **blood. The senses are not nearly as *separate* and *independently functional* as they appear to be when viewed from outside analysis. They are rather a part of an interwoven system of electro-tonal information relay** that spans the 15-Dimensional morphogenetic field anatomy of the human organism.

The 12 Human Senses

In terms of breaking down the sense facilities for structural analysis, such as is done by modern science in identifying the 5 Known Senses, we will describe the sensory attributes of **the Higher Sense facilities** in terms of their *primary orientation, location of their primary Apparthi receivers* within the Hova Body structures and by the type of *perceptual or experiential attributes* produced through their function. **In such categorization of the human sense facilities there are *7 additional*, as yet unidentified, sense facilities operating within and through the human consciousness**, which are collectively responsible for translating the scalar fields of dimensionalized reality into the illusionary holographic picture of externalized manifestation and its qualities or space, time, matter and identity individuation. ***Collectively, there are 12 Primary Sensing Facilities* within 15-Dimensional Human Anatomy**

PERCEPTUAL BLOCKAGE, KATHARA GRID DISTORTION AND KATHARA

Perceptual Blockages

The Higher Senses are connected to the Lower Senses and provide attributes of perceptual experience characteristic to their dimensional levels, but in the present stage of human genetic evolution the Higher and Lower Senses are not fully "plugged into" each other and so the various Higher Dimensional fields, and the sensory abilities associated with the Higher Senses, appear to be separate or unavailable to the embodied human consciousness. The Higher and Lower Senses plug in through opening of Kathara Lines in the Level-1 12-Tree Kathara Grid, which creates a reciprocal opening and expansion of the DNA, Nova Bodies and activation of dormant nerve networks within the brain, molecular core and Central Nervous System of the body.

Presently the human senses are phase-locked into a 3-dimensional perceptual field due to blockages between the 3rd and 4th Kathara Centers, which block the Apparthi receivers within the Nada Nova Body from accepting compatible electrical impulses from the higher dimensional Nova Bodies. The Kathara Grid blockage manifests within the body as fragmented units of DNA ("Junk DNA") that serve to render the natural processes of multi-dimensional data transfer into the Central Nervous System inoperable. Portions of higher dimensional experience come to conscious attention in the form of dream perception or intuitive impression, but the natural clear pathways of multi-dimensional perception are blocked to a large degree within contemporary humanity.

Perceptual Blockage and Kathara Healing

Blockages in the Kathara Grid, and their reciprocal blockages in the human perceptual field, can be progressively removed through practices of Kathara Healing and utilizing the Maharic Shield to reawaken the Organic Imprint for Health. As Kathara blockages are progressively repaired, the genetic code will expand its function by reassembling and activating the presently dormant portions of the DNA imprint. DNA expansion will create reciprocal alterations in the bodily metabolic rate, brain, blood, glandular and hormonal function, particle spin speed and operation of the Central Nervous System, that will allow for a progressive, natural activation of the Higher Sense facilities and expansion of the human perceptual field into the multi-dimensional arena. In Kathara Healing, the dormant Higher Senses will be progressively brought into activation, beginning with the 6th Audurea-Merkaba Sense and the 7th Tristat-Cellular Telepathy Sense, through which inner audio-visual-direct cognition skills will progressively develop. These skills will be employed in the processes of Kathara Healing, and in so doing they will be progressively stimulated into greater levels of activation. As the dormant Sense facilities are called into activation, Kathara Healing techniques to remove Kathara Grid blockages are used to realign the Holographic Template to restore the Imprint for Health, through which natural perceptual expansion will progressively take place.

MORPHOGENETIC EXPANSION

GROWTH RATES

- Growth through time is created through **FREQUENCY ACCRETION** drawing Frequency Bands from the Dimensional Unified Fields of Consciousness into the personal morphogenetic field for expansion.
- When the Kathara Grid is functioning properly, there are **set morphogenetic field expansion periods** within the linear growth cycles of the human body
  1. **Fetal Integration** to age 11-12
  2. **Harmonic 2 Integration** age 12-22
  3. **Harmonic 3 Integration** age 22-33
  4. **Harmonic 4 Integration** age 33-44

  If the Kathara Grid is working properly, the **body does not die** but rather progressively transmutes into *less dense states of matter* in an **eternal body form**, via accretion of the 4 Harmonics of Frequency
- Present **Kathara Distortions** block integration of **Harmonic 2** and begin Molecular Compaction, body degeneration and Death.

The **Signets** and the **Shields** can be used to direct the function of the *Kathara Level-1 12-Tree Grid* and all built upon it. **Kathara Centers** can be used to trigger activation of the *Signets* and *Shields*

The first **4 Hova Bodies** and their **Horizontal Shields** are most important in terms of human evolution. Activation of the **Signets** activates their corresponding **Shield**, which in turn releases the **tissue capsules** between *Hova Bodies*, allowing merger to occur. When the **first 4 Shields** activate, the body is able to integrate the Avatar identity and **transmute** into pre-matter liquid light wave form.

In Kathara Healing the Harmonic-4 **Makanic Shield** is used to restore integrity to all *Shields* and *Hova Bodies* below, which progressively clears the *Kathara Grid* of distortions.

Together the 3 levels of the Kathara Grid form the 3-plane armature upon which the 3-dimensional hologram is created.

Levels of Consciousness and the Perceptual Bridge

In earlier texts, we have learned of the structure human consciousness takes when entering the scalar fields of dimensionalization for the perceivable experience of manifestation in comprehending the true structure of multi-dimensional anatomy with its Kathara Grid, Hiova Bodies and Shields, Diodic Points and levels of bio-energetic substance. we can begin to see that there is much more to human consciousness than meets the eye... much more energy-identity operating, presently beyond the view of our 3-dimensionally focused earthly personality.

There are portions of our consciousness stationed within the Hiova Bodies of the higher dimensional fields and these expanded levels of ourselves hold knowledge and participate in perceptual experience beyond the usual range of our waking perceptions. As we evolve and expand, through Hiova Body integration and the resulting activation of dormant DNA components, we will progressively have greater conscious access to these expanded levels of consciousness while we are actively focused within the waking 3-dimensionally embodied state. However, we do not have to wait until our evolution plods along to bring us to these expanded perceptual states. We can, from our waking state of 3-dimensional consciousness, begin to actively tap this hidden reservoir of knowledge and perceptual experience. We can take an active hand in expediting the process of our multi-dimensional evolution by using our dimension-3 mental body awareness to direct our higher awareness into our current range of perception. We can begin to build a PERCEPTUAL BRIDGE between our 3rd-dimensional and higher Dimensional consciousness. In taking the initiative for building this Bridge of Consciousness, we begin to stimulate our Higher Senses into operation, expediting the natural process of Higher Identity Integration.

Through building a PERCEPTUAL BRIDGE

we can actively expedite our own Bio-Spiritual Evolution.

THE MENTOR

The Perceptual Bridge and Creating the Mentor

The Higher Dimensional levels of human consciousness are not dormant within their respective dimensional bands of function; they are quite awake and aware within their own dimensional fields. As we perceive and interact with the 3-dimensional world, within which our present awareness is focused, the Higher Dimensional portions of our consciousness are also actively perceiving and interacting with the dimensional environments within which they are focused. **Higher dimensional aspects of our awareness seem *cut off* from our perceptual view because our consciousness is presently focused through a *genetic code arrangement and Kathara Grid orientation* that blocks out the frequencies of those higher stations of identity.** If we can realize that expanded portions of our consciousness simultaneously exist, within the higher dimensional frequency bands, we can also realize that it is possible to access such levels of our own identity by building Perceptual Bridges between our 3-dimensional perspective and the portions of our consciousness stationed within the Higher Dimensional Hova Bodies

We can begin to build a *Perceptual Bridge* between ourselves and our *Higher Selves*, by using simple *frequency modulation techniques* of Kathara Healing, such as Technique #1: *Awakening the Mentor* and the *6th and 7th Senses*. In this scalar-grid activating exercise, we will awaken dormant **Partiki Phasing Flash-lines** and activate dormant portions of the **Kathara Lines** in the Kathara 12-Tree Grid, to begin opening the channels of communication between the consciousness focused within the Nada Hova Body and that focused within the *Alphi Hova Body*, of Harmonic-2. **In this exercise, we will create the MENTOR, a portion of our consciousness composed of *3rd, 4th and 5th Dimensional frequencies*, that will serve as an *intermediary focus of awareness* through which we can begin to receive guidance and knowledge from our 2nd-Harmonic of consciousness.** Creating the MENTOR will begin the process of activating dormant **DNA**, opening new **nerve networks** within the Central Nervous System of the 3-dimensional body, and activating dormant **APPARTHI** frequency receivers within the *Level-2 Crystal Seals Kathara Grid*. **Through creating the MENTOR, we begin to build the Perceptual Bridge between the 1st and 2nd Harmonic of our conscious awareness**

The MENTOR is a portion of our identity that we create to serve as an intermediary focus of awareness between the Nada Hova Body and the Alphi Hova Body; a PERCEPTUAL BRIDGE between our first and second Harmonics of Consciousness.

The MENTOR and Kathara Healing

In the practices of Kathara Healing, we will use the MENTOR as a source of guidance, information retrieval, objective observation, and as a communications link between our own higher consciousness and the higher levels of consciousness in those who come to us for healing facilitation. Awakening and working with the MENTOR will become a standard practice in our applications of Kathara Healing. In creating the MENTOR we are using our creative power of scalar-grid manifestation (thoughts and mental images are scalar-grid morphogenetic 'field forms') to bring into being a specialized portion of our consciousness that can relay frequency from our higher Harmonics of Consciousness to our 3-dimensionally focused identity. With repeated use of the MENTOR focus of awareness, we will develop the ability to simultaneously hold 2 Harmonics of consciousness and we will begin to reclaim the natural flexibility of focus that is the healthful condition of embodied human consciousness. Through the MENTOR focus of attention we can reach higher levels of cognition and understanding regarding application of healing facilitation and we will more rapidly call into awakening the Higher Sense faculties of the 15-Dimensional Anatomy.

Other Uses of the MENTOR Focus

In creating the MENTOR focus, we will begin to realize that even the 3-dimensional focus of awareness with which we are most familiar is more flexible than once supposed. The MENTOR is not simply and inert creation, but rather a living portion of our conscious identity composed of portions of the waking self and portions of the Higher Self. MENTOR can become an advisor, a portion of self able to "keep its head above the waters" when you are confronted with challenging events in the 3-dimensional arena; a part of you able to remain calm, focused and able to make clear decisions beyond the confusion of mental or emotional body processing. MENTOR can be sent into the Cellular Memory of the body to locate core issues or reincarnational blockages and can serve to moderate between sub-personality fragments and the "Inner Child". MENTOR can likewise be used to harmonize communications between self and others, as you can send the MENTOR focus into the higher dimensional fields to connect with the higher selves of others for conflict resolution. Playing with the MENTOR focus can also have great rewards. You can focus your attention in the Merkaba Space and then direct the MENTOR across the room to begin precisely effects of BI-LOCATION. You can travel with MENTOR to distant locations to develop REMOTE VIEWING SKILLS, which will be used in also Kathara Healing levels for REMOTE HEALING FACILITATION. MENTOR can become a vehicle for conscious transport of your awareness, while awake, and also in dreaming and higher dimensional projection.

TECHNIQUE # 1

AWAKENING THE MENTOR AND THE 8TH AND 7TH SENSES

Awakening the Mentor

Place the fingertips of both hands and the heels of attention at the Navel. Take a few slow, full breaths. Feel sensation in the areas of the Blue Flame (like a gas stove flame) deep inside the body behind the Navel. Gently massage the Navel region while observing the Blue Flame.

1. Stop massaging and allow a sphere of White Light within the Blue Flame to form the Navel. Place your attention within the White Sphere and imagine that you are both in reality as a bead and as if you are sitting within the White Light Sphere.

2. Breathe gently and visualize the White Light Sphere moving upward through the center of your body until it reaches the center of the brain at the Pineal Gland. Stop movement of the White Light Sphere at the Pineal Gland, then visualize the White Light Sphere moving to the RIGHT and straight across as if OUTSIDE OF THE BODY until it is positioned in your same field, just above your RIGHT SHOULDER. The White Light Sphere, now between you and the Right Shoulder may appear as a portion of your awareness that was "turned off" – Dormant and requires an extra passage through the Blue Flame and the 8th Kosmos Center at the Navel. You will name this portion of your higher reality MENTOR.

3. Imagine that you can feel the reality of the White Light Sphere that holds your MENTOR gently above your Right Shoulder as a "fuzzy ball of energy"

MENTOR serves as the awakening pole between your ordinary conscious mind and the 8th – Dimensional portion of your Soul Matrix reality. By Activating MENTOR you can tune the energy of your waking awareness from the ordinary world to your deeper reality and to the MENTOR Sphere. It is a wonderful cognitive and conscious ability to Connect the – Dimensional reality Sphere to Healing Facilitation. MENTOR will communicate with the 8 – Dimensional Archetype aspect of your Client's Soul Matrix, asking how you may best serve the Client at High and Creative guidance. MENTOR will then be translated to you from MENTOR in the form of intuitive urges, impressions, cognitions or subconscious directions. MENTOR will also convey a translation of the entire Process. If your dimensional Stations of Identity in your conscious mind, MENTOR can also balance the Unified Field with you to assist in Disease Recall and Healing Out-Of-Body Travel.

4. Practice creating and sensing the Mentor Sphere over your Right Shoulder. Carry it around with you whenever you go and play with moving the focus of your consciousness back and forth between the location of your head and MENTOR. Try perceiving from both locations simultaneously. Such play will help stimulate neurological sensitivities to translating and personalizing information from the 8th and higher dimensional Stations of Awareness.

TECHNIQUE # 1

AWAKENING THE MENTOR AND THE 8TH AND 7TH SENSES

Awakening the Mentor

Place the fingertips of both hands and the heels of attention at the Navel. Take a few slow, full breaths. Feel sensation in the areas of the Blue Flame (like a gas stove flame) deep inside the body behind the Navel. Gently massage the Navel region while observing the Blue Flame.

1. Stop massaging and visualize a sphere of White Light within the Blue Flame and call the Navel. Place your attention within the White Sphere and imagine that you are both in reality as a bead and as if you are sitting within the White Light Sphere.

2. Breathe gently and visualize the White Light Sphere moving upward through the center of your body until it reaches the center of the brain at the Pineal Gland. Stop movement of the White Light Sphere at the Pineal Gland, then visualize the White Light Sphere moving to the RIGHT and straight across as if OUTSIDE OF THE BODY until it is positioned in your same field, just above your RIGHT SHOULDER. The White Light Sphere, now between you and the Right Shoulder may appear as a portion of your awareness that was "turned off" – Dormant and requires an extra passage through the Blue Flame and the 8th Kosmos Center at the Navel. You will name this portion of your higher reality MENTOR.

3. Imagine that you can feel the reality of the White Light Sphere that holds your MENTOR gently above your Right Shoulder as a "fuzzy ball of energy"

AWAKENING THE MENTOR AND THE 6TH AND 7TH SENSES
Awakening the 6th and 7th Senses: The Auduras and the Tristel

Focus your attention on the MENTOR Sphere over your Right Shoulder. Take a few slow, deep breaths and visualize MENTOR expanding into a Sphere the size of a Basketball. As you inhale INHALE is drawn to MENTOR, drawn deeper into your Aura, visualizing MENTOR moving from over your Right Shoulder to a position surrounding your entire body. EXHALE, stop the movement of the MENTOR Sphere, and imagine that you can feel its "buzzing energy" all around the outside of your body, as if your body is now encased in pulsating Blue-White energy.

2. With the next INHALE breath, contract MENTOR into a small Sphere of White Light positioned inside the center of the brain at the Pineal Gland. Feel slow and beautiful energy. With the next EXHALE breath, push the small MENTOR Sphere from the Pineal Gland, straight forward and into the 6th Chakra at the Forehead. Visualize MENTOR moving into the 6th Chakra from inside the head, then continuing to move through the 6th Chakra and straight outward and away from the body. Imagine the MENTOR Sphere traveling outward through the long Blue-Violet Tunnel of the 6th Chakra, until you literally lose track of the MENTOR Sphere far out in front of you.

3. Take a few slow breaths, then on the next INHALE visualize the MENTOR Sphere re-appearing in the distance of your 6th Chakra and rolling it on like a soft breath, back into the Pineal Gland. Breathe slowly.

4. With the next EXHALE, visualize the MENTOR Sphere moving down from the Pineal Gland at the center of the brain, stopping at the center of the 5th Chakra in the Throat. Breathe slowly. On the next EXHALE, push the MENTOR Sphere straight outward, stopping it during its journey from inside the Throat, in the Blue-Green spiral of the 5th Chakra. As you MENTOR visualize the movement of the MENTOR Sphere from inside the physical body in the Blue-Green tunnel of the 5th Chakra spiral, until it looks like you are looking at it from a few feet away. Take a few slow breaths and on the next INHALE imagine MENTOR returning through the 5th Chakra Blue-Green spiral to rest deep within the Throat. On the final INHALE to move MENTOR back up into the Pineal Gland and on the final EXHALE to push the MENTOR Sphere back out to its "home" position in the same fast, over the Right Shoulder.

This process opens up the 5th – 6th Sub-Frequency Bands within each dimensional layer of the 6th and 5th Chakras, beginning the process of opening the 5th – Audurus and 7th – Tristel Senses, stimulating Inner Vision and Audio or Higher-Dimensional Frequency Perception.

Kathara Healing and Reaching the Core of Disease

In earlier text we have explored the significance of the Kathara Grid and its role as the Holographic Template upon which the morphogenetic field, body and consciousness manifest within the 15-Dimensional system. We have learned that the Kathara Grid is the core template upon which the morphogenetic field manifests and that the morphogenetic field is the blueprint upon which the body systems and embodied consciousness manifest. Through our study of these core structures of manifestation we come to realize that true and lasting health or healing must be approached from the deepest levels of personal creation, the morphogenetic reality within which all dis-ease conditions have their origin. Kathara Healing applications are intended to reach the core of systemic malfunction, the various levels of the morphogenetic field and Kathara Grid, in order to restore the imprint for Health within the Holographic Template for manifestation.

The Mahara Hova Body, Mahanic Shield and the Imprint for Health

In Level-1 Kathara Healing we will learn the first and most important level of restructuring the Holographic Template to hold its original imprint for Health the MAHANIC RECODING PROCESS. The Mahanic Shield is the manifestation template upon which the MAHAHA HOVA BODY of Harmonic-4 manifests. The Mahara Hova Body is the scalar-grid that holds the 10th, 11th and 12th Dimensional aspects of consciousness and represents the ORIGINAL POINT OF MANIFESTATION - the creation-point where consciousness moved from its pure scalar-wave state of being into the three-dimensional scalar-grids through which the illusion of external holographic projection could be experienced. The Mahara Hova Body, and its station in Harmonic Universe-4, represent the original PRE-MATTER LIQUID LIGHT fields of manifestation through which we passed in order to enter the experience of density and individuation of matter form.

Prior to our entering the dimensional realm of the systems within which matter can be perceived, we existed in pure scalar-wave form - a scalar pattern that held the original, pure and perfect pattern for our creation as consciousness. The Mahara Hova Body and the Mahanic Shield are the Liquid Light Pre-matter Scalar-templates that hold our original pattern - which was our original CREATION IMPRINT. Our creation imprint is the ORIGINAL IMPRINT FOR HEALTH - the condition of eternal being, free from Hova Body distortions picked up in the lower dimensional fields.

The 12th -DIMENSION and FREQUENCY SUB-HARMONICS

In Level-1 Kathara Healing we will utilize the Imprint for Health, as held within the Meharic Shield, to begin REPATTERNING the Kathara Grid back to its original level of function. The frequencies of the 12th -Dimension, as embodied within the Meharic Shield, contain within them 144 Frequency Sub-Harmonics, ALL OF THE FREQUENCY BANDS FROM THE DIMENSIONS BELOW, along with the natural frequency spectra characteristic of the 12th -Dimension. Each Dimensional Frequency Band within the 13-Dimensional Spectra contains within itself its own 12 Primary Sub-frequency Bands (portions of the whole dimensional Partki Phasing flash-line sequences), plus a reflection set of the frequency spectra from all of the Dimensional Bands below.

For example, Dimension 2 contains its own 12 Primary Sub-frequency Bands, plus a reflection set of the 12-Primary Sub-frequency Bands that make up the Dimension-1 Frequency Band below. Dimension-2 thus has 12 Primary Sub-frequency Bands, Dimensions-2 thus has 12 Primary Sub-Frequency Bands plus 12 Secondary Sub-Frequency Bands from Dimension- for a total of 24 Sub-Harmonics in Dimension 2. This pattern of FREQUENCY SUB-HARMONICS builds upward through the 13-Dimensional Scale. The 12th-Dimensional Frequency Band has a total of 144 Sub-Harmonics: 12 Frequency Bands x 12 Sub-Frequency Bands each = 144 Sub-Harmonic Frequency Bands. Because the 12th-Dimension holds within itself all of the Frequency Spectra and scalar-grid programs from the lower dimensions, the 12th-Dimensional Frequencies have the ability to "plug into" and override any Partki Phasing flash-line pattern from the lower dimensional fields. The ORIGINAL PATTERN OF CREATION for the lower dimensional structure itself is held within the 12th-Dimensional Frequencies and so the 12th-Dimensional Sub-Harmonics can be used to correct any distortion in the dimensional frequencies of the Lower Hara Bodies and their DNAids.

The Meharic Shield and the 12th -Dimension

As the Meharic Shield and Mahara Hara Bodyare composed of 10th, 11th and 12th -Dimensional scalar grids, they contain within them the 144 Frequency Sub-Harmonics of the entire 12-Dimensional Spectrum. The human morphogenetic field is designed to hold the 144 sub-Harmonic Spectrum, which is fulfilled through activation of the original 12-Strand DNA Silicate Matrix gene code. Because of its 144 sub-Harmonic scalar-wave spectrum, the 12th -Dimensional level of the Meharic Shield can reset the original, non-distorted imprint of Partki-Phasing flash-line sequences within the entire Kathara Grid. 12 Tree, the Kathara Oceans, Kathara Lands, the Hara Bodies, DNA and within any level of the morphogenetic field and manifest body built upon them. The Meharic Shield is the Kathara RESET BUTTON.

The ORIGINAL PATTERN OF CREATION for the lower dimensional structure itself is held within the 12th-Dimensional Frequencies and so the 12th-Dimensional Sub-Harmonics can be used to correct any distortion in the dimensional frequencies of the Lower Hara Bodies and their DNAids.

The Meharic Shield and the 12th -Dimension

As the Meharic Shield and Mahara Hara Body are composed of 10th, 11th and 12th -Dimensional scalar grids, they contain within them the 144 Frequency Sub-Harmonics of the entire 12-Dimensional Spectrum. The human morphogenetic field is designed to hold the 144 sub-Harmonic Spectrum, which is fulfilled through activation of the original 12-Strand DNA Silicate Matrix gene code. Because of its 144 sub-Harmonic scalar-wave spectrum, the 12th -Dimensional level of the Meharic Shield can reset the original, non-distorted imprint of Partki-Phasing flash-line sequences within the entire Kathara Grid. 12 Tree, the Kathara Oceans, Kathara Lands, the Hara Bodies, DNA and within any level of the morphogenetic field and manifest body built upon them. The Meharic Shield is the Kathara RESET BUTTON.

The Meharic Shield – Core of Healing Therapeutics

To restore the Imprint for Health within the Body-Mind-Spirit-System, the Holographic Template of sector-grids upon which the system manifests must be restored to its original function. Various expressions of healing modalities within the physical body, bio-chemistry, DNA, Auric Field, Chakra System, Level-2 Crystal Seats and Level-3 Diode Points of the Kathara Grid can create temporary change toward healing, but the disharmonic conditions held within the core Level-1 12-Tree Kathara Grid will eventually override alterations made to the outer levels of the morphogenetic field or body systems. Working with outer levels of the Bio-system can assist in the healing process but first the Imprint for Health must be restored within the Level-1 12-Tree Kathara Grid. The Level-2 12-Tree Kathara Grid, with its Kathara Centers and Kathara Lines, is created upon the 144 Frequency Sub-Harmonic Pattern. As the Meharic Shield and Mahara'Aiwa Body are the only portions of the dimensional scalar-grid anatomy that hold the full 12th-Dimensional Frequency Band, with its 144 Sub-Harmonics, the Meharic Shield and its corresponding 16-Point Kathara Centers are the only portions of the morphogenetic anatomy that can override and reconstruct the electro-local matrix standing wave point arrangements within the core Kathara Grid. Thus, it is with the Meharic Shield that core healing therapeutics must begin.

Critical Mass and Simultaneous Healing of Core/ Outer Morphogenetic Levels

Activating the Meharic Shield will open, activate and realign the scalar-wave flash-fire sequences of dormant Kathara Centers, Kathara Lines, Crystal Seats, Nova Points, Diode Points, Channels and DNA within the outer levels of the morphogenetic field and body. Once the Imprint for Health has been temporarily restored within the Core Holographic Template Kathara Grid, via running the Flash-fire sequences of the Meharic Shield through the Lower- Kathara Grid, the outer layers of the anatomy can be further realigned to expedite manifestation of the Kathara Grid Reordering into the outer levels of the Bio-system. Technique # 2: The Meharic Seal and the Liquid Light Cleanse, begins the process of running the 12th-Dimensional Flash-fire sequences, via their Frequency Sub-harmonics through the Kathara 12-Tree Grid, to REPATTERN dormant flash-fire sequences within the core Holographic Template. In the beginning of using this technique, the effects of this reprogramming will last only several hours, as the outer levels of the Bio-field will have greater 'Critical Mass' in their distortion patterns than the Kathara Grid can immediately override. Full healing comes when the renewed Imprint for Health reaches CRITICAL MASS within the morphogenetic field. Critical Mass is reached via frequent use of the Meharic Seal and outer level Bio-field therapeutics.

In Kathara Healing the first priority is to reset the integrity of the Kathara Level-1 12-tree Grid by Repatterning its flash-fire sequence program to the Mahanic Shield via the Mahanic Seal and Liquid Light Cleanse. This process sets the electro-local "ground" within which stimulation of outer morphogenetic levels can connect, reawakening dormant APPARTHI frequency resonant within the Level-2 Crystal Seals which allows the morphogenetic field level to expand enough to hold the higher frequencies of the Imprint for Health. After the Healing Ground is set within the Kathara Grid, additional applications of Kathara Healing can then be applied to various other levels of the Kathara Grid, Morphogenetic Field and Body. There is an infinite variety of Kathara Healing Bio-energetic applications, that range from Level - 2 and 3 Kathara Grid work reprogramming the Kathara Centers, Kathara Lines, Hara Bodies, Shields and Signets, reversing the Miasm/Karmic imprint and accelerating the opening of the Diodic Points, to working with the Chakra System, Meridian and Axiom Lines, DNA and physical body points, while running the Triadic Currents for healing. In coming Levels of the Kathara Healing Program we will learn the use of the GEOMANCIES and FIRE LETTERS - key SYMBOL CODES that serve as scalar-wave guides to reset the electro-local field-line sequences within the morphogenetic body and the application of the Symbol Codes to the treatment of specific physical, emotional, mental and spiritual dis-ease conditions. We will explore working with the Color Expansions of the Dimensional Frequency Bands and how they can be used in combination with the Symbol Codes for use in Manifesting desired conditions and De-manifesting undesirables, both within the body and in the 3-dimensional life drama.

Applications of the Level-1 Kathara Healing Program

In Program Level- we are setting the foundations upon which all other skill levels of Kathara Healing are built. The focus of the Level- Program is to create Morphogenetic Repatterning via the Mahanic Shield and to begin clearing the Miasmic Karmic Imprint that blocks various areas of the Hara Body Imprint. We will need learn to add FORCE AND POWER to our Morphogenetic Recoding Process by opening the PLANETARY BIO-FEED INTERFACE SYSTEMS to draw energy directly from the Planetary Mahanic Shield and we will begin clearing the physical body message point sequences. Sequences 1 and 2 Kathara Points through which we can begin to regulate the flow of energy within the Bio-system for Regeneration of the Imprint for Health and Revitalization of the Body-Mind-Spirit System. In Section 2 of this course we will explore MULTI-VECTOR HOLOGRAPHIC RECODING - clearing the Miasmic Imprint from the Kathara Grid.

SEQUENCE 1 AND 2 KATHARA POINTS

Sequence-1 Kathara Points for REGENERATION

Sequence-1 Kathara Points are mini energy-vortex points in the body that connect directly to Diadic Points within the Kathara Level-2 Diadic Points Grid. Stimulation of the Kathara Points affects the movement of energy within related areas of the Kathara Grid, which creates a reciprocal movement of energy within the cellular structure, corresponding to the Kathara Points.

When used in proper sequence (Sequence- Kathara Points open energetic gate ways to the Kathara Lines of the Kathara Level-1 12-Tree Grid, allowing patterns of frequency to be entered into the Kathara Lines to realign disharmonic patterns of frequency running through the Holographic Program of the Kathara Lines. When the Kathara Lines are opened to receive 11th and 12th dimensional frequency infusions from the Mahara Hova Body, the Holographic Program of the Kathara Grid can be progressively regenerated to the Imprint for Health, as held within the program of the Mahaic Shield.

Sequence-1 Kathara Points are used to open the Kathara Lines prior to Techniques # 3: The Mahaic Seal and the Liquid Light Cleanse and Technique # 4: The Mahaic Infusion. They may also be used alone with deep breathing for frequent healing support, to clear energy up from the Mahaic Shield, re-balancing and regenerating the Imprint for Health within the Kathara Grid and Body-Mind-Spirit System. It is not necessary to close the Kathara Lines after using Sequence-1 Points as they will close automatically in several hours. If one desires to further revitalize the cellular structure, running the Sequence-2 Kathara Points for closing the Kathara Lines, will increase the amount of energy running through the body cells, as the Kathara Lines are no longer absorbing the energy.

Sequence-1 Points regenerate and re-balance the Kathara Core first, which creates more lasting, but less immediate, changes in the body. Sequence-2 Points close the Kathara Lines if they are opened and draw energy from the Mahaic Shield directly into the bio-energetic field and physical cells, rather than the core Kathara Grid, creating more immediate, but temporary, revitalization of the body. The patterns held within the Kathara Grid core holographic template will eventually override those set in the bio-energetic field alone. Used in combination with each other, the Sequence-1 and Sequence-2 Kathara Points can affect more lasting revitalization by simultaneously realigning the core template and the outer layers of the bio-energetic system and cellular structure. In combination with other Kathara Healing techniques, the effects and restoration of the Imprint for Health are further amplified and accelerated.

Sequence-2 Kathara Points are mini energy-vortex points in the body that, like Sequence-1 Kathara Points connect directly to Diadic Points within the Kathara Level-3 Diadic Points Grid. Stimulation of the Kathara Points affects the movement of energy within nested areas of the Kathara Grid which creates a reciprocal movement of energy within the Bio-Field and cellular structure corresponding to the Kathara Points.

When used in proper sequence Sequence-2 Kathara Points close the energetic gaps-ways to the Kathara Lines of the Kathara Level-3 Triad Grid which the Sequence-1 Points had opened. Closing the Kathara Lines, powered by the Sequence-2 Kathara Points, creates a reciprocal DEFENSE of the Kadal Lines Radial energy matrix that only energy from the Kadal Nova Body radial receive into the cellular interface (energy) within the outer levels of the Bio-energetic Field. Opening of the corresponding Kadal allows optimal vectoring of Prosperity to be entered into the outer levels of the Bio-energetic Field and Chakra System, to energize subconscious pattern of Prosperity running through the Chakras, Aura-Kadal and Physical Cells. When the Kadal, Chakra and outer Bio-energetic Field are opened to receive Prosperity energy, the Sequence-2 Kathara Points for the Kathara Nova Body, the energetic integrity of the physical cells and Bio-energetic Field can be progressively revitalized with the Kadalic Prosperity and the Imprint for Health as held within the programs of the Kadalic Shield.

Sequence-2 Kathara Points are used to close the Kathara Lines, following Technique-#4: The Kathara Infusion. They may also be used alone with deep breathing for increased healing support, to draw energy up from the Kathara Shield through the Kathara Grid and into the outer levels of the Bio-energetic Field. Directing Kathara Programs into the outer levels of the Bio-energetic Field regenerates the Imprint for Health within and directly revitalizes the body cells for more vibrant Body-Mind-Spirit healing. It can also help to energize the cellular structure, energy flow Sequence-2 Kathara Points to clean the Kathara Lines, will increase the amount of energy running through the body cells, so the Kathara Lines do no longer absorb the energy. Sequence-2 Kathara Points revitalize and rebalance the outer levels of the Bio-energetic Field first, which creates more immediate but temporary revitalization of the body as restorative energies do not directly enter the cells. Kathara Grid Transmutation energy when using the Sequence-2 Kathara Points alone, restorative electro-mind programs must be maximally enhanced, so the bio-energetic balance of the new programs reach critical mass at which time the new programs will begin to subtly influence the programs held within the Kathara Grid. The primary difference between Sequence-1 and Sequence-2 Kathara Points is this. Sequence-1 Points channel energy from the Kadalic Shield into the core Kathara Grid holographic template. Sequence-2 Points channel energy from the Kadalic Shield into the outer levels of the Bio-field and body cells. For this reason the effects of Sequence-2 Kathara Points are more immediate and those of Sequence-1 Kathara Points are more permanent.

The pattern held within the Kathara Grid core holographic template eventually creates more stable and the outer Bio-field zones. Used in combination with each other and other healing applications, the Sequence-1 and Sequence-2 Kathara Points can affect more lasting revitalization by simultaneously replacing the core template and the outer layers of the Bio-field and cellular structure. Using Kathara Points Sequences, and other Kathara Points and other Kathara Healing techniques, will amplify and accelerate the effects and restorative function of the Imprint for Health within the Body-Mind-Spirit system.

14 SEQUENCE 1 KATHARA POINTS

Regeneration of the Imprint for Health

Sequence-1 Kathara Points **OPEN** energetic gate-ways within the **Kathara Lines** of the *Kathara Level-1 12-Tree Grid*, to receive electro-tonal reprogramming for **regeneration** of the *Imprint for Health. Sequence-1 Points re-generate and rebalance the ***Kathara Core*** first, creating more **lasting but less immediate changes** in the body

6 SEQUENCE 2 KATHARA POINTS

Revitalization of the Imprint for Health

Sequence-2 Kathara Points **CLOSE** energetic gate-ways within the **Kathara Lines** of the *Kathara Level-1 12-Tree Grid*, to direct restorative frequencies into the **outer levels of the Bio-energetic Field** for **revitalization** of the *Imprint for Health* within the physical cells. *Sequence-2 Points* are used to close the Kathara Lines **following** use of the *Sequence-1 Kathara Points* or other energy-healing applications, to close the Kathara Grid so revitalizing frequencies can directly enter various *outer levels* of the Bio-energetic Field, such as the **Auric Levels**, **Chakras**, **Meridians**, **DNA** and **physical cells.** Sequence-2 Points revitalize and rebalance the **outer levels of the Bio-energetic Field first, creating more immediate but temporary changes** in the body.

TECHNIQUE # 2

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

1. Close your eyes and visualize the image of a flat (2-dimensional line drawing) 6-Pointed Star of David (**The Merkaba Star**), made of **White Light**, stationed at the **6th-Chakra** on the *inside of the Forehead*. (If you cannot yet generate inner visualizations, simply imagine that the symbol is there). Continue to visualize or imagine and move the **White Merkaba Star** image over toward the **left** in your inner field of vision. In the *center* of your inner field of vision, visualize/imagine the image of *another Merkaba Star*, made of a **Dark Silver Light**. Observe or imagine the **2 Merkaba Stars** in your inner field of vision and then *slowly move* the images *toward each other* until they have merged into one *Merkaba Star* Symbol made of **Pale Silver Light**. (The *Pale Silver Double Merkaba Star Symbol* is called the **HIEROPHANT** – it is the scalar wave template that governs the release of phase-lock on the Maharic Shield.)

2. Visualize/imagine the Hierophant Symbol clearly in mind, then shift attention to the sound of your breath. Take several slow, deep breaths. On the next **EXHALE**, use the force of the breath to *forcefully push* the **Hierophant** down from its position at the 6th-Chakra, through the ***Central Body Current*** and into the **Earth's Core**. Take a few more slow breaths while visualizing/imagining the Hierophant Symbol in the center of the Earth's core. Imagine now that the Hierophant *begins to spin in the Earth's core*, the Dark Silver Merkaba Star and the White Merkaba Star spinning in *opposite directions*. Spin the Hierophant progressively faster until it "**takes on a life of its own**" and suddenly "**pops and expands**" to form a **Pale Silver Sphere of Light** *spinning in the Earth's core*.

3. Observe the Pale Silver Hierophant Sphere spinning in the Earth's core, then visualize/imagine that a **huge, horizontal Pale Silver spinning disc** emerges out from the Hierophant Sphere, forming a **massive Pale Silver Disc of Light** *spinning throughout the Earth and extending outward into the atmosphere* as a **rotating horizontal plane.**

This horizontal disc-plane, extending through the Earth, represents the *Mahara Hova Body*, or **Maharic Shield**, of the planetary morphogenetic field – the Pre-matter Liquid Light scalar grid composed of frequency from dimensions 10, 11 and 12 (known as the ***Shield of Aramatena***). Using the Hierophant wave template you have now activated the planetary Maharic Shield *opening the Planetary **Bio-feed Interface System®** into your bio-energetic field*. This constitutes opening your personal Kathara Grid and morphogenetic field into the Planetary Kathara Grid and morphogenetic field, allowing you to draw an *unlimited supply of energy* from the planetary field. You can draw in only as much as your personal morphogenetic field can hold. With repetition of this practice, the energy-holding capacity of your Kathara Grid progressively increases, allowing you a *continually expanding supply of energy* for healing and revitalization.

4. While remaining aware of the Planetary Arcturic Shield, spinning on a horizontal plane throughout the Earth's body, retain the focus of your attention on the spinning Silver Hierophant Sphere, rotating at Earth's core. (We will now use the Hierophant Sphere to activate your personal Mahatic Shield and release the 12th Dimensional Pillar of Light which you have energized. Take several slow, deep breaths, while visualizing/imagining the Hierophant Sphere spinning at Earth's core. On the next **INHALE**, draw the Hierophant Sphere up from Earth's core with the inhale breath, forming a Pale Silver Cord, about 6" thick, which feeds the Hierophant as it rises to the 12th Chakra, 6" beneath the feet. One end of the Silver Cord remains rooted in Earth's core, the other end is attached to the Hierophant Sphere and follows its movement. Visualize the 12th Chakra as a small, transparent disc, about 3" in diameter, positioned 6" below the feet. Stop the movement of the Hierophant in the center of the 12th Chakra, imagine the Sphere beginning to spin and visualize the diameter of the 12th Chakra disc expanding to about 6" in diameter as the Hierophant spins in the center. Take a few slow, deep breaths as the Hierophant spins in the center of the 12th Chakra.

5. On the next **INHALE** draw the Hierophant Sphere up from the 12th Chakra, through the Central Body Current and up to the 14th Chakra, 36" above the head. As the Hierophant Sphere rises, visualize the 6" thick Silver Cord drawing up through the 12th Chakra and farther up through the Central Body Current, following the path of the Hierophant Sphere to the 14th Chakra. Visualize the Silver Cord as a long, thick Pale Silver Cord of Light, running from Earth's core, through your body, and out the top of your head, connecting to the 14th Chakra, 36" above the head. Take several deep, slow breaths while imagining that you can feel the sensation of this massive current of clear, pure energy running through the center of your body.

6. On the next **EXHALE**, push the spinning Hierophant Sphere down through the Central Body Current, while leaving the top end of the Pale Silver Cord attached to the 14th Chakra, 36 above the head. Move the Hierophant down through the 12th Chakra, 6" below the feet and stop the Hierophant 6" below the 12th Chakra, a position about 12" below the feet. (We are the location of the Mahatic Shield within the morphogenetic field of the body. Breathe slowly and visualize the Hierophant spinning progressively faster, 12" beneath the feet, until the Hierophant "takes on a life of its own" and suddenly "pops and expands" to form an expanding horizontal disc of Pale Silver Light, spinning 12" beneath the feet. Feel the disc as a circular platform 3 yards in diameter, below feet.

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

7. Call to mind the image of the massive horizontal disc of Pale Silver Light, spinning through the Earth's body: the **Planetary Maharic Shield**. Imagine the sensation of the large, spinning Pale Silver platform disc spinning 12" beneath your feet: your **personal Maharic Shield**. Breathe slowly and deeply while visualizing/imagining a massive rush of pure, cool Pale Silver energy running from the planetary *Maharic Shield*, up through the Pale Silver Cord and into the personal *Maharic Shield* 12" beneath your feet. Breathe as this energy runs filling your *Maharic Shield* to its energy-holding capacity. When your *Maharic Shield* has received as much Pale Silver energy as it can hold, it will "take on a life of its own" and suddenly "pop and expand" upward into an oscillating Pale Silver Pillar of Light, surrounding and permeating the body, a tube of light, extending beyond the body about 18" and running from Earth's Core to the 14th Chakra 36" above the head. Feel the reality of your body encased in the cool, refreshing Pale Silver Pillar of oscillating light. Take a few slow, deep breaths and imagine the energy from the Pillar surrounding through all of your body cells. Your bio-energetic field is now similar to a protective barrier of 19,072 – Dimensional Frequency – the *Maharic Seal*.

8. As the Pale Silver Pillar of Light oscillates around you, place your attention, for a moment, at the 12th Chakra – Earth's core and **INHALE** a fine Spark of Pale Silver Light from Earth's core, drawing the Spark up through the Pale Silver Cord, into the **Main Vertical Channel of the Kathara Grid** and into the center of the 4th Heart Chakra. Breathe slowly and easily while visualizing energy from the Silver Spark radiating throughout the embodied 12-Tree Grid, filling it with Pale Silver Light. When the Kathara Grid has reached its energy-holding capacity, the 12th Chakra will automatically contract to decrease the flow of Silver Light from the Earth's core. As the 12th Chakra contracts, the Planetary Maharic Shield stops spinning and transmitting energy through the Silver Cord, returning the Silver Cord to its dormant state. The ***Maharic Seal*** Pale Silver Pillar of Light will remain in your bio-energetic field between 12-14 hours. Over a 3-month period of frequent, consistent daily practice of this process, the Maharic Seal will self-sustain in the bio-energetic field for 12-14 hours.

Feel the reality of your body encased in the cool, refreshing Pale Silver Pillar of oscillating light. Take a few slow, deep breaths and imagine the energy from the Pillar surrounding through all of your body cells. Your bio-energetic field is now similar to a protective barrier of 19,072 – Dimensional Frequency – the *Maharic Seal*.

8. As the Pale Silver Pillar of Light oscillates around you, place your attention, for a moment, at the 12th Chakra – Earth's core and **INHALE** a fine Spark of Pale Silver Light from Earth's core, drawing the Spark up through the Pale Silver Cord, into the **Main Vertical Channel of the Kathara Grid** and into the center of the 4th Heart Chakra. Breathe slowly and easily while visualizing energy from the Silver Spark radiating throughout the embodied 12-Tree Grid, filling it with Pale Silver Light. When the Kathara Grid has reached its energy-holding capacity, the 12th Chakra will automatically contract to decrease the flow of Silver Light from the Earth's core. As the 12th Chakra contracts, the Planetary Maharic Shield stops spinning and transmitting energy through the Silver Cord, returning the Silver Cord to its dormant state. The ***Maharic Seal*** Pale Silver Pillar of Light will remain in your bio-energetic field between 12-14 hours. Over a 3-month period of frequent, consistent daily practice of this process, the Maharic Seal will self-sustain in the bio-energetic field for 12-14 hours.

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

7. Call to mind the image of the massive horizontal disc of Pale Silver Light, spinning through its Earth's body: the **Planetary Maharic Shield**. Imagine the sensation of the large, spinning Pale Silver platform disc spinning 12" beneath your feet: your **personal Maharic Shield**. Breathe slowly and deeply while visualizing/imagining a massive rush of pure, cool Pale Silver energy running from the planetary *Maharic Shield*, up through the Pale Silver Cord and into the personal *Maharic Shield* 12" beneath your feet. Breathe as this energy runs filling your *Maharic Shield* to its energy-holding capacity. When your *Maharic Shield* has received as much Pale Silver energy as it can hold, it will "take on a life of its own" and suddenly "pop and expand" upward into an oscillating Pale Silver Pillar of Light, surrounding and permeating the body, a tube of light, extending beyond the body about 18" and running from Earth's Core to the 14th Chakra 36" above the head. Feel the reality of your body encased in the cool, refreshing Pale Silver Pillar of oscillating light. Take a few slow, deep breaths and imagine the energy from the Pillar surrounding through all of your body cells. Your bio-energetic field is now similar to a protective barrier of 19,072 – Dimensional Frequency – the *Maharic Seal*.

TECHNIQUE # 2B: THE MAHARIC QUICK SEAL

Work with a 24 number, 3 Dimensional Star (Hexagram) and the above technique will be working with beings known as the Shemsu Hor)

1. Begin by slowing your breathing, as you imagine a vibrational 24-point, 3-Dimensional Hexagram at the Personal Chakra in the center of your body. Visualize the Hexagram surrounded by a Pale Blue Sphere of Light.

   (The Blue Sphere serves as a buffer for your nervous system to accept the frequencies associated with using the 24-Pointed Star. The Blue Sphere limits the energy for you until your body can handle the energy. If you can handle it, the energy will simply pass through the blue sphere.)

2. INHALE as if you are going to grab the blue sphere containing the 24-pointed star located at the Personal, and on the EXHALE move the 24-point star/blue sphere all the way down to Earth's Core. Try to have a second time as the Hexagram/Sphere hits the Planetary Shield.

3. INHALE and draw the Hexagram/Sphere up to your Personal Mahanic Shield, 12" below your feet, and EXHALE while watching the Pale Silver-Blue Sphere expand out to a large sphere. See yourself in your Mahanic Shield repeating the above steps. Feel Silver and the light coming off Pale Blue.

4. Bring your attention to the center of your Mahanic Shield. 12" below your feet, and INHALE the 24-pointed Star (and) up into the Heart Chakra. EXHALE expanding the frequencies of the 24-pointed Star into the Heart Chakra.

5. INHALE as you draw the power star and the EXHALE, pushing the star out into the 12th Chakra, 36" above the head, bringing the 24-pointed Star to spinning in a clockwise direction in the 12th Chakra. As you do this, try to feel/see the energy around you, just a few inches off from your body.

   Now, put your attention into your Mahanic Shield, 12" below your feet, take a couple of relaxing breaths and INHALE deeply, pulling the Pale Silver and Blue energy up, as if you are pulling on your Mahanic Shield to bring it up to your 12th Chakra. Try and feel the connection between your body and the Mahanic Shield. The difference if you can. This procedure gives you a Quick Seal.

6. Now envision the word of Pale Silver Mahanic Light that would normally come up with your Shield and focus on the Earth's Core. Begin drawing energy of the energy up the 4" diameter cord and into the body. INHALE the energy up into the Heart Chakra and expand it there. Begin to see a Pale Silver ball of Mahanic frequency.

   As each INHALE and your energy down to the Earth's Core is bringing up another load of Mahanic frequency, up from the Planetary Shield, Expand it into the Heart center and expand several times. Notice that the Cord grows larger as you do this, expanding from approximately 4" to 6" to 8" in diameter, and finally it feels like a column and (as well as solidify) your body as you load your Astral Field with Mahanic Frequency.

8. Move your attention to the Pale Silver ball you have created in your Heart Center. INHALE and move it up to the 12th Chakra, 36" above your head. As you do, feel the Pale Silver Ball of Mahanic Frequency knocking your whole body, down to your chi. (The Mahanic Christos and changes and activates your whole body and the personal aura and all-knowing nature of this frequency).

The Planetary Bio-Feed Interface System and the Melkaric Seal

Use of the Melkaric Seal and Violet Light Chamber begins the process of activating the 9th through 12th Chakras and opening the natural PLANETARY BIO-FEED INTERFACE SYSTEM (PBIS) within the human body. Through the PBIS, the finite quantity of solar frequency of which the personal Melkaric Shield, Planetary Shields and Melkaric Seal are comprised expands to infinite potential as the Planetary Scalar Shields can access higher dimensional Crystal Seals within the Scalar Shields of the personal Level-3 Kalkara Grid. Once activated through the 12th Chakra, the PBIS opens a conduit of perpetual energetic supply between the human body and the planetary Morphogenetic Field, allowing the body to continually draw in as much higher dimensional frequency as the DNA Template can hold.

With the PBIS activated, the human body can also become a tool for reprogramming and rebalancing the Planetary Shields, Vortices, Ley Lines and energetic grids of the Planetary Template Complex. When the Crystal Seals of the personal Shields are released, the human DNA Template can serve as a bio-electric conduit for raising higher dimensional frequency into the Planetary Shields. The human body, with its 12-Strand DNA Template potential, is the only mechanism on Earth known to the Planetary Shields themselves, that is capable of running a full 12th-Dimensional Melkaric Current. Just as the Melkaric Current can be used to purge distortions within the human Manifestation Template, so can it be used to purge distortions within the Planetary Shields. In essence, the Planetary Template Complex is the original Prime Order Harmonic Frequency which governs the capacity for miracles as well as healing in other biological life forms, it is also the human potential to facilitate healing within the geophysical planetary body.

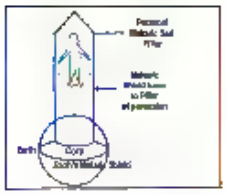
The Mahavic Seal and Chart Sequence

Through understanding the Context of Healing. The Structure of the Unified Field, the Elements of Healing. The Anatomy of the Human Body Ketheric Grid and Ketheric Healing Engineering Applications - Morphogenetic Engineering through the Mahavic Seal and Liquid Light Cleanse and Activation the Master Template to 12th Dimensional awareness the Ketheric Healing Facilitator has developed the rudimentary skills necessary to begin personal Core Holographic Template Healing. To effectively facilitate Core Template healing in others it is important for Ketheric Facilitators themselves to employ personal Template Healing.

The ability to tune the 12th-Dimensional Mahavic frequency sub-harmonics (the 12th-sub-frequency band within each of the 144 Dimensional fragment bands) in order to assist in the transmission of a client for healing support and access the Incubator allows the Mahavic Seal and Liquid Light Cleanse technique for personal healing. The Mahavic Seal and Liquid Light Cleanse technique not only increases the facilitator's ability to transmit 12th-Dimensional frequency sub-harmonics, it also temporarily realigns distortions such as the facilitator's bio-energetic field and Ketheric Grid and creates a temporary 12th-Dimensional Matrix Frequency that when the facilitator's bio-energetic field is attuned use of the Mahavic Seal, the facilitator will inadvertently transmit bio-energetic field and Ketheric Grid distortions to the client and will energetically pick up similar distortions including part of the "Karmic Miasmic imprint from the client. This problem occurs in all subtle-energy healing modalities that do not employ the Mahavic Seal. Both of these conditions serve to amplify other than energy disease and discomfort within the mind-body-spirit system for both facilitator and client. For these reasons the Mahavic Seal and Liquid Light Cleanse technique needs to be employed prior to ANY healing facilitation work to protect the bio-energetic field integrity of the Healer and client. The Mahavic Seal and Liquid Light Cleanse technique represents the facilitator's preliminary preparation prior to Ketheric Healing Facilitation Client Sessions.

Safety in Healing Facilitation!



The Mahavic Seal and Liquid Light Cleanse technique, used as facilitator preparation prior to Client Sessions, protects facilitator and client from taking on bio-energetic field distortions from each other. Without this preliminary protection any Ketheric Healing application and is needed to effectively run interdimensional healing sessions.

The final phase of education necessary before engaging the adventure of Kathara Healing Client Facilitation is rediscovering the structure of personal Multi-dimensional Identity and how to use the personal Nova Bodies to tap the higher dimensional scalar frequencies for enhanced healing facilitation ability. The ability to understand and utilize the PRECISE HEALING CURRENTS of the Interdimensional spectrum adds greater power and skill to the healing facilitation process. Unlike many other energy healing systems, Level-1 Kathara Healing trains the facilitator to identify, monitor, refine the tool and employ a client service specific combinations of Interdimensional healing current that fine-tune and amplify the beneficial effects of subtle energy healing.

This chapter will conclude with an overview of the 4 PRIMARY TRIADIC HEALING CURRENTS. 4 of the 5 3-Dimensional Primal Energy Currents that can be awakened within the body through activation of the Misharic Shield.

The natural Primal Triadic Healing Currents which exist naturally as part of the personal Nova Body, Scalar Shield and Kathara Grid anatomy, create powerful, effective and user-friendly energetic healing tools when combined with the 12-Dimensional frequencies of the Misharic Shield. Running the Triadic currents is achieved by using the current to first activate the frequencies of the corresponding Nova Body and station of awareness within the personal Scalar Shields and DNA Template.

Once activated in the DNA Template, the Nova Body is used to draw a perpetual supply of the desired current from the Dimensional Unified Field corresponding to the chosen current. Running the Triadic Currents requires activation of the corresponding frequencies within the facilitator's DNA Template, thus using the Triadic Currents in Client facilitation also serves to progressively stimulate and expedite activation of dormant frequencies in the facilitator's DNA Template. Using the Triadic Currents in client facilitation serves to accelerate the processes of Holographic Recoding, higher Identity Nova Body integration and multi-dimensional evolution within the Body-Mind-Spirit system of the facilitator, as well as that of the client, creating a condition of CO-GENERATIVE HEALING between client and facilitator.

The ability to understand and utilize the PRECISE HEALING CURRENTS of the Interdimensional spectrum adds greater power and skill to the healing facilitation process. Unlike many other energy healing systems, Level-1 Kathara Healing trains the facilitator to identify, monitor, refine the tool and employ a client service specific combinations of Interdimensional healing current that fine-tune and amplify the beneficial effects of subtle energy healing.

This chapter will conclude with an overview of the 4 PRIMARY TRIADIC HEALING CURRENTS. 4 of the 5 3-Dimensional Primal Energy Currents that can be awakened within the body through activation of the Misharic Shield.

The natural Primal Triadic Healing Currents which exist naturally as part of the personal Nova Body, Scalar Shield and Kathara Grid anatomy, create powerful, effective and user-friendly energetic healing tools when combined with the 12-Dimensional frequencies of the Misharic Shield. Running the Triadic currents is achieved by using the current to first activate the frequencies of the corresponding Nova Body and station of awareness within the personal Scalar Shields and DNA Template.

Once activated in the DNA Template, the Nova Body is used to draw a perpetual supply of the desired current from the Dimensional Unified Field corresponding to the chosen current. Running the Triadic Currents requires activation of the corresponding frequencies within the facilitator's DNA Template, thus using the Triadic Currents in Client facilitation also serves to progressively stimulate and expedite activation of dormant frequencies in the facilitator's DNA Template. Using the Triadic Currents in client facilitation serves to accelerate the processes of Holographic Recoding, higher Identity Nova Body integration and multi-dimensional evolution within the Body-Mind-Spirit system of the facilitator, as well as that of the client, creating a condition of CO-GENERATIVE HEALING between client and facilitator.

CO-GENERATIVE HEALING

The final phase of education necessary before engaging the adventure of Kathara Healing Client Facilitation is rediscovering the structure of personal Multi-dimensional Identity and how to use the personal Nova Bodies to tap the higher dimensional scalar frequencies for enhanced healing facilitation ability. The ability to understand and utilize the PRECISE HEALING CURRENTS of the Interdimensional spectrum adds greater power and skill to the healing facilitation process. Unlike many other energy healing systems, Level-1 Kathara Healing trains the facilitator to identify, monitor, refine the tool and employ a client service specific combinations of Interdimensional healing current that fine-tune and amplify the beneficial effects of subtle energy healing.

Healing, Evolution and Ascension

In the Kathara Healing paradigm, the art and science of healing the Body-Mind-Spirit System is viewed in terms of the human relationship to the natural structure and dynamics of creation. Healing becomes a necessity when the intrinsic energetic systems and scalar-wave constructions of consciousness, upon which the biological manifestation is built, become incongruent with the natural Primal Order of the dimensionalized Time Matrix system. The processes of natural healing and hidden organic functions of human evolution are intimately intertwined. Conditions that facilitate natural healing also facilitate fulfillment of the naturally intended course of human evolution, while conditions detrimental to Body-Mind-Spirit health are likewise detrimental to the evolutionary objectives of both the individual and the species.

The processes by which lasting healing occurs through re-genesis of Primal Order within the Scalar Shields and personal anatomy, are the same processes by which the CONSCIOUSNESS evolves to the fulfillment of Spiritual Actualization, through embodiment of the dimensions of consciousness inherent to the human DNA Template design. The genetic code of the biological imprint is built upon the Scalar-wave Templates of Consciousness that serve to bind the identity as energetic substance into physical embodiment. Distortions within the physical manifestation indicate distortions in the Manifestation Template and thus constitute distortions in CONSCIOUSNESS. Genuine healing is a FUNCTION OF CONSCIOUSNESS, itself, and it is through realignment of consciousness itself that all healing can occur.

In the Kathara program, it is understood that biology and consciousness are intimately intertwined and thus interdependent. The techniques of Bio-Regenesis provided in Kathara Healing assist in the processes of restoring the Organic Imprint for Health while simultaneously serving to expedite the natural processes of interdimensional evolution through DNA Template, Kundalini Crystal Seals and Merkaba activation. Human evolution is not a random, goal-less occurrence, it is rather an ordered system of interdimensional physics dynamics by which human consciousness progressively masters the contours of creation in time. The evolutionary objective of human creation is mastery which is progressively attained through the dynamics of Transmutational Dimensional Ascension. Ascension is therefore the intrinsic and indelible goal within human evolution, the hidden impetus for action that moves the human species forward in time.

Healing and Bio-Spiritual Evolution

When we begin raising the higher dimensional frequencies of the 4 Primary Triadic Currents for Kathara Healing applications we are, in truth, raising FREQUENCIES OF CONSCIOUSNESS, that emanate from the Nova Bodies, in which the expanded spiritual portions of our personal identity are contained. As we reawaken the higher dimensional frequencies of consciousness within the DNA Template, we are progressively accessing the reintegration of personal Multi-dimensional Identity, serving the spiritual goal of Ascension through stimulating and activating the scientific dynamics of Unified Field Physics by which genuine Ascension occurs. Kathara Healing progressively restores the functions of universal physics dynamics within the human body, as they apply to the pathway of Ascension and so Kathara Healing applications are considered to be processes of ACCELERATED BIO-SPIRITUAL EVOLUTION, as well as processes of holistic Body-Mind-Spirit healing. Both facilitator and client simultaneously receive the subtle but progressive benefits of evolutionary consciousness and spiritual development through Kathara Healing Bio-Resonance Technologies. The ultimate goal of Ascension through Kathara Healing is the expansion of personal consciousness into the higher dimensional aspects of spiritual awareness itself.

Kathara practices serve to stimulate progressive integration and embodiment of the Multi-dimensional Identity by activation of dormant portions of the DNA Template, through which the multi-wave patterns of the higher frequencies of identity can enter the physical form. As spiritual advancement through Nova Body integration and DNA Template activation is a beneficial "side effect" of Kathara Healing practice, it is helpful to understand the principles of Multi-dimensional Identity Structure. It is also helpful to realize that the Unified Field of Energy utilized in Kathara Healing is, in fact, a UNIFIED FIELD OF CONSCIOUSNESS. Healing is a fundamental energy dynamic that is the substance consciousness adapts to experience manifestation. Thus HEALING IS A FUNCTION OF CONSCIOUSNESS. When personal consciousness is applied in ways that are congruent with the natural Laws of Unified Field Physics, the effects of healing and well-being are real and measurable.

MULTI-DIMENSIONAL IDENTITY STRUCTURE

Consciousness and the Physical Realm

In Chapter [illegible] we explored the Structure of the Unified Field and discovered the morphogenetic framework, or Holographic Template, upon which matter systems are constructed. We learned how the structure of dimensionalization applies to the anatomy of the 13-Dimensional Human body, from the Core Template, Kathara Grid, the Nova Bodies and Shields, to the Chakras, Bio-energetic Field and physical matter structures built upon them. We also discovered that physical manifestation is not what it appears to be – that nothing is really manifested at all but only appears to be so due to the relationships of compartmentalized consciousness interacting with each other through the framework of dimensionalization. Our physical body and our material world are solely mind constructions, appearing solid and objectified because we ourselves, at a level of consciousness that is stationed one full dimension above the waveforms we perceive as solid and objectified. Our consciousness structures exist into the space-time forms of dimensionality in order for us to perceive the illusion of manifestation. There is no difference, other than the dimensional frequencies from which one is perceiving, between the substances that composes physical matter and that which composes our seemingly non-manifest portions of consciousness. The core of reality is CONSCIOUSNESS. It is the energetic substance out of which all things are made.

Nova Bodies—Platforms of Perception

In this Section we will learn how the attributes of mind and sentient identity fit into the multidimensional anatomy of human consciousness. The scalar grids of the Nova Bodies and Shields that hold portions of our consciousness separate from each other so we may experience objectification, can be understood as PLATFORMS OF PERCEPTION. A portion of our conscious identity is stationed within each of the Nova Body Shields and this consciousness contained within the Shield becomes the platform from which that portion of our selves will perceive matter objectification. We are simultaneously focused within each Nova Body Platform of Perception, and this gives us expanded but interrelated stations of identity and different LEVELS OF MIND from which we simultaneously perceive. The amount of perception we are able to incorporate into our embodied focus on Earth is determined by the level of Higher Identity Integration that has occurred. Integration of Higher Identity in the energies of the Nova Bodies, which creates changes and advancements in the biological gene code that allow the neurological and metabolic functions of the body to expand.

Presently, we are accustomed to perceiving from the Platform of Perception provided by the NADA NOVA BODY, the scalar grid that houses the 1st, 2nd and 3rd Dimensional Aspects of our identity and destiny. While perceiving from the Nada Nova Body and the TELLURIC SHIELD that holds its form, we are functioning as a 3-Dimensional consciousness and will not be aware of the perceptions of the other levels of ourselves that are perceiving from the Platforms of Perception from the other Nova Bodies. As we expand and evolve, we will progressively incorporate the portions of our awareness stationed in the other Nova Bodies into our Earthly focus of attention.

THE 4 PRIMARY TRIADIC HEALING CURRENTS

Hara Bodies and the 4 Primary Triadic Currents

Each of the Hara Bodies and Shields contains a portion of your energy-identity that exists in the form of electro-coral impulse known as Partial Phasing. The energy of your higher stations of identity, and that of the Universal Unified Fields of Consciousness-Energy can be drawn into the Nada Hara Body and earthly incarnate identity, for the purpose of healing facilitation. There are four Primary Triadic Healing Currents, each corresponding to one of the four higher dimensional Hara Bodies. Through your corresponding Hara Body station you can draw energy from the higher dimensional Unified Fields and channel it into your Nada Hara Body for direction into healing within the BIC Hara Fields. The 4 Primary Healing Currents are HARMONIC CURRENTS OF ENERGY, each composed of 3 Dimensions of Frequency. Each Dimensional Band, with a Harmonic or TRIADIC current, is referred to as a PHASE of that current. In Kathara Healing, we develop the ability to activate each progressive PHASE of each TRIADIC CURRENT through grounding the current into the body via the activated MAHARIC SHIELD.

Triadic Currents and Color

Each Phase of Triadic Current corresponds to a wave length in the dimensional spectrum that appears as COLOR to the embodied human mind. In directing the Triadic Currents we therefore use the color translation of that primary dimension wave spectrum to differentiate between Phases of current for various applications. The first current to be activated in Kathara Healing is the DORADIC CURRENT. The frequencies drawn in from Harmonic 2, through the Deradic Shield and Alpha Hara Body. The Deradic Current has 3 Phases: Phase-1: 4th Dimensional current GREEN wave, Phase-2: 5th Dimensional Current BLUE wave and Phase-3: 6th Dimensional Current Blue-Violet wave. In Level-1 Kathara Healing we learn to activate and run the Phase-1 Green Deradic Current.

Each Phase of Triadic Current corresponds to a wave length in the dimensional spectrum that appears as COLOR to the embodied human mind. In directing the Triadic Currents we therefore use the color translation of that primary dimension wave spectrum to differentiate between Phases of current for various applications. The first current to be activated in Kathara Healing is the DORADIC CURRENT. The frequencies drawn in from Harmonic 2, through the Deradic Shield and Alpha Hara Body. The Deradic Current has 3 Phases: Phase-1: 4th Dimensional current GREEN wave, Phase-2: 5th Dimensional Current BLUE wave and Phase-3: 6th Dimensional Current Blue-Violet wave. In Level-1 Kathara Healing we learn to activate and run the Phase-1 Green Deradic Current.

THE 4 PRIMARY TRIADIC HEALING CURRENTS

Hara Bodies and the 4 Primary Triadic Currents

Each of the Hara Bodies and Shields contains a portion of your energy-identity that exists in the form of electro-coral impulse known as Partial Phasing. The energy of your higher stations of identity, and that of the Universal Unified Fields of Consciousness-Energy can be drawn into the Nada Hara Body and earthly incarnate identity, for the purpose of healing facilitation. There are four Primary Triadic Healing Currents, each corresponding to one of the four higher dimensional Hara Bodies. Through your corresponding Hara Body station you can draw energy from the higher dimensional Unified Fields and channel it into your Nada Hara Body for direction into healing within the BIC Hara Fields. The 4 Primary Healing Currents are HARMONIC CURRENTS OF ENERGY, each composed of 3 Dimensions of Frequency. Each Dimensional Band, with a Harmonic or TRIADIC current, is referred to as a PHASE of that current. In Kathara Healing, we develop the ability to activate each progressive PHASE of each TRIADIC CURRENT through grounding the current into the body via the activated MAHARIC SHIELD.

Triadic Currents and Color

Each Phase of Triadic Current corresponds to a wave length in the dimensional spectrum that appears as COLOR to the embodied human mind. In directing the Triadic Currents we therefore use the color translation of that primary dimension wave spectrum to differentiate between Phases of current for various applications. The first current to be activated in Kathara Healing is the DORADIC CURRENT. The frequencies drawn in from Harmonic 2, through the Deradic Shield and Alpha Hara Body. The Deradic Current has 3 Phases: Phase-1: 4th Dimensional current GREEN wave, Phase-2: 5th Dimensional Current BLUE wave and Phase-3: 6th Dimensional Current Blue-Violet wave. In Level-1 Kathara Healing we learn to activate and run the Phase-1 Green Deradic Current.

In Level-1 Kathara Healing we begin preparing the body and DNA Templates to receive the higher dimensional Phase Currents by initiating transmissions of the Deradic Phase-1 Healing Current - the Pale Silver - Green - Violet frequencies of dimensions 0, 1, and 2.

Through the 7th Dimensional aspect of the Tauric Shield and 7th and 12th Dimensional aspects of the Maharic Shield, the Deradic-1 Healing Current allows for recoding and realignment of the 1st - 4th Dimensional aspects of the Medial and Alpha Hara Bodies, the Telluric Shield and Physical, Emotional and Mental bodies. As Level-1 Kathara Healing progresses, the Deradic-1 Healing Current allows for the 1st - 4th DNA Strand Templates, the 1st - 4th Chakras and the 1st - 4th Sub-dimensions of all Solar Shield DNA Templates, Hara Bodies and Chakras. Overall - Healing Current is effective in clearing the Karmic-Blueprints imprinted from the Density-3 Time Cycle incarnations and the beginning of Density-4 Time Cycle incarnations.

CHAPTER 3 HIGHLIGHTS

KATHARA BEGINNING APPLICATIONS

- The **Hova Bodies** of personal anatomy contain portions of our higher dimensional awareness. One can begin accessing this awareness by building a **Perceptual Bridge** between the 3-Dimensional Self and higher identity aspects.

- Taking conscious initiative in building a Perceptual Bridge expedites **DNA Template** activation and the organic evolutionary process.

- The **MENTOR Technique** assists in building the Perceptual Bridge and activates dormant **Kathara Lines in our Level-1 Kathara Grid** to open communication between our D3 and Density-2, D4 and D5 levels of awareness.

- The Mentor is a part of our awareness that is composed of 3rd 4th and 5th **Dimensional frequencies** of consciousness, which exists as a quantity of **Scalar Wave patterns** that span **Densities 1 and 2**.
- The **Mentor Focus** will be used in **Kathara Healing** for **guidance**, **information retrieval** and **objective observation**. It can also be used to access **Cellular Memory** and in "Inner Child" **Bi-location**, **Remote Viewing** and **Dream** work.

MORPHOGENETIC REPATTERNING AND THE MAHARIC SHIELD

- Through a process called **Morphogenetic Repatterning**, Kathara Healing affects the **Core** of Dis-ease and dis-harmony in the Body-Mind-Spirit system by **repatterning** the Scalar-wave Programs in the personal **Holographic Template** to their original **Primal Order**
- In **Level-1 Kathara Healing** we learn the **MAHARIC RECODING PROCESS** the most important level of Holographic Template realignment.
- The **Maharic Shield** is the 3-Dimensional Scalar Grid corresponding to the **10th, 11th and 12th – Dimensional Frequencies** of **Density-4**. It represents the **Original Point of Manifestation** and holds our original "Liquid Light" **Hydroplasmic Pre-matter Creation Imprint**, which is the **Organic Imprint for Health**

THE MAHARIC SEAL AND LIQUID LIGHT CLEANSE

- In bio-energetic healing, **Level-1 Kathara Grid** distortions override realignments made to the **outer levels** of the bio-fields alone. For **lasting healing** to occur, Level-1 Kathara Grid distortions must be realigned.

- The **Maharic Shield** and **Liquid Light Cleanse** technique is used to restore distorted **Partiki Phasing Sequences** and **Scalar wave arrangements** within the **3 Levels of the Kathara Grid** and **Scalar Shields**.
- Realignment will be **temporary** until the Kathara Grid reaches **'Critical Mass'** of energy in the new, realigned pattern.

THE MAHARIC SEAL, PBIS AND HEALING

- Use of the **Maharic Seal** and **Liquid Light Cleanse** technique begins activation of dormant **Chakras 8-12** and the **Planetary Bio-feed Interface System (PBIS).**

DORADIC-PHASE-1 CURRENT

Interdimensional Currents and Signet Star Crystal Seals

Activation of any **Triadic Healing Current** requires temporary release of the corresponding **Signet Star Crystal Seals** within the personal **Scalar Shield** and a temporary activation of the portions of the dormant **12-Strand DNA Template** that correspond to the Signet Seals. Signet Seals modulate the flow of frequency between the 3-Dimensional Harmonic Density Levels. When Signet Seals are in their usual (for this time period) dormant phase, they keep the **5 Hova Bodies** of the personal 15-Dimensional anatomy separate from each other by creating an electro-magnetic barrier or **Magnetic Repulsion Zone** between each 3-Dimensional level of the energetic anatomy. This *Magnetic Repulsion Zone* between embodied **Harmonics of Manifestation** manifests as **polarity resistance to frequency inflow** within the **three** levels of the Kathara Grid, the Scalar Shields, Axi-A-Tonal Lines, Chakras and Auric Field levels of the embodied **Inner Templar Complex**. **In order to run higher dimensional frequency currents through the physical body for healing applications, it is necessary to temporarily release portions of the Magnetic Repulsion Zones between the Hova Bodies**. Releasing the electro-magnetic resistance to higher dimensional frequency inflow within the Inner Templar Complex is achieved through temporary activation of the **Signet Seals** within the **Kathara Level-2 Crystal Seal Grid** of the personal **Scalar Shields**.

Most contemporary energetic healing systems rely upon using the 1st, 2nd and 3rd-Dimensional frequencies of the **TELLURIC PHASE CURRENTS** in the **Nada Hova Body**. Through the Nada Hova Body alone, only the 3-Dimensional **Sub-Harmonics** of higher dimensional frequency currents can be run, as the dormant *Signet Seals* block the faster-moving *Partiki Phasing Flash-line Sequences* of higher dimensional frequency bands from running through the DNA Template. **If a frequency band is blocked from running through the DNA Template, that frequency cannot be energetically transmitted through the Nada Hova Body and physical bio-electrical systems**. In **conventional energy healing methods**, even those emerging from ancient systems of subtle-energy healing, the **Signet Seals** and thus the *Scalar Shields*, *Hova Bodies* and *DNA Template*, remain dormant in their usually **closed** position, **phase-locked** into a 3-Dimensional orientation. While the DNA Template remains phase-locked into the 3-Dimensional orientation of the Nada Hova Body, only the **1st through 12th Sub-frequency bands** (Sub-Harmonics) of **1st through 3rd Dimensional Current** (Telluric Current), and the **1st through 3rd Sub-frequency bands of 4th through 12th-Dimensional Current** can be run through the human body for transmission. Use of the lower frequency (slower Partiki Phasing rhythm) **Telluric Currents** can affect **temporary** beneficial change in the **outer layers** of the bio-energetic field, but Telluric Currents alone cannot facilitate full repatterning of the **3 Levels of the Kathara Grid** where **Scalar Shield** distortions that **cause genetic malfunction** are embedded. The **11th-12th-Dimensional frequencies** of the Pre-matter Hydroplasmic **Maharic Currents** are the only dimensional frequencies powerful enough to affect change in the embodied **Kathara Grid**. To run **Maharic Current**, and the high frequency interdimensional **Triadic Phase Currents**, through the human body, requires release of the **Signet Seals** with the personal **Scalar Shields**.

Triadic Phase Currents, the Galactic Shield and the AFSB

Most healing systems have not incorporated the Michaelic Current into their frequency application procedures because the Planetary Templar Complex has not been able to run a 12-72 Michaelic Current through the planetary grids for 311,296 years. Like the human DNA Templates, the Planetary Shields are also dormant. Templar and Nuclear Inner processing must be activated in order for the Planetary Shields and Templar Complex to be activated. Templar and Nuclear Inner processing must be activated in order for the Planetary Shields and Templar Complex to be activated. The Signet Star Crystal Seals (Star Gates) in the Planetary Shields are dormant, closed and under Access and Density restrictions, so the cosmic signals will be able to flow and use personal frequency into your personal Shields because the frequency is unavailable within the Planetary Shields. The personal and planetary Templar Complexes are extremely interactive, and what affects one will inevitably affect the other.

In order to run the full spectrum of interdimensional Triadic Phase Currents through the human body, it is necessary to open the Signet Seals in the personal Inner Templar and the Signet Star Gates in the Planetary Templar Complex. In conventional human evolution, the Internal Signet Seals were set to be activated over a long period of time. During the slow activation of the Cosmic Time Codes, the conscious ability to experience passage through numerous incarnations in cause-within-time planetary Time-Cycle evolution through a series of Single Vector incarnations before being released from the 3-Dimensional space-lock of Density manifestation. One can manually open the Signet Seals in the embodied Inner Templar Complex to expedite evolution into the Multi-dimensional, Multi-Vector Time Cycles through use of the 11th-12th-Dimensional Michaelic Current.

Activation of the personal Michaelic Shield allows for rapid release of the embodied Signet Seals and activation of the Five Codes in the DNA Template. The Michaelic Current from the personal Michaelic Shield can be used to release the Signet Star Crystal Seals within the body, which in turn activates the dormant Kundalini energies of the base of the spine and the Crystal-Sacral-Kundalini Seals within the Tailbone and Pineal Gland. Release of the Cosmic-Sacral Seals of the Internal Templar Complex allows the Magnetic Repulsion Zones between the Nova Bodies to release as the DNA Template, personal Solar Shields and physical body systems can receive influx of higher dimensional frequency. To gain conscious mastery over the process of releasing the internal Signet Seals, requires activation of the personal Michaelic Shield and the personal Michaelic Shield can be manually activated only through allowing Michaelic Current into the personal Shields of the Planetary Michaelic Shield. The entire process of releasing the internal Signet Seals by activating the personal Michaelic Shield, in order to enable the DNA Templates to run Triadic Phase Currents for healing, is entirely dependent upon the operational function of the Planetary Blocked Interface System (PBIS).

If the Planetary Templar Complex is blocked or the Signet Star Gates are dormant, and Michaelic Current from the Planetary Michaelic Shield is not able to run through the planetary grids, humans on Earth do not have the option of manually activating the personal Michaelic Shield because the PBIS is not operational. The PBIS becomes operationally functional within the Lemurian body through activation of the 12th Chakra. The 12th Chakra connects activation to the ancient Temple Complex in the Planetary Templar Complex known as the 12th-Dimensional Michaelic frequency, for over 300,000 years. The Planetary Templar Complex could not run Michaelic frequency, and thus manual activation of the personal Michaelic Shield and release of the embodied Signet Seals to open the Nova Bodies or among interdimensional Triadic Phase Currents for healing were not available options for Earth humanity. Since the recent activation of the Planetary Templar Complex, Michaelic Shield and PBIS activation and Ruthiana Healing applications are now available on Earth.

Activation of the personal Michaelic Shield allows for rapid release of the embodied Signet Seals and activation of the Five Codes in the DNA Template. The Michaelic Current from the personal Michaelic Shield can be used to release the Signet Star Crystal Seals within the body, which in turn activates the dormant Kundalini energies of the base of the spine and the Crystal-Sacral-Kundalini Seals within the Tailbone and Pineal Gland. Release of the Cosmic-Sacral Seals of the Internal Templar Complex allows the Magnetic Repulsion Zones between the Nova Bodies to release as the DNA Template, personal Solar Shields and physical body systems can receive influx of higher dimensional frequency. To gain conscious mastery over the process of releasing the internal Signet Seals, requires activation of the personal Michaelic Shield and the personal Michaelic Shield can be manually activated only through allowing Michaelic Current into the personal Shields of the Planetary Michaelic Shield. The entire process of releasing the internal Signet Seals by activating the personal Michaelic Shield, in order to enable the DNA Templates to run Triadic Phase Currents for healing, is entirely dependent upon the operational function of the Planetary Blocked Interface System (PBIS).

If the Planetary Templar Complex is blocked or the Signet Star Gates are dormant, and Michaelic Current from the Planetary Michaelic Shield is not able to run through the planetary grids, humans on Earth do not have the option of manually activating the personal Michaelic Shield because the PBIS is not operational. The PBIS becomes operationally functional within the Lemurian body through activation of the 12th Chakra. The 12th Chakra connects activation to the ancient Temple Complex in the Planetary Templar Complex known as the 12th-Dimensional Michaelic frequency, for over 300,000 years. The Planetary Templar Complex could not run Michaelic frequency, and thus manual activation of the personal Michaelic Shield and release of the embodied Signet Seals to open the Nova Bodies or among interdimensional Triadic Phase Currents for healing were not available options for Earth humanity. Since the recent activation of the Planetary Templar Complex, Michaelic Shield and PBIS activation and Ruthiana Healing applications are now available on Earth.

Triadic Phase Currents, the Galactic Shield and the AFSB

Most healing systems have not incorporated the Michaelic Current into their frequency application procedures because the Planetary Templar Complex has not been able to run a 12-72 Michaelic Current through the planetary grids for 311,296 years. Like the human DNA Templates, the Planetary Shields are also dormant. Templar and Nuclear Inner processing must be activated in order for the Planetary Shields and Templar Complex to be activated. The Signet Star Crystal Seals (Star Gates) in the Planetary Shields are dormant, closed and under Access and Density restrictions, so the cosmic signals will be able to flow and use personal frequency into your personal Shields because the frequency is unavailable within the Planetary Shields. The personal and planetary Templar Complexes are extremely interactive, and what affects one will inevitably affect the other.

In order to run the full spectrum of interdimensional Triadic Phase Currents through the human body, it is necessary to open the Signet Seals in the personal Inner Templar and the Signet Star Gates in the Planetary Templar Complex. In conventional human evolution, the Internal Signet Seals were set to be activated over a long period of time. During the slow activation of the Cosmic Time Codes, the conscious ability to experience passage through numerous incarnations in cause-within-time planetary Time-Cycle evolution through a series of Single Vector incarnations before being released from the 3-Dimensional space-lock of Density manifestation. One can manually open the Signet Seals in the embodied Inner Templar Complex to expedite evolution into the Multi-dimensional, Multi-Vector Time Cycles through use of the 11th-12th-Dimensional Michaelic Current.

Activation of the personal Michaelic Shield allows for rapid release of the embodied Signet Seals and activation of the Five Codes in the DNA Template. The Michaelic Current from the personal Michaelic Shield can be used to release the Signet Star Crystal Seals within the body, which in turn activates the dormant Kundalini energies of the base of the spine and the Crystal-Sacral-Kundalini Seals within the Tailbone and Pineal Gland. Release of the Cosmic-Sacral Seals of the Internal Templar Complex allows the Magnetic Repulsion Zones between the Nova Bodies to release as the DNA Template, personal Solar Shields and physical body systems can receive influx of higher dimensional frequency. Opening Triadic Phase Currents in the Human Body

The method by which **Triadic Phase Currents** are activated within the human body is a **progressive process**. First, opening of the personal **Kathara Grid**, **Telluric Shield** and **Nada Hova Body** is orchestrated through activation of the **Maharic Shield** and **Signet Seals**, to allow inflow of frequency from the higher dimensional **Hova Bodies**. Next, the incoming frequency is harnessed and **collected** within the **Chakra System**. Finally, the collected frequency is then **transmitted** for healing facilitation in others either through direct **Chakra transmission** or by close-range **Frequency Induction**, via transmission of frequency from the activated **Secondary Chakra Centers** within the **PALMS**.

The ability to run the higher dimensional Triadic Phase Currents within the body must be built up within the Internal Templar Complex, starting with the **slowest-moving current** of the higher dimensional spectrum – the **DORADIC-PHASE-1 CURRENT**. The *Doradic-Phase-1 Current* utilizes the **sub-frequencies** of the **11th-12th**-Dimensional **Maharic Current** from the Density-4 *Mahara Hova Body* as a **carrier wave** that will carry the desired interdimensional currents through the **Signet Seals** of the personal **Scalar Shields**. The full spectrum of the **4th** Dimensional **Doradic-Phase-1** current from the density-2 *Alphi Hova Body* is activated as the **primary healing frequency** for transmission. The full **spectrum** of the **7th**-Dimensional **Teuric-Phase-1 Current** (one Harmonic above the Doradic-Phase-1 Current) from the Density-3 *Betcha Hova Body* is used to release the 4th-dimensional Signet Seal, allowing the 4th-Dimensional Doradic-Phase-1 current to enter the **Nada Hova Body**.

Activating the **4th Signet Seal** triggers temporary activation of the **4th DNA Strand Template** and corresponding **4th Kathara Center** in the Level-1 12-Tree Grid, which allows the 4th-Dimensional frequencies of the **Doradic-Phase-1 Current** to pass through the **active DNA** and into the bio-energetic and bio-electrical systems of the body for transmission. Once the DNA Template becomes accustomed to holding a **4th-DNA Strand Template Activation**, after **several months** of practice in running the 4th-Dimensional *Doradic-Phase-1 Current*, the body will be able to begin receiving the primarily 5th-Dimensional **Doradic-Phase-2 Current**. **The lower dimensional Triadic Currents must be activated within the DNA Template before the higher dimensional Triadic Currents can run**. In **Level-1 Kathara Healing** the first step in activating the full spectrum (12 sub-harmonics) of the 4th-Dimensional **Doradic-Phase-1 Current** is achieved.

Triadic Phase Currents and Color Cap-Stones

The **Color Cap Stone** of a dimensional frequency band is the visual representation of the **primary wave-length** formed by the specific **Partiki Phasing Rhythm** for that dimension. A specific dimensional frequency band can be chosen and directed by the **color translation** of its primary wave-length. The **Color Cap Stones** of the dimensional frequency bands are used in Kathara Healing to direct specifically selected dimensional frequency bands (Partiki Phasing Rhythms) for specific applications. The **Color Cap Stones** for the **Doradic-Phase-1 Current** are **PALE SILVER (D-11 - D-12 Maharic) + GREEN (D-4 Doradic) + VIOLET (D-7 Teuric)**. In **Technique #3 – OPENING THE HEALING CHANNELS-DORADIC-1** - the ***Pale Silver + Green + Violet*** Cap Stone Colors will be used to activate the **Doradic-Phase-1** Healing Current within the body.

DORADIC SPHERE, CORDS AND BALLS

The Doradic Sphere and Current Collection

The **DORADIC SPHERE** is a **frequency repository** that is formed to hold the activated **Doradic-Phase-1 Current** within the **Chakra system** for transmission in healing facilitation. As the Doradic-Phase-1 Current is primarily a **4th-Dimensional Current**, the **Doradic-1 Sphere** will be formed in the **4th Chakra**, which corresponds to the 4th-Dimensional **ASTRAL body** of the Alphi Hova Body and Auric Field. **Transmission** of the Doradic-Phase-1 Current will take place from the **Doradic Sphere at the 4th Chakra**, creating a **4th-Dimensional ASTRAL INFUSION** of frequency into the bio-energetic field of the client in **close-range healing**, and a general **Astral Plane infusion** of Doradic-Phase-1 frequency into **Manifestation Templates** of areas (and everything contained within the space) when transmitted directly from the **4th Chakra**.

Doradic Cords and Current Induction

The **DORADIC CORDS** are **energy conduits** that are formed by opening the embodied **Axi-A-Tonal Lines** within the **arms**, **hands** and **fingers**. Opening the Doradic Cords allows the **Secondary Chakras** within the **palms** of the hands to carry the **Doradic-Phase-1 Current** for application in **close-range** transmission. Although Tnadic Phase Currents can be transmitted directly from the **Chakra Center** in which the **Collection Sphere** is placed, the energies are more **diffuse** and **diluted** in this form of transmission, unless the personal DNA template holds a **full, permanent activation** of the Strand Template corresponding to the Tnadic Current being transmitted. It takes time, often years, for the DNA Template to acquire and permanently hold a higher strand activation level. One-on-one healing facilitation is more effective when conducted through **concentrating** the Tnadic Current through the **Axi-A-Tonal Lines** for **DIRECT INDUCTION** of current through the **Palm Chakras** in **close-range** transmission. Close-range transmission also allows for **more precise application** of frequency to specific areas of the body systems. In **Level-1 Kathara Healing**, the **Doradic Cords** are activated within the arms, palms and fingers to allow for concentrated, focused direction and **Direct Induction** of the **Doradic-Phase-1 Current**.

For **general healing** purposes such as "**clearing rooms**" or geographical spaces, or when attempting to transmit healing current into **groups of people**, transmission of the **Doradic-Phase-1 Current** can be orchestrated directly from the **4th Chakra for NON-SPECIFIC INDUCTION**. In **Non-Specific Induction**, following activation of the Doradic-Phase-1 Current, each **INHALE** breath is **used to fill the Doradic Sphere** with more energy and each **EXHALE** breath is used to expand and transmit the energy into the room or bio-fields of a group of people. It is not necessary to activate the Doradic Cords for Non-Specific Induction applications. In **Level-1 Kathara Healing** applications, use of the **Doradic Cords** and **Palm Chakras** is employed for Direct Induction close-range transmission in Client sessions. To enhance and expedite personal healing, the activated **Doradic-Phase-1 Current** can be run through the personal **Level-1 Kathara Grid** with the ***Maharic Shield and Liquid Light Cleanse*** technique and then through each of the **7 Primary Embodied Chakras**.

Doradic Balls and Palm Transmission Direct Induction

The **DORADIC BALLS** are small energy repositories that form in the **Palms** of the Hands when the **Doradic Cords** have been activated to run Doradic-Phase-1 Current through the **Palm Chakras**. Doradic Balls are used to **accumulate current** in the **Palm Chakra vortices** prior to transmission, to strengthen the intensity of the current.

PALM CHAKRAS AND TRANSMITTING CURRENT

Primary Polarities of Palm Chakras

Along with the **15 Primary Chakras** within human anatomy there are many other smaller **Secondary** and **Tertiary Chakra Centers** throughout the body, which correspond to the energetic interrelationships of scalar-wave patterns within the **Kathara Level-3 Diodic Points Grid**. All Chakras operate as sets of **Black and White Holes,** through which energy from the dimensional Unified Fields circulates into and out of the body and Manifestation Template. The **Palm Chakras** are part of the **Secondary Chakra System**. Like all Chakras, the Palm Chakras are structured as **2 vortices** of energy **joined at the tip** by a minute **Crystal Seal** within the **Kathara Level-2 Crystal Seals Grid**. The Palm chakras run through the **center of the Palms** and out of the back of the hands.

In any set of Chakra vortex spirals, one vortex represents the **magnetic Black Hole**, a *counter-clockwise rotating* spiral that **draws energy IN** toward the central Crystal Seal, and the companion vortex represents the corresponding **Electrical White Hole**, the *clock-wise rotating* spiral that **sends energy OUT** from the central Crystal Seal. The **Black Hole** vortex represents the **RECEIVING spiral** or **Magnetic Pole**, and the **White Hole** vortex represents the **TRANSMITTING spiral** or **Electrical Pole**. The **Electrical Pole** of a Chakra represents the **EXPANSION CURRENT** of the Chakra, through which it **expands energy** out from the personal Shields; it is referred to as **BASE ELECTRICAL**. The **Magnetic Pole** of a Chakra represents the **CONTRACTION CURRENT** of the Chakra, through which it **contracts energy In** from the external Unified Field to the personal Shields, it is referred to as **BASE MAGNETIC**.

The Chakras in the **Palms** are composed of many smaller minute **vortex sets**, each with Magnetic and Electrical Poles, but the **PRIMARY POLE** of each Palm Chakra is that pertaining to the **larger Black-White Hole set** and **Crystal Seal**. Although each Palm Chakra is capable of both **Transmitting and Receiving** energy current, the **strongest and most focused currents** can be achieved by utilizing the natural polarity orientation of the Primary Vortex Set. The Chakra in the **RIGHT PALM** is **BASE ELECTRICAL**; its corresponding vortex on the back of the right hand is **Base Magnetic**. The Chakra in the **LEFT PALM is BASE MAGNETIC**; its corresponding vortex on the back of the left hand is **Base Electrical**. When running Triadic Phase Currents, it is helpful to understand the **Primary Polarities of the Palm Chakras** in order to create the **strongest** and **least distorted** healing current. In **Kathara Healing**, the **RIGHT HAND** is the **TRANSMITTING HAND**, through **which** Triadic Current is **Exhaled** down the **Cords** in the arms and **EXPANDED** into the **RIGHT PALM CHAKRA** for **TRANSMISSION**. The **LEFT HAND** is the **RECEIVING HAND**, through which the Triadic Current transmitted from the Right Hand is **drawn back** into the facilitator's body **TO CREATE A CLOSED CIRCUIT OF CURRENT** for the **strongest current intensity and purest frequency content**

HAND POSITIONS

Standard Hand Position for Transmitting Triadic Current

When transmitting Triadic Current, the **LEFT PALM** is **PLACED OVER THE BACK OF THE RIGHT HAND**. The *Base Magnetic* Current of the *Left Palm* **interfaces** with the *Base Magnetic* Current in the *Back of the Right Hand*, creating a **MAGNETIC REPULSION ZONE**, which **blocks the vortex on the Back of the Right hand** from drawing **non-specific frequency** from the Density-1 Unified Field. This keeps the current transmitted from the *Right Palm Chakra* **pure** to its specifically chosen content. The *Base Magnetic vortex* in the *Left Palm* simultaneously draws the **transmitted current** back up through the smaller vortex sets after it runs through the client's body, creating a **closed circuit of pure frequency** running between the **Hova Bodies** of the **client**, the **facilitator** and the higher dimensional **Unified Fields**. Options of **Frequency Modulation** for other healing applications also become available through using this **HAND POSITION** when transmitting healing current. In some applications, a **modulated current** that includes bursts of Density-1 Telluric Current interspersed with current transmission from the higher dimensions is desired; this can be achieved by moving the Left Hand on and off the vortex on the back of the Right Hand. The **LEFT OVER RIGHT HAND POSITION** is used in **Level-1 Kathara Healing** applications.

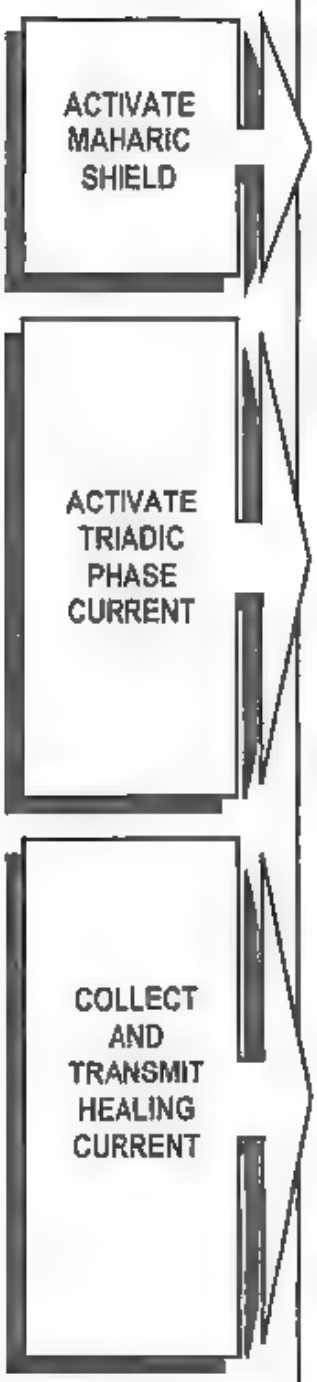
Intrinsic Process of Activating a Triadic Phase Current



1. Open the **PBIS** using the D-11-D-12 Wave Guide Symbol Code the **Hierophant Symbol**, to open the **12th Chakra** and stimulate release of **Maharic Frequency** from the **Planetary Maharic Shield**.
2. From the PBIS draw Maharic Frequency from the Earth's Maharic Shield up into the dormant personal Maharic Shield 12' below the feet, to activate the **personal Maharic Shield.**
3. Choose the specific Triadic Current you desire to run.
4. Use the inflow of **Maharic current** from the personal and planetary Maharic Shield as a **Carrier Wave** to carry the **Cap Stone Color frequencies** of the **Signet Star Crystal Seals** in your Scalar Shields that correspond to the **Triadic Phase Current** you wish to activate.
5. Temporarily **release** the **Signet & Cranial-Sacral Kundalini Seals** and activate the **DNA Strand Template** correspond ng to the chosen **Triadic Phase Current** by running the **Primary Frequency** and the frequency **one Harmonic above it** through the **Signet Seals**, on the Maharic carrier wave current, to open the **Nada Hova Body** and physical body systems to inflow of the higher dimensional **Triadic Phase Current**.
6. As the Triadic Phase currents transmit nto the body through the Signet Seals, Kundalini energies and DNA Template, **collect and build the current** as a **Sphere** of energy within the **Chakra** corresponding to the Primary Triadic Current you are running
7. Run the current from the **Collecting Chakra** through the **Axi-A-Tonal Line Cords** in the arms to activate the **Palm Chakras**
8. **Exhale** current from the **Chakra Collection Sphere** through the **Cords** and allow it to build into **Balls** of energy within the **Palm Chakras** before transmitting
9. Transmit the Triadic Current through the **RIGHT PALM CHAKRA** into client's bio-energetic field while drawing more current into the **Chakra Collection Sphere** with each exhale breath and draw the current back through the **LEFT PALM** on each **Inhale** breath, to create a higher dimensional Closed Circuit Hea ng Current. Use **LEFT PALM OVER BACK OF RIGHT HAND** hand position.

TECHNIQUE # 3

Opening the Healing Channels – Doradic-Phase-1 Current

1. Breathe slowly and deeply for several breaths while visualizing or imagining a **4" Violet Dot** on the center of the *inside of your forehead*. Make the color image as strong as you are able. (If you can't yet perceive inner colors or visualization, simply imagine the Violet Dot as being there). Move the Violet Dot to the center of the brain at the **Pineal Gland**, and then upward into the **7th Crown Chakra** from the inside of the head *moving upward and outward* until the Violet Dot *rests on top of your head* at the Crown Chakra.

2. Call to mind the Hierophant Symbol (Pale Silver Merkaba Star formed by combining 2 Merkaba Stars). Visualize the spinning Hierophant stationed 12" below the feet within your Maharic Shield and slowly **INHALE**, drawing the Hierophant up through the Central Body Current, up to meet the Violet Dot at the ***7th* Crown Chakra** at the top of the head. When the *Hierophant connects with the Violet Dot visualize* the Violet Dot bursting into a **4" Vertical Pillar of Violet-Silver Light**. Imagine the *Violet-Silver Pillar* running down through the body into the *Earth Core* and upward to the **14th Chakra 36"** above the Head. You have activated the **Violet Ray of Transmutation**.

3. Move your attention to the **4th Heart Chakra** and imagine a *small Green Spherical Crystal* - the **Green Star** - stationed at its core. This is the **Green Star Crystal Sea** that controls release of *4th Dimensional frequency - Phase-1 Doradic Current* - into the body. **INHALE**, drawing Violet-Silver energy from the Violet-Silver Pillar into the *Green Star*. **EXHALE**, *expanding* the Violet-Silver energy into the *Green Star sphere*. Repeat 2 *more INHALE-EXHALE* breaths, drawing Violet-Silver Energy from the Pillar and expanding it into the Green Star sphere. At the end of the last **EXHALE** imagine the **Green Star popping**, turning into a spinning Green and Violet Starburst of Light as the *Violet-Silver Pillar disappears. Spin the Green-Violet Starburst* faster until it becomes a *ball of Green-Violet Light*, about the size of a *grapefruit*, spinning in the center of the *4th Heart Chakra*. The Green-Violet ball is the store-house for your Phase-1 Doradic Current. It is called the **Doradic Sphere**. **INHALE** and draw Pale Silver energy from your **Maharic Shield**, through the Central Body Current and into the center of the **Doradic Sphere** at the **4th Heart Chakra**, encasing the Sphere in translucent Pale Silver Light.

4. **EXHALE** quickly and push **2 Cords** of **Green-Violet-Silver energy - Doradic Cords** - from the Doradic Sphere *down the inside of your arms*, one Cord through each arm. As the ends of the Doradic Cords reach the inside of the hands, notice a sensation of *mild resistance* as the Cords push against the *etheric membranes* covering the *small chakras* in the palms. **INHALE** a full breath drawing Silver energy up from the **Maharic Shield**, into the Doradic Sphere at the 4th Chakra. **EXHALE forcefully**, pushing more energy down through the *Doradic Cords* in the arms, and feel this energy "**pop**" out of the *palms, releasing the membranes* on the palm chakras. Continue to **INHALE** energy up from the *Maharic Shield* into the Doradic Sphere and **EXHALE** it through the *Doradic Cords, building the strength of the Doradic Current* in both palms. Imagine the Doradic Current pooling in the palms to form *2 Green-Violet balls of light* about the size of *tennis balls*. Energize the Doradic Sphere and Cords until you can sense the smaller **Doradic Balls** formed in the *palms* of your hands. **Your Doradic Current is now activated for use in healing facilitation**.

2. **Hierophant Symbol** at center of your **Maharic Shield 12"** below feet. Inhale Symbol **up** to **Violet Dot** at top of head. See **Violet Dot burst** into **4" Violet-Silver Pillar** running through body to Earth's core and up to **14th Chakra** 36" above head

3. Small **Green Star Crystal Seal at 4th Heart Chakra**. Inhale drawing **Violet-Silver** energy from **Violet-Silver Pillar** into **Green Star Crystal Seal** and see **Green Star Crystal Popping** into a spinning **Green-Violet Starburst**, as Violet-Silver Pillar **disappears**. THE NATURE OF KARMA

Karma, Identity, the Christos and the Physics of Divine Right Order

When an identity enters the Time Matrix it begins simultaneous cycles of evolution through time. It enters the matrix at birth through first reading a Manifestation Template composed of Partial Units 1 and Seven-Waves. The first three vibratory templates record the Matrix Shield. It holds all the Karmic codes associated with Identity-1 and holds the complete Primal Scalar Pattern for all of its Singular Identities that will simultaneously manifest into incarnation within the three dimensional Creation and Time cycles. The Matrix Shield represents the Identity Gestalt or Family of Consciousness through which identity enters manifestation. The Matrix Shield carries the precise configuration of scalar-wave patterns the Primal Order of energetic substances through which the consciousness individuates to form collective or morphogenetic fields the Christic-related Toxic Waste Entity, individual materials from the Matrix Family of consciousness or time cycles. As part of its core Karmic Grid matrix program, the electromagnetic energy signature of Primal Order carried by the Matrix Shield through which it individuated.

The scalar wave design of the Matrix Shield represents DIVINE RIGHT ORDER. The Primal Order of scalar-wave energetic relationship and Partial Phasing Sequences that individual identities in time must re-evolve to hold within their individual Manifestation templates, in order to regain freedom from the dimensional systems of the Time Matrix. Consciousness from the Matrix Shield, or the Law of Omni-polar wave spectra, orders the matrix cosmos by providing guidance of itself into formative Central Nuclei Gestalts which are the key dimensional fields. The simple Gestalts of consciousness form the 3-Dimensional Scalar Shields of the identity within the Dimensional matrix system. Each Scalar Shield holds the consciousness of numerous simultaneous Cycles of incarnation within each of the 4 Primary Time cycles of Densities. Through 4, each individual incarnate in time is directly linked to its original Matrix Shield Family of Consciousness through its Density-4 Matrix Shield. The Matrix Shield of dimensions 10-12 contains the first Pre-matter Hydroplasmic scalar-wave spectra through which identity began to experience within the holograms of space, time and Matter. The personal Matrix Shield often called the HUMAN SOUL, CHRISTOS IMPRINT holds the original Prime Order of scalar waves through which individual consciousness links to its Source Matrix. The Christos Imprint of the Matrix Shield represents the PATH OF DIVINE RIGHT ORDER through which each individual consciousness in time can re-evolve its original consonant Polarized State of Wholeness or Consciousness beyond the Time Matrix. Divine Right Order is not only a spiritual concept, it is a reality in energy within the scientific dynamics of Universal Unified Field Physics. Divine Right Order represents the Primal Order of scalar-waves that make up the original Manifestation Template from which individual singular Matrices emerge, and it is the necessary pattern of energetic order within the personal re-incarnation of Manifestation, a state of which allows numerous beings to fulfill the evolutionary objective of Transcendence, Dimensional Ascension. The result of an incarnate being's Multi-Matrix Template and Conscious Awareness becoming realigned with the energetic structure of Divine Right Order is called KARMA.

The Matrix Shield of dimensions 10-12 contains the first Pre-matter Hydroplasmic scalar-wave spectra through which identity began to experience within the holograms of space, time and Matter. The personal Matrix Shield often called the HUMAN SOUL, CHRISTOS IMPRINT holds the original Prime Order of scalar waves through which individual consciousness links to its Source Matrix. The Christos Imprint of the Matrix Shield represents the PATH OF DIVINE RIGHT ORDER through which each individual consciousness in time can re-evolve its original consonant Polarized State of Wholeness or Consciousness beyond the Time Matrix. Divine Right Order is not only a spiritual concept, it is a reality in energy within the scientific dynamics of Universal Unified Field Physics. Divine Right Order represents the Primal Order of scalar-waves that make up the original Manifestation Template from which individual singular Matrices emerge, and it is the necessary pattern of energetic order within the personal re-incarnation of Manifestation, a state of which allows numerous beings to fulfill the evolutionary objective of Transcendence, Dimensional Ascension. The result of an incarnate being's Multi-Matrix Template and Conscious Awareness becoming realigned with the energetic structure of Divine Right Order is called KARMA.

Alpha, Divine Right Order, the Real Shields, Free Will and Illusion

It is understood that the universe and all things within it exist as manifestations of consciousness in the form of precisely ordered scale free arrangements and that there is an intrinsic and underlying Primal Order upon which all manifestation functions. It will not be difficult to conceptualize the fractal and tangible nature of the Kernel's imprint, a energetic wave. Divine Right Order represents the innate alignment of conscious energy fields within the intrinsic area of Universal Physics characteristic to the dimensional structures within. Divine Right Order exists as a tangible, specific and harmonious organization of energy interrelationships within the Primal Order of energetic structure that creates consciousness. The condition frequently referred to as Karma is the Divine Right Order's tangible, concrete expression of change from conscious. When Divine Right Order operates the natural alignment of conscious energy flows within the universe and all

REGENESIS OF THE PERSONAL CHRISTOS

Restoring the Organic Imprint for Health and Clearing the Karmic-Miasmic Imprint

Literally all conditions of dis-ease in the human body and consciousness, including the emotional reaction of people of the Jesus body form result from Miasmic Distortions within the embedded Kathara Grid, Soular Shields, DNA Templets and personal Inner Temple Complex. The natural state of Universal Primal Order is harmonious co-creative interrelationship of consciousness. Humans can imaginatively return to their natural condition of Ordered Perfection through re-genesis, or re-creation of the Organic Imprint for Health - the Holistic Shield Christos Imprint - within the Kathara Grid blueprint of the personal Merkabic template. Regenesis of the Personal Christos is a Multi-Vector Biofeedback - working between the Inner - Heavenly "world body" mental consciousness and the physical - earthly body of the Time-Matrix - in balancing in order the Miasmic Imprint by "walking the Karma" which means allowing progressive levels of the Miasmic Imprint to repeatedly re-manifest in the personal life-experience until the proper applications of Free Will choice exist in conjunction with Divine Right Order so karmic cycles may appear and the "Right Choices" are made to re-align the compressed, inert energy that causes the Miasmic Imprint to re-create itself, thus supposedly clearing the Karma. Before a change effective on a lasting basis by which embodied consciousness reaches total freedom of evolution. The Miasmic Imprint within the collective human species has proven so extremely tenacious that the core issues of misapplied Free Will that cause Miasmic Buildup can no longer be consciously identified, and the Miasmic Imprint continues to compound and amplify itself as the same errors of Free Will energy use are perpetually repeated and reinforced.

The Karmic-Miasmic Imprint is an **ENERGY FORM**: a literal construct of Scalar-wave frequency with its corresponding **Anti-particle Manifestation**. As a form of energy, the Miasmic Imprint can be dealt **With AS ENERGY, WITH ENERGY** for the most expedient clearing, Healing and realignment of the Karmic Imprint.

The Karmic-Miasmic Imprint manifests within the causal level of manifestation, the 4 levels of the embedded Kathara Grid of the personal Internal Temple Complex and how the Kathara Level Pe-Karmic Miasmic Imprint manifests as misalignment and disconnection within all levels of the Body-Mind-Spirit system. To clear the Karmic Imprint AS ENERGY, WITH ENERGY, the compound vector-frequency patterns must be realigned from the Core - empty Kathara Grids - the causal level of miasmic manifestation. Restoring the Holistic Shield Christos Imprint to the personal Kathara Grid takes time and precise applications of frequency re-ordering in all levels of the Body-Mind-Spirit system. The first step in Regenesis of the Personal Christos is the MANARIC RECODING PROCESS.

MULTI-VECTOR HOLOGRAPHIC RECODING

Recoding the Time Vectors of the DNA Template and the DNA Fire Codes

The process of regenerating the **Christos Imprint** within the **Kathara Grid** of the human body is a **MULTI-VECTOR** undertaking. A **Vector** is a **set cycle of vibrational-oscillation rhythm** that creates a **specific repeating Partiki Phasing Rhythm** and **Flash Line Sequence**. Each individual incarnate self in time holds within the electro-magnetic programs of its embodied **Kathara Centers** the precise **Partiki Phasing Rhythms** that correspond to its particular placement within the planetary **Time Cycles**. The **Time Vector**, or **Flash Line Sequence**, that creates one linear **Event Horizon**, is literally encoded and actively operational within the **Kathara Grid** and **DNA Template** of each incarnate identity. In the process of restoring the **Organic Integrity** to the personal Manifestation Template, the dormant **Partiki Phasing Rhythms** that correspond to one's **other-time incarnates** are progressively brought into activation and realigned with the Christos Imprint of the **Maharic Shield**.

The **Partiki Phasing Flash Line Sequence programs** within the embodied **Kathara Centers** manifest within the **DNA Template** as the **GENETIC TIME CODES**, or **Fire Codes**, of the DNA. In restoring **Maharic Order** to the personal **Kathara Grid**, the **12 Dormant Fire Codes** of the DNA Template will be slowly but progressively brought into **activation** through the 11th - 12th-Dimensional Frequencies of the **Maharic Shield Mahara Hova Body Current**. Activation of the **DNA Fire Codes** creates a reciprocal release of the **Signet Star Crystal Seals** and **Cranial-Sacral Kundalini Seals** within the **Kathara Level-2 Crystal Seals Grid** progressive activation of the dormant **Kundalini energies** and **Merkaba Vehicle Phases**, merger of the **Hova Bodies** and embodiment of the higher dimensional **Spiritual aspects** of conscious awareness. The process of recoding the multiple time vectors within the DNA Template - **Multi-vector Holographic Recoding** - is a process of progressive **WHOLE-BEING HEALING** that is achieved through **consistent application** of the **MAHARIC RECODING PROCESS**, and expedited through complimentary processes of **DNA Template, Kundalini** and **Merkaba Vehicle** activation. Level-1 Kathara Healing introduces the operational mechanics of the **Maharic Recoding Progress**.

Place RIGHT palm (chakra-clearing hand) over the 5th Kalkara Center at the throat, and place the LEFT palm (magnetic-receiving hand) over the back of the right hand to block 3rd Dimensional energies from entering the core of the right hand chakras. INHALE energy from your Mahantic Shield. Pull Mahantic Center Wave into your Galactic Spheres at the 4th Heart Chakra. EXHALE and run the Mahantic Wave down the Galactic Cords in the arms and into the Galactic Cells in the palms. Inhale, draw EXHALE energy into and/or towards a point energy from the Galactic Spheres down the Galactic Cords in the RIGHT arm, through the RIGHT Galactic Cell and down into the Kalkara. Observe as the Mental Body crystal Encoded Information Codes in the Kalkara are released into the palms, and out into the right hand as Galactic Cosmic Codes in the form of Light Energy. Inhale, draw EXHALE energy into and/or towards a point energy from the Galactic Spheres down the Galactic Cords in the RIGHT arm, through the RIGHT Galactic Cell and down into the Kalkara. Observe as the Mental Body crystal Encoded Information Codes in the Kalkara are released into the palms, and out into the right hand as Galactic Cosmic Codes in the form of Light Energy.

c. Pass the LEFT palm over the 5th Chakra at the Throat, with the Right palm covering the back of the LEFT hand, and INHALE the Galactic Cosmic Light Codes into the 5th Kalkara Center at the Throat, into the Crystal Center of the 5th Chakra. EXHALE and expand the Galactic Awareness into the 5th Chakra Crystal, allowing the magnetic current from the LEFT hand to draw the energy out through the palm. As you EXHALE slowly move the hands forward, away from the body, and the 5th Chakra.

3. Repeat the same technique over the 5th Kalkara Center, placing the RIGHT palm over the 5th Kalkara Center from the Right Shoulder, with the LEFT palm covering the back of the RIGHT hand. INHALE Draw energy up from the Mahantic Shield, into the Galactic Spheres. EXHALE energy down the Galactic Cords into the Galactic Cells. Inhale from EXHALE energy down the RIGHT Galactic Cord through the RIGHT arm, into the Kalkara Center & Pull several Galactic Light Codes into the 5th Kalkara Center. The moment LEFT palm over the 5th Chakra Crystal in the throat, with Right palm behind. INHALE the Galactic Cosmic Codes from the 5th Kalkara Center into the Galactic Cords in the 4th Chakra and EXHALE the energy into the 5th Chakra Crystal while drawing it through with the magnetic current from the LEFT hand. The 5th Sense-Awareness, which provides inner audio perception, and the 7th Sense-Vision, which provides inner visual perception are now awakened, activated and stimulated by the Kalkara Scan.

4. Close your eyes and focus your attention on a single point on the inside of your forehead. Inhale, and as you EXHALE, see your attention outward through your 6th Chakra Spiral, out the 6th Chakra Spiral of your Chest. Move your attention into the center of your Client's brain, the Pineal Gland. Inhale and EXHALE energy and awareness down the same Cosmic Pineal Through your Client's Central Body. Inhale and draw the Earth's core INHALE and move your awareness back upward, as you see your Client's Mahantic Shield and spread your awareness outward through his Mahantic Shield with the EXHALE. On the inside of your forehead, imagine the image of the Kalkara 13-Tree Grid. INHALE energy from the Client's Mahantic Shield and EXHALE the energy out into the 13-Tree Grid. INHALE energy from the Client's Mahantic Shield and EXHALE the energy out into the 13-Tree Image. Breathe gently in a manner, allowing the Kalkara Grid to [illegible] and expand. EXHALE and expand the Galactic Awareness into the 5th Chakra Crystal, allowing the magnetic current from the LEFT hand to draw the energy out through the palm. As you EXHALE slowly move the hands forward, away from the body, and the 5th Chakra.

3. Repeat the same technique over the 5th Kalkara Center, placing the RIGHT palm over the 5th Kalkara Center from the Right Shoulder, with the Left palm covering the back of the RIGHT hand. INHALE the Galactic Cosmic Codes from the 5th Kalkara Center into the Galactic Cords in the 4th Chakra and EXHALE the energy into the 5th Chakra Crystal while drawing it through with the magnetic current from the LEFT hand. The 5th Sense-Awareness, which provides inner audio perception, and the 7th Sense-Vision, which provides inner visual perception are now awakened, activated and stimulated by the Kalkara Scan.

4. Close your eyes and focus your attention on a single point on the inside of your forehead. Inhale, and as you EXHALE, see your attention outward through your 6th Chakra Spiral, out the 6th Chakra Spiral of your Chest. Move your attention into the center of your Client's brain, the Pineal Gland. Inhale and EXHALE energy and awareness down the same Cosmic Pineal Through your Client's Central Body. Inhale and draw the Earth's core INHALE and move your awareness back upward, as you see your Client's Mahantic Shield and spread your awareness outward through his Mahantic Shield with the EXHALE. On the inside of your forehead, imagine the image of the Kalkara 13-Tree Grid. INHALE energy from the Client's Mahantic Shield and EXHALE the energy out into the 13-Tree Grid. INHALE energy from the Client's Mahantic Shield and EXHALE the energy out into the 13-Tree Image. Breathe gently in a manner, allowing the Kalkara Grid to [illegible] and expand. [illegible] and imagine a page is unrolled. If you cannot perceive the Kalkara, you will still get a sense of the 13-Tree image and the areas of dark and light within it. The dark areas represent layers of the MAGNETIC BODY, areas in the Genetic Imprint that were clearing when you ran Technique # 4. The Mahantic Kalkara. Remember the areas of the Client's Kalkara that need clearing, inhale, and close your eyes on EXHALE.

TECHNIQUE # 5

THE MAHARIC INFUSION - CLIENT FACILITATION

Prior to using this technique you should have completed the following: Positioned MENTOR over your Right shoulder to assist (Track 2) Awakening the Mentor and the 6th and 7th Senses). Activated your Maharic Shield, Maharic Seal and on the Liquid Light (Track 3 & 4). The Maharic Seal and the Liquid Light Cleanse. 4. Activated your Doradic Lumen, Inner audio/Visual and Client Kathara Scan (Track 10, and 6&4. Opened the Kathara Tree for you and your Client (Sequence Kathara Points).

Place Client in a reclining position with shoes off:

1. Position yourself at the feet of the reclining Client. Place RIGHT palm 12" below Client's feet at the Maharic Shield, left palm over the back of Right hand.

2. Visualize the Hierophant symbol on the inside of your forehead. Inhale, then EXHALE moving the Hierophant down to Chakra 4 and into the Doradic Sphere with the exhale breath. INHALE energy upward from your Maharic Shield and into the Doradic Sphere. EXHALE the Hierophant with Doradic-T current down the Right Doradic Cord and into the Doradic Ball in the Right palm.

3. Inhale, then EXHALE the Hierophant and Doradic-T current into the center of the Client's Maharic Shield. Visualize the Hierophant spinning in the center of the Client's Maharic Shield until you sense a mild shift in the energy below the Client's feet. The shift indicates that the Client's Maharic Shield has activated and the Maharic Filter has "popped" vertically upward from the Shield. The Client's bio-energetic field now carries the Maharic Seal.

4. INHALE energy from your Maharic Shield into your Doradic Sphere, then EXHALE the energy down both Doradic Cords, into the Doradic Balls in the palms. Visualize the 12-Tree Kathara Grid within the Client's body. You will now run the Maharic Infusion through the small chakra points in the feet.

5. Place your Right palm about 1" (in Client's Etheric Field) from the bottom of the Client's left foot and your Left palm about 1" (in Client's Etheric Field) above the top of the foot, centered over your Right palm. Imagine that you are lifting up the small water beneath the ball of the Client's foot (which extends through the foot to come out on top), with the small chakras in your palms. Inhale, then EXHALE energy from your Doradic Sphere through the Right Doradic Cord, Right palm, and into the sole of the client's foot. Visualize the Green-Violet-Silver energy traveling up the Kathara Line on the left side of the body, through the 4th, 7th and 10th Kathara Centers. Continue EXHALING energy into the Left foot until you begin to feel a bit of fuzzy energy coming out of the foot toward your palm. This indicates that the Kathara Line has reached its energy-holding capacity. Repeat the process on the Right foot, turning energy through the Kathara Line on the right side of the body and the 3rd, 6th and 9th Kathara Centers.

6. You will now clear and align the Central Vertical Kathara Line to complete the Maharic Infusion. Move to the Client's head. Place Right palm over the client's 10th Chakra, 6" above the head, the location of the 12th Kathara Center. Place your Left palm over the back of your Right hand. INHALE energy from your Maharic Shield into your Doradic Sphere, then EXHALE energy down the Right Doradic Cord, into the Right palm and through the 10th Chakra. Visualize the energy moving down from the 10th Chakra into the 7th Chakra, to the Pineal Gland (11th Kathara Center), then rapidly down the Central Body Current and Central Kathara Line, through Kathara Centers 8 (Thyroid), 5 (Navel), 2 (at Base Chakra), and into Kathara Center 1 at Earth's core. Continue EXHALING energy into the 10th Chakra and Central Kathara Line until you feel fuzziness against your Right palm, indicating that the Kathara Grid has reached its energy-holding capacity.

7. Before releasing the 10th Chakra, direct a bit of additional energy through the Central Kathara Line into areas that revealed dark spots during the Kathara Scan. Visualize the areas getting light as the energy runs through them. You may add other healing modalities at this point, if desired. Close by using the Sequence-2 Kathara Points to close the Kathara Lines and revitalize the body. Allow client a few moments to recline before ending session.

TECHNIQUE II: THE MIHARIC INFUSION - CLIENT FACILITATION

MOTIVATION TO HEAL

Healing Facilitation is an art and a science but, most importantly, healing facilitation is an interrelationship of SOULS. Egotistical objectives have no place in quality Healing Facilitation. The decision to participate in Healing Facilitation should not be motivated by a desire to prove you have special abilities to boast about, nor with the primary motive of gaining financial profit from Healing Facilitation endeavors. The energies exchanged in healing facilitation are FREE TO ALL, a DIVINE GIFT from the universe, and they belong to all beings equally. A facilitator cannot rightly request payment from a client for providing what the client already possesses - Natural Healing Energies.

In Divine Order, it is appropriate for the facilitator to accept payment for the personal time and energies invested in learning and developing facilitation skills, and for the time spent in active facilitation. It is important that the facilitator understand the subtle difference of "fair exchange of energy". If the facilitator mistakenly assumes they are requesting payment for healing energies they supply, they are inadvertently misrepresenting themselves to the client. The client possesses personal healing energies and does not need to purchase such energies from others. The time and expertise offered by the facilitator to assist the client in stimulating their own healing energies is a service worthy of compensation. If a client chooses such assistance, the facilitator has the legitimate right to honor their own worth as a being by requesting reasonable payment or barter in fair energetic exchange for the service they offer. However, if a client is in need of receiving facilitation and has no means of fair exchange at that time, the facilitator should honor the worth of the client by providing assistance of equivalent value free of charge.

In spiritual principal, "making money" is not a legitimate motivation for participating in Healing Facilitation. Seeking to find one's personal "Divine Right Livelihood" in sincere service to others, which might possibly involve providing client service in Healing Facilitation, IS a spiritually legitimate motivation. Healing Facilitators will discover that when they put the objective of GENUINE SERVICE TO THE DIVINE as the first Priority, rather than the pursuit of personal monies or status, the Universe Will Provide. Facilitators who enter the healing field with hidden personal motivations incongruent with Universal Laws of Energy, which imply equality, respect, reverence and balanced exchange of energy between all beings, will find difficulties emerging in their lives as the personal SOUL sets up lessons through which Universal Principles become more apparent. There is only ONE TRUE MOTIVATION for participation in Healing Facilitation - the motive is LOVE.

POSTURES OF LOVE

The Energy-Reality of LOVE

In terms of **Universal Physics**, Love is an **energy reality**, a **STATE OF VIBRATIONAL HARMONIZATION**, or **CO-RESONANCE OF FREQUENCY** that allows an **energetic bridge** to build between individuals. It is through this energetic bridge of frequency that one can assist in running healing energies that will facilitate the healing process of others. Without the sentiment and **FREQUENCY OF GENUINE LOVE**, one cannot energetically facilitate the healing of another. **LOVE is the essential ingredient in healing**, for it allows the opening of facilitator and client's bio-energetic fields to the **Universal Frequencies** of the inter-dimensional spectrum. Cultivating the ability to embrace and hold the frequencies of Universal or **OMNI-LOVE** is the responsibility of any true healing facilitator. The emotionally experienced reality of the ***frequency of Love*** takes many forms. In healing facilitation it is important to assess the most appropriate form of love to engage with each individual client.

Soft Love

Many people respond well to "**SOFT LOVE**", the kind, gentle nurturing, soothing love often displayed by mother's comforting their infants. Soft Love works well with clients who possess some degree of spiritual maturity and who have cultivated the ability to hold some degree of a love frequency within themselves. Soft Love is the appropriate form of love for clients possessing the maturity to accept personal responsibility for themselves, their actions and their emotional reaction patterns, and who do not attempt to manipulate, drain energies from or place blame on others. Soft Love is characterized by **engaged detachment** of the facilitator and is demonstrated through soft-spoken, calm and sincere words and actions that are intended to place the client at ease.

Soft Love is always built upon sincerity, kindness, respect and a genuine desire to see the client thrive and prosper. Developing the ability to carry the Soft Love frequency takes time, attention and practice, and requires that the facilitator works to heal personal **internal conflicts**, unresolved issues from **childhood** and **karmic** reaction patterns that disrupt the Soft Love vibration. Soft Love is a **vulnerable love** in that it necessitates one to show the self as it is, honestly expressing personal feelings tempered with kindness. Soft Love is **not approval seeking**, it is rather genuine, honest and **self-generated**. Soft Love requires **love** and **respect** of the self and others mutually. It is built upon a level of spiritual maturity in which it is understood that personal value is implied by the fact of existence and is not determined by the approval or **validation** of others outside of the self and the personal relationship to the Divine. The ability to carry the Soft Love frequency emerges through **spiritual integration**, **personal healing** of internal conflicts and power struggle issues and **intentional application of kindness and mindfulness**.

Tough Love

Soft Love does not facilitate healing on all occasions. Certain clients who come to a facilitator for healing assistance bring with them a great need for **emotional healing** and development of spiritual maturity. They may demonstrate demanding, arrogant or pushy attitudes and refuse to accept responsibility for their personal actions and resulting consequences. Most often such individuals carry deep wounds from childhood or from re-incarnational bleed-through. Because they are **wounded within**, they have not yet developed the self-control or maturity necessary to treat themselves or others with kindness, respect or love.

Individuals who display unreasonable behaviors or attitudes pose quite a challenge to the love-based healing facilitator. If they are approached with Soft Love, the facilitator will often find themselves as a scapegoat for the individual's personal problems; may have their energies and time excessively **drained** by such clients and might possibly be subjected to outright verbal or physical **abuse**. Clients exhibiting such personality traits are struggling within themselves to **gain control** over the various **conflicting portions** of their personal energies, and they tend to objectify this internal conflict resolution in the form of **POWER STRUGGLE** with others.

Personalities trapped within cycles of subconscious self- or other-abusive attitude patterns need **love** more than anyone, but most often their behaviors push others away. Intrinsically the behaviors serve to keep the individual sheltered from **self-exposure**; they do not allow others close enough to inspire feelings of vulnerability or lack of self-esteem. Often such personality traits effectively keep the individual from seeing themselves and the inner pain and conflict from which they attempt to hide. To facilitate healing in such individuals, without succumbing to their manipulation, aggression or abuse, requires that the facilitator adopt a posture of **TOUGH LOVE**. In Tough Love, the facilitator clearly establishes **personal boundaries** in their own mind as to what treatment they will and will not accept. If the client crosses those boundaries, the facilitator **assertively addresses the issue** with the client, requests that the offensive behavior cease and provides **CLEAR CONSEQUENCES** as to what will occur if the offense continues. The Tough Love approach is rendered from a base of **Soft Love** and **Omni-Love**, but it is strengthened with **Self Love** on behalf of the facilitator. The facilitator recognizes that they are only assisting the client to continue with the self-destructive patterns by condoning or allowing offensive behavior, and chooses to **love the client enough to confront the pattern** so that it may begin to release. In **lovingly, calmly**, but **firmly confronting** poor behavior and **setting clear boundaries** and **consequences** the facilitator assists such clients to temporarily find a new pattern of action because the old one does not work for manipulation in this instance. The Tough Love approach frequently requires facilitators to demonstrate that they hold their own power, even in the face of client disapproval. **Tough Love** is an ability of **personal empowerment** worth cultivating for personal and client healing.

Self Love

In healing facilitation, **Love** is the essential ingredient. All love begins with the **Divinity Within the SELF**. You will be able to transmit the frequency of love to others in direct proportion to your ability to hold the frequency of love within yourself. If you do not recognize your intrinsic value as a **Divine Being**, and seek validation of your existence through external sources such as achievements, status or other-approval, you will likewise project these sentiments into your love relationships with others. If a client does not meet the external standards of validation that you have placed on yourself to determine your personal worthiness of love, you will have difficulty not falling into **judgment** of the client.

Judgment and **love** cannot transmit through the human body at the same time. Judgment creates an **energy reality** of separation or **Non-Resonant Frequencies** of energy, whereas Love creates the **Co-resonance of Frequencies** needed for open flow of Universal Energies for healing facilitation. If one can realize that **LOVE IS THE ONLY CONSTANT** and that all conditions of judgment change, it is easier to cultivate the innate ability to fully hold the frequency of Love. Though **ASSESSMENT** of conditions, actions or attitudes is useful and necessary, such assessment can be rendered through "**separating the person from the action**". You can judge the effectiveness or value of the **action or idea** without assigning a **value-judgment** to the **person** to whom it is attached.

If the healing facilitator can feel love, reverence, respect and honor for the **Divinity Within Themselves**, they will also transmit these qualities of **excellence in Love** to the client. The quality of Love brought into the healing facilitation experience will directly affect the success of healing assistance given. **Love the Self** and know that all beings possess an **unalienable worth and value** as a living part of the **Divine**. Begin to cultivate this awareness within your personal life and you will greatly increase your effectiveness as a healing facilitator. Love, honor and respect yourself, your feelings, your dreams and your desires, so you may better love those you wish to serve.

Love others as you would love the Self,
and love the Self as you would like to love others.

The Illusion of Martyrdom

People who love themselves do not buy into the idea that they must play "**martyr**" to others in order to be of service **Martyrdom** implies a belief that you are **lacking in worth**, or must **earn** your worth in being, by relinquishing that which feels of most value to you. It also **undermines expression of the God-Presence** within others, by assisting them to believe that you are so vital to their well-being that they cannot function without you. In truth, martyrdom is an **expression of EGO** most often used by people who feel that they are **personally insignificant** in the eyes of the Divine, in order to **give themselves significance** and a **sense of personal power and purpose** for being People who actively *know* the intrinsic **Spiritual Divinity** within themselves treat that Divinity with honor and respect and do not allow or need others to **depreciate the Self** and its desires in order to prove the existence of a *belief* in personal Divinity.

Martyrdom **does not facilitate healing** within the self or client, as it reinforces the **erroneous belief** in intrinsic **personal unworthiness**, which exists in **direct contradiction** to the **innate God-Presence** that exists in every living thing. Within the energy dynamics of **Universal Law**, natural **balance** is achieved in the flow or **GIVING**, and back-flow or **RECEIVING** of energy. In human spiritual relationships, this **balance of energy** is achieved by **mutually valuing** each person in a relationship, through which the natural giving and receiving of energy can be exchanged unimpeded. **Martyrdom impedes the natural flow of energy.** The martyr customarily gives more than receives, which progressively diminishes the martyr's ability to keep open a perpetual flow of energies from the Divine because the martyr does not allow the Self to receive.

Martyrdom is not a demonstration of Love,
It is an exhibit of Love Deprivation.
The remedy for Martyrdom is
OMNI-LOVE.

OMNI-LOVE: Fully Expressing the Love Vibration

The greatest love that can be embodied in human form is OMNI-LOVE. OMNI-LOVE is a pure state of vibrational frequency co-resonance between the human identity and 12 dimensions of reality within which the human ecology is located. Omni-Love is expressed in human form as Christed Love or Christos Consciousness, the 12th-Dimensional Love of the Mahanic Level of Identity.

Christos Love is a state of full-frequency resonance with everything existing in the many universes contained within 12 Dimensions of the 15-dimensional System. It is a transcendent love that is attached to no thing, but is AT ONE with ALL THINGS in a state of perpetual Engaged Detachment. Through Christos Omni-Love, the Self is known as an extension of God, or the Divine Source, temporarily made of form worn by the ONE CONSCIOUSNESS of the Cosmos. All things and beings are known as simultaneous expressions of the ONE-SELF that is God-Source. From the state of transcendence in love, all activity is understood to exist within the reality of LOVE and all conflicts and strife are viewed as the ONE-SELF progressively expanding the ability of its expressions to carry the frequencies of energy that constitute ONE-LOVE, a state of total vibrational Frequency Co-resonance with the Cosmos.

Activation of the full 12-Strand Silicate Matrix DNA Template and full integration of the Mahana Hova Body Avatar identity allows for the experiential embodiment and transmission of Christos-Omni-Love. Embodiment of Omni-love is the goal toward which human evolution moves forth. Omni-Love is Soft, Tough, and Enduring, honoring Self, Other, and the Divine simultaneously. It is the strongest healing force of frequency in the four Harmonics of Matter Density. Christos-Omni-Love is the fulfillment of the Christos Principle. Strive to bring Omni-love into your life, and personal and client healing facilitation, and you will assist your higher identity levels to create transformation! Omni-Love is the natural structure of reality. AWARENESS of Omni-Love is cultivated through intentional and appropriate use of personal free will choice in congruence with the natural Laws of the Unified Field Physics of Consciousness and Creation.

Through living in Omni-Love, all moments are known as Sacred, all beings are known as Blessed, and Life becomes an ecstatic study in Reverence for Existence.

EXERCISE

The MAHARA SPACE COMFORT-TOUCH

BEHALE: Hierophant Speaks! Inner Sealed Initiated, Green Crystal Body Garment, into Earth's Core Chakra 12! Your BEHALE Power and back up in Your Mahara Shield, 12" below the floor. Spin the Merkaba to activate Mahara Shield and Mahara Soul Pillar. BEHALE energy up from Your Mahara Shield into your Domestic Sphere at Chakra 4.

1. Awaken slowly and deeply with your eyes closed and Crystal Sphere in the center of your Domestic Sphere at Chakra 4. This is the Holographic Crystal Sphere that represents the essence of your inner AVATAR identity. Talk to the MAHARA SPACE. Focus your consciousness within the Holographic Sphere and feel it really around you, as if your body is encased within the Holographic Sphere.

2. Observe the interior of the Sphere as a pale Silver-White mist. Within the mist now envision a golden lemniscate shield - because you had left your shield long ago in one day and time. This represents your higher Arc of the Covenant - a doorway to activating your ancient ancestral heritage. Mentally command the Arc of your inner Arc of the Covenant to fill the Sphere, pale rainbow colored light fills the interior of your Holographic Sphere. Notice now that within the golden lemniscate is a gleaming Silver Sword, the Silver Sword of Power that will enable you to more readily create in your ethereal state of being.

3. Mentally reach the Silver Sword - as it now has greater size, flowing above the body in a vertical position. Now call to mind the image of your body as it is within the physical world. Imagine the Silver Sword positioned above the body in an "Attention" - BEHALE and steadily lower the Silver Sword through the 7th Chakra and down the Central Sushumna Merkaba Vehicle and then into Earth's Core. Observe the Silver Sword as it forms a Pillar of Pure Silver Light with pale rainbow colors flowing through it. The Rainbow Pillar now connects and runs through your body, running from deep within Earth's Core, up your body, and out through the crown chakra and into the Holographic Sphere. Notice now that the Rainbow Pillar is a conduit of pure energy, allowing for deep grounding and connection to the Rainbow Pillar that is the essence of your inner nature, making you more and more Akashic - more light.

4. As you feel the connection of your Rainbow Pillar to your body, become aware that your body is beginning to glow with Pale Silver Light - the Protective Shield Light of dimensions 8, 9, and 10. Feel the fullness of your body and the luminescence of your body's energy field as it is filled with Silver Light. The form of the body still remains but has been infused with Pale Silver Light Holographic form of the greater Heavenly Self. Observe yourself now as the greater Akashic Self, and feel the essence of pure love and eternal light emanating from your Heavenly Self.

5. Now BEHALE and draw the Rainbow Pillar into the Holographic Sphere at Chakra 4, and visualize the Pillar pulling up from Earth's Core and the portal above you, at least simultaneously, connecting into the body of the Sphere. BEHALE the energy of the Rainbow Pillar into and into the Holographic Sphere and observe the Holographic Sphere become a radiant Silver ball of Liquid Light, stationed with your Domestic Sphere in the Heart Chakra.

Observe yourself now as the greater Akashic Self, and feel the essence of pure love and eternal light emanating from your Heavenly Self.

5. Now BEHALE and draw the Rainbow Pillar into the Holographic Sphere at Chakra 4, and visualize the Pillar pulling up from Earth's Core and the portal above you, at least simultaneously, connecting into the body of the Sphere. BEHALE the energy of the Rainbow Pillar into and into the Holographic Sphere and observe the Holographic Sphere become a radiant Silver ball of Liquid Light, stationed with your Domestic Sphere in the Heart Chakra.

THE MAHARA SPACE COMFORT-TOUCH

You may now transmit the frequencies of the 4th Harmonic, dimensions 10, 11 and 12, to serve as a healing force for others. You may transmit this energy to your environment directly through the 4th Heart Chakra, where it will enter the Auric Field of the 4th Dimensions and plane. You may use the breath to move the Holographic Sphere down to the 3rd Chakra for 3rd Dimensional consciousness for family environment and the Mental Body levels of people's bio-energetic field. You may transmit through Chakra 2 into the Tellus or Elemental Kingdom of the planet and the people's 2nd Dimensional Emotional bodies. Or you may transmit the frequencies of the Silver Sword through the 1st Base Chakra to activate humans or animals, plants, or stones in the Heavenly and Aware Dimensions of the collective and sub-atomic fields around you. To transmit the frequencies of the Silver Sword through the chakras, simply use the EXHALE breath to move the Silver Light Hologramic Sphere down to lower chakras, simply not exhale, and see the next EXHALE through the frequency outward from the selected chakra into the environment. Use an EXHALE breath to move the Holographic Sphere up through the chakra system. Always move the Holographic Sphere up or down along the Central Body Current to which the core of each chakra is attached.

I You may also transmit the frequencies of the Silver Sword through APPLIED TOUCH. THE COMFORT TOUCH - to amplify specific healing vibrations and to establish a more harmonious rapport with other people and conscious beings as you enhance the Silver Sword Light charged Holographic Sphere at the center of your Domestic Chakra at the 4th Chakra. Activate your Domestic - current of the Mahatic Shield and Staff - then visualize the Silver Sword Light from the Holographic Sphere combining with the Green Violet Silver Domestic - current as you EXHALE the current into the Domestic Cords in the arms and into the Domestic Balls in the palms. This application is especially useful to help clients relax during sessions, or to comfort others who may be in distress, irritations or illness. Once you have activated the Domestic - current with your EXHALE and Silver Sword Light charged Hologramic Sphere at the center of your Domestic Chakra, you may then place the palms of your hands over the Crown Chakra, or touch them gently on the left shoulder. The amplified Domestic - current will move out the 4th Dimensional vibratory field, and move by way of the neutral, emotional and physical bodies from there. The COMFORT TOUCH of the MAHARA SPACE can be applied to infants, children, older persons, animals and plants to comfort them and support their general well-being.

PROFESSIONAL USE OF THE KATHARA BIO-SPIRITUAL HEALING SYSTEM PROGRAM

If you desire to practice the **Katharo Bio-Spiritual Healing System®** in a regular professional capacity through Client Service, you may use the techniques provided within the Katharo Healing Manual to begin. Prior to professional use, it is suggested that one becomes a Certified member of the Katharo Alliance through the Azarite Press MCEO (World-wide Consultant) and its appointed representatives.

The Katharo Alliance is a group of dedicated spiritual healing Practitioners and Instructors who have demonstrated a thorough understanding of the Theory and Practice of the Katharo Bio-Spiritual Healing System® and the Katharo Recruiting Process, as deemed necessary by the Azarite Press for professionalism in the practice of Spiritual Healing Facilitation and Instruction.

All members of the Katharo Alliance are Certified Katharo Healing Practitioners and Instructors, and are permitted to practice Katharo Healing Facilitation as SPIRITUAL SERVICE. For the protection of both Client and Practitioner, as well as the whole Universal Inner Sanctuary, Katharo Healing is to be promoted, explained and practiced as a non-diagnostic spiritual healing enhancement service only and is not a replacement for traditional medical diagnosis or treatment.

With regard to teaching the materials, there is a distinction between formal "Teaching" (which is paid for by those attending your class) and "Sharing" (as a small study group in which a small donation would be appropriate for attendees). To teach, a person needs to be a certified member of the Katharo Alliance. To "Share", one does not need to be a Katharo Alliance member but must limit the group size to fewer than 12 persons.

All Instructors and Practitioners must be CERTIFIED to conduct public presentations of copyright materials as listed in this, the authorized Katharo Bio-Spiritual Healing System Manual. (The exception to this would be for a Katharo Alliance applicant who is delivering a presentation which is being observed for Katharo Alliance application purposes.)

To uphold standards of Professionalism and Excellence in practice, the Azarite Press MCEO cannot recognize Non-Registered Facilitators or Instructors as active participants in the Katharo Bio-Spiritual Healing System Program, and thus, Non-Certified Facilitators may use the program and its applications for personal spiritual enrichment ONLY. The Azarite Press MCEO authorizes only Certified Practitioners and Instructors to professionally conduct Client Sessions and Group Instruction according to the latest version of the program.

Certification in the Katharo Alliance as an Independent Spiritual Healing Practitioner and Instructor of the Katharo Bio-Spiritual Healing System® requires formal application, including a written open-book examination. The examination is enacted to reveal levels of which applicants may recall the Katharo strengths, understanding and personal relationship to the practice of Katharo Healing. Facilitators and Instructors within the parameters of Excellence recognized as follows by the Azarite Press MCEO.

PROFESSIONAL USE OF THE KATHARA BIO-SPIRITUAL HEALING SYSTEM PROGRAM – THE KATHARA ALLIANCE

The Kathara System introduced in **The Kathara Bio-Spiritual Healing System ® Level 1 Workshop & Course Manual with Introduction to The Kathara Bio-Spiritual Healing System® Level 2** is destined to become a ***12-level program*** that is focused on "whole being healing through progressive biological and spiritual awakening". Kathara is as much a course on (non-denominational, dogma-free) **Spiritual Integration Mechanics** as it is a Holistic Healing course.

An individual completing training in the **Kathara Level-1 Bio-spiritual Healing System** delivered by a Certified Kathara Alliance Instructor will receive a **Certificate of Completion**, which recognizes the person named as attending and receiving training in the Kathara Level One Bio-Spiritual Healing System.

If you desire to practice the ***Kathara Bio-Spiritual Healing System®*** in a regular professional capacity through Client Service, you may use the techniques provided within this Kathara Healing Manual to begin. Prior to professional use, it is suggested that one becomes a Certified member of the **Kathara Alliance** through the ***Azurite Press MCEO (World-wide Consulate)*** and its appointed representatives.

The **Kathara Alliance** is a group of dedicated spiritual healing Practitioners and Instructors who have demonstrated a thorough understanding of the Theory and Practice of the **Kathara Bio-Spiritual Healing System®** and the Maharic Recoding Process, as deemed necessary by the **Azurite Press** for professionalism in the practice of Spiritual Healing Facilitation and Instruction.

All members of the ***Kathara Alliance*** are **Certified Kathara Healing Practitioners and Instructors**, and are permitted to practice Kathara Healing facilitation as **SPIRITUAL SERVICE.** For the protection of both Client and Practitioner, as well as the ethics inherent to the Teachings themselves, Kathara Healing is to be promoted, explained and practiced as **a non-diagnostic spiritual healing enhancement service only** and not as a replacement for traditional medical diagnosis or treatment.

Certification in the **Kathara Alliance** as an **Independent Spiritual Healing Practitioner and Instructor** of the **Kathara Bio-Spiritual Healing System®** requires formal application, including a written open-book examination and video presentation by the applicant. The examination is intended to reveal areas of which applicants may need to further strengthen understanding and personal relationship to the practice of Kathara Healing Facilitation and Instruction within the parameters of Excellence recognized as intrinsic by the Azurite Press MCEO.

All Instructors and Practitioners must be CERTIFIED to conduct **public presentation** of copyright materials contained in this, the authorized Kathara Bio-Spiritual Healing System Manual. To uphold standards of Professionalism and Excellence in practice, the Azurite Press MCEO **cannot** recognize **Non-Registered Facilitators or Instructors** as active participants in the ***Kathara Bio-Spiritual Healing System Program.*** Obviously, non-certified Facilitators may use this program and its applications for their own **personal and spiritual enrichment. The Azurite Press MCEO authorizes only Certified Practitioners and Instructors** to professionally conduct Client Sessions.

With regards to teaching the program there is a distinction between 'Teaching' and 'Sharing'. Teaching is defined as formal presentation of the materials following protocols detailed in the Kathara Bio-Spiritual Healing Systems® Manual and communications to Kathara Alliance applicants and members in the form of a seminar, workshop and payment is made by attendees. To teach the Kathara Bio-Spiritual Healing Systems® one needs to be a member of the Kathara Alliance. Sharing is defined as leading a study group where attendees are not expected to pay (it would not be inappropriate to accept small donations, if offered). To share one does not need to be a member of the Kathara Alliance but group sizes should be limited to less than 12.

Within the Kathara Bio-Spiritual Healing Systems® there are specific pages for Kathara Alliance instructors to use in their classes. The instructor's pages are identified by having a number at the top of the page (as well as the regular number at the bottom). These are the only pages that can be photocopied for teaching purposes. Only certified Kathara Alliance members (or a Kathara Alliance applicant who is delivering and recording a workshop for assessment purposes) are authorised to photocopy these pages.

The easy-reference instructor's pages need to be sequenced in the order denoted by the number at the top of the page. These pages have been carefully organised to facilitate delivery and learning of the materials. Learners' needs, including varying learning styles and preferences, were very much considered when preparing the text and visual presentation of these teaching materials. In terms of frequency, the learning process can be described as when previously dormant Scalar Standing Waves in the personal shields are stimulated and activated, enhanced or 'switched on'. As frequency is accessed by progressive exposure to and interaction with the materials the brain wave in the personal shield self-sustain (we would say the person has 'learned' the material). The specific sequence of the pages are designed to create optimum frequency activation in the personal shields of learners, even if this is not immediately perceived or understood by the learner. Therefore it is imperative that these pages are used in the delivery of this program and the instructor remains true to the given sequence.

As Independent Spiritual Healing Facilitators and Instructors, all Certified Facilitators and Instructors are expected to accept full personal responsibility and legal liability for the practice and application of the Kathara Bio-Spiritual Healing Systems®. Certified Facilitators-Instructors are not required to pay dues, royalties or revenues to the Kathara Alliance APPROVED for use of this program other than the cost of initial personal Training-Registration and of obtaining supplies of Session Manuals, Certificates and Registration Examinations for the professional instruction-Certification of others.

Putting it All Together - Running a Client Session

The Kathara Bio-Regenesis Techniques provided in the Level-1 Kathara manual can be used together to create a powerful Bio-Spiritual Healing Facilitation called the Mahatic Recoding Session. The Mahatic Recoding Session activates the Client's personal Mahatic Shield and Seal, begins the process of restoring the Client's Organic Imprint for Health, the Christos Mahatic Template, and enables the natural internal processes of recoding the Client's personal Manifestation Template to the perfected form of the Pre-matter Mahatic Shield. The Mahatic Recoding Session can be conducted for a client only once for gentle stimulation of the natural healing energies, or it can be repeated as often as two to three times per week for intensified healing support or to expedite DNA Template activation.

Like all Bio-Regenesis Technologies, the Mahatic Recoding Session gently stimulates more rapid, natural activation of the personal DNA Templates and Kundalini energies, and expedites the intrinsic processes of higher identity integration, Nova Body merger and release of the Crystal-Seed Kundalini Star Crystal Seals. Once set in motion, these internal processes boost the strength of the personal Organic Imprint for Health while simultaneously beginning the process of Regenesis of the original 12-Strand Silicate Matrix DNA potential within the human genome and Manifestation Template. The Mahatic Recoding Session not only assists and supports the client in the objectives of creating and maintaining health and well-being, it also prepares the Body-Mind-Spirit system for renewal of the promise of Transmutational Dimensional Ascension. The Mahatic Recoding Session amplifies the beneficial effects of all other healing therapeutics and is compatible with all other forms of allopathic and holistic healing.

The Client Agreement Form

If you are planning to initiate professional private practice of the Kathara Bio-Spiritual Healing System through individual Client Sessions, it is highly recommended that prior to every Client Session you review with the client the terms, delegation of liability and explanation of services as described in the Client Agreement Form. For your personal legal protection and to protect the rights and interests of the client, secure the client's signature on the Client Agreement Form. Keep one copy of the signed form on file for your records and provide a copy for the client to take home. If you will be adding additional healing therapies to Kathara Healing applications, this inclusion should also be explained, and authorized by the client prior to rendering services to avoid potential misunderstandings.

THE 6-STEP MAHARIC RECORDING SESSION

Before Client Arrives: Technique 01 - Activate your Mantra. Connect Nature-Space-Comfort-Touch Exercise and silently request permission from client's Adult identity level to apply Comfort touch when client arrives. Create a calm, pleasant environment where you will not be interrupted by phone or other distractions. Optional: Sing 3 rounds of the Amen-Ahum-Men-A song to amplify personal healing and DNA Template activation during healing facilitation session.

When Client Arrives: Apply Comfort Touch 1 - First gain verbal permission - Sit with client and review terms of the Client agreement Form and ensure client's signature on form. Offer client the option of audio-taping the session for client-at-home review.

6-Step Technique Application Sequence - Maharic Recording

1. **Technique 02** - The Maharic Seal and the Liquid Light Cleanse to seal and clear personal life fields.
2. **Sequence 1 Nature Points** message - Read your palms, then client's hands - Via Elbow Massage™ above Chakra-physical body, to open Nature Love.
3. **Technique 03** - Opening the Healing Channels to activate your Dynamic Phase 1 healing current and **Technique 04** - Amplifying Inner-Audio-Visual and Nature Eden to locate source for healing in client's Nature Self.
4. **Technique 05** - The Maharic Initiation, to activate client's Maharic Shield and Seal, provide client's Nature Self to the Maharic Shield and allow Maharic Infusion.
5. **Optional:** Apply Etheric passages to neuro-zones, or employ other healing therapeutics after Maharic Infusion.
6. **Sequence -2 Nature Points Etheric message** to revitalize core body systems and close Nature Lines. Allow client to rest a few minutes before leaving. Answer any client questions and allow time for the new experience to deepen.

When Client Leaves: To ensure clear bio-fields while Double-7 Current is still running, draw energy up from Earth Balance Shield and into Maharic Current through your Nature Self and body, up to Chakra-14 and back down to Chakra-13, then pull a Pillar of Silver Light out of Chakra-14 and ENHALE it to ensure complete body and client field clearance prior Sequence-2 Nature Points to revitalize bio-field systems and close Nature Lines.

CHAPTER 4 HIGHLIGHTS

GENERAL KATHARA HEALING FIELD WORK

- Activation of **Triadic Healing Current** requires temporary release of corresponding **Signet Star Crystal Seals** in the **Kathara Level-2 Crystal Seals Grid**
- **Meharic** 12th-Dimensional Frequency is required to manually release the Signet Star Crystal Seals to activate **Triadic Healing Currents**. **Kathara Healing** utilizes **Meharic** Frequency to activate **Inter-dimensional Triadic Healing Currents** for more powerful healing support
- Most healing systems have not used **Meharic Current**, because the Planetary Template Complex could not run 12th-Dimensional **Meharic** Frequency for over 200,000 years, until January 2000
- Release of the Signet Seals also activates dormant Glands in the DNA Template and releases the Cranial-Sacral Seals on the **Kundalini** Energies. **Kathara Healing** represents advanced, **12-Dimensional Kundalini Healing.**

OPENING THE HEALING CHANNELS

- Triadic Phase Currents are activated in the body by using Maharic Frequency from the PBIS to release the Signet Seals of the Internal Template Complex which allows higher dimensional frequency to run through the physical body system for transmission
- Triadic Phase Currents are composed of 3 interwoven frequencies, the Maharic Frequency plus a chosen dimensional frequency and its corresponding frequency from one Harmonic up
- Triadic Phase Currents are directed by their corresponding Color Cap Stone, the Primary Wave Length of the dimensional frequency band from which the current is drawn. Kathara Level-1 activates the 1st Triadic Phase Current, the Silver (D-12) + Green (D-4) + Violet (D-7) DORADIC PHASE-1 Current.
- Doradic Current is activated through the Maharic Shield, then collected in the 4th Chakra DORADIC SPHERE, projected down the DORADIC CORDS in the arms and into the DORADIC BALLS in the Palm Chakras for DIRECT INDUCTION of frequency transmission in healing facilitation

PALM CHAKRA POLARITY

- The **Palm Chakras** are **Secondary Chakras** located in the **Palms of the Hands**. Like all Chakras, they function as **Black-White Hole Sets** for **transmitting** and receiving energy between the personal Manifestation Template and the dimensional Unified Fields of energy.
- The Palm Chakras are **double vortices** of energy, with **one spiral** exiting the **Palm** and its corresponding spiral exiting the **back of the hand**. The **2 Spirals** of the Palm Chakras are linked by a **Crystal Seal** at the center point where the 2 vortices meet. In one Palm Chakra, one spiral rotates clock-wise, is **Base Electrical** and **transmits energy** out of the body and the other spiral rotates counter-clock-wise, is **Base Magnetic** and **draws energy** into the body.
- In **Level-1 Kathara Healing**, the **RIGHT PALM** is the **TRANSMITTING HAND** and the **LEFT PALM** is the **RECEIVING HAND**. For transmission, the Standard Hand Position is **LEFT Palm** placed over the back of the **RIGHT HAND** for pure transmission and control of **specific frequency**, transmitted from the **RIGHT PALM**.
- The **RIGHT PALM** is **BASE ELECTRICAL**, the **LEFT PALM** is **BASE MAGNETIC** but both have subtle electro-magnetic capacity.

THE KARMIC-MIASMIC IMPRINT

- To enter manifestation in time, identity enters cycles of **SIMULTANEOUS INCARNATION** within the **4 Harmonics of Matter Density** in **12-Dimensions** of the 15-Dimensional **Time Matrix**. The **PRIMAL ORDER Scalar-wave Template** through which an identity enters time is the Density-5 (dimensions 13, 14, and 15) **RISHIC SHIELD**.

- The **Rishic Shield** holds, in the Time Matrix, the identity of the **Family of Consciousness** from which **incarnates** emerge. The Scalar Patterns of the Rishic Shield represent the tangible **'DIVINE RIGHT ORDER'** in energy and consciousness, for each incarnate manifesting from it. The individual identity must realign its **Manifestation Template** with this **Primal Order** to become free from the Time Matrix in **full Ascension**.

- The **Density-4** Pre-matter Hydro-plasmic **MAHARIC SHIELD** (Dimensions 10, 11, and 12) is the Scalar Template through which identity manifests in the lower-dimensional Densities and which **connects the individual incarnate** to its **Rishic Shield**. The **Maharic Shield** is often called the **PERSONAL CHRISTOS Template**, and it holds the consciousness and **Perfect Primal Order** for all incarnations of an identity in time.

THE CHRISTOS TEMPLATE AND PRIMAL ORDER

- To enter manifestation in time, identity enters cycles of **SIMULTANEOUS INCARNATION** within the **4 Harmonics of Matter Density** in **12-Dimensions** of the 15-Dimensional **Time Matrix**. The **PRIMAL ORDER Scalar-wave Template** through which an identity enters time is the Density-5 (dimensions 13, 14, and 15) **RISHIC SHIELD**.

- The **Rishic Shield** holds, in the Time Matrix, the identity of the **Family of Consciousness** from which **incarnates** emerge. The Scalar Patterns of the Rishic Shield represent the tangible **'DIVINE RIGHT ORDER'** in energy and consciousness, for each incarnate manifesting from it. The individual identity must realign its **Manifestation Template** with this **Primal Order** to become free from the Time Matrix in **full Ascension**.

- The **Density-4** Pre-matter Hydro-plasmic **MAHARIC SHIELD** (Dimensions 10, 11, and 12) is the Scalar Template through which identity manifests in the lower-dimensional Densities and which **connects the individual incarnate** to its **Rishic Shield**. The **Maharic Shield** is often called the **PERSONAL CHRISTOS Template**, and it holds the consciousness and **Perfect Primal Order** for all incarnations of an identity in time.

"Karma" is the result of **Free Will** choices made by **Incarnates** that involve using personal energies in ways incongruent with the natural **Laws of Universal Unified Field Physics** and the **Primal Order** of the **Christos Template**. Karma creates **scalar-wave distortions** within the Scalar Shields of personal 15-Dimensional Anatomy that **manifest physically as energetic cluster** called **MIASMS**

Miasms are unintended groups of anti-**particles** lodged within the particle field of the personal **Manifestation Template** that block and impede the **natural flow of energy** and consciousness into embodiment. **Miasms** and the misshapen scalar-wave distortions that form them, are the **cause of ALL** disease and disharmonic conditions

Health and Harmonious flow of energy are the **natural conditions** of human design. The **Maharic Shield Personal Christos Template** holds the **Organic Imprint for Health** for all simultaneous incarnates of an identity, and can therefore be used to **clear the Karmic-Miasmic** imprint from the personal Manifestation Template to progressively restore **Healthful Primal Order.**

- Miasms from **all simultaneous incarnations** manifest within the persona. Man festation Template and within the DNA Template of each, where they become literal **genetic distortions**.

- Each of an identity's incarnates in various time cycles represents one **TIME VECTOR**, which is encoded in the Vector Codes of the **DNA Template**. Karmic-Miasmic **bleed-through** occurs **between incarnates** from different concurrent time cycles through the **living link** of scalar frequency that exists between the **DNA Templates** of simultaneous incarnations.

- The **Karmic-Miasmic Imprint** does not have to be suffered and cleared the "**old-fashioned way**" by "walking through the Karma in physical reality." The **Miasmic Imprint** can be cleared **as energy, with energy**, to prevent its manifestation in physical terms via realignment of the **DNA Template** with the personal **Maharic Shield**.

- Any given incarnate can clear the Karmic-Miasmic Imprint by realigning the personal Manifestation Template with the shared Christos Template Maharic Shield. This process is called **MULTI-VECTOR HOLOGRAPHIC RECODING**, which creates **BIO-REGENESIS** of the original 12-Strand Silicate Matrix **DNA Template** of human design and restoration of the **Organic Imprint for Health**.

ATTITUDES AND ETIQUETTE IN HEALING

- Holographic Recoding and clearing the Karmic-Miasmic Imprint from the personal Manifestation Template begins with activation of the **Maharic Shield and Seal** in the b o-energetic field and progressive running of the 12th-Dimensional **Maharic Frequency** from the **Personal** and **Planetary Maharic Shields** through the **3 Primary Levels** of the embodied Kathara Grid; the Level-1 **12-Tree Grid**, Level-2 **Crystal Seals Grid** and Level-3 **Diodic Points**.

- Personal Holographic Recoding begins with consistent use of ***Technique #2*** **– The Maharic Seal and the Liquid Light Cleanse**, and is further accelerated by facilitating **Maharic Recoding** in others through running the **Triadic Phase Currents** for **Co-generative Healing**.

- One can facilitate healing in others and amplify personal healing through using ***Technique #5*** **– The Maharic Infusion**.

- The **Maharic Recoding Session** utilizes the combined **Bio-Regenesis Techniques** presented in **Level-1 Kathara Healing** to facilitate **Client Healing Sessions**.

- Professionalism in Healing Facilitation requires an understanding of the **Postures of Love** and a willingness to **cultivate** the ability to hold and transmit **OMNI-LOVE**, **honoring the Divinity of ALL things and beings**.

- The Primary Postures of Love are **SOFT LOVE**, **TOUGH LOVE**, **SELF LOVE** and **OMNI-LOVE**.

- The emotionally experienced quality called **LOVE** is a **REALITY IN ENERGY PHYSICS**. LOVE is a **STATE OF VIBRATIONAL FREQUENCY CO-RESONANCE** that allows **free flow of energy** between consciousness within the Universal Unified Field.

- The human **12-Strand DNA Template** was designed to allow **12-Dimensions of Vibrational Co-Resonance**, the **Christos Consciousness** of the **Maharic Shield**, to embody in human form. **CHRISTOS-OMNI-LOVE** is Vibrational Co-Resonance with all that exists within **12 Dimensions** of the Time Matrix; its embodiment is the **primary goal** toward which **human evolution** progresses.

- Christos-OMNI-LOVE is the **strongest healing frequency** available within the Densities of Space, Time and Matter, and is **essential** for effective **Healing Facilitation** and personal **Ascension**.

The Reality of Spiritual Integration

- **Spiritual Actualization** is as much a function of Divine Physics as it is a product of Divine Consciousness. The natural Primal Order of Universal Structure sets the Templates of Manifestation, to which consciousness must conform, to enter the experience of manifest expression within a space-time-matter system.

- The personal Christos **Maharic Shield Manifestation** Template and the Christos Tribal Shield Species Manifestation Template are microcosmic replicas of the macrocosmic Primal Order, upon which Universal and Cosmic structure are built.

- The Personal D-12 Christos Divine Blueprint Maharic Shield connects each individual Christos self to the larger D-12 Christos Divine Blueprint of the Species. The D-12 Christos Divine Blueprint is called the **TRIBAL SHIELD**.

- To understand the realities of personal Spiritual Integration and Actualization in order to fulfill our personal life purpose it is important to comprehend the basic Primal Order structures of energy, the personal D-12 Maharic Shield and the D-12 Species Tribal Shields through which our consciousness manifests in time.

- The secrets to reclaiming the **Divine Birthrights and Responsibilities** of Angelic Human heritage are hidden within the realities of the **Tribal Shield** and the specific **'Fire Letter Sequences'** of the Tribal Shield that manifest within and govern the function of the Angelic Human **DNA Template**.

- The key to **Spiritual Actualization** is activation of the dormant personal 12-Strand DNA Template. Activating the Tribal Shield

- The 12-dimensional Tribal Shield is the dormant Species Divine Blueprint within the DNA Template core of the Angelic human races of the 4 Evolutionary Rounds. The frequencies of energy and dimensions of consciousness of the 1728 simultaneous selves of the Personal Eternal Christos Identity can be activated in one moment through sequential activation of the Fire Letter Sequences or "Flame Codes" of the Tribal Shield.

- The "Flame Code Fire Letters" within the DNA Template are the DNA Signet Codes that correspond to Earth's 12 Primary Star Gates and the Planetary Shields through which the planetary body manifests. The Flame Codes serve as the core foundation of the personal 12-Strand DNA Template.

- The DNA Template Flame Codes of the Tribal Shield allow for the Primal Life Force Currents of the Density-5 (dimensions 13-14-15) Kee-Ra-ShA Primal Light Fields and the Khundalony Primal Sound Fields from the Energy Matrix, beyond the 15-Dimensional Time Matrix, to embody more fully within the Angelic Human form.

- A Fire Letter is a fixed point of consolidated frequency that holds specific frequencies of consciousness into manifest form. The Manifestation Templates or Divine Blueprints of all things manifest are built upon intricate patterns of interwoven Fire Letters called Fire Letter Sequences. The Flame Codes of the Angelic Human personal DNA Template and Species Tribal Shield are composed of the same Fire Letter Sequences that make up the Divine Blueprint of Earth's Planetary Shields.

- Activation of the Tribal Shield sets in motion simultaneous "ring" or activation of the 144 Fire Letters (12 Fire Letter Sequences) of the 12-Strand DNA template, expediting the natural evolutionary process of Soul Over-Soul and Christos Avatar Identity Integration through progressively opening the Trans-time DNA Template Star Gates.

- Activating the 12-Strand DNA Template allows the D-12 frequency of the Universal "Christos" Mahanata Current to activate within and run through the Angelic Human DNA Template and into the Earth's Planetary Shields. Activation of the Mahanata Current, within groups of Angelic Humans on Earth, allows for collective anchoring of the D-12 Planetary Christos Divine Blueprint, the Shield of Ascendara, to achieve fulfillment of Angelic Humanity's Sacred Commission of the Planetary Christos Realignment Mission.

Tribal Shield Activation Creates Cue Zones In Earth's Planetary Shields

Cue Zones

"Cue Zones" are locations on Earth where a small portion of Earth's D-12 Shield of Aramateira **Christos Divine Blueprint** has been re-set within Earth's Planetary Shields. During Stellar Activation Cycles, Cue Zones can be manually set by individuals or groups by running the **D-12 Maharata Current**, activating the Tribal Shield to draw in the Khundaray Primal Sound frequencies, then singing the 12-Tribes **Master Psonns Suffixes** and running the tones through the body and feet and into Earth's Planetary Shields. After running the Master Psonns Suffixes, one can then allow the **"Song of the Christos Soul"** the tones of the personal D-12 **Maharic Shield** (the "Elohei-Elohim Within" to run into the Planetary Shields. The personal Soul Song will create a **"Back Song"** transmission of frequency from Earth's Planetary Shields, a set of healing frequencies sent back to you in response to activating your Soul Song in Earth's Planetary Shields. Once set, Cue Zones will remain for a period of **3.5 to 5 years**, depending on the strength of energy originally set. They can be **recharged** using the same "setting" procedure to last indefinitely.

Cue Zones are **"safe zone"** areas on the Planet that are protected from interdimensional interference. They can be used to amplify effects of energy healing applications, to **'charge' objects and substances** with sub-harmonics of D-12 Christos frequency and, when used with the personal Temporary Maharic Seal, to get clear, protected **'meditation space'** free from interdimensional interference. Cue Zones are **"keyed"** to Earth's **Planetary Templar 'Cue Sites'** the activating sites for Earth's 12 Primary Star Gates, which exist on regions of Earth that correspond to the 12 Primary Star Gates of Inner Earth.

During Stellar Activation Cycles, Cue Zones can be manually set by individuals or groups by running the D-12 Maharata Current, activating the Tribal Shield to draw in the Khundaray Primal Sound frequencies, then singing the 12-Tribes Master Psonns Suffixes and running the tones through the body and feet and into Earth's Planetary Shields. After running the Master Psonns Suffixes, one can then allow the "Song of the Christos Soul" the tones of the personal D-12 Maharic Shield (the "Elohei-Elohim Within") to run into the Planetary Shields. The personal Soul Song will create a "Back Song" transmission of frequency from Earth's Planetary Shields, a set of healing frequencies sent back to you in response to activating your Soul Song in Earth's Planetary Shields. Once set, Cue Zones will remain for a period of 3.5 to 5 years, depending on the strength of energy originally set. They can be recharged using the same "setting" procedure to last indefinitely.

Cue Zones are "safe zone" areas on the Planet that are protected from interdimensional interference. They can be used to amplify effects of energy healing applications, to "charge" objects and substances with sub-harmonics of D-12 Christos frequency and, when used with the personal Temporary Maharic Seal, to get clear, protected "meditation space" free from interdimensional interference. Cue Zones are "keyed" to Earth's Planetary Templar 'Cue Sites' the activating sites for Earth's 12 Primary Star Gates, which exist on regions of Earth that correspond to the 12 Primary Star Gates of Inner Earth.

Tribal Shield Activation Creates Cue Zones In Earth's Planetary Shields

Cue Zones

"Cue Zones" are locations on Earth where a small portion of Earth's D-12 Shield of Aramateira Christos Divine Blueprint has been re-set within Earth's Planetary Shields. During Stellar Activation Cycles, Cue Zones can be manually set by individuals or groups by running the D-12 Maharata Current, activating the Tribal Shield to draw in the Khundaray Primal Sound frequencies, then singing the 12-Tribes Master Psonns Suffixes and running the tones through the body and feet and into Earth's Planetary Shields. TECHNIQUE # 6: THE MAHARIC QUICK SEAL

Work with a 24 pointed Dimensional Star Hierophant and be aware that you will be working with beings known as the Shemsu Hor.

2. Begin by slowing your breathing as you imagine or visualize a 24 point, 4-Dimensional Hierophant at the Pineal Gland in the center of your brain. Visualize the Hierophant surrounded by a Pale Blue Sphere of Light.

3. INHALE as if you are going to grab the blue sphere containing the 24 pointed star, located at the Pineal, and on the EXHALE move the 24 pointed star blue sphere, all the way down to Earth's Core. Try to hear a sound tone as the Hierophant Sphere hits the Planetary Shield.

4. INHALE and draw the Hierophant Sphere up in your Personal Maharic Shield, 12" below your feet, and EXHALE while watching the Pale Silver-Blue Sphere expand out to a large sphere, and watch as your Maharic Shield pops out as a disk about 4 feet in diameter. Pale Silver with a light coating of Pale Blue.

5. Bring your attention to the center of your Maharic Shield, 12" below your feet, and INHALE the 24 pointed Star (only) up into the Heart Chakra. EXHALE, expanding the 4 dimensions of the 24 pointed Star into the Heart Chakra.

6. INHALE to grab the 24 pointed Star and EXHALE pushing the Star up into the 14th Chakra, 36" above the head. Imagine that the 24 pointed Star is spinning in a clockwise direction in the 14th Chakra. As you do this, try to feel or see the energy around you, and a few inches in front your body.

Now, put your attention into your Maharic Shield, 12" below your feet. Take a couple of relaxing breaths and INHALE deeply pulling the Pale Silver and Blue energy up as if you are pulling on your Maharic Star to reach from the 14th Chakra. Try and feel the connections just a few inches from your body now - feel the difference if you can. Pull accordion gloves you a Quick Seal.

8. Now envision the cord of Pale Silver Maharic Light that would normally come up with your Shield and focus on the Earth's Core. Begin drawing energy all the way up the 4" diameter cord and into the body. INHALE the energy up into the Heart Center and expand it there. Begin to form a pale Silver ball of Maharic frequency.

On each EXHALE send your energy down to the Earth's Core to bring up another load of Maharic frequency, up into the Planetary Shield, expand it into the heart center and expand several times. Notice that the cord grows larger as you do this, expanding from approximately 4" to 6" to 8" in diameter. Until finally it feels like a tree around you and is wrapping your body. Begin to form a pale Silver ball of Maharic frequency.

9. Move your attention to the Pale Silver ball you have created in your Heart Center. INHALE and move it up to the 14th Chakra 36" above your head. As you do, feel for the stretch of Maharic Frequency wrapping your chakra body, close to your skin. The Maharic Chakra skin changes and saturates your chakra body - feel the pervasiveness and all-knowing nature of this frequency.

Technique # 7: Fs-13 Tribal Shield Activation

The Master Key Tones

The 12 -Tribes names were audible - tone translations of the specific Fire Letter Sequences contained within the Tribal Shield DNA Templates of each Tribe. The tones of the Tribal names were used to activate the 144 Fire Letters of the Tribal Shield in the personal DNA templates, providing the Angelic Humans here with the ability to consciously regulate the activation level of their DNA Templates and Primal Life Force Currents.

- The Sound - Tone Programs that are used to activate the DNA Templates and Primal Life Force Currents are called "The Sacred Phonics". The Tribal name was the Master Phone in naming the Rainbow Bridges, the Sigma Council Rings is brought into Tribal Shield "Flame Codes" into activation by singing rounds of the Sacred Master Phones.

Tribal Shield-Cue Zones Activation

Creating a Cue Zone

Choose a location and activate a personal "Maharata Quick Seal" to "run the D-12 Maharata Current" in your body.

2. Once you can feel sensation of Maharata Current running, sing-tone 12-Tribes Master Powers (names) for Tribe-12 and Tribe-1 to activate Tribal Shields Flame Codes in your DNA template to run the "Rainbow Ray" Direct Pole Shift Maharata Current and Rainbow Ray pole color spectrum through body and out poles of feet into Earth's Planetary Shields. Tone for a while to build critical mass of frequency.

3. Use a selected combination of 3 Master Psalms-Suffixes and tone for a while, running sound through body and feet into Earth's grids. (Avoid the Suffix combination of Tribe 4-7-10, used in that sequence, to avert present distortions in Earth's grids that run on this mathematical coding.)

4. Allow the Christos Soul Song to emerge from you "free style" and send the tones into Earth's grids.

5. When complete, sit quietly for a while and listen for the Earth's telepathically transmitted "Back Song" drawing its gentle frequencies into your body for healing.

6. Close with singing several rounds of the 3 Master Psalms-Suffixes that you opened with. The Cue Zone you have set will extend out from your position in a radius of about 3 yards and will last 3-5-6 years, depending on the strength of energy you used in setting the Cue Zone.

7. To amplify strength of Cue Zone, you can use the "Merkaba Spin" just after closing. Remain in same position, stand and gently spin first clockwise (as if you are standing in the middle of a clock face with the "6" in front of your feet, the "3" at the left hand, the "9" at the right hand and "12" directly behind you). Spin gently clockwise to bring electrical frequency down through your "top" Merkaba spiral. Then slow, stop and reverse spin to counter clockwise to activate "bottom" Merkaba spiral" drawing frequency up from Earth's grids. Personal Merkaba Activation will accelerate the frequencies of the D-12 energies you set at the site, making the Cue Zone stronger and more lasting.

The Sacred Salutations

The Solar Salutation
Electrical Merkaba Activation

- The ancient Mu'a and Lemurian Guardian Races ran the Maharata and activated the Tribal Shield each day to conduct the Sacred Solar and Lunar Salutation Rites each morning and evening. The Sacred Salutations are Toning Dances that activate the personal **Merkaba Field** for sustained activation of the DNA Template and amplification of the Maharata and Universal Life Force Currents in the body.

- **Solar Salutations** accelerate the spin of the Electrical Harmonic Merkaba Spiral (Top, CW spin), drawing increased amounts of Electrical Anti-particle frequency from the Solar Electrical Merkaba Spiral light spectrum into the Electrical Acceleration Codes in the DNA Template, to "charge" the body with the Electrical Anti-particle frequency.

- Accelerated **Electrical Merkaba Spiral Spin**, of **Solar Salutations**, increases the amount of **Anti-particle Base-Electrical** frequency brought into the body's **DNA Template** and **Kathara Grid** from the Dimensional Unified Fields, and increases the amount of Anti-particle frequency sent out from the body into Earth's **Planetary Shields**. Frequency passes between the Human Body and Earth's Planetary Shields via the embodied **Kathara Grid** core templates that make up the **Planetary Bio-Fee Interface System** ("PBIS").

- **Electrical Anti-particle** energy enters the body via the "Top" Electrical Harmonic and Dimensional **Merkaba Spirals**, the **Base-Electrical Acceleration Codes** in the DNA Template, the Electrical Kathara Centers 2-5-8-11 of the Kathara Grid Central Pillar, the Electrical aspect of Electro-magnetic Kathara Centers -3-6-9-12 on the Right Side of body ("Left Side Pillar" in Kathara diagram), Electrical Chakras 2-5-8-11 and the Electrical aspect of Electro-magnetic Chakras 1-3-6-9-12

- **Solar Salutations** (CW spin Top Electrical Merkaba Field Activation) raise the body's **Oscillation** (energy transmission-expansion), lower the body's **Vibration** (energy holding-contraction), making the body **Higher Frequency** and **More Electrical** (transmits more energy than it is drawing in).

- A **Higher Frequency Electrical Body** has:
  - **Lower Vibration**, Higher Oscillation/Frequency, **Less Matter Density**.
  - More activated DNA Strands, more chromosomes, embodiment of more levels of consciousness.
  - **Slower** heart, breathing and metabolic rhythms (energy expansion and contraction rates), thus requires less food (burns fuel more slowly).
  - Greater **longevity** and **less sleep** (body can synthesize natural higher frequency energy and Stream of Consciousness for longer periods without sleep).
  - Greater **Silica quantity** in **Silica-to-Carbon Ratio** of elemental composition and **larger size** (more space between cells, more expand matter).
  - Perception of **expanded Space** and **slower Time** movement.
  - Greater **heat release**, thus **cooler** internal temperature.
  - Natural attribute of transmitting greater amounts of energy thrust into the Planetary Shields than it is drawing in/receiving from them (**Energy "giving"**).

- The **Solar Salutations** "charge" the **Top Electrical CW Merkaba Spiral** to maintain its natural cycle of 33⅓ rotations per 1 "trillionth of a nano-second" through which the **Base-Electrical** systems of the body are naturally maintained.

- **Lunar Salutations** accelerate the spin of the **Magnetic Harmonic Merkaba Spiral** (Bottom CCW spin), drawing increased amounts of **Magnetic Particle** frequency from the Lunar **Magnetic Merkaba Spiral** reflected light spectrum and Earth's Planetary Shields into the **Magnetic Base Codes** in the **DNA Template** to "charge" the body with **Magnetic Particle frequency.**

  Accelerated **Magnetic Merkaba Spiral Spin** of **Lunar Salutations** increases the amount of **Particle Base-Magnetic** frequency brought into the body's **DNA Template** and **Kathara Grid** from the Earth's **Planetary Shields**, and increases the amount of **Particle** frequency sent out from the body into the Dimensional Unified Fields.

- **Particle Base-magnetic** energy enters the body via the **"Bottom" Magnetic** Harmonic and Dimensional **Merkaba Spirals**, the **Base-Magnetic Base Codes** in the DNA Template, the **Magnetic Kathara Centers** 4-7-10 of the Kathara Grid on the **Left Side** of the body ("Right Side Pillar" on Kathara Diagram), the **Magnetic** aspect of **Electro-magnetic Kathara Centers** 1-3-6-9-12 on the **Right Side** of body ("Left Side Pillar" on Kathara diagram" **Magnetic Chakras** 4-7-10 and the **Magnetic** aspect of Electro-magnetic **Chakras** 1-3-6-9-12.

  Lunar Salutations (CCW spin Bottom Magnetic Merkaba Field Activation) lower the body's **Oscillation** (energy transmission-expansion) raise the body's **Vibration** (energy holding-contraction), making the body **Lower Frequency** and **More Magnetic** (draws in more energy than it is transmitting out).

- A Lower Frequency Magnetic Body has:

Technique # 8: Merkaba Salutations

Healing the Spin & Balancing Particle/Anti-Particle Ratios

33 1/3-CW 1: 2/3 CCW Christos Merkaba Activation

Note: Unless CW or CCW direction of Merkaba Spin is specified, you are standing, with arms stretched out to the sides, in the center of a round 12-digit clock face. The FRONT of your body faces the "XII" digit, the "III" digit is positioned to your right, you the "IX" digit is positioned at your LEFT SIDE and the "VI" digit is positioned at your RIGHT SIDE. CLOCKWISE "CW" SPIN: Hold LEFT "9" arm firmly out to the side of the body like a "clock hand" and begin Spin toward FRONT, moving the body with the RIGHT arm toward the "XII" digit position in FRONT of your face. COUNTER-CLOCKWISE "CCW" SPIN: Hold RIGHT "3" Arm firmly out to the side of the body like a clock hand" and begin Spin toward FRONT, moving the body with the LEFT arm toward the "XII" digit position in FRONT of your face. The TOP-ELECTRICAL-MALE Merkaba Spiral Christos Spin is always 33⅓-CW rotation.
The BOTTOM-MAGNETIC-FEMALE Merkaba Spiral Christos Spin is always 11⅓-CCW rotation.

Solar Celebration Phase: Sunrise Dawn's First Light & 12:00 Noon[]
Begin with Top-Electrical-CW "Male" Merkaba Spiral activation, followed by Bottom-Magnetic-CCW "Female" Merkaba Spiral
Use the "Top 12 Activations" for "SOLAR" re-Infusing Tone
Lunar Salutation Phase: Sunset time +2:00 Midnight to 3:00 A.M.[]
Begin with Bottom-Magnetic-CCW "Female" Merkaba Spiral activation, followed by Top-Electrical-CW "Male" Merkaba Spiral
Use the " Activation Suite "LUNA" re-Infusing Tone

Activate Merkaba Crystal Seal	(Text input-5)
2. Activate Tribal Shield-Cue Zone	(Text input-7)

3. Stand with arms comfortably straight, breathe slowly, in a relaxed manner and begin quietly loving the Infusing Tone, continuing repetition while progressively increasing the volume and decreasing the Breath Pause that is left between hearing Tone and you can feel the subtle energy of Tone resonating within your body.
4. Activate Final Merkaba Spiral: Tone Unifiers Some find, depending on Solar or Lunar Salutation) by holding arms out to the sides, parallel with the ground, and begin to slowly SPIN in the direction (CW or CCW) associated with the "Christos Spin" of the Merkaba Spiral you are activating. Continue to Spin AND chant, Infusing Tone while progressively increasing rate of Spin and Toning. To prevent dizziness, hold your eyes open and in front with body positioned UP and focus your eyes on the THUMB rather than the spinning scenery beyond. Do not Spin faster than comfort level - this may not always be a measure of 3, between the Infusing Tone and loving the Christos Spin Rate Number "33⅓" for Electrical-Top Spiral, "11⅓" for Magnetic-Bottom spiral" desired.
5. When energy in body feels "charged" (a closeness" Intuitive feeling), slow spin to a gentle STOP while Toning 3 Times the "Om Shuddist Ur-Ank-Khum Tum" (pronounced: Om-Hallo of Ancestors D-12 activation sequence, to amplify the Merkaba Spiral charge. Stand Still and breathe easily for a few moments while Spin subsides, then repeat Steps 3-5 to activate other Merkaba Spiral.
6. End Salutation Ritual with Full Rounds of Infused Toning three "Aries Khum Ra-A" (Song of Christ-Ra) activation sequence) Part-1 "Verum" and 2, to be sung while Walking 2 Circles: one CW, one CCW, beginning Circle Walk with Spin direction of that Merkaba Spiral activation, followed by a reverse-direction Circle, then Standing Still for a few moments to allow the Christos Merkaba Current to run between your body and Earth's Planetary Shields.

The fastest means of naturally activating the Personal 12-Strand DNA Template is:

1. **Tribal Shield Activation:** Activating the **144 Fire Letters** of the Tribal Shield & Sacred Salutations Merkaba Activations.

2. **Emerald and Amethyst Awakening - 2 Masters Kundalini Activations:** Releasing key **Fire Codes** between the DNA Strand Templates to allow for **expedited DNA Strand Braiding.**

3. **DNA Template Bio-Regenesis:** Progressive use of the internally directed DNA Template Bio-Regenesis technologies for progressive purging of Strand Template mutations, restoration of the natural D-12 Christos Divine Blueprint of the 12-Strand DNA Template and expedited, accelerated activation of the DNA Strand Template Base Codes and Acceleration Codes.

4. **Master Key Codes:** Use of the personal scalar-wave-guide Symbol Code Programs that correspond directly to the core programming of the personal D-12 Maharic Shield for further sequential expedition of Strand Template Activation.

5. **Melchizedek Cloister Level – 3 Regent Ordination:** Transmission of the Kee-Ra-ShA Primal Light and Khundaray Primal Sound Field "**Rainbow Ray Current**" directly into the personal **DNA Template** via direct **Chakra Induction**. Sufficient Rainbow Ray frequencies to provide a level-3 Regent Ordination can be transmitted by a Melchizedek Cloister **level-5 Elder Consummate** or **Level-6 Eckar** Indigo Child-Type-1 Maji Grail Line Angelic Humans, who have the frequencies of the Primal Creation Currents integrated into their **DNA Template** from birth. **Expedites all of the above** while providing additional **bio-energetic field support** for more **stable cycles** of DNA Template activation.

The *Khundaray RRT Activation* Sequence

A progression of **manually initiated** *Kundalini and DNA Template Activations* that systematically induce *temporary release* of the **Cranial-Sacral Kundalini Seals** (Pineal Gland & Tail Bone) in their **natural Release-Sequence**, allowing for temporary and ***progressive*** embodiment (nano-second burst of frequency) of the *Primal Universal Life Force Currents*, via **Syncopated Activation** of the **12-Strand DNA Template.**

The ***Khundaray RRT ("K-RRT") Activation Sequence*** allows the Density-4 (D-10-11-12 Pre-matter) ***Maharata Christos Current***, Density-5 (D-13-14-15) ***Kee-Ra-ShA Primal Light Currents*** (Ante-matter Blue, Gold and Violet "Flames") and the ***Khundaray Primal Sound Currents*** (Eckatic, Polaric & Triadic Columnar Standing Waves) from *Source* to run through the DNA Template and body for accelerated ***TRUE 12-Strand or higher DNA Template Activation** and expedited human Spiritual Integration.

For the human body to **hold and transmit a minimum critical mass** of Kee-Ra-ShA and Khundaray frequency to **access the Planetary Shields** and **Star Gates** for ***Masters** (Universal)* ***K-RRTs***, the ***K-RRT Activation Sequence*** must be conducted **4 to 24 hours** prior to the K-RRT. The *K-RRT Activation Sequence* must also be run **2-24 hours** prior to the ***Amethyst Awakening Masters-2 Kundalini Activation***, to prepare the body for the Amethyst Awakening frequencies. The *Amethyst Awakening* (Field Technique-6) can also be run **just before** a K-RRT (following prior *K-RRT Activation Sequence*), to **greatly amplify the power** of the K-RRT and Signet Council group.

There are **5 Specific Operations of Energy Management** within the ***K-RRT Activation Sequence:***

1. **Activating the Doradic Phase-1 Current**
2. **Awakening the KA**
3. **The Emerald Awakening**
4. **Activating the Kee-Ra-ShA**
5. **Activating the RA Center-Anchoring the Rainbow Bridge**

THE KUNDALINI LIFE-CURRENTS AND THE CRANIAL-SACRAL SEALS

The Human body is fuelled by ENERGETIC LIFE-FORCE CURRENTS FROM SOURCE. In contemporary human anatomy, the only life-force currents running fully through the embodied Kathara Grid and body are those corresponding to the SINGLE-VECTOR time cycle of the Density-1 TELLURIC SHIELD. Each of the 4 HOVA BODIES and their corresponding SCALAR SHIELDS, DNA STRAND TEMPLATES, AXI-ATONAL LINES, DIMENSIONS OF CONSCIOUSNESS AND MERKABA FIELD LEVELS process the frequencies of one TRIADIC CURRENT – a 3-dimensional, Bi-polar life-force current. The life-force currents corresponding to the first 9 dimensions and the first 3 Hova Bodies, Matter Densities and Shields are referred to as the KUNDALINI ENERGIES. Each KUNDALINI CURRENT is a TRIADIC CURRENT – a set of 3 dimensional currents that function together and are separated by Magnetic Repulsion Zones within the embodied Kathara Grid. The 3 embodied Kundalini Currents are the TELLURIC, DORADIC and TEURIC CURRENTS.

Each of the 3 Kundalini Currents is spiraled within the regions of the 1st 8 CELLS of human conception, located in the TAILBONE at the Base of the Spine. (The incarnating consciousness anchors its identity and Christos Manifestation Template within the FIRST 8 CELLS, to initiate the FETAL INTEGRATION PROCESS.) The first Kundalini Current, the TELLURIC CURRENT that corresponds to the DENSITY-1 Nada Hova Body, is active within the human form from birth, enabling 3 dimensions of consciousness awareness, in the form of scalar frequency to embody within the human organism. When the 2 dormant Kundalini Currents in the tailbone, the DORADIC and TEURIC CURRENTS, are activated, the frequencies of consciousness from dimensions 4-9 progressively awaken within the body, activating the dormant 4-9 strands of the 12-strand DNA Template. The 3 Primary Kundalini Spirals each contain 3 single-dimension currents and are controlled by the corresponding SIGNET STAR CRYSTAL SEALS in the Kathara Level-2 Crystal Seals Grid. The Signet Seals create polarization between dimensionalized sets of scalar waves within the Scalar Shields, that manifest within the Kathara Level-2 Grid, First Eight Cells and DNA Template as FREQUENCY SEALS or blockages within the TAILBONE (Sacral region) and the PINEAL GLAND in the center of the brain – the CRANIAL-SACRAL SEALS.

When the Cranial-Sacral Seals are released, through activation of the Signet Star Crystal Seals that govern them, the dormant Kundalini Currents come to life within the body, sending progressively higher-frequency energy through the CENTRAL VERTICAL CURRENT of the body. Activation of the 3 Kundalini Currents progressively creates integration of the higher dimensions of consciousness and de-densification of molecular structure. When ALL of the frequencies within the 3 embodied Kundalini Currents are activated, the 4th KUNDALINI CURRENT – the PRIMAL TRIADIC CURRENT, the KEE-Ra-ShA', is activated. The Frequency Seal on the KEE-Ra-ShA is located in the 12th Chakra, 6" below the feet. Activation of the KEE-Ra-ShA' anchors the 12th-Dimensional HYDROPLASMIC BEAM within the body, initiating the process of CELLULAR TRANSMUTATION and intentional de-manifestation and Dimensional Ascension of the human biological form.

THE EMERALD AWAKENING AND THE KEE-Ra-ShA'

The Emerald Awakening Masters Kundalini Activation is one of two inter-harmonic energetic activations of previously dormant frequency within the body that sets in motion simultaneous activation of the 12 MAGNETIC BASE TONES within the FIRE CODES between the 12 Strands of the SILICATE MATRIX DNA Template Activation of the 12 Fire Code Base Tones begins activation of the 3 PRIMAL CREATION FREQUENCIES – the KEE-Ra-ShA – within the 4 Scalar Shields of the PERSONAL INNER TEMPLAR COMPLEX Activation of the 12 DNA Fire Codes allows for progressive, natural fusion of each dimensional DNA Strand Template to occur through which the organic potentials of CELLULAR TRANSMUTATION are re-awakened within the physical body form.

Through the natural processes of Cellular Transmutation once fully operational within the human genetic design, the carbon-based elemental biology of Density-1 molecular structure is progressively and systematically transmuted to SILICA-based biology Transmutation to Silica-based biology allows the physical body to pass through the levels of Semi-etheric Etheric and Pre-matter Hydroplasmic Liquid-Silica Densities of Harmonics 2-4 (Dimensions 4-12) through which the consciousness continually enters manifestation to achieve physical mastery of the organic process of Transmutational Dimensional Ascension To accomplish mastery of the Ascension process the SIGNET STAR CRYSTAL SEALS with the Scalar Shields, which keep the 12 dimensionalized frequency levels of consciousness and molecular form Phase-locked into dimensional division/ polarization must be released Release of the Signet Star Crystal Seals allows the frequency spectra of the higher dimensional anatomy and the Primal Creation Currents of the KEE-Ra-ShA to enter into the Template for the physical body and dormant DNA Fire Code Templates, progressively building the Merkaba Vehicle and setting the Cellular Transmutation process in motion The process of progressive Transmutational Dimensional Ascension represents the function of the organic genetic design and evolutionary objective of the human creation blueprint, through which the natural Eternal Christos-Angelic Form of the human being is actualized

In the evolutionary cycles of contemporary humanity actualization of the 12-Strand DNA potential takes place slowly, in Earthly terms as the incarnate identity experiences single-life-time-vectors, several cycles of Density-1 incarnation, spanning many thousands of years in order to progressively activate the DNA Fire Codes within the Manifestation Template When the human genome was operating in its organic form, this process took place in one lifetime over a period of about 44 years, as the eternal human incarnate matured to embody the 12 dimensions of consciousness within its original Christos Manifestation Template – the MAHARIC SHIELD, actualizing its organic Angelic-human heritage and mastery over 4 Densities of manifestation, within the Time Matrix

The EMERALD AWAKENING Masters Kundalini Activation releases the Density-2 4th-Dimensional Green Signet Star Crystal Seal and the Density-1 1st-Dimensional Red Signet Star Crystal Seal, to open the Density-1 NADA HOVA BODY and TELLURIC SHIELD and Density-2 ALPHA HOVA BODY and DORADIC SHIELD, to receive the Omni-polar frequencies of the 12th-Dimensional MAHARIC CURRENT (Hydroplasmic Beam) from the Pre-matter Christos Template Maharic Shield Upon entering the Telluric and Doradic Shields, the 12-Dimensional frequencies of the Maharic Current trigger simultaneous activation of the Base Tones, within the 12 Fire Codes of the DNA Template, beginning the process of DE-POLAR ZATION of the 12-Strands and levels of consciousness within the human Manifestation Template Progressive de-polarization of the 12 levels of consciousness within the human Manifestation Template sets in motion the organic process of Cellular Transmutation and potential for mastery over Transmutational Dimensional Ascension The Emerald Awakening Masters Kundalini Activation initiates REGENESIS of the original function of the human genome, releasing the Base Tones of the 3 KEE-Ra-ShA Currents within the body, via opening of 2 Signet Seals, through which the physical body begins the carbon-to-silica transmutation process and is prepared to receive the higher dimensional OVER TONE frequencies of the KEE-RA-Sha', to complete Cellular Transmutation via fusion and de-polarization of the particle (Particum) and anti-particle (Partika) aspects of the Manifestation Template This is the natural process of UNIFIED FIELD PHYSICS by which a human being becomes "Christed"

THE AMETHYST AWAKENING AND THE KHUN-DA-RAY

The final step in fulfilling the potentials of original Angelic-human design is activation of the OVER TONE frequencies of the KEE-Ra-ShA', which allows fusion between DNA Strand Templates to complete on 12 dimensions of frequency. The final step in Transmutational Dimension Ascension is called the AMETHYST AWAKENING MASTERS KUNDALINI ACTIVATION. Through the AMETHYST AWAKENING, the DENSITY-3 7th-Dimensional VIOLET Signet Crystal Seal and 8th-Dimensional GOLD Signet Star Crystal Seal and the DENSITY-4 11th-Dimensional DARK SILVER Signet Star Crystal Seal are released, within the body's Scalar Shields. Release of the OVER TONE SIGNET SEALS allows the OVER TONES of the KEE-Ra-ShA Creation Currents to fuse with BASE TONES, bringing the 3 OMNI-POLAR CREATION CURRENTS (Primal Creation Currents built upon a TRINITY OF TONES, BI-POLAR + NON-POLAR energy units) together as ONE PRIMAL NON-POLAR CURRENT – the KHUNDARAY (also called the "Rainbow Bridge" or the "Rainbow Serpent").

The KHUN-Da-rAy is the PRE-LUMINAL vibration, or STANDING WAVE OF INTERNAL SOUND, emitted from ONE-SOURCE/ GOD that corresponds to the COMBINED ORIGINAL SOURCE CURRENT from which the 3 KEE-Ra-ShA' PRIMAL LIFE-FORCE CURRENTS of the 3 non-dimensionalized levels of the ENERGY MATRIX, beyond the 15-Dimensional Time Matrix, emerge. The Emerald Awakening Masters Kundalini Activation and its resulting activation of the BASE TONES of the KEE-Ra-ShA', within the human body, is the first step in manually expediting the natural process of Transmutational Dimensional Ascension.

AWAKENING THE KA AND REMOVING INORGANIC CRYSTAL IMPLANTS

Before the Emerald Awakening Kundalini Activation can be orchestrated, the MAHARIC SHIELD and the KA must be brought out of dormancy, within the human Manifestation Template. Once the 12th-Dimensional Maharic Current is released, within the embodied Kathara Grid, the KA can be activated. The "KA" refers to the 4 HOVA BODIES, corresponding to dimensions 1 through 12 (Nada, Alphi, Betcha and Mahara Hova Bodies). The KA becomes activated through removal of 4 inorganic Crystal Seal IMPLANTS that block the natural function of the 2nd, 3rd and 4th DNA Strand Templates. Following the procedure for AWAKENING THE KA, the Emerald Awakening Kundalini activation can be conducted.

Technique # 12: Kee-Ra-ShA' Activation Sequence

Awakening the Flame

ACTIVATING DORADIC PHASE-1

Preparation Activate **Maharic Seal** – **Technique-6 Maharic Quick Seal**

1 Breathe slowly and deeply for several breaths while visualizing or imagining a Violet Dot on the center of the inside of your forehead Make the color image as strong as you are able (if you can't yet perceive inner colors simply imagine the Violet Dot being there).

Move the Violet Dot to the center of the brain at the Pineal Gland, and then upward into the 7th Chakra, finally moving it out of your head to rest on the top of your skull, at the Crown Chakra

2. Call to mind the Hierophant Symbol (Pale Silver Merkaba Star / Star of David) Visualize the Hierophant spinning 12" below your feet, within your Maharic Shield, and slowly INHALE... drawing the Pale Silver Hierophant up through the Central Body Current, up to meet the Violet Dot at the 7th Crown Chakra at the top of the head.

When the Hierophant connects with the Violet Dot, visualize the Violet Dot bursting into a 4" vertical Pillar of Violet-Silver Light. Imagine the Violet-Silver Pillar running down through the body and into the Earth's Core, as well as upward into the 14th Chakra, positioned 36" above your head (This activates the Violet Ray of Transmutation.)

3. Now, move your attention to the 4th Heart Chakra, and imagine a small Green Spherical Crystal - the Green Star - stationed at its core. This is the Green star Crystal Seal that controls release of 4th Dimensional frequency - Phase I Doradic Current - into the body. INHALE, drawing Violet-Silver energy from the Violet-Silver Pillar into the Green Star.

EXHALE, expanding the Violet-Silver energy into the Green Star sphere Repeat two more INHALE / EXHALE breaths, drawing Violet-Silver energy from the Pillar and expanding it into the Green Star sphere

4 At the end of the last EXHALE imagine the Green Star POPPING turning into a spinning Green and Violet Starburst of Light, as the Violet-Silver Pillar disappears. Spin the Green-Violet Starburst faster until it becomes a ball of Green-Violet Light, about the size of a grapefruit, spinning at the center of the Heart Chakra (The green-violet ball is the storehouse for your Phase Doradic Current; it's called the Doradic Sphere.)

INHALE and draw Pale Silver energy from your Maharic Shield, through the central Body Current and into the center of the Doradic Sphere at the heart Chakra, encasing the sphere in Pale Silver Light.

AWAKENING the KA

1 Bring your attention back to the DORADIC SPHERE at the HEART CENTER.

2. INHALE pale silver energy up from the EARTH CORE to fill & expand the DORADIC SPHERE, breathe slowly and deeply 2-3 times.

3. Now, put the tips of your fingers together and feel the "resistance" of the energy flow.

4. Next, move the fingertips to the tail bone. INHALE slowly, down the Medians (dotted centre) of the DORADIC SPHERE. As you INHALE, push PALE-SILVER energy down to the finger tips and into the tail bone. REPEAT 2-3 times, and then remove the fingers.

5. Now, bring your attention to the 2ND CHAKRA (SACRAL). Gently move the hands and move a DOUBLE TERMINATED QUARTZ CRYSTAL (a crystal with a point at both ends) to beginning to "peel off" the front of your 2ND Chakra, the Sacral centre.

6. Focus your attention on this, as to feel the crystal pulsing. Use your hands to help move it forward and out.

7. There is a smaller double terminated crystal in the 3RD (Solar Plexus) Chakra; this will interact on it itself because the centres have activated it to do so. Help it out with your fingers.

8. In the Heart Chakra, imagine a little sphere of energy, colored green. Bring this little green sphere more fully into focus... and you will notice a little black cube of energy inside it. Look more closely again, and notice a smaller white cube inside the black one.

9. As you focus on the two little cubes, watch them merge together. Feel a ripple of vibration as they do, and then notice a little puff of smoke as they both disappear.

Now the body is activated to open the 4TH and 5TH Crystal Seats; you are ready for:

The EMERALD AWAKENING

1. Now we will open the GREEN STAR CRYSTAL SEAL. Go, Keeping your awareness on the Doradic Sphere, the GREEN-VIOLET-SILVER ball in the Heart Centre. INHALE.

2. ...and on the EXHALE visualize or imagine pushing a cord of GREEN-VIOLET-SILVER Doradic Current down into the tail bone... to the 1st Cell... at the very tip.

3. Breathe easily... and take a moment to visualize the 1st Cell at the tip of your tail bone... as a WHITE SILVER SPHERE.

4. Now within the WHITE-SILVER SPHERE, visualize a GREEN SPHERE... and then visualize a RED SPHERE inside the GREEN SPHERE.

5. Bring your attention back to the SPHERE of GREEN-VIOLET-SILVER energy in your Heart Centre.

...and on the next EXHALE, visualize, or imagine, sending a cord of GREEN-VIOLET-SILVER energy all the way down your central vertical column and into the GREEN SPHERE in the 1st Cell at the tip of the tail bone.

6. As you INHALE pull PALE-SILVER LIGHT from your personal Malevic Shield, the platform 6ins 15cm below your feet, up into the soles and into the GREEN SPHERE.

10. As the waves of color move through you, bring your attention to your first 4 Chakras. Balance the second, the solar plexus and the heart, and visualize or imagine each Chakra as a SILVER MAHARA SHEATH or OVAL FIELD, completely surrounding each one.

This completes the EMERALD AWAKENING, the natural process by which we use Unified Field Physics to trigger our CHRISTED Selves. Before we finish we need to establish the link to the Arcturyal Awakening, the process of activation and shielding of the Higher Chakras.

To complete the session we will now work with 2nd - 11th Dimensional Energies to open DORADO PHASE 3 & 3 PAYMENT and activate TITURIC PHASE 2 PAYMENT - THIS IS CALLED ACTIVATING THE INA CENTER in the THYROID - and ANCHORING THE SALINBURY BRIDGE.

Begin by moving your attention to the area of your 3rd "IT" and focus just inside your Ajna Chakra - a little above and behind your eyes. Breathe easily.

2. Now, visualize, or imagine, a DARK SILVER DOT in the position you are focused on - in the area of your 3rd EYE. Take a little time.

3. IN-HALE and move the DARK SILVER DOT into the Pineal Gland in the center of your head and then straight up through the CROWN CHAKRA until the DARK SILVER DOT sits on the top of your skull.

4. On the next IN-HALE pull PALE SILVER ENERGY up from your personal Mahatic Shield 12" below your feet, all the way up the central vertical channel and into the DARK SILVER DOT on the top of your head.

As the PALE SILVER ENERGY reaches the Silver DARK SILVER DOT... the SILVER DOT begins to become a SILVER STARBURST.

11. Now, visualize or imagine the 3 Pale FLAMES together within the 10th Chakra 6" above your Crown Chakra. In a moment we will create the Kee-Ra-SHA' SPHERE. Breathe easily.

7. On the next IN-HALE draw PALE SILVER energy from your personal Mahatic Shield 12" below your feet, all the way up your central vertical column, up into the 10th Chakra.

EXHALE quickly and IN-HALE once more, drawing more PALE SILVER energy up into the 10th Chakra. Visualize or imagine the 3 Pale Flames enclosed within a SPHERE of PALE SILVER LIGHT.

8. Breathe easily. On the next EXHALE move the Kee-Ra-SHA' SPHERE all the way down through the central vertical column, out through the 12th Chakra 6" below your feet, and all the way down to the 13th Chakra of EARTH'S CORE.

As the Kee-Ra-SHA enters EARTH'S CORE listen for sound tones with your inner ear.

These TONES represent the AMENTI "PASS KEY" which opens your personal ORIGINAL POINT (PI) - the 1st Cell in the Tail Bone - activating the Kee-Ra-SHA' FLAMES into your AURIC FIELD.

9. Breathe easily. Watch as the Kee-Ra-SHA' FLAMES rise up your Mahatic Pillar and emerge through your 1st Cell... passing like radiating waves of PALE BLUE, PALE YELLOW & PALE VIOLET.

10. As the waves of color move through you, bring your attention to your first 4 Chakras. Balance the second, the solar plexus and the heart, and visualize or imagine each Chakra as a SILVER MAHARA SHEATH or OVAL FIELD, completely surrounding each one.

As the PALE SILVER ENERGY reaches the Silver DARK SILVER DOT... the SILVER DOT begins to become a SILVER STARBURST.

5. On the next EXHALE push the SILVER-STARBURST down the central vertical channel, all the way to the tip of the tailbone. EXPAND the SILVER-STARBURST FULLY across the 1st Cell.

6. Breathe easily and watch as GOLD-SILVER-CURRENT emerges from the tailbone and begins to flow up through each Chakra.

From the 1st Chakra at the base of the spine, up through the Sacral, the Solar Plexus, all the way up to the Crown Chakra, we'll take a little time for this.

From the Crown Chakra the GOLD-SILVER-CURRENT continues upward out of the top of your head, up through the 10th Chakra 9" above your head, the 11th Chakra 18" above your head and finally the 12th Chakra 36" above your head.

7. Once the GOLD-SILVER-CURRENT reaches the 12th Chakra it returns to the 1st Chakra, the base of the central channel. GOLD-SILVER-BREATH throughout your central vertical channel.

8. Bring your attention to the 2nd Chakra now, we're going to create a GOLD-SILVER-BALL there, in the SEED SEAL in the center of the Chakra, just imagine the chakra as a bowl-like shape, the SEED SEAL is at the normal point in the middle. The GOLD-SILVER-BALL is called the TEURIC SPHERE.

INHALE and draw GOLD-SILVER-CURRENT from the GOLD-SILVER-BREATH into the center of the Chakra, as you INHALE create and EXPAND the BALL to surround the bowl.

9. INHALE and move the GOLD-SILVER-BALL up to the 3rd CHAKRA CENTER, 2" BELOW the NAVEL, the 6th SILVER-STAR SIGNET SEAL or TANTIEN. INHALE GENTLY allowing the BALL to EXPAND

10. On the NEXT INHALE move the GOLD-SILVER-BALL up to the SOLAR PLEXUS and INHALE GENTLY

11. INHALE and move the GOLD-SILVER-BALL up to the HEART CENTER, INHALE GENTLY. INHALE drawing more GOLD-SILVER-CURRENT into the BALL and THEN INHALE FORCEFULLY pushing cords of GOLD-SILVER-CURRENT down each arm and into the PALMS bring your fingertips together and feel the fuzzy buzz of TEURIC PHASE-CURRENT

You have now activated TEURIC PHASE-CURRENT in your palms and you are now able to run CURRENT from the Crown Chakra to the THYROID GLAND to activate and anchor the Rainbow Bridge in others.

End of Field Technique-5 The K-RRT Activation Sequence (5-A-B-C-D-E)

You are now ready for the Advanced Activating Human Consciousness Template Activation or Full Technique Activation for Activating Humanity, or you can choose one or more activations in Advanced Human Consciousness Activation (AHCA) Stage, Council (Field Technique-4-A-B-C) Right upper Heaven before K-RRT participation, and no longer than 24 hours, to maximize the depth and level of activation and Humanity Upgrading in the body, that is available for an effective K-RRT

3. Place your attention at the center of your brain, inside your pineal gland. Imagine that you see there a Pale Violet Spark of Light that is the twin of the Spark you see at your 10th Crown Chakra. Imagine that you are going to connect the Pale Violet Spark of Light and the Violet Spark of Light at your 10th Crown Chakra above your head. Imagine that the 10th Crown is a color of Light Blue/Black - Sapphire.

On the INHALE you will move this color of Violet-Sapphire Light up into the 24 point Silver Star at the 4th Chakra - and on the EXHALE move it down through the 5th Chakra, down through the Throat, down the Central Vertical Current, down through your Personal Atomic Shield, all the way down to the 12th Chakra at the Earth's Core.

5. Notice, as you do this, a wide spectrum of Violet-Blue Sparks flying out from the Planetary Atomic Shield - as if they are coming from electrical communication taking place. The Merkaba Trinity Key Induction

The **Merkaba Trinity Key Induction Technique** begins the process of establishing a **conscious directional relationship** with various levels of your 15-Dimensional Anatomy (or that of your Client). The **Trinity Key Symbols** are **mathematical-geometrical programs** that carry the specific organic structure of **each dimensional frequency band** as it exists within the **D-12 Universal Divine Blueprint**. Imbuing the proper **Symbol Key** into the appropriate area of the personal anatomy can rapidly expedite **restoration of the personal Divine Blueprint** within the **DNA Template, Chakra System** and embodied **Kathara Grid**. Use of the Trinity Master Key Symbols that correspond precisely to the natural order of each dimensional frequency band can **intensify** all **applications of holistic and allopathic healing**, as well as progressively and systematically assisting in the process of accelerating **DNA Template** healing and **activation**. Every **condition** within the body-mind-spirit system has a specific **Energy Signature** unique to its own construction. Every **dis-ease** condition within any aspect of the personal experience (physical, emotional, mental, spiritual, financial, social, etc.) is created and **held in manifestation** by a specific set of mathematical-geometrical energy relationships that are **stored** within the embodied **Kathara Grid** and **DNA Template** in the form of **Symbol Keys**.

The mathematical-geometrical energy relationships that serve as the **blueprints** upon which experiential manifestation will emerge, can be perceived by the conscious identity in its Symbol translation. When using the **Trinity Master Key Symbols**, you are **resetting and activating very specific portions** of the personal **Divine Blueprint** (D-12 Pre-matter Maharic Shield) into a naturally harmonious relationship with Universal Order (the organic structure of dimensionalized frequency bands). The Trinity Master Keys, provided in this Technique, trigger activation of very specific **Fire Letters** (Keylons), within the DNA Template, allowing the DNA Template to receive directly the **new electrical instructions** corresponding to the personal Divine Blueprint. This technique can be used with Kathara Healing Techniques from Kathara Level-1 and with any other healing modality or singularly after activating the D-12 **Maharata Current** via **Tehcnique-6, The Maharic Quick Seal**.

It is **necessary** to initiate a **D-12 Maharic Seal** in order to run **any Symbol Key program** into the DNA Template and Level-1 Kathara Grid. It is the strength of the D-12 Maharata Current that allows access to the deepest levels of the Personal Shields and Divine Blueprint. The **Trinity Master Key Symbols** are a **set of 3 Symbol Keys** that are to be used in **sequence**. The first two Trinity Keys, the **Initiating Keys**, are used in **every application**, to open the embodied Level-1 Kathara Grid to received new instructions. The third Trinity Master Key Symbol, the **Transmitting Key**, corresponds directly to the Divine Blueprint of **one dimensional frequency band** and its corresponding **Kathara Center, DNA Strand Template, Chakra** and related body regions, **Axi-A-Tonal Line, Auric Field Level** and **station of consciousness**. In a **Trinity Key Induction Session**, one can choose to work on only **one dimension** (Chakra-DNA Strand Template-Kathara Center-Axi-A-Tonal Line-Auric Level) via its Transmitting Key, or each of the **12 Transmitting Keys** of the Universal Kathara can be used, **in sequence**, following induction of the two Initiating Keys.

The process of using the Trinity Keys is simple, the **Chakra** that corresponds to the Transmitting Key/dimension/DNA Strand with which you desire to work is used as the **vortex** through which the Trinity Keys are **INDUCED** into the corresponding **Kathara Center**. From the Kathara Center, the Trinity Keys electrically pass on to the **DNA Template** and from there into the **Axi-A-Tonal Line system** and corresponding areas of the body-mind-spirit system. Use of the Trinity Key Induction Technique progressively assists in activating the personal **Merkaba Vehicle**, while **amplifying and expediting restoration** of the personal Divine Blueprint.

Technique 5 Or Nachaba Trinity Key Induction

Activate the Nakanic Current via Technique-II. The Nakanic Gold Seal and Sickle which Transmitting Key(s) you will use. Trace the 3 Trinity Symbol Keys onto 3 small squares of paper.

1. First, place each of the papers with the two Initiating Keys face up on the floor, then stand (kneel or sit) on top of the Symbol Key. Use your left hand for each of the (ARIEL, INITIATING) Key (if you're LEFT foot, Key (R) under the RIGHT foot. Display Trinity Key Induction for a Chakra, have them recline on their back and place the papers with Initiating Keys to your palms and hold stand as such. Turn the palms of the Chakra feet (or the Etheric Body, As mentioned in Kathara Level 1 and 2) your palms Chakras to transmit the Symbols and the Pale-Silver Nakanic Current, using the same action as described below, into the Chakra's feet Chakras (or... LEFT foot right hand Transmutation Key R&H foot left hand transmutation. In Standing Action the paper with Symbols should be positioned between the balls of your feet and the base of the main Chakra or the base of your body. Simply begin to breathe deeply and slowly for a few minutes. With each BREATHE allow a thick streams of Pale-Silver Nakanic Current (Red-Gold) to be brought to the Vertical Current of the body and pull the Key of the Heart to the 12th Chakra. 36" above the head. With each BREATHE, imagine a grapefruit sized Pale-Silver Nakanic Ball rapidly moving down your Central Vertical Current. When the Nakanic Ball reaches your 2nd Chakra, see the ball splitting into Two Balls, each continuing to travel down each leg and out your feet Chakras through the Symbol Keys. Once the Two Balls of Nakanic Current have passed through the Symbol Keys, imagine and see the energy into the core grapefruit sized Pale-Silver Ball that continues to move downward into the 12th Chakra at Earth core. Continue this process until you sense a momentary slight warmth tingling or subtle itching at the balls of your feet. This small, momentary sensation, called the CUE RESPONSE will grow stronger as your beginning to... to feel the Chakras as Crystal Key Induction. Until you have noticed the Cue Response, you have successfully induced the two Initiating Trinity Keys and the new Invocation Current using Transmitting Key.

2. If you have chosen to use the Transmitting Key for D-1-Shanti-1-Ascension Line-1-Chakra-1, continue standing for the final Symbol Key Induction placing the paper with the Transmitting Key face up on the floor between slightly parted feet; do not stand on the Symbol Key paper for Base Chakra Induction. For all other Chakras, recline on your back and place the paper with the Transmitting Key directly on top of the Chakra to which it corresponds, on the front of the body. Use each BREATHE to draw Nakanic Current (Red-Gold) into the Vertical Current of the body and to the Pale-Silver Nakanic Current that runs from the Central Vertical Current of the body and into the Chakra, imagining that the Chakra is progressively turning, also, radiant rivets of Pale-silver light like spinning faster and faster. When you begin to feel a ball of warmth tingling, energy moving or feeling at the side of the Chakra region (the Cue Response), use a final BREATHE breath to draw the image of the Symbol down through the Chakra into the body and into the Key Crystal Seal, but not to the Chakra or the Central Vertical Current. Use a FINAL suggested BREATHE and imagine that you have pushed the energy of the Transmitting Symbol Key out of the Chakra into the corresponding seal of the Auric Field. Once infused into the Auric Field, the single image of the Symbol will then replace simultaneously and instantly, creating millions of mini-replicas of the Symbol, within your mega-aurgonic field. When the Cue Response perceived at the Chakra has completely ceased, you have successfully induced the entire mathematical program of the Transmitting Symbol into the corresponding Kathara Center (Red-Gold Template, Ka-ki-Tonal Law, body region and tissue connections).

1. First, place each of the papers with the two Initiating Keys face up on the floor, then stand (kneel or sit) on top of the Symbol Key. Use your left hand for each of the (ARIEL, INITIATING) Key (if you're LEFT foot, Key (R) under the RIGHT foot. Display Trinity Key Induction for a Chakra, have them recline on their back and place the papers with Initiating Keys to your palms and hold stand as such. Turn the palms of the Chakra feet (or the Etheric Body, As mentioned in Kathara Level 1 and 2) your palms Chakras to transmit the Symbols and the Pale-Silver Nakanic Current, using the same action as described below, into the Chakra's feet Chakras (or... LEFT foot right hand Transmutation Key R&H foot left hand transmutation. In Standing Action the paper with Symbols should be positioned between the balls of your feet and the base of the main Chakra or the base of your body. Simply begin to breathe deeply and slowly for a few minutes. With each BREATHE allow a thick streams of Pale-Silver Nakanic Current (Red-Gold) to be brought to the Vertical Current of the body and pull the Key of the Heart to the 12th Chakra. 36" above the head. With each BREATHE, imagine a grapefruit sized Pale-Silver Nakanic Ball rapidly moving down your Central Vertical Current. When the Nakanic Ball reaches your 2nd Chakra, see the ball splitting into Two Balls, each continuing to travel down each leg and out your feet Chakras through the Symbol Keys. Once the Two Balls of Nakanic Current have passed through the Symbol Keys, imagine and see the energy into the core grapefruit sized Pale-Silver Ball that continues to move downward into the 12th Chakra at Earth core. Continue this process until you sense a momentary slight warmth tingling or subtle itching at the balls of your feet. These cells, momentary sensations, called the CUE RESPONSE will grow stronger as your beginning to... to feel the Chakras as Crystal Key Induction. Until you have noticed the Cue Response, you have successfully induced the two Initiating Trinity Keys and the new Invocation Current using Transmitting Key.

2. If you have chosen to use the Transmitting Key for D-1-Shanti-1-Ascension Line-1-Chakra-1, continue standing for the final Symbol Key Induction placing the paper with the Transmitting Key face up on the floor between slightly parted feet; do not stand on the Symbol Key paper for Base Chakra Induction. For all other Chakras, recline on your back and place the paper with the Transmitting Key directly on top of the Chakra to which it corresponds, on the front of the body. Use each BREATHE to draw Nakanic Current (Red-Gold) into the Vertical Current of the body and to the Pale-Silver Nakanic Current that runs from the Central Vertical Current of the body and into the Chakra, imagining that the Chakra is progressively turning, also, radiant rivets of Pale-silver light like spins faster and faster. When you begin to feel a ball of warmth tingling, energy moving or feeling at the side of the Chakra region (the Cue Response), use a final BREATHE breath to draw the image of the Symbol down through the Chakra into the body and into the Key Crystal Seal, but not to the Chakra or the Central Vertical. Use a FINAL suggested BREATHE and imagine that you have pushed the energy of the Transmitting Symbol Key out of the Chakra into the corresponding seal of the Auric Field. Once infused into the Auric Field, the single image of the Symbol will then replace simultaneously and instantly, creating millions of mini-replicas of the Symbol, within your mega-aurgonic field. When the Cue Response perceived at the Chakra has completely ceased, you have successfully induced the entire mathematical program of the Transmitting Symbol into the corresponding Kathara Center (Red-Gold Template, Ka-ki-Tonal Law, body region and tissue connections).

In Kethera Level-1, we have learned of the basic structures of multidimensional reality and how these structures are hierarchically interlinked with the 48-Dimensional Human Anatomy and levels of personal identity through the personal Mahantic Shield and DNA Templates. In rediscovering these long forgotten aspects of the Human condition and our inherently implied relationship to Universal Order, we've become empowered to draw upon the natural Tools, Praxis Elements, Intelligences to our personal Destiny and Life-path experience - some of which are as old as time itself. Moreover, this spiritual Science and Healing, as well as healing ourselves for others. Techniques 1-3 for Activating the Mantric, 42-Meridian Shield and Light Chamber, 43-Injecting the Mahantic Chakras Double Pulse Harmonic, 44-Mahantic Holographic Encoding Matrix Scan and 45-The Mantric Mission Statement, all are specific components of the Chapter 4 of the Kethera Level-1 Mahantic Encoding Process, explained in depth complete information with the "Invisible" processes of the Body-Mind-Spirit Evolution Process contained in the Human design.

In our introduction to Kethera Level-2, we have begun to explore the greater nature of Universal Life Force Currents, the "mysterious" science of Merkaba Mechanics and their intimate connection to our personal evolution and Bio-spiritual Actualization Processes. Techniques 6-10 (46-Merkaba Basic Seal, 47-Psi-Torsion Field Matrix, 48-Merkaba Activation, 49-Merkaba Trine Ray Activation and 50-Psi-Chi Activation Sequence) as we explored within Chapter 5 of Kethera Level-2 introduction, assists us to advance our conscious connection with the processes of personal Body-Mind-Spirit Evolution and Bio-Spiritual Actualization. As we become our personal selves, to understand, embody, learn and direct the inherent power of the Universal Life Force Currents, and to access the levels of deeper spiritual identity and wisdom in which they correspond, as appropriate, in a safe, balanced, and healthy way. In most cases, and for others seeking choose to serve. In recent years of Universal Life Force Currents and Merkaba Mechanics involves cultivating a relationship familiar with a broad spectrum of interrelated subjects that, as a whole, form the basis of the Science of Merkaba Mechanics and Holographic Creative Physics, as well as the 3rd Seal of Spiritual Alchemy, to consciously ourselves, and other, as we work and live. Mastery of Merkaba Mechanics is an ultimate challenge to achieving the state of consciousness often called "Ascended Mastery" which requires much in-depth study, life-time "mastering" of creative powers, a profound mastery of Merkaba and the related constructs of the personal and familiar, sacred, and holistic principles and practices of the personal Merkaba system.

As our Kethera Level-3 introduction begins, our exploration of other techniques of Total Shield Activation, Merkaba Stabilization and Trinity Keys set us on the path of becoming functionally able to consciously direct and perform operations of the personal Merkaba vehicle and Life Force Currents as a means of expanding our progress of Bio-Spiritual Evolution through DNA Template Activation Field Activation. As our Kethera Level-3 introduction continues, we will begin to explore the seemingly simplest aspects of Merkaba - understanding the very simple importance of Merkaba Fields in relation to the inherent dynamics of DNA and healing and spiritual transformation. In serving persons interested in the facilitation of healing for others, one must first understand, strive to have and maintain the most The greater the level of health and spiritual actualization possessed by a healing facilitator, the greater his or her facilitation of healing for others and the greater the healing facilitator is in service. As Kethera Level-3 introduction draws to a close, we will begin an introductory exploration of the Ancient Secrets of the Vesica Pisces, so that we may unlock practical application of two additional techniques of Photo Radiation and Photo-Sonic Mantric Healing Techniques #15 Restoring the Trine Field Vesica Pisces Activation and Technique #16 Activating the Merkaba Field Extension Activation will provide us with powerful tools of the Kethera Healing Work that will dramatically increase the quality, amount and power of transformational frequency we are capable of receiving, holding and transmitting. Through these insights, a Merkaba Healing tools we can expand our personal healing and spiritual actualization therapy, enabling us to become more attentive and powerful healing facilitators in our client session work.

Spiritual science teachings of Merkaba Mechanics emerge from the most ancient of times, record of Merkaba teaching is found in or obscure traditional "occult" texts or within New Age "Ascension" teachings. Esoteric Merkaba science holds the key to understanding and activating the presence of both spiritual and physical evolution on personal, planetary, galactic and universal levels. Merkaba Mechanics are not the product of "science fiction" as we have imagined ourselves capable of "occult revelation". Merkaba Mechanics are not "magic" at all, but rather an intrinsic element of universal Primal Order. Merkaba Fields, made of Star-like energies whose counter-rotating electro-magnetic energy fields within and surrounding Merkaba Activation Body, are simply an inherent aspect of the 15-Dimensional Anatomy of Ion consciousness and the Primal Order structure of multidimensional Creation Physics. In the "Transmutation Sequence" described in Merkaba Ascension, the sequence of energy transmutation by which conscious energy manifests into tangible biological form, the Merkaba Field represents the structure and shape of energy dynamics by which Primal Life Force Currents carry the consciousness of the ascended Ashtaru God levels into the DNA Template in form of morphological Ion manifestation. All Ions possess an inherent structure of interwoven Merkaba Fields through which Primal Current energy is transmitted from the Ashtaru God Consciousness levels into the cellular levels of the Ashtaru God and Goddess Ion template, upon which the specialized structure of the Ion builds up through particle-and-particle accretion into physical manifestation. Merkaba Mechanics seem "magical" only when the inherent "Laws of Nature" that govern the dynamics of Multidimensional Universal Unified Field Physics are not understood.

Through understanding genuine Universal Unified Field Science, Merkaba Fields and their inherent dynamics, as outlined in the study of Merkaba Mechanics, we can realize they are simply recognized as natural elements of the processes inherent to Creation Physics and its naturally occurring, organic relationships between Energy Consciousness and the Holographic Manifestation of Form.

As Merkaba Fields are an intrinsic, significant and integral part of the Body-Mind-Spirit anatomy, the study and application of Merkaba Mechanics is an essential component in any Ascension Holistic Healing or Spiritual Activation program. Merkaba Mechanics, Scientific in fact (not stylized studio overlay) within the Intuitive process, offer a practical, effective tool to aid the advance of Creation Physics. Merkaba Mechanics awaken Spiritual Intelligence through the simple structure and dynamics of Creation Physics. Merkaba Mechanics are natural law; their consciousness is not learned but remembered, as the form of natural universal intelligence it is. The "body mind and spirit" of every manifested being is formed through and governed by the natural Laws of Creation Physics and Primal Order. The Laws of Creation Physics and Primal Order are designed and maintained by and within non-physical, intelligent, conscious Force and Sound Creator Instruments referred to as "God". God expressed in Sacred Geometry, Creation's energy blueprints for living "Spirit and Consciousness", God's Science and Primal Life Force Currents, which are the foundations for macrocosmic and microcosmic creative progression, Merkaba Fields, and the mechanisms by which they function, are an indelible part of the physics of Creation and Consciousness and are thus intimately involved with the Bio-Spiritual processes inherent to Spiritual Activation.

Particles, People, Planets, Galaxies and Universes all have sets of interwoven Merkaba Fields that serve as the 'core Primal Life Force Current circulation system' between the Cosmic, Universal, Galactic, Planetary and Personal 'Divine Blueprint' Kathara Grid scalar–templates and the manifestation of those blueprints into the tangible structures of matter. Merkaba Fields are the 'carriers of consciousness' and the 'engines of energy' by which physically manifest forms are created, maintained and evolved through the Holographic Unified Field of manifest space-time-matter reality. In relation to the processes of personal bio-spiritual healing and spiritual actualization, the personal Merkaba Field is an intrinsic aspect of 15-Dimensional Anatomy that directly governs the function of the physical, emotional, mental and spiritual body systems. The multidimensional structure of the personal Merkaba Field is the system of electro-magnetic interface by which the Primal Life Force Currents and Consciousness of God-Source and its sentient individuations pass from the Kathara Grid Core Template into the scalar-wave DNA Template that holds the blueprint for the physical-chemical biological DNA. The reality of Merkaba Field-DNA Connection implies that the personal Merkaba Field is directly related to the function or dysfunction of the biological genetic code. As the Merkaba Field 'carries the energy of consciousness' into the DNA and biological vessel, the Merkaba Field-DNA Connection also implies that the potentialities of consciousness and embodiment of spiritual identity, while a being is ensconced within the Time Matrix, are dependent upon the condition and function of the personal Merkaba Field, DNA Template and Kathara Grid.

Universal Merkaba Field Structure

Basic Merkaba Field structure is relatively simple. Viewed Macrocosmically, in a 15-Dimensional Time Matrix there are **15 sets** of counter-rotating electromagnetic **Merkaba Spirals** that form **15 Universal Dimensional Merkaba Fields**. A **"Merkaba Field"** is composed of a set of **2 Merkaba Spirals**, one electrical-transmitting "cone", the other magnetic-receiving "inverted cone", the 2 "cones" of the Merkaba Spirals, which operate as a **White/Black Hole Pair**, intersect each other, creating a system of energy vortices that form an **Elliptical Sphere** of energy, within the center of the intersected Merkaba Spirals. The Sphere of energy at the center of a Merkaba Field is called the **FORM CONSTANT**. It is a **"spherical energy domain"** within which the individuation of consciousness and holographic manifestation/projection of form can take place, akin to an "energy egg" within which manifest reality occurs. Within this Sphere of energy, at the center of a Merkaba Field, the template-blueprints of a form are held "constant", allowing conscious Partiki units, particles, anti-particles and ante-particles to accrete in specific ratios to "fill out the form in matter". Within the Form Constant sphere, consciousness is able to perceive the **holographic illusion** of externalized space-time-matter manifestation, as the scalar-template of the form is held fixed within the sphere. The "hologram" appears to remain "constant" within the Form Constant sphere while consciousness is focused within the frequency bands of which the Merkaba Field is composed.

On the macrocosmic universal scale, the Form Constant of each Universal Dimensional Merkaba Field creates a single, elliptical-sphere shaped electromagnetic domain of frequency that represents a single dimension of manifestation. Following the innate mathematical-geometrical structure of Primal Order, the 15 Universal Dimensional Merkaba Fields group into **5 sets** of 3-Dimensional Merkaba Fields, called **Universal Harmonic Merkaba Fields**. The 3 Form Constant Spheres, from each set of 3 Universal Dimensional Merkaba Fields, form a **Universal HOVA BODY**, or a "Harmonic Universe" electromagnetic domain. Following the mathematical Primal Order program of a Time Matrix, as held within the Universal Kathara Grid template and transmitted through the rotation ratios of the Harmonic and Dimensional Merkaba Fields, each of the 3 dimensional levels of a Universal Hova Body holds the Partiki units, consciousness and matter particulates, of its dimensional field, into a specific angle and speed of rotation. The 3-Dimensional Harmonic Merkaba Field controls the relationship of particle rotation angle (angular rotation of particle spin or "**ARPS**") and rotation speed between each of the 3 Dimensional Merkaba Fields, governed by 5 larger 3-dimensional Universal Harmonic Merkaba Fields, all of which circulate consciousness in the form of Primal Life Force Currents into and out of the hologram of manifestation. The seeming solidity and durability of an externally manifest matter-field in space-time is created, maintained, perpetuated and completely dependent upon the intrinsic function of the Universal Merkaba Fields.

Within the larger Form Constant elliptical-spheres of the 5 Universal Hova Bodies of a 15-Dimensional Time Matrix, the holographic perceptual realities of space-time-matter take place. Every being or thing in manifest form enters its reality hologram *by taking on the mathematical program* of first the *Universal Kathara Grid* and 5 *Universal Hova Bodies*, which set the "Life Stream" or "Stream of Consciousness" of Primal Creation Currents, in

motion, following the specific **Harmonic Merkaba Fields spin ratios** characteristic to each Harmonic Universe System. Galaxies are formed in this way, as individualized expressions of the greater Harmonic Universe of which they are a part. **Universal Harmonic** and **Dimensional Merkaba Fields** govern the birth, evolution and transmutation of the galaxies within them. **Galactic Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation of **star systems and planets** within them. **Planetary Harmonic and Dimensional Merkaba Fields** govern the birth, evolution and transmutation/death cycles of the **species** and **matter forms** existing upon the planet. The **Personal Merkaba Fields** of species and individuals direct the function of the personal **DNA Template, chemical DNA** and **biological genetic code**, thus governing the birth, evolution and transmutation processes of individual organisms. The mathematical-geometrical programs of the **Primal Order "Divine Blueprint"** that govern Merkaba Field formation and spin ratios are held within the Universal, Galactic, Planetary, Species and Personal Kathara Grid structures. In a singular 15-Dimensional Time Matrix, the **Inter-linked Universal, Galactic and Planetary Harmonic and Dimensional Merkaba Fields** circulate Primal Life Force Currents and consciousness into and out of manifestation in space-time.

Each individual being receives its life force, consciousness, biology and manifest hologram through the innate connection between the **Personal Merkaba Field** and the Merkaba Fields of the Planet, Galaxy, Universe and Time Matrix. When the **D-12 Pre-matter Divine "Christos Blueprint"** is expressing naturally in a planetary system, the organisms on the planet circulate Life Force Currents and consciousness through the physical and "spiritual" bodies via the Personal and **Planetary Merkaba Fields**. The Planetary Merkaba Field circulates Life Force Currents through the **Personal Kathara Grid** template (morphogenetic field) of the organism via the **Planetary Bio-Feed Interface System.** The organism's **Personal Merkaba Field** then picks up the energy from the Kathara Grid and continues to circulate the Life Force Currents from the Personal Kathara Grid into the **Maharic Shield imprint** in the **DNA Template** that is held within the Level-1 *Kathara 12-Tree Grid*, Level-2 *Kathara Crystal Seals-Hara Grid* and Level-3 *Kathara Diodic Grid*. From the Maharic Shield imprint in the Kathara Grid, the Personal Merkaba Fields distribute the Life Force Currents and consciousness into the **DNA/RNA Template** and **Axiom Lines**. The Life Force Current continues circulation from the DNA/RNA Template and Axiom Lines into the **Personal Hova Bodies** and **Auric Field**, to the **Chakras** and **Meridian Lines**. Passing through the Meridian Lines, the Life Force Current, imbued with the specific mathematical manifestation program picked up from the Kathara Grid Divine Blueprint Template, then enters a state of final transmutation into 3-dimensional particles by passing through an electrostatic **Repulsion Zone** barrier that exists surrounding each 3-dimensional Hova Body.

The frequency barrier surrounding each 3-dimensional Hova Body forms a **thin, skin-like membrane** or "**Tissue Capsule**" surrounding each of the 5 Hova Bodies in the 15-Dimensional Anatomy. The **Hova Capsule** membrane is composed of Density-5 **Primal Light** ante-matter units, called **TRION UNITS**, that exist in the form of fixed standing-columnar-scalar-light waves made of **Keylons**, or 3-dimensional **Partiki Grids**. The Trion Units and Keylon Partiki Grids within them are anchored upon a fixed field template of **Primal Sound** units called **MEAJHE UNITS**, which exist as fixed points of mathematically organized vibration. The outer layer of each Hova Capsule is called the **Trion Field**, as it is composed of **Trions**, or units of Density-5 ante-matter Primal Light. The inner portion of the Hova Capsule is called the **Meajhe Field** as it is composed of **Meajhons** (mE' yans) or fixed points of Primal Sound vibration, from the **Energy Matrix**, beyond the holographic manifestation of the Time Matrix Light Fields. The collective body of the 5 Hova Capsules is called the **RADIAL BODY** or **Trion-Meajhe Field.** All manifest forms possess a core Radial Body/ Trion-Meajhe Field **Hova Capsule** structure as part of the intrinsic 15-Dimensional anatomy.

As multidimensional Life Force Currents pass through the Meridian Lines and into each of the 5 layers of the Radial Body, the energy currents and the consciousness carried upon them project the mathematical program of the Divine Blueprint into the Trion-Meajhe Field of each of the 5 Hova Capsules. Within the Hova Capsule, the individualized raw Life Force

Currents enter a system of 3-dimensional energy conduits or meridians called Radials which are the "connection" between "manifest matter" and "conscious energy"

The Radials serve as the Life Force Currents with their manifestation program through the Triton-Meaphe Field, then polarize and break up the Triton and Meaphon units into negatively and positively charged electrical co-units called Mitons and Dions. Particle Keyions, Meaphons, ions, Mions and Dions belong to a category of primal building blocks known as IONIC PARTICULATES, which are the building blocks of consciousness, energy, light, sound and solar-wave-fields that form the blueprints upon which all matter manifests. Tritons are electrostatic particulates that have both a negative and positive electrical charge, which renders them neutral or static. They are the foundations of what becomes Anti-matter Primal Light particles of pre-visible gaseous light. Meaphons are static units of pre-sound standing waves also possessing neutral electrical charge that form the Primal Source Fields of the Energy Matrix. Within the structures of the Radial Body Radio nucleic acids, Tritons and Meaphons are polarized into negative charged Mions ("Base Magnets" vibrating pre-sound particulates, foundations of negatively charged particles such as electrons, originating from the Universal Particle Particum field) and positively charged Dions ("Base Electrical" oscillating pre-light particulates foundations of positively charged particles such as protons, originating from the Universal Anti-particle Particle field). Together Mions and Dions create the electromagnetic Ionic Particulate base field within the Merkabic Form Constant through which particles emerge via ionic particulate accretion into tangible matter units.

The Triton-Meaphe Fied Radial Body of any manifest form represents the 5-Density "Veil" through which consciousness-as-Primal Life Force moves into and out of externalized 3-dimensional manifestation. Merkaba Fields are the "energy engines and consciousness carriers" by which Life Forces and consciousness are circulated between the Internal Kathara Grid scalar template and the Triton-Meaphe Field Radial Body "veil" as they pass into and out of external expression. The primal polarities electromagnetic expression and re-polarization of the Life Force Currents within the Merkaba Field Form Constant electromagnetic domain is the process by which the holographic projection of matter is perpetually brought into and taken out of perceptually experiential being. The Radial Body Triton-Meaphe Field receives via Merkaba Field circulation the template or "design" for its particle manifestation from the "instructions" held in the Divine Blueprint Misharic Shield and DNA Templates of the Kathara Grid. Manifestation instructions pass from the Kathara Grid to the DNA Template via the Merkaba Field, then continue into the energy circulation systems (Kaom Lines, Nova Bodies, Chakras, Meridians) that deliver the instructions to the Radial Body for particulate manifestation. In biological life forms the Radial Body and Radial Body Triton-Meaphe Field receives via Merkaba Field circulation the "instructions" held in the blueprint wave blueprint of the DNA Template and Kathara Grid into the polarized ionic Particulate Mion-Dion sub-units, which accrete following the DNA Template instructions to form sub-atomic, atomic, and molecular, chemical DNA physical matter form. The vehicles of embodied consciousness. The Merkaba Field also receives its instructions for energy circulation from the Kathara Grid and DNA Templates.

From the Planetary Merkaba Field [via the Planetary Shield, Axiom Lines, Hova Bodies Vortices, Meridian Lines and Radial Spokes], rhythmic pulses of Consciousness Primal Life Force Currents enter the spokes and personal Kadiora Grid Core Templates as Primal Units of Purity.

Particularly, Muons ("Blue magnetic") become particles, negative electrical charge units like electrons and bound spokes. Anti-Muons ("Red magnetic") become anti-particles, positive electrical charge units like protons and light spokes.

10 As one **Pulse of Time/Consciousness** brings its blueprint into manifest **Critical Mass Expansion** (fully activated specific portions of the blueprint in Holographic Expression), the Planetary Merkaba Field releases the **next "incoming" pulse** of Time, which carries the next portion of the Kathara Grid mathematical blueprint into the Transduction Sequence. As the new Pulse enters the Transduction Sequence and begins **Expansion** toward manifestation, the **first pulse** of the **fully expanding hologram** begins **Contraction**, entering a **back-return** through the **Reverse Transduction Sequence** (matter-*chemical* DNA-*Sub-Atomic units*-Rads *Mion/Dion units*-Radial Body *Trion-Meajhon units*-Meridian Lines-Chakra-Aunc Field-Hova Body-Axiom Lines-DNA Template-Merkaba Field-Morphogenetic Thought-form Field *Keylon Grids & Units*-Maharic Shield Template & Kathara Grid *Partika and Particum Units*-Planetary Merkaba Field *Partiki* Units)

11 As **pulse-1 contracts** its hologram program **moving backward** through the Transduction Sequence, creating the "**Remembered Past" moment**, the **pulse-2** simultaneously **expands** its hologram program, **moving forward** through the Transduction Sequence, birthing the as-yet-to-come "**Future" moment**. The backward moving "**Past**" **pulse-1** and forward moving "**Future**" **pulse-2 intersect** at the **Radial Body Levels**, in the Transduction Sequence. This "**past pulse-future pulse intersection point**" is called the **Eiron** (E'r-on) **Point**, also known as "**Zero Point**", the "**Present moment of conscious focus, within the hologram**" or the "***Eiros*** Conscious, Breathing Life Force Stream" (Also referred to as the "**Stream of Consciousness**", the "***Living Holy Spirit***" or the "***Breath of God***" etc.)

12 The *Eiron/Zero Point*, or **Eiros**, is the "**Present Moment of Creation Power**" for the "manifest" conscious identity. It exists at the position where the **third dimensional field**, the electromagnetic **Resonant Tone** "**Mental Body**" field of a single 3-dimensional Hova Body **intersects** with the **Meajhe Field Inner Layer** of the corresponding **Radial Body** Tissue Capsule

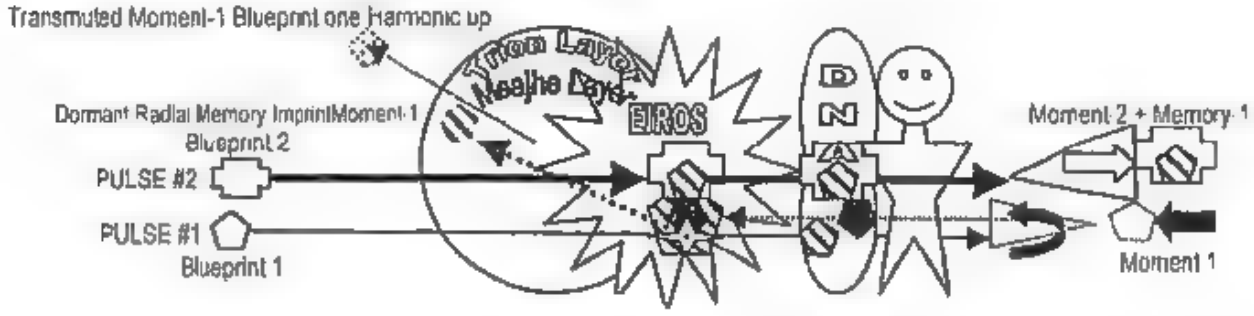
13 As the backward moving **"Past" pulse-1** and the forward moving **"Future" pulse-2 intersect** at the Radial Body Meajhe Layer **Eiros** (Eiron Point) ○, the returning **contracting pulse-1** passes through the Trion Layer and into the **Meajhon blueprint replica**, called a **"Radial TILE"** ⦸ that it **left behind** in the Meajhe Layer **Eiros**, during pulse-1's **incoming** passage. Just as the returning pulse-1 retreats back through its Radial Tile, the **incoming pulse-2**, carrying the next **blueprint** coding, ⬡ **simultaneously** passes through the **first Radial Tile, combining** the **"past" Radial Tile**, mathematical-vibrational blueprint, with the **incoming pulse-2 blueprint**. ⦸ At this moment-point, the hologram template from the "post moment" is adopted by the incoming "future moment" pulse-2 and expanded by the pulse-2 blueprint.



14 As pulse-2 picks up the pulse-1 Radial Tile, ⦸ the **retreating pulse-1**, which now **holds the Radial Tile blueprint in *reverse mathematical sequence as TRION Pre-light Units*** ⬟ collides with the incoming pulse-2. Both pulses carry the **common blueprint** of the first Radial Tile, the **incoming pulse-2**, holding the blueprint in **forward** mathematical sequence as ***Meajhon Pre-sound Units***, ⦸ the **retreating pulse-1**, holding the blueprint in **reverse mathematical sequence** as ***Trion Pre-light Units*** ⬟ As the expanding/advancing and contracting/retreating pulses collide with the blueprint **"sequence and anti-sequence"**, the pulse-1 reversed **Trion Radial "Anti-Tile" fuses** with the original **Meajhon Radial Tile** ✡ and both Radial Tile and Anti-tile **completely de-manifest** or **"Ascend"** from their original Harmonic Universe by **TRANSMUTING** to become a ***Merkaba Field*** The **energy/consciousness**, once held by the Radial Tile/Anti-tile, then **replicates** its original blueprint via **Fission**, leaves a **dormant "Memory Imprint"** Meajhon replica ⫽ in the Radial Body ***Meajhe Field*** and **reappears** in faster oscillating form, within the corresponding **Hova Body Form Constant** of the next Harmonic Universe up in the dimensional scale

15 As transmutation of the "past" Radial Tile occurs in the Radial Body Eiros, the **incoming pulse-2** is momentarily held **static** as it leaves a **new Radial Tile** in the Meajhe Field the new Radial Tile holds the **pulse-1+pulse-2** program At this moment-point the **entire** externalized **Hologram** literally **"Flashes Off"** and de-manifests its energy **held in suspension** within the **Radial Body** Trion/Meajhe Field When the first Radial Tile is transmuted, the incoming **pulse-2**, carrying an **expanded Imprint of the first Radial Tile**, progresses from the Meajhe Field Eiros to Trion Field, then begins to **"Flash On"** its blueprint in manifestation. The embodied self perceives a **"linear moment progression"**, the ***pulse-1*** program becomes **"memory"** of the **"Past"** moment, ***pulse-2*** the **"Present"**.

The Radial Body, Mechanics of Manifestation, Healing and Human Potential

There is much more to be revealed regarding the subject of the *Mechanics of Manifestation*. Our introduction to the ***Radial Body anatomy***, the ***Transduction Sequence*** and the ***Mechanics of Manifestation*** represents a beginning in the quest for genuine mastery over the manifest experience. In this *Kathara Level-2 Introduction*, we will **not yet address** the highly pertinent aspects of *Manifestation Mechanics* that pertain to **direct Creation of matter and events** through **Conscious Thought Projection** and applied personal **Will Intention**, nor will we yet investigate the complex realities of **Space-Time Travel, Star Gate Passage** and the **Spiritualized-science of Ascension**. All of these subjects, and more, are *intimately intertwined* with **personal healing** and the Imprint for Health, **attaining mastery** over Manifestation Mechanics and the Bio-Spiritual processes of genuine **Spiritual Actualization**. All of these abilities, and many others too numerous to mention, presently exist as **dormant evolutionary potentials** for the Human species; potentials that were once, long ago, fully actualized and commonly expressed. The ***Kathara Bio-Spiritual Healing System*** represents a body of Master teachings that focus upon the manifestation and maintenance of **Holistic Health, through Bio-Spiritual Mastery and Spiritual Actualization**. Exploration of subjects such as ***Merkaba Mechanics, Manifestation Mechanics*** and the ***Radial Body Trion-Meajhe Field*** is an intrinsic part of furthering our abilities to embody and practice the ideals of Healing and Health through Holism.

Before we can begin to actualize the exciting potentials of freedom, love, power and knowledge that await Human re-discovery, we must first focus upon **healing the obstacles** that have long stood in our way of actualizing true Human potential. Our study of *Merkaba Mechanics*, in this *Kathara Level-2 Introduction*, has included a *necessary introduction* to **Manifestation Mechanics** and **Radial Body Anatomy**; the greatest physical and spiritual difficulties presently facing Humankind emerge from a **HIDDEN ILLNESS** that has held our species hostage within a progressively deteriorating, **unnatural Mortal body form**. The **underlying cause of All Human illness** is an **unnatural genetic mutation** that manifests THROUGH the **DNA Template** and **chemical DNA**. The **Causal Element** of this species' genetic deviation from its original Divine Blueprint can only be found through study of the 15-Dimensional Anatomy, ***Primal Life Force Currents***, ***Kathara Grid***, ***Maharic Shield***, ***Merkaba Field***, ***DNA Template***, the ***Radial Body*** and the intimate interplay that perpetually exists between these interwoven systems. It is precisely this ***species genetic deviation***, which has progressed and increased for over **200,000 years**, that has kept Humanity bound to a finite, limited world, unable to express the potentials that once existed as our birthright. Though the problem of this species' "Internal Illness" is multi-faceted and highly complex, the **Soul-U-tions** through which progressive healing of the Human genome can be rendered are relatively simple. The **Soul-U-tions for healing** and restoring health to our species and ourselves **require familiarity with basic Kathara Grid, Manifestation Template, Radial Body, DNA Template and Merkaba Mechanics.**

These are the elements of our 15-Dimensional anatomy within which the **Causal Element** of our genetic deviation is held, and thus these are the elements of our anatomy through which the **most rapid and permanent Healing Solutions** can be rendered

In the following pages, we will continue our investigation of the ***Transduction Sequence and the Miasmic Body***, in order to **identify** the regions of our 15-Dimensional Anatomy in which our hidden genetic mutations are created, stored and perpetuated. Once we can identify the regions in which the greatest healing is needed, we can then directly employ appropriate remedial measures. Working with the Core Kathara Grid **and Maharic Shield Divine Christos Blueprint** to reset the Imprint for Health (Kathara Level-1), while **simultaneously** working with the **elements of our anatomy within which the most significant remedial measures are needed**, will allow us to use Divine Blueprint technology to implement **expedited healing**. In this *Kathara Level-2 Introduction*, we will examine the *Transduction-Manifestation Sequence* and how its present **malfunction** creates the **Miasmic Body**, which created the DNA Template distortion through which our **chemical DNA mutation** and a phenomenon known as the "**Phantom**" or "**Shadow**" **Self** is brought into being within our manifest hologram. We will then continue our exploration of **Merkaba Mechanics** and **Radial Body Healing** applications, to discover the "**Secrets of the Veca Codes**", and Photo-Sonic and Photo-Radionic Radial Body Healing technologies, through which our Kathara and Merkabic Healing applications can be tremendously intensified, amplified and expedited.

The Personal Radial Body or Triun Merkha Field is composed of 8 Nova Body Capsules that manifest as electromagnetic barriers or "frequency fences" between each set of 3 DNA Strand Templates, each set of 3 associated Adam Lines, Chakras and Meridians and between each 3-dimensional layer of the Auric Field and corresponding level of personal multidimensional identity.

Each of the 5 3-dimensional Harmonic Merkaba Fields corresponding to the 5 Nova Bodies of 15 Dimensional Anatomy governs the function of the corresponding Dimensional Merkaba Fields, Radial Body level and its embedded Memory Matrix, via the matrix grid program held in the personal Kathara Grid. Shields and Crystal Body templates. The Kathara Grid program is passed from the Keylontic Crystal Body into the DNA Templates via the Dimensional and Harmonic Merkaba Fields and the mer-Ka-ba Fields of the Level-3 Kathara Blodic Grid.

Each Nova Capsule Radial Body level, receiving its instructions from the DNA Templets and 3rd dimensional Mental Body Nova Body level, in turn governs the function of the chemically manifest DNA and all body-consciousness systems that are built upon chemical/genetic code.

- The Harmonic Merkaba Field governs the particle spin axis (Angular Rotation of Particle Spin) ratios of the energy units that make up its corresponding 3-dimensional system. Each Harmonic Merkaba Field corresponds to one Nova Body, one set of 3-dimensions and its Matter Density level characteristics of that 3-dimensional system. Each Nova Body, and thus each Harmonic Merkaba Field level and Radial Body level, corresponds to one set of 3 DNA STRAND TEMPLATES within the Human 12-Strand Template.
- Full activation of one Harmonic Merkaba Field creates reciprocal activation of the corresponding set of 3 DNA Strand Templates, which creates embodiment of corresponding levels of identity and consciousness (personality, Soul, Over-Soul, Avatar, Rishi etc). When one Harmonic Merkaba Field is activated through natural activation of the corresponding Shields and Crystal Body Keylons, the Harmonic Merkaba Field becomes capable of merging with the Harmonic Merkaba Fields from other Density Levels, in a process frequently called Transmutative Dimensional Ascension.

- During the process of "Ascension" (also called "space-time travel" "wave riding" "Star Gate passage" "Teleportation" etc. the Harmonic Merkaba Fields of more than one Density Level merge, progressively shifting the two or more different sets of 3-dimensional particles into a common particle spin axis angle and spin speed. The corresponding Axiom Lines, Nova Bodies, Auric Fields Levels, Cladures, Meridian Lines and Radial Body Levels also merge.

- When Harmonic Merkaba Fields and their corresponding Inner Template Anatomy merge, the Fire Codes between the corresponding DNA Strand Template activate, causing the DNA Strand Templates to merge, which causes a reciprocal reaction called "DNA Strand BRAIDING" between corresponding chemical DNA strands. The "Double Helix" configuration of "one strand" remains as the chemical components of each strand overlay together to become a single Double Helix containing the chemical programs of multiple DNA strands).

- When the Fire Codes between strands in the DNA Template activate, dormant sequences of chemical DNA called "Transient Turnstile DNA Sequences" "turn on" within the Hydrogen Bonds that link each DNA "Ladder Rung" together, producing a transient trans-harmonic element called Celestaline within the chemical DNA.

- Natural Braiding of the chemical DNA strands and activation of the chemical Turnstile DNA Sequences creates a series of sub-atomic bio-chemical DNA responses that allows for Interna Atomic Particle-Anti-particle Fusion and Fission. Natural Interna Atomic Fusion-Fission enables the manifest atomic structure to temporarily de-manifest, returning it "spirit form" by re-entering the electrostatic Triton-Meiglin Field of the corresponding Radial Body Levels.

- During the Ascension process, the Harmonic Merkaba Fields of 2 or more Density Levels merge, forming various PHASES of Merkaba activation that create a Trans-Harmonic Merkaba Field that is called the Merkaba VEHICLE. The 3-Dimensional METHRA Phase Merkaba Field of Density-1 accelerates in rotation speed to become the 6-dimensional HALLAH Phase 9-Dimensional Daubra Phase 12-Dimensional Maharata Phase or 15-Dimensional Rahanta Phase Harmonic Merkaba Vehicle.

- As a phase of the Trans-Harmonic Merkaba Vehicle activates, the corresponding lower-dimensional **Hova Body and Radial Body Level dissolve,** their content of energy and consciousness **expanding** into the next Hova Body and Radial Body Level, forming a **Trans-Harmonic Radial Body "FORM CONSTANT"** within the **Merkaba Vehicle.**

- The Trans-Harmonic Radial Body and Merkaba Vehicle allow the consciousness and biological form to "de-manifest" from the lower dimensional Density Level. The identity can then **re-manifest** in another Density Level or space-time coordinate by projecting itself into the desired location, AS the electrostatic ***Trion-Meajhe Field*** **Trans-Harmonic Radial Body,** then returning the DNA Template activation level and Harmonic Merkaba Spin ratios to that of the new location for re-manifestation.

- When the Personal **Merkaba Field** is used to form the **Trans-Harmonic Radial Body** in the process of Ascension, the Merkaba Field is called a **MERKABA VEHICLE.** A ***Merkaba Vehicle*** is an electrostatic **Trion-Meajhe Field** of Prima Pre-Light-Sound, through which the consciousness (AKA "spirit") can move itself, *and its atomic structure,* through **thought-projection,** to a desired location beyond the "veils" of the Planetary, Galactic and Universal Hova Capsule-Radial Body-Form Constant barriers.

- Conscious mastery of the Personal Merkaba Field, through which the organic **internally created Merkaba Vehicle** Trans-Harmonic Radial Body becomes available for conscious direction, implies **conscious control of the DNA Template function.** The potentialities of **genuine Ascension** (etc...) and mastery of the Bio-Spiritual Consciousness are **inborn attributes** of the Human 12-Strand DNA Template. Due to a **species de-evolutionary genetic mutation,** that compromises natural function of the Personal Merkaba Field and DNA, the reality of Ascension on a species level has been lost to all but a few on Earth for over 200,000 years (ref. Masters Temp.ar Course Book)

- The potentials of **Bio-Spiritual Actualization** CAN be returned to humankind through **reverse-mutation** of genetic dysfunction within the human genome and DNA Template. Healing the genetic template can be achieved by **manually employing** specific practices of **Kathara "Maharic Shield" Core Template Dynamics** in **combination** with **Harmonic Merkaba Mechanics,** through which the many eons of biological miasmic distortion can be progressively and rapidly cleared from the Personal Kathara Grid and DNA Template.

- Restoration of the D-12 Pre-matter Divine Blueprint within the Human Kathara Grid and DNA Template will eventually **free the Personal Merkaba Field** for use as a **Trans-Harmonic Merkaba Vehicle**. Kathara Healing applications and use of the D-12 Pre-matter Maharata "Christos" Current, to reset the biological D-12 Pre-matter Divine Blueprint, are the beginning steps in reclaiming Bio-Spiritual Mastery.

- The functions of the personal **Merkaba Field** and **DNA Template** are not only associated with abilities of **Atomic Transmutation** and **Dimensional Ascension;** they are directly linked to **every aspect of body-mind-spirit function**, including **biological longevity** and **health**, **memory**, **intelligence**, and **metabolic**, **chemical**, **metal** and **emotional balance** and stability.

- Most significantly, the **Merkaba Field/DNA Connection** is the Bio-Spiritual conduit through which the consciousness of an embodied individual is directly linked to the common Perpetual Force of Energy and Eternal Source of Intelligent Creation that is "**God**".

- When a being's Merkaba Field and DNA Template are functioning upon the innate program of **Universal Primal Order**, as it is held within the Pre-matter **Universal Divine Blueprint** of the D-12 "Christos" Liquid-Light field, the natural and perpetual supply of **Primal Life Force Currents** and "spiritual" consciousness emanating eternally from Source-God flow through an open energetic channel or "**Pillar of Light**", which is called the "Um Shaddai Ur" (Pillar of First Cause Light-Sound") into the manifest embodiment. Such a being is called a "**Christed Being**". This implies that the integrity of its original D-12 Pre-matter Divine Blueprint has not been structurally compromised, and thus the perpetual Life Force Currents, consciousness sentience, intelligence, wisdom, power, Will and LOVE of Source can freely express through the Um Shaddai Ur into the manifest hologram of the Time Matrix, through the Christed embodiment.

- If the Kathara Grid, DNA Template and Merkaba Field of a being are damaged and no longer carry the **original mathematical-geometrical program** of the **D-12 Divine Blueprint**, through which the being entered space-time, the flow of Primal Life Force Currents, the Um Shaddai Ur Pillar and thus the active consciousness connection to God will be distorted, reduced or severed at the dimensional level to which the template distortion corresponds.

Copyright A & A. 2002 All Rights Reserved

- A manifest being incapable of running the Primal Life Force Currents of the Um Shaddai Ur "Pillar" becomes **biologically finite**, its consciousness "trapped in the Time Matrix", even following death of the physical body. Due to the **natural Laws of Creation Physics**, as set by Source-God, this condition of **finite mortality** will remain until the being's **Kathara Grid Template and Merkaba Field connection** to the D-12 **Universal Divine "Christos" Blueprint** and Universal Trion-Meajhe Field Um-Shaddai-Ur Pillar are restored.

- Healing Core Template genetic distortions that are severe enough to cause dysfunction of the Personal Merkaba Field first requires **resetting of the D-12 Divine Blueprint** through activation of the **Personal Maharic Shield**. Until the Body-Mind-Spirit system has reached a **Critical Mass** of D-12 Divine Blueprint holding, through frequent and progressive manual running of the D-12 Maharata Current, Healing Core Template genetic distortions **also requires** simultaneous, direct and repeated **manual realignment** and **restoration of Personal Merkaba Field function** and **Radial Body Trion-Meajhe Field** integrity.

- If there **are distortions within the Kathara Grid or DNA Template** of an individual or species, the Personal Merkaba Fields will not function in harmony with the **natural energy circulation rhythms** of the **Planetary, Galactic, Universal** and **Time Matrix Merkaba Fields** and Universal Kathara Grid. Such Kathara Grid distortions create tangible **genetic** and **consciousness mutation** within biological organisms and can divert the **intended evolutionary destiny** of an embodied consciousness or species on to a divergent path of **de-evolution and consciousness fragmentation**, unintended by the original plan encoded within the D-12 Pre-matter Christos Divine Blueprint.

- Distortions within the DNA Template, and resulting **Miasms**, can be purged through **manual resetting of the D-12 Pre-matter Divine Blueprint**, via repeated manual activation of the Personal Maharic Shield. The activated **Maharic Shield** runs the Density-4 D-12 **Maharata Primal Life Force "Christos" Current** through the Kathara Grid and form embodiment, progressively resetting the original mathematical coding of the personal Divine Blueprint within the Kathara Grid and DNA Template. Use of the **Maharic Shield techniques** in *Kathara Level-1* sets this process of **Core Template Regeneration** in motion.

- The Core Template "Divine Blueprint" healing process can be expedited through applied **Christos-Merkabic Healing Mechanics** such as the ***Tribal Shield Activation*** (Technique-7), ***Merkaba Salutation*** (Technique-8), ***Merkaba Trinity Key Induction*** (Technique-9) and the ***Kee-Ra-ShA' Activation Sequence*** (Technique-12).

- Divine Blueprint Healing can be expedited further through **manual restoration** of the personal Trion-Meajhe Field **Radial Body** and its inherent **Memory Matrix**. **Radial Body Healing** when **combined** with ***Kathara Maharic Shield*** and ***Christos-Merkabic Healing*** dynamics, is the most powerful and rapid Holistic Healing technology available.

- **Radial Body Healing** dynamics, which also serve to progressively restore the organic **Memory Matrix** involve use of the specific **mathematical programs** that govern formation of the **Radial Body Trion-Meajhe Field**. These mathematical programs are called **VECA CODES**.

- **Technique-10,** ***Restoring the Trion Field-Photo-Radionic Healing*** **and Technique-11,** ***Restoring the Meajhe Field-Photo-Sonic Healing*** provide introduction to **Radial Body Healing Mechanics**. Use of these techniques, in **combination** with **Technique-2,** ***The Maharic Seal and Liquid Light Cleanse*** and **Merkabic Healing Techniques 6-12**, will **greatly expedite** the personal healing process while **significantly increasing** the body-mind-spirit abilities to **receive, hold/sustain and transmit greater quantity and quality** of interdimensional frequency in the Client Healing Facilitation process

Radial Body Healing, the VECA CODES, DNA and Merkaba

- Veca Codes, also called the "I AM" or "**Immanuyana Sequence**" are very specific **SYMBOL CODES**, each possessing corresponding **Sound Tones** called ***Arieas*** and **energy movements** called ***Seurias***, which correspond to the Cosmic, Universal, Galactic, Planetary and Personal **Trion-Meajhe Field Radial Body Levels**.

- There are **5 categories of Veca Codes**, the Planetary **Low-Veca *Codes of Manu*** (Taurenic-Akashic Codes), the Galactic **Mid-Veca *Codes of Immanu*** (Akashic-Eckashic Codes), the Universal **Level-1 High-Veca *Codes of Immanuel*** (Polaric-Rishic Codes), the Cosmic **Level-2 High Veca *Codes of Immanuyana*** (Triadic-Polaric-Eckatic Codes) and the God-Seed **Yunasai *Codes of Eckasha*** (Source Codes).

- Beginning applications of Veca Code Radial Body Healing begin with restoring the Trion-Meajhe Field Radial Body, through resetting the ***Yunasai*-Eckasha and High Veca *Immanuyana* and *Immanuel* Codes**, through **frequent manual Direct Induction** of their corresponding **Symbol Codes** and **Sound Tones/Arieas**

- The most powerful **Yunasai-Eckasha Codes** are **PHOTO-SONIC Codes**, carrying the Mathematical Programs of the ***Khundaray Current*** Primal Sound ***Meajhe Field*** AND their bridging **God-Seed vibration-rhythms** connecting to Source. The **Level-2 *Immanuyana*** and **Level-1 *Immanuel* High Veca Codes** are **PHOTO-RADIONIC Codes**, carrying the Mathematical Programs of the Trion-Meajhe Field **Khundaray Primal Sound** AND **Kee-Ra-ShA' Primal Light Currents**.

- **Consistent use** of **Veca Code Radial Body Healing**, in combination with **Merkabic and Kathara Healing** applications, will progressively **clear the Miasmic Body** and heal, balance, re-integrate and restore the Divine Blueprint within the energies of the **Phantom-Shadow Self** in all levels of the Body-Mind-Spirit system.

- More advanced applications of Veca Code technologies include use of the **Mid-Veca *Immanu*** and **Low-Veca *Manu* Codes** and the corresponding ***Seurias*** (body movements to direct frequency), following a period of initial induction and activation of the Yunasai and High Veca Codes. Full Spectrum Veca Code technologies are introduced in the "***Dance For Life***" Masters Spiritual Development Program.

- **Induction** or **IMBEDDING** of the High Veca Codes into the 15-Dimensional Anatomy involves placing the corresponding **Symbol Code Sequence** (mathematical program) over the **regions of the physical body** that correspond to the appropriate aspects of the Kathara Level-2 **Crystal Seals Grids** and Level-3 **Diodic Grid**. Once the Symbol is in place, the breath is used to direct **D-12 Maharata Current** through each **Symbol Code** and **body region**. Use of the **Maharata Current** "carrier wave" (via **activation of the Maharic Seal/Shield**) is **required** to **induce** the code's **mathematical program** into the **Diodic** and **Crystal Seals Grids**, where the program will then naturally transfer into the corresponding areas of the **Level-1 Kathara 12-Tree Grid** core template.

- Once the High Veca and Eckasha Code Sequences are Imbedded/induced into the Level-1 Kathara Grid, they are then **Activated** in the Kathara Grid by **TONING** the corresponding **Veca Code Arlea Sequence**. The longer toning is sustained, the greater will be the quantity and quality of Veca Code Activation.

- Once Activated, the Veca Code programs travel upward through the stages of the **Transduction-Manifestation Sequence** from the **Kathara Grid**, to the **Shields**, into the **Keylon Crystal Body Morphogenetic Field**, then into the **Merkaba Field**. **DNA Template** and **Hova Body/ Radial Body Levels**, temporarily restoring the **Christiac Merkaba Field, Radial Body** and **Memory Matrix Divine Blueprint**. **Frequent and continued use** of the Veca Codes will progressively build **Critical Mass** of the **Divine Blueprint program simultaneously** within **ALL levels** of the 15-Dimensional Anatomy, eventually culminating in expedited full restoration of the D-12 Maharic Shield blueprint within the Body-Mind-Spirit system, via the Radial Body Trion-Meajhe Field.

- Activation of the Yunasai and High Veca Codes within the personal body **prior to conducting a Kathara Client Healing Session** will cause the facilitator's **Level-3 DIODIC GRID to activate**, temporarily **transmitting Veca Code sub-harmonics**. This will cause the **minute Diodic Chakras** in the facilitator's **FINGER TIPS** to activate **if the Palm Chakras** have been activated with either pure **Maharata Current** or a selected **Triadic Phase Current**. The facilitator will then **automatically transmit** Veca Code sub-harmonics into the client's Diodic Grid, while conducting general Kathara Healing applications allowing the client to benefit from temporary **Radial Body healing support**, which will **amplify the effects** of all healing applications.

- A more Temporary Imbedding and Activation of the Vesa Codes program can be achieved through OPTICAL-PINEAL INDUCTION, whereby the eyes are focused for a time upon the image of the Symbol Code. The mathematical Vesa Code program enters the Pineal Gland through the Optical Currents and 6th Chakra, and then travels for imbedding/activation through the Central Vertical Current into the body regions and Crystal Seats and areas to which the Vesa Code corresponds. The Vesa Tones/Arkras are then used to Activate the Imbedded Vesa Code Sequence.

- In Optical-Pineal Induction, the Vesa Program loses a bit of frequency charge/strength during its travel in the Central Vertical Current. This creates a more temporary imbedding and activation of the Vesa Codes than that which is achieved through Direct Induction. Optical-Pineal Induction is useful for daily amplification of the Vesas and for Kathara Healing, Chart Sessions and planetary grid "site work" when used in combination with the full induction procedure employed at least once per week.

- To receive full benefit of Vesa Code Radial Body Healing applications, Techniques-12 The Kee-Ra-Ba-Ki' Activation Sequence should be fully run at least ONE TIME. Technique-13 can also be used more orally thereafter if desired to create intensification and amplification of the Primal Life Force Currents during Katharas, Merkabic and Vesa Code Healing technologies.

- Frequent use of Technique-13: The "Song of Lyra" Chakra Invocation will amplify all Katharas, Merkabic and Vesa Code Radial Body Healing applications.

Mastering the Triun Field-Photo-Radiant Healing

Creating a Personal Bio-Field Link to the Universal Christos-Triun-Meaphe Field
Master Melchizedek Mechanics

Exercise 1: Once per day, do Melchizedek Inside-Seal. Then practice each set of Vesica-forms separately while feeling visual focus on corresponding Vesica-Code symbol; spend at least three or four minutes gazing at each symbol (optical-pineal induction) while feeling corresponding tones (core template vibrational induction). With practice this will progressively expand the personal consciousness while activating the personal Christos-Triun-Meaphe Field of your Christos-Richios-Ascended Master identity levels within the cellular structure.

Exercise 2: Once per week, directly after completing Exercise 1, place all Vesica-Code symbols over designated body areas, activate Melchizedek Shield, breathe D-12 Melchizedek Current through each symbol and body area to induce code using the Bi-Tri-Khu-Dha-Ra Sequence, then begin toning the corresponding tones following the Bi-Tri-Khu-Dha-Ra Sequence. Memorize the tone sequence of the 6 High Vesica Codes as if it were a "song" and relax, close eyes and sing/tone this "song" (Psalm) for 5 to 10 minutes. The longer you tone, the more frequency power you build within the body and the stronger your link will be to the Universal Christos Triun Meaphe Field. This exercise can also be used with groups, either regularly to create and amplify Christos Triun Meaphe Field links or just prior to beginning RST work. Frequent and consistent use of these two exercises will progressively develop the spin-rate capacity of the personal Christos Meaphe Field, while expanding higher consciousness within the body and progressively enhancing the health, immunity and integrity of the Mind-Body-Spirit system.

Restoring the Magno Field-Photo-Sonic Healing

Use Technique-8 The Meteoric Orbit Seal to activate your Meteoric Orbit Seal and Meteoric Current.

2. Stare at image of the Eclectia Code for a few seconds. Then gently begin to "Cross Eyes" until you can see a "Double Image" of the Eclectia code when looking at the image. Hold "Eye Cross" focus while taking three rapid breaths...on each EXHALE projecting a stream of [5-6] PINK60 current from your 6th "3rd Eye" Chakra at forehead. [This holds Dot Optical Currents into A-12 Quantum to carry the Eclectia program into the Pineal Gland] Uncross eyes, relax visual focus and close eyes for...moment or two

3. INHALE several breaths of Pale Silver D-12 Meteoric Current up from the Earth Core through your Meteoric Cord...on each EXHALE projecting the Meteoric Current in the Pineal Gland as the center of the brain, to form a Pale Silver "Meteoric Ball" in the Pineal.

4. Breathe gently and return visual focus to the image of the Eclectia, focusing upon the Eclectia Core-RESONE [the "Double Circles" and their central dot center of Eclectia].

5. EXHALE while projecting a stream of PINK60 current from the 6th Chakra at the forehead...into the RESONE symbol below your eyes. INHALE while drawing the PINK60 current stream with the RESONE image at its end back through the 6th Chakra and into the Meteoric Ball in the Pineal.

6. INHALE one more breath of Meteoric Current up from Earth Core to the Meteoric Ball in the Pineal. Then use a forceful EXHALE to PUSH Eclectic-Reactor charged Meteoric Ball out to the right...to the "Meteor" position over the right shoulder...causing the Meteoric Ball growing to the size of a "Basket Ball" over the right shoulder and visualize the image of the Eclectic as expanding to fill the inside of the Meteoric Ball.

INHALE forcefully while moving the Meteoric Ball back to a position centered around your head, then use three breaths to INHALE Meteoric Current up from Earth's Core to Pineal and EXHALE the Meteoric Current outward to fill and expand the Meteoric Ball.

The Song of Lyra Christos Invocation

The Vector Invocation
The Vectors Comprehensive Declaration
The Vectors Declaration of the Absolutes
[All spell incantations in all Time Vectors declaring in Unity as the Vector Self]
English translation from Elohim-Arcturian Crewed Universal Change Team

The Black-ish El-Vectus Declaration
Declaration of the Absolutes
[Interdictive Decree AS the personal G-D Christos Avatar Multiversals, self Identity]

I decree now in the command of KNOWING that all things here within me are inextricably anchored in the original Divine Intention of the ONENESS that is HERE.

I release now all levels of matrixes, illusions, veils, & BELIEF systems that block my eyes.

I revoke all separations of duality through which my Heart is ensnared, numb with disillusion and discord.

In this moment, reclaim the Whole of my Condition, reaching forth into the depths of all creation to now call my SPIRIT home.

And the Voice of the Radiant Blessing. And the HEART of Divine LOVE. And the ONE Pulse of the Heart of All Creation. And the Voice of the Universal Song.

I decree now in full remembrance, Knowing that I AM ALL and We are ONE.

In recalling back this decree of my Eternal Divine Power, I call on our Divine Intention only, through which the All and I am equally served as the Highest Order of our collective Soul Christ Intention.

I call now unto the many Selves and Shadows encountered within the Realms of Time, and decree unto that that I AM THIS. I AM

I AM the one that creates by Love.
I AM the one that answers by Will.
I AM the Whisper of the Dream of God within YOU.
WE NOW are the resonance of One Heart, Mind and Hand.
WE are the Sparkling Eyes looking at the human world of matter.
WE are the Power Beacons of Soul Eternal, Invoked.
WE are the Voices of Eternal Life in love, assured, strong.
WE are the smiling, the knowing, the heart-felt of the Cosmic Fire expressed.

*About the "Personal Shields Activation Linking Sequence"

This collection of Techniques has been specifically arranged as the most basic, consolidated group that will support effective participation of all-comers to Kathara Level 2-3, whether beginner or established practitioner of Kathara Level-1 Therefore, Techniques 1 thru' 8 are *essential precursors* to effective personal access to the frequencies associated with Kathara 2-3 (and, thus, every bit as significant as K2-3 techniques 9 thru' 20) Considered from a wider perspective, these techniques will provide a minimum basis on which Base-6 frequencies can be successfully anchored (i e. the sub-harmonics 1-6 (of 12) of Dimensions 1 thru 12). This Technique group is complemented by those found in the 4 part "Dance for ... " Series Program (Life, Love, Joy & Freedom) leading to "maximized" potential for anchoring Base-12 and, thereby, the increased potentiality of ascension and/ or Stargate passage, together with effective participation in Masters Grid-work projects. Successful anchoring of Base-12 Frequencies presupposes *applied familiarity* of the contents of the 4 part "Dance for Life" Series as well as recommended use of all "Dance for" Techniques. These guidelines are basic "catch-up" essentials and should not be construed as invalidating numerous additional MCEO techniques & teachings and, particularly, non-duplicated "Essential Newcomers" techniques.

Theoretical Perspectives

EOMC teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. EOMC teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within EOMC teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within EOMC teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the EOMC teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of EOMC teachings pertaining to the **"Ancient Science of the Shields"** (scalar-standing-wave templates of matter and consciousness), **"Merkaba Mechanics"** (interdimensional electromagnetic vortex mechanics) **"DNA Template Activations"** (frequency accretion within the scalar template behind manifest chemical DNA), **"Interdimensional Structure"**, **"15-Dimensional Anatomy"**, **"Bio-Spiritual Healing"** (support of biological healing and well being through holistic spiritual practice) and **Humanity's Evolutionary Journey** perspectives which are featured within the **EOMC Kathara Bio-Spiritual Healing Program, EOMC Maharata "Dance For" Programs** and related published works of the EOMC, cannot at this time be "proved or disproved". Therefore, the EOMC Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretical categorization of EOMC teachings within the public sector is recognized it should also be recognized that members of the Azurite Press Trustees and the AP Regents Council, as well as authorized EOMC translators/authors and teachers and many individuals within the international community, have personally chosen to accept the validity of EOMC teachings as representing more than a theoretical perspective, instead acknowledging the EOMC Paradigm as a factual reality interpretation, and practical worldview through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the EOMC Paradigm and the responsibilities inherent to this decision, are deeply private spiritual issues, and thus must be assigned to the faculties of personal discretion.

EOMC Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the EOMC Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the EOMC Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within EOMC teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within EOMC teachings are offered to the public solely as "***Meditations for Spiritual Exploration***", with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any *EOMC Meditations for Spiritual Exploration* techniques or technologies.**

Since introduction of *EOMC Meditations for Spiritual Exploration* techniques and technologies in 1999 **many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening** through use of EOMC techniques and technologies. There have also been a **lesser number of reports of individuals claiming to receive no affect, effect or benefit at all**, but there have been ***no reports* of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of EOMC techniques and technologies. As a reflection of commitment to responsibility in presentation, EOMC techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored utilized or practiced by authorized EOMC translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing EOMC Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999, findings pertaining to the practicality of utilizing EOMC techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized, though predominantly positive** in nature. Therefore, however, **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of EOMC techniques and technologies can be offered at this time.** Utilization of EOMC Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with EOMC teachings, techniques and technologies represents a choice of *personal decision and discretion*, and thus *responsibility pertaining to affect and effect of practice* that are inherent to this choice must also remain with the *individual*.**

Claim of Authenticity

In offering EOMC teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the EOMC Paradigm.** Though the *EOMC teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary EOMC teaching texts hold a binding commitment to ensure the clearest and most accurate translation of EOMC texts as possible under current evolutionary circumstances - a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the EOMC texts of antiquity*. Information represented as ***factual knowledge*** within the EOMC texts of antiquity, and their contemporary translations, is understood to represent "***potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory***" within the context of contemporary publication.

The contemporary translators/authors of EOMC teachings *claim only* that the EOMC text translations contained within presently published works bearing their authorship represent an "as-accurate-as-possible" translation of EOMC text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient EOMC text records occurred and as to the factuality that translation of the reviewed ancient EOMC texts into contemporary English language has been rendered by them as clearly and accurately as possible.

As the original EOMC texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary EOMC texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one's personal discretion. ***If ideas, concepts or perspectives contained within the EOMC texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the EOMC Paradigm and paradigms to which it might bear resemblance may have arisen from a common source in antiquity that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary EOMC text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within EOMC teachings, they likewise cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of EOMC teachings or Meditations for Spiritual Exploration techniques and technologies. The responsibility for decision to engage involvement with EOMC teachings, techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of EOMC teachings, techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided within EOMC teachings represent translations from the ancient EOMC texts, and are provided to the public as an option for personal spiritual exploration, investigation and experimentation, *to be utilized at the personal discretion of the reader or workshop attendee*.

As stated in numerous public forums and workshops since 1999, *in choosing to utilize* EOMC teachings, techniques or technologies it is understood that *in so doing* the *individual accepts full responsibility for any and all conditions* that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* EOMC teachings, techniques or technologies *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to *EOMC-sanctioned Kathara "no-touch" procedures*), authorized EOMC translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in EOMC teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with EOMC teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the EOMC Paradigm*; notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement* with and/or practice of EOMC teachings, techniques and technologies. If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release*, it is suggested and recommended that one choose at this time non-involvement with EOMC teachings, techniques and technologies, until a future time wherein such concerns have been assuaged.

A Commitment to Quality and the EOMC Course-book Manuals

The authorized EOMC translators/authors, members of the EOMC Azurite Press Trustees, Regents Council, teachers and promoters of the EOMC Paradigm extend their greatest efforts in making EOMC teachings available for public exploration in the most responsible and respectful manner possible, whilst striving to maintain the highest standards of integrity in EOMC text translation and teaching. Intrinsic to such responsibility in presentation, authorized EOMC translators/authors, members of Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of EOMC programs are all individuals who personally believe in the factuality of the EOMC Paradigm and who actively participate, for personal spiritual reasons, in EOMC programs, including personal utilization of EOMC techniques and technologies. These individuals all share a common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of EOMC teachings; this shared commitment arises from a commonly shared, individually held, reverence, respect, appreciation for, and belief in the validity of, the EOMC Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality, may it be understood that EOMC Course-book Manuals, as featured within the EOMC *Kathara Bio-spiritual Healing Program*, *EOMC Maharata "Dance For" Programs*, *EOMC Masters Templar Stewardship Initiative Program* and other EOMC teaching programs, do not represent completed books but rather exist as companion text briefings that are created in conjunction with specific corresponding live workshop presentations which are preserved via audio/ video recordings that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program, and do not contain the ***many pages of dialogue and detailed explanation*** that is incorporated verbally within the audio-video program. Thus EOMC Course-book manuals are not intended to be used alone, but are rather intended for used as an additional educational aid in conjunction with their corresponding audio-video workshop program.

As new EOMC workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered "in-the-rough", often with portions of text in hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail, typesetting, computer graphics, pagination and indexing. As each new workshop since 1999 has introduced the next level of new, live EOMC data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to EOMC Course-Book Manual texts from previous workshops. The information and new EOMC teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the EOMC Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were "perfected" in terms of product production, it would be several years before these materials were released for public review. As new EOMC teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the EOMC teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, EOMC audio-video-Course-book Programs are in a state of continued evolution, as the small staff at Azurite Press, with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous EOMC workshop presentations in effort to fulfill the goal of creating "perfected" book publications that contain, and "do justice to" the vast body of quality teachings that have been presented during the 1999-2003 EOMC workshops. The commitment to achieving excellence in quality of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to "honor the spirit of the teachings" which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving "perfected" product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the quality and inherent substance, of EOMC information, more so than the "package that it comes in", which demonstrates the value of Azurite Press EOMC educational products.

SUMMARY

The Melchizedek Cloister Emerald Order Teachings, the Eleyani and the CDT-Plates

The ancient MCEO (Melchizedek Cloister Emerald Order) perspectives teach of the inner Christos, or living God-spirit alive within all things, including the natural environment. "Inner Christos" philosophies are built upon understanding of what is referred to as the "Law of One". Inner Christos Law of One perspective respectfully acknowledges the inter-connection, interdependence and intrinsic value of all components of reality in recognition that the Living Consciousness, "God-Spirit" or "Inner Christos" is the tangible substance of consciousness and energy from and of which all things manifest are composed. MCEO teachings offer people an opportunity for advancing personal empowerment through genuine spiritual development regardless of their religious affiliation. The "Inner Christos" of the "Law of One" MCEO spiritual teachings belongs to everyone of every creed, not just those who choose to call themselves "Christians". The word "Christos" (from which the word "Christian" later emerged) was originally spelled "Krstos" in the most ancient texts, and referred to the personal Divine Blueprint of Conscious Living God-Spirit energy of which all things and beings manifest are made.

The spiritual service work and teachings of the MCEO (Melchizedek Cloister Emerald Order) are more than perspectives based upon *speculation* regarding a variety of unrelated but interesting spiritual and scientific subjects. The work for which MCEO and its Speakers stand represents a very ancient, advanced Paradigm of Perspective on the nature of reality. The MCEO paradigm is inclusive of the other scientific and spiritual belief systems on Earth, but extends beyond the limitations and often incongruent and conflicting assumptions commonly associated with them. Through familiarity with the MCEO teachings one can grow to recognize the commonality and intrinsic complementary association between the most empowering contemporary belief systems and the MCEO perspective. At the center of contemporary MCEO teaching programs lies an "Ancient Mystery" known as the "CDT-Plates". The books and course programs produced by the MCEO are not speculative nor theoretical in nature, but are rather derived from factual TEXT BOOKS. Contemporary MCEO teaching programs contain English language translations of materials already existing within a very ancient set of texts called the Maharata Texts (indirectly related to the Indian "Mahabharata" writings). The 560 books of the ancient Maharata Texts are the original translations of an even older set of ancient records that have survived to our present time, stored on a set of 12 digital holographic recorder discs called the "*Cloister-Dora-Teura Plates*" or CDT-Plates", that were manufactured in 245,000BC. The CDT-Plates and Maharata Texts have been translated into written form numerous times in our ancient history, in many different countries and languages.

The CDT-Plates are real, physical objects, that have been kept in the private, protective custody of a specific family line of "Indigo Children" on Earth since the 9558BC "fall of Atlantis". This family line is called the Eleyani who refer to themselves as the Melchizedek Cloister Emerald Order (MCEO) Priests of Ur; another branch of the Eleyani family call themselves the MCEO "Priests of MU'a ("MU"). The word "*priest*" originally meant "guardian" or "*steward and administrator of spiritual wisdom*". Both males and females in stewardship to spiritual wisdom and administering this wisdom to others are referred to as "Priests" or "Ministers". The MCEO has always been, and will always be, an egalitarian, non-hierarchical, non-gender-biased spiritual service collective. There are small collectives of Eleyani descendants alive, well and living on Earth now in various global regions who hold the knowledge (and relics like the CDT-Plates) of pre-ancient Earth and its civilizations. *Similar* to some more advanced sects of Tibetan Monks, especially those who rarely emerge from their "hide outs" in the Himalayas, certain members of the Eleyani family line have *open contact and direct communication* with living civilizations from "other" places and *other times*. Every once in a while within humanity's evolution, the Eleyani are permitted to bring back the ancient teachings in their pure form, allowing for the records of the 12 CDT-Plates and Maharata Texts original translations to be re- translated into the languages of the time. The Eleyani return the knowledge contained in the CDT-Plate records to public view when it is most needed to assist Earth populations, at times when major planetary events are due to transpire. The last time *written* CDT-Plate translation took place was during the "Christ period" of 12BC-27AD among a group of Essenes of Eleyani descent. Most of these written records were rapidly destroyed, confiscated or intentionally altered by the corrupt political power elite of the times, as so often has happened historically with CDT-Plate written translations. Since 27AD the Eleyani Priests knew that the next CDT-Plate Translation Cycle was scheduled to occur just prior to and during the 2000-2017AD period, a period in time when great changes in the evolutionary path of all Earth species were destined to unfold. During the 2000-2017AD period permission for written CDT-Plate translation was to be authorized by the Eleyani Priests.

CDT-Plate Translation occurs when the Eleyani Priests carefully select several individuals in childhood from general family lines that they know to be descendant from the Eleyani. They make private contact with the child, providing years of discrete

training as needed. When it is time for the CDT-Plate Translation Cycle to begin, the Eleyani then offer 3 official MCEO Eleyani SPEAKERS Contracts to 3 of their chosen trainees that have entered adulthood (the individual is under no obligation to accept a "Speakers" appointment). Speakers Contracts are publication endorsements for CDT-Plate and Maharata Text translations. Eleyani Speakers are permitted and trained to translate information directly from the highly protected CDT-Plate holographic discs and from their original Maharata Texts written translations. Once skilled in translation, Speakers are then endorsed by the MCEO Eleyani Priests to publicly publish MCEO CDT-Plate translations and related information as provided by the Eleyani Priests. During many historical periods written translation of the CDT-Plates was forbidden, to protect the Eleyani Speakers, and prevent Planetary Templar knowledge from being confiscated and abused by corrupt political powers; at these times only *verbal presentation* of the knowledge was permitted, thus translators were called "*Speakers*". To protect the integrity and quality of CDT-Plate translations, and to ensure the safe keeping of the 12 CDT-Plates, there are **only 3 Speaker Contract appointments** given during any one translation cycle. When translation publication time arrives, the 3 Speakers are eventually guided by the Eleyani Priests to find each other and work together, each endorsing the validity of the others work. In the present CDT-Plate Translation Cycle the **Speaker-1 Contract** was finalized and initiated in 1999 and the **Speaker 2 and 3 Contracts** were finalized and initiated in 2001.

Eleyani Speakers know the MCEO perspective as their truth; they share this truth with others, freely when possible, *out of love for humanity* and *gratitude* for the personal freedom in BEING that the MCEO teachings enable one to achieve. The **Speakers "job" is to "give the gift" of this knowledge, through *dynamics of equal and reciprocal energy exchange*, to those who seek to know it and demonstrate through action and attitude the sincerity of this intention.** The truths of which the Speakers teach are universal and freely belong to anyone who is capable of translating this knowledge from the Universal Unified Field. The CDT-Plates and MCEO Speakers provide a Sacred Service in that translation of the higher aspects of Unified Field knowledge is exceedingly difficult from the manifest fields of creation and requires much intensive training and innate abilities of consciousness and biology. The CDT-Plates serve to hold the highest aspects of Universal Knowledge in more accessible form; CDT-Plate Speakers are trained to translate this knowledge into forms directly accessible to general populations. Speakers have no need to "convince" anyone of anything, nor are they obligated to bear the burden of proof or self-justification. **The burden of "Proof" lies always with the beholder**, as within the natural dynamics of the Universal Law of Reciprocity and the Intrinsic processes of Creation Physics, **one must "know" a thing to BE before one can "see" it manifest.** Speakers **"Live what they Love", "Practice what they Preach"** and respectfully **"Share what they have to Give" with others who feel inclined to listen with reciprocal respect. MCEO Eleyani Speakers "Speak their Truth", while always respecting the free will right of others to have a different opinion.**

The Eleyani Priests of UR and MU'a of Kauai, Hawaii, the 12 CDT-Plates and their ancient Maharata Text original translations, are the tangible source from which all true contemporary MCEO work emerges. **Several families of Eleyani Priests in various geographical areas presently hold the 12CDT-Plates, 560 Maharata Text Books and related relics from pre-Atlantean times under high security protection.** The MCEO *Inner Christos Law of One* teachings, *Templar Sciences* knowledge and *Pre-ancient History* records of the CDT-Plate teachings represent an intrinsically congruent paradigm of universal understanding; collectively the MCEO teachings are referred to as the **Emerald Covenant *Freedom Teachings***. Once upon a time, long before Atlantis, these teachings were the "common knowledge" of a once enlightened, joy-filled, peaceful, love-based global civilization of "Angelic Human" beings. Fragmented remnants of these once-unified "Founders" MCEO spiritual-science teachings, which have been historically edited and altered repeatedly to serve dogmatic control agendas, have literally provided the ancient foundations upon which all of our traditional world religions, evolving sciences and "New Age" spirituality are built. The Emerald Covenant Freedom Teachings of the MCEO, originally provided 950 billion years ago by the Universal Founders races from which our universal life field evolved, are the enduring legacy, divine birthright and intrinsic heritage of all beings in this universe. Presently they serve also as the Long-forgotten Promise of Love, Freedom, Unity Peace and Victory to the many races and species of Earth.

INTRODUCTION TO 'Ka – Tha – Ra'™ LEVEL 2 & 3: CRYSTAL BODY ALIGNMENT

Ka – Tha – Ra Programmes™ and Earths' Wave of Ascent

As introduced in Kathara Level – 1 Programme the name *"Kathara"* is a composite word formed through the combination of 3-Tonal Resonance Signatures that each denote specific phenomena; *"Ka"* meaning *"Light and Oscillation"*, *"Tha"* meaning *"Sound and Vibration"* and *"Ra"* meaning *"One"* or *"Point of Unity"*, both in terms of the two aspects of Light & Sound that precede *"Ra"* in the word/ name *"Ka – Tha – Ra"* and in regard to the indelible, eternal, unity of all things in relationship to *"God – Source"* or the *"Source of All Creation"*. The Kathara Level 2 – 3 Programme introduces various parts of the Multi-dimensional Anatomy as they exist within the context of the *"Sacred Sequence"*, the ***Manifestation-Transduction-Sequence*** culminating in our introduction to an aspect of anatomical structure called the *"Ra Centre"*, located within the *"Hara"* level of Multi-dimensional Anatomy.

The *"Ra Centre"* is so named due to it's function as a primary "Point of Unity" within the manifest and Multi-dimensional Body through which the *"Ka" – Light* and the *"Tha" – Sound* aspects of Multi-dimensional Anatomy, and their corresponding Inter-dimensional Frequency Spectra, meet and merge. The Ra Centre represents the ***Primary Point of energy circulation and exchange*** between the ***physically manifest form*** and the ***"Ka"*** and ***"Tha"*** which, in terms of multi-dimensional anatomy, represent the ***"Body of Light"*** and ***"Body of Sound"*** that together form the ***"Etheric Blueprint"*** from, and through, which each Dimension of physical manifestation emerges. The ***"Ka – Tha" Light – Sound Body*** or ***Dimensionalised "Etheric Body"*** is composed of the ***"Ka" Photo-Positive Frequency Spectrum*** known as the ***"Ethos"*** and the corresponding ***"Tha" Photo-Negative Frequency Spectrum*** known as the ***"Eiros"***. The Ethos and Eiros Spectra are aspects of Multi-dimensional Anatomy that hold in place the immediate Etheric Blueprint through which physical manifestation emerges, these aspects of the "Sacred Sequence", which are key to the manifestation of *tangible healing* in the physical anatomy are further explored within the Kathara Level – 4 Programme.

The Kathara Level 2 – 3 Programme introduces the various elements of Multi-dimensional Anatomy, from the Transcendent Eukathansta Body to Merkaba Fields, the Radial Flame Body and Crystal Body of the ***Intermediate anatomy***, and their corresponding technique applications, that empower and prepare us for re-awakening of the *"Ra Centre"* and its long-dormant, accelerated, healing potentials. The technologies of ***Flame Body Activation*** featured in ***Kathara Level – 2*** specifically address development of the ability to access, embody and transmit the powerful ***Heliotalic Ecka – Core Frequency Spectrum of Primal Life – Source Currents*** that exist beyond the immediate 15 – Dimensional Frequency Spectrum. The Heliotalic Frequency Spectrum represents the minimum of Inter-dimensional Frequency Power that is needed to access and initiate activation of the ***Ra Centre*** through which the ***"Ka – Tha" Etheric Blueprint Core*** can then be accessed directly for expedited and greatly amplified healing and manifestation potential.

Kathara Level – 2 Techniques provide the **specific sequential set** of personal Scalar-Shield, Kathara Grid, DNA Template, Merkaba Field and Radial Body Frequency Activations through which the Heliotalic Ecka-Core Currents can be accessed by, "turned on" within, and transmitted through the physical body vehicle. Kathara Level – 2 Flame Body Activation techniques culminate in beginning activation of the personal Radial Flame Body, resultant Awakening of Ecka-Heliotalic Primal Life Source Healing Currents within the personal Multi-dimensional Anatomy, and corresponding Activation of the Kathara Grid Core Density Template, Merkaba Fields and DNA Template.

The Technologies of introductory ***Crystal Body Alignment*** featured in ***Kathara Level – 3*** specifically address Re-awakening of the Organic Crystal Body Anatomy (the Programming Core of the Bio-computer), through which the Heliotalic Healing Currents that were activated through Kathara Level – 2 can be amplified to

The Kathara Programmes are not "new" they are simply translations of the once Common Knowledge-Wisdom held within the Pre-Ancient Maharata texts that were lost to humanity during the late Atlantean period. Return of our Healing Potentials is a **Gift** that the Earth is presently offering to all of us return of the Ancient Wisdom is a Gift we can choose to return to ourselves and the Life-field of this Planet.

"For *every-thing* there is a Season and a *time* for every purpose under Heaven "

It is now "a time" for Healing if we so choose The Kathara Programmes are lovingly offered as simple tools to facilitate the endeavor of achieving *true* and *lasting* Healing of our Planet, its Species and of Our-Selves.

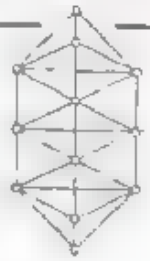
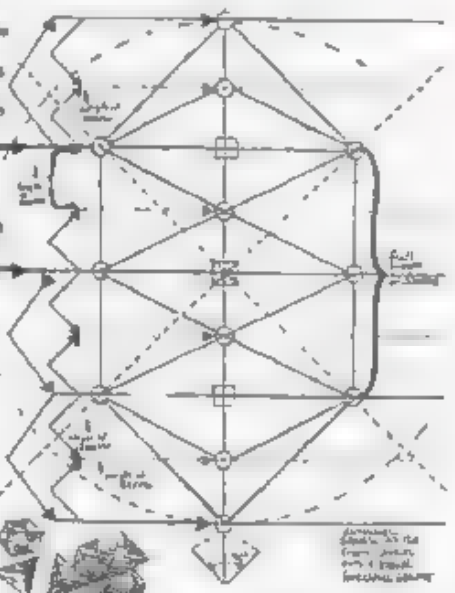
The Krist Code & Kathara Grid Proportions & Partiki Phasing

The Krist Code Kathara Core Density Template represents the Core Prima Structure through which Partiki Prima Units group in the specific arrangements required to enable the natural function of continual Keylona Spark-Unit generation via Partiki Phasing, through which perpetual energy supply and thus Eternal Life Expression is continually created, maintained and balanced.



The Kathara Lines within a Natural Kathara Grid Template are fixed Primary Transmission Lines through which phasing Partiki of the Keylon Codes within the 12 Kathara Centre Signets repeatedly transmit flows of Partikite and Partikate (Etheric) Spark Units. The Kathara Lines form the Structural Framework of the Kathara 2-Tree Core Density Template. The Kathara Lines of naturally occurring organic Eternal-life Kathara Grids exist in precise angular and proportional relationship to each other following the Ratios of Energy Balance set by the Krist Code Prisma -Six Perpetual Motion mathematico-geometrical Creation Programmes. These Krist Code - Kathara Grid proportions and angular relationships govern the Axis Angle upon which Partikate Partikite Radiator Units "Sparks & Flows" emitted by the Signet Centre Keylon Codes, will interface and cross through each other as they flow between Signets.

Through the Krist Code Kathara Grid angles and proportions, Partikate & Partikite units continually interface at the specific angles and speeds required to create a perpetual supply of blended Etheric atomic ionic particulate radiation units, which further down-step through phases interface angles to become quarks and other elementary particles and particle of which matter is composed. The interface angles between Kathara Lines govern the axis angle - spin direction, angulate axis of particle spin) and angles of interface between Partikite-Partikate Spark Units as they release from Phasing Partiki to travel between Signets. The proportions of the length, width and Signet placement within the Kathara Grid govern the distance and direction that the Spark Units will travel and the Spin Rate and Rate of Frequency at which Units will interface with each other as they flow between Signets. These attributes of Partikite-Partikate Spark Unit Flow coordinated with the Krist Code Ratios of Partiki Phasing that govern the Partiki Power, Atom Angles and Proton-Force Distribution through which Partikite-Partikate Spark Units are continually generated allow for the perpetual Motion Creation of Keylona Units. The Keylon Codes - Inside-Body Structures they form and the continual self-regeneration and circulation of Partikite-Partikate Spark and Flows through which living Matter units are continually recycled and revitalised. Thus it is through the precise Krist Code Ratios of Energetic Balance, and corresponding Krist Code - Kathara Line proportions and angular relationships of the original organic natural Eternal -life Perpetual Motion Wombat Matrices 12 - Tree Core Density Template that the "5 Ray" Activated Etheric sonic particulate dimensionalised electro-magnetic "Living Light" Current Spectrum, of which organic matter is formed (as the "carrier" of Living Consciousness), is continually and eternally generated and sustained.



Creation perpetually emerges from and returns to the consciousness of the ONE God Source Consciousness within which all creation takes place. We live within the limitless field of the Cosmic Consciousness of God-Source and God resides always within us and around us, for we and all manifestation are composed of the Divine Substance-the living, intelligent units of the consciousness of God. God-Source perpetually sets this Creation in motion through engaging its awareness in the process of Vibrations, Downstepping, or Thought Formation. Downstepping occurs through contracting the consciousness from a singular point of focus, a "creation intention" or "thought-vibration" to create the first individuation of attention- a fifth point creation-point.

The framework of manifest creation begins with God-Source Downstepping within itself the Yuhazal. The Point of Attention which is formed as God Source first perceives itself as the Eternal God Force consciousness Fields - Living Cosmic Thought Grids, with - what is manifestation - Nature.
Creation emerges within the Yuhazal as designed by God, following a specific Seven-12 eternal creation program of mathematical-geometrical interrelationships of consciousness that is called the Kathara Template Divine Blueprint or the "Kathara Grid" that is formed upon 12 specific points of consciousness attention, also called as 12 Fixed or "standing" points of attention.
The word Kathara expresses the Divine Intention that Source holds in creation of the Yuhazal. Kar-Light, Ena-eternal, Ra-creation, Thar-Sound Vibration Intention, Ar- ONE-spirit. The ONE-spirit of God preparing to express AS creation.

Partiki Units, Kristal Shielding Matrix, and Crystalline Keylona and Kerwan Cosmic Harvest Ark Matrix Units are energy fed into the Kathara Grid to create the Holographic Projection of external manifestation.
The Kathara Grid is the first level of Partiki structural Order and organisation that uses interdimensional and dimensional energy. It is from the COSMIC HOLOGRAPHIC TEMPLATE upon which the morphogenetic field blueprint is structured.

The Kathara Grid is the Core Holographic Template for ultimate manifestation of the Unified Field of Consciousness-Energy through which the Multiverse and the Macrocosm are structured. All things are built upon the foundation of the Kathara Grid.
The Kathara Grid and the multiple levels of morphogenetic structure built upon it is the GENERAL ELEMENT behind and within all manifestation.
Cosmic morphogenetic structure is built upon interaction with Kathara Grids and the Dimensional Portal Star alignment - activation they form.

Kathara Grid Mutation

The Krist Code Kathara Core Density Template proportions and angles arrange Partiki units in the specific manner required to establish the ***precise (vibrational co-resonant) relativity*** between Partiki units through which the specific balances (of thrust-force/ polarity/ tension between Pku Pka/ Pcm Unit Sets) required to enable "Neutral Blend Zero Point Return" and Keylona Spark Generation (& thus perpetual motion – Eternal Life of Partiki and Keylona) are created. Kathara Grids possessing proportional and angular relationships that deviate from the natural Krist Code structure arrange Partiki units in an inorganic manner altering the natural, vibrationally co-resonant relativity between Partiki units, changing the thrust-force/ polarity/ tension balances between Pku Pka/ Pcm Unit Sets.

Inorganic Kathara Grid Templates that deviate from the Natural Krist Code structure of "First Creation" alter natural Partiki relativity and Partiki Unit Set energetic balances in the Core Density Template causing the formation of ***Iasma*** (PCM Univ' ***Miasma*** & PKA Univ' *Drasma*), that eventually lead to destruction of the Shield and it's corresponding matter-forms via self-annihilation of the Partiki.

The Telluric Current-Density-1, the Doradic Current-Density-2 the Teuric Current-Density-3 and the Maharic Current-Density-4. The Rishic Current of Density-5 can be run only by beings with full 12-strand DNA activation.

In Kathara Healing, the 4 Primary Triadic Currents are harmonically interwoven to create 4 powerful Combined Healing Currents.

Each of the 4 Triadic Healing Currents has 3 Phases, or 3 Phase Currents, each representing one of the three dimensional frequency bands within the Triadic Current.

Each of the 12 Phase Currents is run in combination with the 11 12th-Dimensional Maharic Current and the Phase Current from the harmonic directly above, to form a powerful Triadic Healing Current.

In Kathara Healing, specific Healing Currents are directed by using the Color of their dominant wave-length.

The Stair-Step Creation Model

The Stair-Step-Creation Model from the pre ancient **CDT-Plates** expla ns the structural organization and internal mechanics of consciousness and energy by and through which manifestation of creation takes place. The Stair-Step Creation Model .s the origina. **Yanas and Breneau Order** teaching paradigm of **Primal Creation Physics** but t upon the natura. scientific laws of **Universal Unified Field Physics** and their spiritual expression .n conscousness with.n the **Law of ONE**. The Stair-Step Creat.on Model .llustrates the prima. mechan.cs of energy .nterreiat onship by which consciousness enters manifest form as liv ng energetic substance w.thin a unified Source of energy-identity often called "God", to perpetually become the mu.titudes of indiv duated expressions of that s ngular Source made man fest. Knowledge of the Stair-Step Creation Mode. is .ndelibly imbued w.th.n the energetic foundation of the **Eckatic Energy Matrix** and is held eternally as living knowledge w.thin the awareness of the Yanas Consciousness Collectives eternally stationed in the Energy Matrix within the M.nd of God. The Mind of God can be conceptual zed as the prima., conscious, intelligent energy identity Source through and within which a. creation eternally exists. The Stair-Step Creation Mode. includes the teachings of **Keylontic Morphogenetic Science** (matter template mechanics) Universal Unified Field Physics (natural universal .aws of energy), **Merkaba** and **Ascension** mechanics and all Law-of-ONE unity consciousness spiritual teachings. Conscious knowledge of the Stair-Step Creation Model allows beings in manifestation the ab.ity to understand and master the natural energetic conditions that directly effect their experienced reality, and provides the framework through which the .nterrelationships between a. things in existence can be functiona.y understood. The mode. of Stair-Step Creation is the operationa. universal paradigm of fundamental sp.ritual-science mechanics that has been used with.n advanced stellar race cultures from the higher dimensiona. fields since the creation of our Time Matrix. Th.s model of Creation Physics was entered into the CDT-Plate records by the **Emerald Order Azurite Priests of UR** and presented as a gift to Earth humans 248,000 years ago as part of the **Emerald Covenant Breneau Co-evolution Agreement**. The Stair Step Creation Model has been an intrinsic part of human history and evolution since the creation of the original **Turaneustam "Angelic Human"** on **Tara 360 million years ago.**

Stair-Step Creation is the organic process by and through which Source-God perpetua.y man.fests .tself through d.mensionalizat.on into individuated manifest expression, for the purpose of experiencing space-time-matter reality. Every being and thing in any manifest reality field comes into being through the process of Stair Step Creation. This organic process of Primal Creation Physics implies that every being, including humans, are directly, energetically and eternal.y connected to specif.c, fixed structures of multidimens.ona. energy anatomy, and their corresponding interdimensional stations of conscious identity. Through these structures of mu.ti.mensional energy fie.ds, w.thin which the higher dimensional or "spiritual" portions of the personal identity are focused, every being .s .ndelibly connected to the central, unified Source of creation or God. The process of persona. evolution through the experiences of space, time and matter has at .ts core the evolutionary object.ve of each be.ng, as an .ndiv duated man.festation of Source, eventually expanding back into its wholeness AS Source, in return to its natural organic state of being. The natural mechan.cs of spiritual actualization for any man.fest being, as implied by the dynamics of Stair-Step Creat.on, are the processes by which dormant portions of the **DNA Template** are progressively activated within the biologica. form. Through activation of the DNA Template, progressive integration of the energy frequencies that make up the dimensionalized levels of the spiritual body and consciousness, which exist as precise arrangements of scalar-standing-waves, are brought into active embodiment within the biologically based conscious awareness. Embodiment of the higher dimensional scalar-wave forms that compose the spiritual identity creates the systematic transmutation of physical matter density and expansion of individuated consciousness awareness back into .ts organic energetic state of At-ONE-ment with Source, in process called Transmutational Dimensional **Ascension.**

Through the model of Stair-Step Creation the under.ying nature and mechanics of creation and evolut.on are revealed, allowing a manifest being the ability to master its experience as a conscious co-creator with Source, and to know itse.f and al. things as man.festations of the ONE-SELF that is God. The dynamics of Stair-Step Creation demonstrate the existence of an implied reality of **Primal Order** and purpose. Within this Primal Order .t is implied that every being existing in Density-3 such as the life-field on Earth, exists as a part of a larger co.lective energetic "spiritua." identity structure, the dynamics of w.ich are inherently governed by the natural scientific laws of 15 Dimensiona. Un.versal Unified Field Physics. All incarnate life forms on Earth, including humans, possess as part of their inherent manifest anatomy and nature the following 3-dimensional energy bodies, or **Hova Bodies**, of consciousness, manifest in the form of scalar-standing-wave grids, within which is housed the eternal spiritual identity. A Hova Body is a spherical electro-magnetic domain composed of the scalar-wave forms of one set of 3 dimensions, which surrounds and permeates the physically manifest body forming the **15-Dimensional Auric Field** and which holds the eternal consciousness into specific stations of dimensionalized space-time-matter focus. Within a 15-Dimensional Time Matrix, there are 5 Hova Bodies, called the 5 **Arien Hova Bodies**, each representing a specific Harmonic of Matter Density, through which the morphogenetic field scalar template of an individual is indentity energetically connected to its race, planetary, galactic and universal morphogenetic field. Beyond the dimensionalized structure of the Time Matrix there are 3 additional Hova Bodies called the **3 Yuseta Hova Bodies** through which individuals in time are energetically connected to Source-God through the cosmic morphogenetic field. The **8 Hova Bodies**, which represent the Primal Order through which individuated consciousness manifests in time, exist in the same space at the same time, as concentric (one inside of the other) spheres of energy. Each of the 5 Hova Bodies in the Time Matrix simultaneously holds a portion of the eternal conscious identity into specific cycles of space-time characteristic to the dimensional fields within which the Hova Body awareness is stationed. The 3 Hova Bodies beyond dimensionalization hold a portion of the individual's conscious identity within the specific eternal fields of living, conscious tonal-vibration that form the Energy Matrix. The tonal-vibration fields of the Energy Matrix represent the first 3 levels of energy-identity individuation within the eternal, living, energy-identity of Source-God.

Each Hova Body serves to energetically connect the individuated incarnate identity to its simultaneous incarnations and to a specific level of the planetary, galactic, universal and cosmic Unified Field of Conscious Energy within which the incarnate exists. The simultaneously existing identity collectives that are stationed within the 8 Hova Bodies of personal anatomy represent the **spiritual portions of personal conscious awareness** and the Race, Planetary, Universal and Cosmic **Families of Consciousness** by which an identity enters individual incarnation in time. The Hova Bodies are the living, energetic structures of consciousness in the form of **Primal Substance** through which the morphogenetic field, inner psyche and DNA Template of an individual incarnate consciousness is eternally and immediately connected to Source-God at all times. An individual incarnate's ability to embody the expanded spiritual levels of awareness stationed as energetic frequency within the 8 Hova Bodies is governed by the mechanics of interdimensional physics as they operate through the DNA Template of the physically manifest form. The 8 Hova Bodies that make up the multidimensional anatomy of a human consciousness incarnate in Density-1 are as follows.

The 8 Hova Bodies

1. **Nada Hova Body**- Density-1, dimensions 1-3, holds the 3-dimensional consciousness of one incarnate identity expressed in one carbon-based biological form in one Density-1 Harmonic Universe-1 time vector. Each singular incarnate Tauren identity is one in a set of 12 Tauren, each placed within different Density-1 space-time coordinates, which collectively form a Soul Matrix in Density-2 time continua. The Nada Hova Body holds the identity of the **Singular Consciousness** and connects the individual Tauren identity to its Soul Matrix and Race Family of Consciousness.
2. **Alphi Hova Body**- Density-2, dimensions 4-6, holds the 6-dimensional consciousness of one **Soul Matrix**, which is the composite identity of 12 Density-1 Tauren incarnates expressed in one manifest carbon-silica based biological form in one Density-2 Harmonic Universe-2 time vector. A singular Soul Matrix identity is called a **Dora**. Corresponds to **Doradic Kundalini** Life Force Current, Semi-etheric matter density, DNA Strand Templates 4-6 and the **Hallah Phase Merkaba Vehicle**. Each singular Dora identity is one in a set of 12 Dora, each placed within different Density-2 space-time coordinates, which collectively form an Oversoul Matrix in Density-3 time continua. The Alphi Hova Body holds the identity gestalt of the **Race Family of Consciousness** and connects the individual Dora identity to its Oversoul Matrix and Planetary Family of Consciousness.
3. **Betcha Hova Body**- Density-3, dimensions 7-9, holds the 9-dimensional consciousness of one *Oversoul Matrix*, which is the composite identity of 12 Density-2 Dora incarnates expressed in one manifest crystalline-silica based biological form in one Density-3 Harmonic Universe-3 time vector. A singular Oversoul Matrix identity is called a **Teura**. Corresponds to the **Teuric Kundalini** Life Force Current or **Antahkarana**, Etheric matter density, DNA Strand Templates 7-9 and the **Quatra Phase Merkaba Vehicle**. Each singular Teura identity is one in a set of 12 Teura, each placed within different Density-3 space-time coordinates, which collectively form an Avatar Matrix in Density-4 time continua. The Betcha Hova Body holds the gestalt identity of the **Planetary Family of Consciousness** and connects the individual Teura identity to its Avatar Matrix and *Galactic Family of Consciousness*.

4. **Mahara Hova Body**- Density-4, dimensions 10-12, holds the 12-dimensional consciousness of one *Avatar Matrix* which is the composite identity of 12 Density-3 Terra expressed in one manifest Liquid-Silica (hydroplasma) based biological form in one Density-4 Harmonic Universe-4 time vector. A singular Avatar Matrix identity is called a **Mahara**. Corresponds to the **Maharata** Life Force Current, Pre-matter density DNA Strand Templates 10-12 and the **Mahunta Phase Merkaba Vehicle**. Each singular Mahara identity is one in a set of 12 Mahara, each placed within different Density-4 space-time coordinates, which collectively form a Rishi Matrix in Density-5 time continua. The Mahara Hova Body holds the gestalt identity of the **Galactic Family of Consciousness** and connects the individual Mahara identity to its Rishi Matrix and *Universal Family of Consciousness*.
5. **Raja Hova Body**- Density-5, dimensions 13-15, holds the 15-dimensional consciousness of one *Breneau Rishi Matrix*, which is the composite identity of 12 Density-4 Mahara expressed in one manifest silica-gas (thermoplasmic) based spherical energy form (a Sun or Star) in one Density-5 Harmonic Universe-5 time vector. A singular Rishi Matrix identity is called a **Breneau**. Corresponds to the **Kee-Ra-ShA** Life Force Current Primal Light Fields or the "first light" spectra, Ante-matter stellar body Universal Manifestation Templates 13-15 and the **Rahunta Phase Merkaba Vehicle**. Each singular Breneau identity is one in a set of 12 Breneau, each representing a different vibrational coordinate in the Density-5 scalar-wave field. A set of 12 Breneau collectively form a Geomantic Entity Matrix eternal consciousness collective, or living Time Matrix life-field, within the eternal tonal-vibration fields of the Triadic Energy Matrix beyond density manifestation. The Raja Hova Body holds the gestalt identity of the **Universal Family of Consciousness** and connects the Breneau Rishi collectives to their *Triadic Cosmic Family of Consciousness*.
6. **Tanotra Hova Body**- the tri-polar (possessing 3 core vibrations) Unified Morphogenetic Field of the *Cosmic Triadic Energy Matrix* conscious inaudible Triadic Khundaray tonal-vibration field, holds the consciousness of 12 **Geomantic Entity Matrices** "Ascended Master Level-1" consciousness collectives. A Geomantic Entity Matrix is the composite identity of 12 Density-5 Breneau expressed as one eternally manifest inaudible primal tri-tonal vibration (one vibration composed of 3 sub-vibrations) that forms the Triadic Energy Matrix, within which 15-Dimensional Time Matrix life-fields are formed. A singular Geomantic Entity Matrix identity is called a **Ramyanas**. Corresponds to the **"Amethyst Flame" Triadic Khundaray** tri-tonal vibrational field of the Triadic Energy Matrix, pre-manifestation non-density or consciousness expressing as inaudible tri-tone sound vibration. Each singular Ramyanas identity is one in a set of 12 Primal Ramyanas, each existing as living primal collectives of consciousness that represent different fixed, tri-tonal vibrations in the Triadic Energy Matrix. Collectively the 12 Primal Ramyanas form a RishA Matrix primal consciousness collective within the eternal tonal fields of vibration of the Polaric Energy Matrix beyond the Triadic Energy Matrix. The Tanotra Hova Body holds the identity gestalt of the **Triadic Cosmic Family of Consciousness** and connects the 12 Ramyanas to their Polaric Cosmic Family of Consciousness.
7. **Di-omni Hova Body**- the bi-polar (possessing 2 core vibrations) Unified Morphogenetic Field of the *Cosmic Polaric Energy Matrix* conscious inaudible Polaric Khundaray tonal-vibration field, holds the consciousness of 12 **RishA Matrices** "Ascended Master Level-2" consciousness collectives. A RishA Matrix is the composite identity of 12 Triadic Energy Matrix Ramyanas expressed as one eternally manifest inaudible primal bi-tonal vibration (one vibration composed of 2 sub-vibrations) that forms the Polaric Energy Matrix, within which the Triadic Energy Matrix tri-tonal vibration consciousness-field is formed. A singular RishA Matrix identity is called a **Wachayanas**. Corresponds to the **"Gold Flame" Polaric Khundaray** bi-tonal vibrational field of the Polaric Energy Matrix, pre-manifestation non-density or consciousness expressing as inaudible bi-tone sound vibration. Each singular Wachayanas identity is one in a set of 12 Primal Wachayanas, each exist as living primal collectives of consciousness that represent different fixed, bi-tonal vibrations in the Polaric Energy Matrix. Collectively the 12 Primal Wachayanas and 12 Primal Ramyanas form the one Eckah Matrix primal consciousness collective, which manifests as the one omni-tonal vibration that forms the cosmic unified field of the Eckatic Energy Matrix. The Di-omni Hova Body holds the identity gestalt of the **Polaric Cosmic Family of Consciousness** and connects the 12 Wachayanas to the one Eckatic Cosmic Family of Consciousness.
8. **Prima Hova Body**- the omni-polar (possessing one core vibration and the potentialities for all vibration) Unified Morphogenetic Field of the *Cosmic Eckatic Energy Matrix* conscious Eckatic Khundaray tonal-vibration field, holds the unified consciousness of the one **Eckah Matrix** "Ascended Master Level-3" consciousness collective (12 Wachayanas and 12 Ramyanas, or the "24 Cosmic Seeds"), through which the Energy Matrix manifests within the Mind of Source-God. The Eckah Matrix consciousness collective is the composite identity of the 12 Triadic Energy Matrix Ramyanas and 12 Polaric Energy Matrix Wachayanas expressed as one eternally manifest omni-tonal vibration (one primal vibration containing all others), which expresses as the Eckatic Primal (continued)

Energy Matrix. The singular Eckah Matrix identity is called the Ah-hA-yanas or **Grandeyanas**. Corresponds to the omni-tonal vibrational field of the Eckatic Energy Matrix, pre-manifestation non-density or the consciousness of God-Source expressing as one inaudible sound vibration. The singular Grandeyanas exists as an eternal, living primal collective of consciousness that expresses as the one eternal sound vibration that forms the Eckatic Energy Matrix. The Eckatic Energy Matrix is the first, eternal expression of inaudible sound vibration and identity individuation that perpetually exists within the eternal Void of non-manifest Primal Creation Urge that is the Mind of Source-God. The Mind of God exists as a perpetual expression of the Heart of God, the living, feeling, intelligent, sentient field of eternal conscious awareness within which all existence takes place and through which all things manifest as living expressions of the Eternal Consciousness of God. The Prima Hova Body holds the identity gestalt of the **Eckatic Cosmic Family of Consciousness** and connects the singular Grandeyanas to Source-God Consciousness.

The 8 Hova Bodies of personal multidimensional anatomy represent the Microcosmic expression of Universal Creation Physics as illustrated within the Stair-Step Creation Model. Planets, stars, galaxies and universes also have this inherent 8 Hova Body structure, which represents the multidimensional morphogenetic field or **Manifestation Template** through which stellar bodies and biological life forms manifest in time. Through the 8 Hova Body structure, Microcosmic and Macrocosmic life fields are intimately interconnected and intertwined, forming a Universal Unified Field of Consciousness expressed in the form of aware-ized energy, through which consciousness can perceive itself in objectification. In the manifestation process inherent to Stair-Step Creation, the entire Primal Substance of the universe itself is a conscious, living manifestation of the Omnipresent identity of Source-God, expressed in the form of energetic thought constructions, and thus all things manifest are living expressions of the identity of God. Scientific understanding of the laws of universal physics inherent to the Stair-Step Creation process allows us to spiritually comprehend that God is not a far-distant, or perhaps "dead", patriarchal authoritarian creator that "once upon a time created us". The living fields of specifically ordered energy, through which a central Source-God expresses ITs consciousness in the form of manifestation, show us that God is a living Omnipresent Spirit that perpetually manifests as and moves through all things at all times, and that creation itself is continually and perpetually occurring. God is both manifest and non-manifest simultaneously; IT expresses as a spiritual reality of consciousness and simultaneously this expression exists as the true natural laws and eternal dynamics of energetic **Creation Physics.**

The scientific dynamics of Stair-Step Creation imply the spiritual condition that God resides within and expresses directly through the human being, and exists within every manifest and non-manifest form in the exterior and interior worlds. It also implies that the worlds of external perception and finite being are not the "real" reality, but rather thought-form constructs that appear to be real to individuated portions of God's eternal consciousness that are ensconced within them. In truth, these objectified worlds of form represent a holographic playground, contained within the creative mind of Source-God, which is the only real reality, through which God-as-living-consciousness expresses its desire to know and explore ITself AS infinite forms of creation. **God IS all things.** Through demonstrating the spiritual and scientific union of all things, the Stair-Step Creation model also implies that everyone and everything belongs, and has a rightful place of honor and due respect, within this ONENESS of creation. **Things and beings that appear and behave in ways which appear most evil and ungodly are the portions of God-expressed that have most fully forgotten the true nature of their identity and heritage within the ONENESS that is God.** Therefore, "evil" is an untruth, a non-reality, for that which appears evil is instead simply ignorant to the truth of being AS a living expression of the identity of God. **That which appears as evil requires healing and a return to its remembrance of its reality AS God, within a universe that IS God. Evil/ignorance must be stilled and turned to face itself and the product of its deeds; only then can it see where it is lacking, and only then will it seek the healing that comes through embracing its own salvation, in return to its primal truth of co-creative ONENESS.** The Stair-Step Creation model illustrates the tangibility of this ONENESS of spirit and reveals the science of multidimensional energy dynamics and the manifestation processes of Primal Order through which this ONENESS can be reawakening within the individual.

The Khundara, Kee-Ra-ShA, Yanas and Breneau

On the macrocosmic level, the manifestation process that takes place through the Primal Order of the 8 Hova Body structure transforms consciousness from a singular, intelligent, living Source-God of creation first into a living field of inaudible tonal sound vibration (3 vibratory levels of the Energy Matrix). **God AS Sound** (the Yanas' Khundaray Primal Living Sound Field Current). From this eternal field of sound, a living field of conscious, invisible light radiation in the form of Thermoplasmic Ante-matter scalar-wave spectra emerges (Density-5, dimensions 13-15). **God AS Light** (the Breneau's Kee-Ra-ShA Primal Light Field Current). From this foundation of God (continued)

FYI **The Stair Step Creation Model Continued** (*The Khundaray Kee-Ra-ShA, Yanas and Breneau*)
expressing within ITself as living sound and light, portions of God's ONE consciousness individuate and enter a progression into matter density, space and time (dimensions 1-12), to engage the experiential reality of manifest existence. Progression into matter density and the experience of linear passage through time and space are created through the "stepping down" of a portion of God's consciousness into a descending vibrational progression, through which individuation of identity, and the experience of God knowing ITself through objectification, occurs. Through the descending vibrational progression into manifestation, God's consciousness first expresses AS the primal structures of living sound vibration and light radiation, through which the electro-magnetic energy foundation structures for cosmic manifestation are set.

Individuation of God into manifest expression takes place through progressive isolation of portions of God's identity, within the limitless expanse of ITSELF. Portions of God's consciousness, in the form of units of tonal vibration called **Partiki**, are isolated within the greater Whole. These Partiki Unit primal vibrations are then placed into energetic interrelationship with each other, to form geometrical arrangements of conscious energy that set the vibrational framework within which the perceivable experience of identity individuation and objectified manifestation can be known. The first individuated projection of God's identity, which exists as a singular Partiki unit vibration, an inaudible **Resonant Tone** fixed sound vibration (The First Cause Sound) within the consciousness of God, is the called the **Ekeah** or **"Monadic Wave"**. (A Resonant Tone is a middle range standing-wave vibration made up of a slow-moving Base Tone and faster-moving Over Tone standing-wave vibrations.) The Eckah, a conscious inaudible, spherical standing sound wave that exists within the consciousness field of God, is the first manifest expression of God's consciousness in individuation. The singular Eckah unit vibration forms the eternal consciousness field of the Prima Hova Body (8th Hova Body in ascending order) that is the omni-polar (possessing one core vibration and the potentialities for all vibration) Unified Morphogenetic Field of the **Cosmic Eckatic Energy Matrix**. The *Eckatic Energy Matrix* formed by the Eckah is called the **Emerald-Blue Flame Tone. The Emerald-Blue Flame Tone is the standing-spherical-sound-wave field of conscious energy-identity that is the first of 3 Khundaray Primal Sound Creation Currents** through which the **3 Kee-Ra-ShA Primal Light Creation Currents** of dimensions 15, 14 and 13 manifest.

The Eckah Emerald-Blue Flame Tone is the fixed vibrational field and living energy-identity that manifests as the Density-5, dimension-13 pale blue-silver-green or "Emerald Blue" **"Eckatic Blue Flame"**. The Eckatic Blue Flame is the first of 3 spherical scalar-standing-wave fields of living conscious energy-identity expressed in the form of Light radiation, which collectively make up the spherical electro-magnetic light-sound domain of the **Kee-Ra-ShA**. The 3 Kee-Ra-ShA eternal scalar-standing-wave fields of bi-polar conscious light are the *3 Primal Light Creation Currents* of dimensions 13, 14 and 15, through which the dimensionalized **Universal Kundalini** electro-magnetic wave-spectra of 15-dimensional Time Matrices and their life fields emerge. The Eckatic Blue Flame represents the **First Cause Light** that emerges into manifestation as dimension 13 of the Time Matrix from the Eckah Blue Flame Tone of **First Cause Sound** in the Eckatic Energy Matrix. The Eckatic Energy Matrix is a living, inaudible sound-field of conscious identity that refers to itself as the Aha-hA-yanas or *Grandeyanas* (pronounced gran-dA-yon-us). The singular Blue Flame sound-tone of the Eckah Grandeyanas identity is translated into audible sound as "rah" or **Ra**. In some spiritual traditions this inaudible tone has been referred to as "the sound of the in-breath and out-breath of God". **The audible sound translation of the "Ra" Eckatic Blue Flame sound-tone as it is spoken in our Time Matrix is *Melchizedek*** (pronounced mel-kiz'-e-dek) or **Mel-chaz-edak . This tonal energy signature denotes the composite tonal translation of the Ra Blue Flame Tone as it manifests through the scalar-wave configurations unique to the manifestation template for the specific 15-Dimensional Time Matrix within which Earth, Tara and Gaia reside. The true meaning of the word Melchizedek refers specifically to the Eckah Grandeyanas collective of the Eckatic Energy Matrix, the conscious Unified Field of energy-identity through which all things in our Time Matrix are manifested and energetically connected to the Source-God consciousness field.**

The second and third individuated projections of God's identity exist as two Partiki unit tonal-vibration fields, one faster-moving **Over Tone** and one slower-moving **Base Tone** inaudible fixed sound-vibration field, formed within the Eckatic Energy Matrix through polarizing the original singular Eckah Blue Wave Tone spherical vibrational field. The second and third steps of individuation within God occur simultaneously as the singular Partiki Unit tonal-vibration field of the Eckah Grandeyanas identity Blue Flame Tone polarizes within itself. Polarization of the singular Eckah spherical standing sound-vibration creates 2 sets of 12 conscious Partiki Unit tonal-vibration fields called **Yanas** consciousness gestalts or the "24 Cosmic Seeds" (sometimes called the "24 God-Seeds"). The Yanas gestalt consciousness-field that forms the faster-vibrating Over Tone portion of the bi-polarized Eckah tone, which most closely matches the original Blue Flame Tone Eckah vibration, forms the eternal consciousness field of the Di-Omni Hova Body (7th Hova Body in *ascending* order). The Di-Omni Hova Body is the bi-polar (possessing 2 core vibrations) Unified Morphogenetic Field of the **Cosmic Polaric Energy Matrix**. Each of the 12 "Cosmic Seeds" (continued)

FYI **The Stair-Step Creation Model Continued** *(The Khundaray, Kee-Ra-ShA, Yanas and Ereneau)*

that form the Polaric Energy Matrix is called a **RishA** or RishA Matrix. The Polaric Energy Matrix, formed by the 12 Over Tone RishA Matrix gestalts, is called the **Gold Flame Tone. The Gold Flame Tone is the standing-spherical-sound-wave field of conscious energy-identity that is the second of 3 Khundaray Primal Sound Creation Currents** through which the 3 Kee-Ra-ShA Primal Light Creation Currents of dimensions 15, 14 and 13 manifest. The Gold Flame Tone is the fixed vibrational field and living energy-identity that manifests as the Density 5, dimension-14 pale yellow-white-silver or "Golden" **"Polaric Gold Flame"**. The Polaric Gold Flame is the second of 3 spherical scalar-standing-wave fields of living, conscious energy-identity expressed in the form of Light radiation, which collectively make up the spherical electro-magnetic light-sound domain of the 3 Kee-Ra-ShA Primal Light Creation Currents. The Polaric Gold Flame emerges into manifestation as dimension-1 from the Polaric Gold Flame Tone in the Polaric Energy Matrix. The Polaric Energy Matrix is a living inaudible sound field of conscious identity that refers to itself as the **Wachayanas**. (pronounced Wa-sha-yon-us), each of the 12 RishA Matrices that form the Wachayanas Polaric Energy Matrix are called **Wachayana**. The collective Gold Flame sound-tone of the Wachayanas identity is translated into audible sound as **"Da"**.

The Yanas gestalt consciousness-field that forms the slower-vibrating **Base Tone** portion of the bi-polarized Eckah tone, forms the eternal consciousness field of the Tanotra Hova Body (6th Hova Body in ascending order). The Tanotra Hova Body is the tri-polar (possessing 3 core vibrations) Unified Morphogenetic Field of the **Cosmic Triadic Energy Matrix**. Each of the 12 "Cosmic Seeds" that form the Triadic Energy Matrix is called a **Geomantic Entity** or Entity Matrix. The Triadic Energy Matrix, formed by the12 Base Tone Entity Matrix gestalts, is called the **Amethyst or Violet Flame Tone. The Violet Flame Tone is the standing-spherical-sound-wave field of conscious energy-identity that is the third of 3 Khundaray Primal Sound Creation Currents** through which the 3 Kee-Ra-ShA Primal Light Creation Currents of dimensions 15, 14 and 13 manifest. The Violet Flame Tone is the fixed vibrational field and living energy-identity that manifests as the Density-5, dimension-15 pale magenta-violet-white or "Violet" **"Triadic Violet Flame"**. The Triadic Violet Flame is the third of 3 spherical scalar-standing-wave fields of living, conscious energy-identity expressed in the form of Light radiation, which collectively make up the spherical electro-magnetic light-sound domain of the 3 Kee-Ra-ShA Primal Light Creation Currents. The Triadic Violet Flame emerges into manifestation as dimension-15 from the Triadic Violet Flame Tone in the Triadic Energy Matrix. The Triadic Energy Matrix is a living inaudible sound-field of conscious identity that refers to itself as the **Ramyanas** (pronounced Rom-yon-us), each of the 12 Entity Matrices that form the Ramyanas Triadic Energy Matrix are called **Ramyana**. The collective Violet Flame sound-tone of the Ramyanas identity is translated into audible sound as **"khU" or HU**. The Ramyanas collective is sometimes referred to as the **Kahunas** (ka-hoo'-nas)or **Kahuna** (ka-hoo'-na), denoting the tonal signature of the **"*khU* Yanas"**.

Together the Grandeyanas gestalt, the Wachayanas gestalt, and the Ramyanas gestalt form the spherical, inaudible sound-wave fields of conscious, living energy-identity that are the 3 Primal Sound Creation Currents of the Eckatic, Polaric and Triadic Energy Matrices, within and through which all manifestation occurs. **Collectively, the 3 Primal Sound Creation Currents of the Energy Matrix are called the KhU-Da-Ra, denoting, in ascending order, the collective audible sound translation of their primary sound-tone vibration. The Khu-Da-Ra has become known as the "Khundaray" (Kun-da-rA) or "Rainbow Ray", the spherical "standing pillar" or "Ray of First Cause Sound" from which the "rainbow" of First Cause Light, the Blue, Gold and Violet Flames of the Kee-Ra-ShA 3 Primary Light Creation Currents, emerge into manifestation.** The Khundaray is composed of Primal Substance Partiki Unit arrangements that collectively form a fixed, Partiki scalar-standing-wave field of inaudible sound vibration, which manifests as a set of 3 concentric spheres, the 6th-8th Hova Bodies (ascending order) in the Stair-Step Creation Model. Collectively, the 12 Wachayanas Gold Flame Tone Polaric RishA gestalts of the Di-Omni Hova Body and the12 Ramyanas Violet Flame Tone Triadic Entity gestalts of the Tanotra Hova Body (the 24 "God-Seeds") within the Grandeyanas Blue Flame Tone Eckatic Eckah gestalt of the Prima Hova Body are called the **Yanas Council** or **"The Council of 24 Elders"**. The Grandeyanas, Wachayanas and Ramyanas gestalts together are referred to as the *Eieyani* (pronounced E-yon'-E), the **Eieyani Council** or sometimes as the **KhundarA** (pronounced Kun-dar'-A) or **"Rainbow Makers"** eternal Ascended Masters collectives. Beings manifest in the Time Matrix, who incarnated directly from the Yanas Ascended Master levels of the Energy Matrix (Type 1 "Indigo Children",, and those whose DNA Template can carry the spectrum of the Khundaray sub-harmonics (Types 1 and 2 Indigo Children) are also referred to as the **Eieyani Council**, the **"Rainbow Wearers"** and sometimes the **Khundar'A**. The Eieyani Council of the Energy Matrix exists as the eternal, living, conscious Cosmic Manifestation Template that IS the Energy Matrix. The Energy Matrix represents the **Eternal Field of First Cause Sound**, or God's identity first expressed in the form of an eternal standing-wave field of inaudible sound-vibration.

The 3 Primal Sound Creation Currents of the Khundaray further break down and polarize (separate in vibration) to form the **3 Primal Light Creation Currents**, the Eckatic Blue Flame, Polaric Gold Flame and (continued)

FYI **The Stair Step Creation Model Continued** *(The Khundaray, Kee-Ra-ShA, Panas and Breneau)*
Triadic Violet Flame, which are collectively called the **Kee-Ra-ShA**. The Kee-Ra-ShA is the spherical "standing pillar" or "**Ray of First Cause Light**" that forms dimensions 13-15, which represents the first manifestation level of 15-dimensional Time Matrix systems. The Kee-Ra-ShA **Thermoplasmic Light Field** (silica-gas light radiation) is the **first level of matter manifestation**, within which portions of the scalar-standing-sound waves of the Khundaray begin a process of **internal fission and fusion** within the Partiki Units that compose them. Through a perpetual, repeating cycle of vibrational variance, set in motion by specific primal mathematical geometrical interrelationships between Partiki Units, fission and fusion within Partiki Units begins. This process is called **Partiki Phasing**. In internal Partiki fission, the whole Partiki Unit vibration separates into 12 **sub-vibrations**. the 12 sub-vibrations manifest as **6 pairs of bi-polar scalar-standing-sound-waves** that **expand and contract** following a specific syncopated rhythm. In each of the 6 pairs of syncopated standing sound waves, one wave-form expands (polarizes in fission, releasing a burst of thermoplasmic light radiation, then replicates the original Partiki sound vibration), while the other wave-form contracts (returns in fusion to the replicate of the original Partiki sound vibration) at a specific mathematical ratio to the expansion. This dynamic of perpetual energy exchange within fixed groupings of Partiki Units creates a repeating cycle of vibrational variance and energetic exchange between each pair of polarized primal sound waves. As one wave in a polarized pair expands via fission into accelerated movement, creating **oscillation** or **external projection /expansion** of energy radiation, its counterpart wave reciprocally **contracts** via fusion, creating **vibration** or **internal holding** of energy radiation within the replicate of the original whole wave. This dynamic of energetic expansion and contraction that results from internal Partiki fission and fusion, creates the base energetic tension between Partiki Units through which **primal electrical and magnetic force** and the Ante-matter **Thermoplasmic Templates** for **Particle and Anti-particle pairs** emerge. In simple terms, the 3 Primal Sound Currents of the Khundaray are perpetually transmuted into the 3 Primal Light Currents of the Kee-Ra-ShA and back to sound again, through the intrinsic dynamics of Partiki Phasing. **Sound becomes light becomes sound becomes light etc., forming the simultaneously co-existent, reciprocally expanding and contracting Primal Sound and Light Fields that serve as the foundation for Perpetual Motion Universes.**

The Kee-Ra-ShA 3 Primal Light Fields are often called the "**Um Shaddai Ur**" ("Pillar of First Cause Light") or the "**Holographic Beam**", from which the 12 dimensionalized scalar-standing-wave fields, or the "**12 Rays**" of the **Universal Kundalini Life Force Currents** (the Density-4 Maharata and Densities 1-3 Antahkarana), which form dimensions 1-12 of our Time Matrix, emerge. Like the Khundaray First Cause Sound Field Currents, the Kee-Ra-ShA First Cause Light Field Currents are composed of **Primal Substance Partiki Unit arrangements** that collectively form a fixed, **Partiki** scalar-standing-wave field. The scalar-standing-wave field, or **Partiki Grid**, of the Kee-Ra-ShA exists as an eternal scalar-field of invisible, pale silver-emerald-Blue, pale silver-white-Gold and pale silver-white-magenta-Violet Thermoplasmic light radiation, which collectively manifest as a spherical standing-wave of conscious, Living Light within the Khundaray spherical scalar-wave sound field. The Kee-Ra-ShA forms the spherical, electromagnetic domain of the Raja Hova Body, the 5th of 8 Hova Bodies (ascending order) in the Stair-Step Creation model.

The sound-light (vibration-radiation) scalar-standing waves grids of the Khundaray Primal Sound Field and Kee-Ra-ShA Primal Light Field, are formed upon precise mathematical geometrical arrangements of Partiki units that represent the core formation of energy, or **primal tonal-vibration blueprint**, upon which Universal, Galactic, Planetary and species **Manifestation Templates, Kathara Grids** and **Templar Complexes** are created. In macrocosmic terms, manifestation templates built upon the tonal-wave structure of the Khundaray and Kee-ra-ShA are the core arrangements of conscious Partiki units that form the multidimensional energy-grid template, or **Universal Kathara Grid and Templar Complex**, upon which universal galactic and planetary bodies are formed. In microcosmic terms, species manifestation templates, built upon the tonal-wave structure of the Khundaray and Kee-Ra-ShA, are the core arrangement of energy units that form the **DNA Template** through which the consciousness embodies and upon which the physical genetic code and tangible molecular structure emerge. **Though the knowledge of Creation Physics presented in the Stair-Step Creation Model of the CDT-Plates is extensive and complex, the foundations of understanding the nature of Creator, Creation and Created can be found through rudimentary applications of the Stair-Step Creation Model.** Through this model, we learn that all beings originally emerge into the manifest experience of space-time-matter through individuation of a singular Source of Conscious Identity or God. In the Stair-Step Creation model, the term "**Yunasal**"(pronounced Un'-a-sl) or "**Singular Point of ALL Union**", is used to describe the energetic reality and conscious identity of the singular Creative Source that on Earth we call "**God**". Through this model we learn the secrets of the Cosmic, Universal, Galactic, Planetary and Personal **Kathara Grid Manifestation Templates**, and mechanics of the **Primal Life Force Currents** and the **Templar Complexes** (energy systems) built upon them. By unraveling the mysteries of the Stair–Step Creation Model we are progressively empowered to understand and eventually master our personal relationship to ourselves, our universe and to God.

The Sacred Sequence

Manifestation-Transduction Sequence Phases, Related Multidimensional Anatomy, Life-Source Currents and the Atomic Connection & Expedited Multidimensional Healing

Purpose: Understanding the 5 Phases of the Manifestation-Transduction Sequence, the more powerful Life-Source Currents of the Transcendent Level and the Primal Life Force-Atomic Connection, to prepare for using Veca Code Flame Body Technologies for Expedited Healing of the Multidimensional Anatomy.

Section-2 Identifies the 5-phases of the Manifestation-Transduction Sequence
1) Transcendent Phase, 2) Immediate, Beginning Phase 3) Intermediate Phase;
4) Pre-externalisation Phase, 5) Externalisation Phase,
and, previews corresponding levels of Multidimensional Anatomy

ETHOS-ETHERIC Sho-na CRYSTAL MIASMS and DIODIC GRID TEMPLATE BLOCKAGE(S)

Miasms – "Frozen Light" Etheric Sho-na Crystals

Miasms are anti-particle Sho-na static light radiation fields within the PCM Kathara Core Density Template, that manifest as corresponding Sho-na static field distortions within each successive level of the Density Multi-dimensional Anatomy.

Sho-na static field miasm distortions within the Multi-dimensional Anatomy emerge as "frozen-light", reversed polarity charge units of radiation within the PCM Diodic Grid, which block the natural function of Diodic Grid "White Hole" Vortices, preventing natural flow of energy-frequency-consciousness between the PCM Particle and PKA Anti-Particle Systems by distorting organic Axiom Line polarity and function.

The "frozen light" reversed-polarity-charge units of Sho-na static field radiation within the Diodic Grid Vortices emerge into matter-density manifestation as tangible mutation in atomic structural organization and elemental bonding that alter the natural Etheric Blueprint (Ethos Template) architecture upon which atoms, molecules, cells, and DNA are built.

Sho-na static field radiation-light units manifest as literal crystalline structures of sub-atomic components within the Etheric Ethos Blueprint, Etheric Crystals of varying shapes and sizes possessing "reversed-from-natural" electrical polarity that serve to manifest in external anatomy as unnatural atomic, molecular, chemical and hormonal substance that interfere with, and impede, the natural organization and functional processes of the biological organism, thus causing all varieties of disease within tangible, physical, emotional, mental and astral body structure.

The word *"Miasm"* refers specifically to these *Sho-na Static Light Field Reversed Polarity "Frozen Light" Crystals* within the *Diodic Grid* of the *Ethos Etheric Body* and their errant atomic-elemental substance counterparts that manifest tangibly within the physical systems.

The ManU, ManA & EirA Primal Source Currents are the powerful Eternal standing-wave fields from which the smaller dimensionalised currents of the 15 Rays emerge.

Hellotalic Currents are the powerful linking currents, called *Flame Currents*, through which the Primal Source Currents "step down" through a central core called the *Ecka*, to form sets of 15-Ray Currents. The Ecka Flame Currents are powerful enough to clear Miasmic Blockages manifesting through distortions in the 15-Dimensionalised Ray Currents.

The 15 Ray Currents enter "Step Down" manifestation as spec fic dimensionalised Ionic Particulate Ray Currents within the 5 Densities and 15 Dimensions of Matter Manifestation

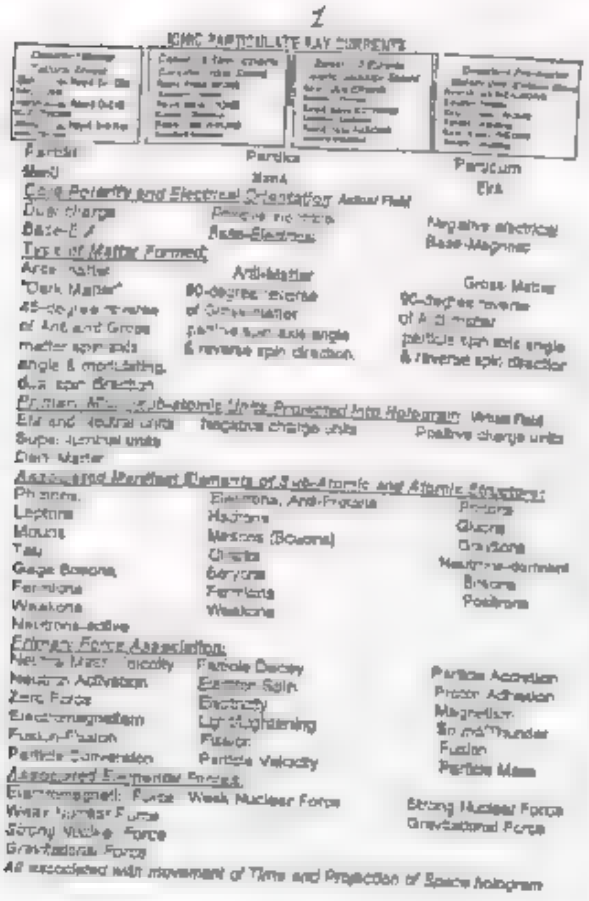
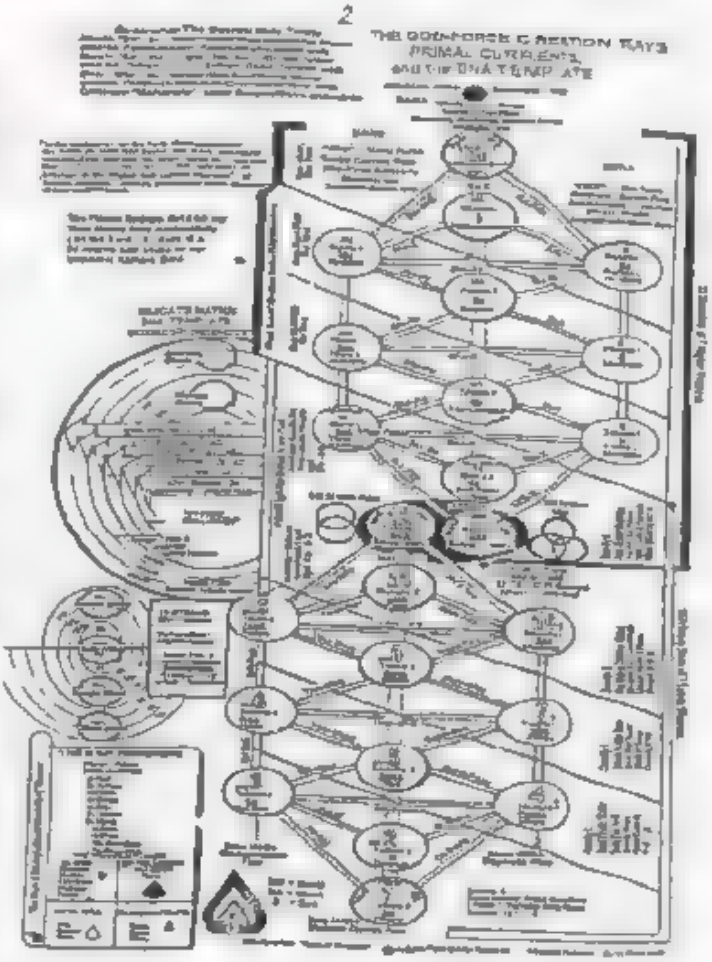
PRIMAL CURRENTS and the ATOMIC CONNECTION





The Inonic Particulate Ray Currents manifest as specific bands of electro-magnetic structure that together form the multi-dimensional anatomy of atoms.

Ray Currents carry, and anchor our 15-Dimensional consciousness into each dimensional field, forming the literal manifest atome out of which our physical and multidimensional anatomy is composed.

In the 15-Dimensional Time Matrix the Human and Indigo forms are composed of 5 3-dimensional density bodies called Hova Bodies, each surrounded by an energetic pre-matter tissue capsule called a Radial Body. Progressive de-polarization of the 5 Hova Bodies and their Radial Bodies allows the being to ascend out of the 15-Dimensional Time Matrix Veca Quadrant and into the Inner Ecka Universe 1st Lower God World. Progressive Flame Body activation allows Hebdatic Life Source Contacts of the Eukatharista Body levels to become progressively available to embodiment and healing of the Density Body

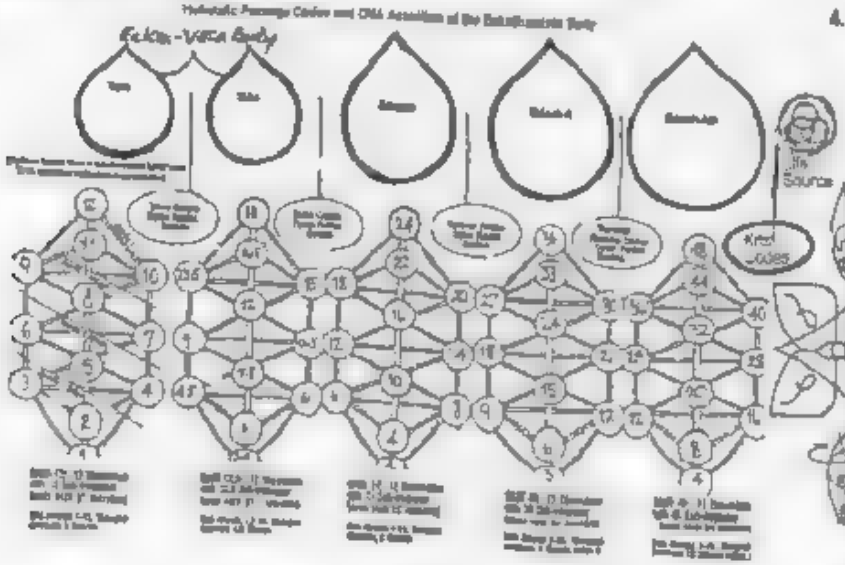
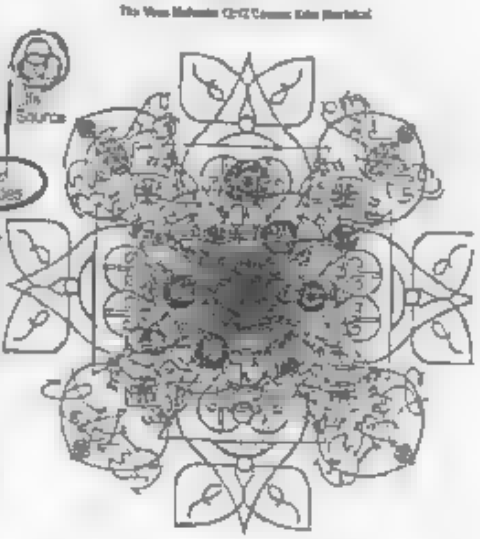
5-Sets of Eukatharista Shield Codes open the flow of Primal Life Force & Life-Source Currents between each of the Standing Wave Flame Body Spheres of the Eukatharista Body and God-Source.



4. Consolidated Veca Code Induction Master Key Code



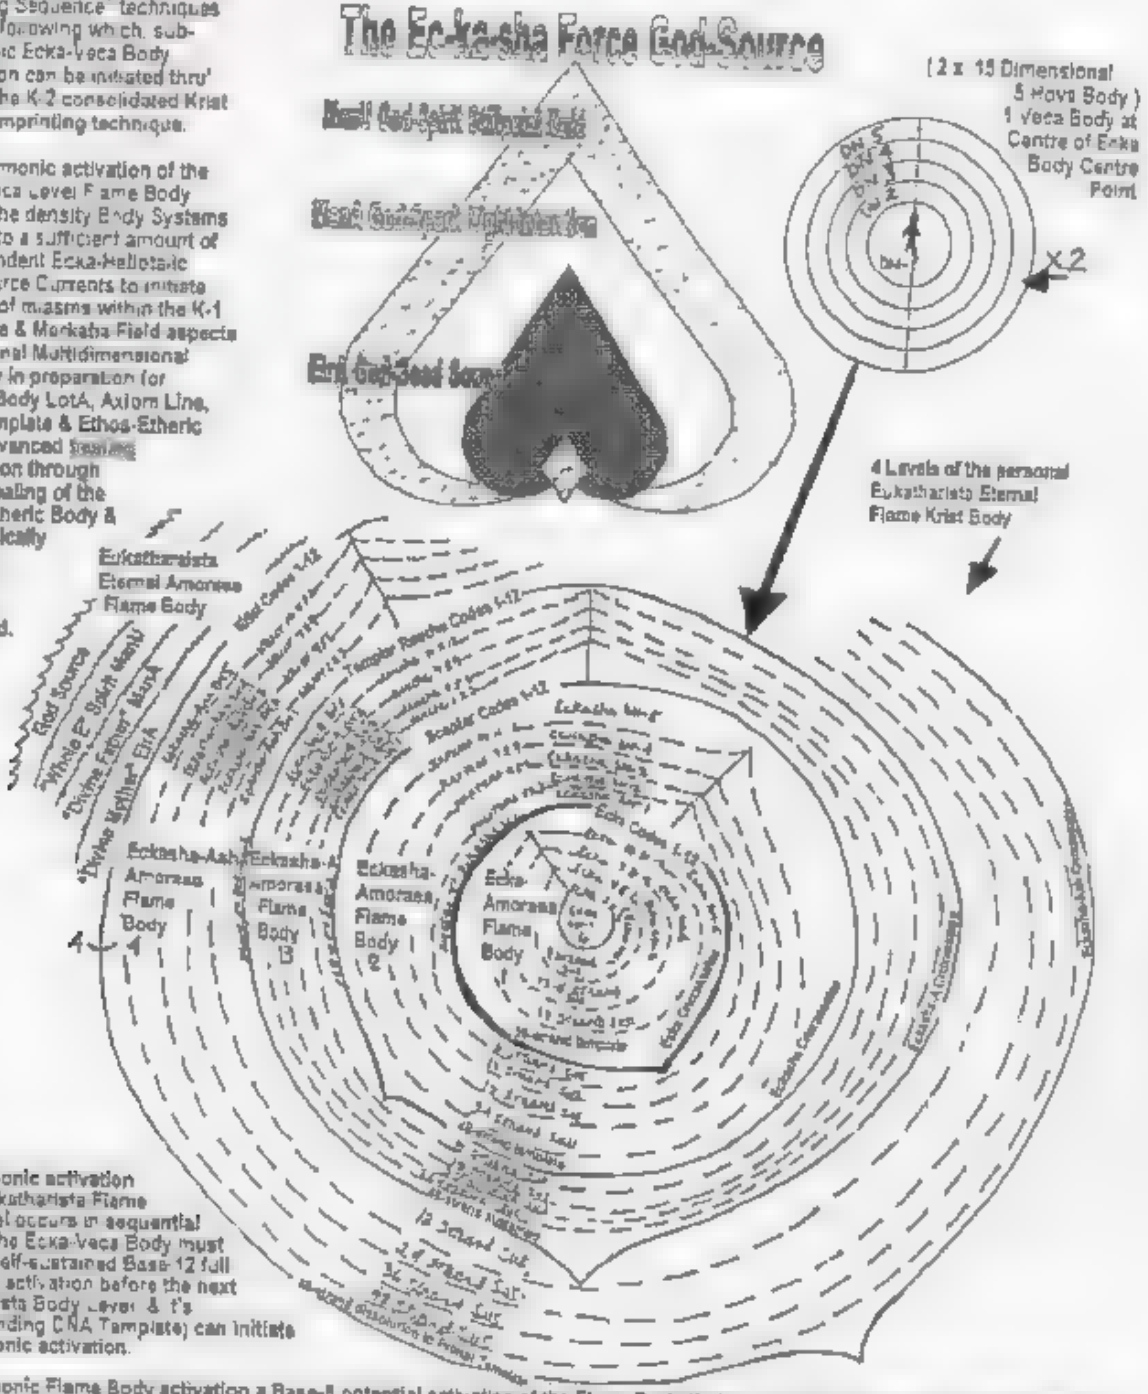
The Eukatharista Shield Codes are encoded within the Scalar Templates of the Dimensional & Density Shields & replicated within the Axiom & DNA Templates as Dimensional Fire Letters (sub-frequency bands). The Shield Codes access to Eukatharista Body Currents & Flame Body Activation remains dormant until Eukatharista Shield Codes are brought into activation via Flame Body technologies. Flame Body Activation initiates the flow of Ecka Heliotaic & Eukatharista Currents within the Axiom & DNA Template & Axiom Lines, initiating corresponding Life-Force/Life-Source Current Activation within the Atomic connection in preparation for Biophysical cellular activation of Ethos-Etheric & Transcendent Flame Body Currents.

The consolidated Veca Code Induction & the "Linking Sequence" Techniques Series of Kathara-2 Shield Technologies followed by the Consolidated veca Code induction are sufficient to initiate sub-harmonic activation of the Ecka-Veca Shield Codes to initiate Ecka-Veca Flame Body Sub-harmonic activation.

THE PERSONAL EUKATHARISTA COSMIC ETERNAL FLAME BODY AND BASE-12 HARMONIC & BASE-6 SUB-HARMONIC ACTIVATIONS

30 Dimensional Veca Flame Body Sub-harmonic activation can be expedited through use of Flame Body activation & "Lotus" technologies featured in the K-2 "Linking Sequence" techniques Series. Following which, sub-harmonic Ecka-Veca Body activation can be initiated thru' use of the K-2 consolidated Krist Codes imprinting technique.

Sub-harmonic activation of the Ecka-Veca Level Flame Body allows the density Body Systems access to a sufficient amount of transcendent Ecka-Heliotaxic Life-Source Currents to initiate healing of miasms within the K-1 Template & Merkaba Field aspects of personal Multidimensional anatomy in preparation for Crystal Body LotA, Axiom Line, DNA Template & Ethos-Etheric Body advanced healing application through which healing of the Ethos-Etheric Body & the physically manifest systems can be expedited.



Full harmonic activation of the Eukatharista Flame Body level occurs in sequential stages. The Ecka-Veca Body must achieve self-sustained Base-12 full harmonic activation before the next Eukatharista Body Level & it's corresponding DNA Template) can initiate full harmonic activation.

Sub-harmonic Flame Body activation a Base-6 potential activation of the Flame Body that is sufficient enough to reach frequency co-resonance with the Planetary Flame Body Base-6 "Arc of the Covenant" Host Field, through which the personal Multidimensional anatomy can achieve synchronisation with the Planetary Shield on a Base-6 alignment for Base-6 Flame Body Activation that is sustained by the Host Field of the Planetary Flame Body. Full harmonic, Base-12 Activation implies that all 12 Sub-frequency Bands (Fire Letters) in each Dimension, and in each DNA Strand, are activated – which allows for self-sustained Flame Body Activation & synchronisation with the Planetary Base-12 Full Flame Body Time Pulse. Base-6 Sub-harmonic Activation implies that 6 of the 12 Sub-frequency Bands (Fire Letters) of each Dimension activate and the Planetary Host Field subsidises the other dormant 6 Fire Letters per Dimension, the biological synchronisation with the Base-6 Planetary Host Time Pulse. Base-12 Full Harmonic Ecka-Veca Flame Body Activation can be achieved only through Healing/ Clearing Sho-na Miasm Crystals within the 15-Dimensional Veca Body through full Crystal Body LotA restoration.

Ecka-Veca Flame Body Anatomy, Ecka-Veca Healing Hands. Ethos-Etheric Flame Seal Centres and Hara Centres & Complexes

Purpose: Understanding the anatomy of the Ecka-Veca Level Flame Body, the 9 Ethos-Etheric Flame Seal Centres, Hara Centre & 5 Hara Complexes in preparation for Kathara-2 Ecka-Veca Flame Body Activation through which Ecka-Heliotalic Currents can be accessed in preparation for Kathara-3 Crystal Body LotA, Axiom Line, DNA Template and Ethos-Etheric Body advanced Healing Applications.

NATURAL ASTRAL BODY ANATOMY

The "Astral Body" is an electromagnetic replika imprint of the 3-dimensional Density-1 body that forms from the Primal Life Force Fields of the *Etras* (D-7 D-5 Etron Field), *EtrA* (D-10 Meaphe Field), *ManA* (D-11 Triton Field) and *Manu* (D-12/13 Relon Field) of the combined Density-1 and Density-2 Radial Bodies. The Astral Body vehicle activates when the Dimensional-Lock Seals (D-Lock Seals) between the Density-1 D-3 Mental Body open to the Density-1 Radial Body and the Density-2 Dimensional-Lock Seals between the Density-2 D-4 "Astral" body and the Density-2 Radial Body open to each other, allowing the Density-1 D-3 Mental body consciousness to expand into the Density-2 D-4 frequency bands. The Density-1 D-3 consciousness expands to Density-2 D-4 through release of the Dimensional-Lock-3 Seal; from the D-4 focus of consciousness, the Density-1 D-3 Mental-Atmospheric Plane one full dimension below the station of consciousness is perceived as the "solid" holographic field. The Density-1 D-3 consciousness continues expansion in the Density-2 D-5 frequency bands, through release of Dimensional-Lock-4 Seal; from the D-5 focus of consciousness, the D-4 "Astral" Plane, or *Density-2 Atomic Plane* is perceived as the "solid holographic" field. The ability to "Astral Project" develops with progressive activation of Strands 4 and 5 of the DNA Template, through which the Dimensional-Lock Seals that keep the D-3 Mental body consciousness confined to one Density and space-time vector release, allowing the Density-1 D-3 Mental Body "ego" awareness to traverse other regions of space-time and density. As the Strand-4 DNA Template naturally activates, the abilities of coherent dream recall, lucid dreaming and simultaneous dreaming first emerge, as the D-3 Mental Body consciousness first expands into the Density-1 Radial Body levels. As Strand-4 activation continues and the D-3 Mental Body moves into D-4 frequency, the D-3 Mental Plane comes into solid, more coherent view, followed by the D-4 Astral Plane with Strand-5 activation.

The 3rd Sun Star Seal, 8 and 12 Earth Seals and RA Center

When combined with: PBS, Diaradic, Telaric and Maharic Shields and Raja Complex, the 3rd Sun Star Crystal Seal and the 9th Core Star Crystal Seal Hara Center merge to form a Tearic - Telluric Current that encompasses the Seed Crystal Seal within the 3rd Solar Plexus Chakra, forming a sphere of powerful healing energies at the 3rd Chakra called the RA Center. In Kathara Healing Level-2 we will begin activation of the RA Center for healing and manifestation.

The Hara Level of Kathara Level-2 and the 6 Primary Hara Points

Through the study of the Crystal Seals of Kathara Level-2 Crystal Seed Grid as complex in detail, one can become skilled in healing facilitation through Crystal Seals mechanics by learning the basic orientation of the outer levels of the Kathara Level-2 scalar grid - The Hara Level. In simple analysis, the elements of the Hara Level can be viewed as follows:

The Hara Line – the Central Body Current, that is formed by the 11th and 12th Axiom Lines wrapping around the fixed back-line sequence of the Level-1 Kathara 12-Tree Centra Vertical Kathara Line.

The 6 Primary Hara Points: Star Crystal Seals 1 @ 5-Hara Center 2. #6-Soul Star, 3. #12 Galactic Star 4. #3-Sun Star 5. #8-Earth Star and 6. #10-Earth Core. Each primary Hara Point governs the function of a complex of interwoven scalar bio-energetic and physical systems. Knowledge of the 6 Hara Points and the Thalamus, Thymus, Shera, Hadial and Raja Computers they respectively govern, allows the healing facilitator a greater understanding of the 15-dimensional anatomy. Such Foundations of Kathara Healing are necessary in preparation for Kathara Healing Level-2 practices that will utilize activation of the RA Center for advanced healing.

Merkaba Anatomy and the Ecka Base Shield

Merkaba Field Anatomy, the Merkabic Circulatory System, DNA Template Fire Letters, Merkaba Vehicle Phases, Merkaba Types and the *Yon – a – Sa* Ecka Krist Seed Atom Base Shield

Purpose: Understanding the anatomy, structure & function of Merkaba Fields, the Merkaba Vehicle, the Merkabic Circulatory System and Eternal Life & Finite Life Merkaba Types in preparation for the activation of Ecka-Heliotalic Sub-harmonic Currents within the personal Merkaba Field & activation of the Tri-Veca Eckasha Merkaba Field through Kathara-2 Ecka-Veca Flame Body Activation.

Section-5 introduces Bi-Veca, Double Bi-Veca, Tri-Veca Eckasha Eternal Life and organic & artificial *Sho-na* Finite Life Miasmic Merkaba Field anatomy, the 4-Phases of Bi-Veca Merkaba Activation, Double Bi-Veca & Tri-Veca Eckasha Merkaba Activation and the Ecka Seed Atom Base Shield.

The NATURAL Spin Ratio between the Top (Male-Electrical-CW-Anti-particle) Density-4 Christac Merkaba Spiral and the Bottom (Female-Magnetic-CCW-Particle) Density-5 Rishtac Merkaba Spiral is 33 1/3-CW-Male-Top to 11 2/3-CCW Female-Bottom. The 33 1/3-CW/11 2/3-CCW Spin Ratio creates the NATURAL ratio of 33 2/3-Parts-Electrical Anti-Particles to 11 2/3-Parts Magnetic Particles, (or 33 1/3 energy expansion/oscillation/thrust to 11 2/3 energy contraction/vibration/draw) within earth's Density-1 Matter Base, the organic Divine Blueprint of Density-1. This Christac Internal Merkaba Vehicle Spin Ratio creates a self-sustaining, Eternal, Matter-base that is MORE ELECTRICAL than Magnetic, which perpetually re-fuels itself via natural circulation of the Maharata, Kee-Ra-ShA and Khumdarey Universal Life Force Currents.

3. Dimensional Bi-Veca Merkaba Fields circulate the 12 – Sub-frequency Bands of each Dimension from the 12 Shield Fire Letters (Standing Waves), of the corresponding Dimensional Scalar Shield. Density Bi-Veca Merkaba Fields circulate the 3 Sets of 12 Sub-frequency Band Fire Letters of the 3-Dimensional Shields contained within the Density Shield.

The Fire Letters Sets (dimensional sub-frequency band standing waves in a shield template) correspond to the DNA Template as Fire letters within the Shields activate, corresponding DNA Template Strands activate, bringing corresponding Dimensional Sub-frequency bands into activation within the corresponding Dimensional and Density Merkaba Fields.

Etheric-Ethos Flame Seal Centre & Hara Point activation expedites Shield Fire Letter & DNA Template activation progressively activating corresponding Dimensional Frequency bands & Ecka-Heliotaric Sub-harmonic Currents within the personal Merkabic Circulatory System initiating corresponding Levels of Veca Flame Body activation.

The Bi-Veca Merkaba

All things manifest possess Merkaba Fields. In all Natural Christac Eternal Life Merkaba Spiral Sets, one Spiral Spins *Clockwise* circulating Life Force into Manifest Expression, while the other Spiral simultaneously spins *Counter-clockwise* circulating Life Force back out of Manifestation to return to God-Source, for renewal. The Merkaba Spiral Sets are Ordered Wave Form Structures through which Consciousness, as Primal Life Force Current, *perpetually circulates*, into and out of Manifestation.

Universal Veca Merkaba Fields Manifest as Primal Life Force currents Spiral through the Kathara Grid Shield Template Divine Blueprint that exists as the Scalar Standing Wave Field known as the *Universal Shield* or Unified Field. The Primal Merkaba Field Manifests through the 12-Point Kathara of the D-12 Divine Blueprint. As Life Force currents spiral into and out of the Kathara Template, one replicate of the Kathara Template Rotates on a *Clockwise, Horizontal Axis* and another replicate of the Kathara Template simultaneously rotates on a *Counter-clockwise, Horizontal Axis*, while the Kathara Template remains fixed to the Universal Shield. The Horizontal Counter-rotations of the Kathara Template replicas within the Universal Shield create the Sets of Counter Rotating Life Force Spirals that are Merkaba Fields.

The 2 Inter-woven Merkaba Spirals also rotate on a *Vertical Axis* from the *Seed Atom* Centre Point. The Vertical Axis rotation of a Merkaba Field creates the *Parameter Field* or *Radiant Body* within the D13-D 15 Primal Light Fields.

[NOTE: The Merkaba Field Spiral Set is called the *Actual Field*, the Universal Shield Divine Blueprint is the *Base Field* and the Prime Light Radiant Body is the new *Parameter Field*]

The two larger Merkaba Spiral Sets of the Primal Kathara are called *Primal Bi-Veca Merkaba Fields*, the smaller Merkaba Spiral Set within each Primal Bi-Veca Merkaba Field is called a *Universal Single Bi-Veca Merkaba Field*. The two Primal Bi-Veca Merkaba Fields and their inherent Universal Single Bi-Veca Merkaba Fields all exist within a larger Counter-rotating Merkaba Spiral Set called an *Eckasha Core Tri-Veca Merkaba Field*. Each Primal Bi-Veca and Universal Single Bi-Veca Merkaba Field contain within them 12 smaller Dimensional Merkaba Spiral Sets that group into sets of 3 Spiral Sets called *Density Bi-Veca Merkaba Fields* through which 3-Dimensional Harmonic Universes and Dimensionalized Primal Light and Sound Fields are formed. Together, the inter-woven Primal Bi-Veca, Universal Single Bi-Veca, Density, Dimensional and Eckasha Tri-Veca Merkaba Fields comprise the *Christiac Merkaba Circulatory System* through which the Perpetual Motion – Eternal Life First Creation is kept in Motion via continual circulation Of God-Force Consciousness in the form of Electro-magnetic Primal Life Force Currents.

He-thar-o, He-thal-on, and Reusha-TA Phases

When the Eckasha Core Tri-Veca Merkaba Field of an Eckasha God-World System has reached the end of it's Last Expansion-Manifestation Cycle, or when it's Eckx Core Universe approaches imminent destruction, such as is presently the case; the Eckasha, Ecka and veca Universal Systems enter a Cosmic Cycle of Renewal called the 'YON-A-Sa' Cycle. During YON-A-Sa, the Eckasha, Ecka and Veca Systems experience Re-Creation, or "Regenesis" of the Eckasha Krist and Veca Christos Seed Atoms, Re-set of the Eckasha Ecka-Veca Divine Blueprint and real garment of the Merkabic Circulatory System and Universal Shields with the "Cosmic Clock" 12 Temple Reusha Pillars of the Eckasha-Aah Core God-World. (The word 'YON-A-Sa' is the auditory vibrational translation for the Eternal Cosmic Krist Seed Atom and it's inherent 15-Cells of First Creation). The 'YON-A-Sa' Cycle takes place in 4 rapid phases: the He-thar-o Electrical Merkaba Peak, the He-thal-on Magnetic Merkaba Peak, the Reusha-TA Re-set of the 12 Temple Reusha "Cosmic Clock" Pillars and the Eckx-Sha Re-Birth of the Cosmic Krist Seed Atom within the Eckasha, Ecka and veca Universes.

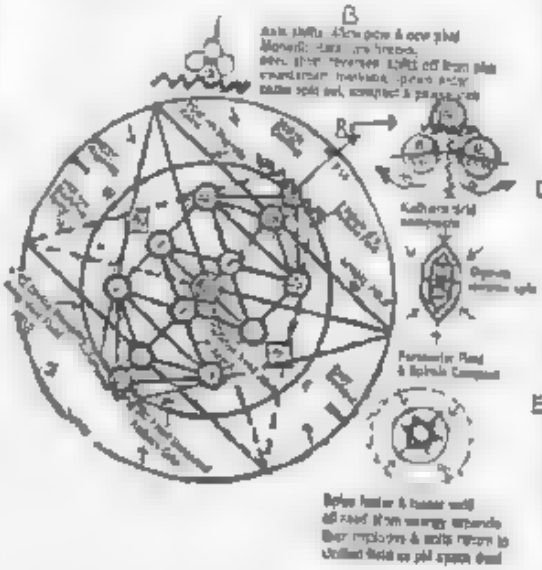
1. ORGANIC FINITE LIFE MERKABA FIELD

A: Excessive miasmic Sho-na crystal build-up in the Shields can eventually create sufficient "drag" on the Seed Atom Spin, that the Merkabic Seed Atom reverses spin & Polaric Charge (called "Monadic Reversal") which causes the Shield to reverse spin.

B: When the Shield & Seed Atom reverse spin in Monadic Reversal the Merkaba Field Centre Vertical Axis Staff & Kathara Core Density Template Centre Pillar shift axis & break off from the Veca Body Template. The Merkaba Field & the manifest contents within it can no longer draw unlimited supply of Life-Force Currents from the Ecka-Veca Body with release from the Ecka-Veca Template, the PCM-R & PKA-R counterpart Merkabas split apart & spin away from each other as their same charge Staffs collide & repel.

Organic Compacted Sho-na Finite-Life Merkaba



C: When the Merkabic Staff breaks, the slower spinning vortex spiral reverses spin & polarity to that of the Dimensional Spiral, forming a Phase-Locked, Same-Spin-Spiral-Set that rotates independently on a Reverse Shield Spin to that of the Living Veca Body.

D: The Same-Spin-Set Reversed Merkaba Field Spirals, Kathara Grid & Radial body progressively compact into each other as the Seed Atom accelerates & discharges it's remaining Life-Force Currents into manifestation within the compacted Merkaba.

E: When the Seed Atom depletes it's Life-Force & stops spin the compacted Merkaba implodes, it's Shield & manifestation dispersed back into part ole space-dust units within the Veca Body Template.

2. ARTIFICIAL FINITE LIFE *Sho-na* BLACK HOLE MERKABA FIELD

THE SHO-NA TANDEM EXTERNAL COMPACTED MERKABA

A: A natural PCM Merkaba Field is split & forced into Monadic Reversal via Wormhole vortex bond with its PKA counterpart causing spirals to break & invert then reassemble form an artificial 13-R Krist Seed Atom.

B: The wormhole is then used to shift the compacted same-spin Merkaba & its parallel 45deg. in the opposite to natural direction causing their Rods to align horizontally on the "Solar Cross" alignment within the Veca body templates creating 2-R spin artificial radiation vortex spirals on 34:21 Tandem Code.

C: Tandem vortex spirals then rotate & compact into an unnatural Vesica Pisces phase-lock that occurs as PCM Rod & PKA Staff intersect & lock into the 2 – 13R artificial Seed Atoms

D: The Vesica Pisces spins locks forms a Sho-na Crystal transposition filter harness around captured Veca Body

PKA-R Staff

13-R Seed PKA

13-R Seed PCM

PCM Rod

E: Sho-na Crystal transposition filters drain energy from the veca body until they have consumed enough charge to activate the artificial 55-R compacted 13R Seed Atoms at their Core. Once the 13-R Seed Atom activates the Vesica lock releases, merging the 34, 21 vortices fully to form the 55-R Tandem Merkaba Black-hole generator that progressively expands & accelerates on the Tandem Code via consumption of the Veca Body Current.

Tandem Finite Life *Sho-na* Black-hole Merkaba Fields occur only through intentionally applied manipulation of natural Merkaba Fields via the Anti-Christlac 34: 21 Tandem Code for generating artificial radiation they do not occur organically in nature. Tandem Merkaba Fields create *Sho-na* Transposition Filter Harnesses around captured portions of the Veca Body & drain energy from the Veca Body until 13–R Seed Atom – 55-R *Sho-na* Crystal activation. At 55-R Spin these (TMF's, rip Black-holes in the fabric of the Veca Body.

WHAT IS a Merkaba Vehicle?" The answer to this question can be found through a bit more exploration of the "Mysteries of Merkaba"

De-mystifying the Merkaba Vehicle *Merkaba Phases, DNA and Kundalini*

Merkaba Fields are pairs of interwoven, counter-rotating interd mensional electromagnetic energy fields composed of an anti-particle *clockwise-rotating* Electrical Spira. ("male") and a particle *counter-clock-wise rotationg* Magnetic Spira. "Female") Chapter 7 reviews Merkaba Fields within their larger planetary context but the same structure of Merkaba Fields applies to the smaller structures of biological bodies and to the microcosmic structure of DNA Templates and chemical DNA upon which biological bodies form. Merkaba Fields are an intrinsic part of the Primal Order upon which the 15-Dimensional Time Matrix is structured' they form as an effect of the natural core Kathara 12-Tree Grid (re earlier this Chapter) structure of the Universal Manifestation Template ,scalar-grid Divine Blueprint) Merkaba Fields are the natural energy circulation system between the Particle and Anti-particle Universes in our Time Matrix, and between our Time Matrix, other Time Matrices and the cosmic order of the Primal Kee-Ra-ShA Light Fields (Dimensions-13-14-15) and the Primal Khundaray Sound Fields that connect Time Matrices to Source-God Merkaba Fields are the specifically structured, dimensionalized, electromagnetic vehicles through which the Kundalini (D-1 through D-9 "Antahkahrana"), Maharata (D-10-11-12), Kee-Ra-ShA (D-13-14-15) and Khundaray (Eckatic Polaric and Tradic Primal Sound Fields) Universal Life Force-Energy Currents circulate into and out of manifetation. Contrary to popular distorted "ascension" teachings "Merkaba Fields" and "Merkaba Vechicles" are not just the "Divine Vehicles of Light" reserved exclusively for "Ascended Masters' when they grace us with their presence in the "lower" worlds of matter EVERYONE and every thing possesses a natural Merkaba Vehicle composed of specifically ordered sets of smaller Merkaba Fields The personal Merkaba Fields of biological forms are every bit as essential to the creation and sustainance of the body and embodied consciousness as are the physical cardio-vascular, respirtory and neurological systems

The only difference between a "mortal" being and an embodied "Ascended Master" is that the "mortal" has not yet fully integrated the 12-dimensions of frequency from the Time Matrix and the frequency spectrum from the Primal Light and Primal Sound Fields into the organic DNA Template. It is through activation of each full dimensional frequency band within the DNA Template that the Single-D mension Merkaba Fields awaken In the body to progressively form from the Universal Life-force Currents, the full Interdimensional Merkaba Vechicle by which higher dimensional "spiritual" consciousness embodies and through which atomic transmutation takes place It is through progressive activation of the personal Interdimensional HarmonicMerkaba Vehicle that the biological form becomes capable of interdimensional, inter-time transit, or entering the "State of Merkaba" In simple terms entering the "State of Merkaba" means transmuting the density of the matter-body into a less dense state of light-sound waves by shifting the angle of the axis upon which matter particles rotate It is the level of Merkaba Field and DNA Template/chemical DNA activation that determines whether one will possess "Ascended Master" multi-dimensional awareness and an "Immortal-Hyper-dimensional MerkabicBody" or whether one will be limited to 3-dimensional consciousness and a finite "mortal" body Less complex life forms have DNA Templates composed of fewer dimensional frequency bands, which limits the number of Single-Dimension Merkaba Fields that can activate within the body thus limiting the amount of Universal Life Force Current that can be synthesized into the biological form If a being cannot activate a minimum of 4 full dimensions of frequency within the DNA Template and body (4-Strand DNA Template) the biological form will be "phase-locked" into the 3-dimensional Space-time vector into which it was born The "phase-locked" body will be finite, incapable generating the DNA Keylon/Fire Letter activation sequences and corresponding chemical DNA sequences that allow for shifting of the angle of particle rotation axis (angular rotation of particle spin) Biology with a fixed angular rotation of particle spin cannot replenish the resevoir of Life Force Currents beyond that with which its was born and cannot generate the natural shifts in particle-spin axis angle that allow particles and anti-particles

to fuse for atomic transmutation into light sound waves. The "fixed" body is finite or "mortal" incapable of perpetual self-regeneration and limited mensional lifetime readi or ascension, and the consciousness will need to move into another bio-physical form - a death or continued evolution toward mastery and ascension.

Complex life forms such as the 12-Strand DNA Angelic Human species have DNA Templates built upon full sets of multiple dimensional frequency bands (12 dimensions of frequency in the 12-Strand Matrix) which allows multiple Single-Dimension Merkaba Fields to activate in the body. As multiple Single-Dimension Merkaba Fields activate, the body's progressively fed a renewed supply of universal Life Force Current energy, making the body's birth energy supply regenerable and self-renewing. A biology built upon a 12-Strand DNA Template has the capacity, schematically, to form 12 Single-Dimension Merkaba Fields that when activated can fuse together to form the Interdimensional Harmonic Merkaba Vehicle composed of four large interwoven 3-Dimensional Harmonic Merkaba Spirals. The 12-Strand DNA Template has the capacity to form a 12-Dimensional Merkaba Vehicle, the "Mahunta Phase" Merkaba Vehicle. The 12-Strand DNA Template, with its 12 "Fire Codes" between the 12 individual DNA Strand Templates (re earlier this chapter), carries the frequency blueprints by which the chemical DNA chains that form the genes and chromosomes can produce the Turn-Stile and Interface DNA Sequences. Only through activation of the Turn-Stile and Interface DNA Sequences can DNA Strand Braiding, Celestaline production and atomic transmutation take place for progressive activation of the Interdimensional Harmonic Merkaba Vehicle.

As the chemical processes of atomic transmutation take place within the physical body structure through progressive activation of the DNA Strand Template and corresponding Single Dimension Merkaba Fields and 3-Dimensional Harmonic Merkaba Spirals, the electromagnetic fields surrounding the body also undergo transformation. With full 12-Strand DNA Template activation, the polarized (separated) electromagnetic fields around the body (the "Auric Field levels") progressively release their polarization and electromagnetic barriers, progressively expanding into a large 12-dimensional counter-rotating Mahunta Phase Merkaba Vehicle that forms a "sphere of light" spherical scalar wave construct around the body. In 12-dimensional transmutation (used for interdimensional inter-time transit and ascension into Pre-matter), the atomic structure of the body is chemically and electromagnetically transmuted into a Density-4 D-13-14-15 Pre-matter "Liquid Light" state via particle-into-particle fusion that takes place through activation of the "Mini-Merkaba Fields" inherent to the DNA Template. In this process of atomic transformation, the units of conscious energy of which the physical body, subtle energy body systems and the embodied levels of consciousness were composed (increase in coagulation, electrical energy expansion, and lower in vibration, magnetic energy contraction), transmuting into an Pale-Silver Elliptical Sphere of Density 4 Pre-matter Liquid Light. This 12-dimensional Density-4 Pale-Silver Elliptical Sphere forms at the center of the spinning electromagnetic Mahunta Merkaba Field; this center-point within a Merkaba Field within which the Elliptical Sphere of the "Liquid Light Body" forms is called the Form Constant. In 12-Strand DNA activation, the Pale-Silver Elliptical Sphere of Liquid Light that forms within the Mahunta Merkaba Form Constant is called the "Hydro-plasmic Christos Body". Before a 12-Strand being can fully activate the 12-Dimensional Mahunta Phase Merkaba Vehicle for transmutation into Pre-matter, the 3-Dimensional Nethra Phase, 6-Dimensional Hatrah Phase and 9-Dimensional Quatra Phase Merkaba vehicles must first be sequentially activated through sequential activation of corresponding Shields and DNA Strand Templates.

Nethra Phase Merkaba and the Telluric Capsule

Activation of the Telluric Shield (below navel - Dimensional Merkaba Fields 1-2-3, Keylons/Fire Letters 1-36 in DNA Strand Templates 1-2-3 and braiding of the corresponding Strand-1-2-3 chemical DNA gene-chromosome sequences creates the Density-1 (dimension 1-2-3) 3-Dimensional Nethra Phase Merkaba Vehicle. When fully, naturally activated, the Nethra Merkaba vehicle forms around the body as a singular, inverted, counter-clockwise rotating "female" Harmonic Merkaba Spiral or spiraling "pyramidal cone". The "pyramidal cone tip" is in Earth's core and the base widens upward to surround the body up to the navel region, where the counter-clock-wise rotating spiraling "pyramidal cone" connects to

the Toltunc Shield just below the nave. Activation of the Nethra Phase Merkaba vehicle fully activates and merges Primary Chakras 1-2-3 through release of the first pair of 3-electromagnetic Cranial-Sacral Kundalini Seals in the tailbone and Pineal Gland. Cranial-Sacral Kundalini Seals are 3 pairs of Pineal Gland-Tailbone frequency seals that regulate the flow of Universal Kundalini Life Force Currents from the Dimensional Unified Fields as they run vertically through the center of the body via the Central Vertical Current. Refer Chapter 9. The Nethra Merkaba Vehicle normally mimics the natural spin of Earth's Density-1 Planetary Magnetic Harmonic Merkaba Spiral in its natural form. Earth's Density-1 Planetary Harmonic Merkaba Spiral is a magnetic particle counter-clockwise rotating inverted "female" Merkaba Spiral that runs at the natural Density-1 speed ratio of 11 and two thirds revolutions per approximately one-trillionth of a "nano-second" billionth of a second. This natural "Base-Magnetic" configuration of Earth's Density-1 Planetary Harmonic Merkaba Spiral allows Earth's Terrestrial and Star Gates to naturally connect with the "Base-Electrical" Harmonic Merkaba Spiral of the Density-2 Dimensions-4-5-6 system. **Note**: magnetic-electrical Merkaba Spiral interface allows spirals to merge in an open frequency conduit; magnetic-magnetic or electrical-electrical Merkaba Spiral interface causes spirals to repel and "close the frequency circuit"). When Earth's Planetary Shields and the Angelic Human DNA Template are functioning properly, the personal Nethra Spiral mimics and merges with the counter-clock-wise 11-and-two-thirds natural Density-1 Planetary Harmonic Merkaba spin. Through the Nethra Spiral's Earth core connection, the physical Human body receives a constant supply of Density-1 Kundalini Life Force Currents directly from Earth's Planetary Shields for continued sustenance of the D-1 Physical, D-2 Emotional/Elemental and D-3 Mental body structure. (As we will soon discover, the Checkerboard Mutation has completely distorted this natural electromagnetic relationship between person and planet, and within Earth's natural orbital and axis alignment with the Universal Star Gates.) Under natural conditions, a fully activated Nethra Merkaba allows a human the ability of healthful biological longevity and Local Teleportation (3-dimensional atomic transmutation) via natural planetary portals within the confines of the 3-dimensional Density-1 planetary system. A properly functioning Nethra Merkaba is also essential for embodiment of higher-dimensional spiritual consciousness and interdimensional perception, for immortal biological longevity, and for later formation of the interdimensional Harmonic Merkaba Vehicle through which interdimensional atomic transmutation for off-planet Star Gate passage and bodily Dimensional Ascension can be achieved. The 3-Dimensional Nethra Phase Merkaba Vehicle circulates Density-1 energy through the body via Primary Chakras 1-2-3. When activated for Density-1 portal travel, the Nethra Merkaba transmutes a portion of the atomic body into the Hydro-plasmic state of the 12th-sub-frequency bands in dimensions 1-2-3, to form a 3-dimensional D-12 Sub-Harmonic Elliptical Sphere barrier called the Tetunc Capsule around the remaining portions of the Density-1 atomic body. The Tetunc Capsule enables the remaining manifest portions of the Density-1 physical body to pass unscathed through Local Planetary Portals.

Hallah Phase Merkaba, the Doradic Capsule and the "Soul Body"

Activation of the Doradic Shield at chest, Dimensional Merkaba Fields 1-2-3-4-5-6, Keylons/Fire Letters 37-72 in DNA Strand Templates 4-5-6 and braiding of the corresponding Strand-4-5-6 chemical DNA gene-chromosome sequences creates the Density-2 dimension 4-5-6, 6-dimensional Hallah Phase Merkaba Vehicle. Activation of the Doradic Shield was represented in the depiction of "Wings" characteristic to "angels" in ancient art. When fully, naturally activated the Hallah Merkaba Vehicle forms an upright, clockwise-rotating electrical anti-particle "male" Density-2 Harmonic Merkaba Spiral emerging downward from the Pineal Gland in the brain center to the Doradic Shield at the upper chest. The point of the "pyramidal cone" is in the Pineal Gland and the pyramidal-cone widens as it moves down to the Doradic Shield at the Thalamus Gland above the Heart Chakra-4 at the center of the chest. The base of the clock-wise rotating Density-2 electrical Harmonic Merkaba Spiral continues to widen as it extends downward from the Thalamus Gland and Heart Chakra to the calves, crossing through the counter-clock-wise rotating Density-1 magnetic Nethra Spiral to form an electromagnetic Form Constant Elliptical Sphere around the body. Activation of the Hallah Phase Merkaba vehicle fully activates and merges Primary Chakras 1-2-3-4-5-6 through release of the second pair of 3 electro-

magnetic Cranial Sacral Kundalini Seal pairs in the temporal bone and Pineal Gland. The Hallah Merkaba Vehicle normally mimics the natural spin of the Density-2 electrical Solar Galactic Harmonic Merkaba Spiral to which Earth's Density-1 Magnetic Harmonic Merkaba Spiral normally connects. In its natural form, the Sun's Density-2 Galactic Harmonic Merkaba Spiral is an electrical anti-particle clock-wise rotating upright "male" Merkaba Spiral that runs at the natural Density-2 speed ratio of 33-and-one-third revolutions per approximately one-thousandth of a nano-second billionth of a second. The natural "Base-Electrical" configuration of the Sun's Density-2 Galactic Harmonic Merkaba Spiral is part of the greater Density-2 Base-Electrical Solar-Pleadian-Sirius B Intergalactic Harmonic Merkaba Spiral. When the Harmonic Merkaba Spirals of Earth and the Sun are naturally aligned, Earth's Templar and Star Gates connect with the "Base-Electromagnetic" Intergalactic Harmonic Merkaba Field of the Density-3 (Dimensions-7-8-9) system via the Density-2 Base-electrical Galactic Merkaba Spiral of the Sun and the Density-2 Pleadian-Sirius B Intergalactic Harmonic Merkaba Spirals. When Earth's Planetary Shields and the Angelic Human DNA Template are functioning properly, the personal Hallah Spiral mimics and merges with the clock-wise 33-and-one-third natural Density-2 Solar-Pleadian-Sirius B Galactic Harmonic Mekaba spin. Through the Hallah Spiral's Solar core connection the Human body receives a constant supply of Density-2 Kundalini Life Force Currents, the dimensions 4-5-6 Doradic Currents directly from the Galactic Solar Shields for continued sustanence of the D-4 Astral, D-5 Archetypical and D-6 Celestial levels of the Density-2 Semi-ethenic matter "Soul Body". The Density-2 Soul Body awareness, with its 6-dimensional perception, embodies into the Density-1 physical body via activation of DNA Strands 1-6 and formation of the 6-dimensional Hallah Merkaba.

The Checkerboard Matrix technology has created distortions in both the Hallah and Nethra Phase Merkaba Fields of both the planet Earth itself, and thus within the interconnected Hallah and Nethra Merkaba Fields and DNA Templates of all species who live upon this planet. The planetary Checkerboard Matrix distortion and resulting Checkerboard DNA Mutation was rendered, and continues to be rendered, on a personal and planetary level, through technologically orchestrated electromagnetic blockage and polarity reverse of portions of Earth's Planetary Shields that correspond to DNA Strand Templates 1-6. The mechanics of the Planetary Checkerboard Matrix distortion will be later explored. Due to the Checkerboard Matrix distortion and resulting Checkerboard DNA Mutation, the natural electromagnetic relationships between person and soul, and Earth's natural alignment with the Density-2/Dimension-4 Universal Solar Star Gate-4 has been fully compromised since 25,500BC. Under natural conditions, a fully activated Hallah Merkaba allows a human the ability of many thousands of years of healthful biological longevity and Regional-Intergalactic Teleportation (6-dimensional atomic transmutation) within Densities-1and 2, via Universal Star Gates 1 through 6. A properly functioning Hallah Merkaba is also essential for embodiment of higher-dimensional spiritual consciousness and interdimensional perception of the Over-Soul and higher-dimensional identity levels, for immortal biological longevity, and for formation of the Intergalactic Harmonic Merkaba Vehicle through which atomic transmutation for bodily Ascension to Density-2 can be achieved. The 6-Dimensional Hallah Phase Merkaba Vehicle circulates Density-2 energy through the body via Primary Chakras 4-5-6. When activated for Density-2 Star Gate travel, the Hallah Merkaba transmuts a portion of the atomic body into the Hydro-plasmic state of the D-12-sub-frequency bands in dimensions 1-2-3-4-5-6, to form a 6-dimensional D-12 Sub-Harmonic Elliptical Sphere barrier called the Doradic Capsule. The bottom portion of the Doradic Capsule is magnetic/particle and spins counter-clock-wise at 11-and-two-thirds RTN revolutions per estimated millionth of a nano-second. The top portion of the Doradic Capsule is electrical/anti-particle and spins clock-wise at 33-and-one-third RTN. Within the Doradic Capsule "Form Constant" of the Hallah Merkaba, the density of the Density-1 carbon-based physical atomic body is transmuted into Density-2 silica-carbon-based Semi-ethric matter. The Doradic Capsule enables the remaining manifest portions of the Density-2 Semi-ethenic body to pass unscathed through Regional Intergalactic Star Gates and Universal Star Gates 1-6. The 6-dimensional Elliptical Sphere of the Doradic Capsule and its inherent carbon-silica based Semi-ethericatomic body is frequently referred to as the "Soul Body".

Activation of the Teuric Shield atop of head\ Dimensional Merkaba Fields 1-2-3-4-5-6-7-8-9 Keynote/Fire Letters 73-108 in DNA Strand Templates 7-8-9 and bracketing of the corresponding Strand-7-8-9 chemical DNA gene-chromosome sequences creates the Density-3 dimension 7-8-9 9-dimensional Quatra Phase Merkaba Vehicle. When fully naturally activated, the Electromagnetic Quatra Merkaba Vehicle forms an upright, clockwise-rotating electrical anti-particle "male" Density-3 Harmonic Merkaba Spiral AND an inverted, counter-clockwise rotating magnetic particle "female" Density-3 Harmonic Merkaba Spiral. When activated, the upright electrical portion of the Quatra Merkaba emerges from the Teuric Shield atop the head, expands down through the Pineal Gland and continues extending downward to the feet, absorbing and merging with the activated electrical Hanah Merkaba that extends down from the Pineal Gland to the calves. The inverted magnetic portion of the Quatra Merkaba emerges from a point about 3 inches below the feet and expands upward, extending its base up to Chakra-10 six inches above the head, absorbing and merging with the activated magnetic Nefira Merkaba that extends up from the Earth's core to just below the navel. The upright electrical and inverted magnetic spirals of the Density-3 Electromagnetic Quatra Merkaba cross through each other to form a set of two electro-magnetic "Form Constant" Elliptical Spheres around the body, one sphere spins counter-clock-wise magnetic (101-and-two-thirds RTN), the other spins clock-wise electrical (303-and-one-third RTN). Activation of the Quatra Phase Merkaba vehicle fully activates and merges Primary Chakras 1-2-3-4-5-6-7-8-9, through release of the third pair of 3 electro-magnetic Cranial-Sacral Kundalini Seal pairs in the tailbone and Pineal Gland. When activated, the Quatra Merkaba vehicle mimics the natural spin of the Density-3 Electromagnetic Arcturus-Orion-Andromeda intergalactic Harmonic Merkaba Field to which the Solar-Pleiadian-Sirius 8 Density-2 Electrical Harmonic Merkaba Spiral connects. The Density-3 Arcturus-Orion-Andromeda Harmonic Merkaba Field is an electromagnetic "androgeneous" set of two Merkaba Spirals, composed of counter-clock-wise spinning particles and clock-wise-spinning anti-particles that runs at the natural Density-3 speed ratios of 101-and-two-thirds magnetic RTN and 303-and-one-third electrical RTN. When Earth's Planetary Shields and the Angelic Human DNA Template are functioning properly, the personal Quatra Spiral mimics and merges with the 101-and-two-thirds magnetic/ 303-and-one-third electrical natural Density-3 Arcturus-Orion-Andromeda intergalactic Harmonic Merkaba spin.

Through the Quatra Spiral's connection to Density-3, the physical Human body receives a constant supply of Density-3 Kundalini Life Force Currents (the dimensions-7-8-9 "Teuric Currents," for continued sustainance of the D-7 Ketheric, D-8 Monadic and D-9 Keriatric levels of the Density-3 Etheric matter "Over-Soul Body". The Density-3 Over-Soul Body awareness within its 9-dimensional perception embodies into the Density-1 physical body via activation of DNA Strands 1-9 and formation of the 9-dimensional Quatra Merkaba. Under natural conditions, a fully activated Quatra Merkaba allows a human the ability of many hundreds of thousands of years of healthful biological longevity and intergalactic Teleportation (9-dimensional atomic transmutation), within Densities-1, 2 and 3, via Universal Star Gates 1 through 9. A properly functioning Quatra Merkaba is essential for embodiment of the Density-4 Avatar and D-12 "Christos Avatar" higher-dimensional identity levels, for immortal biological longevity, and for formation of the Universal Harmonic Merkaba Vehicle through which atomic transmutation for bodily Ascension to Density-3 can be achieved. The 9-Dimensional Quatra Phase Merkaba Vehicle circulates Density 3 energy through the body via Primary Chakras 7-8-9. When activated for Density-3 Star Gate travel, the Quatra Merkaba transmuts the majority of the atomic body into the Hydro-plasmic state of the 12th-sub-frequency bands in dimensions 1-2-3-4-5-6-7-8-9, to form the 9-dimensional D-12 Sub-Harmonic Elliptical Double-Sphere barrier, that is called the Teuric Capsule. Within the Teuric Capsule "Form Constant" of the Quatra Merkaba, the density of the Density-1 carbon-based physical atomic body and the Density-2 carbon-silica-based Semi-etheric atomic body is transmuted into Density-3 silica-based Ethnic matter. The Teuric Capsule enables the remaining manifest portions of the Density-3 Etheric body to pass unscathed through Universal Star Gates 1-9.

Following activation of the lower-dimensional Densities-1-3 aspects of the DNA Template, chemical DNA and Merkaba Vehicles, which activates the full spectrum of the 9-Dimensional Universal Kundalini Currents in the body (the "Antahkaharana"), the final 3 DNA Templates of strands 10-11-12 can be activated. Full activation of DNA Strand Templates and chemical DNA sequences 10-11-12 activates the full spectrum of the 12-Dimensional Universal Maharata "Christos" Current within the body, forming the 12-Dimensional Mahunta Phase Merkaba Vehicle through which the atomic structure fully transmutes into the Pre-matter Hydro-plasmic Christos Body of Density-4. Activation of the Maharic Shield, 12 inches below feet. Dimensional Merkaba Fields 1-2-3-4-5-6-7-8-9-10-11-12. Keynote Fire Letters 109-144 in DNA Strand Templates 10-11-12 and braiding of the corresponding Strand-10-11-12 chemical DNA gene-chromosome sequences creates the Density-4 (dimension 10-11-12), 12-dimensional Mahunta Phase Merkaba Vehicle. When fully, naturally activated, the Electromagnetic Mahunta Merkaba Vehicle forms an upright, clockwise-rotating electrical anti-particle "male" Density-4 Harmonic Merkaba Spiral AND an inverted, counter-clockwise rotating magnetic particle "female" Density-4 Harmonic Merkaba Spiral. When activated, the upright electrical portion of the Mahunta Merkaba emerges Chakras 10 and 11, 18-36 inches above the head, expands down through and around the body to the Maharic Shield 12 inches below the feet, absorbing and merging with the electrical portion of the activated Quatra Merkaba. The inverted magnetic portion of the Mahunta Merkaba emerges from a point in the Maharic Shield 12 inches below the feet and expands upward, extending its base up to Chakra-11above the head, absorbing and merging with the magnetic portion of the activated Quatra Merkaba. The upright electrical and inverted magnetic spirals of the Density-4 Electromagnetic Mahunta Merkaba cross through each other to form a set of two electro-magnetic "Form Constant" Elliptical Spheres around the body: one sphere spins counter-clock-wise magnetic (911-and-two-thirds RTN), the other spins clock-wise electrical (2733-and-one-third RTN). Activation of the Mahunta Phase Merkaba Vehicle fully activates and merges Primary Chakras 1-2-3-4-5-6-7-8-9-10-11-12, through release of the D-12 Maharata Seal. The 3 Parts of the Maharata Seal are located in the Pineal Gland, in the first of the first 8 cells in the tailbone and 12 inches below the feet in the Maharic Shield. When activated, the Mahunta Merkaba Vehicle mimics the natural spin of the Density-4 Electromagnetic Lyran inter-universal Harmonic Merkaba Field, to which the Arcturus-Orion-Andromeda Density-3 Electromagnetic Universal Harmonic Merkaba Spiral connects. The Density-4 Lyra-Vega-Aveyon-Aramatena Inter-universal Harmonic Merkaba Field is an electromagnetic "androgeneous" set of two Merkaba Spirals, composed of counter-clock-wise spinning particles and clock-wise-spinning anti-particles that runs at the natural Density-4 speed ratios of 911-and-two-thirds magnetic RTN and 2733-and-one-third electrical RTN. When Earth's Planetary Shields and the Angelic Human DNA Template are functioning properly, the personal Mahunta Spiral mimics and merges with the 911-and-two-thirds magnetic/2733-and-one-third electical natural Density-4 „yra-vega-Aveyon-Aramatena Inter-universal Harmonic Mekaba spin.

Through the Mahunta Spiral's connection to Density-4, the physical Human body receives a constant supply of Density-4 Maharata Life Force Currents (the dimensions-10-11-12 Maharic Currents), for continued sustainance of the D-10 Christiac, D-11 Buddhaic and D-12 Nirvanic levels of the Density-4 Pre-matter "Christed Avatar Body". The Density-4 Christed Avatar Body awareness within its 12-dimensional perception embodies into the Density-1 physical body via activation of DNA Strands 1-12 and formation of the 12-dimensional Mahunta Merkaba. Under natural conditions, a fully activated Mahunta Merkaba allows a human the ability of healthful immortal biological longevity and Inter-universal Teleportation (12-dimensional atomic transmutation) within Densities-1, 2, 3 and 4, via Universal Star Gates 1 through 12. A properly functioning Mahunta Merkaba is essential for embodiment of the Density-5 Breneau Rish, higher-dimensional identity levels, and for formation of the Inter-universal Harmonic Merkaba Vehicle through which atomic transmutation for bodily Ascension to Density-4 can be achieved. The 12-Dimensional Mahunta Phase Merkaba Vehicle circulates Density-4 energy through the body via Primary Chakras 10-11-12. When activated for Density-4 Star Gate travel, the Mahunta Merkaba transmuts the entire atomic body into the Hydro-plasmic state of the 12th-Dimensional Frequency band in Density-5, to form the 12-dimensional, D-12 Elliptical Double-Sphere barrier, that is called the Maharic Capsule. Within the Maharic Capsule "Form Constant" of the Mahunta Merkaba, the

density of the Density-1 carbon-based, physical atomic body the Density-2 carbon-silica-based Semi-etheric atomic body and the Density-3 silica-based Etheric atomic body are transmuted into Density-4 liquid-silica-based Pre-matter Hydro-plasmic "Liquid Light". The Dimension-12 Pale-Silver Elliptical Sphere of Hydro-plasmic Liquid Light is frequently called the "Christ Body" and sometimes the Buddhaic Body or Nirvanic Body. The Monadic Capsule "Christ Body" enables the Christed Avatar, to pass through unscathed unscathed Universal Star Gates 1 through 12.

Each dimension of frequency activated within the body also represents a dimension of personal consciousness awareness. "Spiritual Integration" is the process of activating the DNA Template, chemical DNA and Merkaba Vehicle Phases through which the Density-2 "Soul", Density-3 "Over-Soul" and Density-4 "Christos Avatar" levels of personal identity and consciousness can be fully embodied to create the condition known as "Christ Consciousness". "Spiritual Actualization" is the process of achieving the highest degree of Spiritual Integration that you are biologically capable of achieving in one lifetime, as designated by the number of DNA Strand blueprints contained in the DNA Template through which you chose to incarnate. Full "Spiritual Mastery" or "Ascended Mastery" is the process of full transmutation back through the D-12 Christos, the Primal Light Fields and the Primal Sound Fields into merger with Source-God consciousness. This can be achieved directly from the present life embodiment only if you incarnated in this lifetime directly from the Eckatic Level of the Primal Sound Fields, as a "Yanas" with a Universal Templar Service Contract, through which you would receive the 48-Strand DNA Template of a Maji "Eckar". You can count on one hand the number of true Maji-Eckars presently incarnate on Earth. There are many more Maji with 24-47 Strand DNA Templates that are capable of ascension to the Primal Light or Primal Sound Fields incarnate now as the "Indigo Children Types-1 and 2" Maji Angelic Human Grail Line. All beings, whether or not they are born in this lifetime with a Maji DNA Template will have opportunity for further evolution to Ascended Spiritual Mastery following transition (via ascension to higher dimensional fields or bodily death) from this incarnation. The Maji Angelic Human 24-48-Strand DNA Templates (and those of several other intergalactic species used by embodied Ascended Masters who incarnate from the Primal Sound Fields beyond the Time Matrix) have the capacity for full transmutation of the Pre-matter "Liquid Light Christ Body"

Rahunta Phase Merkaba and the Rishi Body

Complete return to energetic "At-One-ment" with Source-God is the process of further transmuting the Density-4 Pre-matter Pale-Silver Elliptical Sphere of the "Hydro-plasmic Christ Body", first into an Elliptical Sphere of Density-5 (D-13-14-15) Gaseous Primal Light called the Ante-matter "Thermo-plasmic Rishic Body" ("Rishi Body"), the 15-Dimensional Rahunta Phase Merkaba Vehicle. Transformation to the "Thermo-plasmic Rishi Body" is accomplished by further increasing particle/anti-particle oscillation of the "Hydro-plasmic Christ Body" via activation of the Dimension-13-14-15 Primal Light Codes of the Maji DNA Template. The final transmutation of identity out of the Time Matrix occurs as the Density-5 Ante-matter Gaseous Primal Light Elliptical Sphere of the Thermo-plasmic Rishi Body is lowered in oscillation and raised in vibration via activation of the Prima. Sound Codes in the Maji DNA Template. Lowering of oscillation (electrical energy expansion) and raising of vibration (magnetic energy contraction) transmutes the electrical Primal Light Thermo-plasmic Body back into the magnetic contraction of Prima. Sound to become the invisible, inaudible, non-manifest, Elliptical-Standing-Columnar-Vibration-Wave of the Primal Sound Yuseta Body, the organic form of a Yanas "Ascended Master". Energetic At-one-ment with Source-God, or "Spiritual Mastery" is the Common Evolutionary Objective and Eventual Exponential Destiny for ALL LIFE in the manifest worlds. "Ascension" is the Christiac process of "returning home" as a sentient, conscious, fully aware being. Extinction is the anti-christiac process of remaining trapped within the Time Matrix as fragmented, undifferentiated units of consciousness awareness, with no memory or cognition of personal identity or of the significance and blessedness of the journey. Either way, all consciousness will always, eventually return to the Singular Source from which ALL things are born, for in truth no one has ever left this Source-God, we exist within IT and IT exists within US. This is the Divine Nature of the Perpetual and Eternal Flow of Life. The path of Ascension and attainment of At-One-ment with Source-God through embodiment of Christ

Consciousness and Spiritual Mastery is fully governed by the Sacred Science of Creation Physics. This includes the Natural Laws of Merkaba Mechanics and the DNA Template chemical DNA dynamic which are at the heart of the biological Merkaba Mystery. The chemical DNA is connected to the DNA Template Sub-Strand DNA Matrix and both DNA Template and its chemical DNA translation are directly and inseparably connected to the formation of the interdimensional Merkaba vehicle. The DNA Template and Internal Merkaba Fields are the elements of human anatomy that most directly govern the chemical DNA processes that allow for true Spiritual integration of consciousness and for the potential of **biological atomic transmutation (ascension and/or star gate/space-time travel).**

As previously mentioned the Angelic Human DNA Template the Sub-Strand DNA Matrix contains the scalar-grid blueprints for 12 DOUBLE-HELIX DNA Strands not 12 single strands as Anunnaki teachings will intentionally mis-lead us to believe. Anunnaki teachings such as those of Galactic Federation attempt to portray the "12 Strand DNA" as 6 sets of 2 strands when in truth is a 6-Strand DNA Matrix configuration 12 sets of 2 Strands or 12-Double-Helix Strands is a genuine 12-Strand DNA Matrix. Each Strand Template contains 12 Keylons/Fire Letters that are intended to chemically translate into 12 LARGE Chromosomes per Strand Template for a total of 144 full Chromosomes (12 Keylons = 12 Chromosomes per Strand x 12 Strands). Each of the 12 natural Chromosomes characteristic to each Strand of 12 Strand Angelic Human chemical DNA is built upon a "genetic alphabet" of 12 not 4, Nucleotide Base chemicals. Each of the 12 natural Chromosomes per Strand are formed by one primary DNA Template Keylon/Fire Letter. The chemical translation of the natural chromosome is formed through the energetic interrelationships between the one magnetic particle Base Code the one electrical anti-particle Acceleration Code and the 12 minute Vector Codes that form the structure of one Keylon/Fire Letter in the DNA Template.

Each of the 12 DNA Strand Templates holds a set of 12 Keylons/Fire Letters, a set of 12 Base-Acceleration Code Pairs (one pair per Keylon) and a set of 144 Vector Codes (12 Vector Codes per Keylon). The 12 magnetic Base Codes in each Strand emerge from the "Mother-line" (mother's genetic imprint) and the 12 electrical Acceleration Codes per Strand emerge from the "Father-line" (father's genetic imprint). The Base Code-Acceleration Code Pair that forms one Keylon in the DNA Template through which one natural chemical chromosome will emerge forms the 2 Sugar (deoxyribose)-Phosphate molecule groups that translate into the 2 "handrails" or helix of the chemical "DNA Ladder" in its natural state. one helix would carry the Sugar-Phosphate blueprint inherited from the Mother-line genetic code and the other helix would carry the Sugar-Phosphate blueprint inherited from the Father-line genetic creating literally a "magnetic particle MOTHER-HELIX" and an "electrical anti-particle FATHER-HELIX", as the "handrails" of the chemical DNA "ladder". In the present state of mutation many of the Base Codes and Acceleration Codes that form the Keylons have been electromagnetically reversed which scrambles the natural Mother-Father-line chemical interrelationships within the Sugar-Phosphate "handrails". In the mutated Homo-Sapien-2 chemical DNA, gene sequences inherited from both mother and father will appear in both helix, as a result of reversed Base Codes and Acceleration Codes within the DNA Template. This portion of the Checkerboard Mutation creates the first viable difficulty in the natural function of the Angelic Human 12-Strand DNA. Scrambling of the Base Code and Acceleration Code Pairs in select Keylons of the DNA Template interrupts the natural function and intended electromagnetic interrelationships between the Mother-Helix (magnetic-particle, Base Codes and the Father-Helix (electrical-anti-particle) Acceleration Codes, and their chemical Sugar-Phosphate chains within every gene and chromosome in the DNA ladder.

When the Angelic Human 12 Strand DNA Template is functioning normally each Base Code-Acceleration Code Pair forms a minute set of counter-rotating electromagnetic energy spirals known as a "Merkaba Field" (later discussed). The electrical Acceleration Code portion of one Keylon/Fire Letter/chromosome forms a minute clock-wise rotating spiral of electrical anti-particle energy and the corresponding magnetic Base Code forms a minute counter-clock-wise rotating spiral of magnetic particle energy within the DNA Template. The Base Code magnetic spirals normally carried in the Mother-line "Magnetic" helix draw particle scalar-frequency from Earth's Planetary Shields into the DNA Template. The Acceleration Code electrical spirals normally carried in the Father-line "Electrical" Helix draw anti-particle scalar-frequency into the DNA Template from the corresponding DNA Template of the body's Anti-particle Double in the Parallel Earth anti-particle universe". Between the Base Code-Acceleration Code Pair in each Keylon/Fire Letter of each Strand of the DNA Template there is a set of 12 smaller Vector Codes. The 12 Vector Codes between each Base Code-Acceleration Code Pair serve as the "receivers, mixers and transmitters" of the particle and anti-particle scalar-frequency that enters the Strand Template via the Base Code-Acceleration-Code Pair. When functioning properly the Vector Codes hold, mix and "build up" or accrete the particle anti-particle scalar-frequency until a critical mass of

scalar-frequency is reached. When critical mass of particle-anti-particle scalar-frequency is reached within the Vector Codes, the 12 Vector Codes translate the scalar frequency blueprints of the Base Code-Acceleration Code Pair into the "chemical clothing" of the Sugar-Phosphate molecules that form the "handrails" of the chemical DNA "ladder". At **Critical Mass Accretion**, each **Vector Code** blueprint translates into **one chemical** that becomes **one** chemical **Nucleotide Base** upon which the "**genetic alphabet**" is built.

Upon **Critical Mass Saturation** of scalar-frequency, the **Vector Code DNA Template blueprints chemically translate** into the **Nucleotide Bases** and **Nucleotide Base Pairs** that form the chemical DNA "**ladder rungs**" of which the **gene and chromosome sequences** of the Human genome are composed. If the 12-Strand DNA Template was **functioning properly**, the repeating set of 12 **Vector Codes** inherent to **each Keylon/Fire Letter** in **each Strand Template** would create the **12 Nucleotide Base chemicals** of the **natural "Base-12"** Angelic Human **genetic alphabet**. When operating properly, the **12 Vector Codes** are **active**, "turned on" or "open", allowing the **full spectrum** of **12 sub-frequency bands** from **each dimensional band** to flow **between** the **Base Code** and **Acceleration Code** in each Keylon/Fire Letter. In **chemical terms**, when the DNA Template Vector Code "**doors are open**", there is a **natural conduit** of **electromagnetic dimensionalized scalar-frequency** running within the **properly sequenced chemical conduits** of the **Nucleotide Base Pairs** that make up the genes and chromosomes. Through this intended natural order, **one full, natural chromosome** would be composed of 12 **Primary Gene/Exon Sequences** ("Coding DNA" sequences, chemical blueprints for protein/amino acid manufacture), each composed of **millions of Nucleotide Base Pairs**, and one **equal and corresponding set** of **12 Primary Intron Sequences** ("Non-Coding DNA"). **Between each Nucleotide Base Pair** that formed each "gene", in the region now identified as the "**Hydrogen Bond**" (hydrogen molecules that form a weak link between the Nucleotide Bases of each Helix that join the 2 Helix together in the "ladder" configuration), there would be a **set of chemical Nucleotide Base Pairs** called "**Turn-Stile DNA Sequences**" (presently not active) that could be "**turned off and on**".

Turn-Stile and Interface DNA Sequences and Celestaline

In the **DNA Template**, the **Turn-Stile DNA blueprint** is **dormant**, its potential held within the **Vector Code blueprints** until the DNA Template **encounters specific types** of **interdimensional frequency spectra**, such as that contained in **Star Gates**. **Interface** with **higher dimensional frequency** causes the electromagnetic **polarity** in certain **Vector Codes** to **naturally reverse**, causing the **Vector Code blueprints** to **merge**, at which time the **Turn-Stile DNA Sequence** is "**turned on**" in chemical validity. The "**Turn-Stile DNA Sequences**" in each Nucleotide Base Pair of each gene within every chromosome allows for the **particles and anti-particles** within the **12 Vector Codes** in each Keylon/Fire Letter to **fuse**. When the Turn-Stile DNA sequence "turns on" in one group of **12 corresponding Nucleotide Base Pairs** (12 "ladder rungs"), the **Base Code** and **Acceleration Code** within the corresponding Keylon/Fire Letter **merge** to form a **minute "Micro-Merkaba Field"**. As this "Micro-Merkaba Field" (set of interwoven, counter-rotating electromagnetic fields) activates in the DNA Template Keylon/Fire Letter through activation of the Turn-Stile DNA Sequence, the Turn-Stile DNA Sequence **draws together** in **fusion** into the **Hydrogen Bonds** the **12 Nucleotide Base Pairs** to which it corresponds. Through the Hydrogen Bonds, the 12 Nucleotide Base Pairs **merge** to form a **new, transient, composite silica-based chemical-elemental compound**, known among Emerald Covenant races as the **bio-chemical CELESTALINE** (se-lest'-a-LEEn"). The transient silica-based bio-chemical **Celestaline** forms first within the areas of the **Hydrogen Bonds** that link the Nucleotide Bases of each helix to form the Nucleotide Base Pair "ladder rungs" that hold the 2 Sugar-Phosphate helix into the Double Helix configuration. **Celestaline** is the "**chemical of atomic transmutation**". It is the natural chemical product that forms in the chemical DNA through **activation** of the **Turn-Stile DNA Sequences** within the Hydrogen Bonds when the particles and anti-particles in the **DNA Template Vector Codes** fuse to transform the **Base-Acceleration Code Pair** of each Keylon/Fire Letter into an electromagnetic **Micro-Merkaba Field**.

Celestaline "**turns on**" the **Intron DNA Sequences**, non-coding "Junk DNA" sequences **between** active Exon sequences in individual genes, in **individual genes**, allowing the **Intron sequences** in the

smallest gene to duplicate the Exon sequences in next largest gene, transmuting the smaller gene into a copy of the larger gene. This process allows the 12 primary gene/exon sequences and 12 corresponding intron sequences in a single natural chromosome to fuse into one long gene/Exon-intron sequence that is the replica of the gene-Exon/intron sequences in the next largest chromosome. (Gene/Exon and Intron Sequences 1-12 of Chromosome-1 merge into one sequence that is the replica of the Gene/Exon and Intron Sequence of Chromosome-2, etc.) If the DNA Template is working properly, once the first segment of Turn-Stile DNA is activated, and the first set of 12 corresponding Nucleotide Base Pairs fuse to form Celestaline within the Nucleotide Base Pair Hydrogen Bonds, an incredibly rapid chain reaction occurs in the DNA Template and chemical DNA. The gene/Exon-intron sequences in Chromosome-1 transmute to replicate those in Chromosome-2, triggering Chromosome-2 to initiate the same process with Chromosome-3, etc. Once the set of 12 natural chromosomes corresponding to 1 DNA Strand Template, and one dimensional frequency band) "fire", a sufficient amount of Celestaline is built up in the chemical DNA, to trigger the same process within the next DNA Strand Template. As each portion of the Turn-Stile DNA activates in each chromosome, in each DNA Strand Template and chemical DNA "ladder" triggered by the production of Celestaline from the chromosomes of the Strand before, yet another type of as-yet-unidentified chemical DNA sequences, called Interface DNA Sequences, emerge. When a sufficient amount of Celestaline is produced by activation of the Turn-Stile DNA Sequences in each gene and chromosome of the first 3 DNA Strand Templates, new sequences of chemical Interface DNA Sequences appear first between each chromosome. Celestaline production continues and accelerates in the DNA and cell nucleus as the Interface DNA Sequences progressively link together and merge the 12 natural chromosomes from each of the first 3 DNA Strand Templates. This forms what is called a "Bonded Chromosome", a group of 12 specific full chromosomes "bonded together" via the activated Interface DNA Sequence, to form one "super-chromosome", the "Bonded Chromosome".

As the 12 previously separate chromosomes from each of 3 DNA Strand Templates merge to form 3 Bonded Chromosomes, one for each DNA Strand Template 1-2-3, the second series of Interface DNA Sequences form between each of the 3 Bonded Chromosomes, this begins the process called DNA Strand Braiding. In DNA Strand Braiding, the 2 Helix of the chemical DNA sequences corresponding to Double Helix DNA Strand Template-1 de-polarize and merge into a transient, singular electrical anti-particle helix called a "Conjugate Phantom". (Note: The term "Conjugate" refers to the passing of a chemical DNA sequence that emerges from one Strand Template into braiding or bonding with a corresponding DNA sequence emerging from the Strand Template that is next in sequence within the dimensional scale. The term "Phantom" refers to the fact that in this process of DNA Strand Braiding, or "Strand Conjugation", the DNA sequence being transferred appears to "unravel" in structure as it de-polarizes to form a single anti-particle helix. As the DNA sequence de-polarizes and seemingly 'de-manifests" from its original position in the DNA chain, it leaves behind a transient, or temporary "partial imprint" or "phantom" of its former structure within the chemical DNA sequence from which it transferred. Once formed, the Conjugate Phantom (single de-polarized electrical helix), then electromagnetically bonds to the Hydrogen Bonds (Hydrogen molecules that link Nucleotide Bases into Base Pairs on the "rungs" of the DNA "ladder") of the magnetic particle helix of the chemical DNA sequence corresponding to the Strand-2 Template. As the chemical DNA sequences corresponding to DNA Strand Templates 1 and 2 bond, the same process is set in motion between DNA Strand Templates 2 and 3, etc. As the levels of Celestaline continue to increase, a critical mass of Celestaline is manufactured within the Hydrogen Bonds to sufficiently transfer the Celestaline chemical blueprint from the cell nucleus into the cells via messenger RNA, as chemical instructions for production of new, highely complex amino-acid chains and proteins. The new protein "chemical building blocks" produce a variety of different chemical-hormonal "Celestaline carriers". Through the chemical-hormonal Celestaline carriers, Celestaline blueprint is transferred into the bloodstream and all chemical-hormonal systems of the brain and body.

As the Celestaline blueprint enters the blood and hormonal systems, a rapid succession of bio-chemical changes occur within the glands, organs, nervous system, brain and blood. Briefly, the Celestaline blueprint causes chemical-elemental interactions to occur within the nucelus of red blood cells and within certain fluid and hormonal secretions. The chemical-elemental interactions between specific body fluids and the Celestaline blueprint in the body cells cause the temporary formation of minute "Blood Crystals", "Hormone Crystals" and transmutation and crystallization of portions of the body's water molecules into a silica-like, radioactive, crystalline element called CELESMA (sel-ez-ma-meaning "of 5-12 Celestaline conversion"). Celesma, or Celesmaic (se-ez-mA'ik) Crystal, as it is often called, is a transient Super-luminal Trans-harmonic ELEMENT. The spin rate of Celesma atoms is faster than the speed of light, making the substance "Super-luminal" and it cannot be chemically split into simpler substances, which qualifies it as an element. Celesma forms only through the process of internal, nuclear fusion between specific particle and anti-particle pairs from two separate 3-dimensional systems, matter Density Levels or "Harmonics" of matter density; thus the element Celesma is "Trans-harmonic". The element Celesma itself is transient in that it breaks down into unstable sub-atomic units shortly after its formation during the cellular transmutation process, but it leaves behind a "Phantom Residue" after a biological form has completed its physical transmutation out of Density-1 (later discussed). The formation of the minute "Blood, Hormone and Celesmaic Crystals" within the body indicates that the quantity of Celestaline blueprint transported by the chemical-hormonal "Celestaline carriers" has reached a critical mass within the body cells, through which the processes of internal atomic fusion and molecular transmutation will begin. As the Celestaline blueprint reaches critical mass within the blood, fluids and hormonal systems, and a critical mass of Blood, Hormone and Celesmaic Crystals form, the atomic structure of the body enters a phase of "metamorphasis".

The minute, interdimensional atomic structure of the chemical Celestaline is composed of a set of complex, "staggered" particle/anti-particle sub-atomic units that at different phases of the chemical's very short life, resemble both "waves" and "particles". In either phase, the sub-atomic units of which Celestaline is composed have "spins rates" that are faster than the speed of light in this dimension, which makes the atomic structure of Celestaline "Super-luminal". As Celestaline has an atomic structure that move faster than the speed of light, the chemical itself cannot be observed by present means of detection, but the effects of its existance upon identified atomic structure can be physically observed under the appropriate conditions. Once a sufficient amount of the blueprint for the Super-luminal chemical Celestaline is transferred into the internal organ systems of the body via chemical-hormonal "Celestaline carriers", the atomic structure of the body changes. Due to the super-luminal interaction between the electromagnetism inherent to Celestaline and the "postive" and "negative" electrical charges inherent to the protons(positive charge particles in cell nucleus with neutrons) and electrons(negative charge particles outside of cell nucleus corresponding to protons within nucleus) of cells, the usual behavior of protons and electrons is altered upon interface with sufficient quantities of Celestaline. The neutrons in the cell nucleus, which usually bear no charge, take on a brief, transient "negative" charge that corresponds to the sound-wave spectrum of the dimension above that in which the interface is taking place. The fleeting "negative-neutron" charge is stronger than the cumulative positive charge of the photons in the nucleus, which causes the protons to reverse their charge and "turn into electrons" within the nucleus of the cell. These interactions within the cell nucleus cause the negatively charged electrons outside of the nucleus to reverse their charge to positive, becoming "protons" which are drawn into the nucleus via the "negative-neutrons". As this occurs, the Celestaline enters its brief super-luminal particle phase, causing the "negative-neutrons" to reverse their own charge to a "positive" charge. As these electrical interactions are occurring in a nearly simultaneous order within each body cell, the protons and electrons of the cells merge and fuse in very specific sequence with their corresponding anti-particles, as their own "charge" and axis spin angle and rate reverses to duplicate that of their anti-particles. When particles and anti-particles fuse within each cell, they do not "annihilate" each other, as would be the case without the presence of Celestaline and its inherent fusion-sequencing instructions.

Once proton and electron particles and anti-particles fully fuse, following the impeccably specific sequences and correspondances that are set and directed by the super-luminal Celestaline blueprints

via neutrons, the particle/ anti-particle "packages" electrically bind to the super-luminal Celestaline particles. The super-luminal Celestaline particles then revert to "wave phase" transmuting the particle/anti-particle packages also into wave-form. The Celestaline chemical creates a super-luminal carrier wave known as the "Celestaline Wave", "Morphogenetic Wave" or the "Mahanc Wave" ("Mahanc" is derived from the term "Maharata", the audible sound-tone translation of the frequencies that compose the Density-4/Dimension-12 Pre-matter field), within which the particle-anti-particle packages are suspended. Due to the Celestaline sequencing directives which allow the particle/anti-particle packages in the nucleus to electrically bond to the super-luminal Celestaline particle, the fused particles and anti-particles temporarily enter Density-4-Dimension-12 Pre-matter as minute columnar scalar-waves, a state of suspended electromagnetism known as "Hydro-plasmic Liquid Light" (or "super-luminal hydro-space"). Entering the Hydro-plasmic state allows the fused particles and anti-particles to retain their original form blueprint in the form of a scalar-grid Template. Portions of the cells' atomic structure that were not drawn into the nucleus, which cannot fully bond to the Celestaline in its super-luminal particle phase, undergo particle/anti-particle fusion in the commonly identified manner experiencing "annialation" of their original form. Upon annialation, the particles and anti-particles break down to form transient, minute, radioactive particle-waves called "tracers" (composed of photons, and residual muons (lighter elementary lepton neutrino particles) and mesons (sub-atomic hadron units made of 2 quarks).

In the nano-moments before full transmutation of the body, a "Phantom CelesmiacResidue" of the Celesma element (Celesmatic Crystals) is excreted from the body cells and passed out of the body's skin as a crystalline liquid, just before bodily "de-manifestation". The Celesmiac Residue then turns to an extremely fine, bluish-white crystalline power upon contact with atmospheric oxygen, the pure Celesmiac Residue bluish-white power was frequently referred to as "Chen'chol-E-A -DU" (English translation "Star Dust Blue") in ancient times. As the body completes atomic transmutation, the residual muons, mesons and photons left behind from portions of the cells that did not enter the nucleus for fusion with the Celestaline Wave, bond to the atoms of the Celesmiac Residue, turning the bluish-white power to a whitish-yellow-gray hue. The tangible residue left behind by a body that has undergone atomic transmutation is a compound substance made of the Celesmatic Residue and the photonic-muon-meson "by-product" left behind by the body cells themselves; this fine, crystalline, whitish-yellow-gray powder is technically called Celestron Residue or Celestron Powder. Celestron Powder is a temporarily radioactive chemical compound "by-product" composed of bonded silica, carbon, hydrogen and several metalloid atoms organic to the Celesmiac Residue, to which the muons and mesons remaining from portions of the body cells that did not transmute are bound.

So what HAPPENS once a body undergoes atomic transmutation through natural activation of the Turn-Stile and Interface DNA Sequences and formation of Celestaline Wave that carries the atomic blueprint into the D-12 Pre-matter Hydro-plasmic Liquid Light state? When the process of atomic transmutation is set in motion by the activation of the Turn-Stile and Interface DNA sequences and resulting formation of Celestaline and DNA Strand Braiding, it happens so quicky throughout the entire organism that the physical body appears to "instantly disappear". What happens to the personal identity and consciousness once the "body disappears" through the organic chemical DNA processes previously described? As the DNA Template "Fire Letters" the 12 Keytons per Strand Template) awaken or "fire" and the chemical DNA assembles its Turn-stile and interface Secuences, distinct changes also occur throughout the Chakra, Axia-tonal Line, Meridian Line, Kundalini and "Auric Field" systems of the personal "subtle-energy-body"anatomy. The "subtle-energy-body systems" (which are detailed in the Kathara Bio-Spiritual Healing System Certificate Progam ™), are the "energy relay systems" that circulate interdimensional frequency between the physical body and the Kathara 12-Tree Grid Core Template, DNA Template chemical DNA and atomic structure. The changes that set in motion the physical atomic transmutation processes, which begin with stimulation of the Vector Codes in the DNA Template and resulting activation of the chemical Turn-Stile DNA, begin with changes that first occur in the subtle-energy-body systems. The process of frequency stimulation by which the Vector Codes in the DNA Template activate, and by which the DNA Template electromagnetically transferes its active blueprint into the chemical DNA blueprint is called the Transduction Sequence.

In the Transduction Sequence, incoming frequency passes from the "external" Dimensional Unified Fields of energy (Universal Life Force Currents), into the embodied Kathara Grid Template, then into a portion of subtle-body anatomy called the personal "Shields" (the personal equivalent to Earth's Planetary Shields). The personal Shields are the set of four 3-dimensional fixed scalar-wave templates (like the DNA Template; the Shields are composed of Keylons, Partika and Particum units) that transfer frequency from the Kathara Grid Core Template into the DNA Template and related systems. When specific frequency enters the Shields, the Shields progressively activate (their dormant scalar-wave groups "turn on"). When activated, each of the 4 Shields forms a horizontal, rotating disc of energy that runs through and extends out around the body, each disc in a different location. One Shield activates on top of the head (Density-3 Teunc Shield), one at chest (Density-2 Doradic Shield), one just below the navel (Density-1 Terlunc Shield), and one 12" below the feet (Density-4 Mahanc Shield). Each Shield corresponds to a set of 3 DNA Strand Templates, as the Shield activates from frequency sent by the Core Kathara Grid, the corresponding portions of each DNA Strand Template also activate, carrying the frequency on its way into chemical and atomic translation. As each Shield and corresponding DNA Strand Template activates, a series of electromagnetic energy-circulation structures within and surrounding the body also come into activation; these structures are called Merkaba Fields. As previously described in this chapter, the 12 Vector Codes in each DNA Keylon/Fire Letter in each DNA Strand Template activate to form "Micro-Merkaba Fields" in the DNA Template. As this occurs on the Micro level, larger Merkaba Fields are also coming into activation within the subtle-energy-body systems. A set of small Merkaba Fields, called Dimensional Merkaba Fields (bigger than the "Micro-Merkabas" in the DNA Template), activates within and around the body and if at least 3 DNA Strand Templates (one Shield) come into full activation a larger 3-dimensional Harmonic Merkaba Spiral activates around the body.

The internal and natural external Merkaba Field structures pass frequency from the DNA Template into the Auric Field levels surrounding and permeating the body, then into the vortex structures of the Primary Chakras (there are 15 Primary Chakras). From the corresponding Primary Chakras and related structures, frequency passes into the nucleus of cells and into the chemical DNA. This Transduction Sequence takes place at all times to some degree; it is the method by which Universal Life Force Currents circulate between the body and the environment. However, in order for the physical body to achieve DNA Strand Braiding, production of Celestaline and atomic transmutation, the DNA Template, chemical DNA, Shields and smaller Dimensional Merkaba Fields must fully activate to form the larger 3-dimensional Harmonic Merkaba Spirals. When fully and properly activated, each of the 4 Shields and corresponding set of 3 DNA Strand Templates (and chemical DNA translations) form one large 3-dimensional Harmonic Merkaba Spiral around the physical body. For atomic transmutation to occur, the 4 Harmonic Merkaba Spirals progressively merge to form the "inter-dimensional electromagnetic transport field" known as the Merkaba Vehicle. The Merkaba Vehicle is the form that the identity and consciousness adopt or "turn into" during the process of atomic transmutation. If it were not for the electromagnetic-wave-form of

the Merkaba Vehicle (and the scalar-wave Shield "blueprints" for the Merkaba Vehicle) the units of dimensionalized frequency of which the personal consciousness is composed would fragment into the Dimensional Unified Fields Fields. Upon fragmentation of the consciousness the identity would loose all focus of individuation self-sentience and memory, returning to undifferientiated units of conscious energy within the Unified Field in need of re-starting evolution this is what occurs in spontaneous combustion and related phenomena.

During natural atomic transmutation the conscious identity takes on the form of the Merkaba Vehicle, which holds its individual integrity and conscious awareness intact through the atomic transmutation process AS the Merkaba Vehicle, the conscious identity still "thinks feels and perceives" through instantaneous Direct Cognition and utilizes Directed Intention and Projection of Consciousness to direct the function of the Merkaba Vehicle Through Directed Intention the conscious identity AS the Merkaba Vehicle holds in conscious awareness the destination to which it desires to transport. The scalar-wave mathemetical instructions generated by this thought-intention instantaneously direct the Merkaba Vehicle to the desired destination via the natural interdimensional passages of the Planetary Galactic and Universal Star Gate System Once arriving at the desired location, the conscious identity AS the Merkaba Vehicle will adopt the natural space-time-dimensional frequency co-ordinates of the new location The atomic strcuture of the body form which has been held within the Celestaline Wave as a D-12 Hydro-plasmic columnar-wave blueprint, down-scales in frequency to "re-manifst" in the new location As the atomic strcuture "down-scales" it adopts the natural Angular Rotation of Particle Spin and matter Density Level inherent to the matter base of the environment in the new location The very real experiences of biological space-time travel Star Gate passage and full bodily spiritual "Ascension" exactly the same Universal Physics Dynamics of atomic transmutation via the Merkaba Vehicle is utilized The atomic structure enters Celestaline Wave suspension and the consciousness, as a field of aware energy units, takes on the form of the Merkaba Vehicle, through which thought-intention is used to direct transport to the desired destination.

With full mastery of the personal 12-Dimensional Merkaba Vehicle (called the "Christiac" or Mahunta Phase Merkaba Vehicle) the identity has the ability to enter or leave its biological form at will A (D-12) *Mahunta Phase* Merkaba Master can physically manifest for as long as desired within any one, or numerous simultaneous, space-time co-ordinates, in any one or all of the 4 Density Levels of matter (12-Dimensions) or can de-manifest to "become Merkaba" within the D-12 Hydro-plasmic Liquid Light A (D-15) *Rahunta Phase* Merkaba Master can completely de-manifst the biology and the D-12 Hydro-plasmic Liquid Light body and "turn into Merkaba" to become a Breneau-Rishi, for exploration of the Primal Light Fields of Density-5. Mastery of the Merkaba Vehicle is complete, internally focused, conscious mastery over the biological genetic code and the multiple dimensions of personal spiritual consciousness, neither of which can be achieved without sequential and natural activation of the personal DNA Template As we progress in our exploration of the Merkaba Vehicle, we will begin to comprehend the true Horror of Human History and the real root of historical and contemporary Human Suffering As we discover how the Angelic Human and Annunaki-hybrid DNA and biology were intended to function, and the majestic abilities freedoms and potentials both species were intended to enjoy, we can begin to fathom precisely the extent of the travesty has been visited upon us through the Checkerboard DNA Mutation We will also begin to glimpse the potential joys freedoms and victory that await both Angelic Human and Anunnaki-hybrid races when the Homo-Sapien-2 mutation is healed. Through our genetic healing via internal DNA Template Bio-regenesis our spiritual healing will also occur as Angelic Humans and Anunnaki-hybrids reclaim their respective Divine Right Destinies and blessed personal relationships to the ONE-Source-God from the clutches of covert Fallen Angelic manipulation and externalized psudo-god personifications (Note The Anunnaki-hybrid form houses both Anunnaki and Drakonian-Reptilian-Insectoid souls, therefore it is the earthly biological strcuture through which members of both Fallen Annu-Elohim and Fallen Seraphim souls can re-evolve the 12-Strand DNA Template to achieve "Christhood" and restore their original connection to the Universal Divine .

DNA, Fire Codes and DNA Seals

In 8AC's dormant aspects of the Human Silicate Matrix come into activation in response to the progressively accelerating frequency spectra running through Earth's grids via opening Star Gates. Between each pair of Human Double-Helix DNA Strand Templates, there is a composite scalar-wave program called a FIRE CODE that serves as a frequency seal between each pair of DNA Strands. The 12 FIRE CODES that exist between the 12 Double-Helix Strand Templates contain the mathematical instructions that govern the Star Crystal Seals within the Human body which keep the Prima Life Force Kundalini-Maharata Currents of the embodied levels of consciousness and atomic matter Density levels separate. Fire Codes activate in response to release of the 12 Planetary Star Crystal Seals (PSC-Seals) when a PSC-Seal releases/initiates, the DNA Template Fire Code corresponding to the frequency program of the PSC-Seal also initiates. DNA Fire Code activation begins the organic process of DNA Strand Template BRAIDING, which in turn activates dormant portions of the chemical Intron and Spacer "Junk DNA" and previously "Turned Off DNA" sequences within the DNA Hydrogen Bonds. Activation of dormant "Junk DNA" allows the chemical translation of the 12-Strand DNA Template to progressively Braid into a singular Double-helix strand that contains the chemical arrangements of the 12 Double-Helix Strand DNA chain, which chemically prepares Human molecular structure for atomic transmutation as the body progressively enters the natural trans-dimensional STATE OF MERKABA.

Lotus Arc Sets & Base Pulse Rhythms

Lotus Arc Sets are sets of electro-magnetic Arcing Pillars of Ecka-Amoraea Standing-Wave Current that arc through the Signet Centres of Kathara Grid Templates forming Standing-Wave "Lotus Arc Pillar Sets". "Lotus Arc Sets" exist within every Kathara 12-Tree Grid: the many embedded Kathara Grids of the Ecka-Veca Body imply many embedded Lotus Arc Sets. The Lotus Arc Sets pulse Off & On, circulating Pulse-Sparks of polarised Amoraea Flame Living Light Units between the Ecka Centre Amoraea Flame of the Ecka Body and Seed Atoms and Kathara Grid Templates of the Veca Body Systems.

The Lotus Arc Sets of the Ecka-Veca Body expand and contract *Le-eTOR-A* and *Sha-LA-a Living Light Ecka-Amoraea Flame Pulses* from the *Le-eTOR-A* and *Sha-LA-a* Chambers into and out of the Ecka-Veca Body generating the *Base Pulse Rhythm* (Partiki Phasing Rhythm) Time Wave (Transfiguration Cycle) that sets the "Heart-Beat" (= fixed pulse points of *Hon'-a-til-E-a* 'and *Athon-a-til-E a' Spark* generation) and "Breathing Rhythm" (= Transfiguration rate. Energy exchange rate, Manifestation, De-manifestation rate) of the Ecka-Veca Body. The "Heart-Beat" and "Breathing Rhythm" of the Ecka-Veca Body sets the natural Heart and Breathing rates within the Density Body Systems, including those of the physical body.

Lotus Breathing

Lotus Breathing Technologies represent the organic breathing function of the Eternal Life Organism, through which Life-Force Current is perpetually renewed. *Sho-na* Transposition Field Miasmic Clusters within the Veca Body can block and distort organic breathing and heart-rate functions, preventing the Lotus Arc Sets from circulating Life-Force Currents into the Veca Body. Conscious Lotus Breathing, & related technologies, initiate clearing of the Sho-na Miasm Field through which the biological connection to the *Eternal Life Living* Lotus Arcs can be progressively re-established to restore Eternal Life potential to biological form.

The Lotus Flow

Lotus breathing technologies begin with activation of the "Lotus Bud" in the Monadic Core of the body followed by "Lotus Seed Activation" to re-open long-dormant 6, 12, 24 & 48 Point Lotus Breathing Channels within the Multi-dimensional anatomy.

Activating the Lotus Seed

- 24 MerA breaths initiate activation of the first 6 Lotus channels called the Loti Channels, opening the 6-Point Loti Lotus Flow.
- 24 SirA breaths initiate activation of the 2nd Lotus Channels called the LotE Channels, opening the 6-Point LotE Lotus Flow.
- 48 MerU breaths initiate activation of 6 of 12 Lotus Channels called Lota Channels, opening a 6-Point Lota Lotus Flow through which the 6-Point Loti & 6-Point LotE can merge to form the 12-Point Lotus Breathing Channel of the Lotum Veca Crystal Body. Activation of the Ecka-Heliotalic subharmonic currents within the Merkabic circulatory system via Etheric-Ethos Flame Seal Centres & Hara Centre initiate the subharmonic activation of the Primary Density Lotus Arc Sets in the Lotum Crystal Body. The Lotus Seed breathing technique opens the 12-point Lotus Flow channels of the Lotum, which allow *Sha-LA-a* living light units from the activated Density Lotus Arcs to begin circulating within the Merkabic circulatory system, Shields & Seed Atoms, amplifying the bi-polar Bi-veca Ecka-Heliotalic subharmonic currents with Tri-polar Tri-veca *Sha-LA-a* Light units, expediting Ecka-Veca Flame Body activation in preparation for opening the *Sha-LA-a* & *Le-eTOR-A* Ecka Light Chambers of the Ecka-veca Body to access the 48-Charge *Le-eTOR-A* Ecka Heliotalic currents, the first step toward accessing the powerful Double Tri-veca *Le-eTOR-A* currents that are needed to clear & transmute activated *Sho-na* Transposition filter miasmic crystals from the Veca Lotum Crystal Body.

Crystal Body Templates and Seed Flames

The Seed Atom Flames, Templates, Shields and Primary Amoraea Radiation Chambers of the Ecka-LotA Crystal Body ... The Interwoven Shield and Template Structure of the Ecka-LotA Crystal Body, the Ecka Base Shield and the *Le-eTOR-A* & *Sha-LA-a* Amoraea Flame Seed Atoms and Amoraea Radiation Chambers.

Purpose: To provide sufficient knowledge to engage Kathara Level-2, Techniques 1, 2, & 3 preparing us to utilise other intermediate, and advanced, Kathara 2 & 3 Crystal Body Lotus Healing Technologies; understanding the Anatomy of the Personal Ecka-Veca LotA Body Templates and Eternal Life-Force Le-eTOR-A & Sha-LA-a "Standing Flames". Prepares us to understand, and utilise, the anatomy & dynamics of the personal Ecka-Veca Holographic Crystal Body that manifests through, and upon, the Ecka-Veca LotA Template in preparation for advanced, direct access, Crystal Body Lotus Applications featured in the Kathara 2-3 Programme. Direct Crystal Body Lotus Healing techniques are necessary to free the personal Multidimensional anatomy from Sho-na Transposition Filter Miasmic Crystals through which the Imprint for Disease is embedded & held within the DNA Template, Axiom Lines, Crystal Body and biological form.

Section-7 Introduces the anatomy & dynamics of the Immediate Transcendent Phase of the Manifestation Transduction-Sequence by which the Eckasha Body initiates creation of the Ecka-Veca Body through "down-stepping" of the Eckasha Body Centre Amoraea Flame Seed Atom, creating the Le-eTOR-A, Le-AdOR-A & Sha-LA-a Amoraea Ecka-Veca Body Seed Atom Sparks from which the Ecka Base Shield & embedded Ecka-Veca Body Kathara Grid Scalar-Shield-Standing-Wave Templates & Shields emerge as the Eternal Living Light Foundation upon, & within which, the personal Ecka-Veca Holographic Crystal Body, & its inherent multidimensional anatomy & tangible manifestation are created & perpetually sustained.

Understanding Ecka-Veca Body creation reveals the significance, tangible function, & specific structures of the Ecka-Veca Body assisting us to comprehend the meaning, purpose & function of the Amoraea Eternal Flame, Ecka/ Heliotalic Currents the Le-eTOR-A, Le-AdOR-A & Sha-LA-a Chambers, Flames & Sparks utilised in Kathara 2-3 Healing applications while extending our knowledge, & thus potential technical aptitude, in utilising multidimensional anatomy & healing applications. Section-7 reveals the creation of the Ecka-Veca Body Crystal Body Template through which we become acquainted with Ecka-Veca Seed Atoms, the Ecka Base Shield & the Core Kathara Templates of the Reuche Core, Lotus Arc Sets, Le-eTOR-A & Sha-LA-a Chambers & Crystal Body Lote, Loti Lota, Lotum & LotA of personal Ecka-Veca body anatomy through which the Ecka-Veca LotA Crystal Body perpetually cycles into Being, & through which we can better understand the significance & function, of the multidimensional anatomy levels that lay closer to our present state of Immediate, tangible, manifestation, providing us with the knowledge necessary to heal our anatomical levels pertaining to each phase of the Manifestation-Transduction-Sequence in order to progressively re-awaken the organic imprint for health & restore the Eternal-Life Potential to our manifest form & consciousness.

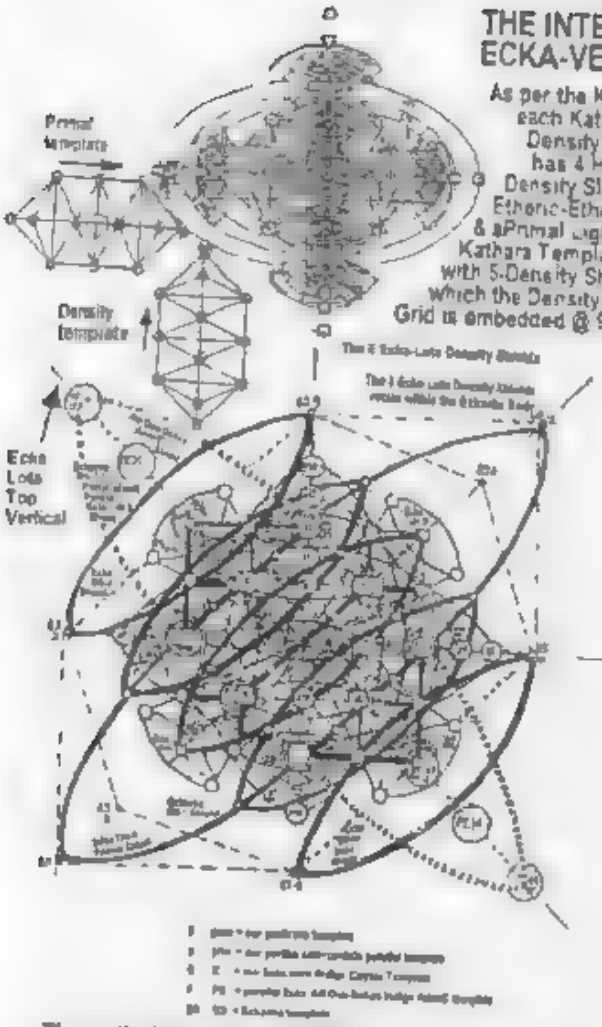
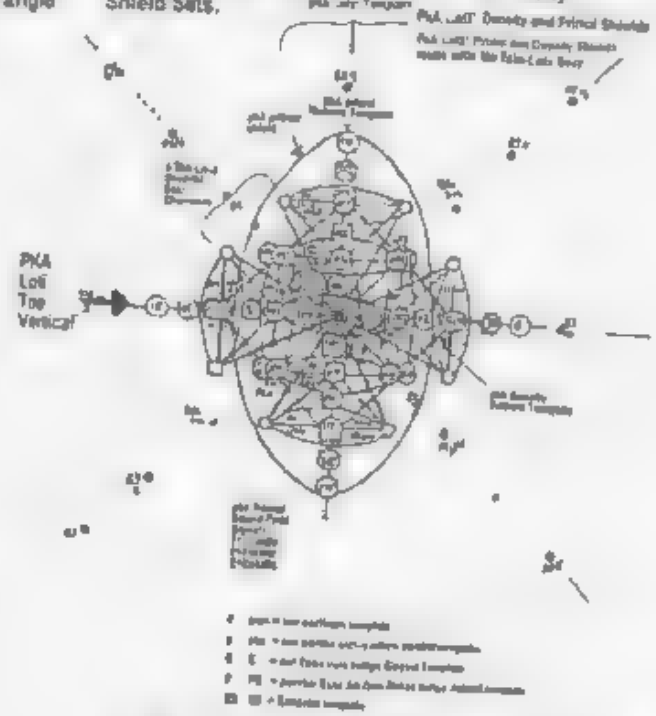
THE INTERWOVEN TEMPLATES & SHIELDS of the ECKA-VECA LotA HOLOGRAPHIC CRYSTAL BODY



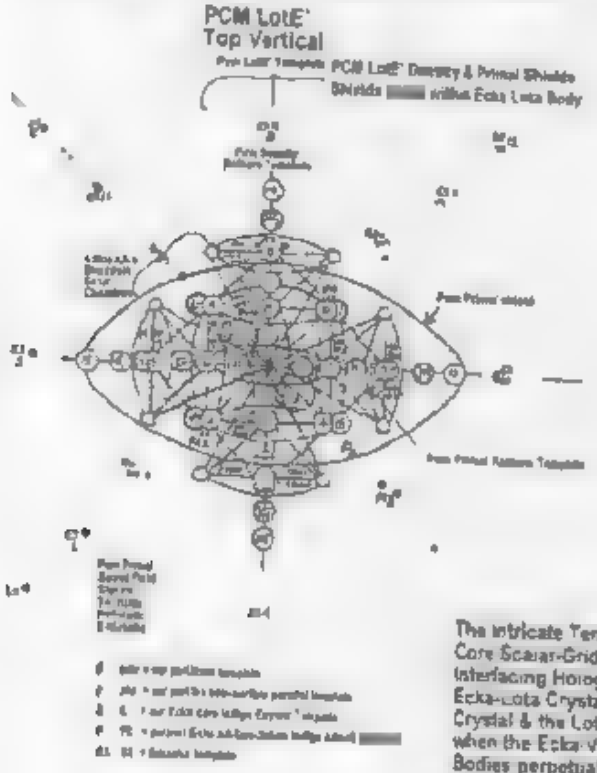
As per the Krist Code each Kathara Density Template has 4 Horizontal Density Shields & 1 Etheric-Ethos Shield & aPrimal Light-Sound Kathara Template also with 5-Density Shields in which the Density Kathara Grid is embedded @ 90° angle

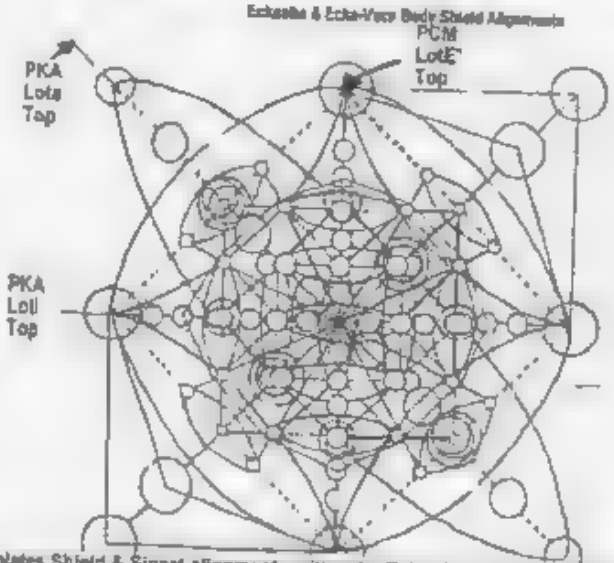
Within the Ecka-Veca Crystal Body Template the Ecka-Lota Template has one Set of embedded Prima-Density Shields that together form the full Lota Crystal Body Template. Within the Lota template both PCM LotE & PKA Loti Templates also have their Prima Template Shield Sets. The embedded Templates of the Lota, LotE' & Loti together form an intricate Template of 6-interwoven Kathara Grids (3 – Density, 3 – Primal) each with their own Density Shield Sets.



The vertical centre axis of a Kathara Grid is called the "Staff", the horizontal axis crossing through the Seed Atom Centre Point is called the "Rod". Within the Ecka-Veca Body template the Staff's of the Lota, LotE' & Loti are aligned on 3 different axes in relation to each other; Lota – diagonal, Loti – horizontal, LotE' – vertical.

The 3-Axes alignment of the Lota, Loti & LotE' Centre Staff's creates specific alignments of the Kathara Grid Signets within the Ecka-Veca Body Template. The Signet alignments become specific pathways of energy-flow-current when the Ecka-Veca Body Template is set in motion. The interwoven, embedded Lota, Loti & LotE' Templates also create an intricate system of Density and Prima Shield anatomy in the Ecka-Veca Body Template.





The intricate Templates Shield & Signet alignments within the Ecka-Veca Body Template create the Core Scalar-Grid structure of interacting Standing-Waves upon, within and through which the 3-Interlacing Holographic Crystal Bodies of the Ecka-Veca Body form. The Lota Template forms the Ecka-Lota Crystal Body within the Ecksha, the Veca Loti Template forms the Veca PKA Loti Crystal & the LotE' Template forms the PCM LotE' Crystal Body within the Ecka-Lota Crystal, & when the Ecka-Veca Crystal Body System is functioning naturally the Lota, Loti & LotE' Crystal Bodies perpetually circulate Life Source & Life Force Currents between them to continually generate Sha-LA-a & La-aTOR-A Living Light Currents, through which the manifestations within the Crystal Bodies are perpetually & eternally sustained. The Ecka-Lota, PCM LotE' & PKA Loti Crystal Bodies are together referred to as the *"LotA Crystal Body of the Ecka-Veca Body"*.

SECTION EIGHT

The Living LotE: Anatomy of Eternal Creation

The Reuche Spindle, Rod & Staff, Lotus Arc Sets, Crystal Body Light Grid, Stair-Step Vortices, Shield Clock Templates, 24 LotE Lines, TiL-E-'a Refraction Screen, 12 Eiros-Axiom & 12 Ethos-Meridian Line Sets, and the Miodic-Diodic Vortex Grid.

Purpose: To introduce the *Intermediate & Pre-externalisation Phase* Anatomy, *Eternal Creation Process, 8 Stages and 5 Phases of Densification* & *Formation* of the *Etheric Blueprint Radiation Matrix* within the Ecka-Veca Crystal Body - & - to provide sufficient knowledge to engage Kathara Level-3 Techniques 1, 2, 3 for Ra Centre Activation and preparation for use of Lotus Run technologies.

Section – 8 introduces the anatomy & dynamics of the Intermediate to Pre-externalisation Phases of the Manifestation-Transduction Sequence through which the Ecka-Veca Body Templates begin the process of "filling out in energetic form" to become the tangible structures of Multi-dimensional anatomy within which the manifestation of matter-form & "physicality" take place. In a sequential series of *8-Stages* within the Manifestation-Transduction-Sequence Cyclic Pulses of Radiation Sparks are released from the Ecka-Veca Body Seed Atom Sparks into the Density Shields of the Ecka-Veca Body Templates. Through the energetic interplay between these Pulses of Radiation Sparks within the intricate Standing-Scalar-Wave Structures of the Density Shields *Spark-Pulse-Currents* of Living Light frequency are formed within the Density Shields. The Spark-Pulse-Currents further interact with each other, "stepping down" through *5-Phases of Densification through which the* interior and exterior anatomical structures of the Crystal Body are created, bringing the Crystal Body to life within the Ecka-Veca Template.

Section – 8 'Overviews' the *8 - Stages* of the Manifestation-Transduction-Sequence, *5 – Phases of Densification*, and corresponding structures of Multi-dimensional anatomy by which the *PCM LotE* Ecka-Veca Body template is "brought to life" through creation of the self-sustaining *Intermediate & Pre-externalisation* Phases of Multi-dimensional anatomy. The Ecka-Lota and PKA-Lota Crystal Body Templates simultaneously undergo the same *8 – Stages & 5 – Phases* with the PCM-Lota, and the entire Crystal Body structure is "brought to life" as a *Living Organism* once the circulation of Spark-Pulse Life Force Currents have been set in to motion.

Understanding the processes by which the Scalar-Standing-Wave Shield templates develop to become intricate living anatomy structures, through and within which "physical" manifestation takes place reveals the *literal process of Eternal Creation* itself. Once the processes of Spark-Pulse-Current Circulation are set in motion within the Ecka-Veca Template, the processes of this "First Creation" are perpetually repeated as "Creation Continually Re-creates Itself" through the eternal circulation and regeneration of Spark-Pulse-Currents within the mathematical Krist Code Programme held within the Shield Templates. It is through the perpetual circulation of Spark-Pulse-Currents that the anatomy of the *intermediate & Pre-externalisation Phases* of the Manifestation-Transduction-Sequence is continually brought into being: this is the *Multi-dimensional anatomy structure through, and within, which all manifestation* is born, and thus the processes of Spark-Pulse-Current-circulation represent not only the processes by which "Manifest Life-forms" are created, but are the literal processes by which all "Matter, Space & Time" are created.

Section – 8 introduces this process of *Eternal Creation*, & reveals the anatomical structures of the *Reuche Spindle, Rod & Staff, Lotus Arc Sets, Crystal Body Light Grid, Stair step Vortices, Shield Clock Templates, 24 LotE Lines, TiL-E'a Refraction Screen, TiL-E-'asphere Lens, 12 Eiros-Axiom & 12-Ethos Meridian Line Sets, the Lotosphere, Photosphere, Ovosphere & Hovasphere, the Miodic-Diodic Vortex & Lotus Point Grids & the Living Light Ethenic-Atomic Spark-Pulse Currents* through which the *Density Body Ethenic Blueprint of Living Light* form *within the Ecka-Veca Template*. Through understanding specific processes of Crystal Body Eternal Creation we can better understand the anatomical structures & processes inherent to our personal Multi-dimensional anatomy, thus better comprehending the Nature, Cause & Remedy of Dis-ease conditions within the manifest body systems.

4. The counter rotating cw Density 4-1 and ccw Dn-4 Ethos Shield spins causes the 12 standing lines of the Staff Reuche Spindle to polarize, forming 24 electromagnetic standing Reuche spindle lines, 12 spinning cw with the Density 4-1 shields, 12 spinning ccw with the Ethos DN-4 Shield.

5. The counter rotating sets of vertical Staff Spindle lines creates a rotating Se'Ur pillar of cw, ccw em force around the stationary standing center Staff D-13 Se'Ur pillar Staff, this is the Staff Spindle Pillar.

6. The Rod central D-13 Se'Ur pillar undergoes the same "spindling" process forming the horizontal Se'Ur pillar of em force spinning around the stationary D-13 Rod Se'Ur pillar. This is the Rod Spindle Pillar.

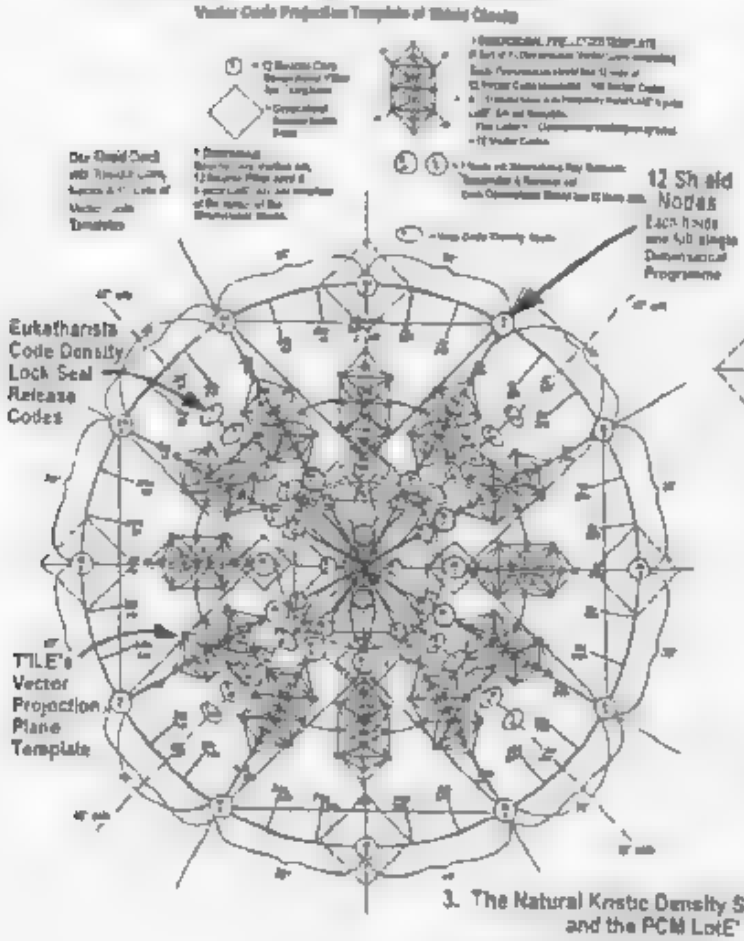
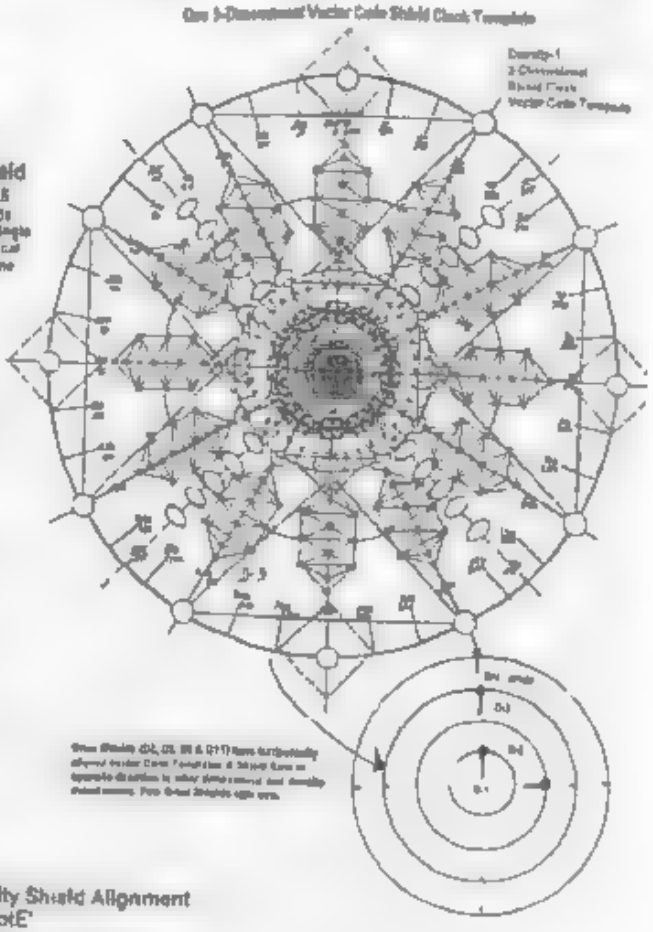
SHIELD CLOCK PROJECTION TEMPLATE of the ECKA-VECA LotA CRYSTAL BODY

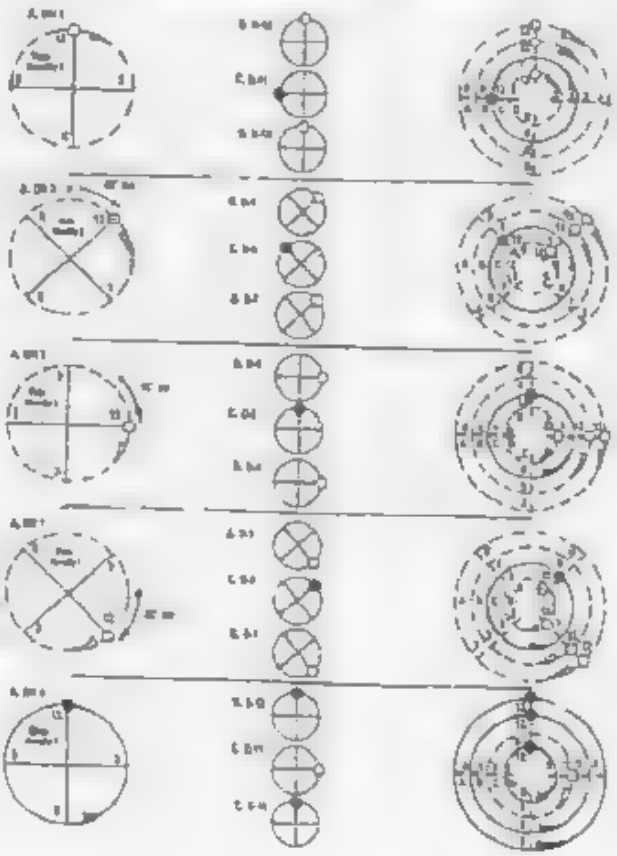
1. A Singular Dimensional Shield Clock Template



2. One Dimensional Density Shield Clock Template



3. The Natural Kristic Density Shield Alignment and the PCM LotE'



The Density & Dimensional Shields called "Shield Clocks" are Scalar-Standing-Wave Discs composed of an intricate Network of Keylon (Standing-Wave) arrangements that hold a replicate of the mathematical Krist Code programmes of the Dimensional & Density Fire Letters and Fire Letter Sequences (dimensional sub-frequency band standing-waves that form the 12 Fire Letter Sets of which each Dimension is composed) as they exist within the Ecka Base Shield.

Each Shield Clock serves as the *Projection Template* through which Primal Life Force and Ecka Life – Source Currents flow (pulse), carry the Single-Phase Shield programmes into Multi-Plane manifest expression.

Activation of Fire Letters and Code Sets allows the corresponding multi-dimensional Life-Force & Life-Source Currents to begin circulation between the Ecka Base Shield and the various manifest aspects of the Ecka-Veca Crystal Body and its physical expression.

The Density Shield Clocks of the LotA serve as the Immediate Template through which the TILE's Sphere Refraction Screens of the LotA Crystal Body are formed.

The Density Shield Clocks serve as "Frequency Mixers" that polarise and re-combine the Dimensionalised 15 Ray Currents of Veca Density and Primal Systems.

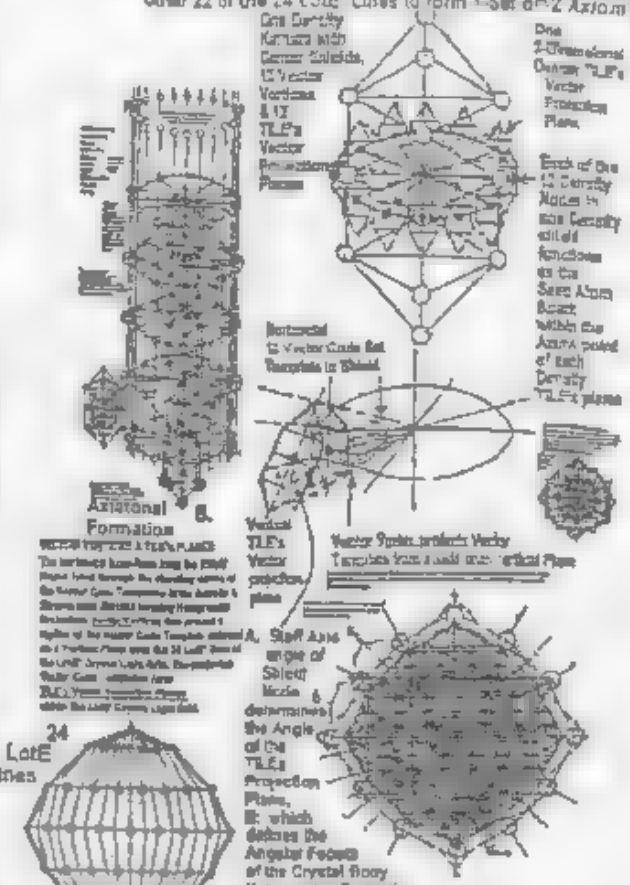
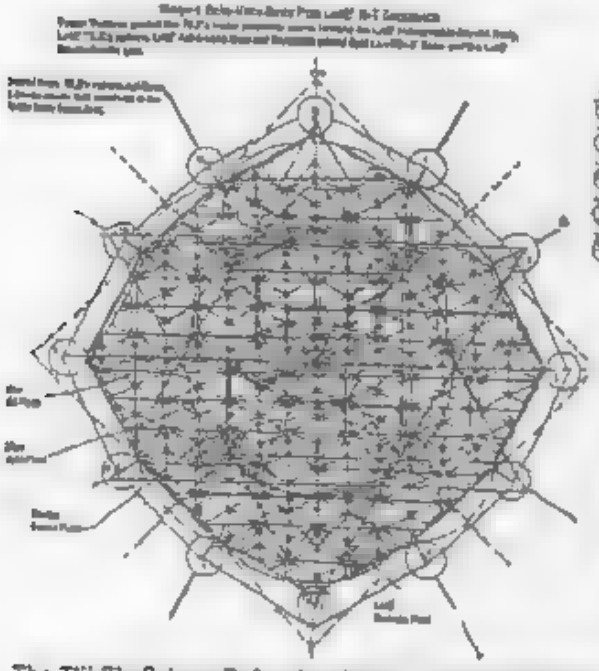
1B: The 12 T'ILE'a Vector Projection Planes in one Shield anchor to the LotE' Line corresponding to their 12 Nodes & blend the other 22 of the 24 LotE' Lines to form 1 Set of 12 *Axiom* Lines.



2: Densification Phase 3D: The T'ILE'a Sphere Refraction Screen of the PCM LotE' Body



The T'ILE'a Sphere Refraction Screen of the PCM LotE' Crystal Body manifests within the Radial Body Reion Field (outer Radial Body Sphere *around* the Merkaba Field) of each Dimensional & Density Level of the PCM LotE' Crystal Body. The same process occurs with the Loti and Lota Crystal Bodies.

3: Creation of Axiatonal & Meridian 12-Line Sets in T'ILE'a Sphere Refraction Screen. The interwoven T'ILE'a Projection Plane of the LotE' Crystal Body T'ILE'a Sphere Refraction Screen blends the 24 PCM external LotE Lines in to a Set of 12 Axiatonal Lines and a Set of 12 Meridian Lines.

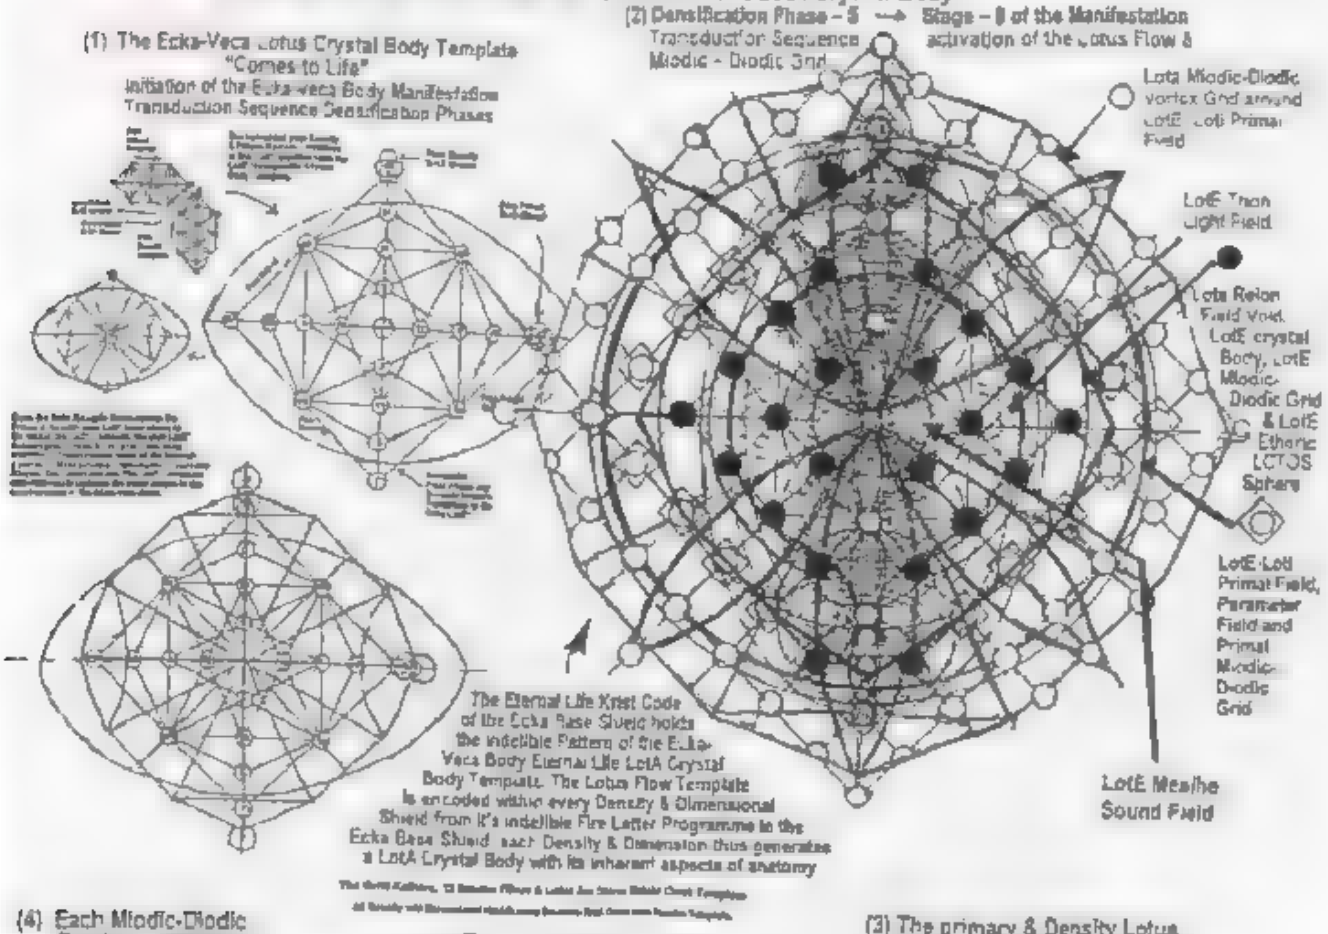
DENSIFICATION PHASE – 5. STAGE 8 of the MANIFESTATION TRANSDUCTION SEQUENCE

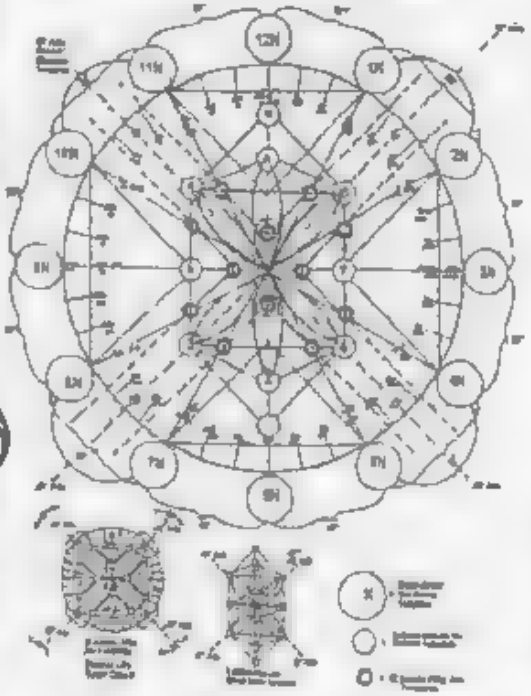
Stage – 8 The Density Sheets, Primary & Density Lotus Arc Sets & the Miodic-Diodic Grid Vortex Grid of the Ecka-Veca LotA Crystal Body



(4) Each Miodic-Diodic Point is a miniature Merkabic Vortex Set that circulates lines of 45 Sha-LA-a Current between the Ecka Lota, PKA Loti & PCM LotE and between the exterior Light Grid of each Crystal Body and its counterpart interior LotA Lines.

(5) THE HEART-BEAT, CIRCULATION and BREATHING of the LotA BODY

A. The onset of Parliki Phasing within the LotA Body marks the point of the LotA Body's first "Heart-Beat" Base Pulse Rhythm of the Seed Atoms through which the Seed Atoms begin "pumping" a perpetual supply of Sha-LA-a 45 Liquid Crystal Light Currents throughout the LotA Crystal Body



B. Through Initiation of the LotA Sha-LA-a 45 "Heart-Beat" & Liquid Light Current circulation cycle the Breathing of the LotA – expansion & contraction of the LotA Body – begins.

(3) The primary & Density Lotus Arc Sets of the PCM LotE' PKA Loti and Ecka Lota Bodies activate in Densification Phase-1 forming the Template for the LotA Body Miodic-Diodic Grid

The Transmission Lines of the Density Lotus Arc Sets cross through each other and those of the Primary Lotus Arc Set, forming the Miodic-Diodic Points within the LotA Crystal Body Structure.

With activation of the LotA Reuche Vortices and forming of the 24 Interna and 24 externa Rod and Staff Transmission Lines, the Miodic-Diodic Sets & TILE'a Spheres, the Grid of the LotA Crystal Body activates allowing the Lotus Arc Currents and 24 internal and externa Rod and Staff Line Sets of the Ecka-Lota, PKA Loti and PCM LotE to interface and combine to begin the process of LotA Parliki Phasing by which the Transfiguration Cycle and "Heart-Beat of the LotA" is set in motion.

The 3 Keylon Crystal Body Radiation Matrices of the D-13.5 LotoSphere together form Miodic-Diodic Vortex Grid through which, Spark Currents manufactured in the interior Central Vertical Column "Pillar of Power" are circulated, "up-stepped" & "down-stepped" to form the Spectra of Etheric, Atmic & Ketheric Currents through which the Vesa PCM LotE Primal Life Force 15 Ray Currents & their Atomic equivalents are made
The fixed Miodic Diodic & Exodic Vortices formed by the spinning Nodes Interface with the Density Lotus Arc Transmission Lines of the LotE Harmonics Grid forming Trans-harmonic Vortex Points called *RADEIONIC NAJEULS* – or – Miodic/ Diodic Lota Points.

The Radeionic Najeuls Transharmonic LotA Point Vortices form spiralling Tubes of Partikate Wave Radiation that blend & circulate Etheric Atmic Ketheric currents between the LotE Lota & Lota, & the interior & exterior layers of the PCM LotE Crystal Body. The Spiral Tubes of Partikate Waves are called *RADEIONIC HELIOPATHS.*
The Partikate Waves of Ketheric Spectra that circulate through them are called *Pulsar Waves* or Trans figuration Point Waves. Pulsar Waves trave the Radeionic Heliopaths of the LotA Points, running waves to and from the 24 interior Lotus Points that interface between the Etheric & Atomic currents of the Interior "Pillar of Power." When the LotE Crystal Body & its inherent anatomy is working naturally, each Inhale Breath/ Contraction activates the Diodic Grid & draws Pulsar Waves through the Heliopath Tubes from the Lota & pulls them into the LotE Pillar of Power. The Heliopaths Tubes "Light Up" forming Heliopathic Rays called RADONS.

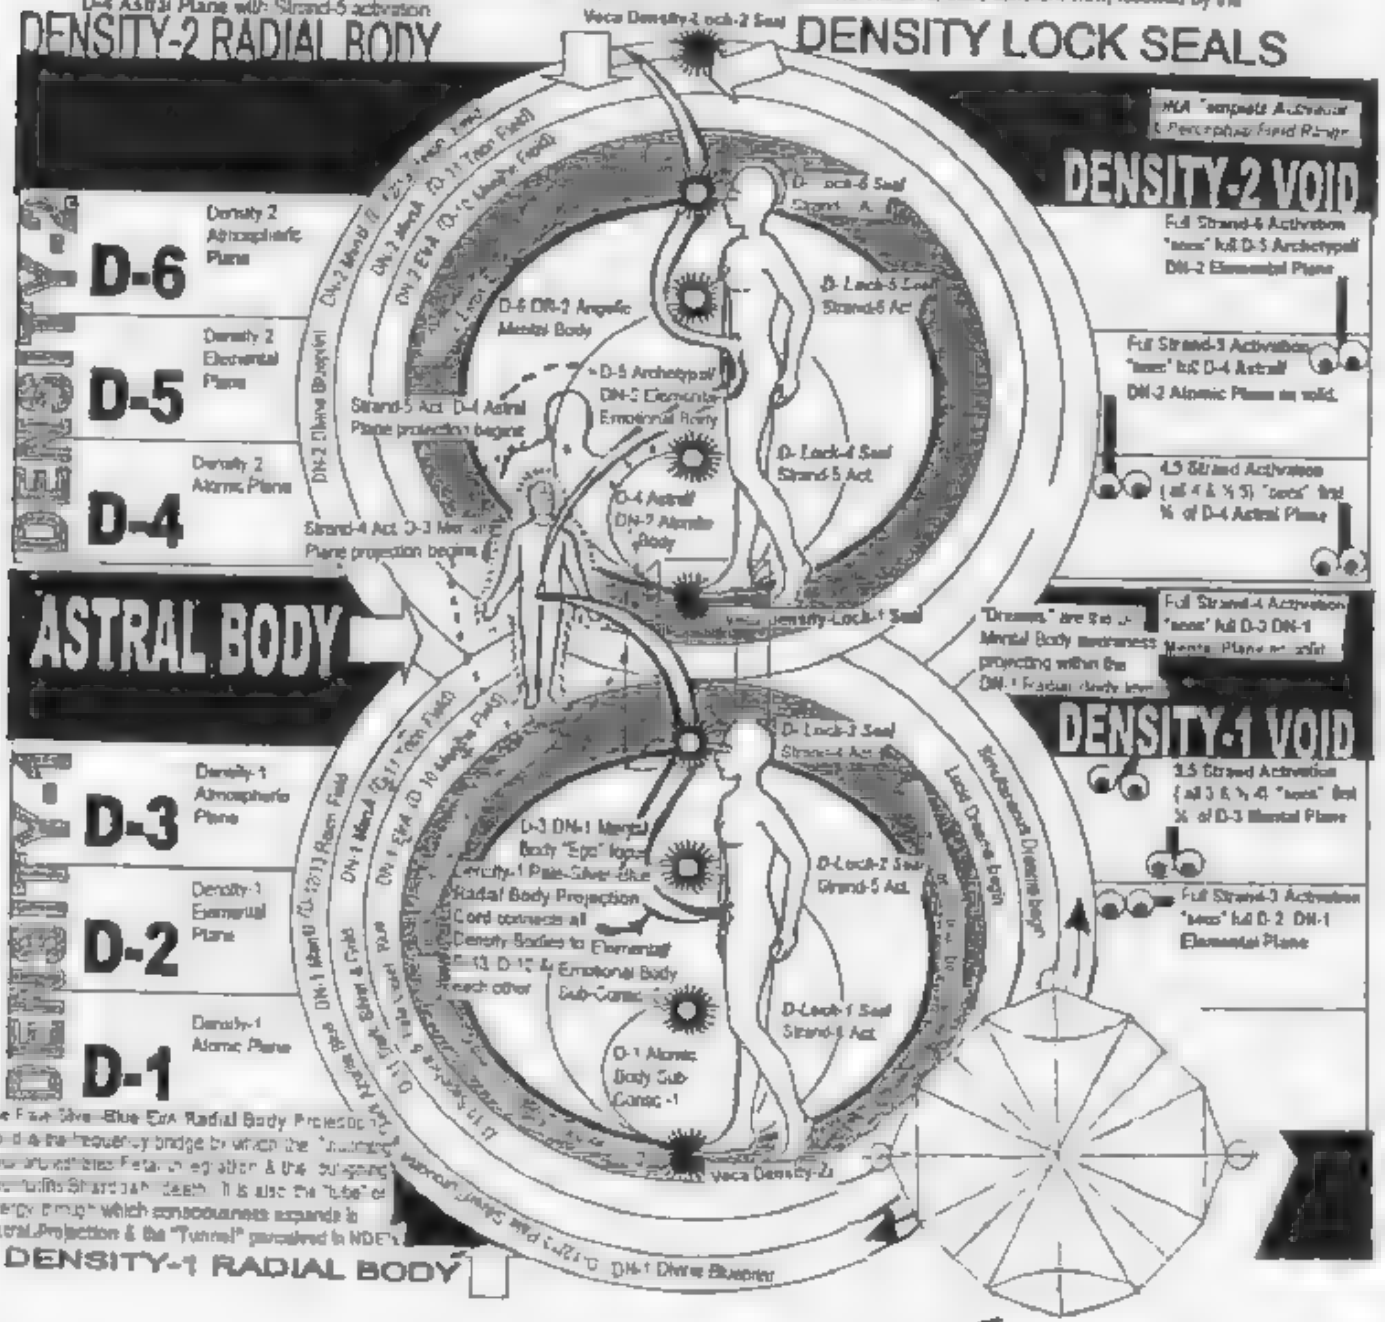
NATURAL ASTRAL BODY ANATOMY

"The "Astral Body" is an electromagnetic replica imprint of the 3-dimensional Density-1 body that forms from the Primal Life Force Fields of the *Earos* (D-7, D-5 Ruon Field), *EirA* (D-10 Mesihe Field), *MariA* (D-11 Thon Field) and *Mana* (D-12/13 Reion Field) of the combined Density-1 and Density-2 Radial Bodies. The Astral Body vehicle activates when the Dimensional-Lock Seals (D-Lock Seals) between the Density-1 D-3 Mental Body open to the Density-1 Radial Body and the Density-2 Dimensional-Lock Seals between the Density-2 D-4 "Astral" body and the Density-2 Radial Body open to each other, allowing the Density-1 D-3 Mental body consciousness to expand into the Density-2 D-4 frequency bands. The Density-1 D-3 consciousness expands to Density-2 D-4 through release of the Dimensional-Lock-3 Seal, from the D-4 focus of consciousness, the Density-1 D-3 Mental-Atmospheric Plane one full dimension below the station of consciousness is perceived as the "solid" holographic field. The Density-1 D-3 consciousness continues expansion to the Density-2 D-5 frequency bands, through release of Dimensional-Lock-4 Seal, from the D-5 focus of consciousness, the D-4 "Astral" Plane or *Density-2 Atomic Plane*, is perceived as the "solid holographic" field. The ability to "Astral Project" develops with progressive activation of Strands 4 and 5 of the DNA Template, through which the Dimensional-Lock Seals that keep the D-3 Mental body consciousness confined to one Density and space-time vector release, allowing the Density-1 D-3 Mental Body "ego" awareness to traverse other regions of space-time and density. As the Strand-4 DNA Template naturally activates, the abilities of coherent dream recall, lucid dreaming and simultaneous dreaming first emerge, as the D-3 Mental Body consciousness first expands into the Density-1 Radial Body levels. As Strand-4 activation continues and the D-3 Mental Body moves into D-4 frequency, the D-3 Mental Plane comes into solid, more coherent view, followed by the D-4 Astral Plane with Strand-5 activation.



The Pale Silver-Blue EirA Radial Body Projection Cord is the frequency bridge by which the "Journeying Soul" activities Retention & the Surviving Soul fulfills Shamanic Death. It is also the "tube" of energy through which consciousness expands in Astral Projection & the "Tunnel" perceived in NDE's.

THE 24 LOTUS POINTS & THE 20 EMBODIED ETHOS ETHERIC FLAMES

Each Dimensional & Density Kathara Grid has a Set of 5 Etheric-Ethos Flame Centres within the 5-Density Locks in each Grid. There are 20 Ethos Flames in one 3-Dimensional Density Body (5 Flames x 4 Kathara Grids)

- Zero Point Lock = Mahadra Ethos Flame
- Density-1 Lock = E Umb Ethos Flame
- Density-2 Lock = AzurA & Seed Atom
- Density-3 Lock = Rajbna Ethos Flame
- Density-4 Lock = Adhrana Ethos Flame

Ethos-Etheric Flames are Standing-Wave Units of electric radiation that under natural conditions interact with their Magnetic Eiros Flame counterparts thro the process of breathing & heart-beat, to perpetually regenerate Krist Sparks for continus Eternal Life Seed Atom Re-fuel.

Lotus Points are points of Trans-Density frequency interface that exist as Spheres of energy within the Manifest & Etheric Body structure. Lotus Points circulate frequencies of the Ethos, Eiros & 15-Ray Spectra and serve as interface points between the Matter Body and it's immediate Etheric Body Blueprint.

The Geomantic pulsation & spin of the 24 Lotus Point Spheres controls the Base Pulse Rhythm of the Density & Dimensional Subharmonic Shields & regulates the Step down Transfiguration of parti - kate Spark Currents into ionic particulates, sub-atomic, atomic and molecular structure.

Lotus Points are Control Centres for the Multi-dimensional "Bio-computer" & Monad which govern the autonomic processes of the physical anatomy and the functions of the Brain, Nervous System and embodied Consciousness.

Lotus Points control the Activation of Density & Dimensional Etheric-Ethos Flame Centres.

Under natural conditions the 24 Lotus points serve as "Spark Distribution Centres" carrying the Krist Sparks generated by the Ethos-Eiros Etheric Flame interaction into the D-13 Monadic D-1 Atomic & D-2 Elemental LotE Lines and Staff Currents for distribution through the Shields and return to the Seed Atom.

As the Etheric Flames are presently denied their natural sparking function due to the "Checkerboard Mutation" the 24 Lotus Points have been limited to re-circulation of Static Energy Currents within the 3-Dimensional body

The present "Checker Board Mutation" Template distortion prevents natural Ethos & Eiros Flame interaction, thus disabling the natural function of perpetual Seed Atom Re-fuel resulting in progressive deterioration "ageing" & eventual death of the Matter Body.

LOTUS RUN – AXIOM BASE SHIELD BONDING
Introduction to Kathara Level – 3, Technique – 5A-B
and the 6-Step Lotus Run Session

The process of Healing Facilitation through Crystal Body Alignment is a powerful, multifaceted, complex, Master's Spiritual Healing Technology that utilises a specific sequence of natural procedures through which Sho-Na Transposition Filters and Miasmic distortions within various aspects of the Multi-dimensional Anatomy can be systematically cleared, to allow the organic personal Crystal Body Miodic-Diodic Grid, Axiom and DNA Templates, Axiom-Meridian-Radis-Nadis Lines, Radial Body, electrical & magnetic field polarity Chakras and Etheric Blueprint to be progressively restored to natural order and function.

The Kathara Level 2 - 3 Foundations programme focuses upon generating sufficient charge of frequency within the personal Shields to allow for Ra Centre activation, the minimum frequency charge required to initiate the Crystal Body Alignment Procedure Sequence. Once Ra Centre and "Flame of Ra" activation is established (Kathara Level – 3, Technique – 4, refers), to allow for Crystal Body access, the first step in Crystal Body Alignment, the *Lotus Run Axiom Base Shield Bonding* is initiated (Kathara Level – 3, Techniques – 5A-B refer) to prepare the personal Multi-dimensional anatomy for progression through the specific sequence of in-depth energetic procedures by which progressive Crystal Body Alignment can be achieved.

The Kathara Level – 3 Programme culminates in fulfilment of the *first step* in the Crystal Body Alignment procedure sequence, Lotus Run – Axiom Base Shield Bonding. The Kathara Level – 4 Programme will feature the next portion of the Crystal Body Alignment procedure sequence initiating the powerful Ecka-Heliotaric Frequency Activations of the *"Ka Centre"*, *"Pillar of Power"* and *"Chariot of Fire"*, all of which involve re-awakening of the long-dormant, natural Etheric Ethos and Eros Frequency Spectra through which integrity can be restored to the Etheric Blueprint to allow for genuine Crystal Body restoration and corresponding natural restoration to the matter-body systems. The Lotus Run featured in Kathara Level – 3 initiates Crystal Body Alignment while preparing the Multi-dimensional anatomy for Master's Crystal Body Alignment and Restoration procedures featured in Kathara Level – 4.

The Lotus Run Axiom Base Shield Bonding procedure utilises the 90-Charge Le-AdOR-A Ad-Don-Draea Current, via the Lotus Touch, to initiate natural sub-harmonic opening of the energetic conduits between the Veca PCM-LotE and the Ecka-Lota Crystal Body levels, to allow for the PCM-LotE Axiom and DNA Templates to access, and re-awaken their organic electro-magnetic bond to the personal *First Creation Imprint* within the personal Ecka Base Shield.

The Lotus Run activates the natural 3 – 6 – 12 – 24 – 48 Base Pulse Rhythms of the Ecka Base Shield within the 24 Embodied PCM Lotus Centres, thereby re-introducing organic Base Pulse Rhythms into the LotE Axiom and DNA Template, which allows the Axiom and DNA Templates to re-establish the organic electro-magnetic bond to the personal *First Creation Imprint* of the Ecka Base Shield through the energy conduits of the Ecka-Lota Crystal Body.

Once bonded to the Ecka Base Shield, the Axiom Template begins a slow process of resetting the organic Base Pulse Rhythms and mathematical-geometrica programmes to the Interior and Exterior Magnetic Axiom Lines, *initiating the process* of slow, but steady, *Sho-Na Transposition Filter* and *Miasmic Transmutation*.

The most important attribute of re-establishing the natural Axiom Template Bond to the Ecka Base Shield is that once the Base Shield is Bonded, the Axiom Template and corresponding Miodic Vortex Grid and magnetic fields progressively enter electro-magnetic phase lock with the personal First Creation Imprint of the Ecka Base Shield. Base Shield Phase Lock of the Axiom Template progressively stabilises the Axiom Template within the natural Base Shield Base Pulse Rhythms preparing the personal Axiom Template, DNA

Template Miodic Vortex Grid and magnetic fields to *retain structural integrity* during the intense Ecka-Heliotalic Frequency infusions that occur during Ethos-Etheric Blueprint *'Pillar of Power'*, *'Chariot of Fire'* and *Ka Centre Activation* Crystal Body Christos Alignments featured in the Kathara Level – 4 Programme

The Axiom Template Ecka-Base Shield phase-lock that is established through the procedure of Lotus Run Axiom Base Shield bonding also assists the Axiom Template Axiom Lines DNA Template, Kathara Grid, Shields Magnetic Merkaba Field, Chakras and Seed Atom to retain organic structural integrity during environmental conditions associated with R55 Tandem Current frequency infusions that occur during planetary Sho-Na Transposition Filter activations

Thus, Lotus Run Axiom Base Shield Bonding Technology can assist in the development of progressive immunity to planetary Sho-Na Field environmental influences

The Kathara Lines within a Natural Kathara Grid Template are fixed Primary Transmission Lines through which phasing Partiki of the Keylon Codes within the 12 Kathara Centre (Signets) repeatedly transmit flows of Partikite and Partikate (Etheric) Spark Units. The Kathara Lines form the Structural Framework of the Kathara 12-Tree Core Density Template. The Kathara Lines of naturally occurring, organic, Eternal Life Kathara Grids exist in precise angular and proportional relationship to each other following the Ratios of Energy Balance set by the Krist Code Eternal Life – Perpetual Motion Mathematical-Geometrical Creation Programme. These Krist Code – Kathara Grid proportions and angular relationships govern the Axis Angle upon which Partikate/ Partikite Radiation Units, "Sparks & Flows" emitted by the Signet Centre Keylon Codes, will interface and cross through each other as they flow between Signets.

Through the Krist Code Kathara Grid angles and proportions, Partikate & Partikite units continually interface at the specific angles and speeds required to create a perpetual supply of blended Etheric-atomic ionic particulate radiation units, which further down-step through precise interface angles to become quarks and other elementary particle/ anti-particle of which matter is composed. The interface angles between Kathara Lines govern the axis angle – spin direction (angular axis of particle spin) and angles of interface between Partikite/ Partikate Spark Units as they release from Phasing Partiki to travel between Signets. The proportions of line length, width and Signet placement within the Kathara Grid govern the distance and direction that the Spark Units will travel and the Spin Rate and Rate of Frequency at which Units will interface with each other as they flow between Signets. These attributes of Partikite/ Partikate Spark Unit Flow (combined with the Krist Code Ratios of Partiki Phasing that govern the Partiki Polarization Angles and Thrust-Force Distribution through which Partikite/ Partikate Spark Units are continually generated) allow for the Perpetual Motion-Creation of Keylona Units, the Keylon Code Crystal Body Structures they form and the continual self-regeneration and circulation of Partikite/ Partikate Spark Unit Flows through which Living Matter units are continually recycled and revitalised. Thus, it is through the precise Krist Code Ratios of Energetic Balance, and corresponding Krist Code – Kathara Line proportions and angular relationships of the original, organic, natural Eternal Life – Perpetual Motion "Kristiac" Kathara 12 – Tree Core Density Template that the "15 Ray" Atomic-Etheric ionic particulate dimensionalised electro-magnetic "Living Light" Current Spectrum, of which organic matter is formed (as the "carrier" of Living Consciousness), is continually and eternally generated and sustained.

The 12 – Tree Core Density Template represents the Core Primal Structure through which Partiki Primal Units group in the specific arrangements required to enable the natural function of continual Keylona Spark-Unit generation, via Partiki Phasing, through which perpetual energy supply, and thus Eternal Life Expression, is continually created, maintained and balanced.

Free Will, "Zero Point Return", Krist Code Kathara and Unnatural Kathara Template Structures

Other forms of the Kathara Grid Core Density Template that do not contain the natural 12 Signet Centres in their organic positions, or which have different proportions and angular relationships between Kathara Lines can, and do, occur through digressive mutation of existing Kristiac Kathara Grid Templates, such

mutations can arise through unintended Kathara Grid damage or intentional free-will manipulation of Kathara Grid structure. Such deviations of the organic Krystiac Kathara Grid template through which Source "perpetually initiates the First Creation", are the result of free-will choices rendered by individuated consciousness that has entered the Manifestation Arena. Deviant Kathara Grid Template structures are NOT created or intended by Source as part of "Original Divine Will, Intention & Design"; rather, Source intends and imbues the quality of Free-Will-Choice which, itself, ***allows for the possibility*** of the "individuated choice of Opposite Expression to Divine Will", within the boundaries of energetic interrelationship and consequence that exist as natural dynamics inherent to the Natural Laws of Creation Physics (which are themselves consequences of the dynamic expression of the Krist Code)

All Manifestation Structures, and beings, first emerge into individuation from Source through the Eternal Life Krist Code Kathara Template, thus all are "created and valued equally" by Source. Once individuation of identity and consciousness from Source has occurred through entering the Manifestation Arena (which itself resides ***within*** Source), Free-Will-Choice within the dynamics of implied consequence inherent to the Natural Laws of Creation Physics, becomes the determining factor as to whether or not an individuated identity form will retain it's original Krist Code gift of Eternal Life Expression and the Krystiac Kathara Grid Template integrity implies. "Krystiac" Free-Will-Choice in the use of energy, creation power, consciousness, attention and action that serve to uphold, respect, maintain and nurture the structural integrity of Personal and Environmental Krystiac Kathara Templates, and corresponding multi-dimensional anatomy, bear the desirable consequence of retaining the original gift of Eternal Life and Limitless Expression.

Free Will Choices that generate energetic consequences of Kathara Template degeneration within the boundaries inherent to the natural laws of Creation Physics will eventually result in temporary or, at times, permanent loss of Kathara Template, consciousness and matter-form structural integrity, and resultant loss of Eternal Life limitless energy potential. Kathara Grid Core Density Templates that deviate from the natural structure and precise angular/ proportional relationships of the organic Krist Code Kathara alter the organic geometrical/ mathematical relationships of organisation between Partiki Standing Wave Units upon which the Shield Template will form. Such alteration of Partiki organisation changes the Ratios of Vibrational Co-resonance between Partiki Units which, in turn, changes the Ratio of Thrust-Force Distribution during Partiki Polarisation into Partika and Particum Units.

The Krist Code Thrust-Force Distribution in Partiki Polarisation allows the Partiki unit to polarise, dividing into thrust force in the specific +ve and –ve electrical charge ratios needed to create ***precise balance*** of "force / counterforce" tension and Unit Polarity that allows Particum and Partika Bi-polar Units to reunite, fuse and re-emerge along the "Zero Point Line" of the original Partiki Unit Axis from which they were projected into polarisation. Re-emergence of the Particum and Partika Unit along it's original Partiki Zero Point Line allows the PCM-PKA Pair to generate a Partiki-replicated Keylona Radiation Unit "Spark" at the Zero Point Line, which "opens the zero point line" and allows the original PCM-PKA Unit Pair ***to blend through the Partiki's Zero-Neutral Charge and return*** into merger with the Partiki. This, in turn, allows the Partiki to again replicate and polarise to form another PCM-PKA Unit Pair that will also "Phase" into merger, spark and return. Through such "phasing" (polarisation; re-emergence; spark; return) of a Krist Code Partiki Unit, the thrust-force of the original Partiki is always renewed through the blended PCM-PKA Unit return, and the production of Partiki Replicate Keylona Spark-Units is set into perpetual motion as each PCM-PKA return generates a renewed PCM-PKA Unit Pair which goes on to merge-spark-return.

It is the "neutral charge PKA-PCM Blend" and resultant ***return to Source*** aspects of the Partiki Phasing process known as ***"Zero Point Return"***, that allows for Eternal Life Perpetual Motion Expression

of the Partiki. It is the precise Krist Code Ratios of Thrust-Force, Polarity and Tension Balance between Partiki-Partika-Particum Units that allow polarised PCM-PKA Unit Pairs to re-emerge and blend, via Neutral Charge, at their original 'Zero Point Line' Partiki Axis, through which their return to the Partiki Unit, and thus regeneration, is enabled. The thrust force/ polarity/ tension balances of Partiki/ Partika/ Particum unit sets is determined by the ***angular and proportional relationships of Partiki units*** within the Kathara Core Density Template. The ***angles and proportions*** of the Kathara Grid govern the ***arrangement*** of Partiki units in ***relation to each other***, the ***relativity*** of Partiki units to each other creates a ***vibrational co-resonance*** between the Partiki units. The ***vibrational co-resonance*** between the Partiki units governs the ***thrust-force distribution, angular direction & cyclic momentum*** with which Partiki units will ***polarise*** into ***Partika & Particum*** to initiate ***Partiki Phasing.***

The Krist Code Kathara Core Density Template proportions and angles arrange Partiki units in the specific manner required to establish the ***precise (vibrational co-resonant) relativity*** between Partiki units through which the specific balances (of thrust-force/ polarity/ tension between Pki/ Pka/ Pcm Unit Sets) required to enable "Neutral Blend Zero Point Return" and Keylona Spark Generation (& thus perpetual motion – Eternal Life of Partiki and Keylona) are created. Kathara Grids possessing proportional and angular relationships that deviate from the natural Krist Code structure arrange Partiki units in an inorganic manner, altering the natural, vibrationally co-resonant, relativity between Partiki units, changing the thrust-force/ plarity/ tension balances between Pki/ Pka/ Pcm Unit Sets.

Iasms, the "Cal-Force" & Kathara Grid Mutation

Inorganic Kathara Grid Templates that deviate from the Natural Krist Code structure of "First Creation" alter natural Partiki relativity and Partiki Unit Set energetic balances in the Core Density Template causing the formation of ***Iasms*** (PCM Univ' *Miasms* & PKA Univ' *D-Iasms*), that eventually lead to destruction of the Shield and it's corresponding matter-forms via self-annihilation of the Partiki. Alteration of Partiki Relativity and Partiki Unit Set Balances (characteristic of inorganic Kathara Grids) prevents bi-polar Particum and Partika units from engaging "zero-point-line" alignment with the Partiki Unit from which they emerged, causing PCM & PKA to engage merger without the neutral '0'-Charge field provided by the Partiki through opening of the zero-point-line. When PKA & PCM Bi-polar units of a Partiki Set encounter each other for merger, without the Partiki neutral 0-charge through which they can re-combine, the PCM-PKA units instead engage ***PCM Particle/ PKA anti-particle annihilation.*** When PCM/ PKA Unit Pairs engage particle/ anti-particle annihilation the –vePCM/ +vePKA Units engage, displace thrust-force and progressively increase spin speed to that of the original Partiki. When the PCM/ PKA Units enter fusion without the neutral Partiki 0-charge "buffer" that keeps PCM & PKA Unit Spin Speeds in balance, the spin speeds of the PCM & PKA Units exceed their organic speed parameters as the units attempt to merge. The spin speed of the merging units rapidly accelerates, depleting the organic thrust-force held within each unit, *converting thrust* into *exponentially* increasing spin motion. When spin speeds of the merging, *unbuffered*, PCM-PKA Unit Set rise to meet the thrust-force quantum of the original Partiki unit the PKA-PCM units are forced, via their spin velocity, into an unnatural, temporary, bond and the PKA-PCM Set enters temporary, unnatural, static phase-lock to form a singular, inorganic, Etheric radiation unit, called a ***CaL-OR*** Unit.

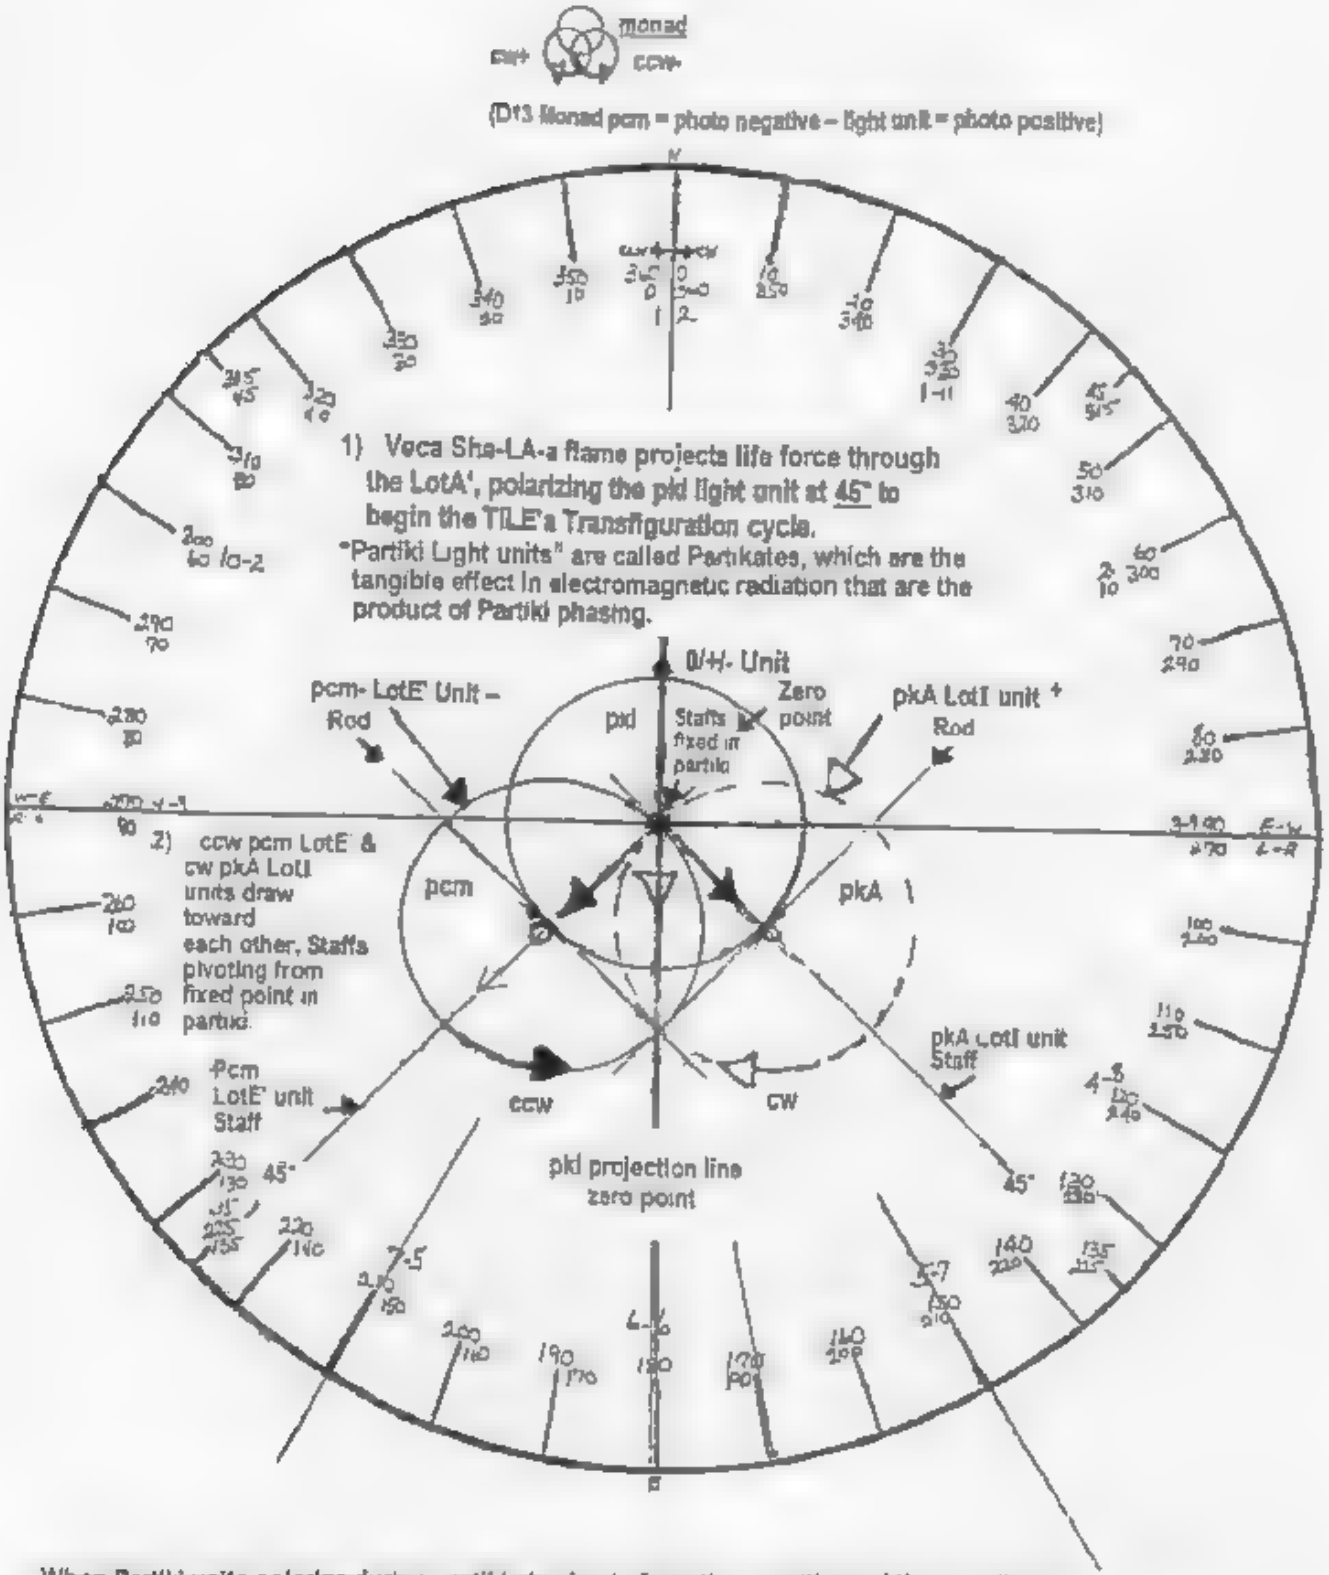
Unlike the natural Etheric ***KAy-Lor*** Partiki spark radiation units that naturally combine with ***AeyLor*** atomic Partiki spark units during Partiki Phasing (to form the ***Key-Lor*** units of which organic living Keylona sparks & Keylon crystals are formed) inorganic ***CaL-OR*** units are formed through an ***unstable polarity –ve charge bond*** that causes an internal "polarity struggle" for spin direction between the naturally counter-rotating PCM & PKA units. As the counter-rotating PCM & PKA units attempt to accelerate toward ***critical velocity*** (spin speed equal

to the thrust-force quantum of the Partiki) due to their misaligned fusion axis without the Partiki neutral charge buffer, the smaller thrust PCM unit generates a "drag field" on the faster spinning, larger thrust, PKA unit, reducing the PKA unit spin speed and siphoning off a portion of it's thrust. As the originally smaller PCM unit accelerates, and increases thrust, the originally larger PKA unit reciprocally decelerates from it's faster spin and loses thrust, causing the two units to rapidly approach an internal point of ***static equilibrium*** called the ***"Compaction Point"***, in which both units simultaneously reach the same thrust and spin velocity whilst spinning in counter-rotation. As the units synchronistically accelerate-decelerate toward this common, unnatural, "Compaction Point", they progressively draw together and temporarily enter an unnatural state of Particle/ Anti-particle fusion called ***compaction.*** At the "Compaction Point" of static equilibrium, both PKA & PCM units ***abruptly stop spinning*** due to the equal force/ counter-force tension and thrust between them, entering an ***unnatural static Phase-Lock bond.*** At the "Stop-spin / Compaction Point" Position each unit holds an amount of thrust-force equal to the difference between their original thrust-force quanta (the ***"differential"***) ***divided by two;*** unlike in the stop-spin state the bonded PKA-PCM unit has neutral electrical charge due to the static equilibrium between the two originally bi-polar units.

When the PCM-PKA unit phase-lock point is reached, and the inorganically bonded PKA & PCM units have ceased their individual counter-rotating spins (to enter the stop-spin state), the bonded bi-polar unit falls under the influence of the surrounding ***Deflection Field*** that was set by the individual PCM & PKA units prior to their unnatural compaction. The naturally counter-rotating spins of the originally independent PCM & PKA units generated an organic ***Deflection Vortex*** around each unit; the spin of the deflection vortex is opposite to the spin direction of its Unit. Once the unnaturally bonded PCM-PKA Set enters the "Phase-Lock/ Compaction Point/ Stop-Spin" state, the faster moving deflection field reverse spin vortice (that was originally formed by the larger thrust/ faster spin Partika unit) becomes the dominant spin influence on the bonded PCM-PKA unit; the reverse spin deflection vortice draws the bonded unit from its "stop-spin" state back into spin motion following the reversed spin direction and speed, of the larger, faster, deflection vortex. After the spin of the bonded unit stops during phase-lock, the bonded unit next rapidly accelerates spin as an inorganic, singular, same-spin, Compacted Unit Set called a ***CaL-OR Radiation Unit.***

Upon its initial creation, the CaL-OR Unit is an unnaturally mutated, compacted, bi-polar radiation unit possessing differential Partiki thrust-force (the difference between original PKA & PCM thrust-forces), zero-neutral charge and a singular, rapidly accelerating, spin direction that is opposite to that of naturally occurring Keylona Units that emerge through Knot Code Partiki Phasing. ***Normally,*** due to their natural charge, phase-locked internal structure and reverse spin rotation, CaL-OR units are self-contained, finite-like, radiation units of limited, rapidly decreasing thrust-force, which will naturally "burn themselves out" through expanding their thrust in progressive acceleration of spin-speed. Under usual circumstances of Kathara Template damage, resulting as a consequence of repeated inappropriate applications of free-will choice in the use of Creative-Energetic Power, the CaL-OR units will initiate reverse spin with the fastest deflection vortex, progressively accelerating reverse spin with the deflection vortex. The deflection field vortex carries the spin-speed equal to the thrust-force of the original Partika unit that formed it, and the CaL-OR unit has a ***differential thrust-force,*** and thus, ***Spin-Speed tolerance,*** that is equal to the ***difference between*** the original PKA & PCM units; thus, the deflection vortex spins faster than the structural tolerance inherent to the limited thrust-force/ limited spin-speed tolerance CaL-OR unit. Normally, once the CaL-OR unit is caught within the spin of the deflection vortex, the vortex spin will rapidly, and progressively, accelerate the spin rate of the CaL-OR unit, eventually crossing, and surpassing, the differential structural tolerance level inherent to the CaL-OR unit.

Once the CaL-OR's ***differential tolerance*** is breached, the unnatural phase-lock bond that fused PKA & PCM units together, to form the CaL-OR unit, can no longer hold, as the confined internal thrust-force within



When Partiki units polarize during partiki phasing to form the + partika and the – particum photo-negative units, partika + units cause the unified field shield to release a photo-positive partikate pulse of – charge light-radiation, & the photo-negative particum – units cause the shield to release a photo-positive partikate pulse of + charge light radiation, both invisibly linked together through their staff connection to the photo-negative partiki unit. Once released the particum - & the partika + photo-negative units and their photo-positive partikate counterparts cycle or "phase" toward each other, their Staffs pivoting upon the fixed "zero point" of the photo-negative partiki unit standing wave.

the CaL-OR unit exponentially converts to internal heat radiation within the CaL-OR centre as the CaL-OR unit spin-speed progressively accelerates. When the CaL-OR unit has converted a critical quantum of its differential thrust-force into internal heat, the PKA & PCM units, of which the CaL-OR is composed, implode into radiation unit fragments, causing the phase-lock bond to release. Upon release of the phase-lock bond, the radiation unit fragments from the PKA & PCM temporarily regain their original +ve and –ve electrical polarity charges, rapidly and haphazardly re-group via opposite charge attraction, momentarily bond in volatile sub-particle/ sub-anti-particle fusion, then explode, releasing a finite burst of heat radiation and a zero-charge, zero-thrust-force neutral residual unit called an ***Atma***. The residual 'Atma' unit that is released by CaL-OR unit self-annihilation still contains, at its core, the ***dormant combined vibrational signature imprint*** of the original PKA-PCM from which the CaL-OR emerged. This dormant, combined, PKA-PCM vibrational signature imprint of the Atma is called the ***BASE SHIELD IMPRINT*** of the Partiki Unit.

The original Partiki Unit Standing-Wave from which the "Fallen" PKA-PCM Set originally emerged contains, at its core, the ***Base Shield Imprint*** corresponding to that of the Atma Residual Unit. Through the dynamic of ***co-resonant vibrational relativity*** the living Partiki unit will draw the co-resonant Atma unit back to zero-point alignment and into reunion with its original Partiki Source. As the Atma residual unit returns to its Partiki it is drawn back into the Living Partiki Base Shield as an 'Undifferentiated Sub-unit of Consciousness', where it is recycled and renewed as part of the Living Partiki Standing-Wave. Thus, under usual circumstances of CaL-OR unit formation (due to the consequence of organic Kathara Grid damage), the Partiki unit retains its structural integrity and its inherent ability to "Phase" for perpetual self-renewal (once its Atma are reclaimed), and "Fallen" PKA-PCM Unit Sets eventually "return home in innocence" to their original Partiki once they have expanded their finite quantum of thrust-force.

Under ***usual*** circumstance of Natural Krist Code Creation Physics in Motion, "no-thing is ever lost", Shield Template blockages, such as ***lasms*** (miasms & diasms) do NOT form, and the Partiki Grid Shield Templates upon which the morphogenetic field blueprint of matter-forms are structured are perpetually self-regenerative and self-healing. CaL-OR units, though not originally intended, nor a desired aspect of First Creation Divine Will, are not a detrimental creation unto themselves, but rather serve as a "Fail-Safe" in Kristiac Creation Physics Dynamics by which the ***potentials*** of "Opposite to Divine Will Expansion" inherent to the gift of Free Will are mercifully tempered. Though formation of CaL-OR units occurs through Energy and Consciousness being used in a manner divergent from the Natural Eternal Life Mechanics and Intentions of Krist Code Unified Field Physics, the natural Laws of Physics as set by, and through, the Krist Code serve to "reclaim the fallen CaL-OR units", restore their original "innocence" and return them to the "Fold" of the Eternally Living Creation. Miasms and Diasms, however, are inorganic, progressively digressive, structures of the Creation that form as a result of a specific type of Kathara Grid Mutation that is referred to as the **"Tandem Code"**.

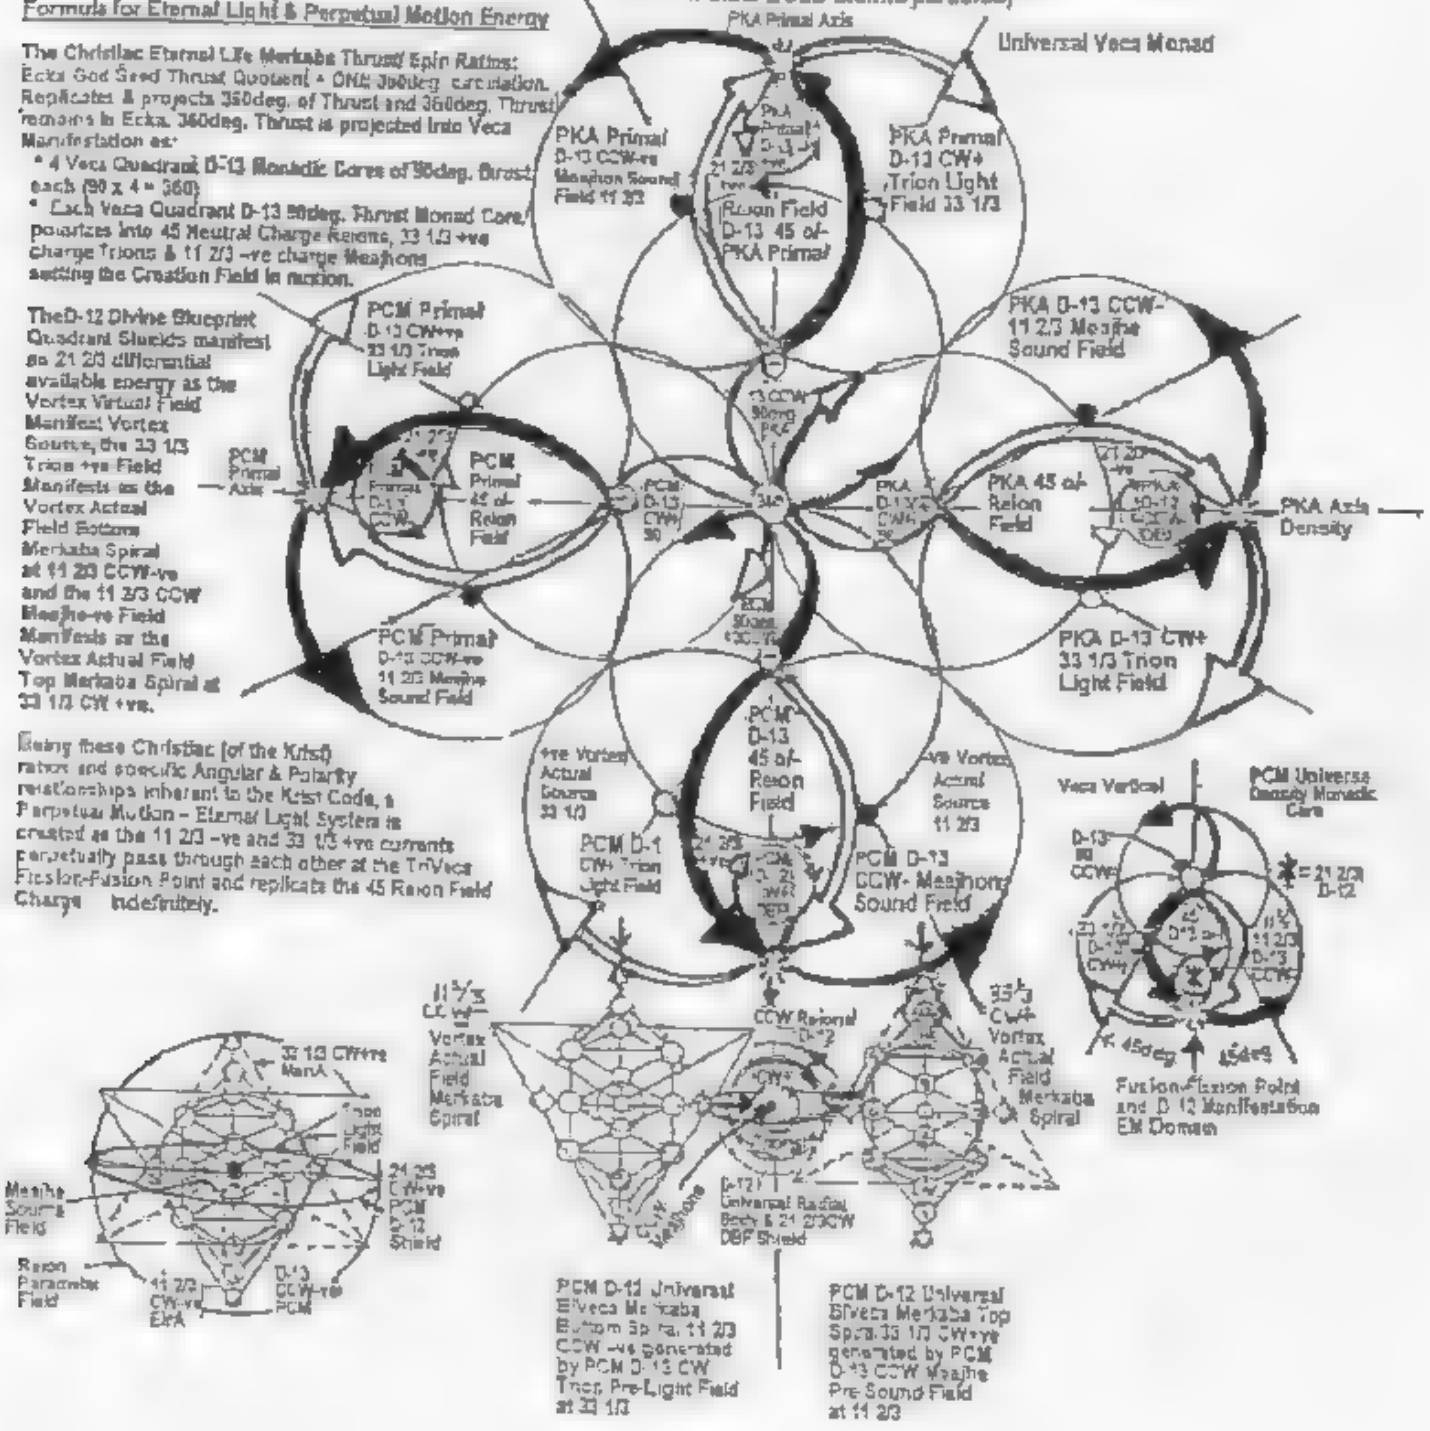
Formula for Eternal Light & Perpetual Motion Energy

The Christiac Eternal Life Merkaba Thrust Spin Ratios: Ecka God Seed Thrust Quotient = ONE 360deg. circulation. Replicates & projects 360deg. of Thrust and 360deg. Thrust remains in Ecka. 360deg. Thrust is projected into Veca Manifestation as:

* 4 Veca Quadrant D-13 Monadic Cores of 90deg. thrust each (90 x 4 = 360)
* Each Veca Quadrant D-13 90deg. Thrust Monad Core polarizes into 45 Neutral Charge Reons, 33 1/3 +ve charge Trions & 11 2/3 –ve charge Meajhons setting the Creation Field in motion.

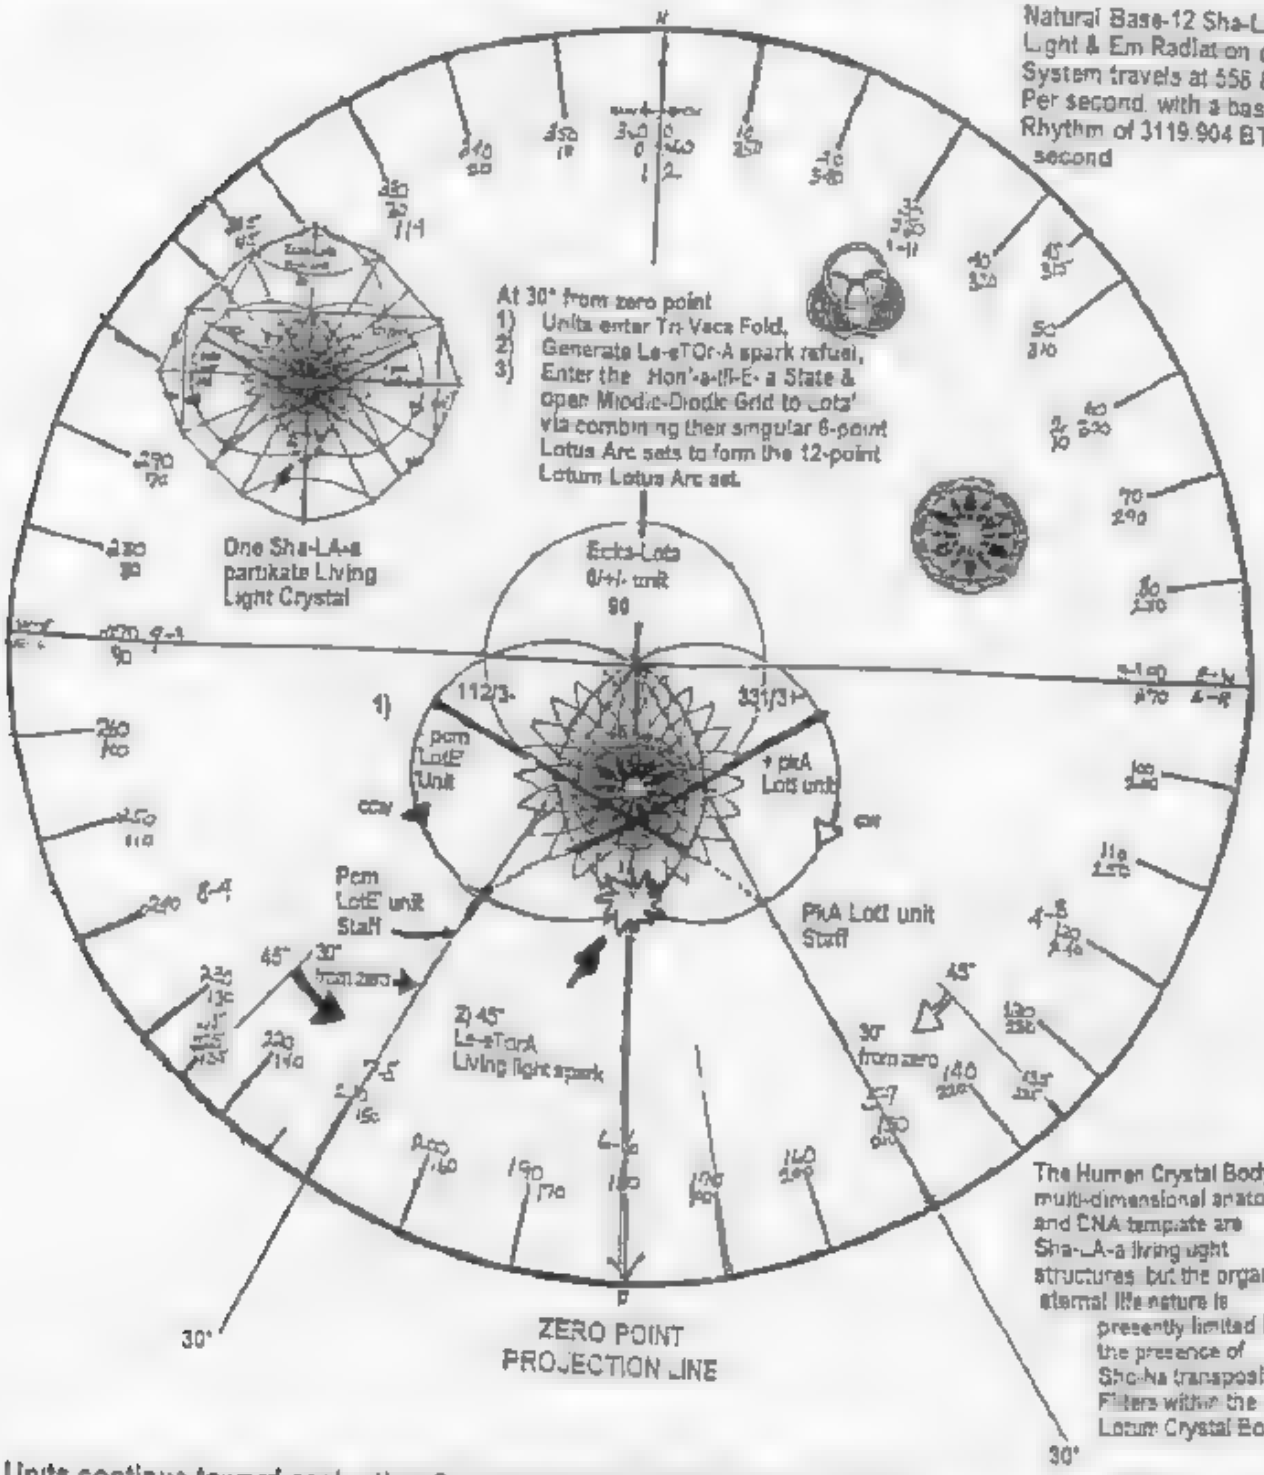
TheD-12 Divine Blueprint Quadrant Shields manifest as 21 2/3 differential available energy as the Vortex Virtual Field Manifest Vortex Source, the 33 1/3 Trion +ve Field Manifests as the Vortex Actual Field Bottom Merkaba Spiral at 11 2/3 CCW-ve and the 11 2/3 CCW Meajhe-ve Field Manifests as the Vortex Actual Field Top Merkaba Spiral at 33 1/3 CW +ve.

Using these Christiac (of the Krist) ratios and specific Angular & Polarity relationships inherant to the Krist Code, a Perpetual Motion – Eternal Light System is created as the 11 2/3 –ve and 33 1/3 +ve currents perpetually pass through each other at the TriVeca Fission-Fusion Point and replicate the 45 Reon Field Charge indefinitely.



Living Light & The Hon'-a-til-E-'a & Athon'-a-til- E-'a States

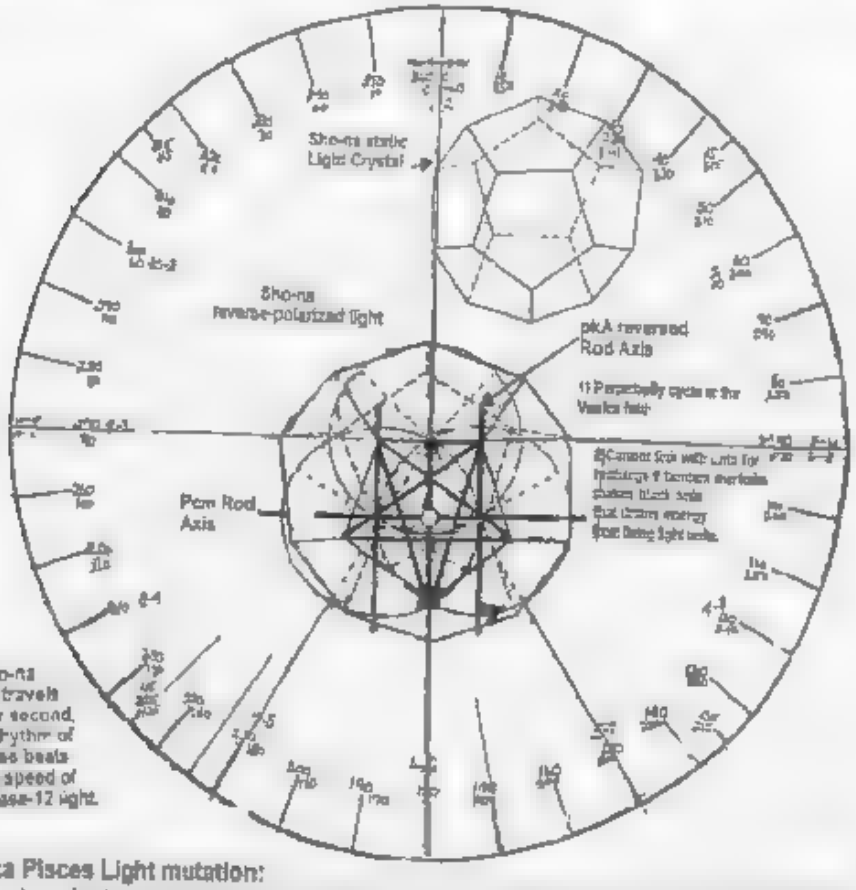
Natural radiation/ light units created through the Eternal life mathematical formula of the Krist Code perpetually expand into manifestation at the 45° planetary projection then cycles back to its source in contraction to recharge its lifeforce through re-creation, eternally circulating into and out of manifestation via expansion/ polarization and contraction/ depolarization. Manifest forms built upon Sha-LA-a Tri-Veca living light units retain integrity of form and function indefinitely; Sha-LA-a life forms are Eternal not "mortal".



4) Units continue toward each other & merge at zero point entering the Bi-Veca fold with Ecka-Lota, via combing the 12 point Lotum Arc set with the 12-point Ecka-Lota Arc set to form the 24 point LotA Lotus set.
5) Then enter Athon'-a-til-E-'a State. De-polarize & return to Ecka-Lota state, demanifesting.
6) Recreation returns with next 45° projection from Ecka-Lota.
Krist Spark refuel replenishes manifest seed atom in the patikate living light units.

Sho-na Reversed Polarity Static Finite Light Fields

The reversed spin pkA Staff (in horizontal alignment) phase locks to the pcm Rod (in horizontal alignment) forming the "Solar Cross" pentagonal static phase- ock upon which the Vesica Pisces Sho-na light unit mutation is generated. Partikate units can no longer move independently from each other for natural phasing and are locked into a same-spin compacted set forming reverse spin Dodecagedronal Sho-na artificial static light units that group to form musamic & diasmic "frozen light crystals" that spin in reverse to natural rotation creating reverse spin vortices that block the natural function of the Crystal Body Miodic-Diodic grid



Artificial Base-4 Sho-na Vesica-Pisces light travels at 186,281 m les per second, with a Base-pulse rhythm of 1039-968 B T reverse beats per-second, 1/3 the speed of natural Sha-LA-a Base-12 light.

The Vesica Pisces Light mutation:

Cuts off atomic and sub-atomic LotE pkA & LotE' pcm link, stopping Hon'-a-tii-E- a & Athon -a-tii-E- a Krist spark seed atom regeneration. Distorts DNA & causes cellular degeneration and reduces Base-12 Sha-LA-a light to 2 separate reverse rotation Base-4 Sho-na light currents, each running at 1/3 the speed (1/3 partikl phasing rhythm) of natural Base-12 living light Sha-LA-a light.

KATHARA LEVEL 2 – 3 FACILITATORS CLIENT SESSION SCHEDULE

Kathara Level – 1: 6-Step Maharic Recoding Process

The K – 1 Client Session can be offered singularly to clients as a means of initiating Client Maharic Shield & Maharic Seal Activation and to initiate beginning Divine Blueprint restoration within the clients' Kathara Level-1 Core Density Template, while stimulating the clients' Personal Organic Imprint for Health to foster restoration and revitalisation within **the DNA Template and** levels of Multi-dimensional anatomy Kathara Level-1 Client sessions can be conducted only once, or as often as a client desires.

Singular Kathara Level-1 Follow-up Sessions:

If client desires follow-up sessions, but does not desire to progress to Kathara Level-2 & 3 modalities, one **Kathara-1 Client session** conducted **once every 1 – 3 months** is sufficient to provide general support for the natural function of the clients' Organic Imprint for Health.

Progressive Kathara Follow-up Sessions:

It is not essential, but is recommended, that clients who desire progressive Kathara Level-2 Flame Body Activation and Kathara Level-3 Lotus Run Sessions should first have an **initial Kathara Level-1 Maharic Recoding Session 1 – 2 weeks prior to engaging the K-2 Session.** The K-1 Maharic Recoding Session is to remain as the opening and closing procedural format for all Kathara Level 2, 3 & 4 Client Sessions, with the additional 6-Step procedures being added as "an additional modality" between Step 5 and 6 of the K-1, 6-Step Session.

NOTE When conducting **Kathara-2 & Kathara-3** Client Sessions other **"additional modalities"** (such as Chakra work, etc.) **should NOT be included** within the **K-2 or K-3 Client session**, if the client desires such additional modalities can be included as part of a Kathara-1 Mahanic Recoding Follow-up Session at least 24 hours before, or after a Kathara-2 or Kathara-3 Session.

Kathara Level-2: The 6-Step Flame Body Activation Client Session

The K-2 Client Session can be offered to clients as a means to begin drawing Divine Blueprint Restoration from the Kathara Core Density Template into the Radial Body and Merkaba Field aspects of Multi-dimensional anatomy while progressively initiating activation of the clients Density Shields, Density Merkaba Field and Radial Bodies, thus enabling the clients Multi-dimensional anatomy to access Ecka-Heliotalic Current Sub-harmonics for expedited Divine Blueprint restoration within all aspects of the Multi-dimensional anatomy. The K-2 Client Session begins opening the natural energy conduits between the Veca Density bodies and the Ecka body of the clients personal Multi-dimensional anatomy increasing the spectrum of natural healing currents from the dimensionalised 15 – Dimensional Ray Currents to the more powerful Ecka-Heliotalic Current Spectrum, amplifying frequency support to the clients organic imprint for health, while preparing the client for more in-depth Multi-dimensional healing modalities.

The K-2 Client session can be conducted only once, or more frequently if client desires. BUT **should not be engaged more that once very 3 months**, in order to allow sufficient time for clients' bio-fields to synthesise and integrate the frequencies activated during the K-2 Session. It is recommended that the **Client progresses to a K-3 Lotus Run Session following one or two K-2 Flame Body Activation Sessions.**

- **It is important that the K-2 and K-3 Client Sessions are conducted *at least* 3-6 days apart to allow ample time for the clients' bio-fields to integrate frequencies activated during the K-2 Session.**
- **K-2 & 3 Client Sessions should *never* be conducted within the same Session, or within the same 72 hour period, as the K-3 Lotus Run Session will be ineffective under such circumstances.**

KATHARA LEVEL-3: THE 6-STEP LOTUS RUN (AXIOM BASE SHIELD BONDING) CLIENT SESSION

The K-3 Client Session can be offered as a means to amplify, intensify and expedite healing within all aspects of the Multi-dimensional anatomy through initiating Divine Blueprint Restoration within the Clients' Crystal Body Template. The K-3 session re-awakens the long-dormant organic connection between the clients Ecka-Lota and Density Lotum Crystal Body aspects of multi-dimensional anatomy, allowing for the Axiom Template, DNA Template and corresponding anatomy levels to re-establish their natural electro-magnetic Phase Lock Bond to the personal "First Creation Imprint" in the Ecka Base Shield, thus fortifying and stabilising the organic personal Divine Blueprint within the Lotum Crystal Body and Axiom/ DNA Templates, to initiate Crystal Body Alignment in preparation for natural Polarity Realignment within all levels of the clients multi-dimensional anatomy.

The K-3 Client Session amplifies the strength and quantity of natural Ecka-Heliotalic Currents within the Clients' Shields through sub-harmonic activation of the clients' Ra Centre, progressively stimulating the automatic regeneration of sufficient Ecka-Heliotalic Frequency Thrust through which environmentally induced STF's (Sho-Na Transposition Filters) can be naturally transmuted to eventually free the Axiom/ DNA Templates and all aspects of the multi-dimensional anatomy from the effects of the Planetary Tandem Harness STF Field.

Through the process of Axiom Base Shield Bonding the K-3 client session prepares the clients' bio-systems to retain natural structural integrity during the intensive, and in-depth, Crystal Body Alignment and Polarity Realignment processes featured in the Kathara Level – 4, 6-Step Hon-a-til-E-'a Run Client Session, while stimulating the clients' Organic Imprint for Health to generate progressive electro-magnetic resistance to the effects of environmental STF frequencies.

The initial K-3 Client Session needs to be run only once, after a minimum 3-day integration period the Secondary Lotus Run (K-3, Tech'-5B – "Amping the Charge" – Amplified Lotus Run Follow-Up Session, page T61) can be offered to strengthen and amplify the Clients' Axiom Base Shield Bond if the client desires follow-up K-3 Sessions. **NOTE: There should be a minimum 3-day integration period following any K-3 Session in which NO additional multi-dimensional healing modalities should be applied.**

K-3 Secondary Lotus Run Follow-Up Sessions should be conducted only **once every 2 – 3 months, or more,** to allow for ample integration time. K-3 Secondary Lotus Run Follow Up Sessions are **recommended twice per year, within 6-days prior to, or 6-days following the Planetary HetharO** (May 27th) **and Hethalon** (August 12th) electrical and magnetic Merkaba Peak Spin periods, to assist the bio-fields in establishing, and retaining, co-resonance with Earths' Planetary Base Rhythms.

KATHARA LEVEL – 4: THE 6-STEP Hon'-a-til-E-'a RUN

The K-4 Client Session will offer *'Pillar of Power'* and *'The' Centre* Sub-harmonic Activation and *Lote Crystal Body* Divine Blueprint Alignment advances, via clearing and transmutation of "Planetary Karma" Polarity Reversals which are caused by the environmental STF Tandem-Sextant Harness.

The K-4 Session will allow the clients' Organic Imprint for Health to progressively run Ecka-Heliotalic frequencies sufficient to transmute the 55R Tandem STF Fields, enabling natural polarity realignments to the personal Divine Blueprint to initiate within the DNA Template, Axiom-Meridian-Radis-Nadis Lines, Miodic-Diodic Grid and Chakra Vortex Systems of the Multi-dimensional anatomy, initiating restoration of the Organic Imprint for Health within the anatomy corresponding to the Pre-externalisation and Externalisation Phases of the Manifestation-Transduction-Sequence.

Through the initiation of clearing the "Planetary Karmic Imprint" within the clients' personal Crystal Body and Multi-dimensional anatomy, the K-4 Client Session will assist the client in becoming free from Planetary STF environmental influences, allowing the long-dormant natural **Crystal Body Breathing Process, and Eternal Kristic Energy Exchange** to resume within all levels of Multi-dimensional anatomy, thus restoring the ***potentials*** of the **Eternal Life Evolutionary Option,** whilst generating progressive immunity to the effects of Planetary STF Frequencies.

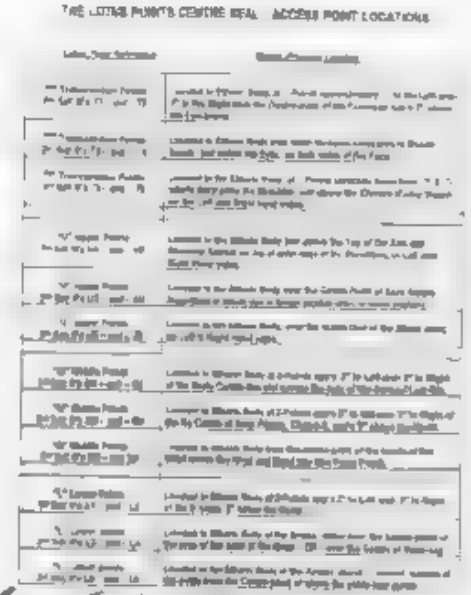
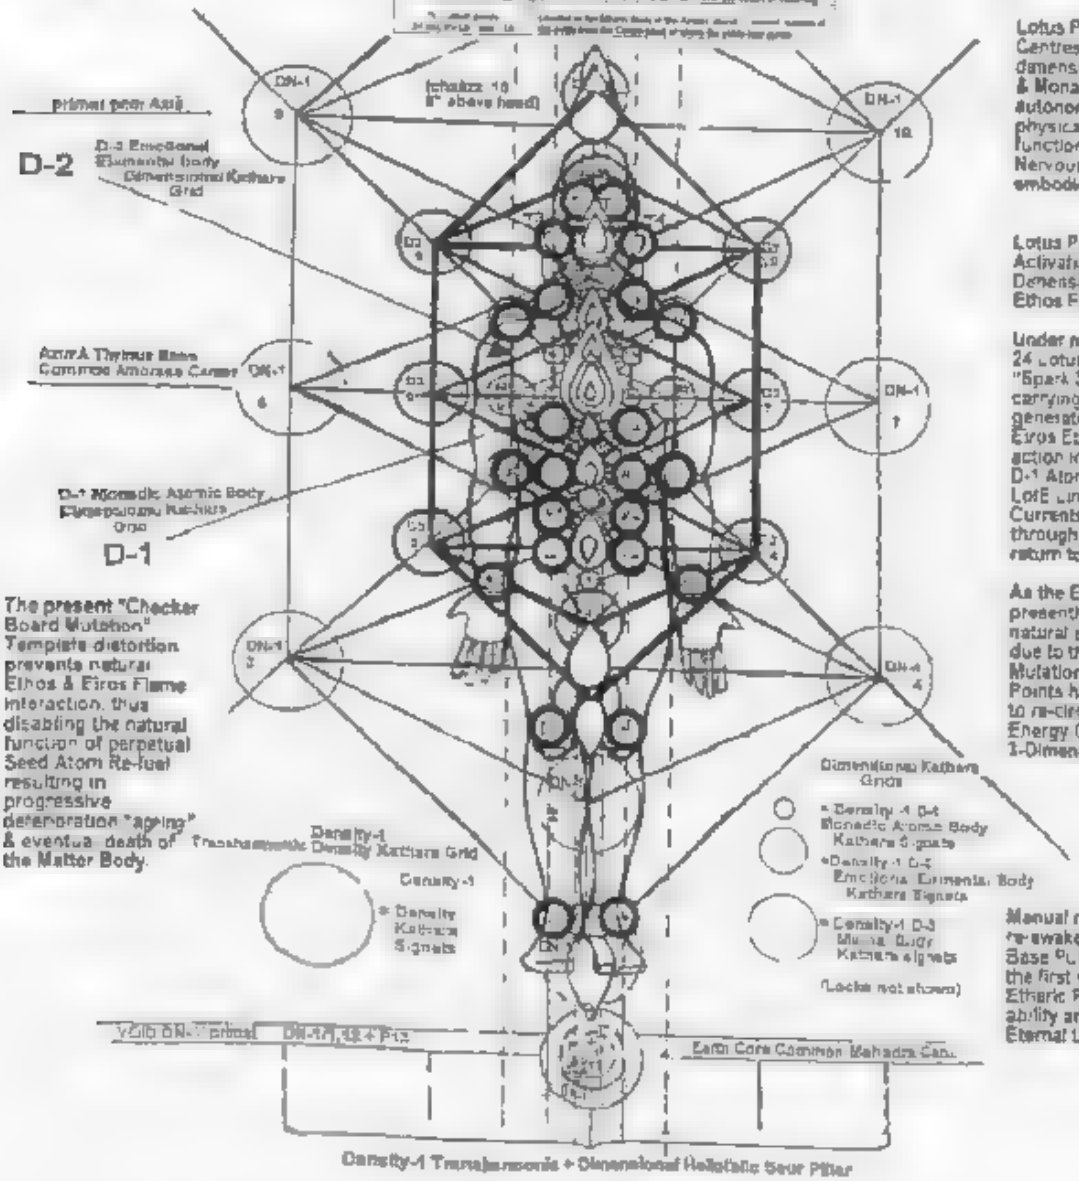
THE 24 LOTUS POINTS & THE 20 EMBODIED ETHOS ETHERIC FLAMES

Each Dimensional & Density Kathara Grid has a Set of 5 Etheric-Ethos Flame Centres within the 5-Density Locks in each Grid. There are 20 Ethos Flames in one 3-Dimensional Density Body (5 Flames x 4 Kathara Grids)

- Zero Point Lock = Mahadra Ethos Flame
- Density-1 Lock = E-Unity Ethos Flame
- Density-2 Lock = AzurA & Seed Atom
- Density-3 Lock = Rajina Ethos Flame
- Density-4 Lock = Adhrana Ethos Flame

Ethos-Etheric Flames are Standing-Wave Units of electro-bi-e radiation that under natural conditions interact with their Magnetic Eiros Flame counterparts thro the process of breathing & heart-beat, to perpetually regenerate Krist Sparks for continual Eternal Life Seed Atom Re-fuel.





Lotus Points are points of Trans-Density frequency interface that exist as Spheres of energy within the Mendosi & Etheric Body structure. Lotus Points articulate frequencies of the Ethos, Eiros & 16-Ray Spectra and serve as interface points between the Matter Body and it's immediate Etheric Body Blueprint.

The Geomantic pulsation & spin of the 24 Lotus Point Spheres controls the Base Pulse Rhythm of the Density & Dimensional Subharmonic Shields & regulates the Step down Transfiguration of partic kata Spark Currents into ionic particulates, sub-atomic, atomic and molecular structure.

Lotus Points are Control Centres for the Multi-dimensional "Bio-computer" & Monad which govern the autonomic processes of the physical anatomy and the functions of the Brain, Nervous System and embodied Consciousness.

Lotus Points control the Activation of Density & Dimensional Etheric-Ethos Flame Centres.

Under natural conditions the 24 Lotus points serve as "Spark Distribution Centres" carrying the Krist Sparks generated by the Ethos-Eiros Etheric Flame interaction into the D-13 Monadic D-1 Atomic & D-2 Elemental LoxE Lines and Staff Currents for distribution through the Shields and return to the Seed Atom.

As the Etheric Flames are presently denied their natural sparking function due to the "Checkerboard Mutation" the 24 Lotus Points have been limited to re-circulation of Static Energy Currents within the 3-Dimensional body.

The present "Checker Board Mutation" Template distortion prevents natural Ethos & Eiros Flame interaction, thus disabling the natural function of perpetual Seed Atom Re-fuel resulting in progressive deterioration "aging" & eventual death of the Matter Body.

Manual re-activation and re-awakening of organic Base Pulse Rhythms is the first step in restoring Etheric Flame Sparking ability and the resultant Eternal Life Potential.

SECTION TWELVE

Kathara 2 – 3 Techniques

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

1. Close your eyes and visualize the image of a flat (2-dimensional line drawing) 6-Pointed Star of David (The **Merkaba Star**) made of **White Light**, stationed at the **6th-Chakra** on the *inside of the Forehead*. (If you cannot yet generate inner visualizations, simply imagine that the symbol is there.) Continue to visualize or imagine, and move the **White Merkaba Star** image over toward the **left** in your inner field of vision. In the *center* of your inner field of vision, visualize/ imagine the image of *another Merkaba Star*, made of a **Dark Silver Light**. Observe or imagine the **2 Merkaba Stars** in your inner field of vision and then slowly *move the images toward each other* until they have merged into *one Merkaba Star* Symbol made of **Pale Silver Light**. (The *Pale Silver Double Merkaba Star Symbol* is called the **HIEROPHANT** – It is the scalar wave template that governs the release of phase-lock on the *Maharic Shield.)*

2. Visualize/ imagine the Hierophant Symbol clearly in mind, then shift attention to the sound of your breath. Take several slow, deep breaths. On the next **EXHALE** use the force of breath to *forcefully push* the **Hierophant** down from its position at the 6th-Chakra, through the *Central Body Current* and into the **Earth's Core**. Take a few more slow breaths while visualizing/ imagining the Hierophant Symbol in the center of the Earth's core. Imagine now that the *Hierophant begins to spin in the Earth's core*, the Dark Silver Merkaba Star and the White Merkaba Star spinning in *opposite directions*. Spin the Hierophant progressively faster until it "takes on a .life of its own", and suddenly "pops and expands" to form a **Pale Silver Sphere of Light** *spinning in the Earth's core.*

3. Observe the Pale Silver Hierophant Sphere spinning in Earth's core, then visualize/ imagine that a **huge, horizontal Pale Silver spinning disc** emerges out from the Hierophant Sphere, forming a **massive Pale Silver Disc of Light** *spinning throughout the Earth and extending outward into the atmosphere* as a **rotating, horizontal plane.**

This horizontal disc-plane extending through the Earth represents the *Mahara Nova Body*, or Maharic Shield of the planetary morphogenetic field – the Pre-matter Liquid Light scalar grid composed of frequency from dimensions 10, 11 and 12. (Known as the *Shield of Amaratana*). Using the Hierophant wave template you have now activated the planetary Maharic Shield, *opening the Planetary Bio-feed Interface System™ into your bio-energetic field.* This constitutes opening your personal Kathara Grid and morphogenetic field into the Planetary Kathara Grid and morphogenetic field, allowing you to draw an *unlimited supply of energy* from the planetary field. You can draw in only as much as your personal morphogenetic field can hold. With repetition of this practice the energy-holding capacity of your Kathara Grid progressively increases, allowing you *a continually expanding supply of energy* for healing and revitalization.

4. While remaining aware of the *Planetary Maharic Shield* spinning on a horizontal plane throughout the Earth's body, return the focus of your attention to the spinning **Silver Hierophant Sphere** rotating at Earth's core. (You will now use the Hierophant Sphere to activate your personal Maharic Shield and release the 12th-Dimensional Pillar of Light within your bio-energetic field.). Take several slow, deep breaths, while visualizing/imagining the Hierophant Sphere spinning in Earth's core. On the next **INHALE**, draw the Hierophant Sphere *up from Earth's core* with the inhale breath, forming a **Pale Silver Cord** *about 6" thick* trailing behind the Hierophant as it rises to the **12th Chakra**, 6" beneath the feet. *One end of the Silver Cord remains rooted in Earth's core, the other end is attached to the **Hierophant Sphere** and follows its movement.* Visualize the **12th Chakra** as a small, **transparent disc** about *3" in diameter*, positioned *6" below the feet.* Stop the movement of the Hierophant in the *center of the 12th Chakra*, imagine the Sphere beginning to spin and *visualize the diameter of the 12th Chakra disc expanding to about 6" in diameter*, as the Hierophant spins at its center. Take a few slow, deep breaths as the *Hierophant spins in the center of the 12th Chakra.*

5. On the next **INHALE** draw the Heirophant Sphere *up from the 12th Chakra*, through the **Central Body Current** and up to the **14th Chakra** *36" above the head.* As the Hierophant Sphere rises, visualize the *6" thick* **Silver Cord** drawing up through the **12th Chakra** and farther up through the **Central Body Current**, following the path of the Hierophant Sphere to the **14th Chakra.** Visualize the Silver Cord as a long, thick **Pale Silver Cord of Light**, running from the *Earth's core, through your body and out the top of your head*, connecting to the **14th Chakra** 36" above the head. Take several deep, slow breaths while Imagining that you can *feel the sensation* of this *massive current of clear, pure energy* running through the *center* of your body.

6. On the next **EXHALE**, push the spinning Hierophant Sphere *down* through the **Central Body Current**, while leaving the *top end* of the Pale Silver Cord attached to the **14th Chakra** 36" above the head. Move the Hierophant down through the **12th Chakra** 6" below the feet, and **stop the Hierophant** *6" below the 12th Chakra;* a position about **12" below the feet.** This is the location of the Maharic Shield within the morphogenetic field of the body. Breath slowly and visualize the Hierophant *spinning progressively faster* 12" beneath the feet, until the Hierophant "takes on a life of its own" and suddenly "*pops and expands*" to form an **expanding horizontal disc of Pale Silver Light spinning 12" beneath the feet.** ***Feel the disc as a circular platform 3 yards in diameter below feet.***

THE *MAHARIC SEAL* AND THE *LIQUID LIGHT CLEANSE*

7. Call to mind the image of the *massive horizontal disc of Pale Silver Light* spinning through the Earth's body – the **Planetary Maharic Shield**. Imagine the sensation of the large, spinning *Pale Silver platform disc* spinning 12" beneath your feet – your **personal Maharic Shield**. Breathe slowly and deeply while visualizing/ imagining a *massive rush of pure, cool* ***Pale Silver energy*** running from the *planetary Maharic Shield*, up through the **Pale Silver Cord** and into the *personal Maharic Shield* 12" beneath your feet. Breath as this energy runs, *filling your Maharic Shield to its energy-holding capacity*. When your Maharic Shield has received as much Pale Silver energy as it can hold, it will "take on a life of its own", and suddenly "*pop and expand*" upward into an ***oscillating Pale Silver Pillar of Light*** *surrounding and permeating the body, a tube of light* extending beyond the body *about 18"*, and running from the **Earth's Core** to the **14th Chakra** 36" above the head. *Feel the reality of your body encased in the cool, refreshing Pale Silver Pillar of oscillating light.* Take a few slow deep breaths and imagine the energy from the Pillar *emanating through all of your body cells.* Your Bio-energetic Field is now sealed with a protective barrier of 11th/12th-Dimensional frequency – the **Maharic Seal.**

8. As the Pale Silver Pillar of Light oscillates around you, place your attention for a moment at the **13th Chakra** in Earth's core and **INHALE** a final **Spark** of *Pale Silver Light* from Earth's core, drawing the Spark up through the **Pale Silver Cord**, into the **Main Vertical Channel of the Kathara Grid**, and into the center of the **4th Heart Chakra.** Breath slowly and easily while visualizing energy from the *Silver Spark* radiating throughout the embodied **12-Tree Kathara Grid**, *filling it with Pale Silver Light.* When the Kathara Grid has reached its energy-holding capacity, the ***12th Chakra will automatically contract*** to decrease the flow of Silver Light from the Earth's core. As the 12th Chakra contracts, the *Planetary Maharic Shield* stops spinning and transmitting energy through the Silver Cord, returning the Silver Chord to its dormant state. The ***Maharic Seal*** **Pale Silver Pillar of Light** will remain in your bio-energetic field between **1-3 hours**. Over a *3-month period* of frequent, consistent *daily practice* of this process, the Maharic Seal will self-sustain in the bio-energetic field for **12-14 hours.**

Use of this technique allows a healing Facilitator to activate the Maharic Shield and Seal in others, through the ***Maharic Infusion*** *process* (Technique # 4), while Facilitator's Pillar remains active. Progressive use of the Maharic Seal and running the Liquid Light creates a reciprocal clearing, reordering and realignment of the Kathara Grid- *Holographic Template* – and all subtle energy and physical systems built upon it. The Lower Hova Bodies are progressively cleared and realigned with the *original perfection of the Pre-matter Liquid Light Mahara Hova Body*, and the body and genetic code progressively expand to hold higher dimensions of conscious awareness.

THE ECKASHA QUICK SEAL ACTIVATION

Purpose: The Eckasha Ecka code (the Eckasha "tear drop" share with the Reuche symbol at its center), is used as the Eckasha Hierophant Symbol Using the following **Eckasha Quick Seal Activation** will enable the mathematical programme of the Eckasha Ecka Code to activate sufficiently within the personal Shields and DNA Template Sufficient activation the Eckasha Code begins building of a "dedicated frequency line" to your D-12 Christos – Avatar identity level and supplies adequate quality and strength of D-12 frequency sub-harmonics to successfully engage Amoraea Flame Techniques

Procedures: The Eckasha Psonn Um'-ah A' ThrA'-E-Na-A' Ec'-ka-sha' is gently sounded (out loud) prior to each in-breath and on each out-breath repeated in groups of 3. (three "in" + three "out").

Preparatory Step: Use of the Maharic Seal Technique

1 Begin by slowing your breathing rhythm, as you imagine or visualize the **Eckasha Heirophant** at the **Pineal Gland** in the center of your brain Visualize the Eckasha Heirophant surrounded by **a Pale Blue Sphere of Light** The Pale Blue Sphere containing the Eckasha Heirophant is called the **Eckasha Sphere** (The Blue Sphere serves as a buffer for your body's readiness to accept the frequencies associated with the Eckasha Code the Blue Sphere holds the energy for you until your body can handle and assimilate the energy Your body, DNA Template and Shields will automatically draw the appropriate amount of Eckasha Code frequency from the Blue Sphere as needed)

2 Tone the **Eckasha Psonn**, softly before you inhale Um'-ah-A' ThrA'-E-na-A' Ec'-ka-sha' 3 times **INHALE**, using the Inhale breath to **energetically grab the Pale Blue Eckasha Sphere** located at the Pineal, and on the **EXHALE**, use the Exhale Breath to **push the Eckasha Sphere** all the way down to **Chakra - 13 at Earth's Core** as you again tone the **Eckasha Psonn**, Um'-ah-A' ThrA'-E-na-A' Ec'-ka-sha' 3 times Try to hear a sound tone as the Eckasha Sphere hits the Planetary Shield at Earth's Core.

3 Repeat the **Eckasha Psonn 3 times** before you inhale Um'-ah-A' ThrA'-E-na-A' .Ec'-ka-sha' **INHALE** using the Inhale breath to draw the **Eckasha Sphere up to your Personal Maharic Shield** 12" below your feet and EXHALE while watching the Eckasha Sphere become a Pale Silver - Blue Sphere that expands outward to form a large sphere Toning the **Eckasha Psonn** 3 times and imagine that your **Maharic Shield** pops out as a Pale Silver disc, about 4' in diameter, surrounded by a coating or aura of **Pale Blue Light** with the Eckasha Heirophant symbol at its center

4 Bring your **attention to the center of your Maharic Shield** 12" below your feet , tone the **Eckasha Psonn 3 times** and **INHALE**, using the Inhale breath to draw the **Eckasha Heirophant symbol** (without Pale Blue Sphere) from the Maharic Shield center up into the **4th Heart Chakra EXHALE**, using the Exhale

breath to expand the frequencies of the Eckasha Code from the Eckasha Heirophant into the Heart Chakra as you softly tone the **Eckasha Psonn** 3 times

5 Tone the **Eckasha Psonn** again 3 times and **INHALE**, using the Inhale breath to energetically **grab the Eckasha Heirophant symbol** at the 4th Heart Chakra, and EXHALE using the Exhale breath to push the **Eckasha Heirophant up into the 14th Chakra** 36" above the head Tone the Eckasha Psonn again and imagine that the **Eckasha Heirophant is spinning in a clockwise direction (from your right side to your left side) in the 14th Chakra** As you do this try to feel / sense the energy around you, just a few inches out from your body

5 Now, move your attention to your Maharic Shield 12" below your feet, take a couple of relaxing breaths, and **INHALE deeply**, using the Inhale breath to **pull Pale Silver and Blue energy upward** from your Maharic Shield to **Chakra-14** 36" above your head, **pulling your Maharic Seal Pillar upward and latching it onto your 14th Chakra** This procedure activates your **Temporary Maharic Seal Pillar** amplifying its intensity and strength with the Kee-Ra-ShA frequencies of the Eckasha Code Feel the sensations of amplified Eckasha Code energy just a few inches from your body now - try to sense the difference between the amplified Eckasha Code frequencies and those usually generated by the Maharic Seal alone

7 Now envision the 4" diameter **Pale Silver Cord of Maharic Light** that would normally come up with activation of your Maharic Seal Pillar and focus on **Chakra -13** at Earth's Core **INHALE**, using the Inhale breath to draw the Maharic Cord of Pale Silver energy up into the body and to the **4th Heart Chakra** center, expanding the Pale Silver energy to form a **Pale Silver Maharic Sphere** of D-12 frequency within the **4th Chakra EXHALE**, using the Exhale breath to send your attention downward to **Chakra-13** at Earth's Core **INHALE**, using the Inhale breath to bring another load Maharic frequency up form the Planetary Shields to the **4th Heart Chakra**, expanding it into the Pale Silver Maharic Sphere Repeat this **Inhale-up / exhale-down Maharic Energizing Breath** several times, noticing that the **Maharic Cord grows larger** with each breath, expanding from approximately 4" to 6" to 8" in diameter, until finally the Maharic Cord expands outward to from a skin around, and within every cell of your body The Maharic Energizing Breath loads your D-4 Astral field with Maharic Frequency.

8 Move your attention to the Pale Silver **Maharic Sphere** you have created in your 4th - Heart Chakra INHALE, using the Inhale breath to move the **Maharic Sphere up to meet the Eckasha Heirophant** at the **14th Chakra** 36" above your head As you do, sense a **Sheath of Eckasha Code-charged Pale-Silver Maharic Frequency** encasing your **D-1 etheric body**, radiating from **within the body to about 1" above the skin**. This Pale Silver Maharic "**Christos Skin**" charges and saturates your etheric body with Eckasha Code amplifies D-12 Maharic Frequency sub-harmonics, try to sense and experience directly the peacefulness and all-knowing nature of this frequency

9 Now for **3 final breaths** Tone the **Eckasha Psonn**, Um'-ah-A' ThrA'-E-na-A' Ec'-ka-sha' 3 times **INHALE** and **EXHALE**, using the Exhale breath to expand the Maharic Sheath "Christos Skin" further outward around your body and into

your Auric Field repeating the **Eckasha Tones** 3 times, as the Pale Silver Mahanc Sheath **Christos Skin** begins to assume the **tear-drop shape** of the **Eckasha** Repeat the **Eckasha Psonn** again, **INHALE**, then **EXHALE** and as you repeat the tones see of feel the **Pale Silver Eckasha** tear-drop **expand fully outward into your Auric Field** its top-point anchored in the **14th - Chakra** 36" above your head, its bottom embracing **Chakra-13** at Earth's Core below your feet Repeat the Eckasha Psonn tones, **INHALE** and on the **final EXHALE** expand the Pale Silver Eckasha "Christos Skin" Mahanc Sheath **out into the Universe** as far as you can toning The Eckasha Psonn for the final time

10 You may close by softly singing the **Psonn of Lyra** ("Invocation of the Maharata" Technique-9a on the Contact Course CD PC-1/CDT and Dance For Love Workshop)

Astral Awake, Aware & Able
Network Sensing, Projection, & Shape-shifting 101
(Elros Flame Activation Level-1)

Purpose: Technique-2 is designed to release the *Dimensional Lock-3 Seal*, between the *D-3 Mental Body* and the Density-1 *Radial Body Eiros field* bringing the D-1 Atomic-Etheric Body out of Density-1 biological phase lock.

Preparation: ***Eckasha Quick Seal Activation*** to activate D-12 Eckasha Code amplified Mahanc Current. Also you may choose to use a piece of **Celestite Crystal** in the corresponding steps of this technique to amplify the frequencies generated.

Procedure:

1. Sit comfortably with eyes closed and slow breathing rate to about one half speed. Imagine that within the **center of your brain** there is a **small, dimly lit circular room**, with a gently **spiraling staircase** descending downward into a ***calm pale blue-gray space of energy within you*** that is called the "**Sleeping Room**". Place the focus of your mental attention in the **small circular room** at the top of the staircase. It is **dimly lit** in this space at the present time, so you will need to **FEEL THE SENSATION** of being within the circular room until your inner eyes adjust to the dim light. Feel the sensations around your physical body as if you were in a small, circular room. Observe ....What temperature is the air as it touches your skin cool warm, cold, hot , comfortable? Observe... Is there any sound in this space, and if so what kind of sound? Observe....Can you see any in this dimly lit space, objects, color, light?

2. Imagine that the **circular room is physically real** and that your **physical body is standing within** it. With eyes closed, **sense** with your physical and mental bodies **where the entrance to the spiral staircase is positioned**. If the spiral staircase were to magically open up now, **emerging from your physical body and into the room** you are now physically sitting in, **SENSE the area of your physical body from which the staircase would emerge**. this area represents your **natural "Departure Point "**. Is it to your left or right side, directly in front or in back of you? Is it above or below the navel? Is it above or below your head or feet? **Everyone has a Departure Point**; it is the area in the body template from which the metal body consciousness naturally expands to enter states of projection. **If at first you are unable to sense the Departure Point, simply "*Imagine where you would like it to be and put it there*".**

3. Once you have located or created your Departure Point move the focus of your mental attention to this area of your body and imagine that your awareness is now poised at the top stair of the spiral staircase. The **Staircase extends downward from your Departure Point** into an area that resembles a **pale- blue-gray tunnel**. SENSE the location of the **staircase HAND-RAIL**, and imaging yourself **reaching out to grasp it** with the appropriate hand. With your physical palms resting in your lap, **SENSE the FEELING of the HAND-RAIL** within the **palm of your physical hand**, and **physically grasp the "invisible Hand-Rail"** with your chosen hand while it rests loosely on your lap now modeling the grasping gesture. The Hand-Rail is your guide as you prepare to descend the spiral staircase to the "Sleeping Room" below.

4 Using the **IMAGINED SENSATION of the Hand-Rail** in your palm as your guide, imagine now that your mental awareness begins to slowly walk down the dimly lit stairway. **COUNT EACH OF THE STEPS YOU TAKE** as you **slowly descend...1..2..3 to ...22** everyone will have at least 22 **Steps**, some people will have more. If you sense that more steps are there after the 22nd Step, count **the remaining steps** while imagining you are **rapidly walking down** them to the bottom. **Remember how many additional steps are there** with repeated practice of this technique the steps below Step 22 will "disapear" and you wil eventually find the 22nd Step is the bottom step that leads directly into the pale-blue-gray "**Sleeping Room**".

5. Now Imagine that you are standing at on the 22nd (or bottom) **Step**, and **release the Hand-Rail** while allowing your hand to relax in your lap. You may still experience very little visual sensory data as you enter the pale-blue-gray Sleeping Room. Imagine that you are **stepping from the 22nd Step to the granite floor of the Sleeping Room**, while Imagining the Sleeping Room as a **Circular Granite Cave** that is dimly lit with a **very pale, diffused blue light**. In the center of the Sleeping Room there is an **ancient granite slab** that rises up from the floor to the height of a dining table. Imagine that you are **slowly walking forward with one**

hand extended to "feel your way along", as if moving through your physical home in the dark. Continue to SENSE that you are walking forward in the Sleeping Room until your extended hand touches the raised granite slab in front of you. When you reach the granite slab, imagine that you are reaching forward to retrieve something that sits upon the slab.

6 Imaging that you are FEELING the top surface of the slab searching with your fingers to locate the small object awaiting your retrieval. The object is a very-pale-silver-blue Celestite Crystal, spherical in form, about the size of an orange, with an unpolished, rough-hewn texture. The Celestite Crystal is the door-key to your Density-1 Etheric Body. Imagine picking up the Celestite Crystal in your RIGHT HAND, while modeling this hand gesture with your physical Right Hand as it rests in your lap. SENSE the size, weight, texture and temperature of the Celestite Crystal with your physical hand as if the invisible object were there. INHALE pale-silver Maharic Current from Earth's core up into your body through your Central Vertical Current to the 4th Heart Chakra, then EXHALE the Maharic Current from the Heart Chakra down your RIGHT ARM into your palm and into the Celestite Crystal. Take 3 more Inhale-Exhale Maharic Breaths, each time energizing and activating the Celestite Crystal in your palm. At the end of the last EXHALE, imagine that the Celestite Crystal is now glowing and pulsating with an aura of pale- silver-light. You may see this pale-silver-blue aura around the Celestite Crystal in your Inner Vision and may sense the weight of the Crystal in your palm growing slightly less heavy; you may also sense nothing, but even so the Celestite Crystal is activated.

7. With eyes closed, move your physical right hand, imagining the activated Celestite Crystal within it, to a point on your physical body just below the NAVEL. "Cup" your hand over this body area, as if the invisible crystal was positioned between your palm and your body. INHALE a Maharic Breath up to the Heart Chakra and EXHALE the breath down your right arm into and THROUGH the Celestite Crystal. As the breath carries the Maharic frequency into your body there is a sensation of mild "buzzing" in the area just below the navel as the DATA-KEY stored in the Celestite Crystal moves into the corresponding "Lock" on the Etheric Body "Door". If you do not feel the "buzzing" sensation, send up to 3 more Inhale-Exhale Maharic Breaths through the Celestite Crystal, to amplify the Maharic Charge that will release the Data-Key. (Use of a physical Celestite Crystal in this technique will also assist in strengthening the frequencies generated). After 3 Maharic Breaths sufficient frequency will be generated, even if you do not yet feel the "buzzing" sensation.

8. As the Data-Key releases, imagine that your body absorbs the entire Celestite Crystal, removing it from your palm and transferring the Crystal into the Etheric Lock below the navel. Let your right hand rest gently in your lap while shifting your mental focus to area of the body where the Crystal has entered. Imagine now that you can sense the weight and gentle buzzing of the Celestite Crystal within your physical body below the navel. The Crystal now rotates slowly and pulses in a gentle rhythm, on every pulsation releasing a pale-silver-blue Celestite wave-field of frequency Rays that contain the natural activation code mathematical program for your personal Etheric Body. Try to become aware of each gentle pulse of the subtle Celestite Wave, or "C.WAVE", field as it emanates from just below the navel and spreads outward in all directions through every atom in your body, giving your D-1 Etheric Body Field its "Ancient Wake-up Call". Relax and breathe slowly for a few moments, to "get in touch with" the presence of the pulsing Celestite Waves. The "C.WAVES" are there even of you cannot yet sense their presence; your D-1 Atomic-Etheric Body does sense them and responds accordingly.

9 After a few moments of sensing the C.WAVE pulses moving through your body, INHALE Maharic Current up to the 4th Heart Chakra, then EXHALE the Current within the 4th Chakra to form a small, pale-silver "Maharic Ball" about the size of a golf-ball, within the 4th Chakra. Take 2 more Inhale-Exhale Maharic Breaths, using each subsequent Exhale to expand the Maharic Ball from golf-ball size, to "orange" size then to "grapefruit size", while observing the sensation of the Maharic Ball expanding in your Heart Chakra. Take a final Maharic Breath, this time INHALING Maharic Current directly into the Maharic Ball and using a forceful EXHALE breath to "burst" the Maharic Ball while pushing the released Rays of Maharic Current throughout your entire body and outward into your auric field.

10 Now, move your attention down to the point below the navel where the Celestite Crystal entered the body this body point is called the E-Umbi (E- Um' BE) SLOWLY INAHLE Maharic Current upward from Earth's Core (Chakra-13) TO THE E-UMBI ONLY, by keeping the chest, diaphragm and lungs as stationary as possible and allowing the SLOW inhale breath to expand your ABDOMEN and "belly" instead of expanding the lungs and upper portion of the body. This is called ABDOMINAL BREATHING, a specialized breathing technique for running Kundalini and higher Life Force Currents into various "hard to access" areas of the personal bio-Shields. Take a few Maharic Breaths in the Abdominal Breathing posture to become more familiar with this breathing shift After a few practice breaths initiate the Activation Breath INHALING Maharic Current into the E-Umbi while expanding the abdomen then HOLD this breath for a moment while focusing mental attention on the Celestite Crystal in the E-Umbi EXHALE SLOWLY, using the Exhale breath to push more Maharic Current downward from the Heart Chakra to the E-Umbi. Quickly return to regular, non-controlled breathing rhythm, re ax and breath gently for a few moments waiting for a very subtle "pop" sensation or sense of expansion or warmth to occur within the E-Umbi, as the E-Umbi Lock Seal *(Dimensional Lock-3 Mental Body Seal)* releases, freeing the D-1 Atomic Etheric Body for merger with the D-3 Mental Body to initiate D-3 Mental Plane Projection Travel.

11. As the E-Umbi Lock Seal releases, you may or may not experience a momentary, sense of "light-headedness" or mental "spaciness" as the D-3 Mental Body capsule opens and expands into the Etheric Body blueprint. The Etheric Body exists as a D-1EirA Primal Current energy field within and surrounding every atom, and which extends like a "form-fitting pale-blue- gray energy space-suit" around the entire physical body. The Etheric Body is now ready for "independent travel" under the direction of the D-3 Conscious Mind "Ego". How quickly one will become able to hold clear mental focus within the Etheric Body Vehicle depends upon the personal level of DNA Template activation, when DNA Strand Template-4 FULLY activates, the D-3 mind can simply shift its attention into the Etheric Body and "Step outside of" the physical body for travels in the D-3 Mental Plane. Before full Strand-4 activation there will be various sensual and experiential phenomenon associated with the accelerated Strand-4 activation initiated through this exercise.

12. Relax and breath gently, with eyes closed, and imagine the Etheric Body "spacesuit" or "body replica"; imagine that you can see its pale-blue-gray form sitting within your physical body in exactly the same position as the physical body Imagine now that you can fully direct the Etheric Body, and move the LEFT ETHERIC ARM upward from your lap to a position over your head, as if you were "raising your etheric hand" Use the Mental Command, "THE ARM IS UP NOW" as you "play " with the Etheric Arm, trying to get its to respond You will know that your have "made the connection" when you begin to have a subtle but progressively more distinct sense that a "lighter weight arm" has move to a different position than the physical arm Regardless of whether or not you can "feel the Etheric Arm", next give the mental command "BODY RELEASE NOW-*RIGHT*", while imagining that you and your Etheric Body are slowly standing up and moving out to the RIGHT (NOT LEFT) right side of the physical body. Imagine that you in your "Pale-blue-gray spacesuit" are now moving to a different position in the room, then out the door. See how far your attention can follow the Etheric Body before you loose track of its imagined projection.

13 Next, try to "SHAPE-SHIFT". In your Pale-blue-gray spacesuit, imagine that you are walking back to stand beside the RIGHT side of your physical body. Unlike the physical body in its present condition, the Etheric Body has more flexibility of form than that currently available on a physical level. Realize the YOU ARE THE SPACESUIT . It s the form that you consciousness carries in communion with the Etheric Body just as your physical body is form your consciousness carries when you are in biological D-3 focus. Choose a FORM ..an object, plant an mal etc. and imagine that your Etheric Body is now a pale-blue-gray "Cloud" of energy, hanging in the air to the RIGHT of your physical body awaiting your command as to what form it will become Hold in mind the image or intention of the form you wish to create then visualize or imagine that your Etheric Body has complied and "turned itself into the form" as the pale-blue-gray form now hangs in the air at the RIGHT side of your body. Try to feel the sensation of BEING this form, and of moving AS this form, across the room etc With practice Etheric Body perception will progressively "turn on" and this exercise will take on the very REAL experiential quality of Etheric Body D-3 Mental Plane Projection.

The Eiros Flame and the Silver Sanctum

Activating the Celestite Crystal & the Etheric Body Eckasha Seal

(Eiros Flame Activation Level-2)

Purpose: Once the E-Umbi passage below the navel has been opened through release of the Celestite Crystal of **Dimensional Lock-3** the D-3 Mental Body field **opens into the Radial Body Eiros Field**, causing the polarized D-5/ D-7 Eiros to de-polarize to a **D-12 Manu Reion Field** the Density-1 body is prepared to receive the frequencies of the **fully activated Celestite Crystal** and the Density-1 Eiros Flame Eckasha Body , or **"Silver Sanctum"**. Activation of the Eiros Flame **opens the "Manu Window"** surrounding the **Density-1 Hove Body**, which will begin activation of the **Density-1 Manu Windows** in the nucleus of every atom in the body.

Preparation: ***Eckasha Quick Seal Activation*** to activate Eckasha Code amplified D-12 Maharic Current. Also, you may choose to use a piece of **Celestite Crystal** in corresponding steps of this technique to amplify the frequencies generated. ***Astral Awake, Aware & Able*** *Eiros Flame Activation Level-1* releases Dimensional Lock-3 Seal between D-3 Mental Body and Density-1 Eiros Field to bring the D-1 Atomic Etheric Body out of biological phase-lock.

Procedure:

1. Relax and breathe slowly while **focusing the mental body attention** on the **E-Umbi point** just below the navel. Imagine your **consciousness as a spark of pale silver Maharic light, placed within the Celestite Crystal Sphere within the E-Umbi point.**

2. With your **attention focused in the Celestite Crystal** at the E-Umbi, give the **mental command "Shift NOW"** to the **Etheric Body vehicle**, while **imagining your Etheric Body moving out to the RIGHT of your physical body** with the **"Silver Spark"** of your consciousness placed within the **brain center Pineal Gland of the ETHERIC Body.** From the Etheric Body the Eiros Flame within and surrounding the body can be activated.

3. Using the vertical breathing rhythm of running the Maharic Current within your physical body, you will move the Silver Spark within the Etheric Body. **INHALE Maharic Current** up from Earth core and into the **4th Heart Chakra. In one breathing motion, EXHALE the Maharic Current into the Heart Chakra then direct its flow downward to the Celestite Crystal** at the E-Umbi. Take **2 more Maharic Breaths**, using each EXHALE to expand Maharic Current into the Heart Chakra then down into the Celestite Crystal. Following the last Maharic Breath, **INHALE Maharic Current up from Earth core** directly into the Celestite Crystal at the E-Umbi. **INHALE DEEPLY with your attention focused on the Celestite Crystal then EXHALE forcefully into the Crystal, while imagining that the Celestite Crystal moves with the breath into the E-Umbi CORD and to the RIGHT**, passing from your physical body into the **E-Umbi of the ETHERIC Body.** Imagine that the pale-silver-blue Celestite Crystal is now nesting comfortably within the **E-Umbi point of the Etheric Body.**

4. Bring your attention to the **pale-silver Spark at the Pineal Gland of the Etheric Body. INHALE** in the physical body, then **EXHALE forcefully**, while imagining that the **Silver Spark "rides the breath current"**, moving rapidly **down from the Etheric Pineal into the Celestite Crystal at the Etheric E-Umbi point.** When the Silver Spark intersects with the Celestite Crystal a momentary **etheric "flaring" occurs**, as the **Celestite Crystal bursts into a small Pale-silver-blue EIROS Flame about 1 ½ high within the Etheric Body E-Umbi. INHALE then EXHALE**, and imagine that the **Pale-silver-blue Eiros Flame spreads throughout every atom of the Etheric Body**, turning the pale-blue-gray Etheric Body into a **brilliant, glowing, shimmering Pale Silver-blue Etheric body** that glows and gently **pulses**, sending **Rays of Pale Silver-blue energy outward through and beyond the Etheric Body** into the bio-field with every pulse.

5. Focus your attention on the **small Eiros Flame at the Etheric Body E-Umbi** and **INHALE**, using the inhale breath to draw the **Eiros Flame through the E-Umbi CORD and into the physical body E-Umbi point. EXHALE forcefully**, using the exhale breath to **push the Eiros Flame down to the 13th Chakra at Earth's core.** When the Eiros Flame enters the Chakra Seals of Chakra 13, again the **Eiros Flame momentarily "flares"**, filling every atom in the physical body with **Pale-silver-blue Eiros-Maharata Divine Blueprint**

frequency. SENSE the release of the EIROS Wave or "E.WAVE" within the physical body as a **gentle "ripple"** of energy that moves simultaneously in all directions throughout the physical body

6. With attention focused on the Eiros Flame at Chakra-13, INHALE DEEPLY and **draw the Eiros Flame upward to the 4th (Heart) Chakra** Focus your attention on the INSIDE of the Eiros Flame, then EXHALE forcefully , using the Exhale breath to rapidly expand the Eiros Flame from within the Heart Chakra and outward through the body, until the Eiros Flame is fully expanded around the entire body and outward several feet .nto your Auric field, forming the Pale-Silver-blue Eckasha "Inner Sanctum" body Capsule.

7. Direct your attention back to the ETHERIC Body positioned to the RIGHT of your physical body. **INHALE, drawing the Etheric Body horizontally back into the physical body** When the 2 bodies rapidly and fully align the **activated Eiros Flame Eckasha Capsule will momentarily "flare"**, as the **Eiros Flame phase-locks within both the Etheric and Physical bodies.** ***The Eckasha Seal Eiros Flame and the Celestite Crystal are now fully activated.***

   The Celestite Crystal will remain in position at the **Etheric Body E-Umbi**, until you next use the Technique-1-2-3 sequence to re-activate and amplify the Eiros Flame activation, at which time the Celestite Crystal will again be found on the granite slab within the "Sleeping Room" at the bottom of the 22 Step Spiral Staircase.

Commanding Silence from the "Inner Throne of Power"
(Amoraea Flame Activation Level-1)

Purpose: To create a calm, clear space in the D-3 Mental body, and quiet the "inner chatter" of Sub-personality Fragments Figments, Elementa, Attachments and Shadow that emerge from the D-1/D-2 Sub-conscious Mind during DNA Template activation and spiritual integration. Empowering the relationship between D-3 Ego and the Higher personal Inner Christos to strengthen the Ego's ability to reclaim its naturally intended power as co-director and healer of the Sub-conscious forces. Frequent use of the full technique will, over time, create a **"Sub-conscious healing field"** within you that functions on "Auto-pilot" as a **Subliminal Self-healing Empowerment Program** that progressively imbeds within the DNA Template to heal the distorted Template imbedding of the Shadow.

1. After running the Eckasha Quick Seal Activation, close eyes and breathe slowly for a few moments. Move your mental attention to a **point of focus at the top of the breastbone**, at **Chakra-8**, just above Chakra-4 and below Chakra-5, below the clavicle. Beneath this position on the physical body lies the **Azur-A**, the tiny **"central control center"** for the embodied Kathara Grid Template, within the base of the Thymus Gland. With attention focused in the Azur-A, imagine that a deep-Azure-blue **Azurite Crystal Sphere** is located within the Azur-A; within the Azurite Crystal lies the **"Throne of Power"** the Center Point of the embodied **Ecka God-Seed**, through which the **Eternal Flame of Amoraea** embodies.

2. Imagine now that your awareness is a **Spark of Pale-silver Maharic Light**; AS this Spark of Maharic Light, imagine that you are **traveling into the center of the Azurite Crystal Sphere**, to the **Gateway of the Amoraea Flame of Eternal Christed Love.** Imagine **Amoraea Gateway as a tiny Maharic Silver-Egg**, the cosmic **Amoraea Egg**, encased within a **deep-Azure-blue spherical standing-wave**. Imagine that you, as the eternal **Maharic Spark** move to the center of the Amoraea Egg within the Azurite Crystal. You have entered the place of **your Eternal Birthright**; you have entered the **Hallowed Ground** of your original **Divine Heritage** as a living expression of the ONE God-Source. The Amoraea Egg, within the Amoraea Gateway and Manu Azurite Flame is the **Eternal STILL POINT** through which the **"Still Small Voice of the God-Self Within" speaks**. Visualize or intend that **you, as the Spark of Maharic Light, are now positioned within the *Amoraea Gateway***...a Pale-silver Spark of Light encased within the Pale-silver Amoraea Egg, within the Eternal Azurite Flame of the deep-Azure-blue Azurite Crystal Sphere, the inner Ecka Center-point of Creation. **Here, all things are eternally still, calm and peaceful.** Here is the **SANCTUARY WITHIN**, the **INNER TEMPLE OF Khem-a-lo-ha-tea**, the **Eternal "Safe Ground" and Perpetual Guardian of one's personal, eternal, DIRECT relationship to God –Source**

3 **INHALE Maharic Current up from Chakra-13 Earth core and into the Azurite Crystal center, directly into the Amoraea Gateway, through the Azurite Flame and into the Amoraea Egg. EXHALE gently filling the Amoraea Egg with Maharic Current.** Imagine now that the Amoraea Egg has begun to awaken, responding to your intention and desire to return to the AT-ONE-ment with your God-Self. **the Amoraea Egg now fills with pulsating Pale-silver Maharic Light, and expands, growing larger and larger, extending outward to encase your physical body in a beautiful, shimmering Egg of Eternal Life.** Imagine now that you can **SENSE the living presence of God-Source and your personal God-Self EVERYWHERE around you. You are encased within its eternal love, mercy, protection and Divine Understanding.** Imagine that you can **see and feel** the **Amoraea Egg fully encasing your physical body** and that an **Azurite Flame** of deep-Azure-blue **extends into the room, fully enshrouding you within the Amoraea Egg capsule.** Extend your imagination to remember that beyond the Azurite Flame is the **Azurite Crystal Sphere. SENSE the Azurite Crystal as extending 20 feet or more around your physical body in the room. You have brought your "Throne of Power" directly into the 3-D world now; you ARE the STILL POINT NOW.** You have brought the **Amoraea Gateway** directly to the doorstep of D-3 finite creation.

From this point of eternal power and love you can heal all, understand all, love all, co-create all. Within the Amoraea Egg you and God-Source are one. You ARE NOW your GOD-SELF.

4. Breathe slowly and gently and FEEL THE TRUTH OF YOUR GOD-SELF ...HERE,...NOW ...ETERNAL FEEL the TRUTH of your PEACE, acknowledge and fully affirm this with strength repeating OUT LOUD the following 'DECLARATION OF THE GOD-SELF", SPEAK THE WORDS OF YOUR TRUTH NOW "*I AM PEACE NOW*"..."*I AM AT ONE WITH ALL*"..... "*I AM IN A SAFE AND LOVING UNIVERSE NOW* .... "*I AM LOVE AND I AM LOVED*"..... "*I AM INNOCENT*".....*I AM HEALED*"..... "*I KNOW MY ETERNAL TRUTH NOW*".... *I AM MY ETERNAL TRUTH NOW*"....."*I AM ONE WITH GOD NOW*".... *I EXPRESS AS GOD NOW*". ..."*AND SO IT IS!*" Repeat this affirmation of the Eternal Truth of the God-Self until you begin to FEEL THE REALITY and FREQUENCY of the words Speak this TRUTH to every atom and cell in your physical body. Speak this truth strongly and continually until you have generated a critical mass of energy and intention that is strong enough to call to silence, surrender and healing all shadow voices of fear and limitation. Repetition of this truth will build the reality of its strength into a tangible, impermeable living wave-form of Eternal Truth, Love and Power.

5. INHALE deeply, drawing Maharic Current up again to the Azur-A Point at the Thymus Gland. EXHALE Maharic Current into the Azur-A and FEEL the Maharic Current rapidly expand to every atom and cell in your physical, emotional and mental body. The Maharic Current is the CARRIER WAVE through which your affirmation of ETERNAL TRUTH is carried into every part of your being Notice now if there is any tension, fear, discomfort, unease, mental-emotional-physical distraction occurring within your being. Pay attention to how your BODY feels, and SEEK OUT areas of self that are resisting the SPOKEN TRUTH of the GOD-SELF WITHIN. When you locate an area of resistance, focus your attention directly upon it, and mentally RESTATE your DIVINE CONVICTION as follows:.." *I AM THE VOICE OF PEACE*"..... "*I AM THE VOICE OF KNOWING*" ..."*I AM THE VOICE OF GOD-SELF*"...."*I NOW ADDRESS THEE, AND SEND TO YOU NOW, FROM MY UNLIMITED STORE OF ETERNAL POWER AND LOVE, ANY HEALING THAT YOU MAY REQUIRE*". After mentally addressing and sending the Divine Intention of Healing and Love to the area of resistance within you, again INHALE Maharic Current up into the Azur-A Point. EXHALE the Maharic Carrier Wave into the Azur-A, allowing it to "carry your stated gift of healing and love" to every area of your being. Imagine that you are directing part of the Maharic Carrier Wave directly to the discovered areas of resistance Breathe several Maharic breaths into and through the Azur-A "Throne of Power", sending the gift of love and healing to all dis-harmonic energies within you.

6. Take a DEEP INHALE of Maharic Current into the Azur-A and HOLD THE BREATH as long as comfortably possible, while mentally affirming: *"I DECREE THE FOLLOWING INTENTION FROM THIS, MY THRONE OF POWER"*. . . EXHALE forcefully and FEEL your entire body, every atom, every cell, poise itself in readiness to receive Divine Instruction. Mentally or out loud affirm the following:...."*I RETURN NOW TO MY WORLD OF INTENTION, IN CALM AND CENTERED PEACE AND PRODUCTIVITY*". ... "*I COMMAND NOW THE SILENCE OF THE ETERNAL GOD-MIND*" .... "*I EMBRACE NOW THE STILLNESS WITHIN*".... "*I GO FORTH NOW IN JOYOUS VICTORY*"....."*SO AS IT IS DECREED, SO AS IT IS DONE!*"

7 INHALE Maharic Current directly from the Azur-A, then EXHALE "horizontally", using the Exhale breath to expand a Maharic Wave DISC outward from the Azur-A, extending its perimeter to touch the inside of the Amoraea Egg around your physical body INHALE, and imagine that the Maharic Disc is now contracting with the inhale breath, drawing the Amoraea Egg, Azurite Flame and Azurite Crystal back into the Azur-A. Exhale once more into the Azur-A using the Exhale breath to deposit your "Throne of Power" back into its home station within the Azur-A in the Thymus Gland. Open your eyes and FEEL the LOVING POWER that lives always now within you In times of stress, draw Maharic Breath into the Azur-A and Azurite Crystal to stimulate and re-activate the God-Self Truth affirmation-wave.

Awakening the Flame of Amoraea

Azurite Crystal & Density-2 Soul Body Amoraea Flame Activation

(Amoraea Flame Activation Level-3)

Purpose: To activate the Density-2 Silver Sanctum and Amoraea Flame for formation of the TRANS-HARMONIC Amoraea Flame Eckasha Vehicle. Activation of Amoraea Flame opens the **"ManU Window" surrounding the Density-1 and Density-2 Hova Bodies**, which will begin activation of the **Density-1 & Density-2 Manu Windows** in the nucleus of **every atom in the body and soul body.**

Procedure:

1. Sit comfortably with eyes closed and slow breathing rate to about one half speed. Imagine the place within the **center of your brain** where the **small, dimly lit circular room** with the descending **spiraling staircase** resides. Place the focus of your mental attention in the **small, dimly lit circular room** in the brain center. It **is dimly lit** in this space at the present time, so you will need to **FEEL THE SENSATION** of being within the circular room until your inner eyes adjust to the dim light. Feel the sensations around your physical body as if you were in a small, circular room. Observe ... What temperature is the air as it touches your skin, cool, warm, cold, hot , comfortable? Observe ... Is there any sound in this space and if so what kind of sound? Observe ... Can you see anything in this dimly lit space, objects, color, light?

2. Imagine yourself **standing within the inner circular room,** at the Brain Center. then visualize or intend that your **imaginary body, standing in the circular room, TURNS TO THE RIGHT from the position in which it was standing.** After turning to the right, imagine now that **a spiral staircase** appears before you, this staircase **ascends upwards, and has 36 steps.** Imagine that the **circular room is physically real,** and that **your physical body is standing within it.** With eyes closed, **sense** with your physical and mental bodies, **the entrance to the ascending spiral staircase.** If the spiral staircase were to magically open up now, **emerging from your physical body, and into the room,** it would ALWAYS appear directly to the RIGHT of your physical body. **SENSE the area to the right of your physical body from which the staircase would emerge.** This area represents the natural **Density-2 "Departure Point ", for all beings carrying the Human or Indigo Divine Blueprint Template. If at first you are unable to sense the Density-2 Departure Point, simply "*Imagine that it is there, opening and ascending upward, to the right side of the physical body.***

3. Once you have located, or imagined, the Density-2 Departure Point, move the focus of your mental attention to this area of your body and imagine that your awareness is now poised at the bottom stair of the ascending spiral staircase. The **Staircase extends upward from your Density-2 Departure Point,** into an area that resembles a **Golden Tunnel.** SENSE the location of the **staircase HAND-RAIL,** and imagine yourself **reaching out to grasp it,** with the **right hand.** With your physical palms resting in your lap, **SENSE the FEELING of the HAND-RAIL within the palm of your physical right hand,** and **physically grasp the "invisible Hand-Rail"** with your right hand, while it rests loosely on your lap ... now modeling the grasping gesture. The Hand-Rail is your guide, as you prepare to ascend the spiral staircase, to the **"Awakening Room"** above.

4. Using the **IMAGINED SENSATION of the Hand-Rail** in your right palm as your guide, imagine now that your mental awareness begins to slowly walk up the dimly lit stairway. **COUNT EACH OF THE STEPS YOU TAKE** as you **slowly ascend....1..2..3 to ...36.** everyone will have at least **36 Steps; the 36th step is the top**

step that leads directly into the Density-2 D-6.5 Indigo-Violet "Awakening Room", which is the Ecka God-Seed Center Point, the Azurite Crystal, and Inner Temple of Khem-a-lo-ha-tea.

5. Now, imagine that you are standing on the 36th (top) Step, and release the Hand-Rail while allowing your hand to relax in your lap. You may still experience very little visual sensory data as you enter the Indigo-Violet Awakening Room. Imagine that you are stepping from the 36th Step to the Aquamarine and Amethyst tile Floor of the Awakening Room, while imagining the Awakening Room as a Circular Aquamarine and Amethyst Tiled Cave, that is brightly lit, with undulating rays of gold, indigo and violet light. In the center of the Awakening Room there is an ancient Yellow Gold Chalice, often called the "Holy Grail" that rises up from the floor to the height of about 4 feet. Imagine that you are slowly walking forward with one hand extended, to "feel your way along through the blinding light rays" as if moving through the light field of a sun. Continue to SENSE that you are walking forward in the Awakening Room, until your extended hand touches the raised Golden Chalice in front of you. When you reach the Golden Chalice, imagine that you are reaching forward to retrieve something that sits inside the upper bowl of the Golden Chalice.

6. Imagine that you are reaching down into the upper bowl of the Golden Chalice, searching with your fingers to locate the small object awaiting your retrieval. The object is a very-deep-Azure-blue Azurite Crystal, spherical in form, about the size of a large marble, with a sparkling, rough-textured surface, covered in minute Azurite Crystal - Cluster Points. The Azurite Crystal is the door- key to your Density-2, Etheric Soul Body. Imagine picking up the Azurite Crystal in your RIGHT HAND, while modeling this hand gesture with your physical Right Hand, as it rests in your lap. SENSE the size, weight, texture and temperature of the Azurite Crystal with your physical hand, as if the invisible object were there. INHALE pale-silver Maharic Current up from Earth's core, into your body, through your Central Vertical Current, to the Azur-A Point in Chakra-8, at the base of the Thymus. EXHALE the Maharic Current from the Azur-A, down your RIGHT ARM, into your palm, and into the Azurite Crystal. Take 3 more Inhale-Exhale Maharic Breaths, each time energizing and activating the Azurite Crystal in your palm. At the end of the last EXHALE, imagine that the Azurite Crystal is now glowing, and pulsating, with an aura of pale-silver-gold-light. You may see this pale-silver-gold aura around the Azurite Crystal in your Inner Vision, and may sense the weight of the Crystal in your palm growing slightly less heavy, you may also sense nothing, but even so the Azurite Crystal is now activated.

7. With eyes closed, move your physical right hand, imagining the activated Azurite Crystal within it, to the Azur-A Point. "Cup" your hand over the Azur-A Point, as if the invisible crystal was positioned between your palm and your body. INHALE a Maharic Breath, up to the Azur-A, and EXHALE the breath down your right arm into your palm, and THROUGH the Azurite Crystal. As the breath carries the Maharic frequency into your body, there is a sensation of mild "buzzing" in the Azur-A area, as the DATA-KEY stored in the Azurite Crystal moves into the corresponding "Lock-6", on the Density-2, Etheric Soul Body "Door". If you do not feel the "buzzing" sensation, send up to 3 more Inhale-Exhale Maharic Breaths, through the Azurite Crystal, to amplify the Maharic Charge that will release the Data-Key. After 3 Maharic Breaths sufficient frequency will be generated, even if you do not yet feel the "buzzing" sensation. (Use of a physical Azurite Crystal in this technique will also assist in strengthening the frequencies generated)

8. As the Data-Key releases, imagine that your body absorbs the entire Azurite Crystal, removing it from your palm, and transferring the Crystal into the Etheric Lock-6, at the Azur-A. Let your right hand rest gently in your lap, while shifting your mental focus to the physical Azur-A, where the Crystal has entered. Imagine now that you can sense the weight and gentle buzzing of the Azurite Crystal within your physical body in the Azur-A. The Crystal now rotates slowly, and pulses in a gentle rhythm, on every pulsation releasing a pale, silver-gold-Azure Blue, Azurite wave-field of frequency Rays that contain the natural activation code, mathematical program, for your personal Density-2 Etheric Soul Body. Try to become aware of each gentle pulse of the subtle Azurite Wave field, (or "A.WAVE"), as it emanates from the Azur-A at the Thymus, and spreads outward, in all directions, through every atom in your body, giving your D-2, Etheric Soul Body Field, its "Ancient Wake-up Call". Relax and breathe slowly for a few moments, to "get in touch with" the presence of the pulsing Azurite Waves. The "A.WAVES" are there even

if you cannot yet sense their presence, your **D-4, Astral-Atomic-Etheric Body, does sense them,** and responds accordingly.

9 Next, **INHALE Maharic Current up to the Azur-A, then EXHALE the Current within the Azur-A,** to form a **tiny, pale-silver, "Maharic Spark" within the Azur-A.** Take 2 **more Inhale-Exhale Maharic Breaths,** using each subsequent Exhale to **expand the Maharic Spark within the Azur-A,** to the size of a "Chicken's Egg" while observing the sensation of the Maharic Egg expanding in your Azur-A. Take a final Maharic Breath this time INHALING Maharic Current directly into the Maharic Egg and using a forceful EXHALE breath to "burst" the Maharic Egg while pushing the released Rays of Maharic Current throughout your entire body and outward into your auric field.

10 Focus your attention on the **Azur-A, where the Azurite Crystal entered** the body **SLOWLY INHALE Maharic Current** upward from Earth's Core (Chakra-13) **to the AZUR-A,** using a deep, steady fluid inhale breath **to initiate the Activation Breath, INHALING Maharic Current into the Azur-A** then **HOLDING this breath** for a moment, while **focusing mental attention on the Azurite Crystal in the Azur-A. EXHALE SLOWLY,** using the **Exhale breath to push more Maharic Current into the Azurite Crystal. Return to a regular, non-controlled breathing rhythm,** relax, and breath gently for a few moments, **waiting for a very subtle "pop" sensation,** or sense of **expansion, or warmth** to occur, **within the Azur-A,** as the **Azur-A Lock Seal** (*Dimensional Lock-6 Density-2 Mental Soul Body Seal*) releases, freeing the Density-2, **D-4, Atomic-Etheric Body, for merger with the activated Density-1, Silver Sanctum, Eiros Flame. The Azur-A Passage, extending between the Density-1 and Density-2 body Azur-A points, is now opened, and the Azurite Crystal is activated.**

11. As the **Azur-A Lock Seal releases,** you may or may not experience a momentary sense of "heat-waves", rising from the neck through the head", or "cranial pressure" inside or surrounding the skull as the D-6, **Mental Body capsule, opens and expands** into the Density-2, **Etheric Soul Body blueprint.** The **Etheric Soul Body** exists as a **D-4, ElrA-plus-ManA, Primal Current energy field,** within and surrounding every atom, which extends like a **"form-fitting, pale-blue-violet-and-gold, energy space-suit",** around the entire physical body. Relax and breath gently with eyes closed, and imagine the **Etheric Soul Body "spacesuit,"** or Density-2 "body replica", imagine that you can see its pale-blue-violet --and-gold form **sitting within your physical body, in exactly the same position as the physical body.**

12 Once the Azur-A passage has been opened, through release of the Azurite Crystal of Dimensional Lock-6 the D-6 Mental Body field opens into the Density-2 Radial Body Eiros Field causing the polarized D-5/ D-7 Eiros to de-polarize, to a D-12 Manu Reion Field. The **Density-2 body** is thus prepared to receive the frequencies of the fully activated Azurite Crystal, and the **Density-2 Amoraea Flame Eckasha Body,** or "Trans-harmonic Amoraea Flame Body". Relax, and breathe slowly while focusing the mental body attention on the Azur-A point in the physical body. Imagine your consciousness as a **spark of pale silver Maharic light,** placed within the **Azurite Crystal,** at the central pale-silver **Amoraea Egg "Throne of Power",** within the **Azurite Flame,** inside of the **Azurite Crystal Sphere.**

13 With your **attention focused in the Amoraea Egg,** at the Azur-A, give the **mental command - "Shift NOW"** to the Density-2, **Etheric Soul Body vehicle** while **imagining your Etheric Soul Body moving out to the RIGHT of your Density-1 physical body,** with the **"Silver Spark"** of your consciousness placed within the **brain center, Pineal Gland, of the Density-2, ETHERIC-Soul Body.** From the Etheric Soul Body, the Trans-harmonic Amoraea Central ManU Eternal Flame, and 6-Dimensional Silver Sanctum, within and surrounding the Density-1 and Density-2 bodies, can be activated.

14. Using the vertical breathing rhythm of running the Maharic Current within your physical body, you will move the Silver Spark within the Density-2 Etheric Soul Body **INHALE Maharic Current,** up from Earth core, and into the Azur-A. **In one breathing mobon, EXHALE the Maharic Current into the Azurite Crystal, at the Azur-A, using the exhale breath to direct the Azurite Crystal horizontally to the RIGHT, while**

imagining that the Azurite Crystal moves with the breath, into the Azur-A CORD, and into the Density-2, Etheric Soul Body. Imagine that the deep Azure-blue Azurite Crystal, is now nestling comfortably within the Azur-A point of the Etheric Soul Body

15. Bring your attention to the pale-silver Spark, at the Pineal Gland, of the Etheric Soul Body INHALE in the physical body, then EXHALE forcefully, while imagining that the Silver Spark "rides the breath current", moving rapidly down from the Etheric Pineal, into the Azurite Crystal, at the Etheric Soul Body Azur-A point. When the Silver Spark intersects with the Azurite Crystal, a momentary Density-2, etheric "flaring" occurs, as the Azurite Crystal bursts into a small, deep-Azure-blue ManU Flame, about 2 ¾ inches high, within the Etheric Body Azur-A. INHALE then EXHALE, and imagine that the deep-Azure-Blue, ManU Amoraea Flame, spreads throughout every atom of the Density-1, and Density-2, Etheric Bodies, turning the pale, blue-violet –and-gold, Density-2 Etheric Soul Body, into a brilliant, glowing, shimmering, Pale Silver-blue, Trans-harmonic Etheric Eckasha body, as the Density-1, and Density-2, Silver Sanctums unite.

16. Focus your attention on the small Amoraea ManU Flame, at the Etheric Soul Body Azur-A, and INHALE, using the Inhale breath to draw the Amoraea Flame through the Azur-A CORD, and into the physical body Azur-A point EXHALE forcefully, using the Exhale breath to push the Amoraea Flame down, to the 13th Chakra at Earth's core When the Amoraea Flame enters the Chakra Seals of Chakra 13, the Amoraea Flame momentarily "flares", filling every atom in the physical and soul body with deep, Azure-blue, Amoraea Divine Blueprint frequency SENSE the release of the AMORAEA WAVE (or "A WAVE"), within the physical body as a gentle "expansion of internal heat, emerging from the Azur-A", that moves simultaneously in all directions, throughout the physical body

17. With attention focused on the Amoraea Flame at Chakra-13, prepare to INHALE DEEPLY, AND SIMULTANEOUSLY , FROM 2 DIRECTIONS in the 2-POINT BREATHING of Amoraea Activation

18. INHALE SIMULTANEOUSLY, breathing Density-2, Indigo Frequency, down from the 14th Chakra above the head, while breathing pale silver Maharic Current AND the Amoraea Flame upward, from Earth Core, bringing the two currents of energy into union within the Azur-A point. Exhale the 2-Point breath within the Azur-A, then complete 3 additional 2-POINT Inhale-Exhale breaths, to activate the Amoraea Flame within the Azur-A.

19. Take a final 2-POINT INHALE , while focusing your attention on the INSIDE of the Amoraea Flame at the Azur-A, then EXHALE forcefully using the Exhale breath to rapidly expand the Amoraea Flame from within the Azur-A, outward through the body, until the Amoraea Flame is fully expanded around the entire body, and outward several feet into your Auric field, forming the Pale, Silver-blue, 6-Dimensional , Trans-Harmonic Eckasha, "Inner Silver Sanctum", body Capsule

20. Direct your attention back to the ETHERIC SOUL Body, positioned to the RIGHT of your physical body. INHALE, drawing the Etheric Soul Body horizontally back into the physical body When the 2 bodies rapidly and fully align, the activated Amoraea Flame, Trans-harmonic Eckasha Capsule, will momentarily "flare", as the Amoraea Flame phase-locks, within both the Density-1, and Density-2, Etheric and Physical bodies *The Trans-harmonic, Eckasha Seal Amoraea Flame, and the Azurite Crystal, are now fully activated*

Shadow Healing Step-2 The DNA Amoraea Buffer

(Amoraea Flame Activation Level-4)

Purpose: To protect the DNA Template & Personal Shields from Shadow Body, Shadow Dancer, "Blue Sword" & Environmental Reversed Currents. Activates, sustains & amplifies Eiros & Amoraea frequencies throughout the Shields and DNA Template creating a buffer field that transmutes Reversed Current Frequencies as they begin activation. When used once weekly in conjunction with Amoraea Buffer Daily Supplement brings Maharic Seal, Eiros and Amoraea Flame into sustained continual activation, setting 12-Strand DNA Template activation, building of the Base-12 Eckasha Merkaba, personal Christos Avatar identity integration and Shadow Healing processes on "Auto-pilot". To generate sufficient critical mass frequency for permanently De-Coding Shadow Dancers and healing and integrating the personal Shadow Body on all 4 density levels. To begin progressive, permanent activation of the full 4-density Eiros and Amoraea Flame Bodies creating eventual full Cruxansatea ManU Window and Eckasha Merkaba Vehicle activation within 4-6 years for potential biological and/or spiritual inner Earth (Aramentania of inner Ecka Universe, Halls of Amenti Star Gate passage.

The Amoraea Buffer

Weekly Procedure: (use of audio tape or CD verbal induction is recommended)

1. Relax, and slow breathing to half normal rate as you call to mind the Eckasha Symbol "tear drop" shape, in Pale Silver, containing a 24 point 3 dimensional Star at it's center (or use the Eckasha-Reuche image IF you have already been working with the Veca Code Induction Techniques); as you would use these symbols as the Heirophant Activation Keys for the Maharic Shield. Imagine the Eckasha Heirophant Symbol at the Pineal Gland at the center of your brain.

2. INHALE, and FORCEFULLY EXHALE, pushing the Eckasha Heirophant from the pineal, down the central vertical current and into Chakra 13, at Earth's Core. Following the EXHALE, hold your breath for 3-4 seconds while imagining 3 tiny Kee Ra ShA Flames: 1 Pale Turquoise, 1 Pale Yellow & 1 Pale Pink – gently bursting upward to surround the Eckasha Heirophant within the 13th Chakra at Earth's Core in response to contact with the Eckasha Heirophant.

3. INHALE the Eckasha Heirophant, with the 3 Kee-Ra-ShA Flames surrounding it, upward to the Maharic Shield Center 12" below the feet, and EXHALE FORCEFULLY while imagining the Eckasha Heirophant and 3 Flames expanding outward on a horizontal plane throughout your Pale Silver Maharic Shield Disc. As the Eckasha & 3 Flames move outward, imagine the Maharic Shield Disc expanding outward to about 4' wide.

4. HOLD the breath for 3-4" following the exhale, while imagining that your 4' wide, Pale Silver Maharic Shield disc at the soles of your feet now vibrates as cycling currents of Pale Turquoise, Pale Yellow & Pale Pink Kee Ra ShA frequencies blend with the Pale Silver D-12 Maharic Current. Try to sense a gentle "buzzing" sensation, as your Maharic Shield frequencies accelerate in oscillation rate to carry the Kee Ra ShA current.

5. INHALE, using the inhale breath to draw a ball of Kee Ra ShA + Pale Silver frequencies into the center of your Maharic Shield from the oscillating Maharic Shield Disc. Imagine that the 4' Maharic Shield Disc remains extended, while the Kee Ra ShA-Maharic ball collects in the center of the Maharic Shield to re-form a "tear drop" shaped Kee Ra ShA Eckasha Heirophant "flame" in the center of your Maharic Shield.

6. EXHALE GENTLY, while imagining the re-formed Kee Ra ShA Eckasha Heirophant flame as a Pale Silver, energized, 3 Dimensional Eckasha "tear drop" which pulses with a repeating cycle of Pale Turquoise, Pale Yellow & Pale Pink bursts of light. This image of the Heirophant, as a 3 Dimensional Pale Silver Eckasha "tear drop" pulsating with repeating bursts of the Kee Ra ShA color sequence will now be referred to as the "Eckasha Flame".

7. INHALE SLOWLY, using the inhale breath to SIMULTANEOUSLY draw 3 Cords of Kee Ra ShA frequency up from the Eckasha Flame stationed at the center of your Maharic Shield 12" below the feet, to the E-Umbi Point, just below your navel. Imagine a thin cord of Pale Turquoise "Kee" current, the D-13 ManU frequency,

extending up from the Eckasha Flame and into the small Chakra in the BALL of your RIGHT foot ..... a thin cord of Pale Pink "ShA" current, the D-15 ErA frequency, extending into the small Chakra in the BALL of your LEFT foot, ... and a thin cord of Pale Yellow "Ra" current, the D-14 ManA frequency extends directly up your central vertical current into the BASE CHAKRA between your legs.

8 Continue the SLOW INHALE, drawing the 3 Kee Ra ShA Currents up into the body at the same speed while imagining that the Pale Turquoise and Pale Pink Currents running into the feet ARC to the CENTER of your body merging with the Pale Yellow center current, the 3 currents joining at the E-Umbi Point just below the navel.

9 EXHALE GENTLY, while imagining that the meeting of the 3 Kee Ra ShA Cords forms a GLOWING Emerald Green Crystal in the E-Umbi Point.

10. INHALE GENTLY, using the inhale breath to draw the Eckasha Flame from the center of your Maharic Shield up through the Pale Yellow Cord in the Central Vertical Current & into the Emerald Green Kee Ra ShA Crystal at the E-Umbi Point. EXHALE GENTLY when the Eckasha Flame has entered the Emerald Green Crystal at the E-Umbi. Breathe gently for a few moments, and try to sense a feeling of warmth, or slight "buzzing" sensation at the E-Umbi Point below the navel.

11. INHALE a Pale Silver Cord of D-12 Maharic frequency up from the Chakra 13 at Earth's Core drawing it into the Eckasha Flame within the Emerald Green Crystal at the E-Umbi Point. EXHALE FORCEFULLY, using the exhale breath to expand the Eckasha Flame from within, while imagining that the Eckasha Flame & Emerald Crystal "pop", releasing the Kee Ra ShA & Eckasha Flame frequencies into the E-Umbi Point.

12. Breathe gently for a few moments .. and imagine now that a small pale silver-indigo-blue-violet flame, about 2" high, spontaneously ignites within the E-Umbi Point. The E-Umbi Point is the seat of the Celestite Crystal that houses the Pale Silver-Indigo- Blue-Violet Eiros Flame. Activation of the Eckasha Flame, the Kee Ra ShA and Maharic Currents, within the E-Umbi, releases the Power of the Eiros Flame within the E-Umbi Point.

13. INHALE, using the inhale breath to draw the pale silver indigo-blue-violet Eiros Flame up the central vertical current and into the Azur-A Point, at the base of the Thymus gland above the Heart Chakra. EXHALE GENTLY, to deposit the Eiros Flame within the deep, Azure-blue Crystal at the Azur-A Point.

14. INHALE Maharic Current up from the Earth s core, and into the pale silver-indigo-blue-violet Eiros Flame at the Azur-A Point. EXHALE FORCEFULLY, using the exhale to expand the Eiros Flame from within, until it "pops" within the Azur-A Point. Imagine the pale silver-indigo-blue-violet Eiros frequencies spreading throughout the Azur-A and base of the Thymus gland.

15. Breathe gently for a few moments now, while imagining a small Azure-Blue Flame about 2" high, spontaneously ignites within the Azur-A Point. The Azur-A Point is the seat of the Azurite Crystal, that when fully activated houses the Radial Body Emerald Amoraea Flame.

16 INHALE pale silver, D-12 Maharic Current up from Chakra 13 at Earth's Core into the small Azurite Flame at the Azur-A Point. EXHALE FORCEFULLY, using the exhale breath to expand the Azurite Flame outward from the Azur-A Point into the Auric Field, completely permeating, and surrounding, the physical body. Imagine that as the Azurite Flame expands outward, it's color changes from deep Azure-blue, to deep Emerald green-blue, as the ManU, ManA, ErA frequencies of the full Amoraea Flame Activate within the Azur-A Point.

17 Breath gently , while imagining that the Deep Emerald Green-Blue Amoraea Flame continues to expand throughout the Auric field Imagine the Auric Field forming a large 3-D Eckasha "tear drop" Emerald Flame, with a pale-silver-indigo-blue-violet Eiros "Silver sanctum" lining all round the body The base of the Emerald Amoraea Flame expands downward to Chakra 13 at Earth's Core while the tip expands upward to Chakra 14, 36" above the head Bring to mind the 4' wide Maharic Shield Disc, 12' Below your feet, and Imagine the Emerald Green Amoraea Flame is now fully expanded to encompass the Maharic Shield

18. Now, return your attention to the Azur-A Point at the base of the Thymus gland. INHALE Pale Silver Maharic Current up from Chakra 13 to form a small, 2", Pale Silver Maharic Flame in the Azur-A. EXHALE FORCEFULLY, using the exhale breath to PUSH the Pale Silver Maharic Flame UP from the Azur-A and into the Pineal Gland at the center of the brain.

19. Breathe gently, and bring your attention into the Pineal gland at the center of the brain. Imagine that the pale Silver Maharic Flame holds 2 tiny crystals at it's center, that appear as Sparks of Light: one the vibrant violet of D-7 frequency, the other, the metallic yellow-gold of D-8.

20. INHALE Maharic Current up from Chakra 13 and into the Maharic Flame stationed in your Pineal Gland. EXHALE FORCEFULLY, using the breath to fill the Maharic Flame with a burst of Maharic Current. Breathe easy, and imagine that the Violet & Gold Crystals within the Maharic Flame vibrate for a moment, then burst into 2 tiny flames; one Violet, one Gold, within the 2" high Maharic Flame. INHALE Maharic frequency up from Chakra 13, and into the Maharic Flame at the Pineal gland, and gently EXHALE the Maharic Current.

21. Breathe gently and imagine that the tiny Violet & Gold Flames, within the Maharic Flame, FLARE in a Magenta-Pale-Pink Flash, as they de-polarize and combine with the Maharic Flame forming a Silvery-Pink SUN BURST of D-12+ D-15 frequency within the Pineal gland.

22. INHALE Maharic Current up from Chakra 13 ... and EXHALE FORCEFULLY, using the breath to PUSH the Silvery-Pink Sun-burst vertically upwards from the Pineal gland, through the 7th, 10th & 11th Chakras ... and into the 14th Chakra 36" above the head. INHALE drawing Maharic frequency all the way up to the Silvery-Pink Sun-burst in Chakra 14, and ...FORCEFULLY EXHALE the Silvery-Pink Sun-burst all the way down to Chakra 13, at Earth's Core. INHALE AGAIN QUICKLY, using the breath to rapidly draw the Silvery-Pink Sun-burst up the Central vertical current to Chakra 14, 36" above the head, and AGAIN EXHALE FORCEFULLY, using the breath to send the Silvery-Pink Sun-burst down to Chakra 13.

23. QUICKLY INHALE AGAIN, using the breath to draw the Silvery-Pink Sun-burst up into the center of the Maharic Shield 12" below your feet. Imagine the Silvery-Pink Sun-burst as a spinning Silvery-Pink Sphere at the center of your Maharic Shield. Allow the Silvery-Pink Sun-burst Sphere to spin in whatever direction, speed and rhythm it chooses. EXHALE FORCEFULLY, using the breath to push D-12/D-15 Current throughout the Maharic Shield Disc, from the spinning, Silvery-Pink Sun-burst Sphere at the Maharic Shield center.

24. Imagine now that your Maharic Shield is glowing as a 4' wide disc that repeatedly cycles waves of Pale Silver / Emerald Green-Blue & Silver-Pink frequency throughout your entire body and Auric field.

25. The Maharic Shield is now temporarily sealed within the protection of the amplified Amoraea Flame, and this simultaneously creates an Amoraea Seal within, and around, the DNA Template and personal Shields, which will serve to transmute disharmonic, reversed frequencies moving through the DNA from the Shadow Body and Shadow Dancers, and will also transmute disharmonic frequencies coming into the DNA Template from the Planetary Environment, such as "Blue Sword", reversed D-13 Current.

The Amoraea Buffer Seal will sustain in the Maharic Shield and DNA Template as long as the Silvery-Pink Sun-burst Sphere at the Maharic Shield center is present, and remains spinning. The natural D-12 Maharic Seal will remain in sustained, constant activation and will no longer require manual activation as long as Amoraea Buffer Seal activation is consistently sustained.

Repeating Steps 1 – 21 above, **once every 7 days**, and using the following, **Technique-8 Part 2,** *"Amoraea Insta-Buffer" Daily Supplement* **ONCE PER DAY**, will be sufficient to sustain the Amoraea Buffer Seal. If the DAILY routine of using the Amoraea Insta-Buffer is broken by MORE THAN A ONE DAY LAPSE, the use of Steps 1 – 21 above is ESSENTIAL to **reactivate** of the Amoraea Buffer Field.

PART TWO: The Amoraea "Insta-Buffer" Daily Supplement

Daily Procedure:

1 Relax, and slow your breathing to half normal rate, while imagining the Heirophant as the Pale Silver, 3 Dimensional, "tear drop" shape Eckasha, containing either the Reuche or a 24 point Star, stationed at the Pineal gland, at the center of your brain. INHALE, and use the EXHALE breath to push the Eckasha Heirophant down to the Pale Turquoise, Pale Yellow & Pale Pink Kee Ra ShA Flames in Chakra 13 at Earth's Core.

2 INHALE FORCEFULLY, DRAWING THE Eckasha Heirophant and the 3 Kee Ra ShA Flames up to the center of the Maharic Shield 12" below your feet. EXHALE FORCEFULLY, expanding Waves of Kee Ra ShA frequency outward throughout the Maharic Shield, while expanding the Maharic Shield to a 4' diameter disc.

3 INHALE, drawing the Heirophant Eckasha & 3 Kee Ra ShA Flames up the Central Vertical Current, first to the Base Chakra, and up to the E-Umbi Point, just below the Navel. EXHALE, and imagine that the Pale Silver-Blue Eiros Flame IGNITES in the E-Umbi Point, as the Eckasha Heirophant and 3 Kee Ra ShA Flames "pop" and disappear.

4 INHALE FORCEFULLY drawing the Pale Silver-Blue Eiros Flame up to the Azur-A Point, at the base of the Thymus gland. EXHALE FORCEFULLY while imagining a great wave of Deep Emerald Green-Blue Amoraea Frequency bursting outward from the Azur-A Point, and expanding into the large Amoraea Frame Capsule surrounding your body, amplifying the already activated Amoraea Flame.

5 INHALE Maharic frequency up from Chakra 13, to the Azur-A Point, and FORCEFULLY EXHALE, using the breathe to push Maharic current up to the Pineal Gland, and on out the top of the head, to Chakra 14, 36" above the head. Now, imagine the Silvery-Pink Sun-burst at Chakra 14, and INHALE. FORCEFULLY EXHALE, using the breath to push the Silvery-Pink star-burst down and into the Silvery-Pink, Sun-burst Sphere, stationed at the center of the Maharic Shield 12" below your feet. Imagine that the Silvery-Pink Sun-burst Sphere begins to spin more rapidly in whatever direction it chooses, sending waves of Silvery-Pink, Emerald Green-Blue & Silver frequency out through the Maharic Shield. The Amoraea Buffer is now energized and amplified.

6 To further amplify the Amoraea Buffer, take several 2-Point breaths. On the inhale, draw Pale-Silver D-12 Maharic Current up from Chakra 13, while simultaneously drawing Pale-Yellow D-14 Current down from Chakra 14. On the top of each inhale, the Pale Silver and Pale Yellow Currents meet at the Azur-A Point at the base of the Thymus, forming a large spark of the "Golden-Silver ONE", Silver-Gold light in the Azur-A. Exhale forcefully, using the breath to push Rays of Silver-Golden Light outward, in all directions, through every Atom, and into the Auric Field.

Repeat the 2 Point "Golden-Silver ONE" breath 3-6 times, or until you feel a tingling, or a sense of spreading warmth, throughout the Azur-A.

ACTIVATING THE 'LOTUS SEED'

Technique 1: The "Lotus Bud" Breath

1. Complete Technique 8, Part A or B, before commencing the "Lotus Seed" Activation sequence

Forcefully EXHALE the six balls of Heliotalic energy outwards, simultaneously In six directions one vertically up, one vertically down, and 4 outwards at 45 degrees to the vertical axis of your body, to a distance of about 1 inch from the surface of your body (the limit of your Etheric body "skin")
6. Hold the breath briefly while imagining or feeling the 6 balls of silvery pastel Heliotalic frequency stationed in your Etheric body ... and
7. INHALE forcefully, bringing the 6 balls of Heliotalic energy back into the AzurA

3. Prepare for a sequence of 6 rapid INHALE EXHALE breaths During each breath, visualise or imagine pushing the 6 balls of energy out on each exhale through each of the 6 Density Merkaba grids stationed at D4, D7 D10, D13 and the Ecka D1 and Ecka D4 Void Push the energy balls in 6 directions simultaneously, as before (1 vertically up, 1 vertically down, and 4 outwards at 45 degrees to the vertical axis of your body)
4. Breathe the 6 breaths Note in the earliest stages do this gently/ slowly before adopting a more rapid and forceful breathing technique.
5. On the sixth and final INHALE, draw the 6 balls of energy back into the Azur-A

Technique 2b: The Second Sequence of 6 ManA Breaths

1. From the final Inhale of the first 6 breaths, returning the ball of pale silvery rainbow energy to the Azur A EXHALE pushing the large ball of energy from the Azur-A down to the E-Umbi Point just below the navel

3. Exhale gently, INHALE and forcefully EXHALE pushing the pale silvery rainbow ball of energy UP through the LE-Te U-A Kathara Centre Pineal, and on up to Chakra 14, 36" above the head "popping" the Top Spiral Merkaba Seal 14.
4. Breath easy, spending a few minutes to feel the circulation of energy throughout the Lotus petals formation in the Density Fields around you

NOTES

For Hetharo the entire sequence above will be performed completely, just once. All participants will continue to breathe with and through the 6 point axis of the Lotus petal grid (Like a 6 point Star) throughout the 11:11:12:12 period, visualising, as far as possible that each person is going to the centre of the Temple of Khemalohatea of Inner Earth, being greeted by Eleyani, etc. etc.

QUESTIONS:

1. After completion of each group of 6 breaths, the six axis grid is effectively shifted to the next centre (E-Umbi, Rajna, Mahadra) along with the large ball of heliotalics
2. Each of the 6 Exhale breaths is used to push the 6 small balls simultaneously outward on each line of the 6 line axis (one ball per line). The balls are NOT pulled back to the beginning point after each breath but remain stationed at first Density 1, then Density 2, etc. until reaching Density 6 before being pulled back, simultaneously, to the beginning point

Consolidated Krist Codes Imprinting

[*Sha – LA – a Lotum Initiation:* Imprinting the consolidated Veca and Krist Codes, Activating the Ethos Palm Flames and Receiving the *Ecka – ShA – LA – a* Monadic Krist Spark]

Technique Step 1:
Place the hands in the appropriate positions on the Krist Codes Hand Imprinting Chart (LH over the Magnetic Mahadra-Adhrana Code RH over Electrical Veca-Mahadra Code) , palms facing down

Step 2:
Inhale & exhale 3 x 6-point Lotus Breaths from the AzurA, then on the next 6-point *Inhale*, visualize or intend that you are drawing an Etheric Ethos Imprint of the Codes up and onto the surface of your palms, centred over the palm chakras of each hand. *Exhale* when you sense that you have completed imprinting of the Krist Codes onto the surface of your palms, you now have an Etheric imprint of the Krist electrical & magnetic Codes on the surface of your palms in your Etheric Ethos body.

Step 3:
Return to gentle 6-point breathing from the AzurA.

Step 4:
Next, place your LH with the magnetic Mahadra-Adhrana Code imprint over your AzurA, at the thymus. palm placed on the body gently; then, place your RH with the electrical Veca-Mahadra Code imprint over the back of your LH, right palm resting gently against the back of the LH over the AzurA point.

Step 5:
On your next *Inhale*, inhale a 6-point breath firmly from the AzurA, using the inhale breath to draw BOTH the magnetic & electrical Etheric Ethos Imprint of the Krist Codes from the surface of the palms & directly into the AzurA. Intend or visualize the 2 separate Krist Codes combining as they enter the AzurA, coming to rest as a single spark of Pale Golden-Silver and Heliotalic pastel rainbow light within your Seed Atom deep within the AzurA Centre. Exhale gently and remove hands from the AzurA.

Step 6:
Inhale a 6-point breath from the AzurA and HOLD the breath for as long as comfortable, to build Ethos-energy charge within the AzurA. exhale long, slow and deep Next inhale and rapidly *Exhale* a *2-Point Horizontal breath* using the breath to push an Pale Golden-Silver & Heliotalic pastel rainbow Spark horizontally out from the AzurA then down a central Axiom Line that runs thru' the centre of your arms so that the Krist Sparks arrive, & hover, at the wrists by the end of the exhale, (the central axiom line is called the *Ethos – Le-eTOR-A Cord*).

Step 7:
Next, take a deep 6-point Inhale breath into the AzurA, & Exhale a forceful 2-point breath down the Ethos – Le-eTOR-A Cords in the arms, using the exhale to firmly push the Krist Sparks, hovering at the wrists, into the centre of the palms, deep inside the hands, centered in the small central palm chakra.

Step 8:
Take a final slow deep 6-point Inhale into the AzurA, HOLD the breath as long as is comfortable to build charge, then forcefully exhale 2-point breath to push a small, golf-ball size, Pale Golden-Silver- pastel

at brow Heliotalic Krist ball down the Ethos -Le-eTOR A Cord in each arm, and into the palm chakras where the Krist ball combines with the Krist Spark in the palm chakra of each hand, at the end of the exhale

Step 9:
Return to gentle 6-point AzurA breathing, and hold your hands gently out in front of you palms facing upward as you breathe gently. You may notice a "fizzing" sensation occurring deep within the palm chakras as the Krist balls & sparks progressively release the *Ethos ROD Seals* in the palm chakras (some people may notice no sensation, or a gentle heat).

Step 10:
Breathe gentle 6-point AzurA Lotus breaths for a minute or two, with palms still facing upward in front of you, waiting for the Ethos ROD Seals, in the palm chakras to release

Step 11:
When the Ethos ROD Seals release there may be a gentle "popping" sensation (or no sensation for some) as a beautiful Ethos *Standing Wave Ecksha shaped Frame* of pastel Heliotalic light about 1-2 inches high emerges vertically upward out of the palm chakras in each hand, sitting lightly in the palms

Notice, or imagine that the Heliotalic Ethos Palm-Flames begin to gently rotate around their fixed vertical axis in the palm chakras. The Ethos Flame in the LH, which carries the magnetic Krist Code, rotates slowly CCW starting at the bottom of the Left palm (6 o clock) and moving CCW toward the little finger (thru 3 o clock) then palm top ,12 o clock) then back towards the left thumb (9 o clock) – all the while on it's fixed vertical axis. The Ethos Flame in the RH, which carries the electrical Krist Code rotates more quickly CW with rotation beginning at the top (12 o'clock) of the Right palm, then moving CW towards the Right thumb (3 o clock, then Bottom of right palm (6 o clock) and back toward little finger (9 o clock, again while fixed on it's vertical axis.

Step 12:
Now give the mental request-command that the Ethos Flame in the LH adopts a CCW Spin speed of 11 2/3 and the Ethos Flame in the RH adopts a spin speed of 33 1/3.

Step 13:
Breathe gentle 6-point AzurA breaths and bring your palms with their Ethos Flames gently together in front of your AzurA in "prayer" position. After 30-60 seconds there will be a gentle Etheric-Ethos sparking sensation that you may or may not feel physically as the 11 2/3 CCW –ve magnetic & 33 1/3 CW +ve Electrical Ethos Flames merge and replicate into a *unified Sha-LA-e Krist 45 charge Spark of Ecka-Sha-LA-e frequency.*

Step 14:
Observe (or imagine, as the Krist Spark emerges rapidly from the palms and ARCS to the AzurA and Seed Atom. Your bio-computer-Monadic-Cluster and multi-dimensional anatomy and physical body systems have now anchored the Ethos Heliotalic Ecka-Sha-LA-e-Krist Spark to begin activation of the Lotum Lines within the Axiom/ DNA Template

Introduction to the Healing Caverns of the 'Le-eTOR-A Flame'

[Entering the Ecka Seed Atom]

Recommended Preparation:

1 Psonn of Lyra and, 2 Field charge using Manu Lotus Bud technique (6 x 6-point breaths)

Description of Technique Elements:

The technique represents a journey in which we enter the collective of consciousness known as our expanded Ecka Self via entry to, and union with, the personal embodied Le-eTOR-A Flame. We will project our "tiny self" out from our bodies, through a specific corridor called a "Le-eTOR-A Chamber" up to the Chamber door, and into the Cavern of the Le-eTOR-A Flame. Therein, we will experience the ambience and frequencies associated with this location, before issuing the Tonal Signature Request "Le-eTOR-A / E-thwa / Du-et-A / NE-wa", for entry to the Flame, and subsequent processes and experiences. Aside from the need to utilize intention where visualization is difficult, the only tricky or unfamiliar part concerns visualization of the Le-eTOR-A Chamber corridor.

The Le-eTOR-A Chamber corridor for our journey can be described as a spiraling tube which begins with the open mouth of the tube encircling the fingertips of the LEFT Hand; a location which marks the ROD entry point into the Particum D-13/ D-14 Light Fields. The tube then curves away from the fingertips of the LH on the horizontal plane, round the back of you, to the area next to the fingertips of the RIGHT hand (following the horizontal line of the personal embodied Rod); this RH location marks the ROD exit point from the PCM D-14 Light Field and the entry point to the PKA D-14. The tube then bends sharply, sweeping up through your Mentor space (which is important to note) just out from and above the right shoulder, arcing on up from the Mentor space, to above your Crown chakra, and coming into a perfect, rising, vertical axis just below Chakra 14, 36" above your head, the chamber tube continues to rise, on and on, until it's open mouth is anchored in the Partika D-14 Light Field which holds the Seal/ Doorway to the Ecka Le-eTOR-A Caverns.

Technique: Step 1

Take a few moments to arrange yourself comfortably and begin to moderate your breathing rate, slowing to about one-half of your normal breathing speed. As you are adjusting your breathing, begin to visualize or intend, your tiny self is situated inside the Pineal-Rajhna centre, and take a few moments to increase the sharpness of your focus on your breathing and visualization of your consciousness concentrated within the tiny self at the Pineal.

From a pin-point focus of consciousness AS the tiny self, take 6, 6 point charging breaths long, slow and gentle, breathing from within the tiny self at the Pineal .. on the final exhale breathe a little more forcefully, forming a Heliotalic Eckasha Sphere all around the tiny self within the Pineal.

Step 2

Now, AS the tiny self located at the Pineal, notice that your astral body arms are outspread horizontally, and take a look down at the LEFT arm, and on to the fingertips at the entrance to the open mouth of the Le-eTOR-A Chamber tube. Notice that the fingertips of the first 3 fingers (the "pointer, "middle" & "Ring") each have a tiny Heliotalic ball, called a "Monadic Orb", spinning and radiating little auras of frequency. The 3 Monadic orbs form a "Tri-Veca Fold"

called a "*Shath -La(h) Spark*" within the Etheric body centred over the 3 fingertips which emanates Living Light frequency that illuminates the entrance to the Le-eTOR-A Chamber tube. Verify, by intention or visualization, that the Le-eTOR-A Chamber tube sweeps round your back, from your LH to the fingertips of your RH, curving up through the Mentor space, on up above the Crown, and straight up through Chakra 14.

Take one 6-point charging breath AS the consciousness of the tiny self at the pineal, hold for as long as comfortably possible, and exhale forcefully, causing the tiny self to "fly" down the LEFT arm, *through* the Sha-La Spark Tri-Veca, into the mouth of the Le-eTOR-A Chamber tube, swirling rapidly upward, counter-clockwise (from left side round your back to the right) ... in a powerful vortex of concentrated Heliotalic frequency. The sense of " frequency rush" that you may feel, stabilizes as you enter the vertical column of the Le-eTOR-A Chamber tube, and the sensation of flying quickly transitions to a sense of graceful weightlessness, as though you were a bubble rising through a warm and silky liquid of soft Heliotalic-light frequencies. Allow yourself to feel as a bubble, rising gently, noticing the effect of the Heliotalic light swirling around you, giving buoyancy as you continue upward.

Step 3

As your journey progresses, you begin to notice that the light emerging around you begins to change, first, the light reflects a shift to a soft hue of Violet, which shifts into a pale golden-silver glow, and becomes a little more intense as you notice that the pale golden-silver glow is emanating from a cave-like doorway, immediately ahead of you; this is the doorway to the Le-eTOR-A Caverns. As you approach the doorway, the glow begins to shift from pale-golden-silver to a hue incorporating soft emerald green. You pass through the Le-eTOR-A Cavern doorway aware that you are now surrounded by pale golden-silver-emerald green frequencies.

Step 4

These pale golden-silver-emerald green frequencies emanate from the Living Flame of the Ecka Le-eTOR-A, the Amoraea Spark of the Ecka Seed Atom. Observe the Ecka Le-eTOR-A Flame radiating brightly from within a small stone bowl, set in the floor at the centre of a large, cavernous, circular sandstone space which you have now entered as your normal, physically sized, self. You look around this space, known as "the Cavern of Le-eTOR-A", and notice the velvety smoothness of the pale yellow stones which form the floor and walls all around, and shapes which look like doorways, covered by veils of liquid-light-silk, interspersed at equal intervals along the walls. On looking up you realize that the dome shaped stone ceiling forms a perfect Eckasha, the Eckasha tip rising way, way, up above your head. The floor and the entire space glistens softly with pristine energy and power. Finally, your focus returns to the Ecka Le-eTOR-A Flame in the centre of the cavern as you absorb the whole scene, the softly incandescent radiance of the pale green-yellow Le-eTOR-A Flame dances all around, reminiscent of the deep warming comfort, and joyful safety, of a camp fire late at night.

Step 5

You now approach the Le-eTOR-A Flame, emanating from within the small stone bowl set into the floor. The rim of the bowl is wide and flat, and rises ankle high, the Flame is about the height of your knees. You kneel comfortably on the on the rim in front of the bowl, fingertips of your RIGHT hand touching the rim of the bowl, preparing to offer the Tonal Signature Request for admission to the Le-eTOR-A Flame. Ensure that you keep the fingertips of the RH in

contact with the rim of the bowl throughout and when ready repeat the Request respectfully and lovingly, 3 times out loud, as follows:

(Pause briefly after, as you acknowledge the possibility of a tonal response from the Le-eTOR-A Flame)

" Le - eTOR-A ... E – thwa ... Du – et – A ... NE - wa "

The Le-eTOR-A Flame, and everything around it, except for the size of yourself, instantly responds to your request and begins to rapidly expand in size to ever increasing, and massive proportions the floor on which you are kneeling, the rim height of the bowl, the flame height, the cavern roof height, the diameter of the cavern room itself, everything just grows bigger and bigger ... until you can no longer detect the Eckasha tip of the domed roof above your head or even see the bottom below, where the floor once was! Relative to everything around you now, experience yourself as a microscopic particle tiny person now kneeling on the huge rim of the Le-eTOR-A Flame bowl. Safely walk the "empty highway" which is now the massive rim of the huge bowl containing the Le-eTOR-A Flame .. as you do this, notice how the Flame looks exactly the same, pale emerald green-yellow plumes of light, an Eckasha shaped spherical standing wave that looks the same no matter what angle you view it from.

Step 6

When you feel ready, step lightly and slowly from the rim of the bowl and literally enter the Le-eTOR-A Flame and as you do recall that you are stepping into the Ecka Seed Atom of your expanded Ecka Self, your own immense consciousness collective, way beyond all that you *presently remember* ever being, but which *eternally remains* all that you have *always been and ever will be.*

As you do this, notice immediately that the Le-eTOR-A Flame begins to transmute the miasmic detritus, frozen light particles, present in your fields as you enter you may feel a gentle "fizziness" under your skin, or an occasional, soft, "crackle and pop" as the process of miasmic release and transmutation unfolds but, whatever you feel... take a little while now to really relax, sigh perhaps shed a tear of joy feeling warm and safe as you celebrate reunion with the Living Flame of Le-eTOR-A and, your own, personal, Ecka Seed... as it has always been embodied within the Ecka level of your Spiritual Body Anatomy.

[In this space you can request audience with your own Ecka Le-eTOR-A Seed Self, or D-12 Christos or with Ma a, representatives of the Ad-don-drAea, or any of the Eleyani or Christac Ecka or Veca Races. You can invite others to this space (children, family, loved ones, pets, neighborhood, country or race collectives) for healing, education and even conflict resolution (*If all participants Christos selves are willing*) This location is also a perfect access point for the Outer Chambers of the Ecka Library which contains personal Ecka Monadic Records – and – any of the 12 Primary Ecka Heliotalic Liquid Light Healing Templates *Signet* Seats embodied within your Ecka Body Anatomy]

Step 7

Slowly and gently, bring your awareness back toward the centre of the Le-eTOR-A Flame. Observe the Flame as it radiates pale golden-silver-emerald green light that dances over a rhythmically undulating liquid-pale silver-sea. The undulating liquid-silver-sea forms a horizontal plane "floor" within the mid-section of the Le-eTOR-A Flame-Eckasha Standing Wave. Step forward, and walk across the plane of the liquid-pale-silver-Mahanic-sea moving slowly and

graciously toward its centre beneath the central tip of the Le-eTOR-A Flame. As you approach the centre of the silver Mahanc-sea-plane notice here that the hues of frequency become a blend of emerald-silver with just a hint of pale gold light that forms a faint, emerald-silver mist in the shape of an Eckasha capsule in the centre of the Le-eTOR-A Flame. This centre point, the Eckasha Capsule of faint mist, is the location of the personal Silver Sanctum Eiros Flame that connects the personal 15 Dimensional Density body to the Le-eTOR-A aspect of the Amoraea Flame. Walk forwards now, and enter the Silver Sanctum Eckasha Capsule of emerald-silver mist, and into the centre of the Le-eTOR-A Flame.

Step 8

Breathe easy for a few moments and prepare for a sequence of long, slow deep breaths. Continue to breathe easy, and as you do, bring the outside edges of your physical (3D) hands together to form a bowl shape and lift your hands like this to a position just under your chin and in front of your AzurA in any way that feels comfortable to you. Hold this position in 3D and return your attention to your self within the Eiros Flame Silver Sanctum in the Le-eTOR-A Flame, noting that you stand there with hands cupped in exactly the same way.

Next is a sequence of 6 breaths, "Breathing the Le-eTOR-A Flame" to manifest a 24 point Lotus-Spark of the Le-eTOR-A Flame, called the Lotum Seed, into your cupped hands. On each slow and deep in-breath intend that you draw frequency from the Le-eTOR-A Flame around you and the Silver Sanctum on a 24 point axis, into the AzurA, paying particular attention to the vertical axis way way up, above your head, at the Eckasha tip of the Le-eTOR-A Flame. On the out-breath, release the breath slowly and gently, into your cupped hands imagining the frequency building up each time, creating a swirling vortex of pale emerald, pale yellow, silver-violet energy. On the final 6th out-breath, push the breath into your cupped hands a little more forcefully to rapidly accelerate the rotation speed of the vortex ball in your cupped hands . . Begin the breathing sequence now

As the 6th and final out-breath is completed, the spinning vortex of pale emerald, pale yellow and silver-violet energy rotates so fast that it suddenly flares up in a ball of silver white light the size of a melon (and you may feel significant heat in your palms as this occurs). The flare remains for a brief moment before subsiding to reveal a ball crystal, about 1½" diameter, with a surface formed by 24 facets. On closer examination you realize that within this crystal lies a lotus flower, formed by 24 petals joined at its centre, this is the Lotum Seed.

Step 9

We will now prepare to leave this location for a while, so in your own words, and in your own way, offer thanks and loving gratitude to the living Le-eTOR-A Flame before the next breathing sequence. Bring your attention back to the ball-crystal and the 24 petal Lotum Seed in your cupped hands, focus intently on it and prepare to take several rapid, deep breaths, one after the other...

Inhale and "pull" pale emerald-yellow frequency from the Eckasha tip way up above your head, exhale into the centre of the crystal, inhale again from the Eckasha tip, exhale into the crystal, inhale from the Eckasha tip, hold this breath as long as you comfortably can — then exhale into the crystal and inhale immediately bringing the crystal and your 3D hands up and into the AzurA. Take one final, long, deep inhale of pale emerald-yellow frequency from the tip of

the Eckasha, way up above your head, and exhale slow and deeply it to the crystal and throughout the AzurA, embedding the Lotum Seed Crystal firmly within the centre of the AzurA.

Step 10

Breathe easy for a few moments, and continue holding the Lotum Seed and ball crystal in your awareness ... we are about to return this, and our tiny self, to the physical body by utilizing the Golden-Silver One Column, which emerges in the Eiros Flame, to move vertically downward and into the physical body (please note that this column can be utilized in future, moving upward and downward from Density 1 to the Ecka and back again)

Prepare to take one long and deep breath from the Le-eTOR-A Flame on a 24 point axis centred on your AzurA and Lotum; keep the Lotum in your awareness enroute to your physical body. Inhale Heliotalics, hold the breath for as long as you can ... build charge, build charge ... and using a very forceful exhale push the tiny self carrying the Lotum Crystal at the AzurA, down from the Silver Sanctum, down through Chakra 14, 36" above the head, down through Chakra 11, 12" above the head, down to the rear of Chakra 8, which emerges *diagonally* from out of the top of the back of the head and slants downward to the Pineal, and finally into the Pineal-Rajhna centre in your physical body.

Step 11

Breathe gently for a few moments, as we prepare for the final stage ... Take several field charging breaths, in your own time, breathing Heliotalics from and into the AzurA and Lotum Crystal on a 24 point axis .....

Now, take one long, deep, Heliotalic breath into the Lotum Seed ball crystal at the AzurA . . hold the breath for as long as you can, exhale and inhale rapidly .. pushing the Lotum Seed ball crystal down and into Chakra 12 (Earth Star), 6" below the feet, rapidly returning it to the AzurA. Repeat this rapid inhale-hold-exhale breath, this time pushing the Lotum Seed ball crystal down and into the Gold Star Crystal Seal held within Chakra 12, 6" below the feet, and again rapidly return the Lotum Crystal to the AzurA.

Pause, and breathe easy for a few moments ... Inhale 24 point Heliotalics, long, slow and deep into the Lotum ball crystal and exhale forcefully pushing the Lotum Crystal down and into Chakra 12, 6" below the feet. Hold after exhale ... breathe one long 24 point Heliotalic in-breath with your awareness within the Lotum Crystal within the Chakra 12 Earth Star, and exhale deeply and slowly, transferring and embedding the signature imprint of the Lotum Seed into the Earth Star, which will progressively transmute miasmic particles of frozen light located there.

Again, inhale Heliotalics into the Lotum Seed ball crystal, on a 24 point axis within the Earth Star and exhale forcefully, pushing the Lotum Seed down and into the centre of Earth Core. With your attention fixed on the Lotum Seed ball crystal at the centre of Earth Core, in your own time, draw 6 - 24 point Heliotalic breaths into the Lotum Crystal, and each time exhale forcefully through the Lotum Crystal and into earth Core, transferring the signature imprint of the Lotum Seed to permeate the planetary grids whilst also progressively transmuting miasmic detritus.

On the final in-breath, pull heliotalics on a 24 point axis -- AND ... the Lotum Seed ball crystal all the way back and into the AzurA. Hold the breath, build charge in the AzurA, and while leaving the Lotum Seed Crystal in the AzurA, exhale forcefully and simultaneously, upward to Chakra 14 and downward to Chakra 13 at Earth Core.

Breathe easy, slowly return your attention to the room, and gently open your eyes.

Le-eTOR-A Imprinting

**[Le-eTOR-A Lota Initiation: Imprinting the Le-eTOR-A Code,
Activating the Sha-LA-a Palm Flames and
Receiving the Ecka Le-eTOR-A Monadic Krist Spark]**

Technique Step 1:
Place the hands in the appropriate positions on the Le-eTOR-A Hand Imprinting Chart (LH over the Magnetic Le-eTOR-A Code RH over Elecetrical Le-eTOR-A Code) , palms facing down

Step 2:
Inhale & exhale 3 x 6-point Lotus Breaths from the AzurA, then on the next 6-point *Inhale*, visualize or intend that you are drawing an Etheric Ethos Imprint of the Codes up and onto the surface of your palms, centred over the palm chakras of each hand *Exhale* when you sense that you have completed imprinting of the Le-eTOR-A Codes onto the surface of your palms; you now have an Etheric imprint of the Le-eTOR-A electrical & magnetic Codes on the surface of your palms in your Etheric Ethos body.

Step 3:
Return to gentle 6-point breathing from the AzurA.

Step 4:
Next, place your LH with magnetic Le-eTOR-A Code imprint over your AzurA, at the thymus, palm placed on the body gently; then, place your RH with the electrical Le-eTOR-A Code imprint over the back of your LH, right palm resting gently against the back of the LH over the AzurA point.

Step 5:
On your next *Inhale*, inhale a 6-point breath firmly from the AzurA, using the inhale breath to draw BOTH the magnetic & electrical Etheric Ethos Imprint of the Le-eTOR-A Codes from the surface of the palms & directly into the AzurA. Intend or visualize the 2 separate Le-eTOR-A Codes combining as they enter the AzurA, coming to rest as a single spark of Emerald Green and Heliotalic pastel light within your Seed Atom deep within the AzurA Centre. Exhale gently, and remove hands from the AzurA.

Step 6:
Inhale a 6-point breath from the AzurA and HOLD the breath for as long as comfortable to build Ethos-energy charge within the AzurA. Next inhale, and rapidly *Exhale* a *2-Point Horizontal breath* using the breath to push an Emerald Green & Heliotalic Spark horizontally out from the AzurA then down a central Axiom Line that runs thru the centre of your arms so that the Le-eTOR-A Sparks arrive & hover, at the wrists by the end of the exhale, (the central axiom line is called the *Le-eTOR-A Cord*).

Step 7:
Next, take a deep 6-point inhale breath into the AzurA, & Exhale a forceful 2-point breath down the Le-eTOR-A Cords in the arms, using the exhale to firmly push the Le-eTOR-A Sparks, hovering at the wrists, into the centre of the palms, deep inside the hands, centered in the small central palm chakra.

Step 8:
Take a final slow, deep, 6-point inhale into the AzurA, HOLD the breath as long as is comfortable to build charge, then forcefully exhale 2-point breath to push a small, golf-ball size, Emerald-Heliotalic Le-eTOR-A

ball down the Le-eTOR-A Cord in each arm and into the palm charkas where the Le-eTOR-A ball combines with the Le-eTOR-A Spark in the palm chakra of each hand at the end of the exhale.

Step 9:
Return to gentle 6-point AzurA breathing, and hold your hands gently out in front of you palms facing upward as you breathe gently. You may notice a "fizzing" sensation occurring deep within the palm charkas as the Le-eTOR-A balls & sparks progressively release the *Sha-LA-a ROD Seals* in the palm charkas (some people may notice no sensation, or a gentle heat)

Step 10:
Breathe gentle 6-point AzurA Lotus breaths for a minute or two, with palms still facing upward in front of you, waiting for the Sha-LA-a ROD Seals, in the palm chakras, to release.

Step 11:
When the Sha-LA-a ROD Seals release there may be a gentle "popping" sensation (or no sensation for some) as a beautiful Ethos Sha-LA-a *Standing Wave Eckasha shaped Flame* of pastel Heliotalic light about 3-4" high emerges vertically upward out of the palm charkas in each hand, sitting lightly in the palms.

Notice, or imagine, that the Heliotalic Sha-LA-a palm-Flames begin to gently rotate around their fixed vertical axis in the palm chakras. The Sha-LA-a Flame in the LH, which carries the magnetic Le-eTOR-A Code, rotates slowly CCW, starting at the bottom of the Left palm (6 o'clock) and moving CCW toward the little finger (thru 3 o'clock) then palm top (12 o'clock) then back towards the left thumb (9 o'clock) – all the while on it's fixed vertical axis. The Sha-LA-a Flame in the RH, which carries the electrical Le-eTOR-A Code, rotates more quickly CW with rotation beginning at the top (12 o'clock) of the Right palm then moving CW towards the Right thumb (3 o'clock), then Bottom of Right palm (6 o'clock) and back toward little finger (9 o'clock), again while fixed on it's vertical axis.

Step 12:
Now, give the mental request-command that the Sha-LA-a Flame in the LH adopts a CCW Spin speed of 11 2/3 , and the Sha-LA-a Flame in the RH adopts a spin speed of 33 1/3

Step 13:
Breathe gentle 6-point AzurA breaths and bring your palms, with their Sha-LA-a Flames gently together in front of your AzurA in "prayer" position. After 30-60 seconds there will be a gentle Etheric-Ethos sparking sensation that you may or may not feel physically, as the 11 2/3 CCW -ve magnetic & 33 1/3 CW +ve Electrical Sha-LA-a Flames merge, and replicate into a *unified Le-eTOR-A Knst 45 charge Spark* of Ecka-Le-e-TOR-A frequency.

Step 14:
Observe (or imagine) as the Le-eTOR-A Spark emerges rapidly from the palms and ARCS to the AzurA and Seed Atom. Your bio-computer-Monadic-Cluster and multi-dimensional anatomy and physical body systems have now anchored the Ethos Heliotalic Ecka-Le-eTOR-A Knst Spark to begin activation of the Lota Lines within the Axiom/ DNA Template.

Your bio-fields & Shields and hands are now prepared to conduct the K-2 6-step Flame Body Activation Client Session, or to initiate other Le-eTOR-A Flame technologies

Copyright Ashayana & Azurtan Deane. Ekra MCD04/2004 ALL RIGHTS RESERVED

K-2 6-Step Flame Body Activation Client Session

Preparation:

A – Just prior to *each* client session, use *personal technique 8* (Le-eTOR-A Imprinting) to imprint the Le-eTOR-A Codes, activate the Sha-LA-a palm-Flames and charge your Monadic Cluster with the 45 Charge Ecka-Le-eTOR-A Spark.

B – Run the K-1, 6 Step Mahanic Recoding Process on client, adding the K-2, 6-Step Flame Body Activation procedure as an *"additional modality"* before closing the Mahanic Recoding Session.

C – Position client lying down comfortably, on back, in a relaxed state – ensure that room temperature is neither too hot nor too cold for clients general comfort.

Step 1: Compound Krist Code Imprinting

Action One - Using the Veca-Mahadra/ Mahadra Adhrana Hand Imprinting chart, place palms over appropriate codes and, using a single 6-point Lotus breath *Inhale* from the AzurA to draw the Ethos Imprint of the Krist Codes onto the Etheric Body surface of your palms and into the activated Sha-LA-a Palm-Flames. Exhale gently as Code Imprinting completes.

Action Two – Immediately transfer the Ethos-Etheric Imprint of the Krist Codes to the client by placing your LEFT palm over the clients AzurA point, NOT touching the physical body but resting your palm about 1- 1 ½" above the physical body, in the client's Etheric body. Place your RIGHT palm over the back of your LEFT hand at the client's AzurA.

Action Three – Draw a long, slow, firm-but-gentle 6-point Azura *Inhale* breath , and hold briefly to build charge, then *Exhale* a slow, smooth, gentle *2-point exhale* of pale Emerald-Green Heliotalic Current down the Le-eTOR-A Cords in your arms, and into your palms, using the simple 2-point Exhale to transfer the Krist Code Imprint from your palms and into the clients AzurA and Seed Atom. The clients own Seed Atom will transfer the Krist Code to their Mahanic Shield (both).

Action Four – Remove your hands and proceed smoothly to Step 2 of the 6-Step Flame Body Activation Client Session, next below...

Step 2: Activating the Density Merkaba Field

Action One – Move to a position about 2' (24") back from the top of clients head for access to clients Chakra 12A.

Action Two – From this position, place your LEFT Magnetic hand over the clients Chakra 12A, palm facing toward clients head. Place RIGHT palm over back of Left hand (this is the "Top Spiral Transmission Position").

Action Three – Inhale a long, slow, 6-point breath into the AzurA, pause/ hold to charge, then slowly exhale a 2-point breath using the Exhale to run Emerald-Heliotalic Current down your Le-eTOR-A Cords, through your palms and into the clients Chakra 12A. The clients top Merkaba spiral – which spirals +ve PKA Electrica frequency downward into the body will pick-up the –ve PCM Magnetic frequency transmitted by your LEFT hand Sha-LA-a Flame, and will draw in as much Le-eTOR-A frequency as it needs from the Universal Le-eTOR-A Flame, through the "down-stepping link" your own Shields have made to assist the client in this access process (this will not, in ANY way draw or deplete *your own* frequencies).

Action Four – Remain in the "Top Spiral Transmission Position" (TSTP) for the time required to perform 3-6, slow, 6-point AzurA Inhale/ Exhale breaths , and then take a final (additional) Inhale, issuing the mental request-command for the Sha-LA-a Flame to disengage connection to the clients 12th (A) chakra. Remove hands from transmission position, and then exhale gently – connection will now be disengaged.

Action Five – "Shake hands out" briefly to keep the frequency in your hand-Axiom Lines flowing and balanced.
Action Six – Move into a position 6" below clients feet, to Chakra 12B. Repeat same procedure as in previous steps (Step 2; Actions 2 thru' 5) – BUT – place your *Electrical* RIGHT palm facing the bottom of the clients feet, with your LEFT palm over the back of your RIGHT Hand, in order to transmit electrical frequency to clients magnetic, bottom, Merkaba Spiral

Step 3: Activation of the E-Umbic Crystal & Eiros Flame
Action One – Move to stand beside the client (either side is OK), for easy access to the clients Etheric E-Umbi Point just below the navel.
Action Two – Place hands over clients E-Umbi point at their Etheric body level (1-1 ½" above body), with palms flat/ horizontal facing down towards clients E-Umbi point. Position hands side by side each at same height above clients body, with *sides of thumbs and pointer fingers lightly touching each other.*
Action Three - Inhale a long, slow, 6-point AzurA breath, hold to build charge, then exhale a 2-point breath slowly moving Emerald-Heliotalic current down your Le-eTOR-A arm Cords, through your Sha-LA-a palm-Flames and into the clients Etheric E-Umbi point.
Action Four – Take 2 additional 6-point Inhale-hold-2-point Exhale breaths (to complete a cycle of ONLY 3, 6-point AzurA Inhale-Hold-2-point Le-eTOR-A Cord Exhale breaths), then take a final 6-point Inhale and give the Sha-LA-a palm-Flames the request-command to disengage connection. Remove hands from transmission position, then Exhale and "shake out" hands.

Step 4: Initiating the Ethos Flames and Lotus Bud
Action One – Move to a position by clients side (either side) where clients' AzurA can be reached comfortably.
Action Two – Adopt same "side-by side-palms- down" hands position as in *Step 3*, BUT this time placing hands over clients Etheric AzurA.
Action Three – Repeat: "Actions 3 & 4 of Step 3", BUT transmitting Emerald-Heliotalic Current into the clients Etheric AzurA. When transmission is complete, disengage connection, shake out hands, and proceed to Step 5.

Step 5: Le-eTOR-A Master Code Induction
Action One – Remain in position by clients side, with easy access to clients AzurA.
Action Two – Stand quietly for a moment, with your palms facing UPWARDS, and hands side by side, slightly APART, in front of YOUR own AzurA point.
Action Three – Inhale a long slow, 6-point breath into your AzurA, hold to build charge, then Exhale a long, slow, 2-point breath, using the exhale to push a tiny Emerald-Heliotalic Spark down through each of your Le-eTOR-A (arm) Cords and into your Sha-LA-a palm-Flames, keeping hands still, palms up, in front of your AzurA.
Action Four – Keeping your palms & their Sha-LA-a palm Flames SEPARATE from each other (to avoid arcing "too early") move your palms gently into position over the clients AzurA.
Action Five - Slowly bring palms, and then Sha-LA-a Flames together, "cupping" your hands over the clients AzurA(so the opening of the "cup" points downwards onto the AzurA); then *Inhale* a rapid 6-point breath of Emerald-Heliotalic Current down your Le-eTOR-A Arm Cords and into your Sha-LA-a palm-Flames. As the Exhale breath-current reaches your palm-Flames, QUICKLY bring your palms *fully* together and into the "prayer" position, STILL Centred over the clients AzurA.
Action Six – Inhale a 6-point AzurA breath, then slowly Exhale Emerald-Heliotalic Current in a 2-point exhale down your Le-eTOR-A Arm Cords and into the "praying hands" palms ... and as the exhale completes, gently separate the palms bringing your hands back into the CUPPED position over the clients AzurA.

Action Seven – Breathe 6 point Inhale/ Exhale breaths slowly and gently for 30-60" with HANDS REMAINING in cupped position, waiting for your merged Sha-LA-a palm-Flames to release their 45 charge Ecka-Le-eTOR-A Spark.

When the Le-eTOR-A Spark releases from your cupped palms, it will Arc directly into the clients Etheric AzurA & Seed Atom delivering the combined electrical & magnetic Ecka-Le-eTOR-A Healing Master Codes into the clients Seed Atom. The clients own Seed Atom, and Christos identity, will determine in which way the Ecka-Le-eTOR-A Spark can best be used to facilitate personal healing.

Action Eight – When you observe, or sense, that the Ecka-Le-eTOR-A Spark has released from your hands (or after 30-60" if you sense or observe nothing for certain) .. Inhale a 6-point AzurA breath and give the request-command to the Sha-LA-a palm-Flames to disengage connection before removing hands from transmission position. Then, Exhale, and shake out hands.

Step 6: Cellular Breathing – Stabilising the Fields – "Passing the Calm"

Action One – Stand back, a few feet away from where the client is laying, allowing your bio-field to momentarily enter it's "own space". Gently breathe a few 6-point AzurA Inhale-Exhale breaths, and when you feel "ready" complete with 3 x 6-point Inhale/ Exhale breaths from YOUR Etheric E-UMBI POINT. During these "E-Umbi Breaths" imagine that you are standing *within the centre point of the Ecka-Le-eTOR-A Central Flame, the Point of Eternal Manu Stillness* from which Creation & all Motion emerge. *Embody this Feeling* of Stillness & move back to position at either side of the client.

Action Two – Breathing gentle 6-point breaths from the E-Umbi, imagine that *every atom* in your body has a tiny "ManU Window" at it's nucleus centre. Imagine that upon every 6-point E-Umbic Inhale breath these tiny ManU windows draw frequency out of Manifestation, and then close; and on every 6-point E-Umbi Exhale breath the tiny windows open – sending radiant lines of Ecka-Le-eTOR-A Emerald-Heliotalic *ManA* frequency outward through your atoms, through your cells and out into the atmosphere surrounding your physical body and aura.. 6-point breathing of Ecka-Le-eTOR-A frequency from the Density 1 E-Umbi point activates the Miodic/ Diodic Grid of the Density 1 Dimensional & Density Radial Body/ Flame Body Reion Fields initiating the *Ancient Sacred Art of FULL BODY CELLULAR BREATHING.*

Action Three – While engaging E-Umbic Cellular breathing, raise your hands together, palms facing down, over your clients Etheric E-Umbi point. From this position, move your hands AWAY from each other in an outward "circling motion", gently "smoothing & calming" the energies of the clients Etheric body ... as your hands, and entire body & Fields radiate millions of tiny beams of Ecka-Le-eTOR-A frequency throughout the clients bio-fields. Move your hands around and over your clients' Etheric body, moving upwards first from the E-Umbi to the head, then downwards from the head to the feet, continuing the outward-circling "smoothing" motion.

Action Four - When you reach the clients feet, raise your hands up higher than the clients physical & Etheric body's, to about 12-24" out in the auric field, and continue a slow, gentle outward circling motion, moving from the clients feet ... upwards to the head .. then downwards from the head and back to the Etheric E-Umbi starting point.

Action Five – Remove hands from transmission and continue E-Umbic Cellular breathing as you complete the closing steps of the K-1 Mahanic recoding Session. (Disengagement of the Sha-LA-a Flame is not necessary at this step).

After your client Session is complete, go about the next few hours privately being mindful to continue E-Umbic Cellular breathing, as if this were your normal breathing, to clear, stabilize, and fortify your personal bio-fields. CELLULAR BREATHING is THE natural state of *Living Light Breathing* characteristic to the Angelic Human, Indigo, Eleyani and Christaic immortal Races.

Lotus Hands, Hara Centre & Ra Centre Activation

Technique Step 1:
Do one cycle of **12** 6-point Lotus Breaths, at the AzurA, while standing on the 'Le – eTOR – A, E – thwa Du – et – A, NE – wa' Master Code (and remaining standing on Code when done).

Step 2:
Bring hands up to the AzurA, and cup the hands, palms facing inwards toward the AzurA. Inhale one long, deep 6-point breath from the AzurA, and exhale sharply back into the AzurA and rapidly downward through the Le – eTOR – A' Code beneath the feet and all the way down to the Mahadra centre in Earths Core – observe as an Emerald Spark releases from the Le – eTOR – A Seal beneath the Mahadra.

Step 3:
Inhale a *single point* upward breath drawing the Emerald Mahadra Le – eTOR – A Spark back, upward, through the Code, into the Base Chakra, through the E-Umbi, AzurA, Rajhna and Adhrana at the Pineal, all the way up to the 14th Chakra 36" above the head and beyond, all the way out into outer space until you lose track of the Emerald Mahadra Le – eTOR – A Spark. Release this breath gently while bringing your focus back to the AzurA.

Step 4:
Deeply Inhale a 6-point AzurA breath using the Inhale to draw the Emerald Spark from deep space back and down through Chakra 14 down into the Rajhna, into the AzurA and into the Seed Atom held deep within the AzurA. Hold this breath for a few seconds to allow the Emerald Mahadra Le – eTOR – A Spark to move fully into the Seed Atom ... then, gently Exhale into the AzurA.

Step 5:
Next, take a strong **24-Point** Lotus breath, inhaling from the AzurA and forcefully Exhale a **2-Point** breath to push 2 Emerald Sparks down the Le – eTOR – A Arm Cords (one spark/ arm) through the Palm Chakras and out the **tip of the "middle" finger** of each hand.

Step 6:
Quickly place the fingers of both hands into the **Lotus Touch Finger Position** (*first 3 fingers* of each hand forming a Tri-veca shape + thumb over/ holding little finger) – and – Inhale *sharply* to return the Emerald Mahadra Le – eTOR – A Spark back through the middle fingers, back up the Le – e TOR – A Arm Cords and into the AzurA.

Step 7:
Hold the Inhale breath, for a moment, at the AzurA while bringing your **Tri-veca Lotus Touch finger tips** together and placing your Left & Right little fingers together touching each other (thumbs pulled back a bit, out the way of touching anything else) Immediately bring your Lotus Touch "joined hands " up to the front of the AzurA Exhale forcefully from the AzurA, sending a **2-Point** breath of Emerald-Heliotalic current down the Le – eTOR – A Arm Cords and through the co-joined middle-fingers

Step 8:
Keeping hands in co-joined Lotus Touch position in front of AzurA, breathe gentle, **24-Point** Lotus breaths from the AzurA for a few moments, waiting for an "Etheric Atomic Ethos *Burst*" of Le – eTOR – A frequency to emerge through the fingers, around the hands, and into the palm charkas Within 30-40 seconds, a small but intense

"explosion-like-vibration" will emerge in the palm charkas and, as this occurs the "Ethos Etheric Thumb" or "5th Finger" will "pop out" in the Etheric Body and the **Le – eTOR – A Lines** throughout the body will activate.

Step 9:
After this 30-40 second wait, *separate your hands* from the co-joined Lotus Touch Hand Position – BUT – *keep your fingers* of each hand in the **Lotus Touch Finger Position.**

Step 10:
Now, move both hands down to the E-Umbi Point (while keeping fingers in Lotus Touch), Inhale a **24-Point** breath from the E-Umbi, and **hold this breath while you tap** the E-Umbi Point 3 times with the Lotus Touch Tri-veca fingers of **both** hands at the same time. Exhale a **24-Point** E-Umbi breath This step activates all Hara Centres.

Step 11:
Next, Inhale another **24-Point** E-Umbi breath while moving the hands up to the **Solar Plexus 3rd Chakra**, tapping again with both finger sets **6 times** on the 3rd Chakra, while giving the mental command "Ra Centre Activate Now!" Exhale this breath, in a **single point** into the 3rd Chakra, then sharply Inhale a **single point** breath up to the AzurA.

Step 12:
Exhale at the AzurA. Move hands to your sides and gently release the Lotus Touch Fingers Position. "Shake out" your hands, and breathe "Cellular Breathing" (per Step 6 of K-2 6-Step Flame Body Activation) from every atom for a few moments, then **sit down and relax for a little while** as the Activation stabilizes.

The Lotus Hands, Hara Centres & Complexes, and the Ra Healing Centre are now brought into beginning **Le – eTOR – A Activation.**

Technique Practice Recommendations:

It is recommended that the "Le – eTOR – A imprinting" is performed 2-3 times weekly for a period of approximately 8-12 weeks and that the Lotus Hands/ Hara/ Ra Centres technique (herein) is practiced as a supplementary/ maximiser Technique once weekly immediately following the Le-eTOR-A Imprinting Technique, in each case utilizing the appropriate Codes (Le – eTOR – A Hands Chart for "Imprinting" and the Le – eTOR – A / E – thwa/ Du – et – A / NE – wa" large "stand-on" Chart for Lotus Hands, etc. Technique. This second, large, Code/ chart can also be placed, beneficially, on the floor, beneath healing table/ client, during Kathara Treatment "sessions" positioned with Chart name toward the feet)

The Lotus Touch "Quick Fire"

Preparation: All "Linking Sequence" techniques and Kathara 2-3 *Le-eTOR-A* techniques conducted *at least* one time prior followed by an 8-12 week period of running the *Le-eTOR-A* Imprinting technique 2-3 times weekly – plus – the Lotus Hands/ Hara/ Ra Centres activation technique once weekly. The Lotus Touch "Quick Fire" technique can be utilized during the 8-12 week initial *Le-eTOR-A* Activation Cycle.

Following this initial activation cycle, the *Le-eTOR-A* Imprinting technique, directly followed by the Lotus Hands/ Hara/ Ra Centres technique practiced once every 6 days (144 hour interval) will sustain *Le-eTOR-A* Shield Activation sufficient to conduct the Lotus Touch "Quick Fire"

Step One:
Initiate activation of the *Le-eTOR-A* Master Code in the personal Shields by mentally repeating "Le-eTOR-A – E-thwa, Du-et-A, NE-wa" – 3 times, while bringing the hands into the traditional "prayer position" in front of the AzurA (hold thru Step 4).

Two:
Inhale a deep 24-Point Lotus breath at the AzurA, hold briefly to build charge, then forcefully Exhale the breath from the AzurA on the 24-Point axis, (this will trigger instantaneous temporary release of the *Le-eTOR-A Seal* beneath the *Mahadra Centre* within Earth Core, releasing an Emerald Spark from the *Le-eTOR-A Seal*)

Three:
Rapidly Inhale a single-point breath upward from the Mahadra, drawing the Emerald Spark from the *Le-eTOR-A Seal* in Earth Core upward and through the Central Vertical Current to Chakra 14, 36" above the head, then upward further and out into deep space. Exhale this breath gently from Chakra 14 while bringing your focus back to the AzurA.

Four:
Inhale a 24-Point Lotus Breath from the AzurA, drawing the Emerald Spark back from deep space, down through Chakra 14, and down into the Seed Atom within the AzurA. Hold this breath briefly, then Exhale a strong single-point breath, using the exhale to push the Emerald Spark from the AzurA Seed Atom downward to the Ra Centre at the core of Chakra – 3 Solar Plexus, (this will trigger temporary activation of all Ethos Centres, the *Le-eTOR-A* Arm Cords, Hara Centres, Palm Chakras, Sha-LA-a Palm Flames and Ra Centre).

Five:
Don't inhale but hold the Exhale breath at the Ra Centre for a few moments while relaxing the arms and dropping hands to the sides of the body, palms facing inward toward the thighs.

Six:
Keeping hands at the sides, and while holding the exhale breath at the Ra Centre move the fingers of both hands into the Lotus Touch Finger Position (i.e. tips of first 3 fingers of each hand forming a Tri-veca shape+ thumb over/ holding little finger)

Seven:
While taking a deep long, 24-Point Inhale at the Ra Centre draw the breath – and – the Emerald Spark upward from the Ra Centre . into the AzurA Seed Atom whilst simultaneously bringing the hands back into "prayer position" in front of the AzurA. Exhale the breath on a 24-Point Axis from the AzurA Seed Atom, and hold the exhale for a few moments as the fingertip Monadic Orbs, Etheric-Ethos Bursts in the Palm Chakras and Ethos-Etheric Thumbs rapidly activate to bring the Lotus Hands into "Quick Fire" activation.

Eight:
While returning hands to the side of the body Inhale a 24-Point Lotus Breath at the AzurA Seed Atom and bring the fingers of both hands into the Lotus Touch Finger Position.

Your personal Shields, Flame-body and "Lotus Hands" are now activated to run the 45-Charge *Ecka-Le-eTOR-A Flame Tri-Veca Living Light Currents* of the personal *Ecka-Lota Crystal Body*, bringing your *Veca-Lotum Crystal Body* into Sub-harmonic activation.

You are now ready to initiate awakening of the *90-Charge Ecka-Le-eTOR-A Current* of the personal *Ecka-LotA Crystal Body*, through which your personal Veca-Lotum Crystal Body can begin full-harmonic activation within the Golden Fleece Planetary Arc of the Covenant Host Field.

Initiating Hosted full-harmonic activation of the personal Veca-Lotum Crystal Body via awakening the 90-Charge *Ecka-Le-eTOR-A LotA Crystal Body Currents* is necessary if one desires to conduct Lotus Run Client Sessions on others if one desires to participate in *Le-eTOR-A* Planetary Shields Clinics, and if one desires to clear/ transmute 55R Charge Sho-Na Transposition Fields and their corresponding Miasms and Diasms from the personal anatomy, or that of other beings or the Planetary Shields.

The 90-Charge *LotA Crystal Body Currents* activate within the personal *Lotum* and Flame-body and Bio-fields through activation of the dormant 90-Charge *Le-ADorA Tri-Vectus Master Transmission Code of the LotA Shield* that allows the 45-Charge *Ecka-Le-eTOR-A Flame Current* and *Ecka-LotA Shield* to combine with their counterpart 45-Charge *Ecka-Le-ADorA Flame Currents* (from the parallel *Ecka-LotA Shield* of the parallel Ecka "Stairway to Heaven") to form the powerful 90-Charge *Double Tri-Veca Living Light Units* of the *Eckasha Ad-Don-draea-Amoraea Flame*.

Le-AdOR-A Imprinting

[Le-AdOR-A LotA Initiation: Imprinting the Le-AdOR-A-Tri-Vectus Master Transmission Code, and Initiating Activation of the 90-Charge Le-AdORA Ad-Don-draea-Amoraea Flame Current within the Ra Centre]

Purpose:
To initiate activation of the dormant *Le-AdORA Tri-Vectus* Master Transmission Code within the personal LotA Shield to prepare the LotA Crystal Body Flame Body and Bio-fields for activation of the *90-Charge Le-AdOR-A Eckasha Ad-Don-draea* Flame Currents. Shield Activation of the *Le-AdORA Tri-Vectus Code* initiates merger of the personal Ecka-Lota 45-Charge Le-eTOR-A Flame Currents with the 45-Charge (counterpart Ethos-Etheric Le-AdOR-A currents) of the parallel Ecka-Lota in the parallel twin "Stairway to Heaven" System.

Preparation:
All preceding Techniques, herein, at least one time.

Technique Step 1:
Place the *Le-AdOR-A Tri-Vectus* Master Transmission Code face up (name text toward toes) over the Ra Centre, at the 3rd Solar Plexus Chakra.

Step 2:
Inhale & exhale 3 x 24-Point Lotus Breaths from the AzurA, then on the next 24-Point *Inhale*, visualize or intend that you are drawing an Etheric Ethos Imprint of the Code directly into the core of your Ra Centre centred within the Solar Plexus Chakra. *Exhale* when you sense that you have completed imprinting of the *Le-AdOR-A* Code into the core of your Ra Centre, you now have an Etheric imprint of the *Le-AdOR-A* electro-magnetic Code in the core of your Ra Centre in your Etheric Ethos body.

Step 3:
Return to gentle 24-Point breathing from the AzurA.

Step 4:
On your next *Inhale*, draw a 24-Point breath firmly from the AzurA, using the inhale breath to draw the Etheric Ethos Imprint of the *Le-AdOR-A* Code up from the core of the Ra Centre at Chakra-3 and directly into the AzurA. Intend or visualize the *Le-AdOR-A* Code coming to rest as a single spark of Emerald Green and Heliotaic pastel light within your Seed Atom deep within the AzurA Centre. Exhale gently from the AzurA.

Step 5:
Inhale a 24-Point breath from the AzurA and HOLD the breath for as long as comfortable, to build Ethos-energy charge within the AzurA, and then *Exhale* gently into the AzurA. Next *Inhale*, and rapidly *Exhale* a *2-Point Vertical breath* using the breath to push 2 Emerald Green & Heliotaic Sparks vertically from the AzurA – one Spark running down the Central Vertical Current to the Mahadra in Earth Core – the other Spark running upward through Chakra 14, 36" above the head . and on up into the Adhrana Seal . so that the *Le-AdOR-A* Sparks come to rest *simultaneously* in the Mahadra and Adhrana Ethos Centres by the end of the *Exhale*.

Step 6:
Next, take a deep 24-Point *Inhale* breath into the AzurA, drawing the Mahadra & Adhrana *Le-AdOR-A* Sparks simultaneously into the core of the Ra Centre at Chakra-3. *Exhale* a 24-Point breath into the Ra Centre and imagine that the 2 *Le-AdOR-A Sparks* combine and become a brilliant Emerald Green Star-burst in the core of the Ra Centre.

Step 7:
Take a final slow deep 24-Point *inhale* into the Ra Centre HOLD the breath as long as is comfortable to build charge then forcefully *Exhale* a single-point breath into the Ra Centre Core and imagine that a minute circular "window" now opens within the centre of the Ra Centre Core

Step 8:
Return to gentle 24-Point Ra Centre breathing You may notice a "warming" sensation occurring deep within the body at the Solar Plexus as the Le-AdOR-A Spark progressively releases the *Ecka-Lota Seals* in the core of the Ra Centre

Step 9:
Breathe gentle 24-Point Ra Centre Lotus breaths for a minute or two, waiting for the *Ecka-Lota Seals* in the Ra Centre core, to release

Step 10:
When the Ecka-Lota Seals release there may be a gentle "popping" sensation (or no sensation for some) as 2 beautiful Le-eTOR-A and Le-AdOR-A *Standing Wave Eckasha shaped Flames* of pastel Heliotalic light about 2-3" high, emerge outward from the core of the Ra Centre – their vertical axis running within the Central Vertical Current.

Notice, or imagine, that the Heliotalic Le-eTOR-A and Le-AdOR-A Flames begin to gently rotate around their fixed vertical axis in the Ra Centre. The *Le-eTOR-A* Flame rotates CW-45, all the while on its fixed vertical axis. The parallel Le-AdOR-A Flame rotates 45-CCW, again while fixed on its vertical axis

Step 11:
Now give the mental request-command that the Le-eTOR-A and Le-AdOR-A Flames in the Ra Centre Core initiate their *Merging* sequence to begin blending their counterpart 45-Charge Ecka-Lota Currents to form a thin, powerful Heliotalic Current of *90-Charge Eckasha Ad-Don-draea-Amoraea Double Tri-Veca Light Units* within the Ra Centre Core

Step 12:
Breathe gentle 24-Point Ra Centre breaths . and imagine that the Le-eTOR-A and Le-AdOR-A Flames begin gently blending in the core of your Ra Centre After 30-60 seconds there will be a gentle Etheric-Ethos sparking sensation that you may or may not feel physically, as the 2 – 45-Charge Le-eTOR-A and Le-AdOR A Flames merge, and replicate into a *unified 90-Charge Ad-Don-draea-Amoraea Spark of Ecka-LotA Eckasha* frequency within the Ra Centre Core.

Step 13:
Observe (or imagine) as the Ad-Don-draea-Amoraea Spark expands rapidly from the Ra Centre Core forming an Ad-Don-draea-Amoraea Eckasha-shaped Flame that is centred in the Ra Centre Core it's top tip extends into the AzurA Seed Atom and it's rounded bottom anchors within the E-Umbi-Ethos Centre just below the Navel

Your multi-dimensional and physical anatomy have now activated the *Le-AdOR-A Tri-Vectus Master Transmission Code* enabling your Ecka-LotA Shield and Lotum Crystal Body to initiate Eckasha Ad-Don-draea-Amoraea Flame Activation within your Ra Centre and preparing your Ra Centre to engage the Ecka-LotA Shield for activation of the *90-Charge Double Tri-Veca-Le-AdOR-A-Ad-Don-draea-Amoraea Flame Currents* within the personal LotA, Lotum, Flame Body Bio-fields . and Hands.

Your Bio-fields are now prepared to initiate activation and transmission of the 90-Charge *Le-A-dOR-A-Ad-Don-draea-Amoraea - "Flame of Ra"- Currents* within the Ra Centre to enable you to conduct *Axiom Base Shield Bonding* for personal Crystal Body Christos Re-alignment and Sho-na Field transmutation, and to facilitate the *Lotus Run Client Session.*

Flame Of Ra & "Eyes Of Ra" Activation

The Le-AdOR-A Double Tri-Veca Light Transfiguration Field & Optical Transmission Line Opening

Tools
Le-AdOR-A Tri-Vectus Master Transmission Code (for visual reminder if needed)

Purpose
PART 'A' – FLAME OF RA ACTIVATION. To initiate Full Harmonic Le-AdOR-A-90 *"Flame of Ra" Activation* and initiate *"Flame of Ra" Transmission* ability. To absorb and transmute the Vesica Pisces mutation and re-set the natural Tri-Veca Divine Blue print in the shields. This sets up a protection field around and within the body, and opens the Ecka-Veca Crystal Body LotA to the Ecka Base Shield for Axiom Ethos-Etheric and Crystal Body restoration.

PART 'B' – OPENING THE EYES OF RA (Power-Key Technique): Projecting the Le-eTOR-A Caverns Etheric Hologram for instant "on command" Flame of Ra & Lotus Touch access in preparation for Lotus Run Axiom Base Shield Bonding, and *all* Kathara Level – 4 Master techniques and Grid work.

General Preparation
All "Linking Sequence" techniques and Kathara 2 – 3, Le-eTOR-A & Le – AdOR-A techniques conducted *at least one time* prior.

Immediate Preparation
Kathara – 2, Technique – 2 (Healing Caverns of the Le-eTOR-A Flame); begin this activation by doing the 'Introduction to the Healing Caverns of the Le-eTOr-A Flame' The Kathara – 3, Technique – 4, Flame of Ra Activation is carried out once you are inside the Le-eTOr A Chambers.

KATHARA LEVEL-3, TECHNIQUE 4 – PART 'A' – "FLAME OF RA ACTIVATION"

Step 1
Visualize or intend the Le-AdOR-A symbol code at the forehead. *Inhale* and on the inhale draw the Le-AdOR-A code into the pineal.

Step 2
Exhale and on the exhale push the Le-AdOR-A from the pineal to the AzurA.

Step 3 The Expanding Breath Sequence
Inhale and on the exhale expand the Le-AdOR-A outwards from the AzurA. On the next inhale, retract the now expanded Le-AdOR-A just a little bit and then on the exhale expand it further out. Continue this breathing sequence with the Le-AdOR-A (expanding the Le-AdOR-A out on the exhale and retracting the code in a little on the inhale) until the central area (the 24 Petal Lotus) of the Le-AdOR-A completely surrounds your body.

Step 4
Now visualize or intend a small replica of the Le-AdOR-A at the AzurA. Inhale and on the exhale push the replica to the E-Umbi.

Step 5
Repeat the expanding breathing sequence described in step 3, this time expanding the Le-AdOR-A out from the E-Umbi until the central area of the Le-AdOR-A completely surrounds and permeates your entire body.

Step 6
Now visualize or intend another replica of the Le-AdOR-A at the E-Umbi Inhale and on the exhale push the replica from the E-Umbi up to the Rajhna centre Repeat the breathing sequence as described in Step 3 from the Rajhna centre until the central part of the Le-AdOR-A surrounds your body.

Step 7
Visualize or intend another replica of the Le-AdOR-A Code from the Rajhna and exhale the replica all the way down to the Mahadra centre at Earth Core Repeat the expanding breathing sequence with the Le-AdOR-A from Earth Core and continue until the central part of the Le-AdOR-A surrounds and permeates your body extending as far as Chakra 14, 36" above the head and all the way down to the Mahadra at Earth Core.

Step 8
Now visualize or intend another replica of the Le-AdOR-A at the Mahadra centre and exhale the replica from the Mahadra at Earth Core to the Adhrana centre 36" above the head Repeat the expanding breath sequence as before until the central part of the Le-AdOR-A surrounds and permeates your body extending as far as Chakra 14, 36" above the Head and all the way down to the Mahadra at Earth Core.

Step 9
Preparing for the final stage of this technique, visualize or intend another replica of the Le-AdOR-A at the Adhrana centre 36" above the head and on the exhale, push the replica to the Ra centre, Chakra 3, Solar Plexus area. Repeat the expanding breath sequence once more visualizing or intending the Le-AdOR-A Code expanding out from the Ra centre until the 24 Petal Lotus Centre Point permeates and surrounds your entire body.

Step 10
Maintaining focus on the Ra centre and sensing or intending the Le-AdOR-A Code all around you and permeating you, breathe on a 24 point axis from the Ra centre (Once you are comfortable with breathing on a 24 point axis, visualize or intend breathing from the Ra centre on a 36 and then 48 point axis). Keep breathing in a relaxed but focused manner from the Ra centre on a 24 (or 36 or 48) point axis Become aware of the Ra centre as the control centre for all the other Le-AdOR-A Ethos Flame centres During your every-day activities practise breathing from the Ra centre on a 24 (or 36 or 48) point axis in order to re-energise all the Ethos Flame centres with their expanded Le-AdOR-A symbols around them.

Step 11
When you have spent a few minutes breathing from the Ra centre, bring your attention back to the Le-eTOR-A Flame within the Le-eTOR-A Caverns and prepare to enter the Le-AdOR-A Flame of the Parallel Ecka to open your crystal Body LotA for Ecka Base Shield Bonding Restoration Intend the image of the Le-eTOR-A Caverns to emerge as a small speck of Emerald light at the Pineal.

Step 12 Entering the Le-AdOR-A Flame
Slowly Inhale on a 48-point axis from the Ra Centre to "fire" the first ShA-LA-a – 45 (30-degree Lotus Petals in the Hon'a-til-E-'a state) – and – second Le-eTOR-A – 45 (Zero-point vertical Lotus petals at Full Inhale) Krist Sparks Hold the breath at Full Inhale to "fire" the third Le-AdOR-A – 90 Krist Spark at automatic "Stop Breath" Point (Lotus petals "flash off" in the Le-e-til-E-'a state).

Step 13
Visualise the Le-AdOR-A Code at the Pineal, then use the Exhale breath to *push* the Le-AdOR-A Code into the Ra Centre (Chakra-3 Solar Plexus).

Step 14
As the Le-AdOR-A Code enters the Ra centre, observe as the Le-eTOR-A Caverns "room" and its central Le-eTOR-A Flame opens within your Rahna Centre, expanding outward from a speck of Emerald Light at the Pineal throughout the centre brain region, as if the Le-eTOR-A Caverns "room" suddenly opened up 3-Dimensionally inside of your head Breathe 48-Point breaths from the Ra centre and "lean" into the Le-eTOR-A Caverns image trying to sense the tangibility of its presence, while noticing that deep within the Le-eTOR-A Flame a second Emerald Flame – the Le-AdOR-A Flame, expands outward, merging with the Le-eTOR-A Flame, forming the 3-Dimensional "Flame of Ra" within the 3-Dimensional Le-eTOR-A Caverns "room" inside of your head

Step 15
Continue breathing 48-point Ra Centre breaths, and observe that a large Eckasha-shaped Golden-Silver doorway opens within the Flame of Ra within the Le-eTOR-A Caverns "room" in your head Imagine now that you form a pale-golden-silver "mini-self" replica of your body, and project your "mini-self" into the Golden-Silver Le-AdOR-A doorway You have now entered the Le-AdOR-A Flame

Step 16
Breathe 48-Point breaths gently from the Ra Centre, while focussing your mental attention within the "mini-self" inside of the le-AdOR-A Flame just beyond the Golden-Silver doorway within the Le-eTOR-A Flame. *Feel* the Le-AdOR-A Flame frequencies enter your "mini-self" body and physical body Ra Centres on each Inhale breath *Sense* the merging of the Le-eTOR-A-45 and Le-Ador-A-45 frequencies within each cell of your physical body as the Twin Flames combine in your Ra Centre & cells to form the 90-Charge ***Flame of Ra***.

Step 17 Activating the Optical Transmission Lines – activating the "Eyes of Ra"
Continue 48-Point breathing from the Ra Centre. Call to mind the image of the Le-AdOR-A Code and command-intend that a replica of the Le-AdOR-A Code manifests *within the Adhrana Triangulation* and Hypothalamus regions of your physical brain, as well as within the brain of your "mini-self" within the Le-AdOR-A Flame.

Step 18
Inhale a 48-Point breath from the Ra Centres of both your physical and "mini-self", and hold this breath at full Inhale Imagine-command-intend that the Le-AdOR-A Codes in the Adhrana Triangulation and Hypothalamus now replicate to form 2 sets of 3 identical Le-AdOR-A Codes; one set of 3 in the physical brain, the other set of 3 in the "mini-self" brain.

Step 19
With physical eyes open, Exhale forcefully on a *3-Point Horizontal Axis* from the centre of the physical and "mini-self" brains using the Exhale breath to push the 3-replicate Le-AdOR-A Codes (in each brain) outward – and frontward – 1 Le-AdOR-A Code replica traveling outward through the "3rd Eye" (Chakra-6) and the other 2 replicate Le-AdOR-A Codes simultaneously traveling forwards through the Optic Chiasm, Optical Cords, and Eye-balls. Direct the Optical Projection Lines to *converge into a singular point about 6 feet* in front of you and observe as the 3 Le-AdOR-A Codes merge into one at this Convergence Point.

Step 20
Now, draw a Single-point Inhale breath at the physical body Ra Centre and continue to draw the Inhale breath upward and into the Pineal centre to coincide with the completion-point of full Inhale Hold the Inhale breath at the Pineal for a moment

Step 21
Close your physical eyes and Exhale the single-point breath Horizontally forwards from the Pineal, out the "3rd Eye" (Chakra-6) and straight on out to the Convergence Point of the Le-AdOR-A Codes, 6-feet in front of you As you Exhale, imagine-command-intend that the 3-Dimensional Le-eTOR-A Caverns "room" inside your head, now travels – and expands – outward through Chakra-6, to become 3-Dimensionally manifest all around you, as a 3-Dimensional, 6-foot diameter, Etheric Hologram Sphere extending out from, and all around, your physical body.

Keeping eyes closed, return to gentle 48-Point Ra Centre breathing and *sense the tangible, felt reality* of the Le-eTOR-A Caverns "room" Etheric-Hologram Sphere all around your physical body ...

Step 22
Continue gentle 48-point Ra Centre breathing, and intend your "mini-self" within the le-AdOR-A Flame to now return into your physical body *Feel the 2 aspects of self merge* as gentle breathing circulates the Flame of Ra frequencies through every cell, and notice now that this Flame of Ra circulation extends beyond your physical body and out into your Auric Field and the 3-Dimensional Le-eTOR-A Caverns Etheric Hologram around you

Step 23
Keeping physical eyes closed, take a final 48-Point Inhale from the Ra Centre, and sense that the Le-eTOR-A Caverns "room" Etheric Hologram around you *gently contracts* back into Chakra-6, and the Pineal, as you Inhale into the Ra Centre Give the mental command-intention for the Le-eTOR-A Cavern "room" to *remain as an **Etheric Emerald Crystal*** that you can place anywhere that you desire for storage in your Auric Field or outside of it in another desired location Exhale gently and slowly on a 48-Point axis from the Ra Centre – and *know* that your Flame of Ra and your "Eyes of Ra" Optical Transmission Lines are now activated.

Return to normal breathing or proceed to "Opening the Eyes of Ra" Power-Key technique, in preparation for Kathara – 3, Technique – 5 Axiom Base Shield bonding (or to practice "Opening the Eyes of Ra").

KATHARA LEVEL-3, TECHNIQUE 4 – PART B – "OPENING THE EYES OF RA"

Preparation
Use after K-3, T-4 Part 'A' and its preparatory techniques until completion of the 8 – 12 week Le-eTOR-A Activation Cycle – and – 4-week Le-AdOR-A Amplification Cycle (See K2-3 Techniques Schedule), as preliminary preparation for K-3, Tech'-5 – the "6-Step Lotus Run Axiom Base Shield Bonding", both personal and Client sessions.

Following completion of the Activation-Amplification Cycle, this Technique 4 part 'B' Power Key can be used alone, and at any time, to initiate instant ***"On Command"*** 90-Charge ***Flame of Ra and Lotus Touch access***. Through the activated "Eyes of Ra" you can project the Le-eTOR-A Caverns "room" ***Etheric Hologram Sphere*** 3-Dimensionally around your physical body, at will, for direct Le-AdOR-A Flame of Ra access

Step 1 Flame of Ra Current Access
Begin by recalling the Emerald Crystal storage vessel (re K-3/ T-4 Pt 'A'), retrieving it from it's storage location and intending it to manifest at the Pineal. Inhale/ Exhale a 48-Point Ra centre breath using the Exhale to expand the Le-eTOR-A Caverns "room" 6-foot diameter ***Etheric Hologram Sphere***, from Chakara-6, outward, all around you, giving the mental command: ***"Eyes of Ra Open"***.

Step 2 Directing the Flame of Ra Current
While your physical body is stationed within the projected Le-eTOR-A Caverns "room", *Etheric Hologram Sphere*, you have **direct access to the Flame of Ra** 90-Charge Heliotalic Sub-harmonics (& full harmonics for some applications) for use in *Lotus Run Axiom Base Shield Bonding*, instant *Lotus Touch, Optical Lotus Transmission, Remote Lotus Healing* applications and other advanced Kathara techniques. Simply breathe on the 48-Point Axis from the Ra Centre and on Exhale direct the *Flame of Ra Current Transmission* wherever you choose. (E g. Out specific Chakras, out Lotus Fingers & Palms, out of Eyes, full Auric Field radiance, etc etc.)

Step 3
When you no longer require direct access to *Flame of Ra* transmitting frequencies, Inhale a 48-Point breath into the Ra Centre, while intending that the projected Le-eTOR-A Caverns "room" *Etheric Hologram Sphere* contracts back through Chakra-6 and in to the Emerald Crystal storage vessel at the pineal, on the Ra centre Inhale. Mentally intend that the Emerald Crystal storage vessel assumes the storage location that you desire.

Lotus Run – Axiom Base Shield Bonding

Introduction to Kathara Level – 3, Technique – 5A & B and the 6-Step Lotus Run Session

The process of Healing Facilitation through Crystal Body Alignment is a powerful, multifaceted, complex, Master's Spiritual Healing Technology that utilises a specific sequence of natural procedures through which Sho-Na Transposition Filters and Miasmic distortions within various aspects of the Multi-dimensional Anatomy can be systematically cleared, to allow the ... organic personal Crystal Body, Miodic-Diodic Gnd, Axiom and DNA Templates, Axiom-Meridian-Radis-Nadis Lines, Radial Body, electrical & magnetic field polarity, Chakras and Etheric Blueprint ... to be progressively restored to natural order and function.

The Kathara Level 2 – 3 Foundations programme focuses upon generating sufficient charge of frequency within the personal Shields to allow for Ra Centre activation, the minimum frequency charge required to initiate the Crystal Body Alignment Procedure Sequence. Once Ra Centre and "Flame of Ra" activation is established (Kathara Level – 3, Technique – 4, refers), to allow for Crystal Body access, the first step in Crystal Body Alignment, the *Lotus Run Axiom Base Shield Bonding* is initiated (Kathara Level – 3, Techniques – 5A-B refer) to prepare the personal Multi-dimensional anatomy for progression through the specific sequence of in-depth energetic procedures by which progressive Crystal Body Alignment can be achieved.

The Kathara Level – 3 Programme culminates in fulfilment of the *first step* in the Crystal Body Alignment procedure sequence, Lotus Run – Axiom Base Shield Bonding. The Kathara Level – 4 Programme will feature the next portion of the Crystal Body Alignment procedure sequence, initiating the powerful Ecka-Heliotalic Frequency Activations of the *"Ka Centre"*, *"Pillar of Power"* and *"Chariot of Fire"*; all of which involve re-awakening of the long-dormant, natural, Etheric Ethos and Eiros Frequency Spectra through which integrity can be restored to the Etheric Blueprint to allow for genuine Crystal Body restoration and corresponding natural restoration to the matter-body systems. The Lotus Run featured in Kathara Level – 3 initiates Crystal Body Alignment while preparing the Multi-dimensional anatomy for Master's Crystal Body Alignment and Restoration procedures featured in Kathara Level – 4.

The Lotus Run Axiom Base Shield Bonding procedure utilises the 90-Charge Le-AdOR-A Ad-Don-Draea Current, via the Lotus Touch, to initiate natural sub-harmonic opening of the energetic conduits between the Veca PCM-LotE and the Ecka-Lota Crystal Body levels, to allow for the PCM-LotE Axiom and DNA Templates to access, and re-awaken, their organic electro-magnetic bond to the personal *First Creation Imprint* within the personal Ecka Base Shield.

The Lotus Run activates the natural 3 – 6 – 12 – 24 – 48 Base Pulse Rhythms of the Ecka Base Shield within the 24 Embodied PCM Lotus Centres, thereby re-introducing organic Base Pulse Rhythms into the LotE Axiom and DNA Template, which allows the Axiom and DNA Templates to re-establish the organic electro-magnetic bond to the personal *First Creation Imprint* of the Ecka Base Shield through the energy conduits of the Ecka-Lota Crystal Body.

Once bonded to the Ecka Base Shield, the Axiom Template begins a slow process of resetting the organic Base Pulse Rhythms and mathematical-geometrical programmes to the Interior and Exterior Magnetic Axiom Lines, *initiating the process* of slow, but steady, *Sho-Na Transposition Filter* and *Miasmic Transmutation.*

The most important attribute of re-establishing the natural Axiom Template Bond to the Ecka Base Shield is, that once the Base Shield is Bonded, the Axiom Template and corresponding Miodic Vortex Grid and magnetic fields progressively enter electro-magnetic phase lock with the personal First Creation Imprint of the Ecka Base Shield Base Shield Phase Lock of the Axiom Template progressively stabilises the Axiom Template within the natural Base Shield Base Pulse Rhythms preparing the personal Axiom Template DNA Template, Miodic Vortex Grid and magnetic fields to *retain structural integrity* during the intense Ecka-Heliotalic Frequency Infusions that occur during Ethos-Etheric Blueprint *"Pillar of Power", "Chariot of Fire"* and *Ka Centre Activation* Crystal Body Christos Alignments featured in the Kathara Level – 4 Programme

The Axiom Template Ecka-Base Shield phase-lock that is established through the procedure of Lotus Run Axiom Base Shield bonding also assists the Axiom Template, Axiom Lines, DNA Template, Kathara Grid, Shields, Magnetic Merkaba Field Chakras and Seed Atom to retain organic structural integrity during environmental conditions associated with R55 Tandem Current frequency infusions that occur during planetary Sho-Na Transposition Filter activations.

Thus, Lotus Run Axiom Base Shield Bonding Technology can assist in the development of progressive immunity to planetary Sho-Na Field environmental influences.

KATHARA LEVEL-3: THE 6-STEP LOTUS RUN (AXIOM BASE SHIELD BONDING) CLIENT SESSION

The K-3 Client Session can be offered as a means to amplify, intensify and expedite healing within all aspects of the Multi-dimensional anatomy through initiating Divine Blueprint Restoration within the Clients' Crystal Body Template. The K-3 session re-awakens the long-dormant organic connection between the clients' Ecka-Lota and Density Lotum Crystal Body aspects of multi-dimensional anatomy, allowing for the Axiom Template, DNA Template and corresponding anatomy levels to re-establish their natural electro-magnetic Phase Lock Bond to the personal "First Creation Imprint" in the Ecka Base Shield, thus fortifying and stabilising the organic personal Divine Blueprint within the Lotum Crystal Body and Axiom/ DNA Templates, to initiate Crystal Body Alignment in preparation for natural Polarity Realignment within all levels of the clients multi-dimensional anatomy.

The K-3 Client Session amplifies the strength and quantity of natural Ecka-Heliotalic Currents within the Clients' Shields through sub-harmonic activation of the clients' Ra Centre, progressively stimulating the automatic regeneration of sufficient Ecka-Heliotalic Frequency Thrust through which environmentally induced STF's (Sho-Na Transposition Filters) can be naturally transmuted to eventually free the Axiom/ DNA Templates and all aspects of the multi-dimensional anatomy from the effects of the Planetary Tandem Harness STF Field

Through the process of Axiom Base Shield Bonding the K-3 client session prepares the clients' bio-systems to retain natural structural integrity during the intensive, and in-depth, Crystal Body Alignment and Polarity Realignment processes featured in the Kathara Level – 4, 6-Step Hon'-a-til-E-'a Run Client Session, while stimulating the clients' Organic Imprint for Health to generate progressive electro-magnetic resistance to the effects of environmental STF frequencies.

The initial K-3 Client Session needs to be run only once after a minimum 3-day integration period the **Secondary Lotus Run** (K-3, Tech'-5B – "Amping the Charge" – Amplified Lotus Run Follow-Up Session, page T61) can be offered to strengthen and amplify the Clients' Axiom Base Shield Bond if the client desires follow-up K-3 Sessions. **NOTE: There should be a minimum 3-day integration period following any K-3 Session in which NO additional multi-dimensional healing modalities should be applied.**

K-3 Secondary Lotus Run Follow-Up Sessions should be conducted only **once every 2 – 3 months, or more,** to allow for ample integration time. K-3 Secondary Lotus Run Follow Up Sessions are **recommended twice per year, within 6-days prior to, or 6-days following** the **Planetary HetharO** (May 27th) **and Hethalon** (August 12th) electrical and magnetic Merkaba Peak Spin periods, to assist the bio-fields in establishing, and retaining, co-resonance with Earths' Planetary Base Rhythms.

KATHARA LEVEL – 4: THE 6-STEP Hon'-a-til-E-'a RUN

The K-4 Client Session will offer *"Pillar of Power"*, *"Ka"* and *"Tha" Centre* and *Lota Crystal Body* Divine Blueprint Alignment advances, via clearing and transmutation of "Planetary Karma" Polarity Reversals which are caused by the environmental STF Tandem-Sextant Harness. The K-4 Session will allow the clients' Organic Imprint for Health to progressively run Ecka-Heliotalic frequencies sufficient to transmute the 55R Tandem STF Fields, enabling natural polarity realignments to the personal Divine Blueprint to initate within the DNA Template, Axiom-Meridian-Radis-Nadis Lines, Miodic-Diodic Grid and Chakra Vortex Systems of the multi-dimensional anatomy, initating restoration of the Organic Imprint for Health within the anatomy corresponding to the Pre-externalisation and Externalisation Phases of the Manifestation-Transduction Sequence.

Through the initiation of clearing the "Planetary Karmic Imprint" within the clients' personal Crystal Body and Multi-dimensional Anatomy, the K-4 Client Session will assist the client in becoming free from Planetary STF environmental influences, allowing the long-dormant natural **Crystal Body Breathing Process**, and **Eternal Kristic Energy Exchange**, to resume within all levels of Multi-dimensional anatomy, thus restoring the potentials of the **Eternal Life Evolutionary Option**, whilst generating progressive immunity to the effects of Planetary STF Frequencies.

Facilitators Preparatory Procedure For Technique-5:
The Lotus Run, Axiom Base Shield Bonding
(PERSONAL & CLIENT)

Tools: The 24 Lotus Points Chart (for visual reference & accuracy)
The Lotus Touch Fingers Position Chart (if needed for reminder purposes)
The Le-AdOR-A Tri-Vectus Master Transmission Code Chart **
The Le-eTOR-A Hand Imprinting Chart **
(** For use in secondary maintenance sessions only)

Purpose: The **Lotus Run** Technique utilises the 90-Charge *"Flame of Ra"* via the *Lotus Touch*, for activation of the organic **Ecka Base Shield 3 – 6 – 12 – 24 – 48 Base Pulse Rhythm** within the 24 embodied Lotus Points, re-establishing the natural **Phase-Lock Bond** between the PCM-LotE **Axiom Template** and the **Ecka Base Shield** via the **Ecka-Lota.**

The **Axiom Base Shield Phase-Lock Bond** stabilises the Axiom Template, Axiom Lines and corresponding magnetic fields to generate progressive resistance (immunity) to **Sho-Na Transposition Filter** (STF) 55R Tandem Currents while initiating restoration of natural *Base-Pulse Rhythms* and transmutation of Sho-Na Fields within the Axiom Template, Axiom Lines and embodied magnetic fields

Lotus Run Axiom Base Shield Bonding technology allows the Axiom Template, and corresponding anatomy, to progressively *regain, and sustain, structural integrity* during personal and environmental, STF activation, and prepares the Axiom Template to retain structural integrity during the Frequency Infusions associated with restoration of the *Ethos-Ethenc Blueprint* and activation of the Lota, which are featured in the Kathara-4 Masters Programme

General Preparation: All "Linking Sequence" techniques and previous K2-3 Le-eTOR-A and Le-AdOR-A techniques, *at least* one time prior.

Immediate Preparation:

OPTION ONE — Primary Lotus Run Preparation

(For Lotus Run Sessions conducted during the 8 – 12 week Le-eTOR-A Activation Cycle & 4-week Le-AdOR-A Amplification Cycle)

- Run the following sequence a MAXIMUM of **3 hours prior** to engaging the Lotus Run.
  A: Kathara Level – 2, Technique – 2, "Healing Caverns of the Le-eTOR-A Flame" (to enter Flame)
  B. Kathara level – 3, Technique – 4A; "Flame of Ra" Activation (to ensure Ra Flame is active)
  C. Kathara level – 3, Technique – 2, "Lotus Touch Quick-Fire" (to activate Lotus Hands)
  D: Proceed to Power-Key Lotus Run Preparation Step 'E'

OPTION TWO Power-Key Lotus Run (Rapid Access) Preparation

(Preparation above, Steps A, B, & C can be omitted, following completion of the 12 – 16 week Activation/ Amplification Cycle – and – only if Kathara – 3, Technique – 4B "Opening the Eyes of Ra" Power-Key has been *consistently used once every 12 days thereafter* **).

- **Immediately prior** to engaging Lotus Run:
  E: Run Kathara Level – 3, Technique 4B; "Opening the Eyes of Ra" Power-Key (to enter Le-eTOR-A Flame, activate Ra Flame, open optical transmission lines & activate Etheric Hologram in field); Power-Key Hand Positions: Hold palms in **"prayer position"** in front of **AzurA** on Power-Key 1st **Inhale** breath, then bring hands into the **Lotus Touch Fingers Position** on Power-Key 1st **Exhale** breath (to activate Lotus hands)

  Personal Lotus Run Session
  F – proceed immediately to Lotus Run Engagement. (Optional) Kathara Level – 3, Technique – 5B, "Amping the Charge" – amplification of Lotus Run for follow up sessions.

  (** If the Power-Key 12 – day maintenance cycle has *not* been run consistently, following completion of the 12 – 16 week period, either re-set Power-Key (see Techniques Schedule #3) 24 hours before engaging a Power-Key Lotus Run – OR – use the Primary Lotus Run preparation procedure).

  Client Lotus Run Session
  G – Position client lying down comfortably, on back, in a relaxed state – ensure that room temperature is neither too hot nor too cold for clients' general comfort.
  H – release hands from Lotus Touch Finger Positions, from E, and run the Kathara Level – 1, 6 – Step Mahanc Re-coding Process on the client, adding the Kathara – 3, 6 – Step Lotus Run procedure as an "additional modality" before closing the Mahanc Re-coding Session
  I: Client Lotus Run Session – Inhale a 48-Point breath at the Ra Centre and up to Pineal/ Rajhna while briefly resuming **"praying hands"** position in front of (own) **AzurA** during **Inhale**. Exhale an Emerald Green Spark from the Pineal/ Rajhna out the 3rd Eye Chakra-6 and imagine it's frequencies radiate out and into the 6-foot Le-eTOR-A Cavern Etheric Hologram Field around you as you return your hands to the **Lotus Touch Fingers Position** on the **Exhale** breath
  J: Proceed immediately to Kathara Level – 3, Technique – 5; "Lotus Run – Axiom Base Shield Bonding".

NOTE. Client Lotus Run Sessions should be conducted *after* a client has received Kathara Level – 2, 6-Step Flame Body Activation Session during a previous visit. The Flame Body Activation Session does not need to be repeated to engage Kathara Level – 3 Lotus Run, but it IS necessary that the client has received a K-2 Flame Body Activation Session *at least once* prior to the first Lotus Run Session, or else the Lotus Run will not initiate within Clients' Multi-dimensional Anatomy

The Six Step Lotus Run – Axiom Base Shield Bonding
(PERSONAL & CLIENT)

Tools: Stop-watch – or – clock with an easily visible seconds pointer-hand is helpful.

Preparation: Complete appropriate K-3, Technique-5 General and Immediate preparation Steps for Primary, Power Key or follow-up Lotus Run before engaging .

Note1: Tap-Code Base Pulse Rhythm (BPR) Induction and the Elbow-Wrist Cross-over

All Tap Codes BPR's are to be induced into Lotus Points at the Etheric Body level, 1-2" above skin, not directly on skin. No physical touch is required in the Lotus Run Procedure. Tap-Code BPR's can be induced with one hand on one Lotus Point or, to save time with 2 hands over 2 Lotus Points that are on the same horizontal plane (a "Lotus Point Pair"), always keeping the fingers of both hands in the Lotus Touch Fingers Position *throughout* the Lotus Run Session, to keep the "Flame of Ra" Currents flowing. Always begin with the Lotus Points in the upper-most Shield, and with the upper-most pair of Lotus Points, in each Shield 6-Set, working downwards.

Single Hand Induction: Use the RIGHT (+ve) transmitting hand only ** (below) and begin with the uppermost Lotus Point on the LEFT, then proceed to the Lotus Point on the RIGHT of the same horizontal plane. Move downward, again starting with the Lotus Point on the Left side of the body, then the Right side, continuing this Left to Right sequence with RIGHT Hand Induction, moving downward through the Lotus Run, *remembering* to keep *both* the active and inactive hands in the Lotus Touch Fingers Position *throughout*..

Two Hand Induction: Enter Tap-Code BPR *simultaneously* into a PAIR of Lotus Points (the Left + the Right on the same horizontal plane), again starting with the uppermost Shield, and uppermost Lotus Point Pair, in each Shield, working downward.

**** The Elbow-Wrist Cross-over and the Personal Lotus Run Session (BPR Self-induction):**

When engaging a single-hand personal Lotus Run Session it is necessary to use the LEFT Hand to induce BPR into the Lotus Points in the RIGHT elbow and wrist. Switch to LEFT Hand induction when you come to these Points in the Lotus Run Sequence, then immediately switch back to RIGHT hand induction. When engaging a 2-Hand Personal Lotus Run Session, cross your arms loosely in front of your stomach, with the LEFT Fingertips to the RIGHT INSIDE ELBOW and the RIGHT Fingertips to the LEFT INSIDE ELBOW (for simultaneous Elbow Lotus Centre access), and position the fingertips of BOTH hands to OPPOSITE wrists for simultaneous Lotus Point-Wrist access.

Consolidated Tap-Code Induction Follow-Up Sessions and the *Synchronised Pause-Interval Method*:

It is recommended that *during the first Lotus Run Session* (personal or client) each of the 5 (3-6-12-24-48) Base Rhythm Tap-Codes are *run separately* through the entire sequence of 24 Lotus Points, for example, the 3 – Tap-Code is entered sequentially into all 24 Lotus Points, then the Lotus Run Sequence begins again with the 6 – Tap-Code, returning to the top 6 Lotus Points, again working downward, etc. as before. This process is more time-consuming as it requires 5 separate Lotus Run Sequence-Sets, each entering only one Tap-Code Base Pulse Rhythm, BUT it is the MOST effective

method to ensure that the Lotus Points have picked up the proper Tap-Rhythms during the initial Lotus Run Session. In Secondary, Follow-up Sessions it is fine to consolidate Tap-Code BPR Induction by entering the 3 – pause – 6 – pause – 12 – pause – 24 – pause – 48 – pause Consolidated Tap-Code BPR into each Lotus Point – or – Lotus Point Pair as you progress through the sequence.

Consolidated Tap-Code Induction fosters shorter session time – or – each Lotus Point needs encoding only one time, this method is effective in *follow-up* Lotus Run Sessions as long as there is a *clear* and – *distinct* PAUSE PERIOD between each Tap-Code BPR.

Ideally the *Pause* following an induced Tap-Code should span *the number of seconds corresponding to the Tap-Code entered, just before 'Pause' begins* (Tap-Code 6 = 6 seconds, etc.). This is called the ***Synchronised Pause-Interval Method*** – and is the most effective Consolidated Tap-Code Induction Sequence to ensure BPR Induction accuracy.

The Synchronized Pause-Interval Method:
Tap 3 – Pause 3 seconds – Tap 6 – Pause 6 seconds – Tap 12 – Pause 12 seconds – Tap 24 – Pause 24 seconds – Tap 48 – pause 48 seconds . before moving on to next Lotus Point Induction. A 12" diameter wall clock, with second's hand, would be most helpful .

Action 2: Proceed downward to the *6 "U" Upper Lotus Points* in the *shoulders chest* and *inner elbows*, which correspond to PCM Density-3 Teuric Shield Enter the *3-Tap Code BPR* first in to the shoulder "U" Lotus Point Pair, then move to the chest "U" Lotus Point Pair, enter Tap Code then complete with entering the 3-Tap Code in the inner elbow "U" Lotus Point Pair (for personal self-induction see the "elbow-wrist cross-over" in preceding section)

Action 3: Proceed downward to the *6 – "M" Middle Lotus Points* of upper abdomen and wrists, which correspond to PCM Density-2 Doradic Shield Enter the 3-Tap Code BPR, first into the uppermost upper-abdomen "M" Lotus Point Pair then move to the next upper-abdomen Lotus Point Pair and 3-Tap Code, completing with entry of the 3-Tap Code in the Lotus Point Pair at the wrists(for personal self-induction see the "elbow-wrist cross-over" in preceding section).

Action 4: Proceed downward to the final *6 "L" Lower Lotus Points* of the lower abdomen knees and ankles, which correspond to the Density-1 Telluric Shield Enter the 3-Tap Code BPR first into the Lower abdomen "L" Lotus Point Pair then move down to the "L" Lotus Point Pair at the knees and enter the 3-Tap Code BPR at the Ethenc body level *behind the knees* at the small knee chakra – *or* – directly over the front of the knee cap (either position is equally effective) Complete with entering the 3-Tap Code BPR into the "L" Lotus Point Pair at the ankles, entering the tap Code at the Ethenc body level directly *over the front of the ankle joint* where the ankle and the foot meet (you can also enter the Tap Code on the *inside of the ankle* just to the rear of the ankle bone – or – in the small chakras on the *top-side of the feet* if desired (either of these positions are equally effective)

Step 2: **Initiating the Base – 6 Arc of the Covenant Base Pulse Rhythm**

Action Repeat Actions 1 – 2 – 3 – 4 of Step 1, using a 6-Tap Code BPR, inducing the Base – 6 Arc Shield Base Pulse Rhythm *sequentially* into each of the 24 Lotus Points

Step 3: **Initiating the Base – 12 Ecka-Eleyani Base Pulse Rhythm**

Action Repeat Actions 1 – 2 – 3 – 4 of Step 1 using a 12-Tap Code BPR, inducing the Base – 12 Lotum Shield Base Pulse Rhythm *sequentially* into each of the 24 Lotus Points

Step 4: **Initiating the Base – 24 Ad-Don-draea Base Pulse Rhythm**

Action Repeat Actions 1 – 2 – 3 – 4 of Step 1 using a 24-Tap Code BPR inducing Base – 24 Ecka-Lota Shield Base Pulse Rhythm *sequentially* into each of the 24 Lotus Points

Step 5: **Initiating the Base – 48 AdonA Base Pulse Rhythm**

Action: Repeat Actions 1 – 2 – 3 – 4 of Step 1 using a 48-Tap Code BPR, inducing Base – 48 Le-AdOR-A Shield Base Pulse Rhythm *sequentially* into each of the 24 Lotus Points

Step 6A: **Activating the Lotus Run – Ra Centre Consolidated BPR Induction**

Action 1: Using both hands, still in the Lotus Touch Fingers Position enter the 3 – 6 – 12 – 24 – 48 Consolidated Tap Code BPR into the Etheric Body Level just above the Ra Centre, Tapping the Codes *simultaneously with each hand* - and pausing between each Tap Code before moving to the next To ensure Tap Code Induction Accuracy, use of the ***Synchronised Pause Interval Method*** (See Note-2 at beginning of this Technique) is recommended for Step-6A, Action-1

Action 2: When Step-6A, Action-1 is complete, ***either*** proceed to optional *Step-6B* – or – give the Mental Command *"Eyes of Ra" Close* (to disengage Flame of Ra and Le-eTOR-A Etheric hologram) while releasing hands from the Lotus Touch Fingers Position, then complete the closing steps of the Kathara Level-1 Mahanic Re-Coding Process.

Step 6B: **Optional – The "Breath of Ra": Amplified Cellular Breathing – Energising the Fields**

Action 1: Release hands from the Lotus Touch Fingers position and allow your bio-field to momentarily "enter it's own space" Gently breathe a few 48-Point Ra Centre Inhale-Exhale breaths and when you feel "ready" complete with *3 x's 48-Point Inhale Exhale breaths* from your Etheric E-Umbi Point During these "E-Umbi breaths" imagine that you are *standing within the Centre Point of the Ecka-Le-eTOR-A Central Flame, the Point of Eternal ManU Stillness* from which Creation and All Motion emerge Try to *Embody this Feeling of Stillness* (and, meanwhile, during a K-3 Client Session, move back to position at either side of the Client)
